General Westmacott, who has just returned to Muzrai, after visiting the scene of the fighting has recovered 22 bodies of the British slain and inflicted heavy loss upon 300 of the enemy who opposed him. The British force lost one man killed and had eight men wounded in the bitter engagement.

General Sir William Lockhart, who has just been relieved of the command of the frontier forces by General Sir Arthur Power Palmer, sails for England on Saturday next. In an interview he has expressed his opinion that a spring campaign against the tribesmen will be necessary.

KILLED ON THE TRACK

AGENT OF A LOAN ASSOCIATION MEETS DEATH SUDDENLY

(Special to the Times.)

Niagara Falls, N. Y., Feb. 1.—A few minutes before eight o'clock this morning W. G. Gates, general agent of the New York National Building & Loan Association, and also manager of the Niagara Falls Metal Sign Company, was killed near the 8th street crossing by a Lehigh Valley train. Gates was walking on the tracks and had stopped aside to allow a freight train to pass when the Lehigh, which was late and was running hard to make up time, struck him and buried him about twenty-five feet from the track. His neck and ribs were broken.

BOARD OF EDUCATION

The School Board of 1897 Holds Final Session

Communications Received—Many Reports Presented—Satisfactory State of School Property—Kindergarten Trouble Dealt With

(Special to the Times.)

The regular meeting of the Board of Education was held last night. Mr. Peter Hamilton occupied the chair and there were present Messrs. W. H. Hill, J. J. McEwen, Dr. Burnham, W. B. Burnham, Jas. Edgecombe, Dr. Caldwell, Jas. Stevenson, L. M. Hayes, and W. G. Morrow, secretary.

COMMUNICATIONS

The following communications were read:

From Mr. Peter Gillespie accepting the position as principal of the West ward school.—Received.

From the Synoptical Chart Co. concerning school appliances.—Received.

INSPECTOR'S REPORT

The following report from School Inspector Walker was read:

To the Chairman and members of the Board of Education:

Gentlemen:—For your information the following, taken from the annual report is submitted.

During the year 1897 there were rolled on the public school rolls 1731 pupils, 873 boys and 858 girls. The average attendance was 1219 or 70 per cent of the enrollment. The total number of pupils exceeds that of 1896 by 85 while the average was 11 less. This decrease was no doubt due to the marked irregularity during the months of October, November and December. During the first half of the year the average was 1258 or an excess of 28 over that of the preceding year.

The attendance in the different schools was as follows:

| Schools | Roll | Aver | P. C. |
|---------------|------|------|-------|
| Central | 618 | 428 | 69.4 |
| South Central | 556 | 399 | 71.8 |
| Park Street | 221 | 154 | 69.7 |
| Barnard Ave. | 215 | 152 | 70.7 |
| George Street | 123 | 85 | 69.1 |
| | 1731 | 1219 | 70.1 |

Of the pupils 49 attended less than 20 days, 123 between 21 and 50 days; 258 between 51 and 100 days; 361 between 101 and 150 days, and 940 between 151 and 200 days. 103 pupils between the ages of 8 and 14 attended less than 100 days.

The classification of the pupils was as follows:

| Part I Reader | 458 |
|----------------|-----|
| Part II Reader | 300 |
| Third Reader | 299 |
| Fourth Reader | 341 |
| Fifth Reader | 332 |

The kindergarten had an enrollment of 223 with an average of 85. The former was 17 and the latter 7 less than that of the preceding year.

Of the teachers engaged 1 holds a first-class provincial certificate, 23 second-class provincial and 1 county board certificate. The average experience of the teachers is 12 years, and they have been employed in Peterboro for an average time of 8.1 years.

It may be of interest to note the average ages of the pupils in the different grades in the present month. They are as follows:

| No. on | Aver | Age |
|------------|------|------|
| Senior IV | 114 | 14.2 |
| Junior IV | 138 | 13.8 |
| Senior III | 114 | 13.2 |
| Junior III | 169 | 13.1 |
| Senior II | 121 | |

PETERBOROUGH, FEBRUARY 2, 1898

AN UNWARRANTED COMPARISON

At the Liberal meeting here last week, Hon. Mr. Ross, in dealing with the cry "It is time for a change," used an illustration which caused much misapprehension, and which did much to lessen the value of that gentleman's address. The argument was severely criticized at the time by many of the audience, as it almost amounted to an insult to the ladies present. The Minister of Education said that, supposing a man had been married for twenty-five years and his wife had died by him through good and evil, how would he feel if a younger woman should come to him and ask him to put his wife away and take her husband, suggesting at the same time that "it was time for a change." No honorable man, the speaker continued (and he was perfectly right), would even think of such a thing. Therefore, Ontario should not change, the speaker concluded, as if the two cases were analogous.

The comparison was horribly vulgar and offensive to every sensitive lady and gentleman in the audience. To say the least it was indecent. It was unbecoming a man holding the position Mr. Ross does, and its bad effect was felt as long as his speech continued. But that is not the point with which we wish to deal. The comparison was entirely irrelevant. The connection between the two ideas is

too slight to allow of their being placed in such a juxtaposition. When a man marries his wife it is to be a union for life. There is to be no change and it is so ordained and understood. When a parliament is elected and a government chosen it is taken for four years. It is taken on trial. It is understood that it is but the paid servant of the people, and open to dismissal by the people whether its acts have been good or bad. The province is under no obligation to sustain it as Mr. Ross would imply. The two ideas are as far apart as the two poles of the earth, and Mr. Ross' comparison was an attempt to blind the eyes of the public to the true facts of the case. It was but right that I should act as a boomerang to his own cause, which it most assuredly did.

A SPLENDID SHOWING.

In to-day's issue we publish a report well worthy of careful reading and consideration—the annual report for 1897 of the North American Life Insurance Company. The insurance business, and especially life insurance, is now universally recognized as one of the most important and extensive products of the century now drawing to a close. The start of the insurance enterprise was unassuming, its scope of work was limited, its field of action narrow. To-day it stands almost pre-eminent as one of the most noteworthy and astonishing of the many successful business innovations of modern times. Its growth has been marvellous. Every portion of the civilized world comes under its influence. The capital invested in it has grown enormously. The total business transacted yearly is almost beyond comprehension.

We can not study the financial and industrial aspects of the insurance business without also having thrust upon our notice its philanthropic side. Before the practice of life insurance became prevalent, the death of the father or supporter of a family meant misery and suffering to them unless they were in good circumstances. The children of a poor man had either to be taken in charge by the public or cared for by friends. Now, by the careful investment of a small part of the for the comfort and happiness of those yearly earnings, provision can be made left behind should death carry away the supporter of the family.

By means of the endowment policy a safe-guard can also be provided against the suffering often consequent upon old age. A few cents every day which if spent otherwise would never be noticed, will, invested in a safe endowment policy bring a splendid return to the holder. Many a man after the prime of life has passed has bitterly regretted that he did not look forward to this time when in his youth, and thus brought about a happy and contented old age.

The number of people throughout the world who are benefitted directly or indirectly by the insurance business is incalculable. First, of course, is the great army who receive every year from the companies the risks payable upon the deaths of the policyholders. The number of persons employed in the many branches of the business is truly vast. The capital invested brings an immense return every year to the investor in the form of dividends.

The North American Life is one of the oldest and most substantial insurance concerns operating in the world to-day. Its career has been a string of successes and it is, under the management of a wise directorate and capable agents, taking a higher position every year. Its assets have grown rapidly year by year until now it takes a leading position in this respect. Its large surplus is a sufficient guarantee of the company's solidity. The new business written up last year exceeded that of any other year in the company's history. This is a most satisfactory showing. We feel pleasure in congratulating the company on its success, and recommend all our readers to give a careful perusal to their report.

The officers of the company stand high in Canadian business and financial circles. They are Mr. J. L. Blaikie, President; Hon. G. W. Allan and Sir Frank Smith, Vice-Presidents; Mr. J. Goldman, Secretary; and Mr. Wm. McCabe, Toronto, General Manager. Mr. J. W. Garvin with an efficient staff of assistants looks after the local interests of the company.

Ontario, like the crow, seems to have caws of complaint.

Mr. Garvin hopes to be more widely known this year as J. W. Garvin, M. P.

Mr. J. W. Garvin bears up well under the heavy burden of his mission to save Ontario.

An Ottawa despatch says that Mr. Mullick, Grit M. P. for North Wellington, is at the capital urging the Government to carry out their pre-election promises. This must be a joke.

"There were giants in those days." Those days were very different from the present days if the Ontario politicians are to be taken as representative men.

J. W. Garvin has studied for ten years—may, ever since he was at the university—to fit himself for the Legislature. "The best laid schemes of men and mice oft gang a-gley."

NORTH AMERICAN LIFE

Still in the Front Rank

The annual meeting of this company was held at its head office in Toronto on Jan. 25th. Mr. John L. Blaikie, President, was appointed Chairman, and Mr. Wm. McCabe, Secretary. The directors' report, presented at the meeting, showed marked proofs of continued progress and solid prosperity in every leading branch of the company's business. Details of the substantial gains made by the company during the past year are particularly referred to in the remarks of the President and report of the consulting actuary.

Summary of the Financial Statement and Balance Sheet for the Year Ended December 31st, 1897:

| | | |
|-------------------------------|---|-------------|
| Cash income | including death claims, endowments, matured investment policies, profits, and all other payments to policyholders | \$9,550,491 |
| Assets | | 451,367,201 |
| Liabilities | | 277,477,222 |
| Net surplus for policyholders | | \$1,732,269 |

WM. McCABE, Managing Director.
JAS. CARLISLE, M.D., Auditor.

Mr. W. T. Standen, of New York, the company's consulting actuary, in his full and detailed report of the year's operations, said:—

"I have very carefully examined the accounts and balance sheet of the company, as at December 31st, 1897, and beg leave to report to you as follows, upon the result of my examination:—

"Your obligation for investment policies that matured in 1897 called for an outlay of over \$9,500—the individual settlements not only being generally satisfactory, but, as a matter of fact, comparing more than favorably with the settlements made by other companies upon similar forms of policies."

"The covering of this obligation, together with \$136,579.96 paid to beneficiaries under policies that matured by death of the insured, \$25,005.10 paid for matured endowments, \$1,240.46 paid to annuitants, and \$13,101.04 paid for surrendered policies, gives a total of over \$271,000 paid out during the year to policyholders alone."

"These and several other items of disbursement in a life insurance company business are practically uncontrollable—some other items involved in the cost of management being more or less under control. It is, therefore, very gratifying to me, as an evidence of very careful management to note that these controllable expenses are less than 8 per cent. of your total disbursements."

"The continued tendency to lower rates of interest, upon such strictly first-class securities as you are authorized to invest in, emphasizes the wisdom of your management in having begun two years ago to compute reserves on new business upon that high standard of value known as the H.M. 4 per cent. table. The course now being pursued must be of the utmost advantage, because it is year by year applying this more rigid test to a larger and larger volume of your business, without materially disturbing your current accumulation of surplus."

"This feature also enters, with other considerations, into the important question of reducing the estimates of future surplus on investment policies, which is a necessity recognized by all the life companies. I, therefore, heartily recommend that your company adopt the estimates herewith submitted by me, as-d, as they are, upon existing conditions, and resulting in an increase of the actual settlements now being made by the best-managed companies."

"I am glad to see that the increase in your cash income in 1897—\$57,762.41—is greater than the gain effected in the previous year—\$48,000.00."

"The gain has been effected in spite of the conservative basis of valuation, which has been applied to the assets of the company. For instance, the market value of your debentures, etc., is \$21,453.15 in excess of the value at which they are carried in your statement. Following the course usually pursued, you could have properly increased your surplus account over \$21,000."

"The new business written in 1897 being 2,821 policies, insuring \$5,566,024 (being the largest in the history of the company), is a very handsome result, in view of increased competition in such a limited field, and especially of the financial conditions that existed throughout the greater portion of the year. I regard it as a most satisfactory showing, and the bulk of the business is upon long-term investment plans, most favorable to the policyholder, as well as to the company, from every point of view."

"An extremely satisfactory feature of your business is its growing prosperity—a most important element, tending to the upbuilding of the company and the increasing of its surplus-earning capacity. This indicates to me—having many years' experience in field work—that your agents must be a class of men thoroughly versed in their work, and that the company's plans are well adapted to meet the needs of the insuring public. Naturally, the unsurpassed strength of the company, coupled with such desirable plans must continue to attract the very best men, and the most successful agents, to your field staff."

"Having examined the investment policies whose dividend periods mature or expire in 1898, I beg leave to recommend that the sum apportioned be set aside to meet the dividend obligations accruing thereon, which amount I have allocated properly to the individual policies entitled thereto."

The President, Mr. John L. Blaikie, in moving the adoption of the report, said:—

"In doing so, permit me to invite your attention to some interesting and important facts therein contained. But before proceeding to do so, I heartily congratulate the policyholders upon this annual meeting being held in this splendid office, the building being owned by the company, and secured on such extremely favorable terms that at a moderate cost we occupy one of the finest business buildings in the city, beautifully lighted on all sides, with abundant vault accommodation, and with a sufficient depth of floor to permit of great addition to our space as the business continues to grow in the future."

"The securing of this property is generally regarded as a splendid stroke of business, and a profitable, solid investment, making a valuable addition to the assets of the company. As on many previous occasions, you will be pleased to observe that one thing that goes to make a life insurance company successful the North American Life again shows progress, solidity and gain for the policyholders. For example, compare the business of 1897 and 1896 under the following heads:—

| Assets | Liabilities | Net Surplus |
|--------|---------------|-------------|
| 1897 | \$277,477,222 | \$1,732,269 |
| 1896 | \$250,000,000 | \$1,000,000 |

"The assets of the company are of a high class, and after providing for every liability there remains a net surplus of \$1,732,269, the percentage of net surplus to liabilities being 18.2, and the percentage of assets to liabilities being 184.2. I shall not refer more particularly to the assets, as that will be done by Vice-President, the Hon. Mr. Allan."

"A great deal of insurance is being done now-a-days of such a character that it may be more fairly regarded as a liability rather than a real insurance—no tangible assets being laid up out of which claims arising under such policies may be paid. As the figures before you will conclusively prove, the North American Life is upon a very different basis, indeed—its foundation being solid rock, and its policyholders are abundantly justified in relying upon in their minds as to the ability of the company to promptly meet every claim as it may mature."

"It is often said by those who do not understand any better, but life insurance companies make large profits by reason of so many allowing their policies to lapse, thus dropping their insurance after having paid it may be only one or two premiums."

"This is a mistaken view of the matter. All companies regret exceedingly the very large terminations that take place every year. It costs money to place every policy on the books, the company having to pay agents commission, medical fees, and sundry other charges, and of course until the next premium falls due the company is carrying the risk and is liable for the amount of the policy in the event of the death of the insured."

"All respectable companies are most desirous that their policyholders should persistently keep up their policies and not allow them to lapse or terminate."

"A year ago I submitted a table, showing the experience of eleven companies doing business in Canada, the amount of insurance issued, the total terminations each had experienced, and what the percentage was. The North American made a far better showing than any of the eleven, and of official figures given in the last Dominion Government report, showing a like experience, again place the North American in the first position."

"The importance of a thorough audit of any company's affairs can scarcely be overestimated, when that audit is thorough and exhaustive. I can state that this is the case with our esteemed auditor, Dr. Carlisle."

"Besides, this, however, there is a most careful and complete examination of everything relating to the company's position made every year by the Dominion Government Superintendent of Insurance, who examines every security owned by the company, and sees that every requirement of the insurance act is being strictly complied with."

"This examination is made entirely independent of any person connected with the company, and the result is published in the Insurance Blue Book in detail."

"I have already trespassing too much upon your time and patience, yet cannot conclude without bearing testimony to the unwearied zeal, diligence and ability of Mr. McCabe, our Managing Director, of Mr. Goldman, our efficient Secretary, and, I may add, of the office staff generally."

"And last of all, though certainly not the least of all, we are indebted to our army of agents in the field, who have to fight many battles, but having such a company as the North American Life at their back, they are many victors, and that, too, by fair and honorable means."

The Hon. G. W. Allan, Vice-President, said:—

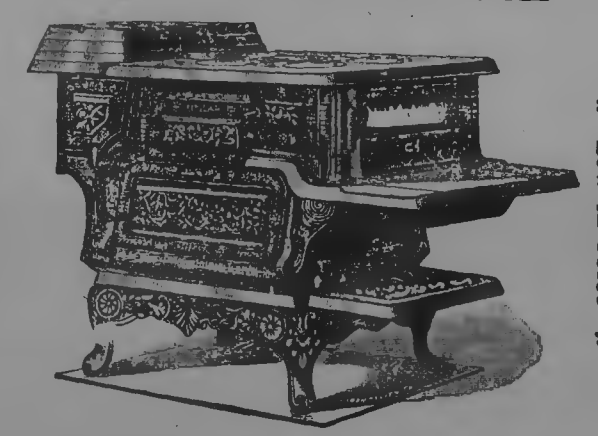

The President has stated that he would like me, as Vice-President of the company, to make some reference to the report.

PETERBOROUGH, FEBRUARY 2, 1898

NORTH AMERICAN LIFE

Continued from page two.

the assets, which now total the large sum of \$2,773,177.22. I think the very best evidence of the excellent character of the assets of the company, and the care shown by the directors in the investment of the funds, is the large increase in our interest income for the year, namely \$18,092, and the fact that our interest and rents, due and accrued, at the end of the year should show a decrease of \$1,112.57. Now, here is the position of our assets. We have invested in—

| Percentage of Total Assets | Amount |
|-------------------------------------|----------------|
| Mortgages, etc. | \$1,000,000.00 |
| Real estate | 200,000.00 |
| Stocks and bonds | 200,000.00 |
| Loans on policies | 170,000.00 |
| Loans on stocks | 127,177.22 |
| Outstanding premiums | 100,000.00 |
| Unpaid premiums | 57,143.07 |
| Interest and rents, due and accrued | 20,000.00 |
| Reserves | 2,773,177.22 |

"Market value exceeds this by \$21,115."

Including the company's building, I think you will agree with me, this is a highly satisfactory state of affairs, and must be doubly reassuring to all the policy holders of the company, as well as its excellent agency, as to the high standard this company has attained among the life companies in this country. So far as I can judge, it stands at the head.

"Our real estate, as compared with the year, shows but a slight addition in amount, except that we have now added thereto our own home, this handsome building in which we are holding this meeting. It was an excellent stroke of business on the part of the company in securing this property as we have now every accommodation for the crops, product of the business, if fact, one of the best equipped offices in the city, and the cost of the company will be but a moderate one. Already the space we have to rent is well tenanted and the one office at present vacant is already spoken for. All the properties in possession of the company are well rented and giving the company a fair return."

"From the figures taken from the last Dominion Government report, I find that our company receives a net return on its real estate largely in excess of any of its competitors."

Mr. J. N. Lake, in moving a vote of thanks to the company's Provincial managers, inspectors and agency staff, said—

"The value of our agency staff is shown by the persistency of our business. From the last Government report I find that of the total net increase in insurance of all Canadian companies for that year this company built almost 25 per cent. of such additions. I contribute this satisfactory statement of affairs to our agents being men of integrity and high standing in the profession, and who endeavor to carry out our wishes and transact their business in a fair and proper manner. No doubt the agent is very materially aided in his work by representing the North American—a company having such a large surplus in proportion to its liabilities, and its earning power being relatively so great as compared with the majority of its competitors is a tower of strength to its agents. I most sincerely congratulate our very efficient staff of representatives on the work they accomplished last year, the number of the policies being 2,621, and the amount of insurance thereon \$3,556,024—a truly grand year's work."

"It will be gratifying to everyone interested in the company and speaks volumes for the energy displayed by our agents that our new business this month is the best business for January in the history of the company."

"Another satisfactory point in the company, which reflects credit on the whole of our agency staff, including our local agents, is the small amount of outstanding and deferred premiums at the close of the year. The best test on this point is a comparison with our business and that of the other home companies in that respect. From an examination of the last Dominion Government report it will be found that the North American is the lowest, namely, 18 per cent, while the highest is 35.56, and the best evidence that this company's business is brought down to a hard-pan basis is shown by the outstanding and deferred premiums at the end of 1897, showing the slight increase of \$4,250.15."

"It is interesting to note the great progress this company has made during the last ten years, as shown by the following table—

| Year | Assets | Insurance | Net Income |
|------|----------------|----------------|----------------|
| 1888 | \$1,000,000.00 | \$1,000,000.00 | \$1,000,000.00 |
| 1889 | \$1,200,000.00 | \$1,200,000.00 | \$1,200,000.00 |
| 1890 | \$1,400,000.00 | \$1,400,000.00 | \$1,400,000.00 |
| 1891 | \$1,600,000.00 | \$1,600,000.00 | \$1,600,000.00 |
| 1892 | \$1,800,000.00 | \$1,800,000.00 | \$1,800,000.00 |
| 1893 | \$2,000,000.00 | \$2,000,000.00 | \$2,000,000.00 |
| 1894 | \$2,200,000.00 | \$2,200,000.00 | \$2,200,000.00 |
| 1895 | \$2,400,000.00 | \$2,400,000.00 | \$2,400,000.00 |
| 1896 | \$2,600,000.00 | \$2,600,000.00 | \$2,600,000.00 |
| 1897 | \$2,800,000.00 | \$2,800,000.00 | \$2,800,000.00 |
| 1898 | \$3,000,000.00 | \$3,000,000.00 | \$3,000,000.00 |

You will see that the cash income increases over threefold, assets over five times, insurance in force nearly threefold, and net surplus nearly eightfold—the latter indicating that the company is a good one for the policy-holders."

"This company has always closed its books promptly at December 31st, and so far included in its statements applications or receipts, or business of any kind received at the office after that date. We discourage our agents from forcing business, and the practice the last month of the year is entirely opposed by us, as injurious to the business generally, decidedly unfair to the other policy-holders, and not but result in a loss to the company conducting its business on such an improper basis."

Mr. McCabe, Managing Director, said he could heartily endorse all that had been said as to the efficiency of our agents in making special concessions to agents to enable them to rebate for the purpose of securing business during agency staff, and the energetic and satisfactory manner in which they had accomplished their work during the year just closed. He knew that the agents had unusual competitors during the latter part of the year, owing to four new companies having commenced operations during 1897. Our field of operations is somewhat limited. Although the territory of the Dominion is very large, the population is small, and the competition is therefore exceedingly keen and sometimes exceeding injurious from the extraordinary and improper business methods adopted by those anxious to place business on the books irrespective of the cost. In this connection I would remind you that of all the companies starting about the same time as the North American or subsequently not one of them outside of our own has met with but moderate success."

The following figures will show the profits earned by these companies since 1882:—

| Company | Assets | Insurance | Net Income |
|-----------------|----------------|----------------|----------------|
| North American | \$3,000,000.00 | \$3,000,000.00 | \$3,000,000.00 |
| Other companies | \$1,000,000.00 | \$1,000,000.00 | \$1,000,000.00 |

These figures are taken from the official Government reports, and I refer to the companies by number in order to avoid the experience of one company in particular, securing over two and a half millions of new business within a few months after commencing operations, and such a result has never been accomplished since by any other company. The experience of one company in particular, securing over two and a half millions of new business within a few months after commencing operations, and such a result has never been accomplished since by any other company. The experience of one company in particular, securing over two and a half millions of new business within a few months after commencing operations, and such a result has never been accomplished since by any other company."

The company I refer to secured a phenomenal amount of business, together with a large premium income, having at its head, as President, the most prominent man in the Dominion of Canada. Not-

properly applied. Why not be up with the times? In ten years electricity will be the treatment supreme. With my world-famed ELECTRIC BELT and Supporting apparatus I cured last year 5,000 weak men, young and old. Book, "Three Classes of Men," explained and sent free upon request, or drop in and consult me free of charge.

DR. T. T. SANDEN, 156 St. James St. Montreal Quebec

A Croup Cure

is what many a mother is looking for; something absolutely safe and reliable, that will disarm her terror of that dread rattling, strangling cough, so fearful to the mother, so fatal to the child. Ayer's Cherry Pectoral is a croup cure that can be relied on. Thousands say so.

Mrs. W. J. Dixon ("Stanford Eveleth") writes from Truro, N.S.:—

"That terror of mothers, the startling, croupy cough, never alarmed me so long as I had a bottle of Ayer's Cherry Pectoral in the house."

"We have used Ayer's Cherry Pectoral in our family for years. Once when our boy had a severe attack of croup, we thought that he would die. But we broke up the attack by using Ayer's Cherry Pectoral."

R. H. COX, Plancherville, La.

Ayer's Cherry Pectoral

No charge for consultation by letter with a physician. J. C. Ayer Co., Lowell, Mass.

withstanding all these advantages the first few years' business resulted in a loss of almost the entire amount of the paid-up capital, which was over \$100,000.

I mention this to show those present and our agency staff in particular that the mere fact of a company having a large capital and rushing a large amount of business on its books in a short time means a very large liability by way of the reserve required by the Dominion Government, and must result in a loss to the company.

I trust my few remarks on this subject will not be taken as an attack on any particular company, as I have not meant to say anything of the kind. I trust my few remarks on this subject will not be taken as an attack on any particular company, as I have not meant to say anything of the kind. I trust my few remarks on this subject will not be taken as an attack on any particular company, as I have not meant to say anything of the kind."

Mr. Galley, in referring to the company's loans and real estate, said:—"The mortgage list sent by this company to the Insurance Department gives every detail as to the position of the mortgage loans from year to year, showing the amount of the mortgage, the amount of the security held, and also the interest due thereon and accrued, so that at a glance one is able to see just the position of each mortgage."

"In looking over this mortgage list, I was pleased to find the satisfactory manner in which the interest had been paid during 1897, the interest due and accrued on all loans held by the company showing a decrease, as compared with 1896, of \$2,201.73. From an examination of the real estate, I consider that the company must sooner or later realize a handsome profit from these properties, when it is deemed advisable to sell them, and in view of the difficulty experienced by all companies in finding satisfactory investments for money at the present time the company cannot do better than retain its real estate holdings."

"I certainly join with Vice-President Allen in congratulating my fellow-policy-holders and all those interested in the company on the splendid building the company has secured. From my extended knowledge of real estate and I have probably had more experience in this line than anyone present—I can heartily endorse everything he has said with respect to this building. The position of the company is highly satisfactory, and as one of its earliest and large policy-holders I feel very pleased at this splendid position that the company has attained, and only regret that when insuring in the company I did not do so to the extent of \$25,000, as I am quite satisfied it would have proved one of the best investments I could have made. Life insurance is not a temporary matter."

"It is therefore, the imperative duty of those in charge of a company to see that everything in connection with it is made certain, and in this respect the energetic and yet conservative policy adopted by the North American is to be highly commended. The great progress the company has made and the strong position it has attained make it

CROWNING SALE OF THIS YEAR

Away above all our Business Strokes of this year we put this latest lucky movement of me in progress. It's the resultant of complete organization for getting goods at proper sources at the moment when the ones of looking is demonstrated to the public by what is in sight just now all over. That lucky pitch is ours when we

Cleaned up the whole of the Winter Stock of the well-known Montreal firm, at the unprecedented low fig

33¹/₂ CENTS

Placed in our hands the GOLDEN OPPORTUNITY OF THE YEAR, and gave us practical control of the Clothing trade of Peterborough. Opportunity and ability were thus united—and that is how we have collected together this great \$66,000 stock of merchandise. It is 1897's Latest, Newest, Right-priced addition to Peterborough's prosperity, spread out on our tables and shelves for the greatest December feast of our history.

Even the great GOUGHS are not insensible to a Boom in business. It seems a contradiction to push sales by losing profits we might as well have, when our business is vigorous with healthy activity, and yet we are inspired to do so by sound reasoning. It sometimes pay to lose, especially when you really don't lose at all.

It's a REAR DUTY you owe to yourself to make an early visit to GOUGHS while this Great Sale is in progress. The store is constantly crowded with delighted customers—and no wonder when you look at some of our prices:—

| | |
|---|--------|
| Men's Tweed Overcoats, worth 5.50, selling at..... | \$2.40 |
| Men's Melton Overcoats, worth \$10.00, selling at..... | 6.00 |

| Boys' Overcoats, with or without caps, worth \$5.50, selling at..... | 2.25 |
| Boys' Frieze Ulsters, sizes 24 to 30, worth \$5.50 selling at..... | 2.91 |
| Boys' 3-piece Suits, sizes 27 to 28, worth \$5.00, selling at..... | 2.75 |
| Boys' 2-piece Suits, 24 to 27, worth \$3.50, selling at..... | 1.50 |

We have also placed on Special Tables a superior lot of 160 HEAVY FRIEZE OVERCOATS, for Men and Young Men in Dark Grey and Brown and Mixed Colours, with Heavy Tweed Linings and Special Trimmings, right from the Tailoring Department, well worth not less than \$7.50, during this great sale only..... **\$4.90**

Come to this Feast of Bargains before they pass into history.

Shoes

Piled to the ceilings—a whole section heaped with Winter Boots and Shoes for Men, Women and Children—to fit all feet—it is the easiest prices in this or any other Town. The growth in this particular branch shows clearly that we are doing it better and better all the time; and winning new friends is every week. Come and see how it is done. No kimp in anything. We can dress your feet in the newest styles of hand-sewed Shoes with any fashion of toe you desire. Felt Overshoes, Fur-lined and Flannel-lined Shoes and Slippers for Grandmothers and Baby. Assortments better and values better than you'll find anywhere. ALWAYS GOOD AT GOUGHS—Not in sports but ALL the time.

A CASH BUSINESS—Under our constantly growing organization CASH becomes an important factor in Buying as well as Selling. Credit is a curse to the human family. Cash is King. In future, therefore, SPOT CASH will be our invariable rule. Your money back if not satisfied.

POND'S EXTRACT

WILL CURE

PILES

"I have long known its value in bleeding piles. It is the prince of remedies in all hemorrhoids."—Dr. A. M. COLLINS, Chatham, Me.

CATARH

"Have been a constant sufferer for years from severe catarrh in head and throat. Tried most every known remedy. Pond's Extract relieved me wonderfully, and has effected almost a radical cure."—FREDERIC E. FINCH, New York City.

SORE EYES

"It sets like magic in ophthalmia. I like it so much for sore eyes."—Rev. M. JAMESON.

LAMENESS

"I strongly recommend Pond's Extract for lameness and use it constantly."—MICHAEL DONOVAN, N. Y. Athletic Club.

SORENESS

"Had a large eating sore on my ankle, which had eaten to the bone. For nine months I doctored to no purpose. Tried a bottle of Pond's Extract, and was cured immediately."—MINNIE V. NATTY, Lockport, N. Y.

BRUISES

"Pond's Extract has been used with marked benefit by our inmates in many cases of bruises, and has always proved very beneficial."—LITTLE SISTERS OF THE POOR, New York City.

SPRAINS

"I have been prescribing Pond's Extract, and find it a valuable remedy in strains and affections of like character."—W. P. BURDICK, M.D.

BURNS

"Had my left hand severely burned and lost the use of it completely. Secured relief by use of Pond's Extract in twelve hours."—Mrs. A. SHERMAN, New York City.

HEMORRHOIDS

"Am troubled with hemorrhoids from lungs, and find Pond's Extract the only remedy that will control them."—GEORGE W. WARNER, Scranton, Pa.

INFLAMMATIONS

"I have used Pond's Extract in a case of long standing internal inflammation, and obtained relief within a few hours."—JAMES E. READE, Philadelphia.

and should be always kept on hand for emergencies.

"Long experience has taught my family to regard Pond's Extract as one of the absolute necessities of householding."—ANDREW D. WHITE, President Cornell University.

—Miss McMillan, of Lindsay, is the guest of Miss Nettie Patterson.

—Mr. O. F. Flynn, of Peterborough, called on Lindsay friends Sunday.—Post.

A PRESENTATION

Mr. Perry Wadbridge Presented With a Pair of Gauntlets

On Monday evening Mr. Perry Wadbridge, one of the most popular young men in town, was presented with a pair of Persian lamb gauntlets by the employees of the lamp department of the Canadian General Electric Co. Mr. Wadbridge, who is leaving town to go to Chicago, was greatly surprised at this testimony of his popularity, and expressed his appreciation of their regard in a few warm words.

The presentation was made by Miss M. Connors and Miss M. Burns read the farewell address.

GRANITES BEAT ORILLIA

Keene, Lakeland and Orillia Knocked Out of the Tankard Competition

The primary competition in tankard group No. 3 was played here yesterday. In the morning Keene played Orillia and the Peterboro Granites met Lakeland, the Granites and Orillia winning the scores being:

ORILLIA VS KEENE

RINK NO. 1.

Keene Orillia
J. McFarlane K J Frost
H J Crickshank Rev R N Burns
J J McCamus H S Holcroft
M Kennealy, sk. 14 F Toogood, sk. 28

RINK NO. 2

R English J A Mann
J R McIntyre A B Perry
W Campbell J Scott
R McIntyre, sk. 16 Dr Gilchrist, sk. 24

30 52

Majority for Orillia 22 shots.

RINK NO. 1.

Peterboro Lakeland
G H Giroux R Graham
G E Whiten Levi Payne
T E Bradburn J W Ridpath
Judge Weller, sk. 25 R C Strickland, sk. 16

RINK NO. 2

H A Morrow R J Munro
R S Davidson J P Strickland
H M Allen Geo Postlethwaite
E B Edwards, sk. 21 J C Grylls, sk. 16

46 32

Majority for Granites, 14 shots.

In the afternoon the winners played off, the Granites beating Orillia out by 10 shots. The ice was very good and some fine play was seen. The score was as follows:

RINK NO. 1.

Granites Orillia
H A Morrow A B Perry
R S Davidson J Scott
H M Allen Dr Gilchrist
E B Edwards, sk. 27 J A Main, sk. 18

RINK NO. 2

Judge Weller, sk. 18 F Toogood, sk. 18

45 35

Majority for Granites, 10 shots.

After serious illness, like typhoid fever, pneumonia, or the grip, Hood's Sarsaparilla has wonderful strengthening power.

Constipation

Looses fully half the sickness in the world. It retains the digested food too long in the bowels and produces biliousness, torpid liver, indigestion, bad taste, coated tongue, sick headache, nervousness, etc. Hood's Pills cure constipation and all its results, easily and thoroughly. See All Druggists. Prepared by C. I. Hood & Co., Lowell, Mass. The only Pills to take with Hood's Sarsaparilla.

Hood's Pills

A DANGEROUS SPOT

Complaints Entered as to the Dangerous Condition of the Streets

A citizen called at the Times office last night to have the paper draw attention to the dangerous condition of the sidewalk at the corner of George and Murray streets, just at the Y.M.C.A. hall. The grade from Murray street to George street around this corner is very steep and sudden, and in fact so dangerous as to make the town liable to suits for damages. On Monday evening during the storm no less than eighteen persons, ladies and gentlemen, slipped and fell at this corner, many of them injuring themselves severely. Mrs. Jas. Stubbs was knocked insensible. One gentleman, Mr. Lewis, was so seriously injured that he had to be removed to his home and is yet ill from the effects of his fall. As the complainant remarked they were very few for such a corner, greatly to the neglect of people's bodies. The matter should be looked after by the proper authorities.

WHAT WILL THEY DO?

The Council Consider the Agreement in Reference to Electric Railways

A committee of the whole of the town council was held last night, when several subjects came up for consideration. Some of them were of minor importance, but the chief subjects of discussion were the advantages the town would derive from being in class "A" than in class "B" as at present. It was stated that if the town would install a more perfect fire alarm system that the underwriting association would raise Peterborough's class.

The chief matter and one which is of vital interest to the town was the proposition of a company of capitalists to build and operate an electric railway for all purposes between Peterborough and Chatham and also to Lakeland, as well as securing the present street railway. The merits and demerits of the proposition were carefully dealt with but left over for future consideration by the committee.

Pills for Sticking Piles

Symptoms—Moisture intense itching and stinging; most at night; worse by scratching. If allowed to continue tumors form, which often bleed and ulcerate and become very sore. Swallow's Ointment stops the itching and bleeding, heals ulceration, and in most cases removes the tumors. All druggists, or by mail for 50 cents. Dr. Swallow & Son, Philadelphia. Lyman Sons & Co., Montreal, wholesale agents.

McQuay, Baple & Co's Bread is pronounced to be first-class. Only 10c. for a large loaf.

Effect of the Storm

All the trains that came in yesterday were completely covered with snow, showing the violence of the storm that raged during the night and early morning. They were delayed at many points on the road on account of the almost impossible drifts. The noon express was considerably late the "Klondike" which passes through about 2 p. m. was 40 minutes behind time, and the east-bound train last night was over an hour "subsequent."

After serious illness, like typhoid fever, pneumonia, or the grip, Hood's Sarsaparilla has wonderful strengthening power.

Legal.

BLAZE IN WINNIPEG

Half a Million Dollar Fire in
the Western Metropolis

ELECTRIC WIRE CAUSED IT

Two of the Finest Blocks in the City

Swept Away

Heavy Losses With Only Partial Insurance

The Fire Brigade Finally Stop the Con-

flagration

(Special to the Times.)

Winnipeg, Man., Feb. 2.—A fire started

this morning about seven o'clock in the

dry goods store of McKay Bros. and

Norris, in the McIntyre block, the

largest block on Main street. The fire

brigade was unable to check it and soon

whole block was in flames. By ten

o'clock only a few tottering blackened

walls remained of Winnipeg's best and

most central business structure.

THE CRITERION GONE

The fire also spread to the Criterion

block and it was also destroyed. Ten

stores and over a hundred offices with

all their contents were consumed. Prac-

tically nothing was saved. The fire-

men's efforts were directed to prevent

the fire from spreading to Dundee block

on the South side, occupied by J. Rob-

inson & Company, dry goods, and their

efforts were successful.

THE LOSSES

The principal losses are as follows:

McIntyre block, \$200,000; Thos. Porter,

jeweler, \$8,000; A. G. Morgan, boots

and shoes, \$20,000; Alex. Taylor, sta-

tioner, \$15,000; George Vellie & Co.,

liquors, \$15,000; James Payne, wall

paper, \$5,000; J. Krueger, tobacconist,

\$15,000; James Turner, milliner, \$18,000;

McKay Bros. & Norris, \$25,000; Miss

Haycock, toys and fancy goods, \$15,000;

Criterion block, \$35,000. The total loss

is estimated at \$500,000, and insurance

companies are heavy losers. The fire is

supposed to have been caused by an

electric light wire. No accidents or loss

of life have been reported.

FATHER HANGED HIMSELF

DAUGHTER JUMPED FROM A WIN-

DOW AND WAS SERIOUSLY IN-

JURED

Special to the Times.

Washington, Feb. 2.—The suicidal

mania, which has caused a number of

attempts at self-destruction in this

city for the past several weeks, may

result in the loss of the lives of Wal-

ter Taylor, a clerk in the Treasury

Department, and his pretty twenty-

year old daughter, Lucy, Miss Tay-

lor has been in ill-health for some time

past and last night her illness assumed

a suicidal form. She was with diffi-

culty persuaded to retire to her

room, and about 1 o'clock in the morn-

ing, after a violent struggle with her

parents, who tried to hold her, plung-

ed through a window of her home and

fell into a snow bank in the front

yard.

She then ran, terribly cut and bruise-

d, through the streets and after a

half-hour's search, was found in a

snow bank, almost nude, by a police-

FIRE FOLLOWS THE STORM

LOSS OF LIFE AND PROPERTY FOL-

LOW IN THE WAKE OF THE HUR-

RICANE.

(Special to the Times.)

London, Feb. 2.—A hurricane accom-

panied by drenching rain has been

sweeping over the city in the district

since yesterday evening. A number of

yachts have been sunk in Gourock bay,

much damage has been done to shipping

off the coasts and considerable destruc-

tion has been caused inland.

The gale blew in the lantern of the

little Grouby lighthouse and set fire to

the building which was destroyed. Its

three occupants are supposed to have

perished.

The Coldest in New York

New York, Feb. 2.—This is the coldest

day of the season. The temperature,

which fell gradually yesterday after-

noon and last night, registered five

degrees above zero at 8 a.m. to-day, a

drop of 22 degrees since 3 p.m. yester-

day. At 10 o'clock it had risen two

points. The thermometer in the

street, however, showed a considerably

lower record, many of them register-

ing only two degrees above zero. The

East and North rivers were full of ice

and the ferry boats were much delay-

ed on this account. The surface and

elevated railroads ran considerably be-

hind time and local traffic was con-

siderably congested. The Third avenue

cable road broke down.

Suburban traffic was also delayed.

Trains from the north, northeast and

west were all overdue. The New York

Central reported trains from Boston

two hours late. That city was still

shut off from communication with the

outer world. An occasional telephone

message was the only exception to this

rule.

Fire Follows the Storm

Boston, Mass., Feb. 2.—Reports of

stranded vessels along coast continue

to come in, and it is thought that at

least 15 lives were lost at various points

by vessels stranding and going to pieces.

The loss to the smaller fishing craft of

Gleeseter and vicinity is particularly

heavy.

A feature of the storm was the large

number of fires in the city and sur-

rounding towns. The Uphams Corner

Universalist church, an old landmark

in the Dorchester district, and St.

Thomas Episcopal church, at Taunton,

were burned. Serious fires also occur-

ed in Lowell, Peabody, Rockland,

Newton, and other places.

In Boston the loss will amount to

over \$1,000,000.

St. John's Nfld., Feb. 2.—Another

blizzard is raging here. A large num-

ber of men have been driven off by an

ice flow in Trinity bay, and it is feared

there will be a repetition of the disas-

ter of seven years ago, when 40 per-

cent of the Government is despatching

a rescue steamer to the endangered

men.

Morning Times

PETERBOROUGH, FEBRUARY 3, 1898

POLICE WILL BE THERE

BOXING CONTESTS WILL BE SUPERVISED HENCEFORTH BY THE AUTHORITIES.

Toronto, Feb. 2.—The Police Commissioners met yesterday afternoon and Judge Macdonald as chairman. Two actions, one brought by a girl named Campbell against a man named Smith, and another by a man named Smith against a woman named Campbell, were heard. The case of Campbell vs. Smith was dismissed. The case of Smith vs. Campbell was dismissed.

YANKEE FRESH FRUIT

RUSSIAN MINISTER HAS FORBIDDEN THE IMPORTATION OF ALL FRUITS

(Special to the Times.)
Washington, Feb. 2.—The Russian Minister of Finance has issued a decree prohibiting the importation of any kind of American fruit. The decree has been issued in response to a demand from the Russian Government that the United States should stop the export of fruit to Russia. The United States has refused to do so, and the Russian Government has threatened to take action.

United States consul at Hamilton wired Washington that 16 barrels of American apples have been found to be infested with the fruit worm, and that the fruit has been found to be infested with the fruit worm.

Washington, Feb. 2.—The Russian Minister of Finance has issued a decree prohibiting the importation of any kind of American fruit. The decree has been issued in response to a demand from the Russian Government that the United States should stop the export of fruit to Russia. The United States has refused to do so, and the Russian Government has threatened to take action.

WHAT THE GLOBE SAYS

The Toronto Globe of yesterday has the following notes on hockey. They will be of interest to Peterborough people:

—Captain Franks of the suspended Guelph Nationals says Lionel King is the best referee the O.H.A. ever sent out.

—Hollingshead of the Peterboroughs is filling the place of Adams, perhaps one of the best men at cover-point in the province, and he is filling it to perfection.

—Home and home games were arranged between the Frontenacs and Peterborough in the junior series. The second game will be played in Kingston on Friday night.

—Montgomery, the point player, is the father of the game in Peterborough. He captained the team when it held the championship. He is a shrewd, clever player, and is in the Ontario Bank. He is popular wherever he goes.

—The officers of the Peterborough club are not honorary. They are all enthusiasts, and are at present at every meeting of the Executive. President Fife is a druggist, and there is no more active supporter of the game than he.

—Secretary W.A. Buchanan of the Peterborough club is a very busy man. He has to look after the two clubs, senior and junior, of that town. He is the city editor of the Daily Review, and has always taken a lively interest in hockey than in any other game.

—(Captain) Phelan of the Peterboroughs is a widely known athlete, and is one of the best hockey players in the province. In lacrosse he is also prominent as a fast and reliable player. Captain Phelan is doing his best to bring the senior championship to Peterborough.

TROUBLE IN SOUTH TORONTO

REPORT THAT MR. HOWLAND WILL BE SHELVED IN FAVOR OF J. J. FOY.

(Special to the Times.)
Toronto, Feb. 2.—Affairs in South Toronto are not going as smoothly as the leaders of the Conservative organization would wish. It appears there is a desire to nominate Mr. J. J. Foy, Q. C., for the constituency, and it is said that his nomination would mean at least ten seats throughout the Province for the Conservative party. Mr. Howland, it is desired to transfer to East Toronto, but he declines to stand for any constituency but his old one in the south. At present the outlook is that Mr. Foy will get the nomination and the prospect is brightening in the eyes of the Conservative friends. Another alternative proposed was that Mr. Marter should retire from North Toronto and allow Mr. Foy to run there, but it is understood that Mr. Foy's friends advise him against running in the north. Under these circumstances a lively time is expected at the South Toronto convention on Saturday evening, as it is understood Mr. Howland's friends will raise considerable objection to the course proposed, although seeing that the delegates chosen are largely in favor of Mr. Foy, it is not likely the friends of Mr. Howland will be successful.

NEW MAN AT THE HELM

JUDGE JETTE, QUEBEC'S NEW GOVERNOR, SWORN IN AT QUEBEC.

(Special to the Times.)
Quebec, Feb. 2.—Lieutenant-Governor Jette was sworn in at 8.30 last night, the ceremony being delayed owing to his train being late. There was a large and brilliant attendance in the hall of the Legislative Council chamber. Sir Napoleon Casault administered the oath of office.

DESPERADO CAPTURED

BEFORE HE COULD CARRY OUT HIS THREAT TO SUICIDE

Pittsburg, Penn., Feb. 2.—This evening Allegheny detectives arrested Michael Kumin, "the Polish Duke," accused of murdering his wife and then trying to burn her body to hide the crime. He denied killing his wife, but said he knew he would be charged with the crime and had intended committing suicide this evening.

If you will dab ink or liquid shoe dressing on the bare spot, you will restore the color, but you will not restore the glossy, fresh look of the departed newness. For this quality you must put on a clean piece of flannel a touch of sweet oil and rub the dull black spot until it shines like the surrounding leather. Under this treatment the black kid glove is an economy and will last longer than any other in spite of the fact that other colors may be cleaned and released almost indefinitely. Of course the suede or undressed kid does not need the oil rub—that is confined entirely to the glove glove. The ink or blacking is all that is needed for the softer leather.

FREE BOOK FOR WAELK MEN

My little book, "THREE CLASSES OF MEN" sent sealed free, upon request. It tells of my thirty years' practice and success in treating

Drains, Losses, Impotency, Varicocele and development by nature's own gift to man—ELECTRICITY. My Electric Belt with Supporting Suspensory is known and used the world over. Drop in and consult me free of charge or write for book to-day

DR. T. T. SANDEN, 156 St. James St., Montreal, Que.

The Dipper or the Dropper?

There are cough medicines that are taken as freely as a drink of water from a dipper. They are cheap medicines. Quantity does not make up for quality. It's the quality that cures. There's one medicine that's dropped, not dipped—Ayer's Cherry Pectoral. There's more power in drops of this remedy than in dipperful of cheap cough syrups and elixirs. It cures Bronchitis, Asthma, Croup, Whooping Cough, and all Colds, Coughs, and affections of the Throat and Lungs.

Ayer's Cherry Pectoral

Write to our doctor on any disease in confidence. Address, Medical Department, J. C. AYER CO., Lowell, Mass.

PUGILISTIC HANDSHAKERS

HOW THE SALUATION IS GIVEN AMONG THE QUEEN'S BLACK SOLDIERS.

The following bit of brisk description is from the Daily News war special in the Sudan, at Berber: "A brisk business is being done in the market here, which is all day thronged with people, and where throughout all their off-duty hours the black soldiers are to be found, chattering and laughing, rattling it among the civilian marketeers with all the swagger and importance that a military Tabouish with a bright stripe and a brass number on it, and also the possession of spotless tobes and a gorgeous waistcoat, must naturally give to those who should a half naked entourage. What they buy I know not, and as to whether and what they pay for their purchases I would not even seek to investigate. But they are always there, taking the keenest, most friendly interest in all that goes on around them, talking always at once in the tones of men conversing from opposite banks of the Nile, having friends engaged in doing nothing on one side of the street to come and help them do likewise on the other; acting as arbitrators in vexed questions, and finally surrounding and expressing by good-humored chat the chagrin of the party against whom the decision has gone, settling quarrels by methods of simple and vigorous reasoning, and chaffing and ogling every woman or girl, they are the most happy creatures in the world where ladies are concerned, but come within the focus of their twinkling eyes. And all the time they are laughing—flinging back their honest ugly heads and opening wide their cavernous, ivory-lined jaws, or when no laughing they are shaking hands, and back hand-shaking is a ceremonial of much nicety and great duration. For when two black men meet they shake hands not once, but many times. First the ordinary handshake which I will call the uppercut—after which each performer claps himself hard on the back. Then the undercut or hand shake reversed, each clapping in. Then each movement, twice repeated, and change hands and begin again. I suppose that never since they first donned his Highness' uniform have the worthy black soldiers been so thoroughly in their element or enjoyed so thoroughly good a time."

BRIDE OF A WEEK

SUES HER HUSBAND FOR DAMAGES AND DESERTION

(Special to the Times.)
Sorel, Que., Feb. 2.—Mrs. Ida Belle Alfred, a pretty young bride of only one week, filed an affidavit against her husband this afternoon, charging him with fraudulent marriage, and asks for \$1,000 damages. Mrs. Alfred has been in a delicate condition several months, and is soon to become a mother. She preferred charges against her husband a few days ago for illegitimacy and the matter was compromised in a marriage ceremony being performed. Her husband deserted her last night and left for parts unknown. Warrants have been issued for his arrest.

IF YOUR BLOOD'S COOL

READ THIS—EVERY WORD OF IT.

CROWNING SALE OF THIS YEAR

Away above all our Business Strokes of this year we put this latest lucky movement of progress. It's the result of complete organization for getting goods at proper sources at the moment. What ones of looking is demonstrated to the public by what is in sight just now all over. That lucky picture occurs when we

Cleaned out the whole of the Winter Stock of the well-known Montreal (Canada) Co. at the unprecedented low figure

33 1/2 CENTS

Placed in our hands the GOLDEN OPPORTUNITY OF THE YEAR, and gave us practical control of the Clothing trade of Peterborough. Opportunity and ability were thus united—and that is how we have collected together this great \$66,000 stock of merchandise. It is 1897's Latest, Newest, Right-priced addition to Peterborough's prosperity, spread out on our tables and shelves for the greatest December feast of our history.

Even the great GOUGHS are not insensible to a Boom in business. It seems a contradiction to push sales by losing profits we might as well have, when our business is vigorous with healthy activity, and yet we are inspired to do so by sound reasoning. It sometimes pays to lose, especially when you really don't lose at all.

It's a REAR DUTY you owe to yourself to make an early visit to GOUGHS while this Great Sale is in progress. The store is constantly crowded with delighted customers—and no wonder when you look at some of our prices:—
Men's Tweed Overcoats, worth \$50, selling at..... \$240

Town Treasurer's Sale of Lands for Taxes

1897

1897

TOWN OF PETERBOROUGH. BY VIRTUE OF A WARRANT, under the hand of the Mayor and Council of the Corporation of the Town of Peterborough, and to be directed, bearing date the 1st day of December, in the year of our Lord One Thousand Eight Hundred and Ninety Seven, I am commanded under authority of the Consolidated Assessment Act of 1902 and an amendment thereof, to levy on the lands hereinafter mentioned and described, for the Arrears of Taxes due thereon with the costs as hereinafter specified, as directed by the said Act. I am therefore to give notice that unless the said Arrears and Costs are paid, I will pursuant to the said Act, proceed to sell by Public Auction at the Town Council Chamber in the Town of Peterborough on Thursday the Twenty Fourth day of March in the year of our Lord One Thousand Eight Hundred and Ninety Eight, at the hour of 10 o'clock in the forenoon, so much of the said lands as is sufficient to discharge the Taxes and all lawful charges incurred in and about the sale and the collection of the Taxes:

Mayor

Morning Times

PETERBOROUGH, FEBRUARY 3, 1898

TOWN AND COUNTY NEWS.

Wanted.
An experienced general servant wanted. Apply at once at 525 Water street.

Rheumatism and Migraine.
They go together—but Frank's Magnetic Ointment will cure your aching, inflamed joints quickly and soothingly—and you'll be miserable no more. Try it—it always cures, and only costs 25c at all drug stores.

The Single Tax.
Is the subject of a paper to be read by Mr. Barton Fiske at the Young Men's Christian Association on Friday evening under the auspices of the Debating Club. The paper will be followed by a discussion.

Belgian Pastry.
McQuay, Baple & Co. are selling the most delightful pastry in town. Opposite Adam Hall's.

Organ Recital.
Mr. Percy Owens, organist of St. John's church, will give an organ recital in the church at the close of the evening service on Sunday evening, Feb. 13th. The programme will consist of compositions by Bach, Weyl and Gullmunt.

All Sew and Fresh.
Our Figs, Nuts, Dates, Grapes, Lemons and Oranges are all new stock, and we can give you best value in all these we carry. J. E. Oke.

How to Cure All Skin Diseases.
Simply apply "Swayne's Ointment." No internal medicine required. Cures tetter, eczema, itch, all eruptions on the face, hands, nose, &c., leaving the skin clear, white and healthy. Its great healing and curative powers are proven by its use on other remedies. Ask your druggist for Swayne's Ointment. Lyman Swayne & Co., Montreal, wholesale agents. Avoid substitutes.

A Debate for the Boys.
There will be a "Story Song Service" for boys at 7:30 in the Young Men's Christian Association to-morrow evening. All boys over twelve are welcome. There will also be a debate at eight p. m. Subject: "Resolved that a trade is more to be desired by a boy than a school education."

DISTRICT AND LOCAL TOPICS

Reporter's Phone, 184 B.

Colder weather.
—Ashburnham school board held its regular meeting last night.

—A Romance of Coon Hollow will be shown at the Opera House to-night.

—A meeting of the wheelmen will be held in the Victoria club rooms to-night.

—The ice dealers are busy getting in their harvest these days. Some of the ice is very thick.

—A meeting of the Historical Society will be held in the council chamber this evening at 7:30.

—Most of the trains got in on time yesterday, but were nearly all covered with snow driven by the storm.

—The regular meeting of the non-communized officers of the 57th was held in their mess-rooms last night.

—Many people would like to see a good committee formed for the purpose of arranging for holding ice races this month. Who will be first?

—The annual meeting of the Bible Society was held in St. Paul's church last night. An eloquent address was delivered by Rev. G. J. Cliff, of Toronto.

—An oyster supper will be held in All Saints' school room to-day at 5:30. At 8 in the evening a lecture and entertainment will be given. Mr. Hamilton Burnham will speak on "Early Canada."

A WEDDING EVENT

Celebration of the Armstrong-Londreville Nuptials.

Yesterday afternoon at 2 o'clock, Mr. Bert Armstrong, of Maple Creek, N.W.T., and Miss Eliza Londreville, daughter of the late Samuel Londreville, of Hastings, were united in marriage by Rev. S. J. Shorey of the George street church, at the residence of Mr. James Skinner, brother-in-law of the bride, Charlotte street.

The bride was dressed in a suit of green covert cloth, trimmed with white silk, ribbon and chiffon. The part of bridesmaid was taken by her sister, Miss Josie Londreville.

Both the young people are well-known and popular in town. Mr. Armstrong was for some time connected with the firm of E. F. Mason & Co., but is now manager of the general store of Dixon Bros. at Maple Creek. The bride has filled the position as matron of the Protestant Home for years. Both were valued workers in the Epworth League of the George street church.

The presents were numerous and costly. The pair will spend a couple of weeks on a wedding trip, after which they will take up their residence in the west.

COUNTY ORANGE LODGE

Officers for the Year Elected and Other Business Transacted.

The County Orange met Tuesday and got through with a lot of business. The election of officers resulted as follows:

H. S. Armstrong, County Master.
W. M. Graham, Deputy County Master.
Rev. Mr. Armstrong, County Chap.
Sidney B. Weir, County Secretary.
Dr. J. A. Burgess, County Treasurer.
J. Hetherington, County Fin. Sec.
G. Sloan, County D. of C.
S. Campbell, County Lecturer.
A. McCarthy, Deputy Lecturer.
G. W. Hall, Deputy Lecturer.

The newly-elected officers were duly installed by Past County Master Bro. J. B. McWilliams. The next meeting will be held in the Orange Hall, Lakefield, on the 1st Wednesday in June at 8 p. m.

NICHOLLS' HOSPITAL

Report for the Month Ending January 31st, 1898.

The following is the report of the Nicholls' Hospital for the month ending January 31st:

No. of patients remaining in hospital, 22; No. of patients treated, 13; No. of free patients, 17; No. of free patients, 21; No. of patients from other places, 11; No. of patients cured, 18; No. of patients died, 0.

Dr. Fife attending physician for the month.

Physicians in attendance on private patients, Drs. Halliday, Carmichael and Brown.

SENIOR HOCKEY TO-NIGHT

Peterborough to Play Excelsior Hall on the Victoria rink.

The senior hockey team will go up to Toronto to-day to chase the puck with the Excelsior Hall team in the Victoria rink to-night. The boys feel quite confident that they can defeat their opponents, as they are a great deal better shape than when they played with the T.A.C. team there. A good crowd of enthusiasts will go to see the game. The rate has been fixed at a fare and one-third. The will be composed of Wason, Montgomery, Hollingshead, King, Bellingham, Phelan, and Davidson.

TO MEET IN PORT HOPE

Annual Meeting of the Peterborough Presbyterian W. F. M. S.

The annual meeting of the Peterborough Presbyterian W. F. M. S. will be held in the Mill street church, Port Hope, on Tuesday and Wednesday, Feb. 8th and 9th, and interesting programmes have been prepared for these sessions. All interested in missions are cordially invited to attend. "Mission Life Among the Mohammedans and Copts in Egypt." In the evening Dr. Margaret McKellar, of India will address a public meeting.

Piles! Piles! Itching Piles!
Symptoms—Mucous, intense itching and stinging; most at night; worse by scratching. If allowed to continue tumors form, which often bleed and ulcerate and become very sore. Swayne's Ointment stops the itching and bleeding, heals ulceration, and in most cases removes the tumors. All druggists, or by mail, for 50 cents. Dr. Swayne & Son, Philadelphia. Lyman Swayne & Co., Montreal, wholesale agents.

CHURCH OF ENGLAND MISSIONS

Addresses by Dr. Parkin and Rev. G. Warren on Missionary Work.

The annual missionary service in connection with the Anglican parishes of Peterborough was held in St. John's church last night. The two principal speakers of the evening were Dr. Parkin, of Upper Canada College, Toronto, and Rev. Mr. Warren, of Lakeside, Rev. Mr. Warren, in opening, said that he would consider his remarks but as a preface to the addresses of Dr. Parkin. He wished to point out, however, that there were some in the diocese who did not view their duty to support the mission work of the church as seriously as they should. For the last eight or nine years the sums received for the missionary fund have been diminishing, until now it is about \$2000 less every year in the diocese of Toronto than it was at that time. Two results followed from this, firstly that the mission work could not be extended as it should be, and secondly, that the work of the existing missions was impaired by the lack of funds. He urged a revival of missionary enthusiasm. Let there be more voluntary and hearty giving on the part of the laymen, and there would be fewer appeals from the clergy for money.

Dr. Parkin in the first part of his address stated the financial condition of English church missionary work. The work of the church is spiritual, but its business interests must also be attended to. The diocese of Toronto had spent \$100,000 in the last year, but it was estimated that the diocese had to be established in many places. A few years ago when the great depression struck the country the funds had begun to fall off, but the Synod, instead of closing the missions, decided to overdraw the bank account. They now owed \$100,000 and we are at this debt before midsummer, so as to begin again with a clean sheet. Of this \$100,000 the city of Toronto had subscribed over \$6000 and the outside parishes were expected to do their share. The amount required from each had been calculated and it was estimated that the parishes of Peterborough and Ashburnham would have to raise the small sum of \$544. He hoped that this would soon be subscribed.

Leaving the financial case and looking at the missionary question from other aspects the speaker delivered an address. He showed that English influence is spreading rapidly throughout the world and should be followed by the teachings of the Church of England. The great effect of missionary work on a growing country was pointed out and also the growth of the English church of any other church must live on the missionary spirit, which spreads its works all over the world. It had been the marching orders of Christ that the gospel should be preached to the poor of all lands through the missionaries. The British Empire deals with all civilized and half-civilized nations and it follows that the church of the British Empire is taken as the standard by these peoples. There, a great responsibility falls upon the church. In Canada, the speaker believed, we are on the brink of a great change. The people will be coming in to fill up and develop the country and it would devolve upon the church to look after the moral welfare of these people. The country was going to be prosperous and it was fitting that they should pay off the old debt and be in a position to consecrate the first fruits of their new work to God. He urged each to feel the personal responsibility that devolved upon him to bear his share of the burdens of his church.

The Sheriff's Sale.
McQuay, Baple & Co's bread is pronounced to be first-class. Only 10c. for a large loaf.

A Veteran Trustee.
At the inaugural meeting of the School Board of 1898 last night, Mr. Jas. Stevenson who has been again returned for No. 3 ward included in some reminiscences with Mr. Peter Hamilton while the sitting committee were out of the room. He stated that when he has completed his completed his present term he will have sat forty-seven years on the board. He hopes to put in fifty.

Look Here!
Just received from Sea Salmon, Halibut, Smelt, Lake Superior Trout and White Fish. Best brands Baltimore Oysters. J. B. Oke.

Successful Students.
The winners of the Coll. Inst. Nicholls' scholarships at the last departmental examinations are as follows:

H. H. Cragg, scholar leaving scholarship of \$50.
Kennedy Gray, junior leaving, \$30.
Charles E. Sloan, primary scholarship, \$20.

A Working Man

Unable to Keep His Place in Spite of Difficulties.

He Writes About His Condition—Wife and Children Helped.

WALLACEBURG, ONT.—The following letter will prove of interest to working men and others who may be in a condition similar to that of the writer: "For three years I was subject to poor spells. I always felt tired, could not sleep at night and the little I could eat did not do me any good. I have been working at the barbed wire trade for about 20 years and for the last four years I have been very closely confined and have had my meals very irregularly. I was taken with a

Very Severe Cough
and the doctors said it was caused by my stomach troubles. I lost flesh and became so weak I was hardly able to stand up to the chair to work. One day I happened to be looking over some testimonial letters and I thought I would try Hood's Sarsaparilla. Before I had taken two bottles I began to feel better and in a short time I felt finely and had gained 21 pounds in weight. I have taken nearly five bottles and now I feel like a man again. I am

Stronger and Healthier
than I have ever been in my life. My wife and children have also taken Hood's Sarsaparilla for a blood medicine and realized much benefit from it. As for myself I cannot say too much for it. I firmly believe that if it had not been for Hood's Sarsaparilla I would not have been able to work at my trade any longer." JOHN W. COUGHLIN. Get only HOOD'S.

are the best after-dinner pills, aid digestion. 25c.

The Daily Times, one year, \$4.00
The Daily Times, half year, \$2.00
The Daily Times, quarter year, \$1.00
Weekly Times, per annum, \$1.00
or 75c if paid in advance.
Pending changes in postal arrangements the Times will be sent free of postage to any address in Canada and the United States only.

RATES FOR ADVERTISING.
Per agate line (14 lines make one inch).
Ordinary advertising, each insertion, 10c
Reading matter notices, each insertion, 5c
Advertisements occupying less than one line will be charged as ten-line advertisements.

THE TIMES BRANCH OFFICES.
The Times has established branch offices for the receipt of subscriptions and advertisements as follows:
New York—J. S. Dunn, 195 Times Building, sole agent for New York.
Chicago—E. W. White, 1102 Boyce Building, sole agent for Chicago and the West.
London, Eng.—145 Fleet Street, F. W. Large, agent.
Toronto—10 Catherine Street, A. E. Britnell, sole agent.
Montreal—30 St. Francis Xavier St., H. Timmins, agent.
General agent—A. McKim & Co., 22 New Board of Trade Building.

TO CORRESPONDENTS.
No notice can be taken of anonymous communications. Whatever is intended for insertion must be authenticated by the name and address of the writer, not necessarily for publication, but as a guarantee of good faith. We cannot undertake to return rejected communications.

PETERBOROUGH, FEBRUARY 4, 1898

SHAMEFUL METHODS USED

Mr. Hardy, the head of what claims to be one of the cleanest governments in the world, uses methods of electioneering at times which are widely at variance with his pious and upright professions. This may be a fault of both parties and we condemn it as much in one as in the other, but a breach of political morality occurred on Mr. Hardy's platform at Kingston the other night which is too glaring to pass unnoticed. Mr. Hardy was opening the campaign for Kingston Monday night, and during the proceedings Hon. Mr. Hardy, one of his colleagues, stood up and read a telegram from Hon. Mr. Blair, the Dominion Minister of Railways and Canals, stating that the Kingston Locomotive Works had received an order to construct three locomotives for the government railway, the Intercolonial. It was the most shameful piece of bribery ever done in public and was a disgrace to the Liberal party, Federal and Provincial. In former years it was held enough for the Conservatives to go round before the general electors and receive post offices and other public buildings and works to the constitution, but they never went outside their own realm of Dominion politics to do it. They did not try to corrupt the provincial elector by holding out bribes to give or help their friends in the local houses. But Hon. Mr. Blair is not ashamed to do it. His order

coming at such a time, and being read in such a place is virtually an order to the working men of Kingston to vote Liberal if they want work to keep their families.

It is an example of the infamous cold justice methods of Mr. Hardy. He is not by any means the only politician that uses them, but he is openly and fearlessly the most corrupt. It was he who speaking at Owen Sound in favor of Hon. Wm. Patterson, Controller of Customs, told the electors that if they wanted favors to vote for the Government, if they wanted 'cold justice' vote against it. You can hardly call it a veiled threat. It is an open threat.

Any influence brought by the Federal Ministry or by the parties in the Dominion House upon the provincial elections is detrimental to the interests of Ontario. Electors are drawn away from the true light of the case to some local side-view with the result that Ontario's interests must suffer. The issues should be judged only as they relate to Ontario, and not as to whether it suits the Federal government or not. The Liberals owe a debt to the Ontario government for helping them in June 1896, but the electors should see that it is not paid at Ontario's expense. We condemn with equal force the tactics advised by Sir Charles Tupper, when he recommended the Conservative party to first gain control of the local legislatures as a means of re-placing themselves in power at Ottawa. The two organizations should be kept separate and distinct in the fullest sense of the word.

It is time for a change in the weather. The public treasures must feel pretty weak about election times.

J. R. Stratton hurls books around as if they were as cheap as financial statements.

If Mann wants but little here below the Ottawa Government should not have forced so much upon him.

It is said that Micah Clark is being put against Mr. Stratton by the Conservatives. Two against one.

The W.C.T.U. of Canada are down on Lady Somerset harder than if she kept a saloon and managed horse races.

A Pittsburgh scientist declares that the sun is shrinking. The sun must be operated by a trust company.

It is said that there is a railroad war on between the two roads. They must have caught the spirit from the politicians.

The Grita say that Mr. Garvin had better set that stake up in his back yard. He may support himself by it on election day.

The Toronto Telegram says that there are two kinds of hogs—the kind the country eats and the hogs which eat the country.

Who is this Conan Doyle that is taking such a position in the campaign anyway? How do we know whether he has a stake or not?

We wonder that Mr. Garvin did not secure that fourth reader that was thrown at him the other night to present to some overburdened supporter.

According to the Examiner Smith is son of Stratton. It is just as well the review man was not alone or it would have been found enthusiastic for Garvin.

The History of Education (with compliments of J. R. Stratton, M.P.) and the general banishment are blessings which should warm the heart of the common elector.

The Examiner publishes long accounts of Mr. Stratton's triumphs, the review of Mr. Garvin's orations. Lack of space compels them to omit the chief points of the other side.

The Language of Salt

The Scottish Highlanders have always been firmly convinced that Adam and Eve used "the Gaelic," and it is gratifying to find that philologists, as they grow wiser, are coming round to the same opinion. It is true that they have more to express admiration to this effect as yet, but there is evidence that we are on the eve of an acknowledgment that Gaelic is the original language of the human race. The latest conference on the subject, if it does not altogether silence those sceptics and scoffers who give ground to the article of highland faith, ought to at least make them give pause. Dr. Leitner, a distinguished German orientalist and philologist, has declared Gaelic to be a "contemporary or derivative of the Prakrit, closely allied to the spoken language out of which Sanskrit became a written language." He even goes so far as to assert that there seems to be in the Gaelic "certain survivals of a prehistoric language." Clearly this points in the direction of the Highland contention, and the present acknowledgment, therefore, although tardy, and not, perhaps, quite so full as might be desired, will no doubt be welcome.

But Gaelic has another distinction. It is, as even the Sanskrit knows, the language to swear in. The distinction, however, is one that does not quite harmonize with the theory of its prehistoric origin.

Cure Constipation

and you cure its consequences. These are some of the consequences of constipation: biliousness, loss of appetite, pimples, acid stomach, depression, coated tongue, night sweats, weakness, backache, vomiting, jaundice, piles, pallor, stitch, irritability, nervousness, headache, torpid liver, heartburn, foal breath, sleeplessness, drowsiness, hot skin, cramps, throbbing head.

Ayer's Pills

Dr. J. C. Ayer's Pills are a specific for all diseases of the liver, stomach, and bowels.

"I suffered from constipation which assumed such an obstinate form that I feared it would cause a stoppage of the bowels. After trying various remedies, I began to take Ayer's Pills. Two boxes effected a complete cure."

D. BURKE, Saco, Me.
"For eight years I was afflicted with constipation, which became so bad that the doctors could do no more for me. Then I began to take Ayer's Pills, and soon the bowels recovered their natural action."
WM. H. DELAUCETT, Dorset, Ont.

THE PILL THAT WILL

WHEN THEY WERE LADS.

Edison was famous for his inventions when 23.

Boon was a member of Parliament at 25. At 26 one of his lovers.

Poe was a poet at 25. At 24 he wrote "The Raven." He died at 27.

Bryant wrote poetry at 23. At 19 his masterpiece, "Thanatopsis," was published.

Longfellow's first poetry was published at 18. At 23 he was ranked with our best poets.

Shakespeare left school at 14. Clay at 14. John Bright at 15.

Scott entered the fair realm of literature at 21. At 24 he was the most popular poet of the day.

Gallie discovered the isochromism of the pendulum at 19. When 25 was the most famous astronomer in Europe.

Byron's first poem appeared at 19. At 24 he reached the highest pinnacle of his literary fame.

Wilberforce entered Parliament at 21. William of Orange commanded the army on the French frontier at 23.

Burns' first volume was published at 27. At 20 critics conceded him to be the most richly endowed by nature of any living poet.

Napoleon at 27 commanded the army in Italy. At 25 was Emperor. Saw Waterloo at 40.

Tennyson at 23 took that high stand among the poets he held till his death.

WHAT SALT CAN DO.

Salt in whitewash makes it stick.

Salt puts out fire in the chimney.

Salt in solution inhaled cures cold in the head.

Salt used in sweeping carpets keeps out moths.

Salt as a gargle will cure soreness of the throat.

Salt thrown on a coal fire which is low will revive it.

Salt and soda are excellent for bee stings and spider bites.

Salt and vinegar will remove stains from discolored carpets.

Salt in water is the best thing to clean willow-ware and matting.

Salt thrown on soot which has fallen on the carpet will prevent stain.

Salt on the fingers when cleaning jewels, meat or fish will prevent slipping.

Salt put on ink when freshly spilled on a carpet will help in removing the spot.

Salt in the oven underbaking time will prevent their scorching on the bottom.

Salt thrown on a coal fire when broiling steak will prevent basting from the dripping fat.

FOREIGN NOTES.
A road-sweeper of Dartford, England, recently ran over and seriously injured while at his work, was a Balkan veteran, wearing the Queen's medal for bravery in the famous charge.

The weight of the French cavalry saddle will be reduced nearly three pounds by the substitution of aluminum for steel in portions of the tree and stirrups.

The estate of Veturina, the old historical residence of Marquis, the Marquis of the Ukraine, is in the government of Kiev, once famous for the beauty and splendor, has now fallen into ruin and decay.

Reveries and protective tariffs appear alike powerless to sustain the ship-building industry of France against the competition of England. Out of ninety-six sailing vessels registered at London only twenty-five are of French construction.

London has called the roll of deaths by starvation in 1897 and they number fifty-one, from which it would appear that London charity is in too much occupied with the heathens.

Meditation . . .
While contemplating how you can be cured of that Rheumatism you are troubled with, be it Acute Chronic, Rheumatic, Sciatic, Lumbago, or Gout, make up your mind and use "the only known positive cure, that has never failed," namely, "NEW LIFE" Medicine cure guaranteed to be had at our Laboratory 21 Jarvis Street, Toronto.

WHEN PLANNING GIFTS.
Make One of These Very Handy and Satisfactory Needle Cushions.

When in haste to do a little mending or other sewing, did you ever look in vain for a needle in the cushion which you supposed contained a full supply? Closer examination reveals the fact that the interior of the cushion is full of them, but you do not care at such a time to press them up into sight, and you feel like saying as I have done many times, why do people make such thick cushions? Would they rather the needles are run in horizontally just through the surface, or stuck in upright, they soon disappear, and woe to the finger that gave the cushion too quick pressure. A cushion especially for needles is one of the conveniences of a well equipped sewing table, and greatly to be preferred to a needle book for use when one is sewing. If the needles are always stuck into it whenever not in use, instead of running them into the edge of the table cloth or the front of your waist or leaving them wherever it is hardest to drop them, you have less needles would disappear only to be found in some one's foot, and many finger pricks would be prevented. I recall two people who if they were to spend a morning at my sewing table unknown to me, would surely betray the fact of their presence there by the number of needles they would scatter about the floor. It is not so much the value of the needle, although this is almost equal to its weight in gold if it is the only one of its kind, as is often the case in some scantily furnished work-baskets, which I have seen. But a needle lost is like an unseen foe—you never know when it may appear and it should always be diligently sought as soon as it disappears.

After the annoyance of using all sorts of "Charity Fair" cushions and alike, having kind, meaning friends thought would suit me, I determined to try what my own fingers could do. Although it was nearly bedtime and the mending basket was not yet emptied, I knew the value of the inspiration of that moment. I quickly found a thin, past-board box, about three inches long, one inch wide, and a little less than an inch high, one of the kind in which the box slips into the cover from the ends. I cut the top out of the cover and put it on the bottom, then set the box into this, leaving the thickness of cardboard at the bottom and the top at the sides. Pieces of an old merino stocking were cut the exact size of the box and laid into the inside until well stuffed. From a piece of silk plush large enough to cover the box and edges, squares were cut out from the corners, the plush was then fitted on with a few over-stitches at the corners, and another piece was fitted to the bottom of the box and caught along the sides. A ribbon of the same shade and just the right width, happened to be in my mending basket; this was drawn round the edges and finished at one end with a bow. In less than half an hour my thought was complete and my ideal needle cushion was ready for use. This smallest needle will not sink more than two-thirds of its depth, as the card board is an effective barrier, yet it is not hard enough to dull the points. The woolen stuffing prevents the needles from rusting and can never become rancid like wool. The cushion is light yet solid enough to keep on its base is of uniform thickness, and has been in every way satisfactory. —American Kitchen Magazine

Seep—With Air
One of the greatest aids to the modern housekeeper is the pneumatic sweeper. This surprising new invention, which nobody seems to claim the honor of having discovered, and which is, therefore, open to all manufacturers, relieves the broom to the gutter and takes the place of the mechanical carpet sweeper, which a few years ago was thought to be perfection. All that is necessary to fit the pneumatic sweeper to any hotel or private house is a pipe connection for compressed air. The new sweeper consists simply of a long nozzle attached to the end of a rubber hose. The nozzle is about the same size as a broom handle. One end of this pipe is inserted into the rubber hose, and the other carries a brass arrangement about a foot in width across the face. Here there is a narrow slit running from side to side, and not more than 1/32 of an inch in width. Through this narrow aperture the compressed air is forced at the rate of seventy-five cubic feet a minute. The housemaid using the pneumatic sweeper passes it back and forth over the surface of the carpet.—New York Herald.

Around the House.
To remove fruit and vegetable stains from white cotton and linen, wash in weak chloride and then in clear water, or hold the stained portion, dampened, over sulphur fumes and then rinse in clear water.

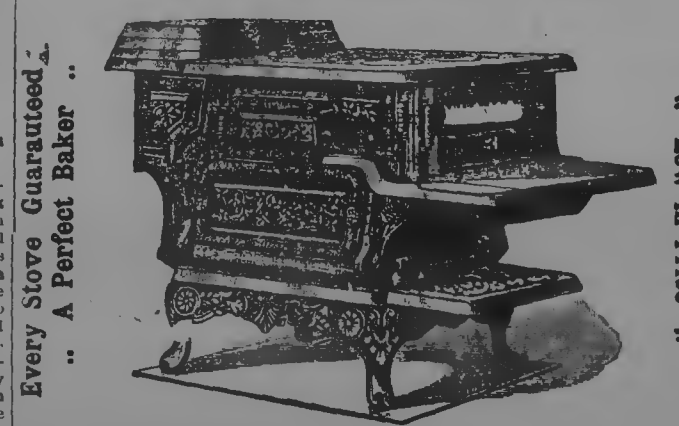

The best housekeeper is apt to encounter stains somewhere. For all sorts of the following recipe is said to be without a peer: Put a piece of white amber the size of a walnut, a piece of lemon cut in slices into two quarts of clean spring water. Let it stand twenty-four hours; then dampen the spot with it and wet the place with fresh water directly afterward.

Novelties in the China Shop.
Patty cups set on silver standards are among the expensive trifles one may expect for Christmas gifts. The cups are of delicate china and fasten firmly into the silver standholders.

Pretty Dresden toast racks replace the plain silver ones in many up-to-date shops. They are much more decorative than the old-fashioned metal ones, and are much more easily kept clean.

Powdered sugar boxes of fine china are pretty and inexpensive. The broad, perforated top serves as a strainer, and there is a graceful handle to make easy the act of sifting the sugar. The backwheel cake.

HOW TO BECOME A SAINT

PROPOSED CANONIZATION OF THE MAID OF ORLEANS

There is every prospect of the early canonization of the Maid of Orleans, according to the London Daily Mail. She has already been declared Venerable by the Roman Church, which is now preparing to testify her. The present Bishop of Orleans, Monsignor Touchet, has been doing all in his power to quicken the tedious process of canonization. To become a Saint after death seems to be as hard as to be a Saint when alive. It is only after the most rigorous and searching examinations that the Roman Catholic Church admits the aspirant to canonization to the company of the Saints. The process is a complicated one. Take, for instance, the case of Jeanne d'Arc. In 1905 her claims were first brought before the notice of the Court of Rome. Several technical faults were found in the application as presented, and the case was dropped for the time being. In 1914 Jeanne's claims were again brought forward, and after some preliminary examination she was declared Venerable. The case was then referred back to Orleans, and the Bishop instituted an exhaustive examination into the claims of the Maid of Orleans. This investigation necessitated 123 sittings of the committee. The evidence collected has been forwarded to Rome, and its 2000 pages are now being "authenticated." When this has been done the official committee known as the Devil's Advocate will formulate his objections, to which the representative of the Bishop will reply. Both objections and the rejoinders will then be printed and submitted to a tribunal which has to examine and report as to the technical correctness of the application. After this examination a fresh interchange of objections and replies will take place between the Devil's Advocate and the supporters of the would-be Saint. The real question as to the Saint's claim of recognition is then examined by the theologians connected with the Congregation of Rites. If they are approved the case will have to be deliberated upon by the Cardinals who are members of the Congregation of Rites. The final decision is pronounced by the Pope in general con-

ORNAMENTAL GRASS

HOW TO DYE IT FOR HOME DECORATION.

Dyed grasses, though abhorred by some are often found to make just a fitting note of color in some dark corner of a room where flowers could not be wasted, and the fact of having to collect them gives a pleasant object to country walks. To dye them successfully at home, so that a good color may be obtained, be sure first to clean the collected grass carefully. This is most easily accomplished by steeping the more delicate grasses in a bath of hypochlorite of soda in solution, while soap and water does for the rougher kinds. When dry lay them according to the shades required in a warm bath of the desired aniline dye. Green is obtained by steeping the grass first in yellow dye, then in blue. Reds, beano-purpurine, yellow picric acid and azure blue and violet will all give good results.

THE LATEST ACCENT

A NEW PRONUNCIATION ADOPTED BY FADDISH GIRLS

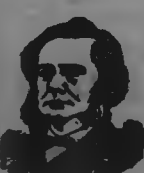

The fashionable accent, says Demorest's Family Magazine, is another important matter to be considered by the maid who desires to seem one of the society elect. She must avoid a lisp unless she wishes to brand herself a half-century behind the times. The broad "a" of the Anglomaniac has also seen its best days. The Southern drawl, with its apparent indifference to the existence of the average final syllable is threadbare. To be up to date from a vocal point of view it is necessary to cultivate a soft, low voice, an enunciation so distinct that occasionally you convey the impression that the capital letter is at the end of the word, and a certain vivacity of utterance that, throughout Europe, is associated with the modern American girl.

COLOR OF WOMEN'S EYES.

The More Question of Pigment Has Settled
Many a Man's Fate.
"Did you ever notice that men always instinctively put confidence in a girl with blue eyes, and have their suspicions of the girl with brilliant black ones, and will you kindly tell me why?" writes Lillian Bell in April Ladies' Home Journal. "It is that the limpid blue eyes, transparent and gentle, suggests all the soft, womanly virtues, and because he thinks he can see through it, clear down into that blue-eyed girl's soul, that she is the kind of girl he fancies she is? I think it is, but some of the greatest little frauds I know are the purry, lithe girls with big innocent blue eyes. Blazing black eyes, and the rich warm colors which dark-skinned women have to wear, suggest energy and brilliance and no end of intellect. Men look into such eyes and seem not to be able to see below the surface. They have not the pleasure of a long, deep gaze into immeasurable depths. And so they think her designing and clever, and perhaps (God save the mark!) even intellectual, when perhaps she has a wealth of love and devotion and heroism stored up behind that impulsive disposition and those dazzling black eyes, which would do and dare more in a minute for some man she had set that great heart of hers upon, than your cool-blooded, tranquil blonde would do in forty years. A more question of pigment in the eye has settled many a man's fate in life, and established him with a wife who turned out to be very different from the girl he fondly thought he was getting."

Hardening Steel by Gas.
The new process of hardening steel by gas appears to be making great headway in France. It is well known that gas, under great heat, deposits carbon in solid form. Upon this depend its light effects, and also the formation of the so-called rector graphite, a thick covering of pure carbon on the walls of the gas retorts. This deposit is left by the gas which strikes the retort walls. This fact is the basis of the new invention, by which steel armor plates are cemented together. A very important matter in the production of armor plates is to have them comparatively soft inside and hard outside. This hardening is obtainable by the application of carbon. Formerly the process of hardening consisted in covering the plates with layers of coal and heating them till they glowed. In the new process two plates are put into a furnace one on top of the other, with a hollow space between. This space is made gas tight by means of asbestos packing put around the edges, and the plates are heated red-hot, while a stream of light gas is forced into the hollow space. The carbon thrown out by the gas is greedily taken up by the glowing plates until they are thickly covered. The deposit of the carbon covering can be regulated by the amount of gas admitted. In order to secure regular and uniform action during the process, and to prevent the plates from carrying the gas to the hollow space from absorbing any of the carbon, they are insulated in other pipes through which water is constantly circulating. These are now being taken to apply this simple and rapid carbonizing process to many other branches of the steel industry.

THE MID-WINTER MUFF

PRETTY HAND WARMERS MADE OF BLACK VELVET

The present fad for women fond of
fancy work is the fashioning of muffs.
No fur enters into their composition.
The muff is usually of black velvet,
warmly padded, lined with rose-pink
or turquoise blue satin, accented with
some perfume unstained with musk,
and finished off with frills of lace, a
buckle or two of sparkling metal,
plenty of satin ribbon and the ubiq-
uitous bunch of violets. It is said
that muffs should now be worn some-
what differently than in former ses-
sons. Then the prominent bow or
bouquet of trimmings was held to the
front for inspection. Now, it seems,
one's violet and lace are turned up-
ward and held in toward the waist
line of the Russian blouse of the wear-
er. Remember this in paying visits
or walking out Walnut street.

LOVE-MAKING IN PUBLIC

FRENCH BRIDES AND GROOMS KISS AND HUG EACH OTHER OPENLY

Miss Lillian Bell, writing to the La-
dies' Home Journal, describes a sight
rather novel to American eyes.
"Once," she writes, "the coultal sight
of a French bride and bridegroom in all
the glory of their bridal array—white
satin, veils and orange blossoms—diving
through the streets in open cars, and
hugging and kissing each other with
an unctuous freedom which is apt to
throw a conservative American into a
spasm of laughter. Indeed, the frank
and candid way that love making goes
on in public among the lower classes
is so amusing that at first you think
you never in this world will become
accustomed to it, but you get accus-
tomed to a great many strange things
in Paris. It is a kiss exchanged with
usual violence in a cab near mine it
sometimes scares the horse, but it is
nevertheless the rule in the east, by
virtue of which the most serious of things
are calmly worn off."

PAINTED BY THE ROMANS

PICTURE OF THE CRUCIFIXION DISCOVERED IN THE PALACE OF TIBERIOUS.

A despatch from Rome, published by
the New York Sun, announces that
Signor Marconi, an archeologist, has
discovered an imposing wall-painting
in the palace of Tiberius. There is a
long Latin inscription containing the
name "Christus," and it is considered
that the painting will prove an im-
portant addition to Christian his-
tory.

The painting represents the prepara-
tion for the crucifixion. Around the
cross are soldiers bearing ladders, and
under each soldier is written his
name. Among the soldiers is Pontius
Pilate. The figures measure fifteen
centimeters in height. The inscrip-
tion is in Latin, and of which
five have been deciphered.
The Pope was immediately informed
of the discovery. Signor Marconi
will shortly publish a pamphlet illus-
trating his discovery. Many institu-
tions have asked for information con-
cerning the painting.

THE "FIGHTING DIET"

PLUCK, THINKS THIS MAN, COMES OF EATING VEGETABLES

The noted Mr. G. B. Shaw, in an
interview in the London Vegetarian,
has written home from Fuzza, Argen-
tina, and by what can be gathered from
the tone of his letters and those of
his party all are in the best of spir-
it, and the Belgians, to the surprise
of many, has so far bravely weathered
the storms of Cape Horn. It was
thought by many old sea-dogs that
she would never live in those regions.
The Belgians sailed through the Cook-
burn Channel, which is the most
southern outlet of the Straits of Ma-
gellan, toward Louis Philippe Land
or about December 10.
This land was discovered in 1839 by
Dumont d'Urville, who was unable to
ascertain whether it was the extram-
ity of a continent or an island. Un-
fortunately the season was too far
advanced for Dr. Gerlach to visit it,
nor will he be able to explore Gra-
ham's Land, which Blasco saw in 1882,
and which from that time has remain-
ed unexplored. The Belgians will reach
the due west until she reaches Alexan-
der I. Land, which the Russian ex-
plorer F. F. Borchgrevink discovered in
1881; the same navigator discovered
Peter's Land on the same voyage.
To Gerlach's intention is to find the
shortest possible route to Victoria
Land, where he will winter, while the
Belgians will go to Australia. This is
the land he wishes most to explore.
He does not believe in the advantage
of discovering the exact position of the
pole, though he may get as far south
as possible. Up to the present the ex-
plorer Ross has the record for reach-
ing the furthest point south. It was
he who discovered and christened the
two volcanoes Erebus and Terror,
which, together with the total ab-
sence of polar bears, are the two prin-
cipal characteristics of the South Pole
region. In Victoria Land Dr. Ger-
lach will establish a station of scien-
tific observation while the Belgians
proceed to Sydney, whence the first
news of his observations will be given
to the world.

WHITE SEALING WAX

COLORS OUT OF PLACE ON WED- DING INVITATIONS

Use white sealing wax for your wed-
ding invitations and "after" cards. Col-
ors, even the prettiest, are out of place.
Women who do not care to use the black
sealing wax, even if they are in mourn-
ing, choose the purest silvery sticks to
seal their correspondence. The silver
wax makes an impression beautifully
and is free from the gloominess of the
black seal. Indeed, it is true in every
instance that women of fine feeling
do not care to go to extremes, and
their good taste is shown in the temper-
ance and moderation with which they
follow the current fashions.

THE ANTARTIC EXPEDITION

NEWS OF DE GERLACHE'S SAFE- LY ROUNDED CAPE HORN

Lieutenant De Gerlach, the chief
of the Belgian Antarctic expedition,
has written home from Fuzza, Argen-
tina, and by what can be gathered from
the tone of his letters and those of
his party all are in the best of spir-
it, and the Belgians, to the surprise
of many, has so far bravely weathered
the storms of Cape Horn. It was
thought by many old sea-dogs that
she would never live in those regions.
The Belgians sailed through the Cook-
burn Channel, which is the most
southern outlet of the Straits of Ma-
gellan, toward Louis Philippe Land
or about December 10.
This land was discovered in 1839 by
Dumont d'Urville, who was unable to
ascertain whether it was the extram-
ity of a continent or an island. Un-
fortunately the season was too far
advanced for Dr. Gerlach to visit it,
nor will he be able to explore Gra-
ham's Land, which Blasco saw in 1882,
and which from that time has remain-
ed unexplored. The Belgians will reach
the due west until she reaches Alexan-
der I. Land, which the Russian ex-
plorer F. F. Borchgrevink discovered in
1881; the same navigator discovered
Peter's Land on the same voyage.
To Gerlach's intention is to find the
shortest possible route to Victoria
Land, where he will winter, while the
Belgians will go to Australia. This is
the land he wishes most to explore.
He does not believe in the advantage
of discovering the exact position of the
pole, though he may get as far south
as possible. Up to the present the ex-
plorer Ross has the record for reach-
ing the furthest point south. It was
he who discovered and christened the
two volcanoes Erebus and Terror,
which, together with the total ab-
sence of polar bears, are the two prin-
cipal characteristics of the South Pole
region. In Victoria Land Dr. Ger-
lach will establish a station of scien-
tific observation while the Belgians
proceed to Sydney, whence the first
news of his observations will be given
to the world.

TELEPHONE 92. - P. O. BOX 362
Peterborough, Ont.

It is very easy to tell whether a man or a woman has the room above you by the rumbling with the register.

It is very easy to tell whether a man or a woman is more excusable, but it is especially to be condemned when a young woman adopts the practice.

The sentiment, "Fine feathers make fine birds," should be changed to, "Fine feathers make fine hats" nowadays.

The American girl of the generation of 1890 is a very highly attractive person. She is a lovely bird and beautiful teeth.

It always happens that where the crowd congregates on the street you run into either your best friend or your worst enemy.

Some hats marked, "out in half," are worth much more tempting if they stand in very rich succumbed to some such operation.

The average life of woman who work for their living is 36 years. This is pleasant to contemplate when you are struggling for bread and butter and have a lot of money to give up and have left the 30 mark behind you.

The passenger found it more agreeable to seek a seat in another car, where he prudently refrained from making himself odious by comments on crying children. The action of the arm was spontaneous, unselfish and gallant. Without thought for himself, the offer was actively made. The matter-of-course air that the most polished courtier might have envied.

One of the best tests of good breeding is the conduct of people when they travel. They are away from home, and removed as they seem to fancy, from the critical eyes of those who know them. There are such circumstances that they show their true character. There are persons with whom it is a pleasure to travel, and others whose society on the road is little less than martyrdom.

No such deception has been practiced in advertising that this grand old company now has the right to say.

They will send their costly and mutually efficient appliance and a whole month's course of treatment, and you will be able to judge for yourself the expense to any honest and reliable man!

Not a dollar need be advanced—no penny paid—until you are known to and acknowledged by the patient.

The Erie Medical Company's appliances and treatment have been tried and tested all over the world, till every man has heard of them.

They restore or create strength, vigor, healthy habits, and new life.

They quickly stop drains on the system that take the energy.

They cure nervousness, dependency and all the effects of evil habits, excesses, overwork, etc.

They give full strength, development and tone to the system.

They make the old man young.

Failure is impossible and age is no barrier.

This "Tonic Without Expense" is used in cases of all kinds.

It is a "Tonic Without Expense" and hence no money need be advanced. The appliance must be made at once.

No C. O. D. schemes, no bogus philanthropy, no "free" medicine, no "free" treatment, no "free" examination by a company of high financial and professional standing.

Write to **THE ERIE MEDICAL COMPANY, BUFFALO, N. Y.**, and refer to seeing the account.

A. L. DAVIS,
Mayor.

Morning Times

PETERBOROUGH, FEBRUARY 5, 1898

TOWN AND COUNTY NEWS.

Boy Wanted
A smart intelligent boy wanted at the Times office to assist in the news department.

Group Will Kill
If not cured at once. Every mother should keep a bottle of Ransom's Hives Syrup and Tolu at hand—it is the standard group remedy all over the world—it always cures. 25c at any druggist.

What Two Cents Will Prove
For a two-cent stamp Francis U. Kahle, 127 Bay St., Toronto, will send a free sample of Trask's Magnetic Ointment and Cook Book to anyone suffering from Rheumatism, Chilblains, Eczema, Tetters, Salt Rheum, Bruises, Fever Sores. It is a positive cure for Piles.

Horses Wanted
Mr. W. J. Pearson, of Montreal, will be at the Royal Hotel, Port Hope, Monday, February 7th, and at White's Hotel, Peterborough, Tuesday and Friday, February 8th and 11th, for the purpose of buying a car-load of good, sound horses of every description, for which the highest prices will be paid.

Without a Penny—Works Miracles
—Dr. Agnew's Cure for the heart is without a peer. This great remedy relieves instantly the most aggravated and distressing forms of heart disease. It is the surest and quickest acting remedy for heart trouble known to medical science, and thousands of times has the hand of the grim destroyer been stayed by its use. If there is Palpitation, Shortness of the breath, Pain at Left Side, Smothering Coughs, don't delay or you may be counted in the long list of those who have gone over to the great majority, because the best remedy in the world to-day was not promptly used.

Piles! Piles! Itching Piles
Symptoms—Moisture intense itching and stinging; most at night; worse by scratching. If allowed to continue tumors form which often bleed and ulcerate and become very sore. Swaine's Ointment stops the itching and bleeding, heals ulceration, and in most cases removes the tumors. All druggists, or by mail, for 50 cents. Dr. Swaine & Son, Philadelphia. Lyman Stone & Co., Montreal, wholesale agents.

DISTRICT AND LOCAL TOPICS

Reporter's Phone, 164 B.

—To-day is market day.
—Mild; southwesterly winds; local snowfalls.

—Get your magazines to-night at the Times book-store.
—The charity committee of the town council meets this afternoon at four o'clock.

—The new Presbyterian church at Hastings will be opened on the 20th of February.

—Ash Wednesday, the beginning of Lent, comes on February 23rd, and is followed by Palm Sunday on April 3rd, Good Friday, April 8th, and Easter Sunday, April 10th.

—The second match between Osbourne Hall and Peterborough in the senior hockey series takes place here Monday night. It will be something pretty swift.

—The bar-bellors of Lakefield and Young's Point will hold a ball and supper in the town hall, Lakefield, next Wednesday night. Invitations are being sent out.

—Three residents of Lakefield who wished a low swing bridge over the canal there instead of a high level one have been unsuccessful in their efforts to have the change brought about. The Government will put up the high bridge.

Ashburnham Briefs
—The Ashburnham council will hold its regular monthly meeting next Monday night.

—Mr. Jas. Tiche is giving excellent satisfaction in keeping the sidewalk in the south end of Ashburnham clean.

—The Ladies' Aid of Mark St. church, Ashburnham, will hold a parlor social at the parsonage on Tuesday evening, Feb. 8, beginning at eight o'clock. There will be a good program, followed by refreshments, games, etc. A very pleasant time is expected.

CANADA'S NEW MINISTER OF JUSTICE

Sir Oliver Mowat's Successor in the Laurier Cabinet, Hon. David Mills, with fifty Members of Parliament, praise the Virtues of Dr. Agnew's Catarrhal Powder.

No one suffers the inconveniences of Catarrh more than the public speaker, Hon. David Mills. The coming Minister of Justice, says over his own signature that Dr. Agnew's Catarrhal Powder gave him immediate relief. People everywhere use it. John McInnis, Wash. Bridge, N.S., says: "Dr. Agnew's Catarrhal Powder did wonders for me." It relieves in ten minutes and permanently cures catarrh, cold in the head, sore throat and tonsillitis.

BETTER THAN KLONDIKE GOLD
Is health and strength gained by taking Hood's Sarsaparilla, the great blood purifier. It fortifies the whole system and gives you such strength that nervous troubles cease, and work which seemed wearying and laborious, becomes easy and is cheerfully performed. It has done this for others, it will for you.

HOOD'S PILLS are the best family cathartic and liver tonic Gentle, reliable, sure.

All New and Fresh
Our Figs, Nuts, Dates, Grapes, Lemons and Oranges are all new stock and are given you best value in all lines we carry. J. B. Oke.

THE AWFUL STING

The Unbearable Itching Irritations caused by troublesome Skin Diseases—Eczema, Scald Head, Salt Rheum, Tetters, are relieved by one application of Dr. Agnew's Ointment. Blind and Bleeding Piles cured in from one to six nights. It's a magical reliver and a power to cure quickly and effectively. Here's a sentence from a recent testimony: "I bought my Ointment on fire, but Dr. Agnew's Ointment cooled, helped and healed me." 35 cents.

The Crusaders
A fair audience attended the entertainment furnished by the Crusaders, the singing evangelists in St. Andrew's church last night. The Devil's Toboggan Slide, a series of views by line-light were well presented. The rest of the program was made up chiefly of singing and recitations. The Crusaders have drawn good crowds during their week in town.

Interesting Notes For the Ladies

SUCCESS IN DYEING MEANS PLEASURE AND PROFIT

Beware of crude and worthless imitations of Diamond Dyes. See that your dealer gives you the "Diamond" when you ask for them.
Diamond Dyes have a world-wide reputation; their work is of the highest order, and their success is deserved.

There are forty-eight colors in the Diamond Dyes for dyeing wool and cotton goods; each dye is perfectly true to color, and as reliable as pure gold.
Diamond Dyes color anything any color. They are fast to soap, washing and sun, and surpass all others in brilliancy.

Diamond Dyes are the strongest dyes made, hence the cheapest; one package is equal to three of any other make.
Never be deceived by the false claims of imitations of Diamond Dyes. If your merchant asks you to accept another make of dyes, be sure he is after larger profits, and never think of your comfort and success.
Book of directions and sample card of forty-eight colors sent free to any address by Walls & Richardson Co., Montreal, P.Q.

THE FORESTERS' CARNIVAL

Continued from page one.

Geo. Hall, Pat from Ireland.
P. Melsaac, The Frost King.
G. Eagleson, Sailors Boy.

THE RACES

A good program was run off and great interest was shown by the spectators in the results. The men's mile race was especially looked forward to, as Bell of town and McGuire of Havelock were entered, and as great rivalry exists between the two, a keen contest was expected. Five started in it, but after the third lap three of them dropped out, leaving the race between Bell and McGuire. Up to the tenth lap the race was a beautiful one, the competitors being neck and neck, but getting too close together as they tripped and both fell. McGuire was up and away first, while Bell, who was injured in the fall, took some seconds to recover. He pluckily started after his opponent, but the distance between them was too great to be overcome, and McGuire never gave him a chance to come up with him. In the boys' race, W. Mowry did some clean skating and well deserved his victory. In the partners' race the skating of Harry Bell and Lily Bell was much admired and called forth the applause of the spectators. The wheelbarrow race furnished considerable amusement. The winners of the races are as follows:
Men's mile race—5 entries—A. McGuire, Havelock, 1st; H. Bell, 2nd. Boys' race—6 entries—W. Mowry, 1st.
Partners' race, Lady and Gent—2 entries—H. Bell and Miss Lily Bell, 1st.
Partners' wheelbarrow race—4 entries—J. J. Picard and W. Crowley, 1st.

COSTUME PRIZE WINNERS
Best dressed lady in fancy costume—Miss Venie Harper, Buttercups.
Best dressed gentleman in fancy costume—Mr. Reg. Turner, Capt. De Treville.
Best dressed lady in Shakespearean costume—Miss Rose Fox, Cleopatra.
Best dressed gentleman in Shakespearean costume—Percy Jamieson, Court Jester.
Best dressed lady in comic costume—Miss Lizzie Fox, Belle of Long Ago.
Best dressed gentleman in comic costume—Mr. F. Logan, The Humber Hog.
Best dressed girl in fancy costume—Stella Stanger, Butterflies.
Best dressed boy in fancy costume—A. Boucher as Eskimo and W. Collins as Indian.
Best dressed child in comic costume—Lulu Fox, Mother Goose.
Best dressed boy in comic costume—Arthur Seward, Jap.

THE CAMPAIGN

Progress of the Contest in West Peterborough
Mr. Stratton has had a busy week stumping throughout the riding and has got through a lot of work. He addressed two good meetings in Ennismore, speaking at Ennismore Cross Thursday night with Mr. Daniel O'Connell as assistant, and at O'Reilly's school house last night, good-sized audiences being present on both occasions. He will continue his campaign next week, speaking at Hall's Bridge Monday night, and at Young's Point Tuesday.

Mr. Garvin, the Liberal-Conservative candidate, has spent most of the week in town, canvassing the electors during the day and assisting in the work at his committee rooms at night. He reports having met with a great deal of encouragement during the week, feels that his cause is growing. Mr. Garvin is a hard worker and his organization has been almost perfect.

The registration board appointed to receive the names of voters under the terms of the new registration act will hold sittings to call the names on Monday, Tuesday and Wednesday next week at the places appointed in the different wards. Both parties have looked after the new voters diligently and it is probable that a large number of names will be registered.

Just received fresh Sea Salmon, Halibut, Smelts, Lake Superior Trout and White Fish. Best brands Baltimore Oysters. J. B. Oke.

Meditation . . .
While contemplating how you can be cured of that Rheumatism you are troubled with, be it Acute Chronic, Muscular, Sclerotic, Lumbago, or Gout, make up your mind and use "the only known positive cure, that has never failed," namely, "NEW LIFE." Medicines are guaranteed to be had at our Laboratory at Jarvis street, Toronto.

Almost Distracted

Dreadful Suffering by a New-market Woman.

The Bones in the Nose Affected—Face Would Swell Until Her Eyes Were Closed—How Relieved.

NEWMARKET, ONT.—"I have had a good opportunity of noting the great medicinal powers of Hood's Sarsaparilla. My wife has been a sufferer from catarrh for the past four years, and the disease had gone so far that the bones of the nose had become affected and particles had come away through an opening in the left side. Her eyesight was also affected to the extent that for nearly a year she was unable to read for more than five minutes at a time. She suffered

Severe Pains in the Head and at times was almost distracted. She was treated by four different doctors, one of whom was a specialist. They all said they could not do anything for her, as the disease had gone too far. Her nose would swell about every three days until her eyes would almost be closed. Then it would break through and the swelling would subside for a day or two. About Christmas she commenced taking Hood's Sarsaparilla, and since that time has steadily improved. She has not been troubled with any swelling since, and the sore on the side of the nose has all healed. She is on the road to a complete cure. I cannot speak too highly of Hood's Sarsaparilla, and I cheerfully recommend it to any person who is suffering with catarrh."

W. H. FURBER.
N. B. If you decide to take Hood's Sarsaparilla, do not be induced to buy any substitute. Be sure to get Hood's.

Hood's Pills cure liver ills; easy to take, easy to operate. 25c.

Proclamation!

Electoral District of the West Riding of the County of Peterborough, to wit:—

Court House in the Town of Peterborough,
ON THE
22nd day of the Month of Feb.

1898, at Twelve o'clock, noon, for the purpose of electing a person to represent them in the Legislative Assembly of the Province, and that in case a Poll be demanded and allowed in the manner by law prescribed, such poll will be opened on the FIRST DAY OF THE MONTH OF MARCH, in the year 1898, in each of the Townships, Wards or Polling Subdivisions in which a polling place is to be opened and kept according to law, of which due notice will be given on the Day of Nomination of all which every person is hereby required to take notice, and to govern himself accordingly.
Given under my hand at Peterborough, this Third day of the month of February, in the year 1898.

JAS. A. HALL,
Returning Officer.

PETERBOROUGH, FEBRUARY 7, 1898

THE RELIGIOUS ISSUE.

It is truly deplorable that efforts were made in Ennismore last week to unite the people by appealing to their religious feelings. Who is responsible for this we will not yet undertake to say, but whoever candidate is to blame deserves to be severely censured by the electors of the riding at large. Of course if one candidate makes a statement involving religious issues which will act to the injury of his opponent, it is but right and natural that the latter should reply so far as to clear himself and dispel any wrong impression in the minds of the audience as to his position. This is the extent to which it has gone in Ennismore and it is to be hoped that the matter will stop here, without augmenting the harm already done. Among the things referred to at O'Reilly's school house were Separate schools and a person known as Margaret L. Shepherd, once well but rather unfavorably known to the reading public of Peterboro. Neither of these matters should be mentioned in the present campaign. Ontario's system of Separate schools is in no danger whatever at the present, and never was in the past; Margaret L. Shepherd is lost to sight and should be buried into the deepest depths of the forgotten; Manitoba Separate schools have no connection with either party in Ontario politics.

If Ontario's welfare is to be assured the true issue of the election must be

kept before the electors. Their ideas should not be trammelled by those religious prejudices common to all people so easy to arouse, yet so difficult to allay. Any man who would endeavor to consolidate a vote by rousing feelings of discord is acting in opposition to the course of a true patriot. The electors of Ennismore and of every other part of the riding will do well to observe the words and actions of the candidates closely, then choose the best man and the best policy and vote in accordance with their honest convictions.

Ennismore seems to be the battle field of the riding.

Was there ever an audience that was not "large, respectable, and intelligent?"

Separate schools, Margaret L. Shepherd and the Mud Lake bridge are the issues in Ennismore.

The campaign in West Peterborough threatens to become spicy. Margaret L. Shepherd has been introduced.

Many a man got a hand-shake Saturday where a "Have something," would have been more to his taste.

The Mud Lake bridge is the only point in which the issue in Ennismore can possibly differ from the rest of the riding.

The candidate who mentions the words Protestant and Catholic or brings up any old difference between the two should be severely sat on.

The young man twenty-one years of age must not think he is an important political personage because the candidates want him so badly the next three days.

There must have been a regular duel at O'Reilly's school house Friday night. J. R. Stratton is said to have been time-keeper. The name of the referee was not given.

The lives of the new registration act voters have been made so miserable by the vote hunters for some days that many of them are said to have fled to the woods to escape.

The electors of Ennismore ought to see that there is no separate school issue in the present campaign. Ontario's separate schools stand in no danger whatever.

Ennismore, 'the island township' seems to be separated from the rest of the riding in more ways than one. The politicians bring out issues there that they do not dare to in Peterboro.

Any attempt to consolidate the vote of a section by an appeal to its religious feelings when there is no religious principle at stake is worthy of the severest condemnation and should be punished by the parties appealed to.

New New-gam Men Vote
Some interesting particulars with regard to this subject are given in the Norsk Salisforenening's Tidende, Norwegian seamen, it seems, are now entitled to vote before leaving their country if the polling day is within three months of their departure; vote they can vote at a foreign port within the same time by having their votes registered and sent home through a Norwegian Consul or through a notary, if they are not on board a Norwegian ship. If on board a Norwegian ship where there are not less than four of the crew entitled to vote, then the captain and two of them are to administer the polling. It is not absolutely necessary to vote for named persons. Votes may be given for Liberal or Conservative candidates. Seamen who would vote must provide themselves with a proxy form to be obtained from a registrar of voters in Norway.

For the Hair and Scalp
One of the chief elements of human beauty is the hair. It should be luxuriant, fine, soft and glossy. Kenny's Celebrated Hair Restorer is warranted to remove dandruff, strengthen and invigorate the growth of the hair, give it a soft and glossy appearance and prevent it from turning gray. It is invaluable as a cure for baldness, and prevents the hair from falling out by stimulating the scalp to vigorous action. It is highly recommended by leading physicians and by many of the ladies and gentlemen who have been made happy by its use. It is manufactured by Sergt. Major Kenny, 395 Queen St. West, Toronto, and is sold by him and by all druggists at 50c. and \$1 per bottle. Try it and be convinced.

More on the Hair and Scalp
Mr. W. J. Pearson, of Montreal, will be at the Royal Hotel, Port Hope, Monday, February 7th, and at White's Hotel, Peterborough, Tuesday and Friday, February 8th and 11th, for the purpose of buying a car-load of good, sound horses of every description, for which the highest prices will be paid.

On Rheumatism
To the thousands suffering with the pangs of rheumatism the news of a positive cure for the terrible disease must carry a full measure of joy. The New Life remedy is fully guaranteed to cure any case of any kind of rheumatism, no matter how many other medicines have been used without effect. The best testimonials have been received by the proprietors all praising the wonderful effects of the New Life cure. Prepared at our own laboratory, 21 Jarvis street, Toronto, by W. E. Dobson, Proprietor, and sold at all \$1 per bottle, or six bottles for \$5.

THEY WANT REDRESS

CANADA'S TREATMENT OF AMERICAN FISHING VESSELS DISCUSSED.

(Special to the Times)
Washington, D. C., Feb. 5.—In the House of Representatives yesterday during the debate on one of the bills (H. R. 10,000) called the attention of the House to "the vexatious delays and excessive penalties imposed on American fishing vessels by Canadian authorities." He cited the case of the schooner Carrie F. Phillips, which last December was put to a loss of over \$1,000 and fined \$200 for a mere technical violation of the Canadian law. He contrasted this treatment with the liberal course of the United States in imposing only nominal and exemplary penalties on British vessels for similar offenses, and expressed the hope that the Government would obtain redress for this particular act of injustice and protest against the general practice of Canada in harassing American fishing vessels.

SIX FIREMEN KILLED

OTHERS BURIED IN THE RUINS AND BADLY INJURED

(Special to the Times)
Boston, Feb. 5.—Six firemen, including a district chief, captain and lieutenant, were killed at a fire here this morning, which burned out the interior of a five-story building on Merrimack street, which was occupied by G. W. Bent & Company, manufacturers of beds, bedding, etc.

The dead are: John F. Egan, district chief; James Victory, captain; George J. Galloway, lieutenant; Patrick H. Diken, hoseman; John J. Mulhern, fireman, and W. J. Walshman, hoseman. Four other firemen were buried in the ruins, but they escaped with more or less serious injuries.

LIVED ON BLOOD

LOST IN AN AUSTRALIAN BUSH, THEY OPENED VEINS AND SUCKED EACH OTHER'S LIFE-FLUID

(Special to the Times)
London, Feb. 5.—It is announced in a special despatch from Perth, Australia, that Victor Lane and David Hooke, who were on a prospecting tour at Mount Malcolm, after wandering in the bush for a week without water or food, opened each other's veins and sucked each other's blood.

They sustained life in this manner for a few days and then became delirious. Lane was found dying and Hooke has not yet been found.

A MOONSHINER'S TRIAL

PARTS OF THE STILL FOUND ALL OVER THE HOUSE

(Special to the Times)
Ottawa, Feb. 5.—The trial of William Evey, of Huntley, the alleged manufacturer of "moonshine whiskey" placed under arrest by the Dominion police on the charge of having an illicit still in his possession, was concluded late last evening and judgment will be given on Tuesday next. The inland revenue department officials testified that they had found the copper still, a tin boiler, and the goose-neck in the lower part of Evey's house, and the "worm" was found in the attic containing a quantity of moonshine whiskey. Evey offered no defence.

AN UNLUCKY EXPEDITION

MASSACRED WHILE DESTROYING TOWNS ON AFRICA'S WEST COAST.

(Special to the Times)
Akassa, West Coast of Africa, Feb. 5.—It is reported that the Cross River expedition composed of Niger Coast protectorate troops, which has been operating in the interior against the tribes of the region, and which was reported yesterday as having had some severe fighting, Captain Fenton being killed and Capt. Middleton being among the wounded, was massacred while destroying towns about Akassa Creek. The Royal Niger Company has sent a force of constabulary to rescue the prisoners.

SOME SENSE AT SEATTLE

THEY CONCLUDE THERE NOT TO PUT AN OFFENSIVE EMBARGO ON CANADIANS.

Vancouver, B. C., Feb. 5.—The City Council of Seattle, Wash., has rejected the proposal to impose a license fee of \$500 a month on agents of the Vancouver and Victoria Boards of Trade, considering that to do so would tend still further to publish abroad the inferiority of the competition for the Klondike trade which the superior advantages in respect to duty and lower prices enable British Columbia cities to offer to persons going to the Yukon as compared to Seattle.

THE EVIL EYE?

ANOTHER MAN WHO HELPED TO CAPTURE HOLMES IS DEAD

Burlington, Vt., Feb. 5.—Chief of Police Jerome Dumas, of this city, died last night of Bright's disease. He was instrumental in the capture of H. H. Holmes.

TRAGEDY AT KIEL

GERMAN NAVY LAUNCH CAPSIZES AND 12 LIVES ARE LOST

Kiel, Feb. 5.—By the capsizing of a navy launch here to-day nine sailors and three workmen were drowned.

THE FEMINE OBSERVER

The old maid is always a matchless woman.
Mrs. people die from head failure than from heart failure.

About the only thing they sell at a church fair is the public.

The narrow-minded men sometimes make the broadest assertions.

Love is a disease that keeps a man sick a longtime after he gets well.

Some people who have more money than brains are not considered wealthy.

Politeness yields large dividends, but it is an investment often overlooked.

We rarely get just what we want just when we want it.

A real friend makes you a partaker in his or her humor.

The "sleigh-belle" is the cold weather edition of the summer girl.

Few women can look stylish and comfortable at the same time in this weather.

All roads once led to Rome, and now apparently all ribbons run in the same direction.

There are very few of us so apt to be spoiled by praise as by the utter lack of it when effort deserves it.

A furnace that bakes you out of house and home in moderate weather always goes on strike when a blizzard arrives.

No matter how blaze the person, the sight of a fine engine chugging along always has the power to produce a little thrill.

Ermine is undoubtedly a regal looking fur, but it somehow appears to be lacking in warmth as far as it appeals to the eye.

Sleight parties are the fad of the hour—and only the hour judging by the way the snow has melted in certain portions of the park.

The joy of reconciliation over the telephone is rather marred by the fact that the young woman at the central office is able to enter into it also.

That exasperating woman who knows it all is perhaps responsible for many a murder that has been summed up as "apparently without cause."

FRUIT EXPERIMENTS IN ONTARIO.

Results of the First Year's Work in Testing Varieties.

Already the work of the experiment stations of Ontario is making itself known and appreciated. The first annual report, which has just been published by the Ontario Department of Agriculture, has sixty-four pages of valuable reading matter and numerous tables showing the results of the first year's work in testing varieties. As the secretary says in his letter of transmittal, it would be impossible to have results so extended ready for publication this first year were it not that practical fruit growers of long and careful experience in their various lines have been selected as the experimenters. These men are able to draw lessons from the knowledge gained from years of careful work with that variety of fruit which is the specialty of each. In this way the reports from these gentlemen become most valuable to the country.

Apples.—Mr. W. H. Dempsey, Superintendent of the Bay of Quinte station, speaks well of the Winter St. Lawrence, Pownoke and Ontario apples.

He says the Pownoke is a large apple and more productive than the King and as good in quality. Of the Ontario he says, "It is one of the most profitable apples we have. My own Ontario apples sold equal to Spys in Montreal." Of the Alexander he says, "This variety is coming more into favor every year as one of the best selling fall apples;" of the Red Astrakhan, "It is not desirable to grow here." To the Ben Davis he gives twenty-three marks of value out of a possible forty, and adds that its chief value consists in its long keeping qualities.

Grapes.—Mr. M. Pettit, Superintendent of the Westworth grape station, gives an interesting table showing the actual productiveness and the various prices per pound which he received for certain varieties in 1894. The Catawba, which was harvested October 22nd, yielded 17½ lbs. of grapes to the vine, of which all but a half pound were first grade; the average selling price was three cents a pound, giving a total income of about fifty cents per vine. The Concord yielded nineteen lbs. per vine and so sold at two cents a pound, or about thirty-eight cents per vine. The Catana yielded 16½ lbs. and sold at five cents a pound, giving a total of about eighty cents per vine. About thirty varieties of grapes are fully described.

The secretary, in his notes on varieties, speaks favorably of the Victoria grape. He says, "The Victoria, one of the numerous seedlings raised by Mr. B. Miner, of Linden, N. Y., was this year a favorite white grape with me, and I am inclined to think that it will yet take a foremost place among white grapes. The bunches are well shaped; the skin has a fine waxen lustre and heavy bloom, and the berries are of good size and fair quality. The vine is very productive. By some this grape is called a white Concord."

Peaches.—In his notes on peaches, Mr. W. Hillborn, Superintendent of the South-Western station, says, "Alexander, Amador's June and Early Canada are all practically identical. The four most profitable varieties to grow in this locality have been Alexander, Bernard's Early, Tyhurst Seedling and Hill's Chilli. The two latter are perhaps the most hardy in fruit buds and give a good crop nearly every season. They are probably the best to plant in sections not well adapted to peach culture. Among new varieties the Fitzgerald is perhaps the most promising. It is of the Early Crawford type and apparently an improvement on that old favorite. The fruit buds are hardy and the young trees will begin bearing the second year after planting. The fruit is large; skin, bright yellow suffused with red; flesh, deep yellow, of best quality; stone, not as large as that of the Crawford. Its season of ripening is with or just after, the Early Crawford. Boyle's Early is another quite new sort in this locality that is very promising. It is the first yellow flesh peach to ripen with me."

Strawberries.—Mr. E. Stevenson, strawberry specialist, describes forty-two varieties, placing the Greenville at the head for productiveness and among the best for quality. It is a large crimson berry originating in Ohio. The Haverland he also ranks very high for productiveness. The Timbrell does not ripen evenly, and the Parker Early runs and cannot endure the drought. The Woolverton, he says, is well worth growing.

Gooseberries.—Mr. A. Morton, of Brampton, reports upon twenty-six varieties of gooseberries, mostly English.

Mr. S. Spillet, Superintendent of the Simcoe gooseberry station, reports upon ten varieties. He speaks highly of the Pearl. He says, "Take it all around as a medium sized berry, the pearl is hard to beat. More vigorous and with better foliage than the Downing, it is bound to be generally wanted. It yielded this year five quarts to the bushel all around. The Champion, a peer to the Pearl in vigor and foliage, is ahead of it apparently in productiveness and size. The berry is a cross of Downing upon a wild Rocky Mountain gooseberry, so the originator informs me. It is certainly unlike any other gooseberry I have seen in habit of growth and appearance and shape of berry. In quality, I do not think the fruit equal to the Pearl. I may say that by spraying with liver of sulphur, most of the English varieties may be grown successfully, but, in my opinion, our future berry for general cultivation will be along the line of a cross between the so-called American varieties and the English."

Spraying for Fungi and Insects. That Paris green and barresone emulsion still remain the leading insecticides, and that Bordeaux mixture is the best remedy for plant diseases, is the experience of the New York station at Geneva. The knapsack sprayer is generally useful, though extensive growers need a machine of greater capacity. The machine pump should always enter the tank at the top, and the pump should be made of brass or be brass lined. Hand pumps should allow the weight of the body to be used on the handle while at work. Vermorel nozzles give a better spray than the disk machines. For spraying potatoes and tomatoes a nozzle is needed which can be lowered between the rows and directed so as to force the spray up through the vines. The agitator is needed to keep the poisons in solution. The best forms work up and down in an upward tank, like a dash in the old churn. Where the pump piston has a packing this should be often renewed. For killing cabbage worms and insects, no liquid has been found equal to dry paris green applied with a hand sifter. Powder guns are useful for applying dry powdered poisons, pyrethrum, tobacco dust and sulphur. Bamboo extensions should be used in spraying large trees.

We never would make more better calves than we needed for our own herd. It will save a lot.

The Feminine Observer

Complaint is a confession of failure. The latter-day Cupid's greatest fault is his capidity.

A good live man is not wanted in the undertaker business. Words may wound cruelly, but the hurt of silence is far deeper.

Why do women always have on their slightest shoe some wily days? There are hundreds of women with masculine heads but feminine hearts. The individual who cheats at solitaire is undeniably and irrevocably dishonest.

While a man is making his way in this world a woman is generally having hers.

A lover would like you to believe what he affirms—a husband what he does not deny.

The enthusiasm of youth receives its primary shock with the advent of the first gray hair.

A sensitive nature is like a musical instrument. It responds according to the touch that manipulates it.

Did you ever notice that a man is never so helpless as when he has to appear in an open air without his hat?

Men of middle age like to be called "old boy," while the veriest kid revels in the delight of being called "old man."

Though man is said to want but little here below he isn't willing to pay cash for it, if the shopkeepers are to be believed.

The man who affects to despise love passes as a person of experience, but it is generally a bitter one and not to be envied.

There are women of this world who enjoy formal dinners simply because there is a man on either side of her who can't get away.

The man or woman who is sufficiently strong in character to feel above the criticism of personal dress has reached a pinnacle of personal happiness.

It may seem a cruel thing to say, but much of the grief for the dead is but unconscious remorse for the happiness that has been caused them when living.

How to Cure All Skin Diseases

Simply apply "Swayne's Ointment." No internal medicine required. Cures scabies, eczema, itch, all eruptions on the face, hands, nose, &c., leaving the skin clear, white and healthy. Its great healing and curative powers are possessed by no other remedy. Ask your druggist for Swayne's Ointment. Lyman, Sears & Co., Montreal, wholesale agents. Avoid substitutes.

Silly Modern Magic

It would be quite wrong to conclude that the crystal sphere is discredited among the faithful. Large numbers are sold every year—few, by comparison, with the parchment talismans, of course, and for excellent reasons. In the first place, the parchment worn past the skin requires periodic renewal, in the next, the crystal ball will last forever, and is, moreover, expensive. The genuine article—real crystal—may cost as much as \$20, but that is an luxury only accessible to the wealthy and earnest seeker into the future, for 15 shillings or a guinea you may possess yourself of a compositioning lamp ball nicely served up in a morocco case lined with satin like a jeweler's casket, and this will answer the purpose equally well. They are usually made perfect spheres, but if you prefer it egg shaped you can order an ovoid crystal.

I understand that astrology recognizes no difference in the relative merits of the two forms. The chief essential to success in using the crystal ball is great concentration. A north light is recommended, for reasons I am unable to explain, but is not absolutely necessary. You recline in an easy attitude, hold the ball up to the light, and center your mind upon it until you see something; that which you see is going to happen. My knowledge of this particular matter is so slender that I will say no more about it.

The crystal balls have their sincere believers would seem to be proved by the price they command. The richest man or woman does not pay 30 sovereigns for a shroud of crystal the size of a lawn tennis ball unless he or she confidently anticipates some return for the money.

EMISSIONS

Varicocels, Syphilis, Weakness and Diseased Men Cured.

20 Years in Mich. 40 Years Experience 250,000 CURED.

Thousands of young men are made nervous wrecks, unfit for business, social pleasures or home duties by the habits in youth, later excesses, or private diseases. W. H. Andrews, of Akron, O., says: "I read this paper and have seen many reports of remarkable cures made by Dr. Kennedy and Kergan. I decided to treat with them. Indiscretion was the cause of my trouble. I was weak and nervous; no ambition; back weak; pimples on the face; thin and haggard; eyes sunken and cheeks hollow; dreams and drains at night; memory poor; varicocels and weak parts; unable to stand; spells; attacks before the eyes; lack of confidence; no energy; and many other complaints. I had tried numerous doctors, bought four electro-baths took scores of bottles of patent medicines—all failed. I tried the New Method Treatment of Dr. Kennedy and Kergan, and it cured me. I am a Man Again. I have gained twenty-five pounds and am strong mentally, physically and sexually. It is a wonderful treatment." Blurred vision, with the worst symptoms: Dizziness in the mouth or on the tongue; blotches, eruptions, hair falling out, bone pains, eyes red, stomach troubles, sore throat, etc., positively cured forever. You dare not marry until cured. Cures guaranteed or no pay. We cure Syphilis, Nervous Debility, Varicocels, Pimples, Headaches, Stricture, Gleet, Gonorrhea, Discharges, Weak Parts, Neuritis and Kidney Diseases. Consultation Free. Books Free. If unable to call, write for Questionnaire for Home Treatment. Everything confidential. Nothing sent C. O. D.

SEALING WAX KILLS

A HOT PIECE OF IT FALLS ON
LORD CLONMELL'S HAND AND
PROVES FATAL.

London, Feb. 5.—The death of Lord
Clonmell which was announced on
Wednesday last was caused by his
dropping a little hot sealing wax on
his hand, whereupon blood poisoning
rapidly developed.
He only succeeded to the title in
1896.

COQUITLAM BACK TO PORT

THE WRECKED STEAMER BACK TO
VANCOUVER FOR REPAIRS

(Special to the Times.)
Vancouver, B. C. Feb. 5.—The
steamer Coquitlam, which ran ashore
while enroute to Alaska, returned to
port to-day, and will go into dock.
She had three passengers from Skeg-
way, who had been running a lodging
house there, and have just sold out.
No person had arrived at Skegway or
Dysa from Dawson since the last
steamer, when the Coquitlam left.

FIRE ON A FARM

(Special to the Times.)
Marysville, Ont. Feb. 5.—The dwelling
of James McAuley, a farmer, about
four miles from here, was burned about
three o'clock this morning nearly all the
contents being consumed. The fire is
supposed to have started from the
chimney.

HOW TO WIN A WOMAN

Expert Advice From David E. Bates,
the BigamistPoetry, Music and Powers Never Failing
Signs in his Hands, Four Conquests

David Batesworth states, the singular
young man with plural wives who has
recently undergone trial, not bigamy
in Chicago, is preparing to write a
book entitled "How I won them."
Talking with reporters in the jail
the other day, he explained that
a volume containing his experiences
would prove of value to him in a lin-
ear way, because setting forth his
case in a more favorable light to the
public.

The chapter that he discussed with
most freedom was one entitled "How
to win a woman's love."

"That question, he said, 'I can
answer in two words—observation and
sympathy. You must observe a woman
clearly, study her little likes and
dislikes, then sympathize with her
troubles. Keep her whenever you
can, but do it in an unobtrusive
way. It never fails. Women are sus-
ceptible—very susceptible—to sym-
pathy."

"Did you ever try poetry and moon-
light nights?" asked a very young re-
porter.

"No. I never went very much on
poetry."

"Music?"

"No. I am not a musician."

"Flowers, dances, boat rides?"

"Yes, those attentions are all right,
but you can never win a woman's
love with them. Nor can you win her
by good clothes, though you must al-
ways appear neat. A woman doesn't
care for clothes—that is, the right kind
of woman. She wants sympathy; she
wants a man to be really, to be at
her side and help her through the
troubles of life. I am naturally at-
tentive to women, and I found that
attention and sympathy counted more
than money."

The court record condensed to date
shows that David Batesworth Bates is
32 years of age. At 15 years he mar-
ried Kate Howard, at 22 he abducted
and betrayed Olive Vosburg; at 23 he
betrayed Anna Vosburg; at 24 he
married Anna Harbert; at 25 he mar-
ried Julia McCarty; at 29 he married
Iris Caldwell; at 30 he married Net-
tie Swain; he has been convicted in
the case of Julia McCarty and Ida
Caldwell and given an indetermi-
nate sentence, with fines aggregating
\$2,000. The case of Nettie Swain still
remains to be tried.

Anna Harbert got a divorce from
Bates the other day.

It is not known whether or not he
was ever divorced from his first wife.
He was arrested last August on a
charge of having more than one wife.
Police developments showed that he
had a bunch of wives, all living with
in a few blocks, that he took dinner
with one, supper with another, and so
on with mathematical regularity.
He was earning only \$60 a month, and
how he kept up his establishments
was a mystery.

After his arrest and a vain attempt
to compromise matters he was released
on bail, appeared in a dime mus-
eum and finally opened a saloon.

Lates made the technical defense
that he was married to Annie Har-
bert, the Michigan girl, before he mar-
ried Julia McCarty, and therefore the
latter marriage could not be legal.
Judge Horton did not favor the tech-
nical plea.

The state held that Bates had been
engaged in the wholesale deception and
ruse of women, and that justice as
well as chivalry demanded that he
should be put out of the way.

Three indeterminate sentences will
be imposed upon him, almost a life-
time in the penitentiary.

He has never shown contrition for
his deeds, but rather appears to glory
in them. He is a man of small sta-
ture and insignificant in appearance.
He received \$100 a week for his mus-
eum going.

The closing hours in the second
trial of Bates were as picturesque to
the court attendants as they were
tedious and foreboding to the prison-
er.

In the afternoon a war-like with
a red hood and a pair of busy hands,
with nothing particular to amuse her,
rumped up and down, and more than
once climbed into an empty chair near
the prisoner and cast shy glances at
the man, who, despite his dejection,
could not refrain from nodding her.

She was Ruth McCarty Bates.
Near from Mrs. Julia McCarty
Bates met another woman. At her
side was another little girl. She was
Olive Vosburg Bates, aged 8, and only
13 years younger than her mother.

Help for the Hair

is what a great many men and women
are looking for help against approaching
baldness; help against thinning locks;
help to restore the lost gloss to the hair;
help against fading tresses; help for the
scalp attacked by dandruff. AYER'S
HAIR VIGOR offers just such help. It
restores gray or faded hair to its original
color, gives it length, thickness and gloss,
and removes dandruff.

"My hair was rough and broken and began
to fall out. The use of but one bottle of
Ayer's Hair Vigor both checked the falling
out and rendered my hair smooth, glossy and
in splendid condition. It is the finest of dress-
ings."—Mrs. F. L. BENT, Silver Creek, Mass.

"Some years ago my
hair began to fall out and
I became quite bald. By
advice I tried

and very soon my hair
ceased to fall out and
my hair is now abundant
and glossy. I am now
Rockville, Wis.

NEWLY PATENTED INVENTIONS

A MARINE SAFE

A New Canadian inventor has de-
signed a marine safe, which has a reel
on one side to carry the anchor rope,
with a flag staff at the top and a
locking food receptacle inside, to as-
sist shipwrecked sailors.

FOR CLEANING STOVE PIPES

Soot cannot accumulate in the el-
bow of stove-pipes to clog the pipe if
a new arrangement is used, which is
attached to the section of pipe near-
est the elbow, and has perforations to
admit air, which it discharges into the
elbow to change the current of the
smoke inside the pipe and drive it
around the elbow.

TO TRANSMIT POWER

To transmit power from a dynamo
or motor, a Canadian has invented a
machine which transmits the power
and reduces it to fluids, which are
pumped through pipe lines to places
where fuel is needed to operate en-
gines for various purposes.

AN IMPROVED MATCH SAFE

Matches cannot be spilled out of a
new safe, and only one match is deliv-
ered at a time, a roller being fitted at
the bottom of the reservoir, with a
longitudinal slot on one side to receive
a match and deliver it when a crank
mounted on a roller is turned.

A STEAM STREET SWEEPER

A Western man has patented a new
street sweeper, which has a flat brush
to remove the pavement and a air
the dust, which is sucked up through
a pipe and is discharged into a reser-
voir, steam power being used to op-
erate the brush and suction pump.

HANDY LAMP LIGHTER

A handy lamp lighter for kerosene
and gas fixtures, which cannot be reached
easily, is composed of a tube with a con-
tractible, rough end opening in one end,
though with the rough end in position
by a rod inside the tube to ignite it,
when it can be applied to the burn-
er.

Animals a bright in short

A question that has often been asked
is how long does it take in a
wild creature? The close observer
will be surprised at its brief dura-
tion. They are not subject to "nerves"
like human beings. A partridge after
running (or rather flying) the gaunt-
let of half a dozen guns—we may be
allowed a mixed metaphor—drops
on the other side of a hedge and be-
gins calmly to peck as if nothing had
happened. You would think a rabbit
after hearing a charge of shot
whistling about its haunches and just
managing to escape from a yelping
squirrel would keep indoors for a week,
but out it pops quite merrily as soon
as the coast is clear. A fox pursued
by hounds has been known to halt
and kill a fowl in its flight, though
we may assume that his enemies were
not close to Reynard at the time. We
have been led into thinking about
the matter by noting what took place
at a cover after being shot over.—Fall
Mail Gazette.

POND'S EXTRACT

PHILADELPHIA, Dec. 29, 1894.
I have used "Pond's Extract" for many years and always insist upon my patients getting "Pond's," not the ordinary Extract, which is often a very poor article. W. K. BROWN, M. D.

PHILADELPHIA, Jan. 9, 1895.
I use Pond's Extract a great deal in my practice. I think it very valuable in all venous enlargements. J. L. BRADFORD, M. D.

SANTA BARBARA, CALIF., Nov. 27, 1894.
I have been using Pond's Extract in my practice for twenty years. I frequently have the experience you mention of druggists insisting they can put up as good as yours. I don't believe it. I use Pond's Extract a great deal as an antiseptic in combination with glycerine and carbolic acid. I think it far superior to any antiseptic known. F. G. FLOURNOY, M. D.

COLUMBIA, PA., Jan. 18, 1895.
I have been a constant user of Pond's Extract since 1852, and do not expect to discontinue it while I live. S. ARMOR, M. D.

CHELSEA, MASS., Nov. 8, 1894.
I have made diseases of the skin a specialty for thirty years, and am free to say I know of no remedy that has given me such perfect satisfaction as Pond's Extract in cases for which it is recommended. G. W. BABCOCK, M. D.

ASTHMA'S INSTITUTE, Buffalo, N. Y., Dec. 8, 1894.
I know Pond's Extract to be a valuable remedy, and shall continue its use whenever the opportunity offers. Geo. H. CALKINS, M. D.

NEWARK, N. J., Dec. 13, 1894.
I am pleased with the purity and strength of Pond's Extract. J. L. DURYEE, M. D.

POND'S EXTRACT is used by the leading physicians and principal hospitals of America and Europe.

2,000 ORDERS FROM PHYSICIANS WITHIN ONE MONTH DURING LAST AUTUMN.

POND'S EXTRACT is unrivaled for Cuts, Burns, Bruises, Colds, Catarrhs, Piles, Inflammations, Hemorrhages and all Pains.

MAYOR'S OFFICE.

Mr. Davis will be at the Town Office, from 9 to 10 o'clock, each morning to meet those having business to transact.

A. L. DAVIS, Mayor.

Morning Times

PETERBOROUGH, FEBRUARY 7, 1898

TOWN AND COUNTY NEWS.

Boy Wanted.
A smart intelligent boy wanted at the Times office to assist in the news department.

All New and Fresh.
Our Figs, Nuts, Dates, Grapes, Lemons and Oranges are all new stock, and we can give you best value in all times we carry. J. B. Oke.

Forster's New Hall.
Court Langton, C.O.F., are opening a new hall where the Sons of Canada used to be, on George-st., over Robt. Wells' tailoring establishment. The new hall of the Langton Forsters will be opened on Thursday night with an "at home" supper and hop. It will be a pleasant evening.

Piles! Piles! Itching Piles.
Symptoms—Molture intense itching and stinging; most at night; worse by scratching. If allowed to continue tumors form, which often bleed and ulcerate and become very sore. Swelling of the rectum stops the itching and bleeding, breaks ulceration, and in most cases removes the tumors. All druggists, or by mail, for 50 cents. Dr. Swaine & Son, Philadelphia. Lyman Sons & Co., Montreal, wholesale agents.

Sunday School Conv. nion.
Although a good program was presented at the County Sabbath School convention held in Lakeside last week, the attendance was rather poor. Among those from town in attendance were Revs. J.G. Potter, S.J. Shorey, Mrs. G.W. Garvin, Mrs. VanEvery and Misses Shortly, Datcher, Aldridge and Grundy. Revs. E. McLeod, Triggs, D.A. Thompson, Hastings, J. C. Tibb, Toronto, and others took part in the program. County Councillor E. Hawthorne was elected president.

DISTRICT AND LOCAL TOPICS

Reporter's Phone, 184 B.

—The Ashburnham council meets to-night.

—The booths for the registration of voters will be open to-day.

—There was only a fair-sized market Saturday morning.

—A fancy dress carnival is to be held at Port Hope Wednesday night.

—A special meeting of the W.C.T.U. is called for 3:30 this afternoon at Mrs. Paton's, Brock-st.

—A concert under the auspices of the Men's Guild will be held in St. Luke's Sunday School to-night.

—Rev. Father Conway, of Norwood, will deliver a temperance lecture at the rooms of the Catholic Association to-night.

—An Armenian woman was charged at the Police Court Saturday morning with peddling without a license. Her case will be tried to-day.

—The committee of the whole council will meet to-night to discuss the rate and time of payment of the taxes and matters relating to the charity work.

—The Board of Management of the Children's Aid Society, with its knowledge gratefully Dr. Caldwell's \$2 subscription to the funds of the Society.

—Messrs. J. J. Turner & Sons, the champion decorators were given great praise for the artistic manner in which they arranged their work at the carnival Friday night.

OBITUARY

Death of Mrs. G. H. Davis, Mother of Mayor A. L. Davis.

The many friends of Mrs. G. H. Davis, relict of the late Rev. Geo. H. Davis will learn with sincere regret of her death which took place at the family residence, 191 Brock street yesterday morning at 5 o'clock. Mrs. Davis has been long and favorably known in Peterborough, and has enjoyed a wide circle of friends. She will be especially missed by the members of the Methodist church, of which body she has been a life-long and faithful communicant. Until prevented by illness she always took a deep interest in church work and her devotion to works of charity, together with her kindness of manner and upright life, gained her the respect and esteem of all.

Mrs. Davis has for some years suffered intense pain, caused by nervous disorders, which also affected her heart and other organs, and although under the best medical care she found but little relief. For over a year her life has been despaired of, and although she spent some months at Clifton Springs under the treatment of the highest medical authorities, she grew gradually weaker, and it was evident that her life was drawing to a close. Since Thursday she has been unconscious, except for brief spells at intervals, her spirit passing calmly away yesterday morning.

Mrs. Davis, whose maiden name was Jane S. Jeffery, was sixty-nine years of age at the time of her death. She was born in Quebec city, and received her education at the Ursuline convent there. She was married to the Rev. G. H. Davis and came to live in Peterborough. Mr. Davis then being pastor of the George street church. Mr. Davis served many years in different parts of Ontario, but after his re-annunciation the family came to Peterborough to reside, where Mr. Davis' death took place in September, 1891.

Mrs. Davis leaves five children to mourn her loss. They are Mrs. J. M. McPherson, of Milwaukee; Rev. Geo. H. H. Davis, of Springfield, Penn.; Miss Eva J. Davis, of town; Mr. Alfred L. Davis, Mayor of Peterborough and Mr. J. Arthur Davis, of Milwaukee, all of whom, with the exception of the first named were with their mother at her death.

The funeral will take place from family residence, 191 Brock street, on Tuesday afternoon at three o'clock and proceed to the Little Lake cemetery for interment. Rev. S. J. Shorey, of George street church will conduct the funeral services.

OBITUARY

Death of Mr. James McLellan of Bowmanville, Father of Mr. J. H. McLellan of Town.

The death took place at Bowmanville Saturday morning of Mr. James McLellan, father of Mr. J. H. McLellan of town. The deceased, who was a native of Armagh county, Ireland, was eighty-eight years of age, came to Canada when twenty years old, settling in the town of Bowmanville. He was for many years Harbor Master there, and afterwards held the position of Collector of Customs at the same port. The deceased gentleman was a member of the Presbyterian church and a Liberal in politics.

He leaves four sons, John, Harbor Master at Bowmanville; William, of St. Thomas; James, of Whitby harbor; and J. H., travelling salesman of the People's Coal Co., Peterborough.

THE RAILWAY DIFFICULTY

Probable that the C.P.R. Western Trains will be again kept over the North Bay Route.

Although the C.P.R. traffic from Toronto to the west is now carried on via Peterborough to Smith's Falls and thence to Sudbury and Winnipeg it is likely that the former practice of running the C. P. R. cars over the Grand Trunk route to North Bay will be resumed. A conference is now going on at Montreal between the managers of the two roads with a view to settlement of the differences between them, and one of the points under discussion is the resumption of the old contract by which the C.P.R. used the Grand Trunk North Bay route for its Toronto traffic. If an agreement is reached the new Klondike trains which have been placed on the C.P.R. and now pass through Peterborough will be taken off. Unless they come to some understanding the Canadian Pacific will have to contemplate the building of a new line from Toronto to Sudbury.

Wanted.
An experienced general servant wanted. Apply at once at 520 Water

THE HOCKEY MATCH TO-NIGHT

Osgood Vs. Peterboro in the Winter Series at the 11:00 P.M.

There may not be a very hot time in the old town to-night, but there will certainly be a fast one at the Charlotte street rink after the referee blows his whistle for the Osgood-Peterborough hockey match. The Osgood team is about the best material that Toronto can send out in this hockey line, but you can bet all the money you can borrow from your friends that they will be turned down to-night. They defeated Peterborough's team last week and so are two goals ahead, but the town boys are confident that things will be up-side down with a vengeance about ten o'clock to-night. The teams are two of the best in Ontario, and Osgood is undoubtedly a fast aggregation of players but our "home-brewed" team is out for the championship and Osgood stands in the way. All present will see a close and fast game of 18-cent hockey. Go early and get a good place, but don't bring any hockey stick to strike the side of the rink with as there will be enough noise without it.

WEST PETERBORO' CAMPAIGN

Ballot-box in the Committee Rooms of the two Candidates Saturday Night.

The election is the only topic of conversation among the masculine half of Peterborough these days, both of town and country. Knots of people gathered on street corners Saturday and excitedly discussed the issues and the candidates. Both aspirants for Legislative honors were out early giving the glad hand to their supporters and to their wished for supporters.

Meetings were held in both committee rooms at night. At the Liberal headquarters little speaking was indulged in, those present devoting their attention chiefly to preparing for the registration of the voters to-day. The state of the field was discussed, and all present seemed confident of Mr. Stratton's return by a handsome majority. At Mr. Garvin's fortress in the Opera House block the greatest enthusiasm was shown. The room could not begin to hold the throngs of admission, and men were piled on high against the walls. Speeches short and pithy were made by Mr. Hampden Burnham, Mr. Andrew McNeill, Mr. J. J. Turner, Mr. G. W. Miller, Mr. Gilchrist, Mr. Bell, Mr. W. Miller, the candidate and many others. All expressed satisfaction with the trend of the campaign and were confident of their candidate's election. The Conservative campaign song—a rousing car-cry—was sung by Mr. G. W. Miller, and the meeting closed with which these present joined in the chorus brought a smile of joy over the candidate's countenance.

Both parties will do their utmost to see that the names of all the new voters are registered the first three days of the month in obedience to Her Majesty's Writ to me directed, and bearing date the Second day of the month of February, 1898. I require the presence of the said Electors at the

TO KEEP UP APPEARANCES

They Were Out of Employment but knew a way to keep up Appearances.

While a policeman was standing on the corner of Brock and George sts. early this morning he noticed a man was attracted by two suspicious-looking men, who were loitering about a narrow thoroughfare and the policeman hastened around the corner, and entered the same alley from the back of the man who held the razor to his face. "What's the matter?" he asked rather indignantly. "Nothing," said the policeman as his face assumed a broad grin. "but you better move on; it's against the law to loiter in alleys." Wait a minute," said the fellow who held the razor, "and I'll explain matters. We're only two barbers out of work, and just got here this morning from Montreal. We came on to see about a job, and we ain't got enough money to stop anywhere, and if we don't look pretty decent when we go into a place to look for a job we'll be queried; so we just bobbed up here to take a respectable shave. It'll go a great ways in getting us the job we're after." The officer felt sorry for the men, who didn't look as bad on close examination. He waited until both of them had completed their operations, and then put them in the way of getting a good breakfast.

Get It In The Neck.
Saturday morning a farmer on the market, who was discussing the political situation and had become quite worked up in his enthusiasm, received a cold application to his nose from a way that he was little expecting. He was standing under an icicle a foot and a half long, the tapering point of which hung a couple of feet above his head from a water-spout. The soft weather had weakened the icicle's hold, but the farmer knew nothing of it. A moment later a twelve inches of congealed water had slipped down between the granger's neck and his shirt collar, and was nestling coolly along his spine, where it was rapidly melting and trickling into his booties. Mr. Farmer doubled himself front and then back and went through divers contortions and convulsions and screams, but without success. He finally sought the privacy of the National Hotel, where what was left of the icicle was extracted, but the farmer knew nothing of it. It took at least three fingers of St. Raphael's but to shed circulation from which the farmer was afflicted with his back close to a hot stove.

A lecture will be given to the non-commissioned officers of the 57th Batt. in their mess rooms by Major E. R. Fitzgerald tonight. It will speak on the life of Sir H. H. D. Clark a subject of great interest to all military men. All the non-coms should attend.

Look Here!
Just received fresh Sea Salmon, Halibut, Smelts, Lake Superior Trout and White Fish. Best brands Baltimore Oysters. J. B. Oke.

A YEAR'S RECORD

Figures Regarding the Births, Marriages and Deaths for 1897.

The Government statistics of the births, marriages and deaths registered in Ontario in 1897 is to hand. In that year there were 46,908 births. Of these there were 310 twins and 6 triplets. In Peterborough county there were 894 births, an increase of 98 over 1895; 472 males and 422 females. Of these there were 3 twins. There were 14,804 marriages, and of these 13,139 were married by license and 1765 by banns. The Methodists were in the lead in number with 10,535; Presbyterians come next with 6,056; then Roman Catholics and Episcopals with 4,576 each; Baptists, 770; Congregationalists, 260; and other denominations 1,122 and no denominations, 140. In Peterborough county there were 245 Methodists married; 97 Roman Catholics; 87 Presbyterians; 87 Episcopals; 22 Baptists; 4 Congregationalists; other denominations, 7; and no denominations, 1; making a total of 550, or 275 marriages. In deaths there were 24,857. In Peterborough county there were 578 deaths, 210 males and 168 females.

V.  R.

Proclamation!

Electoral District of the West Riding of the County of Peterborough, to wit:—

PUBLIC NOTICE is hereby given to the Electors of the Electoral District of the West Riding of the County of Peterborough, that in obedience to Her Majesty's Writ to me directed, and bearing date the Second day of the month of February, 1898, I require the presence of the said Electors at the

Court House in the Town of Peterborough,

ON THE
22nd day of the Month of Feb.

1898, at Twelve o'clock, noon, for the purpose of electing a person to represent them in the Legislative Assembly of this Province; and that in case a Poll be demanded and allowed in the manner by law prescribed, such poll will be opened on the FIRST DAY OF THE MONTH OF MARCH, in the year 1898, in each of the Townships, Wards or Polling Subdivisions in which a polling place is to be opened and kept according to law, of which due notice will be given on the Day of Nomination of all which every person is hereby required to take notice, and to govern himself accordingly.

Given under my hand at Peterborough, this Third day of the month of February, in the year 1898.

JAS. A. HALL,

Returning Officer.

CARTWRIGHT APPOINTED

Made Assistant Adjutant General of Canada

Sir Charles Tupper's Attack on Lord Aberdeen the Subject of Discussion at Ottawa

(Special to the Times.)

Ottawa, Ont., Feb. 7.—There is some talk here over the way in which Sir Charles Tupper attacked Lord Aberdeen in the House of Commons, and the following in this morning's Citizen is significant:

"If the social regime of their Excellencies were to be gauged solely by Saturday's evening function in the Senate Chamber, it would be marked as one of the most successful since Confederation."

There is no doubt but many turned out to the drawing room because of Tupper's attack.

NEW MEMBERS.

Dr. Fleet will be introduced in the Senate this afternoon.

Mr. Ludov. M. P. of Nicolet, has arrived and will be introduced in the Commons this afternoon.

FOSTER TO-DAY.

Mr. Foster will resume the debate on the address in the Commons to-day, and it is expected that he will make a strong attack on the Mackenzie-Mann contract.

The terms of the contract are expected to be down to-morrow.

UNCLE SAM TURNED DOWN

HE CANNOT SEND ARMED TROOPS THROUGH WITH THE YUKON EXPEDITION.

(Special to the Times.)

Ottawa, Feb. 7.—The Dominion Government has advised the Washington authorities that the proposed expedition to be sent to Dawson City by the United States is not to be accompanied by an armed body. The Canadian Government will escort the expedition over Canadian territory with an escort of fifty men from the Mounted Police. United States officials can remain in charge of the expedition. It is just probable that the expedition may be abandoned altogether.

CARTWRIGHT GETS IT

THE REPORT IN THE TIMES CORROBORATED FROM OTTAWA TO-DAY.

(Special to the Times.)

Ottawa, Feb. 7.—Major Cartwright, Toronto School of Infantry, has been appointed Assistant Adjutant-General of Canada. Major Cartwright is the son of Sir Richard Cartwright. The position of Assistant Adjutant-General has been vacant since Col. Aymer was promoted to the position of Adjutant-General.

HIS FAMILY PERISHED

ONE CHILD PROBABLY SAVED OUT OF A FAMILY OF FOUR.

(Special to the Times.)

Drummondville, Que., Feb. 7.—Edmond Dupuis on returning from church to his home five miles from the village of St. Germain, yesterday, found his house in flames. Single handed he made desperate efforts to save his wife and children, but only succeeded in rescuing one child. Mrs. Dupuis and the other two children perished almost before his eyes. The third child, who was rescued, is not expected to live, being badly burned. The origin of the fire is a mystery.

Lord Neville Indicted

London, Feb. 7.—The Recorder, Sir Charles Hall, addressing the Grand Jury in the case of Lord William Nevill, stated the evidence "appeared to establish a prima facie case of forgery," and it would be their duty to find a true bill against Nevill. Eventually, the trial of Lord William Nevill was sent down for Wednesday next.

The Marquise de Santorin, mother-in-law of Lord Nevill, died of influenza on Saturday last.

Settling a Dispute

London, Feb. 7.—The correspondent of the Associated Press is privately informed that the questions in dispute between Peru and Chile will be satisfactorily arranged before the end of February.

To shake off the Students

Vienne, Feb. 7.—The Government has decided to close all the colleges to-day, and to keep them closed until March 21, when, before re-admission, students will be compelled to sign an agreement to observe the disciplinary regulations. This is the severest measure of its kind that has been put into application since 1848.

The Shakes in Asia Minor

Constantinople, Feb. 7.—Anatolia was visited by an earthquake yesterday, which, it is reported, caused widespread devastation.

Big Fire in Manila

Manila, Feb. 7.—Despatches just received from Manila, capital of the Philippine Islands, announce that two hundred buildings, some of them of importance have been destroyed.

Medical men say rheumatism is the forerunner of heart disease. Hood's Sarsaparilla cures rheumatism by its action on the blood.

SMALLPOX AT WINDSOR

A STRANGER SUFFERING FROM THE DISEASE AT THE POLICE STATION.

(Special to the Times.)

Windsor, Feb. 7.—George Irvine, who said his home was in St. John, N.B., applied to the police for aid, stating that he was ill and without money. He was placed in a cell and a physician summoned. At the hospital he was examined and showed all the symptoms of smallpox. He was sent back to the police station, where the police at first refused to admit him. Several hours the unfortunate man lay in the ambulance, being finally taken in to the station, where he now lies. Health Officer Lambert is not yet satisfied that the disease is really smallpox, but he will keep Irvine where he is until the symptoms are more fully developed. Irvine has a brother in Bay City, Mich.

WANT MARTIAL LAW

TROOPS ASKED FOR BY COMMUNITIES OF DYER AND SKAGWAY

(Special to the Times.)

Washington, Feb. 7.—A petition has been circulated in Skagway and Dyer asking the department to send 300 troops that law and order may be preserved. The petition also asks that martial law be declared. The petition in part reads: "Believing this to be an extraordinary emergency we believe that martial law should be declared in all this part of Alaska, comprising the communities of Dyer and Skagway and the trails leading therefrom to the international boundary, and that sufficient troops, not less than 300, be immediately despatched to these points to enforce the laws and preserve order."

It is stated that Governor Brady will order one of the Government cruisers, now stationed at Sitka, to this place to preserve order. The cutter will arrive in a few days.

COUNTERFEIT CERTIFICATES

BELEIVED THE \$100 NOTES ARE MADE IN CANADA.

(Special to the Times.)

Washington, Feb. 7.—There is strong reason to believe the counterfeit \$100 silver certificates recently discovered were made in Canada. Secret service agents, aided by Canadian police, are now searching through that region.

It is understood that every engraver who has been employed in Government offices, both here and in Canada, and who is known to be of sufficient ability to have done the work, is now under constant surveillance.

It is believed another counterfeit will soon follow the first unless the criminals are run down and arrested.

About \$9,000,000 out of \$26,000,000 of genuine \$100 certificates originally outstanding have been turned into the treasury for redemption, and nineteen counterfeits have been found.

COLLISION AT SEA

ARRIVAL OF ONE OF THE DAMAGED STEAMERS AT LIVERPOOL

(Special to the Times.)

Liverpool, Feb. 7.—The British steamer Lake Ontario, Captain Campbell, arrived here yesterday from St. John, N.B., and Halifax, with her starboard bow stove in. She reported that she had been in collision with the Wilson Line freight steamer Hindoo, Captain Douglas, from Hall January 22, for New York. The location where the collision occurred was not given and damage sustained by the Hindoo was not known.

LADY SOMERSET RECAPS

SHE IS NOW OPPOSED TO THE CANTONMENT ACT IN INDIA

(Special to the Times.)

London, Feb. 7.—Lady Henry Somerset has written a letter to Lord George Hamilton, the Secretary of State, for India, to effect that the letter which she wrote him early in 1897 in connection with the repeal of the Indian Cantonment Act was widely misunderstood, and she, therefore, desires to withdraw her endorsement of any form or principle of state regulation of vice.

THE HAMMOND JUDGMENT

IT WILL NOT BE HANDED OUT TILL ELEVEN O'CLOCK TO-DAY

(Special to the Times.)

Toronto, Feb. 7.—The Chancery Division Court at Osgoode Hall will give judgment in the application for a new trial of Wm. J. Hammond, the murderer, at eleven o'clock to-morrow, instead of to-day, as was at first announced.

HORSE FELL ON HIM

JOSHUA ROBINSON, OF CRAIGVALE DIES OF HIS INJURIES

(Special to the Times.)

Craigvale, Feb. 7.—Joshua Robinson, 55 years of age, whose horse fell on him Saturday, died Sunday from his injuries. He was struck on the 10th line innervall for 40 years and is highly respected.

BIG CONFLAGRATION

TWO HUNDRED BUILDINGS IN THE PHILIPPINE ISLANDS BURNED

(Special to the Times.)

Manila, Feb. 7.—Despatches just received from Manila, capital of the Philippine Islands, announce that two hundred buildings, some of them of importance have been destroyed.

Medical men say rheumatism is the forerunner of heart disease. Hood's Sarsaparilla cures rheumatism by its action on the blood.

THE OTTAWA LIBERALS

Trouble Over the Provincial Election at Ottawa

CHOOSING A CANDIDATE

Col. J. M. Gibson Trying to Restore the Peace

(Special to the Times.)

Ottawa, Feb. 7.—The Liberals of this city are sadly divided. To-morrow they meet in convention to choose their candidates, but up to this afternoon discord still reigned supreme. Hon. Mr. Gibson arrived in the city this morning and had a conference with a score or more of the representative members of the Reform Club, Young Liberal Club, La Club Nationale, and the Edward Blake Association. The conference held in the Russell house lasted over two hours, adjourning at one o'clock, when it was announced that no agreement had been reached as to candidates. It is known that there was a pretty stormy time, two Irish Catholic organizations declined to withdraw their candidate, Mr. J. L. Dowling, in favor of Mr. O'Keefe, the present member. They were then asked to unite on Mayor Gibson as the Catholic candidate, but they also refused to do so. It is, however, learned that it was practically decided to run Mr. Lumsden as the Protestant candidate in Hon. Mr. Bron-Poon's place, but Mr. Lumsden is reluctant to accept nomination, and the chance may then fall on A. W. Fraser, barrister.

A prominent Liberal said after the conference had adjourned that the Liberals would run two strong candidates, one of them being a man of no account, and another whose victory was not assured to enter the field just to satisfy a clique. The conference is being continued this afternoon.

THE YUKON RAILWAY

THE SENATE WILL OBSTRUCT THE PASSAGE OF THE BILL

(Special to the Times.)

Ottawa, Feb. 7.—This town, so far as its population of politicians is concerned has but one topic for discussion, and that is the Yukon Railway deal. At last Sir Mackenzie Bowell has things coming his way. It was not to be expected that the former Premier whose seat is in the Senate would have any strong feeling of affection for the leader of the Opposition, in fact neither of the two gentlemen would desire a discriminating public to believe such to be the case. And so it happens that Sir Mackenzie's followers in the Red Chamber will have much pleasure in defeating the Mackenzie-Mann deal. This much seems to be well understood by everybody who has any chance of securing inside information. Sir Charles Tupper said to-day that he had no intention of giving out much pleasure in defeating the Mackenzie-Mann deal. This much seems to be well understood by everybody who has any chance of securing inside information. Sir Charles Tupper said to-day that he had no intention of giving out much pleasure in defeating the Mackenzie-Mann deal. This much seems to be well understood by everybody who has any chance of securing inside information.

One thing is certain, and that is that the Government is prepared to stand or fall by the Mackenzie-Mann agreement. Members of the party have been told this definitely, and preparations for the execution of the work, I am told, will go right on. The Senate may carry out its deep-laid scheme, but the projectors have been assured that they need make no change in their plans. The Minister of Finance, who now leads the Upper House, is prepared to bring the weight of his great store of political knowledge to bear in the debate which soon will fill the seldom-tenanted Senate galleries. Mr. Mackenzie Bowell and David Mills had many a tilt when they were members of the Lower House, and now that their positions are reversed it will be interesting to see the former member for Bothwell in the position of an apologist, and not a critic.

Senator Ferguson, who occupied a seat in the Conservative Government, is one of the straight opponents of the Yukon deal. The Senator was through British Columbia last year and is primed with facts which should be of value at the present time. Senator George A. Cox is saying nothing concerning his attitude on the subject. The Toronto senator expects to put in much of his time in Ottawa this session.

ROBBERY AND MURDER

BBARTENDER AT SKAGWAY WILL IN ALL PROBABILITY BE LYNCHED

(Special to the Times.)

Victoria, B.C., Feb. 7.—In a shooting scrape at Skagway in the Klondike Saloon, Ed. Fay, the bartender, was mixed up in a robbery, in which Marshal J. M. Rowan and McGrath were the victims. McGrath left the saloon and got Rowan, the United States deputy marshal, to go back with him to obtain satisfaction. Fay shot them both when they entered, McGrath first and then Rowan, both shots taking effect in the groin. Both men died shortly afterwards. Fay was given up to a citizens' committee to have justice meted out to him, and will, in all probability, be lynched. What adds a pathetic side to the murder is the fact that the marshal's wife gave birth to a son two hours before her husband was killed.

PETERBOROUGH'S WATERLOO

Beaten by Osgoode Hall in a Fast Game: Last Night

The Toronto Legation put to Rest all Hopes of Peterborough's Winning the Championship

(Special to the Times.)

Peterborough's crack hockey team should have worn the black and white sweaters of Osgoode last night in token of mourning, for they were turned down in their own rink by the decisive score of 7 goals to 3. Nor can they complain of continued hard luck, for although they made many good rushes on goal and failed to score, yet their own goals were in great danger many times, and were saved only by the splendid play of Wasson. The visitors were a fast and well-trained lot of players and the way their four forwards came down the rink in a line with skates ringing and at race-horse speed was enough to delight the heart of any hockey enthusiast. Their defence was sure and certain, and once in a while Carruthers, the cover-point, or McLennan, of Cornwall, who played off point, would take a tear down the rink just to show their speed to the spectators. Peterborough's combination was off for a great part of the time, and though they made desperate rushes after rush, they were unable to pass the puck between Osgoode's goal. They seemed to realize that they had met their masters, and it was quite apparent after the first twenty minutes' play that Peterborough's chance of overcoming the lead of two goals against them was none too fat.

The Osgoode's are a perfectly balanced team, and though they played a hard game they never lost their combination. Peterborough, on the other hand, though brilliant at times, were not in a-spring shape. King, for the forwards, played a brilliant game all through, and was the equal of anything on the ice. He never flagged or lost hope, and did the most to save the team. Phelan played a good game. Davidson was slow and uncertain the first half, but in the last he played a splendid game, and his hard working did much to keep the visitors' score down to what it was. Chris. Graham played his first senior match, taking Bellegem's place, and did his part nobly, especially in the first half. He is a fast skater and did his part of the combination in a creditable manner. Both Montgomery and Hollingshead played in fine form and stopped a whirlwind rush of the Toronto forwards, but these latter came down so often and so hard, that they could not always be stopped, and the goal was kept piling up. The hero of the team was Wasson. His work in goal was of the 18-carat order. He saved the flags many times when his case seemed hopeless.

For the visitors Lillie and Morrison seemed to be the dazlers, though all the forwards lined up together well. E. Carruthers was afflicted with the "grand-stand" disease. Geo. Carruthers at cover-point can play with the best of them. McLennan, who played point, has a provincial reputation and McMurrich at goal could be relied on. It was after nine o'clock when the game started, and the spectators had tired waiting for the Toronto men to arrive. On the face of the puck was carried to Peterborough's goal. The defence relieved in a moment or two, the forwards got it and carried it up the rink, and after some clever combination work Graham scored—time 3 min. Things looked bright for the boys and somebody suggested that the roof be raised to make room for the, but half a minute after the face of Lillie scored the first goal for Osgoode. The puck was again carried perigo. The puck was again carried perigo. The puck was again carried perigo.

Montgomery relieved, carried the puck down the ice and passed to Graham, who again scored—time 4 min. Peterborough had now shot their bolt, for Osgoode scored three in succession, the first in 4 min., the next in 6 min., and the last after 15 min. desperate play. Score at half time stood 4-2 in favor of Osgoode. In the second half the visitors got their lightning combination working, and the forwards came down the ice time and again, but their shots. They scored two more goals. Peterborough took the next by pushing the whole Osgoode team through their own goal, carrying the puck with them. Osgoode took one more before quitting, thus winning the game by 7 goals to 3, and knocking Peterborough out in the round by a total of 8 goals.

As the people left the rink the feeling was very much of the same kind as that experienced in the historic city of Mudville the day the great Casey struck out.

O somewhere in this favored land The sun is shining bright, Somewhere the head is playing, And somewhere hearts are light, Somewhere men are laughing, And somewhere children shout, But there is no joy in "Phelanows," Of the O.H.A. they're out.

The teams were as follows:

Peterborough.—Was on goal; Montgomery, King, Davidson, Phelan, Graham, forwards.

Osgoode.—McMurrich, goal; McLennan, point; Geo. Carruthers, cover-point; E. Carruthers, Johnston, Morrison, Lillie, forwards.

Referee.—Alex. Creelman.

Umpires.—S. Ray, C. LeBrun.

NOTES.

—There was a very large attendance.

—McLennan, of Cornwall, took Eastwood's place on Osgoode's point last night. He has played with Cornwall this season, and the match is likely to be protested on that account.

—Bellegem was not in shape to play last night.

—The play was hard and rough, and the falls were frequent.

—The boys played a hard game, but it looked as if the best team won.

PETERBOROUGH, FEBRUARY 8, 1898

A GENERAL PRINCIPLE

There are a few fundamental principles of government which should not be lost sight of by the electors in the tendency to look only at local issues, as it is only by considering the welfare of the country in the broadest light that we can hope to make for Canada a position among the nations of the world, a position which every true Canadian must desire that she should occupy. One of these is that no party should hold too much power in the state. We do not believe that any antagonism should exist between the governments of the provinces and the Ottawa Government, but we feel that it would be to the injury of Ontario if any compact should exist, either secretly or openly between the Federal Ministers and the rulers of this province.

Owing to the deep-rooted and widely spread system of patronage which has been built up in Canada any alliance between the controllers of Federal and Provincial power would give the leaders such immense influence that it would be possible for them in many cases to practically direct the course of the voters. The danger of this has been pointed out by Sir Oliver Mowat, when speaking in favor of having a Liberal Government at Toronto to check the aggressiveness of the Conservatives at Ottawa. Why the argument would not have the same force now we cannot see. Certainly,

Ontario was benighted by having a government opposed politically to the Federal Government, and it is only natural to expect that the Liberal Government at Ottawa would consult their own interests only in case of any dispute arising between them and this province. It is well to have, therefore, at Toronto a government which will stand up for Ontario only, and see that she gets her full rights. Whether the Conservatives or Liberals agree more to be trusted on this we leave to the electors to say.

THEY ARE FOR PLACE

It is to be feared that a supreme love of place and the emoluments of office have crept into the hearts of our public men. Few are actuated by the motive of position in order to public service. Yet this should be the motive of every aspirant for public office, where the personal and selfish are dominant the service becomes inferior and the methods employed in securing offices are corrupting to the individual who uses them and the public upon whom they are used. In every nation thus far when the citizens looked upon the state as valuable only for what it would yield them in honors and material things, national decay had set in which continued so long as this conception prevailed.—Kingston Times.

Is it time for a change?

The public must think there is a lot of surplus talk these days.

"Eminent go back" should read "Go to Ennismore to brag."

The Tories say that J. R.'s picture will be turned towards the wall.

The chief cries at the South Toronto Conservative convention were "For shame!" and "Foy!"

Mr. Stratton deserves credit for refusing to make any promises in connection with the Mud Lake bridge.

If Mr. Garvin relies on the lawyers to help him might Mr. Stratton be said to unduly favor the doctors?

The question used to be: "Who writes Mr. Stratton's speeches?" Now it is "Who writes the Review's editorials?"

Perhaps the Grits call Mr. Stratton Goliath because they think he goeth out to Ennismore and telleth lies.

The Conservatives may crow and crow but there is that great big majority of four years ago to make J. R. Stratton look cheerful.

It is strange how many men are willing to devote their time to their country by hustling other voters at election times.

Mr. Daniel O'Connell has taken to the stump. It yet remains to be seen whether he will prove as powerful as his great namesake.

The Tories say that all the furs in Leob's store will not be able to warm the hearts of the men in the room above it on election night.

Perhaps the East Peterborough Conservatives did not bring out their candidate until the weather moderated for fear the blizzard might blow him away.

The Conservative campaign song was published anonymously, but it may be inferred from the words that the author of it is the man who the song says will win.

Many an enthusiastic young man twenty years of age will wish that he was a few months older when he sees the other fellow being driven to the booths to register.

Mr. Garvin thinks that since his "voice of thunder" has been described in the Examiner they will at least call him Big Thunder, and leave the name of Little Thunder to Mr. Stratton.

A Canadian farmer's wife ran away with the hired man. Then the husband gave this hired man a bill of sale of the wife for \$30. This was shameful overreaching, though it takes a pretty smart man to sell property which he is unable to deliver.

Mail and Empire editorial boiled down: "Dr. Dewar is unacceptable to Roman Catholics because he is a Methodist, unacceptable to Methodists and Protestants generally because he voted for a Roman Catholic candidate for Parliament, and unacceptable to Episcopalians because he 'detests Mr. Whitney for belonging to that body.' The argumentative circle is completed by the statement that Mr. Whitney leaves his Episcopalianism with large infusions of the Methodism of Mr. St. John and Mr. Marten." An editorial like that should catch all the votes.

THIS TELLS WHERE HEALTH MAY BE FOUND.

And that is more important than making money. If your blood is impure, Hood's Sarsaparilla is the medicine for you. It cures scrofula, salt rheum, rheumatism, catarrh and all other diseases originating in or promoted by impure blood and low state of the system.

HOOD'S PILLS are easy to take, easy to operate. Care indigestion, headache.

Taught to Blush

A school where blushing is taught is the last novelty in Paris. If there is any place where blushing has become a lost art, one would certainly think it was Paris, but the Parisians, on the other hand, declared that it is a result of Anglomaniya and the influence of the American girl. The young woman who plays golf and rides a bicycle in "rationals" in the freest camaraderie with her male friend is likely to acquire a self poise which will make the flush of embarrassment a stranger to her cheeks, and the city where women are bicycling on the boulevard with their bare knees exposed has felt the necessity of reaction. The classic grace and simplicity of the early years of the century, with their accompanying downcast eyes and simper, are now in vogue again, and the maidens who have forgotten how to blush are going to school to learn that primitive art.

They say it is easy enough to droop the eyes and effect bashfulness, but to call up a mantling color is as difficult as pulling eye teeth. How the crimsoning flow of red blood to the pallid cheek is accomplished in these fin de siècle schools of deportment we cannot imagine, unless it is that they have taken a page out of Du Maurier's jokebook and emulate the society girl who surprised her friend by always blushing at the right time. "How can you manage to do it?" asked the other girl enviously. "Oh, it's very easy!" the expert blusher replied. "I simply think of something that makes me blush."

PAINE'S CELERY COMPOUND
KEEPS THE LIFE STREAM
IN PERFECT CONDITION

Mrs. Hopper Uses the Great
Medicine and is Made
a New Woman

It Brought Perfect Health After All
Other Medicines Failed

THE CURE ASTONISHED A
WHOLE DISTRICT

Wells & Richardson Co.,
Gentlemen:—With very great pleasure and satisfaction I wish to add my testimony to what has already been said in favor of Paine's Celery Compound. For a very long time I suffered from general debility, nervousness and run down system. Having heard of Paine's Celery Compound I determined to give it a trial, and I am happy to say it has done for me more good than I can express. For ten years I doctored with other medicines without any good results; but after using Paine's Celery Compound I am perfectly restored to health, can eat well, digestion is good, and my sleep is sweet and sound. Altogether I am a new woman. I always recommend Paine's Celery Compound to my friends.

Yours very truly,
Mrs. Hopper, Thornhill, Ont.

It is not generally known that the "Iron Duke" of Wellington was immensely fond of the game of draughts. Such, however, was so. After he had gained all the sword could give, the quiet game often afforded him that inward pleasure experienced only by those who are victors in the strife. It is recorded in a recent interview of his life that a son of the Duke's valet, was spending his holidays with his father at Aspley House, and was in due course ushered into the presence of the great man, who kindly shook him by the hand and endeavored in many ways to put him at ease. He then proposed a game of draughts. The two sat down to play, and the Duke won. They played a second game—the Duke won again. "I really thought I should have beaten him the second game," said the lad afterward to his father, "but he had a trap for me, and laughed because I did not see it." The game ended, the lad was entertained with a dinner, and then dismissed with the command: "Be a good boy; do your duty."—Manchester Post.

Try for Young People

Try to be satisfied to commence on a small scale.
Try not to look at richer homes and covet their costly furniture.
Try being perfectly independent from the first, and shun debt in all its forms.
Try to cultivate the moral courage that will resist the arrogance of fashion.
Try to avoid the too common mistake of making an unwise effort to begin where the parents ended.
Try along a step further, and visit the houses of the suffering poor when secret dissatisfaction is liable to spring up.
Try to co-operate cheerfully in arranging the family expenses, and share equally in any necessary self-denials and economies.
Try buying all that is necessary to work with skillfully, while adorning the house at first with simply what will render it comfortable.
Try to remember that it matters but little what "people think," provided you are true to yourself, to right and duty, and keep your expenses within your means.

What Two Cents Will Prove
For a two-cent stamp Francis U. Kahle, 127 Bay St., Toronto, will send a free sample of Trask's Magnetic Ointment and Cook Book to anyone suffering from Rheumatism, Chilblains, Rosacea, Bitter, Salt Rheum, Eczema, Itch, or Scabies. It is a positive cure for Piles.

Shorts, ton, \$14 to \$15.

THE NOVELIST ON TRIAL

EMILE ZOLA ARRAIGNED FOR INTERFERENCE IN THE DREYFUS CASE.

(Special to the Times.)

Paris, Feb. 7.—The trial of M. Emile Zola, who is being persecuted by the Government as a result of the letter which he wrote last December to the Aurore, strongly reflecting upon high officials connected with the Dreyfus case, opened to-day in the Assize Court of the Seine. The keenest public interest was manifested in the case. Hundreds of people surrounded the court, anxious to gain admittance. The police measures taken to insure order were most rigorous.

The crowds increased in number all morning. The arrival of M. Henri Rochefort was the signal for shouts of "Vive Rochefort," and cannon cries of "A bas Rochefort." Turning in the direction of the hostile cries, M. Rochefort shouted: "It would seem that with four of you at five francs apiece the Dreyfus syndicate will not be ruined." M. Zola, who arrived in a carriage shortly afterwards, was greeted with vehement shouts of "Sonspuex Zola" (spit upon Zola).

While the jury was being selected M. Zola entered the dock. He was pale, and a few cries of "Vive Zola" were promptly suppressed by the vigorous protests of the majority of the audience. After the reading of the indictment the Advocate-General explained that the charge was strictly limited to the passage in M. Zola's letter denouncing the Esterhazy court martial.

Piles! Piles! Itching Piles!
Symptoms: Moisture intense itching and stinging; most at night; worse by scratching. If allowed to continue tumors form, which often bleed and ulcerate and become very sore. Swayne's Ointment stops the itching and bleeding, heals ulceration, and in most cases removes the tumors. All druggists, or by mail, for 50 cents. Dr. Swayne & Son, Philadelphia. Lyman Sons & Co., Montreal, wholesale agents.

Use Canadian General Electric Co's (Limited) incandescent lamps and get the benefit of manufacturer's prices. Phone No. 72.

MR. GARVIN

THE LIBERAL-CONSERVATIVE CANDIDATE, will address the Electors of

West Peterborough

AS FOLLOWS:

LAKEHURST—Harvey Township, on Tuesday, February 8th.
TAYLOR'S SCHOOL HOUSE—Harvey, Wednesday, February 9th.
SMITH—Temperance Hall, Thursday, February 10th.
NORTH MONAGHAN—Brasley's School House, Friday, February 11th.
The meetings will be opened at 8 o'clock.
All electors are cordially invited to attend and hear the issues of the campaign discussed. Mr. Garvin will be accompanied by other speakers.
Announcements of other meetings will be made as soon as arranged.

T. E. BRADBURN,
President, West Peterborough, C. L. A.

A VALUABLE TABLE.

One Which Will Enable the Dairyman to Make Balanced Rations

Hoar's Dairyman, which was asked by a subscriber for a table showing the chemical analysis of the various kinds of grain rations for milk cows, replies as follows:

In order to formulate a ration one needs in addition to the chemical analysis, a table of what are called digestor coefficients. These coefficients are the percentages of digestible matter in the totals found by the chemists. For instance, corn contains 10.5 per cent. of crude protein, but only 60 per cent. of this is digestible, or there is 63 pounds of digestible protein in 100 pounds of corn. Instead, therefore, of giving the inquirer the analysis called for, we give a table, showing the total organic matter and the digestible nutrients in the various feeds mentioned, and in most other common feeding stuffs. The figures are taken mostly from Wolf's Dairy Calendar, a most valuable book for an dairyman. The figures given are percentages, or number of pounds of each element in 100 pounds of the feed, but bear in mind that the digestible nutrients are included in the organic matter. (Opposite corn silage and corn fodder two sets of figures are given. The large numbers represent the average of several Wisconsin analyses, and will apply generally to well cured and well matured crops of corn, of the medium and small varieties. The smaller numbers represent the averages for all varieties and should be used for immature corn and the larger dent varieties.) Table showing the average amount of organic matter and contained digestible nutrients in the more common American feeding stuffs.

| | Organic Matter. | Digestible Protein. | Digestible Carbohydrate. | Digestible Fat. |
|--------------------------|-----------------|---------------------|--------------------------|-----------------|
| Clover silage..... | 25.4 | 1.0 | 18.5 | 1.0 |

How Much Fat Is Needed.

This is an ever recurring subject, and from the fact that the average dairyman has an idea that the results of a Babcock test result in a substance the same as when we churn, when the fact is the test gives a sample of butter fat oil, free of every substance but oil, and butter has fully 12 to 15 per cent. of water and salt in it. This is what the dairy professor at Cornell says: "The amount of fat required to make a pound of butter depends upon the amount of water, curd, etc., contained in the butter, and also upon the amount of fat lost during the process of manufacture. In determining a constant for estimating the yield of butter from the amount of fat secreted by the cow, the latter element was ignored, because it was considered that the cow should not be charged with lack of skill in the butter making, or losses due to imperfect machinery. The usual estimate is to compute butter as having 85 per cent. fat and the balance as foreign substance, or to add one-sixth to the butter fat readings of the test. In factory work it will be found that this factor is slightly too large because of the losses of fat already alluded to. The addition of one-sixth to the fat is equivalent to an "over-run" of 16 2-3 per cent., or a yield of 116 2-3 pounds of butter from 100 pounds of fat. Factories that are well managed should show an over run of 13 or 15 per cent. Occasionally, with very careful management, and where the butter is made to carry all the water possible, 16 2-3 per cent. may be reached or even exceeded. If a less per cent. is reported, there is some unnecessary loss of fat in some part of the manufacture." Practical Farmer.

Advantages of Feeding Straw.
It is quite customary for farmers to feed their horses all the Timothy hay they will stuff down themselves; and then if grain is not added, their cows will be starving and their horses constipated. When younger than now and when I know less, I ruined more than one horse by founder by stuffing him with hay all winter and not working much. Horses will if fed on straw and corn will be starved at night and morning. If they are to work hard, more grain can be added. If anyone will take the trouble to figure out the cost of wintering by each of the two methods, he will learn that where the farmer has straw, straw and oats feeding is the cheaper way. In Country O ntlemas

WHEN THEY WERE LADS.

Edison was famous for his inventions when 12.
Bacon was a member of Parliament at 21; at 25 one of its leaders.
Poe was a poet at 16; at 24 he wrote "The Raven." He died at 30.
Bryant wrote poetry at 9. At 13 his masterpiece, "Thanatopsis," was published.

Longfellow's first poetry was published at 12. At 22 he was ranked with our best poets.

Shakespeare left school at 14, Gray at 14, John Bright at 15.
Scott entered the fair realm of literature at 22. At 24 he was the most popular poet of the day.

Gallie discovered the isochronism of the pendulum at 19. When 36 was the most famous astronomer in Europe.

Byron's first poems appeared at 19. At 24 he reached the highest pinnacle of his literary fame.

Wilberforce entered Parliament at 21. William of Orange commanded the army on the French frontier at 22.

Burns' first volume was published at 27. A critic conceded him to be the most richly endowed by nature of any living poet.

Napoleon at 27 commanded the army in Italy. At 35 was Emperor. Saw Waterloo at 41.

Tennyson at 22 took that high stand among the poets he held till his death.

WHAT SALT CAN DO.

Salt in whitewash makes it stick.
Salt puts out fire in the chimney.

Salt in solution inhaled cures cold in the head.

Salt used in sweeping carpets keeps out moths.

Salt as a gargle will cure soreness of the throat.

Salt thrown on a coal fire which is low will revive it.

Salt and soda are excellent for bee stings and spider bites.

Salt and vinegar will remove stains from discolored teacups.

Salt in water is the best thing to clean willow-ware and matting.

Salt thrown on soot which has fallen on the carpet will prevent stain.

Salt on the fingers when cleaning towels, meat or fish will prevent spilling.

Salt put on ink when freshly spilled on a carpet will help in removing the spot.

Salt in the oven unbaking time will prevent their scorching on the bottom.

Salt thrown on a coal fire when broiling steak will prevent biasing from the dripping fat.

FOREIGN NOTES.

A road-sweeper of Dartford, England, recently ran over and seriously injured while at his work, was a Balkian veteran, wearing the Queen's medal for bravery in the famous charge.

The weight of the French cavalry middle will be reduced nearly three pounds by the substitution of aluminum for steel in portions of the tree and stirrups.

The estate of Vaturino, the old historical residence of Masappa, the Hetman of the Ukraine Cossacks in the government of Kaff, once famous for its beauty and splendor, has now fallen into ruin and decay.

Donations and protective tariffs appear alike powerless to sustain the ship-building industry of France against the competition of England. Out of ninety-six sea-going vessels registered at Bordeaux only twenty-two are of French construction.

London has called the roll of deaths by starvation in 1897 and they number fifty-one, from which it would appear that London charity is in too much occupied with the heathen.

How to Cure All Skin Diseases.

Simply apply "Swayne's Ointment." No internal medicine required. Cures scabies, eczema, itching, all eruptions on the face, hands, arms, etc., leaving the skin clear, white and healthy. Its great healing and curative powers are possessed by no other remedy. Ask your druggist for Swayne's Ointment. Lyman, Sims & Co., Montreal, wholesale agents. Avoid substitution.

Morning Times

PETERBOROUGH, FEBRUARY 8, 1898

Culture of the Face

Each of us can improve her physiognomy if she will but study to control her facial expression. The face is but the mirror for thought—therefore one should guard her thoughts. Thus the stepping stones to beauty are attained even though one may consider oneself handicapped in the race by imperfection of feature. It is in reality expression more than features that make or mar. One may have perfect features, and yet if the expression be sinister, sensual or unloving there is not in that face what men call beauty. Rather is it found in the face which expresses purity, love and unselfishness, even though regularity and perfection of contour be not present. Another aid toward attaining this coveted gift is a proper controlling of the facial muscles. It is so natural to permit the muscles governing the different features of the face to assist us in expressing our different emotions. This is not necessary. They do not, in reality, assist their emphasis, but, on the contrary, often make us appear grotesque and ridiculous. It is not an aid, but a detriment, to allow the muscles of the face to assist in the expressing of pleasure or pain, love or hate, surprise or mistrust. This can and should be guarded against.

One who does not distort and wrinkle her face when in conversation or even in repose will remain young in appearance much longer than one who is regardless of this precaution. One need not fear the face will become expressionless if one seeks to purify and beautify her quality of thought, for this is the foundation of all true beauty. Women should study to have repose of manner. It is in most people a cultivated quality, for the general spirit of unrest in this hour is not conducive to its attainment. It is, however, possible to acquire it, and therefore all should study to do so, and thus become an oasis in the desert of irascible, nervous and excitable women. Thus we can all be the possessors of real beauty, the manifestation, the expression of good thoughts, even though the physical will yield—confirm and express the thought, which is causation. All can by this means have this desired result if they will but conform to this rule—good thoughts—Vogues.

Meditation...

While contemplating how you can be cured of these diseases you are troubled with, be it Acute Chronic, Rheumatism, Sciatica, Lumbago, or Gout, make up your mind and use "the only known positive cure, that has ever failed," namely, "NEW LIFE" Medicine cure guaranteed to be had at our Laboratory 21 Jarvis Street, Toronto.

WILHELM'S DREAM

THE EMPEROR OF GERMANY MUST THINK HE IS KING OF ENGLAND

It is rather curious to outsiders, writes the London correspondent of The Times-Herald, and wholly unpleasant to the queen to know that the German emperor regards himself as the rightful successor to England's throne. This is a matter rarely spoken of, though perfectly well realized at court and in as a strenuous reason against her majesty's ever abdicating in favor of the Prince of Wales.

So when next you hear that she meditates such a step do not believe it. She is safe to do nothing of the kind, though she lives to 100 years. The erratic German emperor buses his claim on the not unnatural assumption that his mother, born princess royal and eldest child of Queen Victoria, is heir to that mother's crown, and he her immediate successor.

It is said that the Kaiser is wildly indignant because his mother will not press her claim and take her rightful place as the future sovereign of England. That the Prince of Wales is not the Prince of Wales, but that the Kaiser is that as well as emperor of Germany, he has fully decided in his own mind. When the time comes for his attention, it is scarcely probable that he will hold his peace. Of course it is not for a moment to be supposed that England would endure William for its king. But the case is a knotty one upon which even the constitutional lawyers cannot agree.

While the queen remains sovereign this family unpleasantness is not likely to arise, but when she abdicates or dies there is pretty sure to be an uncomfortable time for all parties concerned. Still the English are certain to reject the Kaiser, even though England has to resolve itself into a republic and then choose Albert Edward to be its ruler. Quite as strange things as this have happened in the history of the world and may chance again. In spite of rumors and ratiery of the press in bygone times the Prince of Wales is well liked in the United Kingdom.

Moreover, the English temper would not bear the German emperor's ideas of "lese majesty." Here one may discuss the prince's debts or the queen's penuriousness, and nobody interferes or minds in the least. In Germany one may not mention the Kaiser's name disrespectfully, because when the walls have eyes and listening ears and "lese majesty" is surely punishable. German students I am told are driven to alluding to his mightiness as "Her Johannes Schmitt" or "Squire Nemo" in order to save themselves from punishment for anything that may be construed as "lese majesty." In short, there is no such thing as freedom of speech in the German empire, and such an active, inquisitive, curious man is William that, it is said, he keeps carefully posted on everything that goes on in our country as well as his own.

THE FEMINE OBSERVER

The meekest woman will sometime show unexpected vein of pluck.

The lightest tints are being used in the lining of heavy broadcloth gowns.

It isn't always the prettiest woman who carries off the most eligible part of the season.

Some women are born old maids and will die old maids, even though they marry at seventeen.

Love at sight isn't half the value in the matrimonial market as love 12 months after date.

It is a common mistake to suppose that the smallest room in the house is big enough to sleep in.

What man was never known to spend a sleepless night over the termination of a love affair?

A woman must be either very ill or worrying over some heart sorrow to lose interest in a new frock.

Men's decorative ambition seems to run largely to a room containing a dodo of theatrical photographs.

It should be quite as impossible for a woman to be depressed in a pink frock as for one to be hilarious in crepe.

A man never looks quite as sheepish as when he stands up in a train to have his clothes brushed by the porter.

Why is it that the persons who suffer most from acute dyspepsia are the ones well able to afford the best things to eat?

When a man feels familiar enough with a woman to swear in her presence, it won't be long before he will swear at her.

Did ever a woman live, breathe and have her existence who didn't at some time or other wonder what became of all her hair pins?

It is the easiest thing in the world for a woman to get herself talked about but it isn't half as easy to prove there is no real reason for it.

The habit that women have of carrying their handkerchiefs up their sleeves is responsible for the dripping handkerchiefs always done in these articles.

Bad Blood Is a Good Thing

to be rid of, because bad blood is the breeding place of disfiguring and dangerous diseases. Is your blood bad? It is if you are plagued by pimples or bothered by boils, if your skin is blotched by eruptions or your body eaten by sores and ulcers. You can have good blood, which is pure blood, if you want it. You can be rid of pimples, boils, blotches, sores and ulcers. How? By the use of

Ayer's Sarsaparilla

It is the radical remedy for all diseases originating in the blood. Read the evidence:

"After six years' suffering from blood poisoning, I began taking Ayer's Sarsaparilla, and although I have used only three bottles of this great medicine, the sores have nearly all disappeared."—A. A. MANNING, Houston, Texas.

BLUNDERING ENGLISH

THE GROSS MISUSE OF THE NOMINATIVE CASE OF PRONOUNS

"There is one extremely common mistake in English which always fills me with sadness when it does not fill me with vexation," said the man who tries to be careful in his use of language. "I do not like to preach general discourses on the use of bad language, because I do not feel safe, and one's sermon in such a case is so likely to be a ridiculous example of the thing complained of. But this mistake is so gross and palpable that any one with an elementary knowledge of grammar should recognize it. The thing which makes it peculiarly sad or vexatious is the fact that the error is often made by persons who make some pretense of using good English. Half or 75 per cent of the school-teachers, I will venture to say, make this mistake. It is the use of such expressions as 'Between you and I,' 'They asked you and I to come,' 'Let you and I go,' or more horrible still, 'They saw he and I up town.' In other words, it is the use of the nominative form of the pronoun as the object of a preposition or a verb.

"The reason for this is obvious. It is known that ignorant persons use such expressions as 'Him and me went up town' or 'You and me were seen.' People learning that such expressions are incorrect somehow get the notion that it is never correct to use such a form as 'You and me,' or 'Him and her,' or 'Them and me.' They feel guilty whenever they are caught using such a combination of words, and doubtless if they heard a person say, 'They asked him and me to come to the dinner,' which alone is correct, they would have a sense that an error had been made. They get to feel that the conjunction 'and' has a kind of double action control, governing the nominative case at both ends. A little reflection would remind them that this word has nothing at all to do with the case.

"A sure cure for this bad habit is to drop the 'and' and use each of the pronouns alone. What person for instance, who would say 'They asked you and I to come' would also say 'They asked I to come' or what person who would without hesitation say 'Let you and I go' could ever be caught saying 'Let I go.' Many of the people who use 'you and I' as the object of a verb would not go so far as to say 'They asked he and I if we would come,' but there are persons who go this length and display an annoying sense of superiority in doing it. They feel that there is something elegant about the combinations, 'He and I,' 'She and I,' and 'They and I,' and scorn the humble accumulative forms, yet even those who would hardly say 'They saw I,' or 'They saw she,' or 'They saw they,' why in the world then, should the 'and' make any difference in their speech? This is a point to which it would be well for teachers of English to give their attention."

Proclamation!

Electoral District of the East Riding of the County of Peterborough, to Wit:

PUBLIC NOTICE IS HEREBY GIVEN to the Electors of the Electoral District of the East Riding of the County of Peterborough, that in obedience to Her Majesty's Writ to me directed, and bearing date the Second day of the month of February, 1898, I require the presence of the said Electors, at the TOWN HALL, in the VILLAGE OF NORWOOD, on the

22nd Day of the Month of Feb.

1898, at One o'clock p.m., for the purpose of electing a person to represent them in the Legislative Assembly of this Province; and that in case a poll be demanded and allowed in the manner by law prescribed, such poll will be opened on the

FIRST DAY OF THE MONTH OF MARCH

In the year 1898, in each of the Townships, Wards or Polling Subdivisions in which a polling place is to be opened and kept according to law, of which due notice will be given on the Day of Nomination. Of all which every person is hereby required to take notice and to govern himself accordingly.

Given under my hand, at Peterborough, this third day of the month of February, in the year 1898.

DISTRICT AND LOCAL TOPICS

Reporter's Phone, 164 B.

The funeral of the late Mrs. Davis will take place this afternoon at three o'clock.

The services in connection with the George Street Sunday School will be conducted to-day.

The Ladies' Aid of Mark street church will hold a social at the parsonage to-night. All are welcome.

A new fermenting tub, which will have a capacity of 1000 Imperial gallons, is being erected at Oskent's Brewery.

The regular monthly meeting of the Peterborough Ministerial Association was held in the Y.M.C.A. parlors yesterday morning.

Mr. Lewis F. Post, a prominent single-taxer, will deliver an address on Henry George and his theory here a week from to-night.

All lovers of music should hear the comic opera, The Isle of Champagne, which will be presented at Bradburn's Opera House on Feb. 21st.

There was a meeting of the young Methodists held in the George street church last night to prepare for the convention on the 24th and 25th of this month.

An interesting address on the Life of Sir Henry Havelock, of Indian Mutiny fame, was given by Major Edwards in the non-commissioned officers' mess room last night. A good attendance of officers was present.

The annual meeting of the Peterborough Lock Manufacturing Co. was held yesterday. A statement was submitted showing a successful year's business. Mr. Geo. A. Cox was elected Honorary President and Mr. J. R. Stratton, M.P.P., President.

PERSONAL AND SOCIAL

Mr. Lorne Campbell, of Lindsay, is in town.

Miss Mattie Peatty is visiting friends at Lakeside.

Rev. Archibald Casey has left for a brief visit to Ottawa.

Mr. and Mrs. Jas. Hill have returned to town after spending a few pleasant weeks on their wedding trip.

Col. Sam. Hughes, M. P., passed through town yesterday on his way to Lindsay. The Colonel has just returned from Australia, where he finished his trip around the world.

THE REGISTRATION

A Lot of New Names Placed on the Voters' List

The anxiety of both parties to take full advantage of the new Registration Act may be taken as a criterion of the keenness with which the approaching provincial elections will be fought. The good work of the ward committees was shown yesterday by the number of young men who registered, and will vote on March 1st for the first time. The streets yesterday presented an appearance characteristic of election day itself, and from the crowds around the booths it might be judged that the great contest was going on. The fight in West Peterborough is under full headway, and from the activity and zeal displayed yesterday it is evident that there will be a close contest. There will be less talk of large majorities, and more as to the growing uncertainty of the result. The Conservatives seemed to draw the most new voters yesterday, but this is only natural, as they are counting on a large majority for their candidate in town.

HE WAS FROZEN STIFF

Sad Occurrence Near Haliburton Village—An Inquest not Deemed Necessary

On Thursday a settler named Burke who lived alone on a farm about five miles from the village of Haliburton, was found dead in his barn by a neighbor named Holmes. The body was frozen stiff. It appears that Holmes observed smoke issuing from the chimney on Thursday, but failed to notice any on Thursday, and towards evening, suspecting that all was not right, he made his way to the house through the huge drifts. The door was found unlocked and the dwelling deserted, whereupon Mr. Holmes, expecting the worst, made his way to the barn, where he stumbled over Burke's body outstretched upon the floor. A brief examination established the fact that the unfortunate man must have been dead many hours, as the body was rigid from the action of frost. It is supposed that the poor fellow was stricken with a sudden attack of illness, and being unable to regain the house or seek aid slowly perished from exposure. Two sisters of deceased reside in Beamsville.

A DARK HORSE

Interesting Developments Expected to Arise in the East Riding

Although on the surface things have seemed very dull in the political arena of East Peterborough, events are transpiring which go to show that it was but the calm which precedes the storm. In conversation with a couple of the Conservative leaders of the East riding Saturday a Times reporter learned that a great surprise is to be sprung on the public this week. For the past couple of weeks the East riding Tories seem to have been doing nothing, as there was no candidate in the field, but they have been laying deep mines to blow up Mr. Richard, two months ago Mr. Richard was regarded as a weak man, both on account of unfitness for Parliament and his unpopularity with a large section of his own party, and the Conservatives say that they have all along been confident of defeating him at the approaching election. They were very secretive about their plans, but it may be stated that their organization is in perfect order and that the end of the week will see a candidate out for blood and a merry war going on in all the sections of the east riding. If they bring out a strong man, as they say they will, a close and interesting fight will result.

Believable Pastry

McQuay, Raptis & Co. are selling the most delicious pastry in town. Opposite Adam Hall's.

ASHBURNHAM COUNCIL

Resolution of Sympathy With Mrs. Burnham and Family—Accounts—Communications—Monthly Statement

Ashburnham Council met in regular session last night. There were present Reeve Adams and Councillors Rutherford and Craig. The minutes of the preceding meetings were read and confirmed.

COMMUNICATIONS

From H. S. Armstrong, asking for the use of the Town Hall in which to conduct a series of gospel meetings under the auspices of the Royal Templars of Temperance, to be conducted by the Rines Bros., better known as the Crusaders. In this connection Coun. Rutherford moved, seconded by Coun. Craig, that H. S. Armstrong be granted the use of the new town hall for the time specified in his communication (four nights) at the rate of \$3.50 per night.—Carried.

From Geo. McWilliams, asking for remission of dog tax, he having paid same in the town of Peterborough.—Granted.

MONTHLY STATEMENT

Statement of receipts and expenditures from January 1st to Feb. 5th.

| M. Kyle, charity ... | 2 00 |

BY-LAW AMENDMENT

By-law No. 246, amending by-law No. 245, by limiting the amount which the reeve and treasurer can borrow from the Bank of Commerce to eighty per cent. of the amount collected as taxes to pay the ordinary current expenditure of the corporation in the municipal year preceding the passing thereof, passed its several readings.

RESOLUTION OF SYMPATHY

Coun. Craig moved, seconded by Coun. Rutherford, that it be with the deepest regret that this council learn of the death of Mr. John Burnham, who has held for 22 years (by acclamation) the office of reeve of this village, and who during that time has been closely identified with all its interests. And that this council desires to express its heartfelt sympathy with his widow and family in their bereavement, and that the clerk send a copy of this resolution to Mrs. Burnham.

CHANGE OF TIME

On motion it was decided that the council meet hereafter on the first Monday of each month at 7:30 o'clock sharp.

CATHOLIC ASSOCIATION

Entertainment and Lecture Given in C. C. Rooms Last Night

There was a good attendance at the regular bi-weekly entertainment of the Catholic Literary Association in their rooms last night. A musical program was run off after which an address on "Temperance" was delivered by Rev. Father Conway, of Norwood. Father Conway is known as an eloquent speaker, and is especially at home on the temperance question, of which cause he is an aggressive champion. His address was listened to with deep interest. The rest of the program was as follows:

Solo—Miss M. Begley.
Character Song—Messrs. Moncrief and Butler.
Vocal Solo—Miss Annie Simons.
Recitation—Miss Mary Brennan.

A SMOKING CONCERT

To be held by the Non-Commissioned Officers of the 57th

The non-commissioned officers of the 57th Battalion will hold a smoking concert in their new mess room, Simcoe street, on the night of the 17th, inst. It is expected that the Colonel and other officers of the battalion will be present and take part. The non-coms. know a thing or two about entertaining so that a pleasant evening may be relied upon.

A GUIDE LOST

WANDERED ABOUT ALL NIGHT CLOSE TO THE CAMP BUT COULD NOT FIND IT.

Edmonton, N.W.T., Feb. 7.—R. Hardisty, who left Edmonton on Sept. 4, with Inspector Mordue's patrol, for the Pelly River, has returned with the news that, while travelling on Spirit River, near the Lesser Slave Lake, Edward Wilson, a white guide, left the camp to search for open trails and lost himself.

Next day he was tracked, and it was found that in his wanderings during the night he had passed within a quarter of a mile of the camp. The trail was followed into the woodland, where it disappeared. Wilson was undoubtedly frozen to death.

Pains Were Severe

Rheumatism—Impure Blood—No Appetite

A Perfect Cure Accomplished by Hood's Sarsaparilla

Whole Family Made Well by This Great Medicine.

"I am 44 years old and am a lumberman, engaged in driving logs on the river. I have been exposed to all kinds of weather, and I was seized with rheumatism. I tried different liniments, but they failed to cure me. Pains moved through my limbs and a short time since

Settled in My Back.

I thought I would work it off, but it grew worse, and I was obliged to shut down my sawmill and stop work. My blood was poor and I did not have any appetite. I could not sleep nights on account of the severe pains. I decided to take Hood's Sarsaparilla and Hood's Pills. In ten days time I felt relief, and now, a few months having elapsed, I am myself again and am

A Perfectly Well Man.

I am attending to my business daily, and all due to the benefit derived from Hood's Sarsaparilla. My wife and other members of my family were taken with the grip and also suffered at times with sick headaches. They resorted to Hood's Sarsaparilla and Hood's Pills and they are now all in good health." G. R. RAFTS, South Waterville, Nova Scotia.

Hood's Sarsaparilla is the best—in fact the One True Blood Purifier. All druggists. \$1; six for \$5. Get only Hood's.

Hood's Pills act easily, promptly and effectively. Beware.

TORONTO'S PROTEST

THE BOARD OF TRADES DELEGATION ON A VISIT TO THE CAPITAL.

Ottawa, Feb. 7.—President Elias Rogers, of the Toronto Board of Trade, and E. A. Wills, Secretary, are here to-day, seeing the Government about trade with the Yukon. They had an interview with Sir Richard Cartwright and some of the Ministers. Messrs. Rogers and Wills complain of the various customs regulations of the United States, which are hampering Canadian business with Yukon.

Your vote and influence respectfully solicited for

J.W. GARVIN

the Liberal Conservative Candidate of West Peterborough for the Ontario Legislature.

TREES

Our stock is as good as the best.

Having an unusually large stock of trees, vines, bushes and plants, both fruit and ornamental, of our own growing, we are compelled to extend our trade, which has hitherto been chiefly confined to the Niagara district. Having no agents we have no fancy prices to protect, and so offer at very low rates to be in touch with the times.

Price list free on application. Dealers and Jobbers orders packed with care and despatched cheaper than elsewhere. Stock guaranteed free from San Jose Scale. Let us price your wants. We guarantee satisfaction. All Canadian grown stock.

CHRISTIAN SYMPATHY AND KINDNESS

Has been the influence of loving men and women than all the preachers could possibly do in ten centuries preaching the Gospel of Love and Goodwill.

Dr. Allison's Kidney "Buds" are a remedy founded on Christian Principles, viz: Honor and Merit and every remedy to help the poor and needy.

When you take Dr. Allison's Kidney "Buds" it simply means a permanent cure from all forms of kidney complaint.

Dr. Allison's Kidney "Buds" has the greatest of Christian people behind them—a high moral tone, a high standard of character, and a high regard for the rights of others. It is a remedy which has been purchased for the purpose of giving wealth, caring nothing for the cost.

Dr. Allison's Kidney "Buds" are an honest remedy sold at a reasonable price.

PETERBOROUGH, FEBRUARY 9, 1897

Mr. Stratton seems to have no use for shoulders.

The Mail and Empire thinks that the planks in Mr. Hardy's platform were sawn in Michigan.

Mr. Garvin evidently intends to try and catch the Ennismore vote by making use of the Mud Lake bridge matter.

Mr. Garvin says that he expects to live and die in Peterboro. Liberal prophecy that the latter event will occur on March 1st.

To see the tables of figures presented by the Government and Opposition leaves one in doubt as to the truth of the old saying that figures cannot lie.

A vote for Stratton is a vote for the Hardy Government, and a vote for Garvin is a vote for a Whitney Government. Pick your favorite, gentlemen.

An exchange says that the voters are 'rolling' in to the registration booths. A great many voters have a habit of rolling home on election eve or election night, but this is really rather too soon.

It is to be feared that the Ohio legislator who has a bill to create a State Board to examine and pass upon

the mental and physical qualifications of candidates for matrimony is living before his time.

The Examiner thinks that is no time for experimenting in the matter of a representative to which some Tories were heard to say that it is better to make an experiment than to keep a pronounced failure.

Another kick in the Tory party in Toronto. Mr. W. R. Brock has undertaken to point out the mistakes of the new Conservative journalism there, but the journals do not seem to put a very high premium on his advice.

A lot of Liberals are working overtime telling the people that Mr. Garvin has no financial interest in this town. He says himself that he expects to die here so that there will be a chance for the undertakers at least.

"I have spent twenty years of my life trying to make political reputations for other people, trying to tell what other Liberals have done, and trying to help other Liberals to success, and I am afraid I have got my vocal organs trained to the praise of others rather than of myself. I cannot turn around and speak of what I have done myself." These words are by Mr. Andrew Patullo, M.P.P. How like Mr. Stratton he is!

JEALOUSY AND MURDER

MOTHER AND DAUGHTER ON TRIAL FOR MURDERING A YOUNGER DAUGHTER.

(Special to the Times.) Woodstock, N. B., Feb. 8.—The Attorney-General yesterday ordered Dr. Comins, coroner in the Canadian murder case to have the body of Minnie Tucker exhumed with the object of removing the heart for expert examination, which will be done to-day. This afternoon Police Magistrate Dibble will commit Mrs. Canovan and her mother, Mrs. Mary Tucker on the charge of murdering Minnie Tucker. Yesterday's evidence was most damaging to the prisoners, Mrs. Carroll, a neighbor, testified that Mrs. Canovan had told her that unless Minnie left her husband alone she would put her out of the way, even if she had to hang for it the next day. Deceased had told witness that she was afraid her sister would poison her and asked witness to look after her body if anything ever happened her. The father and mother of this witness corroborated her testimony. Mrs. Tucker and Mrs. Canovan were committed for trial this morning on the capital charge.

ALL'S LOVELY

LADY SOMERSET'S BACKDOWN PLEASES THE QUEBEC MEMBERS OF THE W. C. T. U. VERY MUCH.

Montreal, Feb. 8.—A meeting of the Central W. C. T. U. was called yesterday for the purpose of adopting a resolution demanding the resignation of Lady Henry Somerset from the vice-presidency of the world's W. C. T. U. but it was announced that Lady Henry had receded from her position and had, in her letter to Lord George Hamilton, withdrawn her approval of the Indian Contagious Diseases Act. The announcement was received with much enthusiasm.

The meeting decided to send a letter of congratulation and sympathy to Lady Somerset.

JAMES MADGETT'S DEATH

WHILE CLEANING A GUN THE WEAPON WAS ACCIDENTALLY DISCHARGED.

(Special to the Times.) Malton, Ont., Feb. 8.—About ten o'clock this morning as James Madgett, aged twenty, son of Henry Madgett, of Weston, was cleaning, or re-loading an old gun, the weapon was accidentally discharged. The contents entered his right breast, from the effects of which he died in about an hour. Drs. Bowles, of Woodhill, and Hall, of Brampton, were called immediately after the accident, but were unable to do anything to save the young man's life.

ALLEGED INFANTICIDE

A MOTHER SUSPECTED OF MURDERING HER THREE CHILDREN

Ottawa, Feb. 8.—Detective Morin, of Hull, is at present in Gracefield, Que., about 50 miles from Ottawa, investigating what is alleged to be the murder of three illegitimate children by their mother, a Miss Larkin, of that place. The investigation is being made on the statements of a resident of Gracefield with whom the girl was employed. Shortly after each accusation the child, it is said, disappeared, but until recently it was thought the children had been given over to the care of friends elsewhere.

Recent reports had it that the third child was hidden under a barn, but a search for the baby by the detective has so far been unsuccessful. No arrest has yet been made.

Meditation...

While contemplating how you can be cured of that Rheumatism you are troubled with, be it Acute Chronic, Muscular, Sciatic, Lumbago, or Gout, make up your mind and use "the only known positive cure," namely, "NEW LIFE" Medicine cure guaranteed to be had at our Laboratory 21 Jarvis street, Toronto.

THE TRUST FACE.

Here is a Composite Picture of It—

Observe, the Trust Face, says The New York Journal. Before you is a composite picture of seven men who are not only among the richest in America, but who control the price of a vast of the necessities of civilized life. The names of these men are: LARRY O. HAVENMEYER, J. P. MORGAN, PHILIP D. ARTHUR, J. D. ROCKEFELLER, ANDREW CARNEGIE, JOHN DILLON, and JOHN A. BURNETT.

When you look at this composite picture you see the face of the most successful man who could exist, according to the standard of this world.

THE TRUST FACE.

The basis of the photograph is Henry O. Havenmeyer, the "Sugar King." He is chosen because he has the most typical face of the group.

The richest man in the composite picture is John D. Rockefeller, but he does not have a great effect on it. His features are standard, although they have a curious sharpness. He is tall, thin, round shouldered, wears a mustache only, and has a dull and careworn look. It has been said that he looks more like a country clergyman than a millionaire. The reason of his success is hard to gather from his face. The most reasonable answer seems to be that there is genius behind it.

Mr. Rockefeller is by many believed to be the richest man in the world. His fortune has been conservatively estimated at \$200,000,000. Of that only a small part, perhaps a fourth, consists of stock in the Standard Oil Company, but as he is the leading spirit of that organization, his power of influencing capital is almost unlimited.

Philip D. Armour of Chicago has the strongest and most attractive face of the lot. He supplies beef to about three quarters of the people of the United States and to a large part of those of Europe. Fifty or sixty thousand people receive direct support from his meat packing establishment alone. J. Pierpont Morgan, generally recognized as the ablest financier on Wall street, has found time among his multifarious occupations to organize a combination which profitably controls the supply of anthracite coal from Pennsylvania.

Andrew Carnegie, of Pittsburgh, controls the prices of steel rails throughout the world. To John Arbuckle, of the Coffee Trust, the composite picture is indebted for flowing whiskers. Charles R. Flint, of the Rubber Trust, is remarkable for very fierce, black side whiskers.

A PLACE FOR URNS.

A Classic Temple For the Ashes of the Dead.

Cremation evidently has not overlooked the love of the beautiful in man in its endeavor to provide for the disposal of the dead. The new Old Fellows' columbarium at San Francisco is a demonstration of this fact, as the picture and description from The Call of that city shows. The Call says: "The structure was original and unique in design and cost about \$35,000. The ground plan of the columbarium shows a circular building, carrying the outer dome intersected at the four cardinal points by rectangular wings. Between these four wings are four quadrants formed by outer walls, concentric with the inner wall, but running up only as high as two stories. Inside of the main circular wall is a series of eight piers, carrying with them two galleries, or arcades on their outer periphery, and peeling on the inner circumference a spacious rotunda, clear from the floor to the lantern dome. In this way the building becomes divided into well-defined portions—central rotunda, main galleries, wings and quadrants.

Standing on the mosaic floor under the melon-like light of the great stained glass window in the dome overhead, no one will be conscious of the vast number of niches in the galleries and wings around him to be at some time stored with the ashes of thousands of the dead. This impression is much enhanced by the use of heroic materials. On the gallery parapets stationary urns are set, forming a part of the architectural scheme of the rotunda. These are of alabaster and bronze, and while the mortuary tablets below are of white Italian marble. The main stairway is of marble and bronze and the floor of colored marble mosaic.

The niches are of cement, varying in size, and ranging along the brick wall, one above another, in not more than five rows. The niches are framed in light bronze with doors in front, left open or covered with marble slabs to suit the taste of the purchaser. It will

COLUMBARIUM FOR THE ASHES OF THE DEAD.

be possible to buy groups of niches of any number required and have them all covered with one comprehensive tablet, on which may be engraved any device or inscription the owner chooses. There will be great variety in the size and position of niche space. Space has been reserved on the exterior of the building, in the front piazzas, in the vestibule, and in the columns of the rotunda. These spaces will be disposed of at higher rates, according to their location and prominence.

The whole exterior of the building is finished in artificial stone of the lightest color possible. The design is Italian Renaissance in character, and similar in feeling and motive to the crematorium.

LEFT THE C. W. A.

REPORT THAT MANITOBA HAS SECEDED—PRESIDENT ORR DOES NOT BELIEVE THE STORY.

(Special to the Times.)

Toronto, Feb. 8.—A despatch from Winnipeg was received to-day, stating that Manitoba had seceded from the C.W.A.

In reference to this, Mr. George H. Orr, the president of the C. W. A., was seen, and he said that there was no truth in the report whatever.

"The people out there are most enthusiastic," he said, "and at the spring meeting a deputation will be here from Manitoba asking for the September race meet. There was some trouble with British Columbia, over their connection with a couple of those coast circuits, but that will all be fixed up at our Good Friday meeting."

"Oh, no; there's nothing wrong with Manitoba. If they had any grievances there, I should be the first to hear of them."

PETERBOROUGH, FEBRUARY 9, 1898

CHURCH BUILT BY CONVICTS

ONE OF THE SIGHTS OF GREAT BRITAIN'S PENAL SETTLEMENT

In the stony fastness of Portland's rugged life, or rather promontory—in whose penal settlement the notorious James Balfour is at present expiating his misdeeds—there is a sight which tourists often overlook.

The beautiful garrison church of St. Peter's is a convict work throughout, with the exception only of the colored mosaics in the apse, which were inherited by an Italian artist. The church is, of course, of Portland stone, the same material of which St. Paul's cathedral, the law courts, the monument, Westminster bridge and the banquetting room at Whitehall have been built. St. Peter's is situated just outside the prison domain and is for the use of the line regiment stationed at Vernon detached, the highest point in the island.

The interest attaching to such a building is heightened by the circumstances that the rugged—an ex-warden of Portland prison—can tell you whose work is represented in particular parts. The border round the porch and the mosaic pavement of the sanctuary are the delicate handiwork of Dominant Kent, the body of granite built who murdered her stepmother and was hanged to confirm her crime by a Brighton clergyman. The stone pulpit, the body of which is in one piece, was carved by the Irish Fenian, the font at the door and the lectern in the center were chiseled by young Whitechapel thieves, who proved to be such skillful artisans that it was a pity they ever took to thieving. This wild corner of England contains a practically inexhaustible supply of the famous white stone, and as many of the quarries are owned by the government the Portland convicts are employed to work them. They can be seen at work by the visitor almost any day. Ten or a dozen of them will be dragging a rope attached to a trolley, on which some huge mass of stone is being borne along a narrow line of rails, and the scene forcibly reminds one of a famous picture in which Egyptian slaves are depicted carrying stones for the temples and palaces of that ancient empire.—London Mail.

THE FEMININE OBSERVER

It is amusing to consider how seldom the person for whom special paragraphs are written reads them.

Hot chocolate and hot lemonade are the favored beverages these days, while the sign, "ice cold soda water" is turned to the wall.

The girl whose nose does not insist on getting as red as her cheeks when she is out sleighing is the one apt to be invited again by the man who appreciates beauty.

Until one sees an entire window full of pale blue cottons while a snow-storm is raging outside, the real meaning of the word cold has not yet been experienced.

There is one compensation in this frigid weather anyhow—there are no agonizing moments of wonder as to whether our shirt waist is staying down under its belt as it should do.

Now that "nets" are being revived, it is noticeable that the woman whose head boasts only about three hairs gets the most conspicuous mesh in which to enwrap its sparseness.

It is not because the Observer wishes to flatter her own sex, but because she desires to give voice to a serious truth that she remarks emphatically that selfishness is a masculine monopoly.

We hear a great deal of the number of answers sent to matrimonial "ads" in which the writer poses as rich, young and beautiful. How many would there be if poor, over 30 and ugly were substituted?

If individuals at large would be as active in attending the advancement of their own affairs as they are to the detriment of those of others there would be fewer middle-aged men and women growing that life has not been a success.

A woman affixes her hat to her scalp by means of sundry pins, yet a slip on the pavement will knock it away, while men's headgear sticks on as if by magic, though he falls flat to the ground or walks in the very teeth of a tearing gale.

Not a married couple exists but has at some time or other had a really genuine quarrel, yet how many keep together up to their silver wedding will admit that they ever spoke a cross word or had even the shadow of misunderstanding?

Just as soon as a woman begins to feel that she cannot live without a man he generally experiences a longing to experiment as to the length of the time she would probably survive if he were to transfer his affections to some one not quite as tragically wrapped up in her.

Attributes of Fine Dress.
One of the favorite American lady writers on fashion has recently put the relationship between speech, manners and clothes pertinently before the public. Between language and clothes, she says, there exists a legitimate and perfect relation, as well as on the other hand, a repugnant and distasteful discord. Fine language, fine manners and fine clothes are a beautiful harmony, but cannot be separated without producing disastrous effects and a sorry spectacle. The beauty of clothes is not always their cost or their color, though good things always look better than common ones. It is the style and suitability of the robes that makes them elegant. For instance, a young girl on the threshold of life always looks well in white or in a delicate shade of color, and a woman who knows how to grow old gracefully always wears black and white, or a soft gray or rich violet.

Cultured society recognizes the fitness of Quaker hats, relieved here and there by a brilliant touch. Refined talk should certainly go hand in hand with refined and elegant dress. What can be uglier than to hear strident tones and harsh sounds from the lips of a lady in white silk or muslin? The low, sweet voice that is such an elegant thing in woman is worth cultivating. A clever modiste who created elegant combinations of dress for dames of the highest degree once refused persistently to give any details to a woman journalist who thought her own descriptive powers second to

Prevent
Pneumonia

Prevention is always better than cure, even when cure is possible. But so many times pneumonia is not cured that prevention becomes the natural act of that instinct of self-preservation which is "the first law of nature." Pneumonia can be prevented and is often cured by the use of Ayer's Cherry Pectoral.

"Some years ago I had a severe cold and was threatened with pneumonia. I could neither eat nor sleep, and was in a wretched condition. I procured a bottle of Ayer's Cherry Pectoral and took it according to the directions, and at the end of fifteen days as well and sound as before the attack. I have recommended it in many cases of pneumonia since, and have never known it to fail in effecting a cure."

JOHN HENRY, St. Joseph, La.
"I was attacked with a cold that settled on my lungs, and defied the skill of my physicians so that they considered me incurable. At last I began to use Ayer's Cherry Pectoral and was entirely cured after having taken two bottles."

FRANCISCO A. SEVERIANO,
Taunton, Mass.

Ayer's
Cherry Pectoral

Free medical advice to all. All letters confidential. Address, Medical Department, J. C. AYER CO., Lowell, Mass.

When pressed by a third person, the artist in dress said she did not like to have her lovely colorings compared to raw eatables. "Why," she said, "should a ribbon be described as 'salmon pink' when 'pale coral' conveyed a better idea, or why should cream color take the place of ivory white?"

It is certain that more elegant similarities can be found among flowers and birds and precious stones than in the butcher's and fishmonger's vocabularies. The third refinement is the charm of manner that makes a trinity of harmony with beauty of dress and delicacy of speech. Why should a woman be brusque and uncouth in her manner and thereby violate every canon of that best of good breeding which consists in doing as she would be done by? Does she like other people to mock and answer her roughly or to justify her aside, to block up her views of what she wishes and perhaps has paid to meet? Of course she does not. And why then, should she practice these methods on her neighbors?

If "manner maketh man," it "manner maketh woman" is a much more pronounced degree. Every woman can be a lady in gentleness of speech and manner. Lack of harmony in dress and speech and manner comes from copying others without knowing why—the blind leading the blind, even if unconsciously and one of the queerest tendencies of humanity is that it is more prone to pick up bad habits than good ones.—Chicago Tribune.

Catarth, like scrofula, is a disease of the blood and may be cured by purifying the blood with Hood's Sarsaparilla.

Pleasure.
Pleasure, rightly understood, is the true ultimate point wherein all our lines of conduct ought to center. What we do for mankind, for the public, for friends or our neighbors tends to the increase of happiness or diminution of evil among them or to some good or convenience from whence they may reap a benefit. It is a duty we owe ourselves to make our lives in every part of them as pleasurable as we can, with our best industry and contrivance, only remembering to contrive for every part, not for one small portion of our span in neglect of all the rest.—New York Ledger.

READ WHAT PHYSICIANS SAY OF POND'S EXTRACT

PHILADELPHIA, Dec. 29, 1894. I have used "Pond's Extract" for many years and always insist upon my patients getting "Pond's," not the ordinary Extract, which is often a very poor article. W. K. BROWN, M. D.

PHILADELPHIA, Jan. 9, 1895. I use Pond's Extract a great deal in my practice. I think it very valuable in all venous enlargements. J. L. BRADFORD, M. D.

SANTA BARBARA, CAL., Nov. 27, 1894. I have been using Pond's Extract in my practice for twenty years. I frequently have the experience you mention of druggists insisting they can put up as good as yours. I don't believe it. I use Pond's Extract a great deal as an antiseptic in combination with glycerine and carbolic acid. I think it far superior to any antiseptic known. F. G. FLOURNOY, M. D.

COLUMBIA, PA., Jan. 18, 1895. I have been a constant user of Pond's Extract since 1852, and do not expect to discontinue it while I live. S. ARMOR, M. D.

CHELSEA, MASS., Nov. 8, 1894. I have made diseases of the skin a specialty for thirty years, and am free to say I know of no remedy that has given me such perfect satisfaction as Pond's Extract in cases for which it is recommended. G. W. BARCOCK, M. D.

ASTORIA, N.Y., Dec. 8, 1894. I know Pond's Extract to be a valuable remedy, and shall continue its use whenever the opportunity offers. GEO. H. CALKINS, M. D.

NEWARK, N. J., Dec. 13, 1894. I am pleased with the purity and strength of Pond's Extract. J. L. DURYEE, M. D.

POND'S EXTRACT is used by the leading physicians and principal hospitals of America and Europe.

9,000 ORDERS FROM PHYSICIANS WITHIN ONE MONTH DURING LAST AUTUMN.

POND'S EXTRACT is unrivaled for Cuts, Burns, Bruises, Colds, Catarrhs, Piles, Inflammations, Hemorrhages and all Pains.

Send for Pamphlet (free). POND'S EXTRACT CO., 76 Fifth Ave., New York.

MAYOR'S OFFICE.

Mr. Davis will be at the Town Offices, from 9 to 10 o'clock, each morning to meet those having business to transact.

A. L. DAVIS, Mayor

Morning Times

PETERBOROUGH, FEBRUARY 9, 1898

TOWN AND COUNTY NEWS.

Wanted. An experienced general servant wanted. Apply at once at 528 Water Street.

The Staff of Life. McQuay, Baple & Co's bread is pronounced to be first-class. Only 10c. for a large loaf.

All New and Fresh. Our Pine, Nuts, Dates, Grapes, Lemons and Oranges are all new stock, and we can give you best value for all these we carry. J. B. Oke.

How to Cure All Skin Diseases. Simply apply "Swaine's Ointment." Its internal medicine required. Cures better, eczema, itch, all eruptions on the face, hands, arms, etc., leaving the skin clear, white and healthy. Its great healing and curative powers are pronounced by no other remedy. Ask your druggist for Swaine's Ointment. Lyman, Jones & Co., Montreal, wholesale agents. Avoid substitutes.

A Popular Comedian. Flattering reports have been received of Mr. Dan Simons, better known as "Daney," who is at present travelling with the Bennett and Moulton comedy company in the New England States, all praising the excellence of his work. Mr. Simons' friends will be glad to hear of his success in his profession, as he has always been very popular in Peterborough. Mr. Simons has theatrical ability of a high order, and is bound to make a name for himself.

Delightful Pastry. McQuay, Baple & Co. are selling the most delightful pastry in town. Opposite Adam Hall's.

Just received from Sea Salmons. Halibut, Smelt, Lake Superior Trout and White Fish. Best brands Baltimore Oysters. J. B. Oke.

DISTRICT AND LOCAL TOPICS

Reporter's Phone, 184 B.

—To-day is market day.

—The continued soft weather is spoiling the sleighing.

—A sleighing party of young people gave an open-air concert on George street yesterday evening.

—The candidates had sleighs out yesterday drawing voters for the registration. A large number of names were entered.

Mr. O. E. Gunsolus, harness-maker, Water street, shipped nine sets of harness to the North-West yesterday to fill an order. This speaks highly for the quality of Mr. Gunsolus' work.

—At the annual meeting of the Peterborough Water Co. yesterday the officers elected were: Mr. R. A. Morrow, Pres.; Mr. R. B. McKee, Vice-Pres.; and Mr. G. W. Hatton, Sec.-Treas.

PERSONAL AND SOCIAL

—Mr. M. McGough, contractor, Lindsay, was in town yesterday.

—Councillor Rutherford, of Ashburnham, has left for a three weeks' visit to Toronto.

—Mr. John Seath, Inspector of High Schools and Collegiate Institutes, was in town inspecting the Collegiate yesterday.

—Mr. and Mrs. R. Mulholland, Peterborough, are in town to-day, the guests of Mr. R. A. Mulholland, Mill street.—Fort Hope Guide.

A PETERBOROUGH WEDDING

Marriage of Mr. Fred Cook and Miss Rose Meagher at the Cathedral.

An interesting event took place yesterday morning at St. Peter's cathedral, when Miss Rose A. Meagher and Mr. Fred Cook, both of town, were united in the bonds of matrimony by Rev. Father Sullivan. The bride wore a very pretty costume of navy blue serge, trimmed with black and white braid trimmings, and a navy blue velvet hat trimmed with grey velvet, tips and ospreys. Miss Kate Maguire acted as bridesmaid, while the groom was supported by Mr. M. Murphy.

After the ceremony the party returned to the residence of the bride's father, where an elaborate wedding breakfast was served. The happy couple left on the 8:10 train for Buffalo and other western points for a wedding tour.

The large number of handsome and costly presents showed the esteem in which the bride is held by her many friends.

A CAVAN WEDDING

Marriage of Mr. Robert Swain and Miss Anna Hunter.

A quiet but pretty wedding took place on Wednesday, Feb. 2nd, at the residence of Mr. David Hunter, Cavan, when his daughter Anna was united in marriage with Mr. Robert Swain, of Valentia.

The bride was becomingly attired in white ecru, with trimmings of silk and chiffon, and looked pretty and happy. The bridesmaids were Miss Beattie Macpherson, of Peterborough, and Miss Gertrude Gardiner, of Millbrook, and both looked pretty in cream and green respectively.

The ceremony was performed by the Rev. Mr. Johnston, of Millbrook, after which a recherche wedding dejeuner was enjoyed.

Mr. and Mrs. Swain left on the 5 o'clock train for Cavanville station, where they were accompanied by a number of young people, who emphasized their good-byes and good wishes by showers of rice.

After the honeymoon trip Mr. and Mrs. Swain will reside at Valentia.

To Work for the West.

At the annual meeting of the Quinte district C.W.A., held in the Victoria club rooms on Monday night reports were submitted showing a fair progress during the year in the association's objects. The only topic of interest discussed was the place of meeting for the championship meet of 1898. The delegates from the other places in the district were unanimous in expressing their belief that the meet should come to Peterborough, and all promised to work heartily to secure the desired end. A lot of hustling is required for the meet to be held here. There is no use trying for it unless every effort is put forth to make it a certainty. Winnipeg, Ottawa, Brantford and London are after it, but Peterborough has the prior claim, and with clubs both east and west of us canvassing for it there is every reason to suppose that a majority of the delegates can be secured in our favor.

LUMSDEN NOMINATED

THE RESULT OF THE CONFERENCE WITH HON. J. M. GIBSON

Special to The Times.

Ottawa, Feb. 8.—The conference of local Liberals with Hon. J. M. Gibson yesterday resulted in the party meeting on Mr. Alex. Lumsden, lumberman, as the Protestant candidate to replace Hon. Mr. Bronson. But the Liberals are so much divided as ever as to their true candidate. While the old guard were willing to accept Mr. O'Keefe, Mayor Bingham or F. R. Latchford as their candidate, the Irish Catholic members of the Edward Blake Association declined to hear of any other nominee than J. L. Dowling, their choice, and so the matter stands unsettled. It is almost certain that at the Liberal convention to-night the Irish Catholic Liberals will be over-ruled and F. R. Latchford will secure the nomination with Mr. Lumsden. Mr. Lumsden this morning was waited upon by a large deputation and accepted the candidature, and is considered equally as strong a man as Hon. Mr. Bronson.

THE CHINESE LOAN

SCHEME TO RAISE IT IN LONDON HAS BEEN FINALLY ABANDONED.

St. Petersburg, Feb. 8.—According to trustworthy intelligence China has finally abandoned the idea of raising a loan in London or elsewhere.

SUNDAY SCHOOL REPORT

Scholars Attending Regularly at George St. and Grace Sunday Schools

The following is the list of scholars attending the George street and Grace church Sunday schools who were present the full 52 Sundays of the year 1897, as read at the entertainment in the George street church last night.

The names followed by numbers attended every Sunday in the year mentioned: Bible class, Wm. Lendrum, '95-6-7.

Senior class, girls, Birdie Frise, '94-5-6-7, Clara Warner, Maud Shera, '95-6-7, and Edna Hutchinson.

Senior class, boys, Lorne Dorrer, '94-5-6-7, Howard Goldey, '96-7, Harvey Treckey, '95-6-7, Hammill Hall, Arthur Bennett, Norman Miller, '94-5-6-7, Gordon Miller, '95-6-7, Willie Pickles, '95-6-7, Willie Gammie, Bert Detcher, Joe Lane, Wilford Northey, Orville Kingdom.

Junior class, girls, Alice Hubbard, '96-7, Grace Goldey, Minnie Pickles, '96-7, Jessie Goldey, Elsie Bennett, Lottie Cowie, Ada Nicholls, '96-7, Lillie Hall, Lillian Ingram, Edith Parnell.

Junior class, boys, Ernest Fletcher, Willie Dobbin, '96-7, Charlie Johnson, Wesley Erskine, Burton Miller.

Primary Class, Bertha Nicholls and Edna Pratt.

HOCKEY NOTES

Items of Interest on the Popular Winter Sport

The Edison employees have issued a sweeping challenge to play any unorganized team in town a game of hockey, printers preferred. The Times can supply a couple of men able to stand up on slippery ice and thinks that the printers ought to be able to pick up a team able to handle the bold electricians. What about the other offices?

The Peterborough seniors have shut up their shop here for the season, though they may take an Ontario tour while the ice lasts.

The Colts hockey team think how the seniors are off the ice that with a little practice they will be able to down the juniors. They are willing to arrange a match.

The Toronto Telegram thinks that Stratford should be an afternoon tea for Osgoode in the semi-finals. We believe it will be if Osgoode plays the same game as it did Monday night. The Telegram says that there are no better or fairer sports in Canada than the Peterborough boys.

"When it was seen Osgoode was too much for Phelanstown pious sobs were heard throughout the rink and the Peterborough supporters were visibly affected, even the older men could not hold back the tears." This description in the Toronto Telegram of the scene at the match here Monday night is not true to fact. No one was seen to cry; they kept it in their throats.

LADIES' AID SOCIAL

Pleasant Social Held by the Ladies' Aid of Mark St. Church

The Ladies' Aid Society of Mark St. Methodist church held a very successful social at the persons last evening. A large number were in attendance, and a most enjoyable evening was spent. Mrs. (Hav.) J. E. Moore occupied the chair, and the following program was represented:

Harmonies Solo—Master Bert Hamilton.

Vocal Solo—Miss Sherlock.

Recitation—Miss Muriel Henderson.

Reading—Mrs. M. W. Maclellan.

Quartet—Misses McKenna and Smith and Messrs. Armstrong and Smith.

Recitation—Mrs. Christie.

Vocal Duet—Misses Stevens and Sherlock.

Cornet Solo—Mr. J. Miller.

Recitation—Mrs. Christie.

Cornet Solo—Mr. J. Miller.

After this program a vote of thanks was tendered to those so kindly taking part.

Refreshments were served after which a very pleasant time was spent in games of various kinds. The Ladies' Aid are to be congratulated on the success of their social.

An Exciting Race

Yesterday afternoon a race took place on Simcoe street which afforded considerable interest to the spectators who witnessed it. Two farmers with heavy loads of grain on sleighs were going down to McLean's elevator from the market, and each being anxious to get there first and discharge his load, an exciting race ensued. One man drove a team of greys, and the other a team of roans, which were not encumbered in the race by too much fat. After crossing George-st. they put their horses to a hard gallop, and though the roans were behind they drew up and forged ahead. It was neck and neck for a while and two long whip lashes sang through the air, but the roans were game and gained a length, their owner driving up the game-way first, while the second man went on down to the other warehouse.

Much in Little

Is especially true of Hood's Pills, for no medicine ever contained so great curative power in so small space. The "Pill" whole medicine

Hood's Pills

chest, always ready, always efficient, always satisfactory; prevent a cold or fever, cure all liver ills, sick headache, jaundice, constipation, etc. See the only Pills to take with Hood's Sarsaparilla.

GEORGE ST. SUNDAY SCHOOL

Anniversary Services of the George St. Sunday School

The anniversary services in connection with the George street Methodist Sunday School were held yesterday, when a successful year's work was celebrated. In the evening a tea was held in the Sunday School room, where a great many members of the church enjoyed themselves, the children especially being made happy. At eight o'clock a public entertainment was held in the church and a program was presented by the children of the Sunday School. The scholars had been carefully trained for the event, and the large audience present was a unit in pronouncing the entertainment a marked success in every way. Miller's orchestra was in attendance and varied the proceedings with their music. Rev. Mr. Shorley occupied the chair. The program was presented as follows:

Doxology.
Prayer by the pastor.
Hymn—"Glory to God in the High East."

Opening Address—Gertie Allison.
Reading of Reports.
Distribution of Prizes.
Hymn—"Ring the Bells."

Primary Exercise—"The Clock."
Recitation—Master Chalmers Nichols.
Dialogue by Girls—"Vanity."

Drill—Members of the Boys' Brigade.
Hymn—"Be Strong in the Lord."

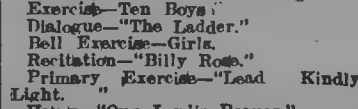

Recitation—Master Bert Turner.
Dialogue—"Cast Thy Bread"—Gusie Shorley and Edna Armstrong.

Exercise—Ten Boys.
Dialogue—"The Ladder."

Bell Exercise—Girls.
Recitation—"Billy Rose."

Primary Exercise—"Lead Kindly Light."
Hymn—"Our Lord's Prayer."

Benediction.

Archer, Mrs. B. V. Viola, Miss M. L. Mc-
Carroll, Harmony, Mr. Geo. F. Smelly, Guitar
and Banjo, Miss Lillian Burns, Elocution.

As to provisions, the people will
be interviewed with the Winnipeg Tribu-
ne spoke of the Klondike.

In response to the question whether
the Canadian coast merchants were
satisfied with the Klondike trade he
said they certainly were not, the trouble
being the restrictions of the Ameri-
cans. These restrictions whatever
their supposed object were really de-
signed to give the trade to United
States cities, and the feeling among
Canadian cities is that Canada should
have direct access to the States. This
is the unanimous feeling of the coast
in which Mr. Martin concurs unless the
States will not more fairly.

The point is this, that while the Klondike
is in Canadian territory goods go-
ing in by way of the Yukon and Dyea
have to go through a very narrow
strip of United States territory. In
fact, the United States territory only
runs from the coast back 30 miles, or
not to the other side of the passes. Since
the passes are uninhabited and there
is no possible chance of a man selling
Canadian goods in this strip of United
States territory a fair treatment on the
part of the United States would be the
allowing of Canadian goods to go
through in bond.

This was the spirit of the arrange-
ment made by Mr. Sifton, of Washing-
ton, but Mr. Martin says that from
all he can learn the States are not
leaving the spirit of the arrangement,
and the new regulations are as bad
as the old. He had not seen the regu-
lations, but had been told that Cana-
dian goods can be transported in bond
over the pass only under the following
unfair and onerous conditions: The
miner must either put up a satisfactory
bond, that is satisfactory to the United
States officials, which from the
necessities of the case the great ma-
jority of those going in, entire stran-
gers in a strange land, cannot do, or
else a United States custom-house of-
ficer accompany the goods across the
pass at a cost of say \$5 or \$10 per
day. Failing either of these the miner
must pay duty for taking his goods
across this strip of territory.

Mr. Martin said that Canada might
shut United States miners out of the
Klondike just as Canadian miners are
shut out of Alaska, Washington
and many other parts. The feeling
that there should be some retaliatory
measures of this kind is very strong
all over the coast.

Mr. Martin said that Canada might
shut United States miners out of the
Klondike just as Canadian miners are
shut out of Alaska, Washington
and many other parts. The feeling
that there should be some retaliatory
measures of this kind is very strong
all over the coast.

Mr. Martin said that Canada might
shut United States miners out of the
Klondike just as Canadian miners are
shut out of Alaska, Washington
and many other parts. The feeling
that there should be some retaliatory
measures of this kind is very strong
all over the coast.

Mr. Martin said that Canada might
shut United States miners out of the
Klondike just as Canadian miners are
shut out of Alaska, Washington
and many other parts. The feeling
that there should be some retaliatory
measures of this kind is very strong
all over the coast.

Mr. Martin said that Canada might
shut United States miners out of the
Klondike just as Canadian miners are
shut out of Alaska, Washington
and many other parts. The feeling
that there should be some retaliatory
measures of this kind is very strong
all over the coast.

Mr. Martin said that Canada might
shut United States miners out of the
Klondike just as Canadian miners are
shut out of Alaska, Washington
and many other parts. The feeling
that there should be some retaliatory
measures of this kind is very strong
all over the coast.

Mr. Martin said that Canada might

and many other parts. The feeling
that there should be some retaliatory
measures of this kind is very strong
all over the coast.

TROUBLE AT DAWSON

Toughs at Dawson City Try
to Seize Supplies

CAPTAIN RAY'S NERVE

By Presence of Mind he Checks the
Mob

No One can Enter the Yukon District With-
out 1000 pounds of Provisions—Joe Martin
Would Keep the Americans Out

Special to the Times.

Washington, Feb. 8. Hazard
Wells, the special courier, who brought
Captain Ray's despatches from the
Yukon, reached Washington last
evening.

Speaking to an Associated Press re-
porter, Mr. Wells said:

"I cannot properly say anything as
to Captain Ray's report, but I can say
that I left him in a rather critical
position, and the sooner the Govern-
ment gets support in to him the bet-
ter."

"Captain Ray had only one man
with him, Lieut. Richardson. They
reached Fort Yukon somewhat ahead
of a mob of between 80 and 100 of the
toughest men that could be picked out
of Dawson, and when I left the Cap-
tain he was standing off this mob from
the provision caches, largely by vir-
tue of his nerve."

"When the food panic struck Daw-
son this mob of toughs left Fort
Yukon knowing that the Wear Company
and the Alaska Commercial Com-
pany each had a cache of provisions
there."

"The Dawson men intended to ap-
propriate these supplies and let the
rest of the camp shift for itself. Cap-
tain Ray learned of this and he posted
himself at one side of the cache, while
Lieut. Richardson guarded the other.
They were in uniform. The mob
tackled the Captain first, and ordered
him to give up. He refused, and for a
time it looked as though there would
be shooting, but between his uniform
and nerve the mob was overawed."

"Ray then established himself as a
sort of military dictator, superintend-
ing the sale and distribution of provi-
sions and will make an account to the
companies when it is all over. When
I left he had the support of about
sixty of the decent element, and there
were about 600 of the better element
there also, but a few bad men in a
place of that sort can usually make
trouble and run things if they get
started."

"As to provisions, the people will
be interviewed with the Winnipeg Tribu-
ne spoke of the Klondike."

In response to the question whether
the Canadian coast merchants were
satisfied with the Klondike trade he
said they certainly were not, the trouble
being the restrictions of the Ameri-
cans. These restrictions whatever
their supposed object were really de-
signed to give the trade to United
States cities, and the feeling among
Canadian cities is that Canada should
have direct access to the States. This
is the unanimous feeling of the coast
in which Mr. Martin concurs unless the
States will not more fairly.

The point is this, that while the Klondike
is in Canadian territory goods go-
ing in by way of the Yukon and Dyea
have to go through a very narrow
strip of United States territory. In
fact, the United States territory only
runs from the coast back 30 miles, or
not to the other side of the passes. Since
the passes are uninhabited and there
is no possible chance of a man selling
Canadian goods in this strip of United
States territory a fair treatment on the

PETERBOROUGH, FEBRUARY 10, 1898

A FAIR STAND

To the Editor of The Times:
Sir,—We have read the references made in last night's Examiner to ourselves, wherein the impression is given out that we have said that we controlled the vote at the Electric works and were working to deliver that vote for Mr. Garvin.
Now, sir, we wish to deny those statements as they are entirely untrue and without foundation. We are members of Mr. Garvin's committee but we are not members of any organization to control the vote of the men of the General Electric works. It is a known fact that the Canadian General Electric Company is a non-political concern and allows none of its employees to canvass for political candidates or work in their interests in the works, and we have observed that rule.
The statements were published as far we can see with a view to arouse feeling among the employees of the works. As it will also place us in a false light before the members and officials of the Company, we request that this contradiction of last night's statements be published.
Yours, etc.,
CAPT. CARBON
W. S. ROBINSON
R. E. LAYFIELD.

The above letter is the outcome of certain statements made in the Examiner. The letter explains itself. The writers simply claim the right as private citizens to use their influence for the candidate of their choice. They are acting solely as individuals and are not trying to commit the Electric Company to any political policy. As citizens they have a perfect right to

take a part in public discussion, and advantage should not be taken of their doing so to injure them in their relations with their employers. They have the same right as any other citizen to canvass their fellow employees, provided they adhere to the Company's rules requiring employees to refrain from political efforts within their works.

Mr. Yelland's candidature will make a big stir in the political pot.

The fight has been transferred from Ennismore to the Electric Works.

The irate Conservatives think that Clifford Sifton must be running a bargain counter.

Judging from the quietness in the East Riding Mr. Bizard's services must be satisfactory to his constituents.

Some of Mr. Garvin's committee members can explain what they mean a great deal more clearly than that candidate.

Both the Ministers and would-be Minister are forced to stay in their own ridings to look after their own seats.

If Mr. Garvin fails but his party carries the province he may be appointed Post Laureate of Peterborough county.

It is said that there is nothing strange now. We would like to see some government disprove this by keeping its ante-election promises.

Mr. Stratton does not believe in electric works being run by a "gang," especially as the "gang" is working in Mr. Garvin's interest.

There is no truth in the rumor that J. R. Stratton will be asked to form a government if the Liberals are returned to power.

A dispatch from the Zola trial states: "Col. Paty de Clam was then called and refused to testify." Col. is living up to his name.

After this campaign Mr. Burnham will have enough material to write a book on "Canadians who have been in the Ontario Legislature."

Last night's Examiner remarks that Mr. Garvin will not march last in the procession. This joke is just about as fresh and brilliant as Mr. Stratton's speeches.

Both the Minister of Education and the would-be Minister of Education seem to run to poetry. The poetry of the first is plagiarized, while that of the latter is simply bad.

Books seem to be playing an important part in the campaign in this riding. Mr. Hampden Burnham's "Canadians in the Imperial Service" has been made an object of attack.

Chinamen, Canadians and lepers are barred out of the United States. But the United States doesn't mind monopolizing our gold mines and lumber trade, and we have two spineless governments that permit it.—Chat-ham Planet.

The Examiner thinks that the Conservatives howl in their committee rooms to keep their courage up, while the Review describes Mr. Stoney's speech at Buckhorn as described in the Review as stentorian howls. It seems likely to be a howling campaign.

The Original Organ Grinder
When barrel organs, once the usual accompaniment of the magic lantern, came into use, a native of the province of Tende was one of the first who traveled about Europe with the instrument. In his peregrinations he collected money enough to enable him to purchase from the King of Sardinia the title of count of the country where he was born—for which, probably, in a time of war he did not pay above 1,000 guineas.

With the remainder of his money he purchased an estate suitable to his rank and settled himself peacefully for the remainder of his days in his mansion. In the entrance hall of his dwelling he hung up his magic lantern and his sign saying the door, there to be carefully preserved till they mouldered to dust, and he ordered by his will that any one of his descendants who should cause them to be removed should forfeit his inheritance and his patrimony revert to the next heir, or, in failure of a successor, to the hospital of Tende.

Only a few years ago the organ and lantern were still to be seen carefully preserved.

Use Canadian General Electric Co's (Limited) incandescent lamps and get the benefit of manufacturer's prices. Phone No. 72.

A Subterranean Convent
A most remarkable convent is to be found in the catacombs of the Russian cathedral at Kiev. Deep down beneath the magnificent cathedral are miles of subterranean corridors, lined with cells, in which 1,500 ascetics perform their daily devotion and duties, live, eat, and sleep, in the grim company of their dead predecessors. For a short time each day they ramble in the beautiful gardens surrounding the cathedral, only to return from the fugitive of paradise to the dark, damp cellars where they live their "death in life." The cathedral, which arises above them is of a splendour of which the untravelled Westerner has no conception. Its walls are covered with plaques of gold and silver. The images are enshrined in richly jewelled frames of gold, and before them hang hundreds of tiny lamps, gleaming like multi-colored jewels.

MRS F. "I must apologize for my very early call, Mrs. S. but circumstances prevent me seeing you later in the day. Our friend, Miss Church, informed me yesterday that you had quite banished your dyspepsia and nervousness by using Paine's Celery Compound. Can you truly recommend the medicine?"

MRS S. "My dear Mrs F., all that you heard from Miss Church is quite true. Paine's Celery Compound is indeed a most marvellous medicine, pleasant to use, and has done more for me than my doctor could do. I cannot possibly give you a stronger recommendation."

MRS F. "Well candidly, Mrs. S., I have suffered terribly from indigestion and frequent attacks of painful neuralgia, and have used many medicines, but I am as bad to-day as I was six months ago. Upon your recommendation I shall give Paine's Celery Compound a trial."

MRS S. "I am so pleased to hear of your wise decision! I am sure you will not be disappointed. I heard a few days ago that our minister's wife was using Paine's Celery Compound for her rheumatism, and is now able to be out again. Really, Mrs. F., my faith in Paine's Celery Compound gets stronger every day."

That Good Cup of Coffee
You read about the good cup of coffee often. Unfortunately you drink it less frequently.

The best coffee that ever was "brewed" can be made in an old-fashioned stoneware pipkin, costing less than 10 cents for the two quart size. No pot of tin or agateware, or even of solid silver, is as good for this purpose as this simple dish of baked clay, a material which has been in use for kitchen utensils since the days when the Israelites made brick for their Egyptian taskmasters.

When you serve the coffee, it can be strained into a heated coffee-pot of an aesthetic stoneware or porcelain as you please. Such a dish would be too frail to boil in. Do not trust a coffee pot of metal of any kind. The black coating on the inside of a metal coffee pot that has been used a few times shows that the metal has united with the acids of the coffee more or less and affected the liquid made.

The best coffee is only made from the first quality of coffee beans. The bean should not be browned over 24 hours before it is used, and it should be ground just before using. The coffee may be easily spoiled, even if these conditions are fulfilled, by boiling it in metal. One made in a pot that contains on the inside the successive deposits of many days' brewing has a rank flavor.

When coffee is dripped, in French fashion, it should be always made in heated stoneware. An ordinary cheap pitcher will do to make it in, but it is easy to find picturesque German coffee beggars that are not expensive, made of brown or of blue and white. Let the housekeeper remember that it does not require anything but the cheapest and simplest pot to make the best coffee that ever was made, but it requires care in selecting the coffee and in boiling the water.

CATARH IS A DISEASE.
Which requires a constitutional remedy. It cannot be cured by local applications. Hood's Sarsaparilla is wonderfully successful in curing catarrh because it eradicates from the blood the scrofulous taint which cause it. Sufferers with catarrh find a cure in Hood's Sarsaparilla, even after other remedies utterly fail.

HOOD'S PILLS are prompt, efficient, always reliable, easy to take, easy to operate.

FATHER OF THE HOUSE OF LORDS

VENERABLE NOBLEMAN WHO HAS GIVEN UP POLITICS ENTIRELY

Lord Mansfield, the Father of the Peer, who is in his ninety-second year, is frail and feeble, but still evinces great interest in the management of his estates, says the West-Gazette. He takes no notice of politics, and talks very little of olden times. If the weather is fine he is wheeled out in his bath-chair to the lawn of the old palace of Soame, where he has spent so much of his life, and enjoys a short hour in viewing the beautiful scenery, catching a glimpse of the Tay through the trees.

Town Treasurer's Office
Peterborough, 11th December, 1897.

CLOVER AND TIMOTHY.

The Comparative Value of These Grasses on the Farm.

Clover and timothy are two of the most important fodder crops grown on the farm, especially in this country. They form the bulk of the food fed to our animals for the production of either milk, beef or pork. It is, therefore, important to determine which of the two fodders is most valuable for the object in view, considering at the same time which is the cheapest to produce and how each affects the fertility of the soil; for it is high time that the farmer is looking into the problem of how best to keep up the fertility of his farm without having to resort to the use of commercial fertilizers.

Of all the food elements necessary for the growth of crops and that we are called upon to supply, nitrogen, phosphoric acid, and potash are most important; these are, therefore, the one mainly to be considered in keeping up the soil's fertility. Some plants require a more liberal supply of these elements than do others; also, some plants have better facilities than others for gathering from remote sources their necessary amount of food. The latter ability depends upon the amount and nature of their root growth. Plants, such as clover, whose roots penetrate deeply into the soil, have an evident advantage, being able to draw food from a considerable depth; while shallow-rooted plants, such as timothy, must be satisfied with what available nourishment they find near the surface.

Now, whether you are feeding plants or an animal, nitrogen is the most costly element. About four-fifths of the bulk of the atmosphere is nitrogen in the free state; but this is useless as a food for either plants or animals. Clover belongs to a family of plants (Leguminosae), other examples of which are the pea, bean and vetch, that have grown on their roots small white bodies, which, by virtue of micro-organisms, convert in them the power to appropriate the free nitrogen of the air and convert it into such a form that these plants can utilize it as food for themselves. Timothy has not this power of utilizing the free nitrogen of the atmosphere, but must obtain its supply wholly from the available nitrogen compounds already in the soil.

If a crop of timothy be grown and fed on the farm, and the manure carefully saved and applied, the soil will have neither lost or gained in nitrogen. On the other hand, if a crop of clover be grown and likewise fed on the farm, and the manure carefully saved and applied, not only the nitrogen drawn from the soil will be returned, but also a large quantity which will be left in the soil in a form available for plant food. Thus, in the case of the clover, the soil will have gained enough nitrogen to enable it to produce a good crop of corn, potatoes, wheat or other grain.

Clover being a deep feeder its roots penetrate deeply into the sub-soil and draw a large amount of phosphoric acid and potash from a depth that the roots of ordinary plants never reach. Timothy, being a shallow feeder, draws all its phosphoric acid and potash from the surface soil. In this we can see, that if fed on the farm and the manure returned to the land, clover enriches the surface soil by the amount of phosphoric acid and potash drawn from the sub-soil, while timothy has not this advantage.

If utilized on the farm, clover is unexcelled in keeping up the fertility of the land. Owing to its large development of roots, clover brings a great deal of organic matter (humus) to the soil (almost half the amount of its total growth is left in the soil as roots and stubble); it thus has no small effect in improving the tilth of soils naturally deficient in organic matter; making stiff clays more porous and sands more retentive. From what has been said we may draw that clover is especially valuable as a green manure, because of its extensive feeding habits and the large amount of organic matter it brings to the soil.

When compared on an even footing as foods clover is more valuable pound for pound than timothy, especially when fed to cattle or sheep. Clover is rich in those substances which make a man what they are generally considered to be a strong food for a working man. By the chemist these substances are called "albuminoids" or "protein." They contain practically all of the nitrogen in the plant, and are also of materials in lean meat and the curd of milk. The remaining organic substances of the plant (viz., those that contain no nitrogen, such as starch, sugar and fat) are called "non-nitrogenous" or "non-albuminoids," and are valuable chiefly for keeping up the heat of the animal body. But, as all plants contain an abundance of these non-albuminoids they need not be considered in determining the value of fodders. A food is considered rich in proportion to the amount of digestible albuminoids that it contains; in other words, the greater the proportion of digestible albuminoids to digestible non-albuminoids the more valuable will be the food. Clover hay, fed alone, is a well-balanced ration for a milch cow or a beef animal, containing about one part of digestible albuminoids to six parts of digestible non-albuminoids; in other words, it has a nutritive ratio of about 1 to 6. Timothy hay is not so rich, having a nutritive ratio of only about 1 to 9. According to these figures two pounds of clover hay are worth three pounds of timothy hay. The manure resulting from the two fodders, if made under the same conditions, will show a similar comparative value, two tons of that from the clover hay being worth three tons of that from timothy hay. It is a lamentable fact that so many farmers have not yet learned how to make good clover hay; and until they do they will not be able to appreciate, by experience, its real value over timothy. A. T. Wiancko, at the East Simcoe Farmers' Institute.

Feeding: Charcoal.

Four turkeys were confined in a pen and fed on meat, boiled potatoes and oats. Four others of the same breed were at the same time confined in another pen and fed daily on the same article, but with one pint of very finely pulverized charcoal mixed with their food—mixed meal and boiled potatoes. They had also a plentiful supply of broken charcoal in their pen. The eight were killed the same day, and there was a difference of one and a half pounds each, in favor of the fowls which had been supplied with charcoal, they being much the fattest, and the meat being superior in point of tenderness and flavor.—Poultry Chum.

Planet Discoveries.

Three more small planets were, it is known, discovered by M. Charlaix of Nice, on December 31, making, if all recent announcements are verified, discoveries for 1897, a total of 423. Twenty years ago only 100 were known.

BIRTH ANNOUNCEMENTS.

Some of the Various Ways in Which Newspapers Print Them.

Of all the things that appear in the regular and ordinary "make-up" of a newspaper, birth notices are perhaps the most amusing. They find their way into both metropolitan and country newspapers. The latter especially teem with them. The cross-roads correspondent seems such occurrences important items, hence their frequent appearance in The Peterborough Times. Some papers have particular columns or spaces devoted to marriages and obituary news. Others record the same events under the title "Cradles," "Altars" and "Tomb," while a third class use three words in the headline, "Yells," "Hills" and "Knells."

The following are a few notices clipped at random from papers all over the United States and Canada, say The Chicago Times-Herald. Some are to the point, while others convey more information than is necessary:

McDonald—May 28, 1896, a daughter to Daniel and Emma L.

Albert Drinkie is a papa.

A little girl baby began its residence with Mr. and Mrs. E. B. Watley Wednesday last week.

A little son-beam came to brighten the home of Attorney J. C. Finckel and wife on Thursday afternoon of last week.

What causes Charlie Prasul-n to smile? Oh, it's a boy.

Tom Arnold reports a lovely little Bryanite at his house since Monday night. The little man is rather we as yet.

Another new blacksmith came to Waco. For particulars see Albert Kidd.

A little city treasurer made its appearance at the home of Mr. and Mrs. John Washburn last Saturday.

On Thursday eve of last week a little girl was left at the home of Mr. and Mrs. Cannon. As it was good looking they concluded to keep it until it was 12.

H. C. Sackett was all smiles on Saturday, and his friends found that good J. D.'s were none to good for them. A girl arrived at his house that day.

Father doing as well as could be expected under the circumstances.

Born in Lansing, on Sunday last Dec. 6, to Mr. and Mrs. George Robinson, twins—a boy and a girl. We are very glad to see that George has been converted to the theory of the double standard. We would like to suggest as names for these two precocious youngsters Sylvester and Goldie.

There will be another stocking to hang up at the home of Mr. and Mrs. George White in the southwest country this Christmas. It's a boy, and from the report we judge he is a dandy.

Born to Mr. and Mrs. Ed. Cox, Sunday night, twin girls. Dr. Dillon was in attendance, and says all are doing nicely. Ed., however, had to be watched closely by his friends for a day or two, but is out of danger now and is perfectly harmless.

Mr. and Mrs. Frank Reynolds have welcomed to their home a daughter, born Dec. 8.

N. H. Tracy now wears a 9 by 14 smile on his face, all on account of the arrival of a new dishwasher at his house the 18th ult.

Dr. Frank Kline, the Leroy dentist, formerly of this city, takes his happiness in double doses. He is the father of twins.

Mr. and Mrs. Jacob Dryfus of 51 Washington avenue have already received their Christmas gift. It is a plump, dimpled little girl.

A young voter arrived at the home of Pete Olson recently. Of course, he missed the election, but fortunately McKinley had no need of more votes this time.

J. W. Rogers is entertaining a very young gentleman, who took up a permanent residence with him on last Thursday.

A little gentleman arrived at G. Ericson's last week, apparently quite determined to make that his future home. All concerned are doing well.

Mr. and Mrs. Fred E. Harding have presented this town with the first McKinley baby. He was born Dec. 5, and will be known as Owen McKinley Harding.

A new toll-gate keeper arrived at Mr. Hardcastle's Thursday night. His name is Wm. Bryan.

W. H. Weiland is happy. He hasn't stopped smiling since he was informed yesterday that he had attained the dignity of being grandpa. Mr. and Mrs. Charles Moore being the parents of a 10 1/2-pound baby girl.

EMISSIONS

Varicose, Syphilis, Weakness and Diseased Men Cured.

20 Years in Mich. 40 Years Experience
250,000 CURED.

Thousands of young men are made nervous and lose their business and social pleasures or home duties by evil habits in youth, later excesses, or private diseases. W. U. Andrews, of Akron, O., says: "I read this paper and have seen many reports of remarkable cures by Dr. Kennedy and Kergan. I decided to treat with them. Indiscretion was the cause of my trouble. I was weak and nervous; no ambition; back weak; pimples on the face; thin and haggard; eyes sunken and cheeks hollow; dreams and doubts at night; menstrual poor; varicose and weak penis; irritability; sinking spells; specks before the eyes; lack of confidence; no energy; and many other complaints. I had tried fourteen doctors, bought four electric belts, took scores of bottles of patent medicines—all failed. I tried the New Method Treatment of Dr. Kennedy and Kergan, and it cured me. I am a man again. I have gained twenty-five pounds and am strong mentally, physically and sexually. It is a wonderful treatment." Blood Diseases—With the worst symptoms: Ulcers in the mouth or on the tongue, blotches, eruptions, hair falling out, bone pains, eyes red, stomach troubles, sore throat, etc., positively cured forever. You dare not marry until cured. Cures guaranteed or no pay. We cure Syphilis, Nervous Debility, Varicose, Pimples, Headache, Stricture, Gleet, Unnatural Discharges, Weak Penis, Bladder and Kidney Diseases. Consultation Free. Books Free. If unable to call, write for Question-Blank for Home Treatment. Everything Confidential. Nothing sent C. O. D.

PETERBOROUGH, FEBRUARY 10 1898

TENNYSON REMINISCENCES

THE POST LAUREATE WAS A LONG
SUFFERING AND PATIENT MAN

Many stories have been published about the late Laureate having been constantly pestered by Americans, "many of whom flattened their noses against the windows of the Laureate's dining room." Mr. J. F. Farnham, who was a neighbor of the poet at Freshwater, describes these stories in Eureka as "arrant nonsense." As a matter of fact, not once in a month would an American tourist be seen in the neighborhood of Farringford House, and Mr. Farnham affirms that his experience of such tourists in that part, does not justify the notion that Americans on tour are in the habit of behaving less decorously than other people.

One thing that impressed Mr. Farnham when he first went to live at Freshwater was the little local usages which appeared to him to be English. From the conversations with them he learned that they regarded "Muster Tennyson" with some respect, because they had heard that he was "summat to the Queen," but that that "summat" was the bucolic and seemed incapable of realising that the poet should be the nation's great Englishman. From the conversations with them he learned that they regarded "Muster Tennyson" with some respect, because they had heard that he was "summat to the Queen," but that that "summat" was the bucolic and seemed incapable of realising that the poet should be the nation's great Englishman.

Meditation...

While contemplating how you can be cured of that Rheumatism you are troubled with, be it Acute Chronic, Muscular, Sclerotic, Lumbago, or Gout, make up your mind and use the only known positive cure, that has never failed, namely, "NEW LIFE" Medicine, obtainable at the Laboratory at Jarvis street, Toronto.

W. E. DOBSON, Prop.

Color in the Parlor

The delicate tints of the average expensively furnished parlor are apt to be colorless unless there is some relief to them. One sees so many rooms with soft pearl gray wilton carpets, hangings of silvery plush, furniture largely in white and gold, even the sofa cushions of the palest hues in costly fabrics. The curious expressions of such a room, as if it were arranged for an exhibition parlor of upholstery, is enhanced usually by the lack of any sort of contrast. Every room to be successful needs some sort of focus—an opening fireplace, a reading table, anything that suggests a drawing together of the room occupants. It is the lack of suggestion of life which makes one stare through one of these perfectly appointed rooms and come with a sigh of relief into the next apartment, which the family really use. Occasionally a house is entered whose mistress boldly banishes the so-called parlor, letting it be simply an extension of the library. Books line its walls, a long table with chairs drawn around it is piled with fresh magazines, the latest books and a writing service. All these may be as elegant as one's purse admits, but their very presence confers a charm and effect by their suggestion of use that are not found in the handsome stretches of upholstery and woodwork.

What Two Cents Will Prove:

For a two-cent stamp Francis U. Kahle, 127 Bay St., Toronto, will send a free sample of Trask's Magnetic Ointment and Cook Book to any one suffering from Rheumatism, Chills, Eczema, Tetters, Salt Rheum, Bruises, Fever Sores. It is a positive cure for Piles.

Shakespeare vs Burns

At the close of a lecture to the members of a certain literary society the following dialogue between a Scotchman and the lecturer was overheard:

Ye think a fine lot o' Shakespeare, doctor?

I do air, was the emphatic reply. An' ye think he was mair clever than Robbie Burns?

Why there's no comparison between them!

Maybe no; but ye tell us the night it was Shakespeare who wrote "Un-easy lies the head that wears a crown." Now Robbie would never have written sic nonsense as that.

Nonsense, sir! thundered the indignant doctor.

Ay, just nonsense. Robbie would have sent fine that, king, or a queen either dinnin' gang to bed wi' the crown on his head. They bang it over the back of a chair. The doctor's face dropped, for he realized that his lecture had been given in vain.

In country road making there is much plowing of roadsides and scraping away of the surface soil. This is almost always a mistake. But the farmer should see to it that at least the work of road improvement does not obstruct the entrances to his fields. Making it easy for the farmer to use any part of his farm for him about the most necessary part of road improvement. Out of this field into the road he will each year draw many loads, besides the loads of manure he will likely draw into it. If a plowed ridge or ditch obstructs the entrance to the field many wagons will be needlessly broken. If a ditch is required in the roadside opposite a gate, the path master may be obliged to convert it at that point into a sluiceway with stone or tile passage for the water. An underdrain beside the road, three feet deep, with good outlet, is the best way to improve most poor roads. But whatever the method adopted, the farmer should see to it that road improvement does not obstruct gateways that he has to use.

A FRY WITH A MORAL.

One day recently, as a tenmaster was slowly working his way through the quagmire commonly known as a country road between the Cummings hill and Fossil, he espied a hat in one of the ruts in front of him. As the headgear appeared to be in fairly good condition he dismounted to pick it up. As he raised the hat he was astonished to hear a voice from under it exclaim: "Hold on! That's my hat!" As soon as he had gathered his breath and with the teams asked: "What are you doing down there?" which brought forth the reply: "I'm in big luck to be where I am. There's a horse underneath me."

FREE BOOK TO MEN ONLY

Which deals with those weaknesses resulting from ERROR OF YOUTH, such as DRAINS, NIGHT LOSSES, WEAK BACK, IMPOTENCY, VARICOCELE, etc. It explains to you fully just why ELECTRICITY cures and CURES PERMANENTLY. It tells all about the world-famed DR. SANDEN ELECTRIC BELT FOR WEAK MEN, young or old. I am the inventor, and with it I cured 5,000 last year.

CONSULTATION FREE

At office, or if you do not live near enough to call, write for the above

book, sent sealed free.

Help for the Hair

is what a great many men and women are looking for; help against approaching baldness; help against whitening locks; help to restore the lost gloss to the hair; help against fading tresses; help for the scalp attacked by dandruff. AYER'S HAIR VIGOR offers just such help. It restores gray or faded hair to its original color, gives it length, thickness and gloss, and removes dandruff.

"My hair was rough and broken and began to fall out. The use of but one bottle of AYER'S HAIR VIGOR both checked the falling out and rendered my hair smooth, glossy and in splendid condition. It is the best of dressings."—Mrs. F. L. SMITH, Silver Creek, N.Y.

"Some years ago my hair began to fall out and I became quite bald. By advice I tried

and very soon my hair ceased to fall out and a new and vigorous growth made its appearance. My hair is now abundant and glossy."—THOS. DUNN, Rockville, Wis.

The Jewess in Her Home

Emerson has said: "If you would know a thing truly, you must see it in its setting." The setting of the Jewess is her home. She cannot be known elsewhere, and how many Christians ever see her there? If necessity or perversion of taste or greed place her behind a counter or bring her to the mart where merchants do congregate, she does not appear as her true self. Metaphorically speaking, she dons "mean garments," something forbidden in the sacred law of Moses.

The Jewess was never meant for a society lady, nor for a devotee of the literary and poetical art. Only in times of the deepest national emotion a Miriam or Deborah would arise. Although she knows the use of the tongue as well as any of her sisters in other regions of the earth, she is never so apt to be a saintly recluse or flesh and world subduing penitent. Her mission is the gospel of sweetness and beauty; to delight by her grace and beauty, if so favored by God. Otherwise she conspires herself with the assurance of her classical poet that, after all, "grace may prove deceitful and beauty a vanity; the woman that feareth God, her praise endureth forever." "Give her the fruit of her hands, and let her own works praise her."—Dr. Gustav Gonthell in Ladies' Home Journal.

Something for Nothing

Persons suffering from Rheumatism, Salt Rheum, Piles, Tetters, Chills, Eczema, Skin Diseases, etc., who send a two-cent stamp (for postage) with name and address, we will send a free sample of Trask's Magnetic Ointment with a Cook Book free. Francis U. Kahle, 127 Bay St., Toronto.

All new and Fresh

Our Fine Nuts, Dates, Grapes, Lemons and Oranges are all new stock, and we can give you best value in all these we carry. J. B. Oke.

That Affliction Casteth

Endured by so many, can be surely cured by Trask's Magnetic Ointment. No one should suffer from that loathsome disease—stop it at once by using this certain remedy. \$500 a bottle at any druggist.

2226-2228-2230-2232-2234-2236-2238-2240-2242-2244-2246-2248-2250-2252-2254-2256-2258-2260-2262-2264-2266-2268-2270-2272-2274-2276-2278-2280-2282-2284-2286-2288-2290-2292-2294-2296-2298-2300-2302-2304-2306-2308-2310-2312-2314-2316-2318-2320-2322-2324-2326-2328-2330-2332-2334-2336-2338-2340-2342-2344-2346-2348-2350-2352-2354-2356-2358-2360-2362-2364-2366-2368-2370-2372-2374-2376-2378-2380-2382-2384-2386-2388-2390-2392-2394-2396-2398-2400-2402-2404-2406-2408-2410-2412-2414-2416-2418-2420-2422-2424-2426-2428-2430-2432-2434-2436-2438-2440-2442-2444-2446-2448-2450-2452-2454-2456-2458-2460-2462-2464-2466-2468-2470-2472-2474-2476-2478-2480-2482-2484-2486-2488-2490-2492-2494-2496-2498-2500-2502-2504-2506-2508-2510-2512-2514-2516-2518-2520-2522-2524-2526-2528-2530-2532-2534-2536-2538-2540-2542-2544-2546-2548-2550-2552-2554-2556-2558-2560-2562-2564-2566-2568-2570-2572-2574-2576-2578-2580-2582-2584-2586-2588-2590-2592-2594-2596-2598-2600-2602-2604-2606-2608-2610-2612-2614-2616-2618-2620-2622-2624-26

READ WHAT PHYSICIANS SAY OF POND'S EXTRACT

PHILADELPHIA,
Dec. 29, 1894.
I have used "Pond's Extract"
for many years and always in-
sist upon my patients getting
"Pond's," not the ordinary Ex-
tract, which is often a very poor
article. W. K. BROWN, M. D.

PHILADELPHIA,
Jan. 9, 1895.
I use Pond's Extract a great
deal in my practice. I think it
very valuable in all venous en-
largements.

J. L. BRADFORD, M. D.
SANTA BARBARA, CAL.,
Nov. 27, 1894.
I have been using Pond's Ex-
tract in my practice for twenty
years. I frequently have the ex-
perience you mention of drug-
gists insisting they can put up
as good as yours. I don't be-
lieve it. I use Pond's Extract a
great deal as an antiseptic in
combination with glycerine and
carbolic acid. I think it far su-
perior to any antiseptic known.

F. G. FLOURNOY, M. D.
COLUMBIA, PA.,
Jan. 18, 1895.
I have been a constant user of
Pond's Extract since 1872, and
do not expect to discontinue it
while I live. S. ARMOR, M. D.

CHELSEA, MASS.,
Nov. 8, 1894.
I have made diseases of the
skin a specialty for thirty years,
and am free to say I know of no
remedy that has given me such
perfect satisfaction as Pond's
Extract in cases for which it is
recommended.

G. W. BARCOCK, M. D.
ASTHMA'S INSTITUTE,
Buffalo, N.Y., Dec. 8, 1894.
I know Pond's Extract to be
a valuable remedy, and shall
continue its use whenever the
opportunity offers.

GEO. H. CALKINS, M. D.
NEWARK, N. J.,
Dec. 13, 1894.
I am pleased with the purity
and strength of Pond's Extract.

J. L. DURYEE, M. D.
POND'S EXTRACT is used
by the leading physicians and
principal hospitals of America
and Europe.

5,000 ORDERS FROM PHYSICIANS
WITHIN ONE MONTH DURING
LAST AUTUMN.

POND'S EXTRACT is un-
rivalled for Cuts, Burns, Bruises,
Colds, Catarrh, Piles, Inflamma-
tions, Hemorrhages and all Pains.

MAYOR'S OFFICE.

Mr. Davis will be at the Town
Offices, from 9 to 10 o'clock, each
morning to meet those having busi-
ness to transact.

A. L. DAVIS,
Mayor

Morning Times

PETERBOROUGH, FEBRUARY 10, 1898

TOWN AND COUNTY NEWS.

Delightful Party
McQuay, Baple & Co. are selling the
most delightful party in town. Op-
erative Adam Hall's.

Wanted
An experienced general servant
wanted. Apply at once at 526 Water
Street.

The Staff of Life
McQuay, Baple & Co's bread is pro-
posed to be first-class. Only 10c.
for a large loaf.

A Splendid Record
The following, in brief, is the re-
cord of the Metropolitan Life Insur-
ance Company during the year 1897.
Mr. Geo. Smith, the popular manager
for Peterborough and Lindsay, may
well feel proud of the showing made:
Income of 1897, \$22,981,257.19.
Gain over 1896, \$2,432,603.28.
Assets in 1897, \$36,570,078.91.
Increase for the year, \$5,741,111.02.
New insurance written, 1897, \$280,
773.123.

Net gain in insurance in force in
1897, \$96,319,257.
Number of policies in force Decem-
ber 31, 1897, 4,051,511.

Net gain in number for the year,
60,107.

The unavoidable conclusion from
these figures is that the Metropolitan
is in a class by itself.

It is the most "rapid" company on
the face of the earth.

This is made manifest by what it
does in a minute.

It paid \$45 a minute each business
day to policyholders last year. It
averaged 4600 policies issued; \$22-
280 new insurance written; \$42,015 in
payments to policyholders; and addi-
tion to reserve; \$18,762 increase in
assets.

It is a model of energy, promptness,
liberality and fidelity.

DISTRICT AND LOCAL TOPICS

Reporter's Phone, 164 B.

—There was a very small market yes-
terday.

—The soft weather spoils the sport
around the rink.

—The curler's competition for the
Dryden cup takes place in Lindsay on
the 22nd inst.

—The annual meeting of the Peterbor-
ough Presbyterian W. F. M. S. was held
in Port Hope Tuesday and Wednes-
day.

—Mr. Ogilvie's book on the Yukon
district has been placed on the market
by the publishers, Hunter, Rose & Co.
It will be handled by canvassers.

—The Ashburnham councillors are
considering the question of putting in
a waterworks system in the village for
fire protection.

—Three young men arrested on sus-
picion of stealing a sum of money from
Mr. T. Fitzgerald occupied the cells
last night. Their trial comes off this
morning.

—The annual meeting of St. Paul's
church was held last night. Officers
were elected and reports were sub-
mitted showing the satisfactory condition
of the church.

—The guarantee list is open for names
for the grand comic opera "The Isle of
Champagne" which will be at the Opera
House on the evening of the 21st inst.
It will be a treat for all lovers of music.

—At the meeting of the Quarterly
board of the Charlotte-street Method-
ist church held Tuesday night, a cor-
dial invitation was extended to Rev.
D. O. Cromley to remain another year
in the church.

PERSONAL AND SOCIAL

Mrs. Geo. Matthews and son Joe, of
Lindsay, are in town.

Mr. Herb. Middleton, insurance agent
Lindsay, is in town on business.

ALWAYS IN THE FRONT

Peterborough's Business Energy Recognized
in the West

Mr. R. W. Wilson, who for over a
year past has been travelling in the
mining districts of British Columbia in the
interests of American newspapers, is
registered at the Oriental Hotel. Mr.
Wilson says that the mining outlook
in the Kootenay country for 1898 is
excellent. New properties that have
hitherto been looked upon as prospects
will show results and the development
work of the past two years will begin
to speak for itself. Peterborough
says Mr. Wilson, is well-known all
through the mining country by the
fact of its being the headquarters of the
Wm. Hamilton Mfg. Co., who are
supplying more mining machinery in
the West than any other firm, and who
infact, appear to be the only Canadian
firm that can successfully compete with
United States manufacturers for Brit-
ish Columbia requirements. Mr. Wil-
son thinks that very few men will
leave the Kootenay districts for the
Yukon this spring, and the few who
have gone and are going are for the
most part not practical miners, but
part of the floating population that
attaches to every new mining excite-
ment.

COUNTY CONSTABLES MEET

Changes in the System Proposed at Lin-
dsey

The Executive Committee of the On-
tario Constabulary Association met at
Lindsay Tuesday afternoon and con-
siderable business was attended to. A
deputation was decided upon which
shall at an early date wait upon the
Governor and endeavor to better the
lot of the county constables by securing,
if possible, some amendments to the
County Constables' Act. They will ask
that in each county a board of com-
missioners be appointed composed of
the County Judge, the Crown Attorney
and the Sheriff or Warden. The duty
of these boards shall be to appoint all
county constables. This will take this
work out of the hands of the magis-
trates and county councils. An amend-
ment to the act will be asked for which
shall arrange the tariff fees, the book-
ing of warrants and the qualifying of
constables before appointment to the
staff. The Government will be asked
to compel the sheriffs of the different
counties to place uniformed men on
duty in the court-rooms during court
sittings. This will improve the ap-
pearance of the court and increase its
dignity.

A FEBRUARY WEDDING

Marriage of Miss Sophia Lamb and Mr. Ed.
Taylor

A very interesting event took place
last night at the residence of Mrs.
John Taylor, Reid street, being the
wedding of Miss Sophia Lamb to Mr.
E. M. Taylor. Rev. Mr. Cromley tied
the knot in the presence of a number
of the friends of the contracting par-
ties. The bride looked charming and
bridesome in a dress of purple silk
trimmed with white silk lace and chil-
dren. Miss Kate Boyce was bridesmaid,
while Mr. Harvey Taylor acted as best
man for his brother.

The ceremony over the whole party
enjoyed a sumptuous wedding supper,
after which an enjoyable evening was
spent.

After their trip the young couple
will take up their residence in Peter-
borough.

How to Cure All Skin Diseases

Simply apply "Swansea's Ointment." No
internal medicine required. Cures
eczema, scabies, itch, all eruptions on
the face, hands, arms, etc., leaving the
skin clear, white and healthy. Its
great healing and curative powers are
proved by no other remedy. Ask
your druggist for Swansea's Ointment.
Lymans, Sons & Co. Montreal, whole-
sale agents. Avoid substitutes.

For Sale
A Black Cocker Spaniel, 6 months old,
with white feet and breast and white
spot on neck. A suitable reward will
be paid for its return. E. A. PECK,
Ashburnham.

Just received from Sea Salmon, He-
bert, Smalls, Lake Superior; Trout and
White Fish. Best brands Baltimore
Oysters. J. R. OKS.

COUNCILLORS IN SESSION

A Joint Meeting of the Town and
County Councils

The claims of Ennismore Regarding a New
Bridge Over Mud Lake Discussed—The
House of Refuge

A joint meeting of the town and
county councils was held yesterday
afternoon in the council chamber to
discuss matters of common interest to
town and county, the chief of which
was the maintenance or re-building
of the Mud Lake bridge.

Those in attendance were Warden
Pearce, County Councillors Casement,
Middleton, Shaw, Brown, Peck, Ander-
son, and Eastland, and for the town
Mayor Davis, and Councillors Langford,
McWilliams, and Best. Ennismore
was represented by a large deputation
among whom were Reeve Costello,
Councillor Doran, and Messrs. P. F. L.
Jas. Ecoland, Mann, Telford, G. Gal-
vin, M. Cannon, J. Cannon, and W.
B. Kelly, Bridgeforth. They wished
something to be done by the town to
help build a filled-in bridge across Mud
Lake.

Addresses were made by Mr. Cos-
tello, Reeve of Ennismore, and Coun-
cillor Telford pointing out the impor-
tance to the town of having a suitable
bridge. A report of a public meeting
held at Ennismore was submitted at
which it was agreed that the township
of Ennismore would give a grant of
\$1200 towards the building of a filled-
in bridge, but nothing to a floating
bridge.

After much discussion Councillor
Langford submitted the following pro-
position: That the town will pay this
year one-half of the expenditures of
seeping up the Mud Lake bridge, the
town to be consulted regarding all ex-
penditures, and that the county en-
gineer procure information as to the
cost of a filled-in bridge and the best
place for it, etc., and that the county
and town send deputations to wait upon
the Dominion and Provincial Gov-
ernments to ask them to give grants
towards the construction of the bridge.

It was moved by Councillor Fitzger-
ald, seconded by Councillor Middleton,
that Mr. Langford's resolution be ac-
cepted by the county. Carried.
Mayor Davis named Councillors Mc-
Williams and Langford as the deputa-
tion to represent the town. Warden
Pearce named Councillors Casement
and Middleton to represent the coun-
ty. The Warden also suggested that
the Reeve of Ennismore be consulted
to appoint a committee from that town-
ship.

HOUSE OF REFUGE

The question of building a joint
House of Refuge for town and county
was also discussed. The county coun-
cillors expressed their willingness to
unite with the town in building a House
of Industry. Finally on the suggestion
of Councillor Langford it was agreed
to appoint committees to obtain infor-
mation in any way they deemed ad-
visable. The Warden named County
Councillors Anderson and Casement as
their committee, while the mayor named
Councillors McWilliams and Langford
to represent the town.

The meeting then adjourned.

THE LAST ELECTION

Official Returns for West Peterborough in
the Election of 1894

Below are given the complete returns
for this riding in the last provincial
election, as presented by the return-
ing officer. In view of the interest
taken in the present contest they will
be found very interesting. The vote
in each subdivision is given separately:

V. M. C. A. Work

The debating club of the Y M C A
meets to-morrow evening at 8 o'clock.
There will be an impromptu debate on
"Resolved, that an export duty be placed
on tea and on foreign goods." Arran-
gements will also be made for the open-
ing of the Mock Parliament, which
will occupy the next two Friday even-
ings.

Mother's Advice

Daughter Followed It and Re-
gained Her Health

Suffered Agony With Pains in the
Stomach—Hood's Cured.

The testimonials in favor of Hood's Sar-
saparilla are as worthy of confidence as
though they came from your most trusted
neighbor. They are written by honest
people who are grateful for the cures ac-
complished by this wonderful medicine.
Read this statement:

"I was afflicted with severe pains in my
stomach from which I suffered much
agony at times. I was afraid to go any
distance from home for fear of having an
attack. I was treated for neuralgia of the
heart without avail. At last my mother
wrote and urged me to try Hood's Sar-
saparilla. I have her letter before me at the
present time and it reads as follows: 'My
dear child, it grieves me to learn that you
suffer so with your stomach. Do get a
bottle of Hood's Sarsaparilla and let me
know the result, for I am confident
It Saved My Life.'

I am glad to state that I abided by my
mother's advice and am now healthy and
strong. I never think of being without
Hood's Sarsaparilla in the house. It is a
great help to mothers while nursing. I
have given it to my baby with satisfactory
results. I cannot state all I would like of
the many benefits I have known Hood's
Sarsaparilla to give to other sufferers. I
gladly recommend it." Mrs. JOHN LA
PAGE, 240 Church St., Toronto, Ont.

RICHER THAN KLONDIKE

Fabulous Find of Gold on the United States Side of the Line

A Rush to the Yukon Territory Expected—Good People in Victoria Make the Find

Vancouver, B. C., Feb. 10.—A fabulous find is recorded to-day on an unknown creek on the United States side in the Yukon territory.

Fritz Behnson, of Victoria, B. C., writes his brother Karl: "We have struck it rich on an unknown creek across the border, never before seen by man. In the crevices of the rock in one day we picked up \$50,000 in coarse gold. Sell your business, or give it away, and come quick, with ten men."

The Behnsons have large business interests here, and are thoroughly reliable. The news spread like wildfire, and a stampede to the United States side will result as soon as the locality is located.

The Behnsons have large business interests here, and are thoroughly reliable. The news spread like wildfire, and a stampede to the United States side will result as soon as the locality is located.

HIS DEATH CONFIRMED

BARRIOS WAS ASSASSINATED BY A GERMAN NEAR HIS PALACE

Special to the Times.

New York, Feb. 10.—The assassination of President Barrios, of Guatemala, is confirmed by a telegram to the Herald from Panama. The dispatch says: "The assassination took place at 7 o'clock last Tuesday night within 150 yards of the President's palace. The assassin is a German, named Oscar Solinger."

S. Mallet-Prevost, who returned recently from Guatemala, where he spent several months in an interview recounting the circumstances which in his opinion resulted in the assassination of President Barrios. "The first financial blunder of Barrios," he said, "was the Central American expedition, which cost Guatemala a great deal of money and which brought no corresponding benefits. Another enterprise, which exhausted the available funds, was the railroad projected to connect the capital with the eastern coast. As his term of office expired his close he declared himself dictator."

The revolution which swept the country last fall is a matter involved in mystery. There are those who say the President was cognizant of it before it began, and in a certain sense responsible for it. After the arrest of Senor Aparicio, the Government troops being in possession of Quetzaltenango, the revolutionists made but a faint effort to take the city. That the city was taken and that the Government troops were driven out was due, not to the revolutionists, but to the people of the city, who rose in a body to repulse the invaders.

The shooting of Aparicio was a grave political blunder on the part of Barrios and arrayed against him the best element of the country. A feeling became general that his administration was not to be trusted and a sense of impending danger seemed to pervade the whole country."

A PITTSBURG HORROR

Fire in Which Fifteen People Were Killed

CRUSHED BY THE WALLS

Which Fell and Buried People in the Ruins

Explosion of Whiskey Augments the Destruction—More People Being Recovered From the Debris

Pittsburg, Pa., Feb. 10.—A fire of mysterious origin was discovered about 8 o'clock this evening in the six-story cold storage plant of the Chattanooga Lake Ice Company. The entire building will probably be destroyed, together with about a million dollars' worth of merchandise of all kinds stored within its walls.

An explosion of whiskey occurred at 11.15, which blew out the alley wall on one side with terrible results. At the time the alley was filled with firemen, policemen, newspaper men and others. Many were caught by the falling walls.

There are rumors that at least 25 or 30 men are still under the debris. Six dead have been taken out, among them Police Captain Berry. The other five bodies are at the morgue unrecognized as yet. Many people were injured by flying bricks and beams and all the ambulances and patrol wagons of the city are in constant service.

FIFTEEN KILLED

The loss of life and destruction of property by the fire at Thirteenth and Pike streets last night was the greatest in the history of Pittsburg. At least 15 persons were killed, over a score injured, and property valued at one and one-half million dollars was destroyed. Some of the heaviest individual losses are: The Economy Distilling Company, eight thousand barrels of whiskey, worth \$750,000; Monongahela Textile Company, wool dealing 125,000 pounds of wool; Collins Cigar Company, 25 carloads of tobacco; W. M. Williams, commission merchant, twenty carloads of sugar. These losses are covered by insurance.

THE FIRE DESCRIBED

It was just about 7.55 o'clock last evening when smoke was seen issuing from the fourth floor of the Union Storage Company's building on Pine street near Thirteenth. The building was six stories in height and occupied almost the entire block between Twelfth and Thirteenth streets and Pike street and Mulberry alley. Immediately upon the discovery of the fire an alarm was sent in and was responded to promptly, but owing to the construction of the building it was practically impossible to fight the fire from without, while the volume of smoke in the package division in which the fire occurred made it impossible to fight it from within. The only openings in the three fire walls dividing the great buildings were closed by heavy iron doors and these were locked.

FATAL EXPLOSIONS.

For three hours the firemen worked, scarcely knowing what they were doing. The iron shutters were impregnable to their attacks; finally at 11 o'clock the flames burst out through the roof and shot upward a hundred feet, making that part of the city light as day. Suddenly the rear of the flames and the puffing of the fire engines came the first explosion. Those within the fire lines were seen to fall in all directions. Those outside the lines were not beyond the reach of danger. Those not protected by the first blast were killed as day. Suddenly the rear of the flames and the puffing of the fire engines came the first explosion. Those within the fire lines were seen to fall in all directions. PETERBOROUGH, FEBRUARY, 11 1898

It seems to be a case of "I, Stratton," and "Electric Garvin."

Every division will "render a good account of itself" on election day.

Many a man seeking re-election must think the voting public the hardest masters in the world.

Mr. Garvin has great facilities for insuring lives, but his tender political life needs insurance most of all.

One aged joke has been retired from commission. A St. Louis pedestrian slipped on a banana peel—and died.

If Mr. Whitney's meeting will have the same effect as that of Mr. Ross, Mr. Garvin had better not bring him.

What has the Ontario Opposition done to merit the support of the Temperance people? Can anyone answer—Hamilton Templer.

As far as the Times is concerned it believes that the only place to draw the line in the punishment of murderers is around their necks.

A Sunday school teacher at Turtle Creek, Pa., promised to marry one of her Chinese pupils. Then she backed out. Now she is to be sued for breach of promise. Who says the Mongolian is incapable of reaching the highest flights of our civilization?

The bitterness of Ferguson's letter in the Review makes one think of the quotation: "Hope is a slave; Despair a freeman." He has so little hope.

When the Conservatives in the Commons are not scoring the Government they devote their time to roasting their old war-horse. He is horse-meat for them.

It is well that Mr. Stratton has connection with a bookstore as he is apt to throw the volumes around in a rather hasty manner when through with them.

The Examiner says if office lasts no longer than the cash, under Conservative management, their day will be short. Perhaps that is because the cash is a little short.

The Bob-a-goon Independent says that Mr. Stratton has an assured majority in West Peterborough. It must have been reading the Examiner. Peterborough people do not see the election as an assured matter by any means.

How the party managers are shrieking about the great result if the electors only do their duty. A manager's idea of a voter's duty is that he should vote for the party man, right or wrong. This is loyalty to party but not duty to country.

Every night Mr. Garvin is in town he will walk into his committee room at 9.45 and be received with ringing cheers (perhaps because the chairman "rings" them in). Every night Mr. Stratton is in the country there will be found meetings "solid" for him. Read the evening papers (if you can stand to) if you don't believe it.

Al little girl, daughter of a prominent Liberal, and who had been taught to pray for everybody recently startled her mother one evening by her devout prayer, as follows: "Now, oh God, take care of yourself; for if we lose you, we shall only have Laurier left to take care of us, and he is not doing as well as papa expected he would do."

SHE GUESSED IT QUICKLY.

Bixby's Unfortunate Attempt to Invent an Enigma.

There is nothing sadder to take Bixby down town the other night, so he decided to stay at home and give Mrs. Bixby the rare treat of his company for the evening.

While glancing over the paper, as she sat sewing, Bixby thought how happy she must be at being allowed to bask in his presence, and later on, in a burst of amiable generosity, he decided to even bestow upon her an intellectual treat. He had, after reading the advertisements, cast his eye upon the puzzle column of the paper, and the thought was born in him to spring upon her a puzzle, originated in his own head.

After long study he concluded to invent an enigma. He decided upon the word "Poe," an easy one, suited to Mrs. Bixby's feminine and therefore feeble perceptions. The enigma was to be a three word in which the letters of the name were found, and to what up with "My whole is a well known poet."

"What?" said Mr. Bixby, suddenly and explosively.

Mrs. Bixby warred out of her dreamy state of mind, and almost dropped her sewing.

"What is it, dear?" she asked.

"I have three letters," said Bixby, distinctly and in a very low voice. "My first is in 'p' ect, but not in 'b' at; my second is in 'p' ect, but not in 'b' at; my third is in 'p' ect, but not in 'b' at; my whole is a well known poet."

FANTASTIC VAGARY.

A PUBLIC MAN WHO CONSULTED THE OUIJA BOARDS.

This is One of the Grounds on Which It is Brought to Show That He Was Incapable of Making a Proper Will—The Estate Involved is a Large One.

The Ouija board, that curious little device which attracted so much attention and furnished so much amusement to many people a few years ago, has got into the courts. It is cited as evidence of a man's mental weakness and his incapacity to make a proper will. This man was Charles M. Pond, once State Treasurer of Connecticut, a Senator in the same State and a director of the New York, New Haven & Hartford Railroad. A suit is now under way in New York to break his will. It was instituted by his brother, Asa Phelps Pond.

Among the property which Charles M. inherited from his father was the Prospect Hill farm, on the outskirts of the city of Hartford, and this, with about \$450,000 worth of other realty, he willed to Hartford. The disputed farm or homestead which Hartford proposes to turn into a public park, is now valued at about \$850,000.

The claim is made by the contestant that his brother had no right to devise away this tract, and counsel bring forward his father's will in substantiation of this position, and quote that part of it which reads: "And it is my express desire that my son, Charles M. Pond, will not alienate or sell my farm known as the 'Prospect Hill Farm,' but that the same may descend and be from time to time devised to my lineal descendants."

Among the testimony already introduced is that of Mrs. Frank A. Porter, a sister of the Pond's, which it is said would be of great value in the case.

In his public career Charles M. was known only as a man of rare judgment and brilliant parts, but it seems that for some time previous to his death his mind was clouded or weakened by disipation, and he displayed oddities of intellect that were entirely at variance with his character as a public man and all but his intimates knew it.

According to Mrs. Porter's statement, some of the evidence that would be important and valuable as corroborative proof has been deliberately destroyed. The destroyed evidence consisted of works on Spiritism and the several Ouija boards that were the property of Charles M. Pond, and were used by him. It is said that the dead man was a firm believer in Spiritism and was an easy dupe of mediums. Luther R. Marsh was not more thoroughly fooled by Miss De Bar than he was by the men and women who pretended to be able to rematerialize those who had passed to the shining shores.

After the death of his wife, it is said, he was almost constantly under the influence of his friends, and had implicit confidence in the oracular qualities of the Ouija board which is a rudimentary sort of planchette. In the latter case the spirits are supposed to communicate with their friends in the flesh by means of writing, in the former the planchette is supposed to be a small heart-shaped bit of wood, mounted on two tiny legs with casters, and having for the third leg a pencil. When the little table is placed on a sheet of paper and the hands are permitted to rest lightly upon it, the pencil moves, and some people pretend that the lead-marks made by the pencil are legible messages, and they go through the solemn formality of reading them.

Charles M. Pond had several of these Ouija boards and he consulted them dozens of times a day. Through them he communicated with his dead wife. The story is told that often he would arise in the midst of a group of friends, excuse himself and hurry off to another room to ask Ouija certain questions.

These Ouija boards with all of his brother's Spiritistic books, Mrs. Porter says, she burned. Her statement is that she went to the office of one of the executors of the will and to his absence obtained from his father, who drew up the will, permission to remove the books and boards from the house, which she did and made a bonfire of them.

This is only one of the strange proceedings of the executor, it is claimed.

There is a great deal of mystery about the proceedings and a whole lot of mystery, but the plaintiff feels confident that he will be able to show the mental infirmity of his brother to make a will as well as to clinch his own right to the disputed part by the restricting clause in his father's will, which insists that the property shall not be devised away from the family.

The disputed habits of Pond's brother have been pretty well established. He seems to have had a wild and terrible mania for morphia and administered it to everybody and everything on his place, even the dogs. The Ouija board weakness, though, appears to be the most fantastic of all his vagaries.

Tactless in the Dead.

A colonel in the French army, who had a great eye for business, but not much of an ear for music, took occasion one day to compliment his bandmaster on the appearance of his men. Their uniforms were neat, said the colonel, and their instruments are nicely polished and kept in order, but there is one improvement that I must insist upon.

"What is it, colonel?"

"You must train your men, when they perform, to lift their fingers all at exactly the same time and at regular intervals on their instruments, so—once, two, one, two!"

The Military College.

The Kingston Military College is a very expensive luxury to the people of Canada, and some of the items we have to pay for are very peculiar. An open glass, \$2.25; Prince of Wales hunting belt, \$2.00; emigrant's knife, \$1.25; trout rod, twelve feet long with three joints, \$2.00; a horse tambo, \$2.75. The college cost, as \$70,000. No wonder there is a deficit—Brockville Recorder.

A Scientific Request

"Well," remarked the gentleman to whom Fred Teddy had applied for enough coin to secure a drink, "you are the most perfect specimen of the genus homo I have ever seen."

"Yes, dat's right," returned Teddy, "an' it's for dis reason I'm tryin' to preserve myself in alcohol. Can't you help me out?"

He got the dime.—Cincinnati Commercial Tribune.

Fractions.
"Suppose," suggested the teacher, "that you take a piece of beefsteak and cut it into halves, then cut the halves into quarters, the quarters into eighths, and the eighths into sixteenths, into what could the sixteenth be cut?"

"Hash," responded Tommy, whose mother kept a boarding house. And the class in fractions was dismissed.—London Tid-Bits.

Planet Discoveries.
Three more small planets were, it appears, discovered by M. Chacabada on December 31, making it all recent announcements are verified, 20 discoveries for 1896, and a total of 429. Twenty years ago only 169 were known.

Once the fire of love in a man's heart dies out, it can never be rekindled with the same sort of fuel that caused it to blaze up at first.

WHEN PLANNING GIFTS.

Make One of These Very Handy and Satisfactory Needle Cushions.

When in haste to do a little mending or other sewing, did you ever look in vain for a needle in the cushion which you supposed contained a full supply? Closer examination reveals the fact that the interior of the cushion is full of them, but you do not care at such a time to press them up into sight, and you feel like saying as I have done many times, why do people make such thick cushions? Whether the needles are run in horizontally just through the surface, or stuck in upright, they soon disappear, and woe to the fingers that give the cushion too quick pressure. A cushion especially for needles is one of the conveniences of a well equipped sewing table, and greatly to be preferred to a needle book for use when one is sewing. If the needles are always stuck into it whenever not in use, instead of running them into the edge of the table cloth or the front of your waist or leaving them wherever it is hardest to drop them many less needles would disappear only to be found in some one's foot, and many finger pricks would be prevented. I recall two people who if they were to spend a morning at my sewing table unknown to me, would surely betray the fact of their presence there by the numbers of needles they would scatter about the floor. It is not so much the value of the needles, although this is almost equal to its weight in gold if it be the only one of its kind, as in often the case in some scantily furnished work-baskets, which I have seen. Put a needle lost is like an unseen foe—you never know when it may appear, and it should always be diligently sought as soon as it disappears.

After the annoyance of using all sorts of "Charity Fair" cushions and gifts which kind meaning friends thought would suit me, I determined to try what my own fingers could fashion. Although it was nearly bedtime and the mending basket was not yet emptied, I knew the value of the inspiration of that moment. I quickly found a thin past-board box, about three inches long, two inches wide and a little less than an inch high, one of the kind in which the box slips into the cover from the ends. I cut the two out of the cover and put it on the bottom, then set the box into this, thus having three thicknesses of cardboard at the bottom and two at the sides. Pieces of an old merino stocking were cut the exact size of the box and laid into the inside until well stuffed. From a piece of silk plush were enough to cover the box and sides, squares were cut out from the corners, the plush was then fitted on with a few over stitches at the corners and another piece was fitted to the bottom of the box and caught along the sides. A ribbon of the same shade and just the right width, happened to be in my mending basket; this was drawn round the edge and finished at one end with a bow. In less than half an hour my thought was complete and my ideal needle cushion was ready for use. The smallest needle will not sink more than two-thirds of its depth, as the card board is an effectual barrier, yet it is not hard enough to dull the points. The woolen stuffing prevents the needles from rusting and can never become rancid like meal. The cushion is light yet solid enough to keep on its base. Is of uniform thickness, and has been in every way satisfactory.—American Kitchen Magazine

Swiping With Air

One of the greatest aids to the modern housekeeper is the pneumatic sweeper. This surprising new invention, which nobody seems to claim the honor of having discovered, and which is, therefore, open to all manufacturers, relegates the broom to the garret and takes the place of the mechanical carpet sweeper, which a few years ago was thought to be perfection.

All that is necessary to fit the pneumatic sweeper to any hotel or private house is a pipe connection for compressed air. The new sweeper consists simply of a long nozzle attached to the end of a rubber hose. The nozzle is about the same size as a broom handle.

One end of this pipe is inserted into the rubber hose, and the other carries a brass arrangement about a foot in width across the face. Here there is a narrow slit running from side to side, and not more than 1/32 of an inch in width.

Through this narrow aperture the compressed air is forced at the rate of seventy-five cubic feet a minute. The housemaid using the pneumatic sweeper passes it back and forth over the surface of the carpet.—New York Herald.

Around the House.

To remove fruit and vegetable stains from white cotton and linen, wash in weak chloride and then in clear water, or hold the stained portion, dampened, over sulphur fumes and then rinse in clear water.

The best housekeeper is apt to encounter stains somewhere. For all sorts the following recipe is said to be without a peer: Put a piece of white amber the size of a walnut, a piece of potash as big as a baseball, and two lemons cut in slices into two quarts of clean spring water. Let it stand twenty-four hours; then strain the spot with it and wet the place with fresh water directly afterward.

Novelties in the China Shop.

Patty cups set on silver standards are among the expensive trifles one may buy for Christmas gifts. The cups are of delicate china and fasten firmly into the silver standholders.

Pretty Dresden toast racks replace the plain silver ones in many up-to-date shops. They are much more decorative than the old-fashioned metal ones, and are much more easily kept clean.

Powdered sugar boxes of fine china are pretty and inexpensive. The broad, perforated top covers on firmly, and there is a graceful handle to make easy the act of sweetening the morning breakfast cakes.

WHEN THEY WERE LADS.

Edison was famous for his inventions when 15.
Macdonald was a member of Parliament at 15; at 16 one of its leaders.
Poe was a poet at 16; at 16 he wrote "The Raven." He died at 24.
Byron wrote poetry at 15. At 16 his masterpiece, "Childe Harold," was published.
Longfellow's first poem was published at 15. At 16 he was ranked with our best poets.
Shakespeare left school at 14, Clay at 14, John Bright at 15.

Scott entered the fair realm of literature at 15. At 16 he was the most popular poet of the day.

Galileo discovered the isochronism of the pendulum at 15. When 23 was the most famous astronomer in Europe.

Byron's first poems appeared at 15. At 16 he reached the highest pinnacle of his literary fame.

Wilberforce entered Parliament at 21. William of Orange commanded the army on the French frontier at 20.

Burns' first volume was published at 17. At 20 critics conceded him to be the most richly endowed by nature of any living poet.

Napoleon at 17 commanded the army in Italy. At 25 was Emperor. Saw Waterloo at 41.

Tennyson at 15 took that high stand among the poets he held till his death.

WHAT SALT CAN DO.

Salt in whitewash makes it stick.
Salt puts out fire in the chimney.
Salt in solution inhaled cures cold in the head.

Salt used in sweeping carpets keeps out moths.

Salt as a gargle will cure soreness of the throat.

Salt thrown on a coal fire which is low will revive it.

Salt and soda are excellent for bee stings and spider bites.

Salt and vinegar will remove stains from discolored tea-cups.

Salt in water is the best thing to clean willow-ware and matting.

Salt thrown on soot which has fallen on the carpet will prevent stain.

Salt on the fingers when cleaning towels, mats or fish will prevent slipping.

Salt put on ink when freshly spilled on a carpet will help in removing the spot.

Salt in the oven undertaking time will prevent their scorching on the bottom.

Salt thrown on a coal fire when boiling steak will prevent blanching from the dripping fat.

FOREIGN NOTES.

A road-scraper of Dartford, England, recently ran over and seriously injured while at his work, was a Belaklava veteran, wearing the Queen's medal for bravery in the famous charge.

The weight of the French cavalry saddle will be reduced nearly three pounds by the substitution of aluminum for steel in portions of the tree and stirrups.

The estate of Veturino, the old historical residence of Massape, the Heisman of the Ukraine Cossacks in the government of Kiev, once famous for its beauty and splendor, has now fallen into ruin and decay.

Regulation and protective tariffs appear alike powerless to sustain the ship-building industry of France against the competition of England. Out of ninety-six sea-going vessels registered at Bordeaux only twenty-two are of French construction.

London has called the roll of deaths by starvation in 1897 and they number fifty-one, from which it would appear that London charity is as too much occupied with the heathen.

Inferno.

Guerrilla Boarder.—For ten years my habits were as regular as clock-work. I rose at the stroke of 6; half an hour later I sat down to breakfast; at 7 I was at work, closed at 12, ate supper at 4, and was in bed at 8.30; one only heavy sleep, and wasn't ill a single day.

Saracenic Boarder.—Dear me! And what were you in for? (Awful silence.)

EMISSIONS

Varicose, Syphilis, Weakness and Disordered Men Cured.

20 Years in High 40 Years Experience
250,000 CURED.

Thousands of young men are made nervous wrecks, unfit for business, social pleasure or home duties by evil habits in youth. Later causes, or private diseases. W. G. Andrews, of Akron, O., says: "I read this paper and have seen many reports of remarkable cures made by Dr. Kennedy and Kergan. I decided to treat with them. Indiscreetly one the cause of my trouble. I was weak and nervous; no ambition; back weak; pimples on the face; thin and fragile; eyes dim and weak; no energy; dry poor; varicose and weak parts; irritable; shaking spells; speaks before the eyes; lack of confidence; no energy; and many other complaints. I had tried fourteen doctors, bought four electric belts, took scores of bottles of patent medicines—all failed. I tried the New Method Treatment of Dr. Kennedy and Kergan, and it cured me. I am a man again. I have gained twenty-six pounds and am strong, healthy, physically and mentally. It is a wonderful treatment."

Blood Diseases—with the worst symptoms: Ulcers in the mouth or on the tongue, blotches, eruptions, hair falling out, nose pains, eyes red, stomach troubles, sore throat, etc., positively cured. You have a money worth saved. Cures guaranteed or no pay. We cure by the New Method, Kennedy & Kergan, (Chicago) (Peterborough, Wash. Post, Cleveland, Pittsburgh, Wash. Post, Boston, New York, etc.)

If unable to call, write for Question Book for home treatment. Everything confidential. Nothing sent C. O. D.

Morning Times

PETERBOROUGH, FEBRUARY 11, 1898

The Rights of Labor.
The desire to get something for nothing is just as passionate in one division of society as another. I have known reformers who, carrying on a feverish crusade against existing wrongs, have been willing to take from poor people who could ill afford to part with it, a daily stipend equal to the day's wages of twenty wage slaves, whose sufferings they deplored and whose emancipation they sought to attain—in addition to their board and lodging. Yes, and when the stipend dropped off and they had an opportunity to continue their arduous labors in the slaves' behalf on the bed-and-board basis, their fervor has suddenly cooled off and their interest collapsed. Yes, and I have known "slaves" who, lustily yelling for freedom and higher civilization, have scarcely done anything more all their lives than whistle a sick, guttural note, "wager on the job," and all the while imagine themselves model citizens for the co-operative commonwealth. No man has any rights, in any true society, without duties to perform. What is the little understood in any society or division of society is, not so much the rights of human beings, as their duties. No human being has a right at the table unless he helps to provide for it. No human being has a right to clothes unless he has earned them. No human being can live the life of a parasite and enjoy all the privileges of a producer. He has no right to the privileges—Sevenoaks, in The Coming Nation.

The Proof-reader's Version.
The old proof-reader was holding forth upon the question of typographical errors and their occasional influence on posterity. "The word 'hoodlum' is an instance of this," he said, as he knocked the ashes out of his pipe. "Out in San Francisco twenty-five years ago there was a notorious character named Muldoon, who was the leader of a gang of young ruffians. They were a terror to the community, and about as tough a lot of citizens as you could find on the coast. A reporter who had been assigned to a story in which they had figured, undertook to coin a word designating the gang. He reversed the name of the leader and referred to them as 'hoodlums.' The compositor mistook the 'n' for an 'h' and an 'hoodlum' the word passed the proof-reader, and now 'hoodlum' is a recognized word, and will probably survive."

Big Bridges.
The following table gives the lengths of the principal bridges in various countries: Tay, Great Britain, 698 feet; Forth, Great Britain, 552 feet; Neerdyck, Holland, 4820 feet; Volga, Russia, 4715 feet; Weichsel, Germany, 4341 feet; Theiss, Germany, 4172 feet; Grandes (Elbe) States, 2830 feet. The greatest single span of the Forth bridge is 1725 feet; and of the East River (Brooklyn) bridge, 1601 feet between the towers.

By What Means is Fixed.
"Habit" is hard to remove. If you take away the first letter, "a bit" is left. If you take off another letter you still have a "bit" left. While if you take off another the whole of "bit" remains. If you remove another it is not "bit" actually fixed up. All of which goes to show that if you wish to get rid of a bad habit you must throw it off altogether.—The Weekly Roundup.

Piles! Piles! Itching Piles!
Symptoms—Moisture intense itching and stinging; must at night; worse by scratching. If allowed to continue tumors form, which often bleed and ulcerate and become very sore. Swayne's Ointment stops the itching and bleeding, heals ulceration, and in most cases removes the tumors. All druggists, or by mail, for 50 cents. Dr. Swayne & Son, Philadelphia. Lyman Ross & Co., Montreal, wholesale agents.

Miss Debate—Why do they talk so much about the immortality of the bicyclist?
Mr. Catchy—Because there are so few upright riders, I presume.

Very Doubtful Comment.
"My wife," said the man who wanted to air his private history, "actually thinks more of a little idiotic, sausage-shaped dog we've got than she does of me."
"And I'll venture to say," said the man with a talent for saying mean things, "that it isn't much of a dog at that."—Indianapolis Journal.

So Common.
"No, we don't permit our names to go in the directory, you know."
"And why not?"
"So deuced common, don't you know. Why, last year my name was sandwiched in between a garbage collector and a city councilman! It's a fact, 'pon honor."—Cleveland Plain Dealer.

Vain Regrets.
Mr. Cawker—You and I were born too soon, old man.
Mr. Cawker—What makes you say that?
Mr. Cawker—What a pudding a horseless carriage would have been when we were courting!—Judge.

A Sister.
"The warmest day that I can remember," said the old wag reminiscences, "was one in August, 1886. On that day it was so all-fired hot that, going out of the room for a minute, when I returned my father was smoking."—Philadelphia North American.

Something Nice and Warm.
Bobbie—Ethel, mamma has just promised me something nice and warm. Give me half your candy and you can have it.
Ethel—Here's the candy. Now, what is it?
Bobbie (munching)—A spanking.—Life.

The Hateful Thing.
She—No, I won't sit out on the piazza with you unless you promise not to try to kiss me.
He—I'll promise, if you insist; but remember, Miss Mollie, that I am a man who never breaks a promise.—Cincinnati Enquirer.

That Was All.
"You two attorneys look like brothers," said the client to the partners in a law firm.
"But we are not," replied one.
"No," added the other. "We are only brothers in law."

Pretty Fly.
"I want a suit I can fly round in," said the woman who had just come in. "Here's something gaudy," said the pale tradesman, who was not above being funny when he was in no danger of being found out.—Detroit Journal.

Non-Com.
First Lawyer—You are a shyster!
His opponent—And you are a black-guard!
The Court—Now, gentlemen, let us get at the dispute of point in the case.—Philadelphia North American.

How to Cure All Skin Diseases.
Simply apply Swayne's Ointment. No internal medicine required. Cures scabies, eczema, itch, all eruptions on the face, hands, nose, &c., leaving the skin clear, white and healthy. Its great healing and curative powers are possessed by no other remedy. Ask your druggist for Swayne's Ointment. Lyman, Ross & Co., Montreal, wholesale agents. Avoid substitutes.

Bad Blood Is a Good Thing

to be rid of, because bad blood is the breeding place of disgusting and dangerous diseases. Is your blood bad? It is if you are plagued by pimples or bothered by boils, if your skin is blotched by eruptions or your body eaten by sores and ulcers. You can have good blood, which is pure blood, if you want it. You can be rid of pimples, boils, blotches, sores and ulcers. How? By the use of

Ayer's Sarsaparilla

It is the radical remedy for all diseases originating in the blood. Read the evidence:
"Ayer's Sarsaparilla was recommended to me by my physician as a blood purifier. When I began taking it I had boils all over my body. One bottle cured me."—BONNIE CHART, Weston, Mass.
"After six years' suffering from blood poison, I began taking Ayer's Sarsaparilla, and although I have used only three bottles of this great medicine, the sores have nearly all disappeared."—A. A. MANNING, Houston, Texas.

The Bedouins
I heard that the Bedouins gave me the name of the walking Englishman and once or twice were kind enough to say that I was one of themselves. Trifles like these are important when dealing with men who have the minds of children. With them whether you are to live or die depends so often on a trifle that it is as well to have as many trifles as possible in your favor. I wore their dress in my trip to Siwa not with the idea of taking any one in at close quarters, but of making myself unnoticeable at a distance. I generally walk about some way in front of my men and camels. I did this because the incessant drone of the Arab songs became intolerable to me, and as I found Abdullah couldn't possibly get on without his eternal song I used to put a mile between us when the track was clear.

Once or twice, on reaching the bow of a sand-buff, I would find myself in sight of a string of camels. The first thing the Bedouins would do was to load and hold their flintlocks at the ready. They meant no harm. It is the ordinary etiquette of the desert, at which no one dreams of taking offense. Then I would have to sit down to show that I meant no mischief, and conversation would be carried on in shouts. I generally asked them for a bowl of camel's milk, which they always gave if they had it. On one occasion I came upon a solitary Bedouin watching his herd of camels grazing. This man had probably not seen a human being for weeks. He was squatting on the ground. He neither moved nor turned his head. I asked him for milk and he pointed to his camels and said, "Take it." As the art of milking camels is never formed part of my school curriculum this invitation was of little use to me. But I couldn't refuse that man to more active hospitality. He probably looked upon my appearance as an impertinent intrusion.

C. E. McFREDSON, Asst. Genl. Pass. Agent, TORONTO.

Intercolonial Railway OF CANADA.

The direct route between the west and all points on the Lower St. Lawrence and Baie des Chaleurs, Province of Quebec, also for New Brunswick, Nova Scotia, Prince Edward and Cape Breton Islands, Newfoundland and St. Pierre.

Express trains leave Montreal and Halifax daily—Sunday excepted—and run through without change between these points.

The through express train cars of the Intercolonial Railway are brilliantly lighted by electricity and heated by steam from the locomotive, thus greatly increasing the comfort and safety of travelers.

The popular summer sea bathing and fishing resorts of Canada are all along the Intercolonial, or are reached by that route.

Canadian-European Mail and Passenger Routes.
Passengers for Great Britain or the Continent, leaving Montreal Sunday morning will join outward mail steamers at Rimouski the same evening. The attention of shippers is directed to the superior facilities offered by this route for the transport of flour and general merchandise intended for the eastern provinces, Newfoundland and the West Indies, also for shipments of grain and produce intended for the European market, either by way of St. John or Halifax.

Tickets may be obtained and all information about the route, also freight and passenger rates, on application to E. KING, Ticket Agent, Sparks St., Ottawa.

J. W. ROBINSON, Eastern Freight and Pass. Agt. 21st May, 1897.
128 St. James St., Montreal.
P. FOTTINGER.

READ WHAT PHYSICIANS SAY OF

POND'S EXTRACT

PHILADELPHIA,
Dec. 29, 1894.
I have used "Pond's Extract"
for many years and always in-
sist upon my patients getting
"Pond's," not the ordinary Ex-
tract, which is often a very poor
article. W. K. BROWN, M. D.

PHILADELPHIA,
Jan. 9, 1895.
I use Pond's Extract a great
deal in my practice. I think it
very valuable in all venous en-
largements. J. L. BRADFORD, M. D.

SANTA BARBARA, CAL.,
Nov. 27, 1894.
I have been using Pond's Ex-
tract in my practice for twenty
years. I frequently have the ex-
perience you mention of drug-
gists insisting they can put up
as good as yours. I don't be-
lieve it. I use Pond's Extract a
great deal as an antiseptic in
combination with glycerine and
carbolic acid. I think it far su-
perior to any antiseptic known.
F. G. FLOURNOY, M. D.

COLUMBIA, PA.,
Jan. 18, 1895.
I have been a constant user of
Pond's Extract since 1854, and
do not expect to discontinue it
while I live. S. ARMOR, M. D.

CHELSEA, MASS.,
Nov. 8, 1894.
I have made diseases of the
skin a specialty for thirty years,
and am free to say I know of no
remedy that has given me such
perfect satisfaction as Pond's
Extract in cases for which it is
recommended. G. W. BABCOCK, M. D.

ASTHMA'S INSTITUTE,
Buffalo, N.Y., Dec. 8, 1894.
I know Pond's Extract to be
a valuable remedy, and shall
continue its use whenever the
opportunity offers. GEO. H. CALKINS, M. D.

NEWARK, N. J.,
Dec. 13, 1894.
I am pleased with the purity
and strength of Pond's Extract.
J. L. DURYEA, M. D.

POND'S EXTRACT is used
by the leading physicians and
principal hospitals of America
and Europe.

3,000 ORDERS FROM PHYSICIANS
WITHIN ONE MONTH DURING
LAST AUTUMN.

POND'S EXTRACT is un-
rivalled for Cuts, Burns, Bruises,
Colds, Catarrh, Piles, Inflamma-
tions, Hemorrhages and all Pain.

Send for Pamphlet (free).
POND'S EXTRACT CO.,

MAYOR'S OFFICE.

Mr. Davis will be at the Town
Offices, from 9 to 10 o'clock, each
morning to meet those having busi-
ness to transact.

A. L. DAVIS,
Mayor.

Morning Times

PETERBOROUGH, FEBRUARY 11, 1898

TOWN AND COUNTY NEWS.

Delightful Pastry
McQuay, Baple & Co., are selling the
most delightful pastry in town. Op-
posite Adam Hall's.

Wanted
An experienced general servant
wanted. Apply at once at 525 Water
Street.

One on the Officer
A yarn on one of our policemen is
going the rounds and is vouched for
—we won't say by whom. While pat-
rolling his beat a couple of Saturday
nighters ago his keen eye fell upon
the figure of a man lying in a door-
way just around Hunter street corner
off George. It's against the rules for
drunken men to sleep upon doorsteps,
so the cop approached, and giving the
slammer a kick on the foot, exclaimed
"Get up and get out of here or I'll
look yer up." Receiving no answer he
gave the prostrate drunk a sound
whack over the head with his club. Even
this made no impression, and he sud-
denly conceived the idea that the man
had frozen to death. He stooped, and
lifting the figure took a sharp look
in the supposed drunk's face. He
discovered, to his disgust, that the man
was simply a wooden dummy which a
number of practical jokers had taken
from George Bros. clothing store and
placed in the doorway to fool the offi-
cer. They were waiting around the
corner to "give him the laugh" when
he fell into the trap.

APPETITE AND STRENGTH.
"I have been a victim of indiges-
tion, and I took medicine without re-
sult. I resolved to try Hood's Sarsa-
parilla. After taking one bottle I
found that my appetite was better and
I had more strength. I am now able
to eat heartily without any distress
whatsoever." Mrs. Geo. Kirkpatrick,
Windsor, Nova Scotia.

HOOD'S PILLS cure all liver ills.
Sold for 25c by C. I. Hood & Co.,
Lowell, Mass.

DISTRICT AND LOCAL TOPICS

Reporter's Phone, 164 B.

—The sleighing is getting very poor
around town.

—The snow plows were out yesterday
clearing away the slush.

—A solitary tramp rested at the
Police station last night.

—A pleasant hop was enjoyed at the
Little Windsor last night. A good at-
tendance was present.

—Lady Lansdowne Lodge Daughters
of England will hold an entertainment
next Thursday the 17th.

—A meeting of the Primary Class
Teachers Union will be held in St. An-
drew's school room at 7.45 this evening.

—A man is lingering at the gate—some
tramp or burglar maybe:
Oh, no, it is the candidate—he wants to
kiss the baby.

—Mrs. George Paton, President of the
local W. C. T. U., received a telegram yester-
day morning stating that Mrs. Lake
would be unable to lecture in Peter-
borough, being engaged until April
next.

—The Moulders' Union is making
preparations for a grand ball to be
held in the near future. As the affairs
conducted by the moulders in past
years have been uniformly successful
the event will be awaited with interest.

—The Y. M. C. A. Debating Club meet
this evening at 8 o'clock. There will
be an impromptu debate on "Resolved
that an export duty be placed on logs
and pulp-wood." Arrangements will
also be made for the opening of the
mock parliament which will occupy the
next two Friday evenings.

PERSONAL AND SOCIAL

—Mr. Fred Lynch left yesterday for
Smith's Falls.

—Miss Jennie Riley has returned
from New York.

—Mr. Stewart Robertson, formerly of
Gough Bros. Lindsay, was in town
yesterday. Mr. Robertson is about to
open a business in Belleville.

—Mr. Thos. Walters, of Lindsay, was
in town yesterday on business. The
Peterborough friends of Mrs. Walters
will be glad to learn that she is re-
covering from her recent illness.

A WEDDING EVENT

Celebration of the Davidson-Anderson
Nuptials

A very interesting event was cele-
brated at the residence of Mr. John
Anderson, Stewart St., Ashburnham,
Wednesday night, being the wedding
of his daughter Minnie to Mr. Eras-
mus Davidson, of North Monaghan.

The ceremony was performed by the
Rev. Jas. G. Potter in the presence of
a number of the friends and relatives
of the young people. The bride was
given away by her father, Miss
Frankie Anderson, her sister, was
bridesmaid, while Mr. Delbert David-
son supported the groom.

The bride looked very attractive in
a costume of white organdie over pink,
while the bridesmaid was prettily
dressed in pale blue silk trimmed with
ribbons and lace. Both carried beau-
tiful bouquets.

After the ceremony a sumptuous
wedding supper was enjoyed and the
evening pleasantly spent by the party.
The large number of handsome
presents showed the esteem in which
the young people are held.

They will take up their residence
in North Monaghan.

A BILIOUS KICK

KINGSTON PAPER DOES NOT AP-
PROVE THE SYSTEM OF REGIS-
TERING MANHOOD VOTERS.

(Special to the Times.)
KINGSTON, Feb. 10
The Times denounces the system of
registration of the Ontario Govern-
ment, saying the court proceedings
were anything but edifying or in the
interest of good government.

It says many of the registrations
were made to give the men a fran-
chise for sale. It concludes:
"If it cannot have manhood suf-
frage without the infernal practices
characteristic of the proceedings of the
registry court then we had better be-
without it."

There were over 1600 names regis-
tered in this city.

NOT SATISFIED

DR. DEWART'S CANDIDATURE MAY
INJURE THE SUPERANNUATION
FUND.

(Special to the Times.)
TORONTO, Feb. 10
It is understood that there is some
feeling in the Methodist church both
among the ministers and laymen, on ac-
count of Dr. Dewart presenting himself
as a legislative candidate. The objectors
say that the doctor is in receipt of a
superannuation allowance from the
church and is supposed to be incapacitated
from the work and that if he can
undertake the election incident to a
political life he can just as well take
a pulpit. Report says that these op-
inions will have some influence upon fu-
ture contributions to the superannua-
tion fund of the church. Regret is
also expressed that Dr. Dewart did not
consult his ministerial confreres be-
fore taking the step he has taken.

Isn't it aggravating to take infinite
pains in peeling an orange to discover
it absolutely tasteless and as tough
as a piece of leather?

Meditation...

While contemplating how
you can be cured of that
Rheumatism you are trou-
bled with, be it Acute, Chronic,
Arterial, Sciatic, Gonorrho-
eal, Gout, make up your mind
and use "The only known
positive cure, that has never
failed, namely, 'NEW LIFE'."
Medicine cure guaranteed to be
had at our Laboratory
21 Jarvis Street, Toronto

NEW LIFE
COPYRIGHT 1897

OPENED THEIR NEW HALL

Court Langton C. O. F. Held a Successful
House-Warming

Court Langton No. 344 Canadian
Order of Foresters opened their new
headquarters over Robert Weir's tail-
or shop last night with song and
dance, and the "hanging of the crane"

was a most enjoyable event. The new
quarters are conveniently situated and
handsomely furnished, and were crowd-
ed last night by the Foresters and
their friends. The gathering was a
very sociable and pleasant affair and
joy was unconfined. Court Langton
has a wide circle of friends in town
who will wish them every success.

They are to be congratulated on their
successful house-warming.

In the evening a musical program
was rendered to an appreciative au-
dience. The numbers were as fol-
lows:

Instrumental—Misses Hurley
and Bullen.

Vocal Solo—Miss Belleghem.

Recitation—Miss Aggie Peterson.

Vocal Duet—Mrs. B. Brown and Mr.
Jas. Brown.

Recitation—Miss Strong.

Song—Mr. Jas. Brown.

Recitation—Mrs. Christie.

Instrumental Duet—Mr. and Mrs.
Hodgson.

Song—Messrs. Moncrief, Dutcher and
Miller.

Recitation—Miss Holmes.

Song—Mr. Jas. Brown.

Recitation—Mrs. Christie.

Song—Mrs. B. Brown.

Instrumental—Mr. and Mrs. Hodg-
son.

After a substantial supper had been
served the young people had a social
hop and passed the time pleasantly
till the small wee hours of the morn-
ing.

A SUCCESSFUL CONCERT

Held in the Sons of England Hall in Aid of
the Sunday School

The tea, sale and entertainment
held in the Sons of England hall in
aid of the St. John's Sunday School
building fund was in every way a
most successful affair. A large num-
ber patronized the tea and nobody
went away dissatisfied. The goods dis-
played for sale were of every variety,
and were a credit to the skill and
industry of the ladies who furnished
them. All kinds of fancy work was
displayed, and also a large stock of
useful articles for household wear.
The ladies were kept busy exchanging
them for money.

The hall was crowded in the eve-
ning by a large gathering to hear the
entertainment, for which a most en-
joyable program was rendered. All
the numbers were heartily received.

Mr. R. M. Dennistoun acted as chair-
man. The program was as follows:

Instrumental Duet—Misses English.
Song—Bertie Farlin—Miss Carnegie.

Reading—Mr. Hampden Burnham.
Song—Queen of the Earth—Mr. Mor-
phet.

Recitation—Master Holden Black-
well.

Song—The Miller's Daughter—Mrs.
Parker.

Piano Solo—Miss Kempf.

A series of views by Mr. Roy was
followed by a laughable farce, given
by a number of the young ladies of
the church. They looked very pretty
in quaint and fantastic costumes and
all acted their parts with skill. The
farce brought a pleasant evening to a
close.

POLICE COURT NEWS

Thomas Courney was charged with the
theft of \$33 from Mr. T. Fitz-
gerald. The money was taken Wed-
nesday and Courney, who has been
working around Mr. Fitzgerald's
factory, was arrested the same
evening in company with two other
young men. At the court he pleaded
guilty to the charge, and was sen-
tenced by Magistrate Dumble to two
years less one day in the Central
Prison. His excuse was that he was
under the influence of liquor. His
companions were discharged.

A case of non-support was also to
come up but it was withdrawn. A
settlement having been effected.

At the county court Wednesday
Wm. Purdy, a young man of Bel-
mont township was charged with seduc-
ing a young woman named Annie
Rupert, who had been employed as a
domestic with Purdy's family. After
several witnesses had been examined
the case was remanded till Monday
next.

LUETGART GUILTY

THE CHICAGO MURDERER SENTEN-
CED TO LIFE IMPRISONMENT

(Special to the Times.)
Chicago, Feb. 10.—Adolph L. Luetgart
was last night convicted and sentenced
to imprisonment in the penitentiary
for the term of his natural life. Luet-
gart received the verdict with a laugh.

The jury retired at 4.50, and took
their first ballot at 5.10. It was unani-
mous for conviction. Some little time
was consumed in arriving at the puni-
ishment to be inflicted, but this was
settled at 8.30, and then the jurors sat
around in their room until 10.50 o'clock
when they announced their verdict.

Luetgart's counsel at once entered a
motion for a new trial, which was an-
nounced, and will be argued within a few
days. Luetgart was led back to jail
in apparently good spirits, and comforted
by the assurance of his lawyers
that he will get a new trial, and that
the State will not be able to convict
him a second time.

Luetgart was a Chicago sausage
maker. The crime of which he was
accused was that of murdering his
wife, whose body he disposed of by
dissolving it in chemicals in a large
vat. It is the basement of his factory.
The chief evidence against him was the
finding of some human bones and two of
his wife's rings in the vat which the
chemicals had not acted upon. Luet-
gart was tried several weeks ago, but
the jury disagreed.

The Misses of Life
McQuay, Baple & Co's bread is pro-
posed to be the first-class. Only 10c
for a large loaf.

All new and fresh
Our Flour, Nuts, Dates, Grapes, Lem-
ons and Oranges are all new stock
and we can give you best value in all
times we carry. J. B. Oke.

Liver Ills

Like biliousness, dyspepsia, headache, consti-
pation, sour stomach, indigestion are promptly
cured by Hood's Pills. They do their work

Hood's Pills

easily and thoroughly.
Best after dinner pills.
30 cents. All druggists.
Prepared by C. I. Hood & Co., Lowell, Mass.
The only Pill to take with Hood's Sarsaparilla.

Look Here!
Just received fresh Sea Salmon, Hal-
ibut, Smelts, Lake Superior Trout and
White Fish. Best brands Baltimore
Oysters. J. B. Oke.

the Planned It.
"Well," said the old gentleman, "how
that you've told me how much you love
my daughter, suppose you go ahead and
give me a little information as to how
you expect to support her."

"Oh," replied Alky, "I don't mind that
all I would have to do was to get the
wedding arranged for, and that you
would do the rest."

And so he did, though the doctors an-
nounced that, while the young man's in-
juries were very severe, they were not
necessarily fatal.—Cleveland Leader.

Morning Times

PETERBOROUGH, FEBRUARY 12, 1898

AN INTERESTING REPORT.

Peterborough is the headquarters of the head offices of the Toronto Savings and Loan Company, and on this account the thirteenth annual report of the company, which is printed in another column, will be found especially interesting by our citizens. The majority of its officers and directors are either citizens of Peterborough or men well known to the public here. The thirteenth annual meeting was held last Thursday, the President, Hon. Geo. A. Cox, occupying the chair, while Mr. W. G. Morrow acted as secretary.

The report of the president shows the affairs of the company to be in a most satisfactory condition. After the payment of interest on deposits, the payment of all expenses and the appropriation of a large sum to the Reserve Fund and the Contingent Fund the company was able to declare out of its earnings two half-yearly dividends at the rate of six per cent. per annum on the capital stock. This shows the stock of the company to be a profitable investment.

The report is important as showing the growing prosperity of the country in general. The interest on mortgages held by the company and the payments of rents on the company's lands have been promptly met. This is important as indicating the growing improvement in the financial state of the country.

The President's address explains clearly the condition of the company, and will be found interesting as containing a number of valuable hints as to successful business methods. The outlook for the company is most encouraging, and under the guidance of its experienced managers it must continue to make good progress. All persons interested in money matters or in the investment of funds to the best advantage should read the detailed statement published in another column.

The election of officers resulted in the return of Hon. Geo. A. Cox as President, and Messrs. Richard Hall and A. A. Cox as Vice-Presidents.

A SOLID CONCERN.

In another column will be found a copy of the sixth annual report of The Trusts Corporation of Ontario, a report of great interest to almost everyone. The people of Eastern Ontario can feel assured that any business placed in the hands of this company will be transacted in the most capable and satisfactory manner. The company is composed of energetic and reliable business men, whose standing in Canada is above criticism. They have unequalled facilities for the investment of funds in profitable ventures, facilities rarely enjoyed by private individuals. Money or estates placed in their hands for security are under the care of some of the best financiers of this province.

The growth of the company's business is an indication of the satisfactory manner in which it fulfills its trusts. It is well deserving of the high confidence placed in it by the people of Ontario.

The company receives trusts of all kinds—administrations, executorships, trusteeships, guardianships, care of lunatics, etc., and handles these mat-

ters according to the best business methods. Its officers will always be found courteous and obliging, and ready to give any information desired.

THE EAST RIDING.

The Conservative candidate for East Peterborough, Dr. Ford, will be formally nominated at Norwood to-day and the campaign in the riding will start in earnest next week. Dr. Ford is a good speaker and an able man, and no doubt will make matters interesting for Mr. Blezard in his stronghold. Everyone must admit, however, that Mr. Blezard's prospects for re-election are very good. He has been in the field since December, has played his platform before the people and made himself solid, and has held some very encouraging meetings throughout the riding. Mr. Blezard enjoys a peculiar advantage in being so well known personally in all parts of his constituency, a fact very important in a riding like East Peterborough, which covers so much ground, and which is, on this account, so difficult to thoroughly canvass. Mr. Blezard's long term in the Legislature too, should be of great benefit in assisting him to carry the election. With two such candidates a very interesting contest may be looked for.

Election takes place two weeks from next Tuesday.

When Hardy gives the signal to vote Mr. Stratton says "Me, too!"

A girl doesn't love every man she is willing to go to a dollar and a half show with.

Those Ennismore speeches were a kind of hasty pudding that the electors do not relish.

New Jersey proposes to tax bachelors \$2 a year each. It is too little to pay for the privilege.

It is proposed to found a home for aged baseball players. Why don't they go on the stage?

If J. R. speaks at the Whitney meeting we believe he will feel like an old maid at a christening—he won't be in it.

Mr. Garvin took the bull by the horns at the Liberal meeting here. Mr. Stratton will no doubt show his skill next Friday night.

Money talks and so do some campaigners, but the talk of the money seems to bring the most substantial results.

One of the cleverest political stunts of the week is found in the Chatham Banner, which says: "In the words of Editor William, of the Globe, Dr. Dewart will write the final chapter of the Book of 'Martyrs'."

The Victoria Warder has committed the following lines. You can pick out the "one" mentioned according to your party leanings:

Peterborough West is truly blest
With men like Garvin and Stratton;
But when contest ends they may be friends,
And yet one will feel quite set on.

Miraculous Results

A SUFFERER FOR 35 YEARS
CURED BY PAINE'S
CELERY COMPOUND

A Terrible Case of Dyspepsia
is Overcome by the Great
Compound

Had Failure After Failure
With Other Medicines

Mr. Budd Says:
"From a Condition of Helplessness I
Am Now Well and Strong"

NEW LIFE AND HEALTH AWAIT
ALL WHO USE PAINE'S
CELERY COMPOUND

Wells & Richardson Co.,
Gentlemen:—For the benefit of sufferers I gladly give my experience with Paine's Celery Compound. After suffering from dyspepsia for thirty-five years and meeting with many failures with other medicines, I decided to use Paine's Celery Compound, having heard of its many cures effected by it. The compound, after I used it for a time, produced miraculous results and banished my troubles.

From a condition of helplessness—being unable to eat or sleep—I feel well and strong. I am astonished at the results, as my trouble was an old and chronic one. I have recommended Paine's Celery Compound to some of my neighbors, and in every case it has given satisfaction. I will always strongly recommend its use when I have opportunity.

Yours respectfully,
Ambrose Budd, Elmhurst Bay, Ont.

TORONTO SAVINGS AND LOAN COMPANY

Thirteenth Annual Report

SUBMITTED TO THE SHAREHOLDERS AT THEIR ANNUAL MEETING.

The annual meeting of the Shareholders of the Toronto Savings and Loan Company was held at the Head Office of the Company, No. 437 George Street, Peterborough, on Thursday, February 10th, 1898, at 2 o'clock p.m.

The President, Hon. Geo. A. Cox, having taken the chair, the Manager, Mr. W. G. Morrow, was requested to act as Secretary to the meeting. After reading the notice convening the meeting the Secretary read the Thirteenth Annual Report, and the accompanying Financial Statement:

The Directors of the Toronto Savings and Loan Company beg to submit herewith their Thirteenth Annual Report, showing the results of the business of the Company for the past year, accompanied by the balance sheet to 31st December, 1897.

The gross earnings for the year amounted to \$8,744.76, and after the payment of interest on deposits and debentures and all expenses of management there remained a net profit of \$42,732.32, which sum has been disposed of by the payment of two half-yearly dividends at the rate of 6 per cent. per annum, amounting to \$36,000, and by the transfer of \$5,000 to the Reserve Fund and \$1,732.32 to the Contingent Fund.

The interest payments which matured during the year on the Company's mortgages have been well met, and the rentals of the Company's properties have also been promptly paid.

The Auditor's Certificate, certifying to the correctness of the statements and the condition of the securities attached, was read.

Respectfully submitted on behalf of the directors,

GEO. A. COX, President

AUDITOR'S CERTIFICATE.

I hereby certify that I have carefully audited the Books and Accounts of the Toronto Savings and Loan Company for the year ending 31st December, 1897. All disbursements have been properly vouched for, and the postings and balances of the Company's ledgers have been checked and found correct.

The above Statement of Assets and Liabilities shows the position of the Company on 31st December, 1897, and the Profit and Loss Account is a correct showing of the operations of the Company for the year ending on that day.

I have also examined the securities and find everything in order.

E. R. WOOD, Auditor.

Peterborough, 26th January, 1898.

PRESIDENT'S ADDRESS.

The President, in moving the adoption of the report, said:

Gentlemen:—I have more than ordinary pleasure in presenting for your approval the Thirteenth Annual Statement of this Company, printed copies of which have for some days been distributed amongst the Shareholders, and from which you will be pleased to learn that the results of the year's business have enabled your Directors to pay the usual half-yearly dividend at the rate of six per cent. per annum, amounting to \$36,000, to transfer \$5,000 to the Reserve Fund, which now

stands at the handsome figure of \$110,000.00, and to make a further addition of \$1,732.32 to the Contingent Account, increasing it to \$5,193.53.

With your permission I will read the following extract from the remarks I made in moving the adoption of the last Annual Report:

It will be known to most, if not all the Shareholders present, that during the year important changes have been effected in the Policy and Direction of the Company, which it is confidently anticipated, will very materially promote its future prosperity.

By an arrangement with the Central Canada Loan and Savings Company, the Toronto Office of this Company have been closed, and in accordance with the provisions of the charter in that behalf, the head offices and entire business of the Company has been transferred to Peterborough, where it already has important investments, and by the arrangement with the Central Canada, to which I have already referred, that Company is no longer to compete for business in the counties adjacent to Peterborough, which is to be the future home of this Company. The mortgages now held by the Central Canada, where it is satisfactory to the borrower and to the Company, will, as they mature, be taken over and renewed by this Company. This agreement, which it is thought will be mutually profitable to both companies, by effecting economy in management and closer supervision of business has been greatly facilitated and strengthened by the cordial co-operation of the Peterborough Directors of the Central Canada, who have kindly consented to throw in their lot with what is now to be a Home Company. The intimate knowledge and acquaintance of these gentlemen have of this and the adjacent counties to which the operations of the Company are to be restricted, and the long experience of many of them have had in the business in this Midland District will give the Company unusual advantages in acquiring a safe and profitable business in one of the most fertile and prosperous sections of Canada.

I repeat the statement I then made because it serves to remind the Shareholders of the important change that was then made in the policy of the Company, and because the experience of the year just closed has demonstrated in the most satisfactory manner possible that the policy then adopted was without any doubt the correct one. It would not have been surprising if the removal of the Head Office to Peterborough had caused a reduction in the assets, and a temporary check in the steady growth of the Company; but it is very gratifying to observe that the very reverse has been the case, and that the assets, which at the end of 1896 amounted to \$1,546,355.48, had at the end of 1897 grown to \$1,620,529.98, an increase of \$74,174.50, an unmistakable evidence to my mind that the steady and progressive growth of the Company, the commercial centre of the very best agricultural districts in Canada, there is abundant room for a strong and successful Home Company, in which the savings of the people may be safely deposited at a fair rate of interest, and where those who desire to obtain loans can transact their business direct with the Head Office of the Company in the most satisfactory and least expensive manner possible. The Manager and Officers of the Company continue to merit by their courteous and energetic attention to business, the cordial approval and thanks of the Directors and Shareholders of the Company.

I now move, seconded by Mr. Hall, the Vice-President, the adoption of the Report and the Statement submitted, and that they be printed for circulation amongst the Shareholders, Depositors and Debenture Holders of the Company.

Before asking for your assent to this resolution I shall be glad to answer any question or furnish any information that may be desired by any Shareholder present.

THE REPORT ADOPTED.

Mr. Hall, in seconding the resolution, said: It is also an agreeable duty for me to second the resolution for the adoption of the report. The Financial Statements that are before you, and what has already been said in moving the resolution, renders any lengthened remarks from me unnecessary, but I am sure the results of the year's business must be highly satisfactory, not only to the Directors and Shareholders, but also to the Debenture Holders and Depositors, many of whom are residents of our own Town and County. The Company has thus afforded an opportunity to those who have been able to accumulate any savings, no matter how small, to place it at interest where it can be had at any time without notice, and at a rate somewhat higher than is paid by the banks.

Notwithstanding the small margin between the rate paid to Depositors and charged to borrowers, it is very satisfactory to know that by the careful selections of loans, prompt collection of rent and interest, and economy in management, the Company has been able to pay six per cent. to its Shareholders from the date of its organization, and has already accumulated surplus earnings of \$115,193.53; this in addition to the subscribed capital of \$1,000,000.00 (six hundred thousand of which is paid up) would every dollar have to be lost before the Depositors would lose anything. I have much pleasure in seconding the resolution.

Mr. Clouston also supported the resolution in a few well chosen remarks and said he was sure the Company had a bright future before it.

The Report was unanimously adopted.

ELECTION OF OFFICERS.

On motion of Mr. Dumble, seconded by Mr. Hamilton, Mr. E. R. Wood was appointed Auditor for the year 1898.

The election of Directors was then proceeded with and the following gentlemen were declared elected for the ensuing year: Hon. Geo. A. Cox, Richard Hall, William Clouston, A. L. Davis, Peter Hamilton, H. J. LeFevre, A. A. Cox, D. W. Dumble and James Stevenson.

At a subsequent meeting of the Directors Hon. Geo. A. Cox was re-elected President, and Richard Hall and A. A. Cox, Vice-Presidents.

"ONLY THE BEST."

Should be your motto when you need a medicine. Do not be induced to take any substitute when you call for Hood's Sarsaparilla. Experience has proved it to be the best. It is an honest medicine, possessing actual and unequalled merit. Be wise and profit by the experience of other people.

HOOD'S PILLS are the favorite family cathartic, easy to take, easy to operate.

SWEET PEAS.

A host of dainty, wing-like flowers,
A bowl of Dresden china,
Beguile to-day some lonely hours
With potent, wondrous tales
Than all the roses, wondrous tales
Which languish in their glory
In stately vase of pettiness,
Breathing the summer's story.

A swarm of pink-bellied butterflies,
You seem to poise and hover
On your frail stems, and try to rise,
Seeking the wind, your lover.
Sweet peas! My fancy and my heart
You charm with your faint fragrance
It challenges Dame Nature's art
To match you, lovely vagrants.

HANGED THAT HE MIGHT LIVE.

Peculiar Surgical Operation Performed
in a California Hospital.

A very delicate and extremely rare surgical operation has been performed successfully at the French hospital in this city upon C. Hoffman, a young German farmer. By it not only his life has been saved, but he is on the speedy way to the recovery of health. Hoffman was employed on a farm near Knight's Ferry. During the latter part of July he fell backward off a wagon, striking the head ground with the back of his head, and fractured the third cervical vertebra, an injury which in nearly every case proved fatal. An examination by the physicians in the country disclosed the seriousness of the injury, and they gave it as their opinion that not one in a thousand ever could survive it. The fracture prevented the moving of the injured man's head in any direction. The slightest attempt to move the head caused violent vomiting, brought on fainting spells and impeded respiration. The patient was given very little nourishment with a spoon, and had to be kept constantly in one position. His frame wasted away and yet he lingered, suffering great agony.

On Aug. 11 he was brought to the French hospital in this city, where the physicians decided upon an operation as the only possible means of saving the life of the patient. In the presence of the hospital house staff and a number of consulting physicians the operation was performed Aug. 15. An incision was made in the neck, exposing the vertebra, which showed the injury to the third process, the arch of which was removed, so was a portion of the second vertebra, thus removing the obstacle to the unrestricted motion of the head. The wound was closed and an extension apparatus applied.

The patient rests on an inclined plane. The weight of the body acts as a counter extension to the weight applied to the extension apparatus which is attached to the head, and the patient is virtually suspended by the neck until he shall be restored to health. The wound has been dressed four times since the operation was performed, and the patient is doing well. At the last dressing Dr. Oscar J. Mayer, the operating surgeon, was very sanguine that his patient would soon be restored to perfect health.—San Francisco Chronicle.

A Dart That Didn't Stick.

No better and at the same time no more courteous rebuke could well be imagined than that once administered by Beaumarchais, the author of the famous "Marriage of Figaro." He was the son of a Parisian watchmaker, but had gained fame, rank and wealth through his own talents and exertions. A conceited and envious young nobleman once undertook to wound the pride of Beaumarchais by an allusion to his humble origins.

In the presence of a large company of people who had a regard for the talented young author, this young man handed him his watch, saying:

"Examine it, sir, it does not keep time well. You can doubtless ascertain the cause."

Such was his rude haste that his hand left the watch before that of the surprised Beaumarchais had grasped it and it fell to the ground.

"Pardon, monsieur," said the author, with grave courtesy, stooping to pick up the watch and hand it to its owner: "you see my father was right when he declared that I was too awkward to be a watchmaker."

Brought in "Pa's Prayers."

Once upon a time sickness came to the family of the poorly paid pastor of a country church. It was winter, and the pastor was in financial straits. A number of his flock decided to meet at his house and offer prayers for the speedy recovery of the sick ones and for material blessings upon the pastor's family. While one of the deacons was offering a fervent prayer for blessings upon the pastor's household there was a loud knock at the door. When the door was opened up comfortably.

"What do you want, boy?" asked one of the elders.

"I've brought pa's prayers," replied the boy.

"Brought pa's prayers? What do you mean?"

"Yes, brought his prayers, an' they're out in the wagon. Just help me an' we'll get 'em in."

Investigation disclosed the fact that "pa's prayers" consisted of potatoes, sour, bacon, cornmeal, turnips, apples, warm clothing and a lot of jokes for the sick ones. The prayer meeting adjourned in short order.—Omaha World-Journal.

Rough on Pat.

Two Irish soldiers stationed in the West Indies were accustomed to bathe daily in a little bay which was usually supposed to be free from sharks. Though on good terms with each other, they were not what might be called fast friends.

One day, as they were swimming about one hundred yards from the shore, Pat observed Mick and only making for the land as hard as he could, without saying a word. Wondering what was the matter, Pat struck out vigorously after him, and landed at his companion's heels.

"Is there anything wrong with ye?" inquired Pat, feelingly.

"Nothin'—nothin' at all," replied the other.

"Then what did ye make such a sudden retreat for, an' leave me?" continued Pat.

"'Bated," answered Mick, coolly. "I spotted an av a big shark about twenty feet ahead, an' I thought while he was playin' wid you it would give us time to reach the shore."

It is not to be wondered at that Pat declined to bathe with Mick any more.

A Boat Built of Cement.

Stiffened cement has been used successfully in the construction of a boat by an Italian named Gabbellini. The frame is of steel bars, a third of an inch in diameter, over which is spread a wire netting. On this the cement is laid, and the outer surface is polished. The boat is heavier than one built of wood would be, but it is cheaper and slips better through the water. Experiments have proved its strength.

Wismarck's Brain.

Wismarck's brain, according to the estimate from external measurements made by Herr Ammon, an anthropologist, and the sculptor who made the Iron Chancellor's bust, probably weighs 1807 grammes, in which case it is the heaviest on record. Currier's brain weighed 1810 grammes. Byron's 1807, Keats's 1850, and Schiller's 1800. The average weight of the brain of an intelligent European is 1250 grammes.

"Go boldly forth, my simple lay,"—
Sir William Jay.

The bicycle stopped suddenly. The old man went over the handle-bar and turned a complete somersault in the air. Then he sat down on the pavement—hard.

"Now, you know how it feels to be whacked there," said the boy.

And with a merry laugh he disappeared around the corner.—Chicago Post.

Farther Back—Beaming—Does your wife ever go through your pockets? Durham—I should say not. She draws my salary.—Cleveland Leader.

Soxy—Why are those things what widows wear called "weeds"? Knoxey—Because they spring up, and choke the grief.—Pittsburg News.

Penelope—What did he send you for a wedding present? Pauline—Cut glass. Penelope—Ah, tailware, I suppose? Pauline—No, a necklace.—Truth.

Mother—Edith, go and see whether the clock is going! Edith (coming back)—No, mamma, it is standing quite still, only its tail is wagging a little.—Enquire Within.

Brown (reading program)—Ten years are supposed to elapse between the third and fourth acts. Jones—Come out and have something. I can't imagine ten years having elapsed during which I haven't had a drink!—Puck.

Young Housekeeper—My good man, can't you find a more useful life than that of a tramp? Tramp—We are useful, madam. Just think of the number of divorces we prevent by eating young housekeepers' pies.—Judge.

Mrs. Mashem—My dog and I have been sitting for our photographs as "Beauty and the Beast." Lord Lorus (a bit of a fancier)—Yes; he certainly is a beauty, isn't he?—Punch.

A Race Description.—Grace—They say that Blanche Prince proposed to Mildred. Carmelita—Yes, but he insulted her. Grace—How? Carmelita—He told her she was worth her weight in silver.—New York Press.

Too Forceful.—"They say Dumley's wife rules him with a rod of iron." "Oh, no; that's an exaggeration. Why, she can make him jump by merely crooking her little finger at him."—Cleveland Leader.

POST MISTRESS IN TROUSERS

Indigestion and Dyspepsia had made Her Prisoner—Two Years of Distress Turned to a Joy Song Because South American Nervine Cured her Sufferings.

Marie Edge, Post-Mistress of Edge Hill, says: "For nearly two years I suffered agonies from acute indigestion and dyspepsia. I could eat practically nothing without its producing the severest pain. The doctors could do so little for me I about gave up hope of recovery. I was induced as a last resort to give South American Nervine a trial. Two bottles wonderfully helped me. Three bottles completely cured me, and for six months I have enjoyed perfect health."

EMISSIONS

Varicose, Syphilis, Weakness
and Diseased Men Cured.

20 Years in Mich. 40 Years Experience
250,000 CURED.

Thousands of young men are made nervous wrecks, unfit for business, social pleasure or home duties by evil habits in youth, later excesses, or private diseases. W. O. Anderson, of Akron, O., says: "I read this paper and have seen many reports of remarkable cures made by Dr. Kennedy and Kegan. I decided to treat with them. Indigestion was the cause of my trouble. I was weak and nervous; no ambition; back weak; pimples on the face; thin and haggard; eyes sunken and cheeks hollow; dreams and doubts as to right; memory poor; varicose and weak parts; terrible; stinking spots; spots before the eyes; lack of confidence; no energy; and many other complaints. I had tried fourteen doctors, bought four electro-bells took scores of bottles of patent medicines—all failed. I tried the New Method Treatment of Dr. Kennedy and Kegan, and it cured me. I am a New Agent. I have gained twenty-six pounds and am strong mentally, physically and sexually. It is a wonderful treatment."

Shed Disease—the worst symptoms: Ulcers in the mouth or on the tongue; blotchy eruptions; hair falling out; bone pains; eyes red; stomach troubles; nose throat etc., positively cured forever. You dare not merely mail cure. Cures guaranteed or no pay. We cure Syphilis, Nervous Debility, Varicose, Pimples, Headaches, Stomach, Chest, Urinary Disorders, Weak Parts, Ulcers, Skin, Chloroform, Consumption, etc.

If unable to call, write for Question Blank for Home Treatment. Everything confidential. Nothing sent C. O. D.

DOMES, BUBBLES AND EGGSHELLS.

Seen from a distance on a fine day the dome of St. Paul's looks as light as a soap bubble; and if it could talk, it would tell you it feels as light, for the mighty strength of the great church carries it as a man carries a baby on his shoulder. Yet it weighs—how much, do you fancy?

A woman stood in the doorway awaiting the return of her husband. He had left home with a heavy load of anxiety on his mind. Presently she saw him coming. Matters had been satisfactorily adjusted; she knew it by his face. Walking quickly up to her, he said—not loudly, but gently, with pauses between his words: "Wife, if you should hear a bushel of eggs in this door I feel I could run over them and not break one."

This is in the line of universal experience. Weight—so far as it concerns the human body at least—is not determined by the scales, but by sensation.

We beg to introduce Mr. John Stafford, who says, "I felt as if a heavy load had been lifted off me."

"For over twenty years," he adds, "I had suffered from obstinate indigestion and constipation. For more than a week at a time I would never have my bowels moved."

The reader is an intelligent person, doubtless. Consider Mr. Stafford's statement, then, for a moment, let us put the foot in plain English. His intestines were full of festering rotteness; they were like a stagnant morass, breeding disease and death. The poisons engendered by so vile an accumulation are absorbed by the tissues, pass into the blood, and infect every organ and part of the system. If not relieved, the victim will die—poisoned by the products of his own machinery. It is as horrible as the Black Hole at Calcutta, and as common as weeds in a neglected garden.

We are, therefore, prepared to hear him say, "I always had a bad taste in the mouth, my tongue and teeth being covered with a sticky, slimy matter. I was constantly belching up a foul gas or fluid that tasted sour as vinegar. After eating I had great pain and tightness in the chest, back, and between the shoulders, with a choking feeling in the throat. As time went on I grew weaker and weaker, through loss of appetite and lack of nourishment. Until I could hardly follow my work. I tried all sorts of medicines I could hear tell of, but none of them did me any good."

In June (1895) I was so run down and feeble I feared I should have to give up altogether. I was under a doctor for several weeks, but his medicines did me no good; I kept getting worse and worse. At last, in July of the same year, my mate at the Marsh Iron Works, where I was employed, told me about Mother Seigel's Curative Syrup, and urged me to give it a trial. I got a bottle, and after I had taken it a few days I felt a great improvement. My bowels acted naturally, as they had not previously done for twenty years, my food agreed with me, and I felt as if a heavy load had been lifted off me. Continuing to take the Syrup, I gained strength rapidly, and have been in the best of health ever since. You will believe me when I say that I now recommend this remedy to everybody who suffers from the same complaint. You are welcome to publish my statement. Yours truly, (Signed) John Stafford, 15, Sqn Terrace, Marsh Lane, Preston, October 11th, 1895."

Indigestion is primarily a disease of the stomach and constipation is one of its results. On account of the torpidity of the liver (an accompaniment of indigestion), little or no bile is poured into the bowels, and the fluids of the intestines being dried up by the feverish action there, the partly digested stuff from the stomach becomes hard and solid in the lower bowel, and clogs it. Then it putrefies, producing all the evils from which our friend suffered. Seigel's Syrup cured him by setting things right at the source of the trouble. We congratulate Mr. Stafford on his escape; it was narrow enough for the strongest and boldest. The scales will tell him he weighs more than he has in twenty years; his feelings tell him that he could stand on an egg and not break it.

The Trusts Corporation OF ONTARIO

NINTH ANNUAL REPORT

The ninth annual meeting of the Trusts Corporation of Ontario was held at the offices of the corporation, Nos. 19-21 King-st west, on Tuesday, the 8th day of February, 1898, at 12 o'clock noon.

Among those present were the Hon. J. C. Aikins, Mr. J. L. Blaikie, Mr. G. A. Bloomer, Mr. W. H. Cawthra, Mr. G. William Cooke, Dr. Digby (Brantford), Mr. William Gordon, Mr. William Hendrie (Hamilton), Mr. Thomas Long, Mr. A. Manning, Mr. W. D. Matthews, Mr. E. B. Osler, M.P., Mr. Thomas Patterson, and Mr. George Porter, (Bowmanville), Mr. R. S. Schell (Brantford), Mr. Fred J. Stewart, the Hon. S. C. Wood, etc.

On motion the Hon. J. C. Aikins took the chair, and Mr. A. E. Plummer, the manager, was requested to act as secretary and read the following report, together with the financial statements, auditors' certificates, etc.

The Directors of the Trusts Corporation of Ontario beg to submit their ninth annual report, together with all financial statements, showing the business of the Corporation for the year ending the 31st December, 1897.

Your directors have much pleasure in reporting a steady and continual increase in the business of the Corporation, the number of trusts committed to our care being larger than in any previous year. As this year's increase has been steadily maintained from the inception of our business, we look upon it as a gratifying evidence of the Corporation's growing usefulness in supplying a reliable and well adapted medium for the transaction of a business in its nature of the utmost importance. The volume of new business represented has not been so great as some other years, but in a business such as ours, where trusts vary so much in size, this fluctuation may be expected.

The new trusts undertaken during the year, embracing Administrations, Executorships, Trusteeships, Guardianships, Receiverships, and Committeeships of Lunatics, amounted to \$575,450 in addition to which a number of miscellaneous trusts, such as the appointment of the Corporation as Trustee for Bondholders and businesses of like nature, were created. In addition, we have been advised that a number of wills have been made since our last meeting, appointing the Corporation executor and trustee, many of which have been lodged in our vaults for safe custody.

During the past year a number of estates were wound up, being disposed of or partly distributed among the parties entitled thereto, and there are now remaining in the hands of the Corporation assets belonging to trusts amounting to nearly five million dollars.

A satisfactory increase has been made in the rentals from our Safe Deposit and Storage Department, the number of deposit boxes rented showing a steady growth in this business.

During the year Sir Richard Cartwright, K.C.M.G., M.P. of Kingston, and Hon. J. M. Gibson, M.L.A., retired from the directorate, and their places were filled by the election of William McKenzie, Esquire, of Toronto, and J. W. Digby, Esquire, M.B., Brantford.

After a short address from the President on the general business of the Corporation, the report was unanimously adopted.

The usual vote of thanks was passed to the directors and others, and Messrs. J. M. Martin, F.C.A., and Maitland Young were appointed auditors for 1898.

Mr. Geo. A. Boomer and Mr. Fred J. Stewart, having been appointed scrutineers, reported the following gentlemen elected as directors for the ensuing year:

Hon. J. C. Aikins, J. L. Blaikie, William Cooke, Dr. J. W. Digby, W. C. Edwards, M.P., Hon. Senator Gowen, K.C.M.G., William Hendrie, J. J. Kenney, M.L.A., Thomas Long, William McKenzie, Hon. Senator McLaren, Alex. Manning, W. D. Matthews, E. B. Osler, M.P., E. B. Osler, M.P., Hugh Ryan and the Hon. S. C. Wood.

Prevent Pneumonia

Prevention is always better than cure, even when cure is possible. But so many times pneumonia is not cured that prevention becomes the natural act of that instinct of self-preservation which is "the first law of nature." Pneumonia can be prevented and is often cured by the use of Ayer's Cherry Pectoral.

"Some years ago I had a severe cold and was threatened with pneumonia. I could neither eat nor sleep, and was in a wretched condition. I procured a bottle of Ayer's Cherry Pectoral and took it according to the directions, and at the end of fifteen days as well and sound as before the attack. I have recommended it in many cases of pneumonia since, and have never known it to fail in effecting a cure."

JOHN HENRY, St. Joseph, La.

"I was attacked with a cold that settled on my lungs, and defied the skill of my physicians so that they considered me incurable. At last I began to use Ayer's Cherry Pectoral and was entirely cured after having taken two bottles."

FRANCISCO A. SEVERIANO, Taunton, Mass.

Ayer's Cherry Pectoral

Free medical advice to all. All letters confidential. Address, Medical Department, J. C. AYER CO., Lowell, Mass.

At a subsequent meeting of the Directors, the Hon. J. C. Aikins, M.P., was elected President, and the Hon. S. C. Wood, and W. D. Matthews Vice-Presidents.

BLACKS THAT ARE BLACKS

THREE FAVORITES OF THE DIAMOND DYES

The Diamond Dye Blacks are scientific successes that are everywhere appreciated by the ladies.

Diamond Dye Fast Black for Wool stands ahead for all other wool dyes for fulness, richness and depth of color. All-wool goods when they become rusty and soiled can be restored to a deep jet black, equal to the best French blacks, and fitted for long years of wear.

Diamond Dye Fast Black for Cotton and Mixed Goods is the only black in the world for dyeing cotton and all mixed fabrics. It gives a permanent and never fading color.

Diamond Dye Fast Black for Silk and Feathers is a triumph of the chemical art, and has surprised the world. All silk goods and feathers that are faded, spotted and soiled can be dyed a lovely jet black with this special dye, making old things look equal to new goods.

The Diamond Blacks are the best in the world. Ask for them and refuse all imitations and poor makes.

Prepare for Spring.

Don't let this season overtake you before you have attended to the important duty of purifying your blood with Hood's Sarsaparilla. By taking this medicine now you may save sickness that will mean time and money as well as suffering later on. Hood's Sarsaparilla will give you rich, red blood, good appetite, good digestion and a sound, healthy body. It is the greatest and best spring medicine because it is the One True Blood Purifier. Its unequalled record of marvelous cures has won for it the confidence of the whole people.

NEW MANHOOD

To you my friend, young or old, if suffering the results of youthful folly, such as DRAINS, NIGHT LOSSES, IMPOTENCY, LAME BACK, VARICOCELE, etc., take the advice of my 30 years' experience.

DON'T USE DRUGS

when you can get nature's own simple remedy, the very essence of life itself—ELECTRICITY. The DR. SANDEN ELECTRIC BELT for weak men is known the world over. I am the inventor. With last year I restored many vigor to 5,000 sufferers. Little book explaining all, sent sealed free upon request, or drop in and consult me free of charge.

Use Canadian General Electric Co's (Limited) incandescent lamps and get the benefit of manufacturer's prices. Phone No. 72.

The Staff of Life. McQuay, Baple & Co's bread is pronounced to be first-class. Only 10c for a large loaf.

What Two Girls Will Prove. For a two-cent stamp Francis U. Kahle, 127 Bay St., Toronto, will send a free sample of Trask's Magnetic Ointment and Cook Book to any one suffering from Rheumatism, Chilblains, Eczema, Tetters, Salt Rheum, Pruritus, Fever Sores. It is a positive cure for Piles.

An Organ Recital. After the evening service at St. John's church to-morrow evening Mr. P. W. Owens, organist, will give a recital, he program to be as follows: 1. Offertoire in E flat—Festive, Wily. 2. Fugue in G minor, J. S. Bach. 3. Arioso from Elijah, "Hear ye, Israel"—Mendelssohn, Mrs. Parker. 4. Offertoire, D major, Balthaz. During the offertory the choir will sing Howe Shelly's "Hark, hark, my Soul."

Just Think! Is Your Baby Was Crying with Cere? Every second would count, how would you wish for Ransom's Hiv Syrup? It keeps a bottle in the house—it always cures croup, coughs and colds when taken in time. 35c at all drug-gists.

Self-inflicted Pain. McQuay Baple & Co. are selling the most delightful pastry in town. Opposite Adam Hall's.

DISTRICT AND LOCAL TOPICS

Reporter's Phone, 184 B.

—Market day.

—Unsettled weather with showers.

—The date of the Moulders' Ball in the Opera House is fixed for Easter Monday.

—An entertainment is to be given in the Charlotte street church Monday night.

—Richard Hall & Son have a very tastefully arranged show of carpets in their east window.

—Mr. Bamford, C.P.R. station agent, reports a lot of Klondike traffic going over the line this week.

—A fancy dress carnival is to be held at the Norwood rink next Friday, the 18th. A good program of races will be pulled off.

—Messrs. Strickland & Co., of Lakefield, shipped thirteen fine Klondike canoes to Vancouver for the Yukon trade this week.

—Mr. J. W. Pearson, the well-known horse buyer shipped forty-five horses to Montreal this week, all purchased from farmers in this vicinity.

—Mr. John Bertram, of Toronto, addressed a large meeting in Lindsay last night in the interests of Dr. McKay, the Liberal candidate for West Victoria.

—1300 New voters have registered in Brantford and over 1600 in Kingston. In many of the other town and cities the numbers have been proportionally large.

—John W. McCarrell, a farmer of Cavan township was kicked in the abdomen by a horse Wednesday night and seriously injured. He is not expected to recover.

—The Liberals of Ashburnham have procured for committee rooms the store recently occupied by Mr. McComb and directly opposite Mr. J. C. Sullivan's store. The rooms will be opened on Monday night.

—The Belmont gold mine near Havelock, is running night and day with its new 10 stamp mill erected by the Wm. Hamilton Mfg Co. The mine is owned by a company with headquarters at Newcastle-upon-Tyne, England.

—Mr. W. B. Kelly, of Brantford, has his new steamer, "The Lady of the Lake," in readiness for the spring trade on the lake. She is 65 feet over-all, has an 11 foot beam, and presents a very handsome appearance. She was built by Mr. Hickey of town.

SPORTING NOTES

Items of Interest on Athletic Sports of the Week.

—Osgoode hockey team will play the first game in the semi-finals in Stratford next Monday night.

—The Winnipeg Bicycle club declare that they do not want the C.W.A. meet for 1898, and could not handle it if they got it. This is one of Peterborough's rivals out of the way.

—At a basketball match in Brantford last night between Hamilton and Brantford, one of the players, Dr. Gillrie, of Hamilton, had his collar bone broken by coming in contact with a projection in the wall.

—The Curlers' competition for the Dryden cup will begin in Lindsay on Tuesday, 22nd inst. Any club winning the cup three times becomes its owners. It has been won by Lindsay rinks twice, in 1896 and 1897.

—Great dissatisfaction prevails among the wheelmen of Manitoba and the North West in regard to their connection with the C.W.A. A great many of them are desirous of seceding and forming a North-western league.

—The matched race between Mr. D. A. Fraser, of Norwood, and Mr. A. E. McGuire, of Havelock, has dropped through. Mr. Fraser withdrawing from the field owing to sickness. McGuire, however, will meet all comers at Norwood on the 18th inst.

—The Berlin people are making great efforts to have their hockey team re-instated in the O.H.A. A petition 14 ft. long containing the names of nearly all the citizens of that town has been sent in. It is not known what action the Executive of the O.H.A. will take in the matter.

—Collingwood possesses two fast skaters who recently laid a scheme to get a little money out of the gullible people of Penetanguishene. One of them, named Woolner, issued a challenge under the name of Hagen, of Toronto, an unknown quantity, for a three mile skating race. It was accepted by his chum, McLeod, also of Collingwood, and the match was arranged to take place at Penetanguishene, the skaters to get 40 per cent of the gate receipts. The race was to take place last Wednesday night and at the time appointed two skaters appeared on the ice, whom the spectators supposed to be Hagen, of Toronto, and McLeod. When they had gone only a few rounds the crowd recognized Hagen as Woolner. They saw that the race was fixed and hooted the men off the ice. A magistrate was brought, who threatened to proceed against the men for fraud. They got out in the early morning, losers by their scheme instead of gainers.

PERSONAL AND SOCIAL

Mayor Davis is confined to his bed with illness.

Miss Annie O'Neil has gone on a visit to friends in Hastings.

Miss Mary Neild is visiting her sister, Mrs. Jas. Graham, Havelock.

Mr. W. G. Lendrum, of town, has purchased the photo gallery of Mr. A. Cunningham at Havelock.

Mr. J. J. Twomey and young son, of Fenelon Falls, spent yesterday in town, a guest at the Snowden House.

Miss Menzies, of Peterborough, arrived in town Wednesday to spend a month with her brother, Mr. H. J. Menzies, Sussex-st.—Lindsay Post.

Mr. Wm. Godfrey returned home yesterday from the Montreal hospital, where he has been treating for his eyes. His eyesight has been much improved as a result of his treatment.

Look Here! Just received fresh Sea Salmon, Halibut, Smelts, Lake Superior Trout and White Fish. Best brands Baltimore Oysters. J. B. OKE.

THE WHITNEY MEETING

Meeting of the Conservative Forces Next Friday Night

Perhaps the biggest event of the campaign will be held in the Opera House here next Friday night, the 18th, when Mr. Whitney, the Opposition leader, will address a mass meeting in the interest of the Liberal-Conservative candidates for East and West Peterborough. Dr. Ford, of Norwood, the Conservative candidate in the East riding, and Mr. Garvin will also address the meeting, and as all three are able and eloquent debaters there will doubtless be a large audience present. Mr. Whitney has been addressing meetings all through Ontario and has had a very successful tour. Dr. Ford is an eloquent speaker, and as he has been heard here but little before his address will be especially interesting. Mr. Whitney will explain his platform, and the public will have an opportunity of comparing it with that of the Government, as set forth by Hon. Mr. Ross.

Mr. Stenton has been invited to be present and place his views before the audience.

THE CHARITY BOARD

Meeting of Town Charity Board and Charity Committee

A joint meeting of the town Charity Board and the Charity Committee of the town council was held last night to consider the matter of Mr. Miller's resignation. Councillor Cobb occupying the chair.

Owing to a difference of opinion with the members of the board as to the method of distribution of charity. Mr. Miller, the relief officer, had sent in his resignation to the town council, from whom he receives his authority. The matter was satisfactorily settled, and Mr. Miller withdrew his resignation. Charity matters in general were discussed, and the satisfactory manner in which the charity work is performed was commended, both the board and the relief officer being given credit for it.

Children's Aid Society

The board of Management of the Children's Aid Society wish to express publicly their indebtedness to Mrs. Mann and Miss Eakins for a \$5 contribution to the funds of the society secured through their kind efforts.

Their grateful thanks are also due to Mrs. Walsh for the practical and generous assistance she has given them in their work of clothing destitute children this winter.

Mrs. Wardle recently contributed the chairs to the furnishing of the shelter and won the hearts of the children there by a treat of candy.

LATEST MARKET REPORTS

PETERBOROUGH MARKETS.

Peterborough, Feb. 11, 1898.

Paris—Close—Wheat dull at 27f 65c for Aug. Flour quiet at 59f 50c for May. Weather in France fine.

How to Cure All Skin Diseases

Simply apply "Swann's Ointment."

No internal medicine required. Cures faster, cures less, all eruptions on the face, hands, nose, etc., leaving the skin clear, white and healthy. Its great healing and curative powers are recognized by no other remedy. Ask your druggist for Swann's Ointment. Ymca, Ross & Co., Montreal, wholesale agents. Avoid substitutes.

The mission of Hood's Sarsaparilla is to cure disease, and thousands of testimonials prove it fulfills its mission well.

Severe Headaches

Resulting from Catarrh Cause Great Suffering

The Great Blood Purifier, Hood's Sarsaparilla Cures.

Sufferers from any disease caused by impure blood should never be discouraged about taking Hood's Sarsaparilla because other medicines have failed to give relief. Remember Hood's Sarsaparilla cures when all others fail. Read this statement:

"O. J. Hood & Co., Lowell, Mass.:

"Dear Sirs:—I think it my duty to let you know what Hood's Sarsaparilla has done for me. I was suffering with severe headaches daily and also with catarrh. One day a paper was left at my house and in looking it over I read of your great medicine's value to my fellow sufferers. I reasoned that if it cured them, why would it not cure me, although I must own I had some doubts about it, as I

Had Tried So Many

so-called cures which had failed even to relieve me. At last I procured a bottle and after taking all the medicine the headaches had left me and my catarrh trouble was much better. I continued taking Hood's Sarsaparilla and have derived so much benefit from it that I would advise any one troubled with impure blood to try Hood's Sarsaparilla, the great blood purifier. I feel better now than I have for years, thanks to Hood's Sarsaparilla." Mrs. E. GREY, 27 St. Nicholas St., Toronto, Ontario.

Remember

Hood's Sarsaparilla

Is the best—in fact the One True Blood Purifier.

Sold by all druggists. 50c; six for \$5.

CHRISTIAN SYMPATHY AND KNOWLEDGE

Has been the influence of saving more men and women than all other preachers could possibly do in ten centuries preaching the Gospel of Jesus Christ.

Dr. Allison's Kidney "Buds" are a remedy founded on Christian Principles, viz: Honor and Merit and ever ready to help the poor and needy.

When you take Dr. Allison's Kidney "Buds" it simply means a permanent cure from all forms of kidney complaint.

Dr. Allison's Kidney "Buds" has the prestige of Christian people behind them which is more than the glittering gold, or brilliant recommendations of certain cures which have been purchased for the purpose of getting wealth, caring nothing for the user.

Dr. Allison's Kidney "Buds" are an honest remedy sold at a reasonable price.

GREAT PRECAUTIONS

TAKEN FOR THE SAFETY OF DUBLIN CASTLE—OTHER FOREIGN ITEMS.

(Special to the Times.)

Dublin, Feb. 12.—Quite a sensation has been caused in this city by the extraordinary precautions adopted for the safety of the castle. In addition to the regular police force and soldiers, a large guard, fully armed and relieved every two hours, is placed on the castle roof, over the Chief Secretary's library. The only surmise possible is that an attempt to dynamite the building is contemplated.

COMING TO CANADA.

Prince Albert of Belgium, the nephew of King Leopold of Belgium, and heir presumptive to the Belgian throne, will accompany his uncle to the Riviera on board the steam yacht Mayflower, formerly the property of the late Mr. Ogden Goelet, of New York, but recently purchased by His Majesty. The Prince will then start for the United States.

From one of the aides de camp of the King, a correspondent of the Associated Press learns that the program of the Prince's tour is very long. He means to see almost every part of the United States and Canada, and will go from New York to California, and as far north as Seattle and Portland and back through Canada to St. John's.

The Prince intends to consult President McKinley regarding Congo affairs is unfounded.

KING MENLIK'S JOURNEY.

King Menlik of Abyssinia is preparing for a journey to the European capitals and is collecting all the objects of special artistic interest in Abyssinia, the most valuable of which he will use as gifts to the various rulers. His Majesty intends to be absent about eight months and the Government of Abyssinia during that time will be entrusted to the Queen.

THE PRINCE OBJECTS.

The list of members of the Royal Commission to represent Great Britain at the Paris exhibition of 1900, as published by the London Gazette last week, was drawn up by the Prince of Wales. The Prince having rejected the Government list on the ground that it was too clique and too Tory-Unionist and demanding that he was to be president of the commission, he should select his own associates. The Government was agitated, but requested.

RIVIERA IN CARNIVAL.

The Riviera is in complete carnival. The battle of flowers at Cannes on Thursday brought out 25,000 people. There was a large contingent of English including the Duke and Duchess of Connaught. Ten tons of flowers were thrown. The Count and Countess de Castellane participated in the festivities.

They will stop ten days at the Villa Lurmes, and then will enjoy a two months' cruise on board the Vahania, in the Mediterranean, during which they will visit Tunis and Algiers.

A DUCHESS' AMBITION.

The Duchess of Marlborough has opened a bureau at Hull in aid of the Sailors' Charities and she intends repeating the Blenheim theatricals in London during the season when the Marlboroughs will entertain lavishly, especially in the direction of politics, in which the Duke is ambitious. The Duchess is credited with a desire to revive the glories of the political salons such as existed during the thirties.

CURZON TAUNTS DAVITT

AMID CHIEFS' SHOUTS HE RE-CEIVED TO THE IMPRISONMENT OF THE MEMBERS.

(Special to the Times.)

London, Feb. 12.—Parliament opens without anything in the shape of a great sensation, but with a lively feeling on both sides of the House that matters will take a lively turn later. Most of the prophets are of the opinion that it will be a foreign policy session, the position of the Government depending very largely upon the extent to which the lobby conversation of the lobby conversation showed that dissatisfaction with the action of the Marquis of Salisbury was widespread among his supporters, particularly in regard to the Chinese and West Africa. The Parliamentary Secretary for the Foreign Office, Mr. George N. Curzon, started the session daily by making enemies. All parties resent his brutal taunt of Mr. Michael Davitt during Thursday's discussion over slavery in Zanzibar. Mr. Davitt asked if some of the female prisoners were kept in iron?

ABOVE HANDOUTS.

"Possibly they were," responded Mr. Curzon, "and perhaps the honorable member knows that there are not people in this country who are not acquainted with handcuffs." "Yes, I myself."

Then there were such cries of "shame," "shame," and "apologies," that even the usual complacency of Mr. Curzon was upset and he said: "I have no desire to be offensive, and I am quite ready to apologize for having tempted the honorable gentleman's Intervention."

At the end of his speech, Mr. Curzon said he wished to repeat his apology and Mr. Davitt raised his hat and smiled good humoredly.

SPANISH LOAN.

It is understood that Spain recently applied to Great Britain for assistance in raising a loan, to which the Marquis of Salisbury referred at the opening of the House of Lords on Tuesday, when he said that China was not the only Government which might want money.

According to the report in the Standard, the loan was in London and elsewhere and was suffering from long delay of their representatives and that the diplomats have been forced to delay the progress of their establishments.

RETALIATORY MEASURES

Trans-shipment at Fort Wrangle the Trouble

A Washington Minister says his Government may not let Armed Mounted Police Pass Through U. S. Territory

(Special to the Times.)

Washington, Feb. 12.—The question of Canada's right to transship and load goods at Fort Wrangle is under the authority of the Treasury Department, and for that reason a request was made to-day for a statement from Mr. Howell, Assistant Secretary of the Treasury, who has the matter in charge.

As to Canada's right, he said answer could not be given now, as the Treasury had the matter under consideration, and had not reached a conclusion.

It was a most important question, he added. He could not say when a decision would be reached, as it was possible Congress might take some action which would defer a decision.

As to the right of Canada to land a military force, such as Mounted Police, bearing arms, at Fort Wrangle, and send them inland, Mr. Howell said that was a matter of comity, depending on the circumstance. If the military force was for relief purposes he thought permission would be readily granted. But otherwise it was doubtful whether such permission would be granted.

SHOE STORE BURNED

PROPERTY AT BELLEVILLE DAMAGED TO THE EXTENT OF \$3,000.

(Special to the Times.)

Belleville, Feb. 12.—The stock in A. W. Venillie's shoe and shoe store was damaged to the extent of \$3,000 by a fire which broke out at 5 a.m. The loss is covered by insurance in a number of companies. The building, owned by Mrs. James Vair, Colborne, was damaged \$300. Insured in Imperial and Queen's. Adjoining premises were slightly damaged by smoke. Insured.

WHO IS RESPONSIBLE?

SOME TORONTO CITIZEN HAS DIS-COURAGED THE ILLINOIS NATIONAL GUARDS.

Montreal, Feb. 12.—Col. Turner, of the Illinois National Guards, of Chicago, which proposed to visit Canada during the coming summer, has wired a friend in Montreal that he has received a letter from Toronto advising the regiment not to visit that city, and it is expected that the tour will be abandoned. Much disappointment is expressed here, as it was proposed to give the visitors a big reception.

THE LEADER ARRESTED

SUPPOSED TO BE ONE OF A GANG WHO STOLE THOUSANDS

(Special to the Times.)

Ottawa, Feb. 12.—Charles Gagnon, supposed to be the ringleader of a bad gang of burglars, who have been operating in the villages and towns in this vicinity for some time, was lodged in the police station last night by Detective Rehillard. He is accused of being the leader of a trio who broke into McGee & Saunders' store at Kempenfelt, last November, stealing over \$1,000 worth of goods.

BRAKESMAN KILLED

NEW TRAIN HAND FALLS FROM A CAR AND IS CUT IN TWO.

Belleville, Ont., Feb. 12.—Chas. Knox, of Port Hope, G. T. R. brakeman, fell from the top of a car at noon yesterday when just west of the city. He was cut in two, and died almost instantly. He was 25 years of age, and had only been on the G. T. R. about three weeks.

GAVE UP THE BOODLE

JOE MALONEY MAKES RESTITUTION AND SECURES HIS DIS-CHARGE.

Ottawa, Feb. 12.—Joseph Maloney, the well-known pugilist, was arrested yesterday on the charge of stealing \$150 from a gentleman at the Ottawa Ice Rinks. This morning the charge was withdrawn, Maloney having returned the money.

IF YOU WISH TO BE WELL.

You must fortify your system against the attacks of disease. Your blood must be kept pure, your stomach and digestive organs in order, your appetite good. Hood's Sarsaparilla is the medicine to build you up, purify and enrich your blood and give you strength. It creates an appetite and gives digestive power.

HOOD'S PILLS are the favorite family cathartic, easy to take, easy to operate.

SMUGGLERS AWED

WHOLESALE VIOLATION OF THE LAW IN THE NORTH-WEST—A BUDGET FROM WINNIPEG.

(Special to the Times.)

Winnipeg, Feb. 12.—Dr. Barrett of the Inland Revenue Department has returned from the Mennonite Reserve, where he has been investigating the large amount of smuggling that has been going on near the international boundary. A number of the smugglers were apprehended and severely fined by the revenue officers. Twenty or thirty other convictions could have been secured but the lesson taught is a severe one, and those engaged in it are thoroughly frightened.

MR. MACKENZIE RETURNS.

Mr. William Mackenzie of Toronto returned east by this morning's express, and will proceed in a few days to England, to float the bonds of the new railway.

A SILVER MINING CRAZE.

Mr. Clifford, one of the big farmers in the Austin district, was a visitor in the city yesterday. Mr. Clifford said that the silver excitement in his vicinity is spreading. Prospectors are scouring the country, and claims are being filed daily in the Brandon Land Office.

WINNIPEG WANTS.

Mayor Andrews leaves for Ottawa to-day as a delegate to interview the Government with regard to the proposed improvement to St. Andrew's Rapids and the Edmonton route to the Yukon.

REINDEER A FAILURE.

Mr. David O'Neill, of Adams Creek, Alaska, arrived here yesterday from Lapland. He started about seven months ago on his journey to Lapland in search of reindeer. These he found in large numbers, as many as 3,000 to 5,000, and sometimes even more in one drove. He attempted to bring 33 back with him, but they all died en route, excepting three. He intended to use the reindeer to take supplies to Dawson.

PECULIAR LIQUOR SUIT

MINORS WHO LOOKED LIKE PRIZE-FIGHTERS FAIL IN A CASE.

(Special to the Times.)

Tamworth, Feb. 12.—The Town Hall was filled with a large crowd to hear the trial of Simpson Shields for selling liquor to two minors on January 25. Police Magistrate Aylsworth presided. Mr. Herrington, of Napier, appeared for the inspector, and James Haverson, of the License Holders Association, on behalf of Shields.

One of the minors, Clayton York, testified that he had called at the hotel about 6.30 p.m. on January 25, and, walking into the bar with his companion, Harry Sampson, told Shields that he was suffering from a cold, and that he wanted a glass of whiskey. He got it, and passed the bottle on to his friend, who took his glass, and the two then walked out, and went to the Methodist church. York said he was eighteen years of age and weighed 167 pounds, and also used a razor. An overcoat was borrowed from someone in the hall and the bulky York, who is fully six feet in height, stood out and showed himself.

York's father was then called to prove the son's age. He said he was eighteen, but he could not tell the year of his son's birth or his own marriage. He spoke from the record in the family Bible, which he had perused but a short time before. His evidence was not strengthened when he stated his mark to it, not being able to write.

Sampson, another strapping youth, looking fully 21, told the same story as York. In fact, he admitted that they had compared notes before the trial.

Shields entered the box and stated that he remembered seeing Sampson in the hotel about the time in question, but York was not with him. He came in to enquire about some word transaction, and went out without getting any liquor. The conversation was the same as detailed by Sampson. He denied positively having supplied either of them with liquor, although he was free to admit he would have given it to York without question on account of his appearance. After argument by counsel, the Magistrate dismissed the case.

Morning Times

PETERBOROUGH, FEBRUARY 14, 1898

FAIR AND FOUL METHODS

There are some constituencies in Ontario where the bitterest party feeling prevails, where, at election times all the old sores and troubles are brought out and made to do political service, and where no method of attack is too foul for use. There are other ridings where, though the fight may be sharp and every inch of ground stubbornly contested, yet the campaign methods used are of the mainly upright style, in which every blow is delivered in the open and where contemptible little personal innuendoes find no place. In West Peterborough hot election contests have been fought in the past but they were for the most part fair and honest fights. The speakers and writers did their work as gentlemen and did not condescend to say things of which at other times they would be ashamed. We recall these facts to remind the politicians that the electors like to see the best man win and not the man who can say the meanest things. They love the manly fighter. Nothing is to be gained by low insinuations as to any man's private character or standing, which have no bearing on the election.

Party papers as a rule follow or direct the course of their public speakers, but in many cases the columns of the newspapers are made the outlet for the political spleen and spite which the public man are afraid or ashamed to give vent to on the platform. They are better fitted than the speakers for

ness of this kind as there is hardly any way they can be called to account for their statements except through the columns of the opposing papers, and but little relief can be gained in this way for the simple reason that the columns of the partisan sheets have been prostituted so often to the exigencies of party warfare that they carry little or no influence to the public. We would like to see the newspapers especially conduct this campaign in a gentlemanly manner and thus save their own dignity without in any way allowing the cause of their candidates to suffer.

We refer to this matter because we believe the party papers of this town have exceeded the bounds of political decency in the style of their discussion. The Liberal organ of Friday evening comes out with a dastardly attack on Mr. A. P. Poussette, Q. C., in the rather futile hope that by injuring him they may injure the cause of the candidate he is supporting. It is a deliberate attempt to knife Mr. Poussette by taking a distorted view from his words and then using this false interpretation as the basis for low insinuations as to Mr. Poussette's professional methods. The articles were not written to disprove Mr. Poussette's arguments, as Mr. Stratton or his paper can do that far more convincingly without alluding to personalities at all, but evidently simply to give vent to a full measure of political spleen and hatred.

Mr. Poussette is a gentleman held in high esteem by the citizens of Peterborough, and his reputation is above injury by any veiled threats of the "If you are wise" style.

We would like to see the dignity of both the press and the platform maintained. We want more argument and debate and less personality and abuse. We like a stiff fight but a good-natured one, and as to any more of the style of political or rather personal warfare that has been conducted through the columns of the party press we would only say "Rest you, merry gentlemen."

The beginning of March is a time generally favorable to Blezards.

There is some tall hustling to be done both in East and West Peterborough between now and March 1st.

The Examiner has conceived a great regard for Mr. Hampden Burnham. We wonder how Mr. Burnham will receive its caresses.

Mr. Stratton will have an opportunity to deliver his "I" speech next Friday night. He will be the only Liberal on the platform.

The Globe of last Wednesday actually had a cartoon without a pig in it. The Globe should not ignore the great pig-gery issue in this way.

The Queen's speech where everything is "my" this and "my" that and "I" this and "I" that must be tame reading to J. R. Stratton when he thinks of his own great oration.

The great and only Stratton will have a chance next Friday night to prove the statement so often heard from Government supporters that the Opposition leaders are but small potatoes.

Mr. Stratton's triumphs in the country—especially North Smith and the regions near Haliburton—are astounding. What a famous man we have in our little town!

Mr. Garvin has got higher than he ever got before on the political ladder. He has been nominated and is even running for the Legislature. And yet the measure of his ambition is not filled.

It is alleged that Mr. Stratton threatened that a certain man in town would lose his job if he did not hold his mouth to which the gentleman replied that his job seemed a good deal safer than Mr. Stratton's.

The Tories say that after this election it won't be worth Mr. Stratton's while to take the trouble to see how the electors marked their "secret" ballots. He must be satisfied to know that a majority of them voted against him.

Mr. Green is in a difficulty as to the Moore lumber deal. He says that Mr. Stratton states the facts exactly as he does but then finishes up by stating that Mr. Green lied. Mr. Green is staying up nights figuring out how it can be.

The Examiner in speaking of one of Mr. Stratton's meetings, says that Mr. O'Connell closed his address with cheers. We have heard of Dr. Bell's famous solitary cheer, but it takes an unusually enthusiastic follower to close his own address with cheers.

Here is a vigorous exhibition of party journalism. It is from the Chatham Planet. The Banner referred to is the local paper opposed to the Planet. The Hamilton Times, edited by an ex-Banner scribe, refers to Mr. W. P. Killiskey as a "mangy dog," and the Patrons of East Kent as "fossil-Tories." We might stye the Times writer a carry-overed ruffian, but refuse to descend to his level.

Washed Overboard
New York, Feb. 12.—Ensign Jos. C. Breckenridge, of the torpedo boat Cushing, was washed overboard and drowned during a stormy passage from Key West to Havana.

THE CAMPAIGN

Meetings in the Committee Rooms Saturday Night

As the day of election draws near great excitement, especially in town, is being shown by both sides. Both candidates did a lot of canvassing Saturday and no pains being spared by either side to improve their prospects. The probable result in West Peterborough was the chief topic of discussion on the streets, but it is remarkable how much interest is being taken in the contest in the East riding, where a close contest is expected. A meeting was held at Norwood Saturday, at which Dr. Ford was formally nominated and declared the Conservative candidate.

Meetings were held at night in the committee rooms of the two candidates in this riding. At Mr. Stratton's headquarters there was a large number of Liberals to show their allegiance to "the people's darling Jimmy," who was on hand to cheer his workers. Speeches were made by Mr. Stratton, Dr. Bell and other prominent Liberals, dealing with the issues of the campaign. Both local and provincial. Mr. Stratton gave a review of his week's campaigning and expressed his confidence, as did the other speakers, that their candidate and party would again be returned to power.

At the Conservative rooms the enthusiasm bubbled over. Though the room was packed a great many stood outside in the hall trying to gain admittance. There was a constant cry of "Opera House," but the eager listeners had to be satisfied with the assurance that they would have the Opera House next Friday night. Speaking impartially, if the enthusiasm and attendance of Saturday night are any standard by which to judge the probable result of the election, Mr. Garvin will be elected by a good majority. It is necessary only to look into the committee rooms to be convinced of this conclusion. Speeches were made by Messrs. R. M. Tennistoun, A. P. Poussette, W. Miller, Andrew McNeil, W. H. Moore, John Green, Jas. Kennedy, M. P. T. E. Bradburn, F. McKay, Mr. Garvin and others. A couple of new campaign songs were sung and caused great enthusiasm. Confidence reigned supreme. Advice was given by some of the veteran campaigners and everyone was urged to keep the organization perfect. A number of points of great interest locally were brought out by the speakers. Mr. Garvin's prospects are exceedingly bright.

GEORGE PRICE'S DEATH

WAS SUPPOSED TO HAVE BEEN KICKED TO DEATH BY A HORSE.

(Special to the Times.)
Brookville, Feb. 12.—The authorities here are investigating the death of George Price, which occurred near Newbliss, the scene of the Luckey tragedy. The victim resided with his parents, and on night last week went to the stable in company with a young man named Brundidge. He was found there subsequently in such a position as to lead to the inference that he had been kicked by one of the horses in the stable at the time, and was at once removed to the house. Chief of Police Rose received information which was of sufficient importance to warrant an inquest to be held.

When the body was examined the claims of those who are urging an investigation on the ground that no marks of violence were visible, were to some extent borne out, but of course the post-mortem will likely settle this question conclusively. There was a slight scratch on one of the lips of deceased, and a small swelling on the forehead, but otherwise the body seemed to be unharmed. There are numerous stories flying about the neighborhood in connection with the affair, but as yet none of them have been traced to their source. Chief among them is one to the effect that the deceased had been having some trouble over property with relatives and a good many seem to think this the primary cause which led to the investigation.

BABY TERRIBLY SCALDED

CHILD FELL INTO A POT OF BOILING WATER WHILE PLAYING.

Amherstburg, Feb. 12.—Willie, the 2-year-old child of Jason St. Louis, bluish-mouth, of 108 Albert street, was terribly scalded in a pot of boiling water, and as a result may die. Mrs. St. Louis is at Hotel Dieu, owing to illness, and when the father went to work he started the children off to the home of an aunt. Instead of going there they went to William Langlois' residence on Sandwich street east. The five St. Louis children and neighborhood children were playing around when little Willie fell into the pot of scalding water, which had been placed on the floor. His arms went into the water nearly up to his shoulders and the water splashed over his face and neck. The muscles of the hands and arms were rendered useless, so thoroughly were they cooked. Dr. G. R. Cruickshank is attending the child.

A BANKRUPT NOBLEMAN

LORD DE LISLE A DESCENDANT OF SIR PHILIP SYDNEY, A POOR MAN.

London, Feb. 12.—The popular Lord de Lisle and Dudley, a descendant of Sir Philip Sidney, of Elizabeth's time, has been gazetted as a bankrupt. The ancestral home in Kent, the finest baronial mansion in the United Kingdom, will be closed. Lord de Lisle is a particular friend of the Prince of Wales and is exceedingly popular in London society. He offended his children a few years ago by marrying at the age of 35 a Miss Ramsey, 40 years his junior.

CHOPPED TO PIECES

A BELLEVILLE FACTORY HAND LOSES AN ARM IN A BED-PLANNER

Brookville, Feb. 12.—A most distressing accident occurred here yesterday afternoon at the Mann Manufacturing Company, Norton Olds, aged 45 years, accidentally got his right hand caught in a bed planer, and before he was released the knives had chopped the arm off in pieces within four inches of the elbow. He suffered greatly from the loss of blood, and it is doubtful if he can survive the shock.

NEW CONSERVATIVE CAMPAIGN SONG

On the first day of March—oh, how the bells shall ring,
Garvin and his followers will then begin to sing,
Jimmy Stratton will be seated, underneath his wing.
For the first time in twelve long years.

CHORUS.

Poor old Jim,
He's not in the swim,
For there'll be a hot time
In the old town that night.

A long procession then will march up the street,
Garvin at the head, he will look so very neat.
Jimmy will be sighing for he's not in this "meet."

For the first time in twelve long years.

CHORUS.

When we take the M.P.P. off "Honest" (f) Jimmy's name,
The "people's darling" (f) Jimmy, he will not look the same.
The great "I Am" will be feeling rather lame.
For the first time in twelve long years.

CHORUS.

Now all you hefty Tories be sure and be on deck,
For we're going to bury Stratton, away up to the neck,
Speeches, Letters, Lies and Slander will have a hearty check.
For the first time in twelve long years.

CHORUS.

Our school books will be cheaper in the good old bye and bye,
Humber pigs, will have more nourishment, they'll not die in the sty,
For Garvin's going in you bet, of this it is no lie,
For the first time in twelve long years.

CHORUS.

The very next time the House is called to meet,
Garvin will then be in "Honest" (f) Jimmy's seat,
And poor old Stratton will be looking very meek,
For the first time in twelve long years.

CHORUS.

When Election time again comes around,
Garvin's men "I" retain their ground,
"Honorable" Stratton will not be found,
For the first time in sixteen long years.

CHORUS.

Advertisement.

How to Cure All Skin Diseases
Simply apply "Swayne's Ointment." No internal medicine required. Cures tetter, eczema, itch, all eruptions on the face, hands, nose, &c., leaving the skin clear, white and healthy. Its great healing and curative powers are possessed by no other remedy. Ask your druggist for Swayne's Ointment. Lyman, Ross & Co., Montreal, wholesale agents. Avoid substitutes.

ments have proved its strength.

Bismarck's Brain.

Bismarck's brain, according to the estimate from external measurements made by Herr Ammon, an anthropologist, and the sculptor who made the Lion Chancellor's bust, probably weighs 1307 grammes, in which case it is the heaviest on record. Other's brain weighed 1899 grammes, Byron's 1807, Kant's 1655, and Schiller's 1590. The average weight of the brain of an intelligent European is 1328 grammes.

WHEN PLANNING GIFTS.

Make One of These Very Handy and Satisfactory Needle Cushions.

When in haste to do a little mending or other sewing, did you ever look in vain for a needle in the cushion which you supposed contained a full supply? Closer examination reveals the fact that the interior of the cushion is full of them, but you do not care at such a time to press them up into sight, and you feel like saying as I have done many times, why do people make such thick cushions? Whether the needles are run in horizontally just through the surface, or stuck in upright, they won't disappear, and woe to the fingers that give the cushion too quick pressure. A cushion especially for needles is one of the conveniences of a well equipped sewing table, and greatly to be preferred to a needle book for use when one is sewing. If the needles are always stuck into it whenever not in use, instead of running them into the edge of the table cloth or the front of your waist or leaving them wherever it is handy to drop them many less needles would disappear only to be found in some one's foot, and many finger prickles would be prevented. I recall two people who if they were to spend a morning at my sewing table unknown to me, would surely betray the fact of their presence there by the number of needles they would scatter about the floor. It is not so much the value of the needles, although this is almost equal to its weight in gold if it be the only one of its kind, as is often the case in some scantily furnished work-baskets, which I have seen. But a needle lost is like an unseen foe—you never know when it may appear, and it should always be diligently sought as soon as it disappears.

After the annoyance of using all sorts of "Charity Fair" cushions and gifts which kind meaning friends thought would suit me, I determined to try what my own fingers could fashion. Although it was nearly bedtime and the mending basket was not yet emptied, I knew the value of the inspiration of that moment. I quickly found a thin past-board box, about three inches long, two inches wide and a little less than an inch high, one of the kind in which the box slips into the cover from the ends. I cut the bottom, then set the box into the bottom, then having three thicknesses of cardboard at the bottom and two at the sides. Pieces of an old merino stocking were cut the exact size of the box and laid into the inside until well stuffed. From a piece of silk plush large enough to cover the box and edges, squares were cut out from the corners, the plush was then fitted or with a few over stitches at the corners and another piece was fitted to the bottom of the box and caught along the sides. A ribbon of the same shade and just the right width, happened to be in my mending basket; this was drawn round the edge and finished at one end with a bow. In less than half an hour my thought was complete and my ideal needle cushion was ready for use. The smallest needle will not sink more than two-thirds of its depth as the card board is an effective barrier, yet it is not hard enough to dull the points. The woolen stuffing prevents the needles from rusting and can never become rancid like meal. The cushion is light yet solid enough to keep on its base. Is of uniform thickness, and has been in every way satisfactory.—American Kitchen Magazine

Sweeping With Air

One of the greatest aids to the modern housekeeper is the pneumatic sweeper. This surprising new invention, which nobody seems to claim the honor of having discovered, and which is, therefore, open to all manufacturers, relegates the broom to the garret and takes the place of the mechanical carpet sweeper, which a few years ago was thought to be perfection.

All that is necessary to fit the pneumatic sweeper to any hotel or private house is a pipe connection for compressed air. The new sweeper consists simply of a long nozzle attached to the end of a rubber hose. The nozzle is about the same size as a broom handle.

One end of this pipe is inserted into the rubber hose, and the other carries a brass arrangement about a foot in width across the face. Here there is a narrow slit running from side to side and not more than 1/32 of an inch in width.

Through this narrow aperture the compressed air is forced at the rate of seventy-five cubic feet a minute. The housemaid using the pneumatic sweeper passes it back and forth over the surface of the carpet.—New York Herald

Around the House.

To remove fruit and vegetable stains from white cotton and linen, wash in weak chloride and then in clear water, or hold the stained portion, dampened, over sulphur fumes and then rinse in clear water.

The best housekeeper is apt to encounter stains somewhere. For all sorts the following recipe is said to be without a peer: Put a piece of white amber the size of a walnut, a piece of potash as big as a hazelnut, and two lemons cut in slices into two quarts of clean spring water. Let it stand twenty-four hours; then dampen the spot with it and wet the place with fresh water directly afterward.

Novelties in the China Shop. Patty cups set on silver standards are among the expensive trifles one may buy for Christmas gifts. The cups are of delicate china and fasten firmly into the silver standholders.

Pretty Dresden toast racks replace the plain silver ones in many up-to-date shops. They are much more decorative than the old-fashioned metal ones, and are much more easily kept clean.

Powdered sugar boxes of fine china are pretty and inexpensive. The broad, perforated top screws on firmly, and there is a graceful handle to make easy the act of sweetening the morning breakfast cakes.

THE FEMININE OBSERVER

The best sort of valentine some of us could receive would be a nice large check.

The style of a woman's walk is largely regulated by the condition of the clothes she wears.

Many of the fair sex weep when they find that they cannot get their way in any other fashion.

It is a rare couple of women, who left alone, do not discuss either clothes or some other woman.

How easy it is to say, "I told you so," the phrase being almost as disagreeable as "I thought you said."

A strong endeavor to help a friend, even when not successful, sort of warms the cockles of the heart.

Many a man looks shabby because his wife does not continually stir him to keep up to the date in his appearance.

Many a woman who thinks it a sin to mend her gloves on Sunday has no moral objection to golf on that day.

The looks of things on the table count for a great deal more than their taste if it is a woman who is to do the eating.

The only real way to love a man is not to believe anything against him, even when you have the proofs of his wrongdoing.

The main idea of a shop on bargain day terrifies a man more than if he were called to lead a forlorn hope into the very jaws of death.

It is strange how much more friendly the average person becomes after the rumor that you have come into money has been set afloat.

American families are so busy that it frequently happens that the members only get a chance to become acquainted with each other at funerals.

It is strange when we think we know a lot of foreign language that the important part of a conversation is generally the portion we fail to understand.

A man with a slight headache creates more excitement in the house than his wife would create if she were to be brought home with malignant small-pox.

They say it is a long lane that has no turning, but it seems when once you start on a run of bad luck that your feet are on the never-ending treadmill.

It is all very well to talk about managing a man without letting him know he is being managed, but it takes all the fun of the operation out of it for a woman.

The reason why many a woman looks as though she had been struck by a cyclone is because she has thought that the clothes that were becoming to another would be so to her.

As soon as some men get a swelled head they proceed to blow it off. This is slang of a very pronounced form, but there will undoubtedly be plenty who will understand it.

The woman who can fashion a pretty shirt waist out of material that costs her only fifty cents, feels that she would make a wonderful wife when she notes the announcement, "Shirt waists made to order, twelve dollars."

Any one who remembers—and who does not—those tearful moments when bad marks were received at school both from a "ruler"—one animate the other inanimate—will never be able to think what childhood's hours were the happiest.

EMISSIONS
Varicocoele, Syphilis, Weakness
and Diseased Men Cured.

20 Years in Mich. 40 Years Experience
250,000 CURED.

Thousands of young men are made nervous wrecks, unfit for business, social pleasures or home duties by evil habits in youth, later excesses, or private diseases. W. D. Andrews, of Akron, O., says: "I read this paper and have seen many reports of remarkable cures made by Dr. Kennedy and Kergan. I decided to treat with them. Indiscretion was the cause of my trouble. I was weak and nervous; no ambition; back weak; pimples on the face; thin and haggard; eyes sunken and cheeks hollow; irritable; sinking spells; specks before the eyes; lack of confidence; no energy; and many other complaints. I had tried fourteen doctors, bought four electric belts, took scores of bottles of patent medicines—all failed. I tried the New Method Treatment of Dr. Kennedy and Kergan, and it cured me. I am a Man Again. I have gained twenty-six pounds and am strong mentally, physically and sexually. It is a wonderful treatment."

Blood Diseases—with the worst symptoms: Ulcers in the mouth or on the tongue, blotches, eruptions, hair fallen out, bone pains, eyes red, stomach troubles, sore throat, etc., positively cured forever. You dare not marry until cured. Cures guaranteed or no pay. We cure Syphilis, Nervous Debility, Varicocoele, Falling Testicles, Stricture, Gleet, Urinary Discharges, Weak Parts, Bladder and Kidney Diseases. Consultation Free. Books Free.

If unable to call, write for Question Blank for Home Treatment. Everything confidential. Nothing sent C. O. D.

Morning Times

PETERBOROUGH, FEBRUARY 14 1898

AN AWFUL MINUTE

BROW ESCAPE FROM DEATH
AN ALPINE CHAMOIS HUNTER

Chamois hunting among the precipices of the Alps is attended by no lack of excitement. The author of "Spots in the Snow" while out with a keeper named Ed, wounded a buck, which escaped and was finally seen standing on a projection on the face of a precipice, gazed to the rock.

If chances of getting were now and the only thing that could be was to send the poor beast's sufferer by a shot. To do this David, after getting on his legs, sidled out a few of his boots to get a better view of the animal. The buck upon which good was not wider than ten or twelve inches, and, where he stood grew a small lichen bush, the stem not much larger round than a pencil. The least slip on his part would have sent him at least a thousand feet to the bottom of the cliff.

While thus standing, he suddenly felt his balance and as the smooth presented no hold he toppled over.

But for that tender lichen stem, which in the world could have saved him. As it was, he made one convulsive grasp at it, caught it, and so tough and fibrous are the branches of the stalker's friend, had to resume seconds the heavy man was hanging to it, clutching with one hand that life-saving bough, and dangle clear of the rock the terrible abyss.

"Singular to say, he never let go of the rock, which he held, probably quite unconsciously, in the other hand, until, by drawing himself up, he deposited it on the ledge above his head. Then when he had thus freed his hand, he did the same with his body.

"For half an hour he sat on the ledge totally unobserved. Then silently he returned to the ledge, neither of us having any desire to tempt Providence further that day."

THE ZOLA TRIAL

COLONEL PIQUET'S EVIDENCE
TAKEN AMID THE GREATEST
UPROAR.

(Special to the Times.)

Paris, Feb. 12.—At the Zola trial Col. Piquet said he believed that General Pellieux, out of respect for the Dreyfus affair, had not thought it incumbent upon him to order the Bordereau to be subject to expert examination for the purpose of the Esterhazy inquiry, and Major Ravary, doubtless unwittingly, took the same course and founded his judgment on incomplete and inadequate documents. Continuing, Colonel Piquet said: "This is why one of the members of the Esterhazy court martial said at the end of the trial, (and I admire him for his courage in saying it): 'It seems to me that the real defendant is Col. Piquet, and I ask that he be enabled to offer explanations of his conduct.'"

Replying to the presiding judge, Col. Piquet said he had received M. Le Blois fifteen times in his private office, but he witness denied communicating to him the secret document containing the words, "That scoundrel is—"

M. Henry who was recalled said that document was on the table when M. Le Blois visited Col. Piquet. General Gonse and Major Lauth corroborated the witness, and M. Le Blois denied having been shown the document. M. Laborie pointed out contradictions in M. Henry's evidence, and Major Ravary's report, whereupon M. Henry advanced excitedly upon M. Laborie and shouted: "I will not tolerate your casting suspicion upon my evidence."

Colonel Piquet protested against M. Henry's language, whereupon the latter shouted: "I aver that Col. Piquet has lied in this matter."

A SCRUBBING SERVICE

THE VICAR PREACHED WHILE HIS CONGREGATIONS WASHED

The "scrubbing service" announced by the Vicar of St. Laurence, Birmingham, took place as suggested, says the London Daily Mail. Women commenced to drop in singly and by twos and threes, until at 4 o'clock there were fifteen or sixteen present, and later in the evening the number was increased to thirty.

The workers were not all of the female sex, for one of the churchwardens joined in the fray, and showed an acquaintance with brush and mop which augurs well for the cleanliness of his own domicile.

The Vicar opened the proceedings with prayer and a very brief address. He commented on the publicity which had been given to his announcement, and was rather surprised that some of the papers considered it a novelty. It should be borne in mind that the Church of England had some definite teaching about cleanliness of churches. He referred to the thirty-fifth Article of Religion which directed the second Book of Homilies to be read in churches so as "to be understood of the people, and pointed out that the third homily was entitled, "Of the cleansing and keeping clean of churches." It evidently was the intention of the Church that her sanctuaries should be kept clean and that the people should be plainly told their duty in the matter. The Vicar commented upon the criticism of one newspaper writer, who asked: "Would it not have been better for the Vicar to have employed a number of women for the purpose of cleaning the church?" The answer to that was that the funds of the church did not allow of such payment to be made, and even if he had the money the aid of the parish would be entitled to the first claim.

He would rather see all the churches cleaned and kept by willing hands, actuated by loving hearts, than by hired laborers.

Generally speaking, the husbands of the workers were very indulgent, and in some cases willingly undertook the duty of minding the children in order that the wives might assist in cleaning the church. But one old fellow, who put his head inside, seemed to think that an excess of zeal was being displayed. Gazing at the perspiring form of his spouse, he remarked cynically: "If her can scrub as hard as that for nothing I reckon her shall go out and do it regular."

Get More and You Get Less

Why is it every sarsaparilla which tries to sell itself, ranges itself against Ayer's as the standard? Why is it that all have to offer extra inducements—bigger bottles, fancy wrappers, cheaper price—anything, everything, but the one inducement of quality?

Ayer's Sarsaparilla

has never been equaled by any cheap imitation of it, and quality tells, just as blood tells.

It is the Standard.

"I have sold Ayer's Sarsaparilla for more than twenty-five years, and have never heard anything but words of praise from my customers; not a single complaint has ever reached me. A preparation must possess great merit to maintain such a reputation. I believe your sarsaparilla to be the best blood purifier that has ever been introduced to the general public. I often hear other manufacturers say that this is 'as good as Ayer's,' but no one ever yet heard it said that Ayer's was 'as good' as any other kind. They always sell Ayer's up as the standard of excellence."—B. F. Boyce, Duluth, Minn.

PICK-UPS IN PASSING

The world has 200,000 postmasters. Fingerails grow at the rate of rather more than 1-2 inches in a year.

The average amount of sickness in human life is nine days out of the year.

It is claimed that Lake Erie produces more fish to the square mile than any body of water in the world.

One hundred and forty-eight soldiers are in possession of the Victoria Cross.

Birthdays were kept even as far back as the time of Pharaoh.

China possesses the largest and richest coal mines in the world.

As a rule, a man's hair turns gray five years sooner than a woman's.

A pelican's pouch is large enough to contain seven or eight quarts of water.

It is computed that a hundred-weight of lead is fired for every man killed in battle.

It is a Chinese custom to inaugurate a business venture with a display of fire-works.

WORDS OF WISDOM

—He that promises too much means nothing.
—He that marries for wealth sells his liberty.
—He that lives on hope has but a slender diet.
—He that lieth upon the froward can fall no lower.
—He that makes a good war makes a good peace.
—He that is too proud to ask is too good to receive.
—He that plants trees loves others besides himself.
—He that is sure for another is never sure himself.
—He that looks too nicely into things never lives easily.
—He that is well sheltered is a fool if he sits out to the rain.
—He that leaves the highway for a short cut commonly goes about.—Compiled for good housekeeping.

POND'S EXTRACT

WILL CURE

PILES

"I have long known its value in bleeding piles. It is the prince of remedies in all forms."—Dr. A. M. COLLINS, Cameron, Mo.

OATARRH

"Have been a constant sufferer from years from severe colds in head and throat. Tried most every known remedy. Pond's Extract relieved me wonderfully, and has effected almost a radical cure."—FREDERIC E. FINCH, New York City.

SORE EYES

"It acts like magic in ophthalmia. I like it so much for sore eyes."—Rev. M. JAMESON.

LAMENESS

"I strongly recommend Pond's Extract for lameness and use it constantly."—MICHAEL DONOVAN, N. Y. Athletic Club.

SORENESS

"Had a large eating sore on my ankle, which had eaten to the bone. For nine months I doctored to no purpose. Tried a bottle of Pond's Extract, and was cured immediately."—MINNIE V. NATTA, Lockport, N. Y.

BR. 388

"Pond's Extract has been used with marked benefit by our inmates in many cases of bruises, and has always proved very beneficial."—LITTLE SISTERS OF THE POOR, New York City.

OPRINS

"I have been prescribing Pond's Extract, and find it a valuable remedy in strains and affections of the character."—W. P. BURDICK, M.D.

BURNS

"Had my left hand severely burned and lost the use of it completely. Secured relief by use of Pond's Extract in twelve hours."—Mrs. A. SHERMAN, New York City.

HEMORRHOIDS

"Am troubled with hemorrhoids from lungs, and find Pond's Extract the only remedy that will control them."—GEORGE W. WARNER, Scranton, Pa.

INFLAMMATIONS

"I have used Pond's Extract in a case of long standing internal inflammation, and obtained relief within a few hours."—JAMES E. READE, Philadelphia.

and should be always kept on hand for emergencies.

"Long experience has taught my family to regard Pond's Extract as one of the absolute necessities of household."—ANDREW D. WHITE, President Cornell University.

BEWARE OF IMITATIONS. See Landscape Trade-mark on Buff Wrapper.

MADE ONLY BY

MAYOR'S OFFICE.

Mr. Davis will be at the Town Offices, from 9 to 10 o'clock, each morning to meet those having business to transact.

A. L. DAVIS,
Mayor

Morning Times

PETERBOROUGH, FEBRUARY 14, 1898

TOWN AND COUNTY NEWS.

Wanted
An experienced general servant wanted. Apply at once at 525 Water Street.

Look Here!
Just received from Sea Salmon, Halibut, Smelts, Lake Superior Trout and White Fish. Best brands Baltimore Oysters. J. B. OKE.

Cheese Board Meeting
The annual meeting of the Peterborough Cheese Board will be held on Saturday, Feb. 19th, at one o'clock in the Town Council Chamber.

Religious Fair
McQuay, Baple & Co. are selling the most delightful pastry in town. Opposite Adam Hall's.

The Duty on Logs and Palisades
The above question was ably debated at the Y.M.C.A. Debating Club Friday evening. A number of excellent speeches were made. Messrs. Ray and Bell were the leaders. Next Friday there will be no meeting. There will be a Mock Parliament on Friday evening following. Announcements later.

How to Cure All Skin Diseases
Simply apply "Swaine's Ointment." No internal medicine required. Cures better, eczema, itchy, all eruptions on the face, hands, arms, etc., leaving the skin clear, white and healthy. Its great healing and curative powers are surpassed by no other remedy. Ask your druggist for Swaine's Ointment. Lyman, Sons & Co., Montreal, wholesale agents. Avoid substitutes.

All New and Fresh
Our Figs, Nuts, Dates, Grapes, Lemons and Oranges are all new stock, and we can give you best value in all these we carry. J. B. OKE.

Piles! Piles! Itch! Itch!
Symptoms—Moisture, intense itching and stinging; most at night; worse by scratching. If allowed to continue, tumors form, which often bleed and become very sore. Swaine's Ointment stops the itching and bleeding, heals ulceration, and in most cases removes the tumors. All druggists, or by mail, for 50 cents. Dr. Lyman & Sons, Philadelphia. Lyman, Sons & Co., Montreal, wholesale agents.

DISTRICT AND LOCAL TOPICS

Reporter's Phone, 161 B.

—Colder.
—Police court.
—Prospects of more snow.
—Epworth League meetings at the churches to-night.

—There was only a fair-sized market Saturday morning. Most of the produce offered brought good prices.

—Gough's Klondike window and the elections were the two chief topics of conversation on the streets Saturday.

—Mr. Louis F. Post, a prominent exponent of the single tax reform, will deliver a lecture in the Opera House to-morrow evening.

—Hardwood is selling at low prices this winter and there is a large supply. There is but little tamarac or swamp wood being offered.

—Rev. E. Roberts, of Omamee, chairman of the Lindsay district Epworth League conducted both services at the Mark street church yesterday.

—The Liberals of Ashburnham open their committee rooms in J. C. Sullivan's old store to-night. They do not intend to let Mr. Biehard's interests suffer.

—A. Cunningham & Co., of Charlotte street, have in their window a beautiful 18x20 picture of the Business College pupils. The workmanship on this picture reflects great credit on the new firm.

—A little daughter of Mr. I. Elliott, Solwyn, met with a painful accident last week by striking her face against a scythe which was leaning against the wall. Her cheek was laid open and Dr. Fraser, of Lakefield, had to put eight stitches in the wound.

POLICE COURT NOTES

Happenings of Interest Around the Hall of Justice

An Armenian woman was charged at the Police Court Saturday morning with peddling without a license. The Magistrate, after hearing her case imposed a fine of \$20 and costs, as the woman was unable to pay the fine, her pack of goods was seized in payment.

The apparent severity of the punishment is due to the fact that the town has been flooded with cheap goods by these Armenian men and women, greatly to the injury of legitimate and long established businesses in the town. These people make their peddling a cloak for the soliciting of charity, and, as the matter had become considerable of a nuisance many complaints were made to the police. The law against peddlers must be enforced against these people as against any others, as it is the only way to stop their illegal practices.

Mr. John O'Neill a well known citizen of town, was sent up for examination as a lunatic. The old man is over 80 years of age, and having become of unsound mind, and at times dangerous, it was not deemed wise to allow him to remain at liberty.

A case of wilful injury to property between residents of the north end of the town was remanded till to-day.

Organ Recital
After the evening services in St. John's church yesterday a sacred organ recital was given by Mr. Percy Owens, the organist of the church. There was a large congregation present, and all waited to hear Mr. Owens' music. Mr. Owens is a careful student of his art and has met with deserved success. He has genuine musical talent and his playing is marked by a strong and vigorous touch and sympathetic expression. Mrs. Parker, a great favorite on account of the sweetness of her voice, also sang a solo. The program was as follows:

Offertoire in E Flat, Wele.
Fugue II in G Minor, Bach—Percy Owens.

Solo—"There is a Green Hill Far Away, Gravel"—Mrs. Parker.
Offertoire in D Major, Ratis—Percy Owens.

An Interesting Speaker
Mr. R. Rautenburg, a converted Jew, occupied the pulpit of the Charlotte street church at both services yesterday. Mr. Rautenburg is a clever and forceful speaker and held the attention of his auditors closely to the end. At the morning service he preached an eloquent sermon and in the evening he told the story of his conversion from the Jewish faith to Christianity. Master Bertie Rautenburg, his nine-year-old son, sang at both services. He has a voice of wonderful sweetness and power. Mr. Rautenburg will deliver a lecture in the Charlotte street church to-night.

Sheds collapsed
The sheds of the Commercial Hotel, adjoining Water street, fell in Saturday morning owing to the weight of the snow on the roofs, which had been made heavier by the downpour of rain. As the collapse took place before any teams had been placed in for the day no damage was done to other property. Citizens should see that too great a weight of snow does not accumulate on the roofs of their buildings, especially on old or unsound ones.

BEETON'S PROGRESS

THE LIVELY LITTLE TOWN VOTED UNANIMOUSLY TO HAVE ELECTRIC LIGHT.

Beeton, Ont., Feb. 12—A by-law for the establishment of an electric light system for this town and for the county House of Refuge, which is to be built here this year, was voted on yesterday, and carried by a unanimous vote.

THE DIVINE SARAH

HAS A SORT OF CANCER AND A DOCTOR WILL CUT IT OUT

Paris, Feb. 12—Mme Sarah Bernhardt has long suffered from internal pains, and Dr. Pozzi will next Wednesday perform an operation for the removal of a fibroid growth, which has been complicated by irregular menses and the strain of constant travel. Mme Bernhardt is in capital spirits, and Dr. Pozzi is confident of success.

Y. P. S. C. E. CONVENTION

The Bay of Quinte Conference in the George Street Church.

The above convention will be held in the George street Methodist church, on the 23rd and 24th of this month. The following instructions have been sent to the Times for publication:

Question—Who may attend the convention?
Answer—Everyone.

Question—Who have votes as delegates?
Answer—All Leagues or Methodist Young People's Societies, whose aim and methods of religious work are similar to those set forth in the Epworth League Constitution, shall be eligible for representation and entitled to vote, the scale of representation being one official delegate for twenty members or fraction thereof. Let each society send one or more delegates. Please appoint them at once and forward the names to W.G. Clarke, B. A., Peterborough.

Board—Boarding houses are being provided. The rate is 75 cents per day. Lists of boarding houses, directions, etc., will be given to delegates on their arrival at the Convention church.

Railroad rates—Let everyone coming to the convention purchase a single fare ticket and procure from station agent at starting point a standard certificate. To secure this one must travel at least 21 miles or 21 days ten minutes before time for train to leave.

Music—The Rines Bros., Hamilton, the celebrated singing evangelists, will sing at all the sessions of the convention. Miss Myrtle Hendron, Lakefield, has also consented to sing during the convention.

The new Canadian Hymnal will be used at all the services.

PRESENTATION

An Address and Paper Presented to Rev. Father Fitzpatrick

A number of the gentlemen of the congregation of St. Peter's cathedral drove up to Young's Point yesterday with a surprise for Rev. Father Fitzpatrick, who lately left town to take charge of that parish. Father Fitzpatrick was a universal favorite with the people of town and especially with the younger members of the congregation here. His departure from town was greatly regretted, and to show the esteem in which he was held a deputation of the members of the congregation drove up yesterday and presented him with a well-filled purse and a farewell address. Rev. Father Fitzpatrick, though taken completely by surprise, thanked his friends for their kind remembrance and expressed the pleasure it gave him to know that he held such a high place in their regard.

TRENT VALLEY CANAL

The Government to be Petitioned to Aid

The municipalities along the route of the Trent Valley canal are taking steps to send in petitions to the Dominion Government asking it to make an appropriation in the estimates sufficient for the completion of the canal between Kirkfield and Lake Simcoe. This is one of the most important links in this canal and would give access to a large area of territory.

It is to be hoped that all the municipalities will take prompt action to keep the claim of the people of Central Ontario before the Government. It is important that the work should not be allowed to lapse and it devolves upon the municipalities to see that the agitation is continued.

The Pucelle's Visit

There was a good congregation at the evangelistic service in the Baptist church Tuesday night. Mr. Pucelle spoke with eloquence and power from Titus II: 11-14. There were several enquirers after salvation. As the meetings draw near the close the workers have begun to estimate the results. For four weeks crowds have listened to the best bible truths set forth with genuine originality and absolute faithfulness. Scores of enquirers have sought the way of salvation. More than a hundred people have been baptized. The good news message of everlasting life for the believer and of a three hour number have publicly confessed their faith in baptism. Mr. Pucelle will preach each evening this week until to-day, when he will hold his farewell meeting. Tomorrow Post.

W. M. C. Notes

A number of services and meetings were held at the Y.M.C.A. yesterday, good attendances being present at all of them. The Y.M.C.A. under its present management for the very active and is attracting large numbers of young men to take an interest in work which many of them formerly neglected. At 4:15 Mr. T. H. Baker, formerly Assistant Secretary of the Railroad Branch Y.M.C.A. Toronto, addressed an open meeting on the subject, "A Young Man's Query," and delivered an interesting talk to those present. At 3 in the afternoon the General Secretary's bible class met and discussed the topic "Practical Repentance." A good attendance was present and an interesting discussion took place. The Boys' Training Class also met at 4:15 in room No. 3 for their usual lesson.

OBITUARY

Death of Mr. Charles Dudenham at the N. Ch. Hospital

Mr. Charles Dudenham, who was for many years a familiar figure on the streets, and was also well known throughout the county, passed away at the Nicholls' Hospital early Saturday morning. He has been ill for some time and for the past few months has been confined to the hospital. Mr. Dudenham was an Englishman and was 65 years of age. He had resided in this county since 1850. He was a gentleman farmer and for many years lived on a farm on the Warsaw road, afterwards removing to town. Mr. Dudenham always took a great interest in affairs relating to Great Britain, and his funeral to-day at 3 o'clock from the hospital will be under Sons of England auspices.

The Staff of Life

McQuay, Baple & Co's bread is pronounced to be first-class. Only 10c for a large loaf.

Pure Blood

Every thought, word and action takes vitality from the blood; every nerve, muscle, bone, organ and tissue depends on the blood for its vitality and condition.

Therefore pure blood is absolutely necessary to right living and healthy bodies. Hood's Sarsaparilla is the great blood purifier and the best Spring Medicine. Therefore it is the great cure for scrofula, salt rheum, humors, sores, rheumatism, catarrh, etc.; the great nerve, strength builder, appetizer, stomach tonic and regulator.

Morning Times

PETERBOROUGH, FEBRUARY 15, 1898

Who owns this Peterborough anyway? J. R. Stratton.
Who made it what it is? J. R. Stratton.
Who keeps it alive? J. R. Stratton.

Where is it? Some distance south of Galway.
What is Peterborough? The place where J. R. Stratton is elected.

Are there any men living in Peterborough? Yes; J. R. Stratton.

Has it any history? It was first known twelve years ago, when J. R. Stratton found it.

For what is Peterborough important? It provides a seat in Parliament for J. R. Stratton.

They're not going to give Bismarck a chance next Friday night.

Stratton is sure of victory. The Examiner says he is the man for Galway.

It is an open question whether Mr. Stone or the Garvin chorus can make the more noise.

The little incident that took place at Overend's bar is causing considerable comment.

Mr. Stratton is being accused in many quarters of using Tammany methods in this campaign.

That's the word if you work in a hotel.

If you don't do as I say you'll get fired. See!

Bismarck thinks that he can cross the Ford easily enough.

Mr. Garvin did not wait till 9.45 to enter his committee room last Saturday night. This is a new departure.

East Peterborough Liberals say that Ford took a long time to get his courage up.

It is to be hoped that Mr. Stratton will not let his cause suffer by having another engagement on Friday evening.

It is pretty hard to convince the man who didn't get the job that the party hasn't been irretrievably injured by the appointment.

What about the alleged revelation of the names of 60 of the voters of Peterborough?

Those scholars of the South Central school who wrote that latest campaign song had better look out, or they will lose their jobs.

All ye men who are in any way in Mr. Stratton's power by virtue of the kind of position you hold had better keep quiet or there will be a separation of your head and body.

A wealthy young lawyer of Chicago spent two days and two nights over one case and at the end of that time could not tell which side he was on. It was a case of champagne.

Mr. Garvin says that there are not enough horses in the county to draw Mr. Stratton to one of Garvin's meetings. Mr. Stratton should take the hint out of this boast at the coming Whitney meeting.

Our great legislator, whose qualities fit him to take a foremost place in the councils of the nation, will, no doubt, cover himself with glory by vanquishing poor Whitney next Friday night.

A Mexican who was sentenced to life imprisonment in the Kansas State Penitentiary won the heart of the nation of the institution, who persuaded the Governor to pardon him and then married him. This will soon become the style in Canada at present rate of administering justice.

The next original poem by Hon. G. W. Ross will begin:

Where Yukon's icy mountains
Roll down their golden sand,
The Grits will now deliver
To McKenzie and to Mann.
—Preston progress.

The Liberals of Peterborough read the Examiner; the Conservatives read the Review. All fair-minded men of both sides read the Times. Its election news is non-partisan. It sees everything from an independent standpoint.

The Examiner says that mere "book-larnin'" won't take the place of natural aptitude for affairs. This latter characteristic is peculiar to the great Stratton, no doubt. Especially for some particular kinds of affairs—some kinds that other people are glad not to be adapted to.

Some strong-minded persons, incited by recent local political developments, have expressed their belief that we seem to be living in Russia, but more general observers aver that the mildness of the weather lately makes this belief untenable.

One man is prepared to bet that he can prove to the satisfaction of "any reasonable committee of men" that Mr. Garvin started the sectarian references at Ennismore. Another is equally prepared to prove that Mr. Stratton did it. That is all very fine, but they know that just now it is impossible to collect any "reasonable committee of men."

In the absence of the regular golf editor, the following question from a beginner was referred to the turf editor for an answer: "In a game of golf is it better to fuzzle your put, or is it better to fetter on the tee?" The turf editor set his teeth firmly, stared hard at the wall in front of him a few moments, and wrote the following reply: "In case a player angulates his iron it is permissible for him to fuzzle his put, but a better plan would be for him to drop his guppy into the pringls and anoddlie it out with a niblick."—Chicago Tribune.

Aylmer Sun: "Hurrahing is good enough in its place, and a little of it while a political fight is going on helps to keep up or kindle enthusiasm, but it never won a battle. It is more appropriate after the victory has been gained. Quiet, persistent work will accomplish more than shouting." That's all right enough, but this "quiet, persistent work is the kind of thing that brings on the election trials in the courts, at which the members are uneased. It is the kind of thing generally done in the quiet of the night."

Mr. John Armstrong, the Labor orator of Toronto, speaking at Guelph the other night, said that "he has been connected with the press for twenty odd years, and he didn't believe that a political editor could write the truth for forty-eight hours and hold his situation." It is fair to say that for "twenty odd years" Mr. Armstrong has been employed on party papers, and it may be that his conclusion is a very natural one under the circumstances.

LETTERS TO THE EDITOR

(The Times holds this column open to the free discussion of public affairs. It is understood, however, that these letters are not the opinions of the paper, and that we are in no way responsible for anything herein contained.)

A Campaign Feature

To the Editor of The Times:

Sir,—Knowing that your paper is open for the free and fair discussion of all matters of interest to the public I desire to call attention to the rumor circulated about the streets Saturday of interest to all people having at heart the preservation of the public morality of Ontario. I know no other means by which to have the matter brought to light than by appealing for information through the columns of your paper. If the report circulated is true it is but right that the general public should be made cognizant of it. If it is false, and no one hopes more heartily than I that the accusation is baseless, then the matter should be put down as a falsehood.

It was stated on the street Saturday by a citizen of Ennismore that after Mr. Stratton's meeting at O'Reilly's school-house whiskey was produced and his supporters present were treated to a Liberal supply of Canada's curse. This took place, it is alleged, after Mr. Garvin and his supporters had left. There was a gathering at a residence in Ennismore and it is said that one or more of the men went there after the meeting in an intoxicated condition, the effect of the liquor distributed by parties from town.

Any occurrence of this kind would have a deep influence on the result of the election, and I feel that, in justice to Mr. Stratton, the statement should be put to rest.

Hoping that the accusation may be disproved, I remain, One-who-was-present.

A Woman to Women

She Has Reason to Believe that Paine's Celery Compound is the Best Medicine in the World

MRS. ALLEN HAS RID HERSELF OF NERVOUSNESS AND NEURALGIA

She Says:

"After Using Seven Bottles of the Compound I am Well and Strong"

Paine's Celery Compound Gives Health and Good Looks to Sick Women of Every age

Wells & Richardson Co.,
Dear Sir,—I give you great pleasure to testify to the fact that Paine's Celery Compound has caused a remarkable change in my condition. For ten years I have suffered from nervousness and neuralgia, and have used medicines of all kinds without finding relief.

Your Paine's Celery Compound was recommended to me, and after using seven bottles I find myself well and strong, and can rest and sleep with ease and comfort. I believe it to be the best medicine in the world, and I always recommend it with pleasure.

Yours truly,
Mrs. A. Allen, Ramsay, Ont.

In country roads and in the town, the riding of roadsters is a popular sport. It is the farmer's chief pleasure to see to it that at least the work of road improvement does not obstruct the convenience to his fields. Making it easy for the farmer to use any part of his farm is for him about the most necessary part of road improvement. Out of the field into the road he will each year draw many loads, besides the loads of manure which he draws into it. A plowed ridge or ditch obstructs the entrance to the field which wagons will be unable to pass. If a ditch is required in the roadside opposite to a gate the path under may be of great use. A very it at that point into a slueway, with stone or the passage for the water. An underdrain beside the road, the feet decay, with great chronic, the best way to improve road and, whatever the method adopted, the farmer should see to it that road improvement does not obstruct gateways that he has to use.

One day recently, as a teamster was slowly working his way through the quagmire known as a country road between the Cummings hill and Fossil, he espied a hat in one of the ruts in front of him. As the headgear appeared to be in fully good condition he dismounted to pick it up. As he raised the hat he was astonished to hear a voice from under it exclaim: "Hold on! That's my hat!" As soon as he had gathered his breath and wits the teamster asked: "What are you doing down there?" which brought forth the reply: "I'm in big luck to be where I am. There's a horse underneath me."

Meditation...

While contemplating how you can be cured of that Rheumatism you are troubled with, be it Acute Chronic, Muscular, Solistic, Lumbago, or Gout, make up your mind and use "the only known positive cure, that has never failed," namely, "NEW LIFE" Medicine cure guaranteed to be had at our Laboratory 21 Jarvis street, Toronto.

NEW LIFE Send for free pamphlet.

For the Skating Rink.
Skating sets are to be all the vogue. A stylish skating set suitable for wear at the rink consists of a hat, bonnet and muff. The hat is made of deep violet velvet, and fits closely to the head, something like a peasant girl's cap. It is edged with a narrow band of marten. In the direct front two white birds are caught. They look as if they had just alighted upon the fair wearer's hair. The bonnet is made of fluffy loops of black chiffon, edged with pipings of violet satin, and nestling among the soft folds are the heads of furry little animals. Sometimes these small animals have wonderfully brilliant eyes, made of rhinestones, perhaps, or they have gleaming yellow eyes of topaz. The muff is a most elaborate affair. It is made of shirred violet velvet, finished at each side with a gorgeous fringe of violet satin in a shawl or two lighter than the muff. For the trimming elaborate tails are curled in various shapes, with the ends of two or three tails dangling below the muff.

A Hint to the Middle-Aged.
If women would but realize it, no one but very young women should wear a broad-brimmed hat; the shading of the features with such a broad brim helps to accentuate every line and wrinkle.

Piles! Itching Piles
Symptoms—Moisture intense itching and stinging; most at night; worse by scratching. If allowed to continue tumors form, which often bleed and ulcerate and become very sore. Swayne's Ointment stops the itching and bleeding, heals ulceration, and in most cases removes the tumors. All druggists, or by mail, for 60 cents. Dr. Swayne & Son, Philadelphia. Lyman Sons & Co., Montreal, wholesale agents.

SCORING A HOG.

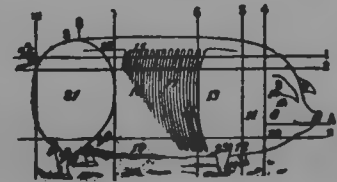

H. A. Jones, Sec'y International O. I. C. Record Association, Shows How With Figures and Explanation.

In the course of pure bred stock breeding comes many a new idea, which may be beneficial to the breeder. It is advocated to-day by many that "there is more in feed than breed," and this same old adage will ever be handed down from generation to generation, without doubt, by those who do not, by nature and education, understand the principles of stock breeding. In dealing with this subject, I shall not endeavor to go over the entire subject, but concentrate upon the one branch of the industry and deal only with the hog. There is presented here an outline cut of a hog, and I will endeavor to show before closing these papers, that the axiom "Breed first and then feed," will ever be the guide to success. I realize full well there are many choice blooded hogs in this country, that for the block will bring "just as many dollars as the pure bred." This we all admit, but the facts go to prove the finest grade is valued only for pork, and the finest pure bred is valued least for pork. The grade, then, is never worth more than for pork, or its products, while the pure bred, no one can tell the value of as a breeder.

In the outset, I desire to say these papers will not be written in the interest of any particular breed of hogs, nor any undue respect shown to any breed or breeder. This is a free country, and we all have our likes and dislikes, not only in grade hogs, but in pure bred as well. I propose also to show wherein we can improve our hogs and the condition of our breeders—by adhering more closely to the principles underlying the breeding of pure bred.

During the past half century much has been done to bring about desirable results in pure bred swine. Some prefer black, others not spotted or white. While some prefer the large hog, others prefer the smaller or medium; but when the desired results are asked for, all agree that the hog that will make the greatest number of pounds of pork for the food consumed, in a period of six or seven months, and have sufficient bone to carry the carcass, is the most profitable for the general markets and the average farmer.

This may be true to a certain extent.

POINTS OF A HOG.

The following Roman figures denote the lines showing how to score a hog: A, 1-2-3-4-5, 7-8-9-10. Line A shows the head upon level running parallel with mouth. 1 shows upper and outside back line. 2 shows head and tail line. 3 shows lower side or upper of belly line. 4 shows neck and head line division. 5 shows neck and shoulder line division. 6 shows shoulder and side line division, and where to get heart girth. 7 shows side and a line division, also shows center of loin and flank. 8 front ham line. 9 rear ham line, both lines meet at dot on front of back. 10 shows the stern of back square of outline. All other figures are to denote the various other figures are to denote the various divisions on the score card.

and I believe it is; but it is not conclusive. To illustrate: There are two brothers who have an equal amount of this world's goods—lands of equal value and improvement—and they make a break for existence. One is a careful, painstaking, practical conservative man and devotes his energy to study his business, invests his money in the right places, and applies his findings to profit in his own business. He breeds pure bred stock of all kinds, commencing with only a pair or trio, and in the course of time every year or two makes an addition to his herd, by exchange, or otherwise, of a good one. He avoids promiscuous breeding and breeds for a purpose solely of owning the most profitable breeds of stock he is able to get. He has at the end of the year a value he cannot count, while his dollars may be counted as many as his brother's.

The brother is a careful, easy-going, unbusinesslike, hard-working man, very conservative, and a little doubtful that he will not get as many dollars in immediate benefits as he is called upon to pay, and he pursues the policy, "get brother's money and I'll reap the profit." He pursues that course and finds his investment worth no more in ten years than when he commenced, and is then forced to realize: there are ever changing conditions beyond his control, and that he must wake up and hustle or he will soon be a back number. While his brother sowed and reaped abundance, he simply sowed and reaped his harvest, year by year. His herds and flocks were the same each year, and he could see no very marked improvement. He had no outside calls, at good prices, on his own land, now or then from his pen, simply for the reason he grows only ordinary common stock.

Now, is this not a waste of one's capabilities? If not, what is it? Do you desire to improve your herds? Then investigate. Procure some good dams, all of the pure breeds, and a good sire, all of the highest standard of excellence which your purse will allow you to get, and from some reliable breeder, who is not afraid to open his stock book and show you the record of the breeding of any particular animal, and who is not afraid to sign any of his choice breeding stock upon a written guarantee that the animal possesses a certain number of desirable points, and is of the breeding certified by the secretary of the Record Association shown by certificate of registry, and of which there can be no doubt, and that satisfaction is then guaranteed to you by every member of the association, under which your animal received his record number.

Now come the points. What are they and how ascertained? Whatever breed of cattle, sheep or swine you desire to purchase, ask the breeder to send you the by-laws and rules of the association in which his animals are recorded, and then study out for yourself what the quality of the stock is which the breeder has to offer, and does offer you. Then require the breeder to certify the animal scores (or possesses) a certain number of points, and to be registered as such, and satisfaction guaranteed to you, and you will have no cause to regret the purchase. It is a veritable saying: "Put up the horns, that the hogs can't get out." The various Record Associations offer you the bars. Will you use them for your benefit? Then, in case you are not satisfied, your remedy is to appeal to the association where the animal is recorded, after the breeder fails to rectify any dissatisfaction he may cause.

In the foregoing, you have the fundamental points of pure bred swine as ascertained by the score card, as follows: Let, first by: The person who controls the breeding.

THE FEMININE OBSERVER

The best sort of valentine some of us could receive would be a nice large check.

The style of a woman's walk is largely regulated by the condition of the clothes she wears.

Many of the fair sex weep when they find that they cannot get their way in any other fashion.

It is a rare couple of women, who left alone, do not discuss either clothes or some other woman.

How easy it is to say, "I told you so," the phrase being almost as disagreeable as "I thought you said."

A strong endeavor to help a friend, even when not successful, sort of warms the cockles of the heart.

Many a man looks shabby because his wife does not continually stir him to keep up to the date in his appearance.

Many a woman who thinks it a sin to mend her gloves on Sunday has no moral objection to golf on that day.

The looks of things on the table count for a great deal more than their taste if it is a woman who is to do the eating.

The only real way to love a man is not to believe anything against him, even when you have the proofs of his wrongdoing.

The main idea of a shop on bargain day terrifies a man more than if he were called to lead a forlorn hope into the very jaws of death.

It is strange how much more friendly the average person becomes after the rumor that you have come into money has been set afloat.

American families are so busy that it frequently happens that the members only get a chance to become acquainted with each other at funerals.

It is strange when we think we know a lot of foreign language that the important part of a conversation is generally the portion we fail to understand.

A man with a slight headache creates more excitement in the house than his wife would create if she were to be brought home with malignant small-pox.

They say it is a long lane that has no turning, but it seems when once you start on a run of bad luck that your feet are on the never-ending tread mill.

It is all very well to talk about managing a man without letting him know he is being managed, but it takes all the fun of the operation out of it for a woman.

The reason why many a woman looks as though she had been struck by a cyclone is because she has thought that the clothes that were becoming to another would be so to her.

As soon as some men get a swelled head they proceed to blow it off. This is always a wonderful thing when one notes the announcement, "Shirt waists made to order, twelve dollars."

The woman who can fashion a pretty shirt waist out of material that costs her only fifty cents, feels that she would make a wonderful wife when she notes the announcement, "Shirt waists made to order, twelve dollars."

Any one who remembers—and who does not—those fearful moments when bad marks were received at school both from a "ruler" and from the other inmates—will never be able to think what childhood's hours were the happiest.

NERVOUS, DESPONDENT, WEAK, DISEASED MEN.

Cures Guaranteed or No Pay

YOUNG or MIDDLE-AGED MEN—You may have been the victim of Fall Abuse when young. Late Excesses or exposure to blood disease may have completed the work. You feel the symptoms stealing over you. You dread the future. You know you cannot be a man mentally or sexually. Why not be sure in time and avoid the sad experience of other wrecks of this kind? DR. KENNEDY'S METHOD OF TREATMENT WILL CURE YOU AFTER ALL ELSE FAILS.

Emissions, Varicocele and

Syphilis Cured

W. E. KENNEDY, M.D.

Before Treatment After Treatment

"At the age of 31 I commenced to run down. I had a severe blood disease, syphilis, I was weak and nervous, despondent, purple, emaciated, bone pains, sleep, hair loss, sore throat and mouth, drops in urine, varicocele, was a wreck. I was in the last stage when a friend recommended Dr. Kennedy's Method. A dozen other doctors had failed in curing me. Dr. Kennedy's Method cured me in a few weeks by their New Method Treatment. I would give similar glowing testimonials to all who would try it. They are reliable, honest and ethical physicians." W. E. KENNEDY.

Morning Times
PETERBOROUGH, FEBRUARY 15 1898

In raising ducks, says Farm and
Home, set the eggs under hens; when
hatched remove to a box lined with
straw and keep in warm place with
the sunshine possible. When two
days old put in a board pen during
lay time. Feed bread soaked in water
and pressed dry. Do not give them
water to swim in until three weeks
old. Dust with Permalin in
fact powder once a week;
then four weeks old feed on corn
bread soaked in sweet milk; young
fowls out fine and mixed with
their feed are healthy. After four
weeks old they will thrive on almost
any diet and will grow with less water
swim in than is generally supposed
keeps water or drinking as
are and clean as possible, cleaning
ten and putting gravel in the dish
the water is kept. Ducks in my ex-
perience have been more profitable
chickens.

Mixed Metaphors.
A very amusing collection of mixed
metaphors by well-known French au-
thors has been brought together by Th.
de la Revue. The following are
a few specimens:
"You recognize
mother's hand in Mlle. Marguerite
de la Revue."
"Ezekiel trans-
lates and comments on sacred verse
reads with one eye. He writes
in the other."
"He seized him with
a hand by the throat, and with the
other he spat in his face."
"His birthday present was
a phenological head, all painted
blue, and marked with letters down
the throat."
"I amper, describing Egyptian
fists: "Their feet are as large as
mine."

How to Cure All Skin Diseases
Apply "Swaine's Ointment."
Internal medicine required. Cures
eczema, scabies, all eruptions on
face, hands, arms, etc., leaving the
skin clear, white and healthy. Its
action and curative powers are
proved by no other remedy. Ask
for Swaine's Ointment.
Sole Agents, Montreal, whole-
sale and retail.

Coughs That May Kill
Can be cured instantly—easily—in
5 or 10 days—by a few pleasant doses
of Swaine's Cough Syrup.
It only costs 25c at any drug-
store, and cures your cough!

A CLEVER FELONY

THE STORY TOLD BY AN EX-CHIEF
INSPECTOR OF SCOTLAND YARD.

For nearly half a century the Ameri-
cans have been our masters as experts
in all the shady byways of crime.

We seldom hear of the cleverest rogues
belonging to this country "bringing
off" anything on a large scale in
America, or indeed in any other coun-
try but their own; unless it be on the
turf or in connection with it; whereas
the American forger, robber, swindler
or sharper seems to have us at his
mercy at almost any time, and in "his
own smart way."

It is in connection with their exceed-
ing cleverness I am about to relate one
of the most audacious ventures.
In the year of the First Exhibition
(1851), London was flooded with these
gentlemen, Bankers, brokers, merchants
and others were being "had" by the
dozen; and to make matters worse few
captures were effected.

Our police had only been in existence
some twenty years, and was chiefly re-
cruited from country towns and vil-
lages; consequently the force, with few
—very few—exceptions, was composed
of men totally unable to cope with the
smartness of the Yank.

True, the city possessed Mike Hyden,
and Great Scotland Yard Charley Field
(Dickens' Inspector Bucket), and a few
others; but they were simply good at
very ordinary cases. They had their
business to learn, and the Americans
laughed at them with a vengeance, but
not until the clever rascals had success-
fully taken their departure from our
shores. Then, and not till then, the
detectives knew "how it was done."

By a singular—some might feel in-
clined to call it a plural—coincidence,
two of the wealthiest jewellers in Lon-
don—one in the city, the other in the
West End—had the upper parts of their
premises "To Let." By another singu-
lar or plural coincidence application
was made on the same day, and at the
same hour, to the occupiers of the pre-
mises for the first floor; and in each
case by Americans. The references
proving highly satisfactory, possession
was taken in each case. As the pro-
ceedings adopted by both parties were
exactly similar, it will be sufficient if
I confine my remarks to the West
End establishment.

The firm to Reuben & Co., was con-
sidered the principal of its kind, and
was patronized by the leading families
of aristocracy. Its stock of precious
stones was estimated in value at many
thousands of pounds. In addition to
the gorgeous display in the window,
the effect was heightened by the display
of the Royal Arms over the door, with
the motto, "Honi Soit qui Maly Pense,"
thereon. This motto evidently was ac-
cepted and believed in by the great
jewellers; for, upon Rixon & Co., the
great American bankers' agents, taking
possession, they were immediately wait-
ed upon by the principal, who tried his
best to bring about a good stroke of
business. He was, however, only par-
tially successful, as Rixon & Co., only
indulged to the extent of a twenty
pound diamond ring. They were good
enough, however, to inform him that
before they left London they would get
him to supply one of the largest or-
ders on record. Mr. Reuben was de-
lighted, and informed them that any-
thing but lay in his power was at their
entire service.

So matters went on—mutual friend-
ships sprang up, Rixon & Co. were in-
vited to inspect the stock of Reuben &
Co., and in return Reuben & Co. were
invited to inspect the books of Rixon &
Co., the eminent American bankers' agents.

Reuben & Co. were astonished at the
"big" business done by their tenants,
and congratulated themselves upon
having on their premises such men of
mark.

The business transacted by the trade-
men during the exhibition was really
thing extraordinary, and taxed their
time and energies to the utmost. This
was probably the cause of Reuben &
Co. taking little notice of the few call-
ers to Rixon & Co. These simply num-
bered two, but as they paid several
visits daily, and much fuss was made
when they took their departure, it
seemed as if important transactions
were being carried on. And so there
were; but not in the way anticipated
by the eminent jewellers.

Messrs. Rixon & Co. had now been in
possession of the first floor for nearly
three months. Quarter day was ap-
proaching, and of course it would be
necessary to hand over the rent to the

landlord.

"Bankers, London & U.S."
Needless to say all got clear away
with their booty.

"FREUHLER & CO.,
"Bankers, London & U.S."
Needless to say all got clear away
with their booty.

A Common Cold

and common carelessness can make a
combination strong enough to defy
all the healing skill of the physician.
Common carelessness lets the cold
root and grow. Common carelessness
says, between paroxysms of cough-
ing, "It will be all right in a day or
two," and the common end is con-
firmed lung trouble, perhaps con-
sumption. The common-sense treat-
ment of a common cold is a prompt
dose of Ayer's Cherry Pectoral. It
is the most efficient and reliable cure
for colds and coughs, and is con-
stantly prescribed by physicians.

S. JAMES, M. D., Saratoga, N. Y., says:—
"I have used Ayer's Cherry Pectoral in my
practice since 1853, and have always found
it reliable for the cure of colds, coughs, and
all lung diseases."

Ayer's Cherry Pectoral

Free advice on any disease from our eminent
physician. Address, Medical Department,
J. C. AYER CO., Lowell, Mass.

Jewelers. As they were not quite in a
position to do this they decided upon
action of a different kind.

Reuben & Co. closed their premises on
Saturday night at 10 o'clock, not open-
ing them again until 9 on the following
Monday morning. No one belonging to
the firm slept on the premises, so that
the Americans had the house to them-
selves. For some time past massive
trunks and strong handbags had been
delivered to the occupiers of the first
floor, which to the eyes of Reuben &
Co. seemed as if business was steadily
on the increase up above.

One Monday morning, on the manag-
er opening the shop, or strong room
which it really was, he was amazed to
find the place perfectly empty, with a
round hole in the ceiling sufficiently
large to admit of the passage of a man's
body. He saw everything at a glance.

The first floor—Rixon & Co.—were
expert American thieves.
It was impossible for them to gain
access to the shop in any other way,
as the walls and flooring were composed
of plates of steel. The only weak point
was the ceiling, and this the clever
rogues easily found out. Not a vestige
of the property the place contained on
the Saturday night was visible on the
Monday morning—the clearance
was perfect.

The police were communicated with,
with the result that information reach-
ed them of a similar robbery having
taken place in the city; and in a pre-
cisely ingenious kind of way; and what
was more extraordinary still—exactly
at the same time. There was no get-
ting away from the solid fact. The
four men were accomplished American
robbers working in concert.

The next step taken was to call upon
the references. These gentlemen, who
were Americans also, had not opened
their offices on the Monday morning;
so that a liberty was taken by break-
ing open their door. On one of the
decks was a slip of paper containing
the following:
"Being suddenly called away, we will
be obliged to any one taking the
slightest interest in our affairs if they
will kindly call upon Rixon & Co., care
of Reuben & Co., the celebrated West
End jewellers, who will afford them
every information."

"FREUHLER & CO.,
"Bankers, London & U.S."
Needless to say all got clear away
with their booty.

Electoral District of the East Riding
of the County of Peterborough,
to Wit:

PUBLIC NOTICE IS HEREBY GIVEN
to the Electors of the Electoral Dis-
trict of the East Riding of the County
of Peterborough, that in obedience to
Her Majesty's Writ to me directed, and
bearing date the Second day of the
month of February, 1898, I require the
presence of the said Electors, at the
TOWN HALL, in the VILLAGE OF
NORWOOD, on the

22nd Day of the Month of Feb.

1898, at One o'clock p.m., for the pur-
pose of electing a person to represent
them in the Legislative Assembly of
this Province; and that in case a poll
be demanded and allowed in the man-
ner by law prescribed, such poll will be
opened on the

FIRST DAY OF THE MONTH
OF MARCH

In the year 1898, in each of the Town-
ships, Wards or Polling Subdivisions in
which a polling place is to be opened
and kept according to law, of which due
notice will be given on the Day of
Nomination. Of all which every per-
son is hereby required to take notice
and to govern himself accordingly.

Given under my hand at Peterbor-
ough, this third day of the month of
February, in the year 1898.

The Fertilizing Club
Professor Hutton, of the Toronto University, will lecture under the auspices of the fortnightly club, in the Y. M. C. hall on Thursday evening next, at 8.15 p.m. His subject will be, "The Roman, the Greek, the Englishman and the Frenchman." Prof. Hutton is one of the foremost lecturers in Toronto, and he should be welcomed to Peterborough by a very large audience. Admission free.

Leave your orders for marmalade oranges at the Spot Cash Grocery to-day.

The Staff of Life
McQuay, Baple & Co's bread is pronounced to be first-class. Only 10c. for a large loaf.

Diana forget to order your marmalade oranges at the Spot Cash Grocery.

The Burning of Green Wood
Every one who enjoys sitting by a wood fire must have observed how the wood splutters and hisses and frequently gives off little jets of flames and again the pieces crackle and fly off at a considerable distance. This is caused by the water in the wood which, confined in the cells, becomes heated and generates steam. It is a curious fact that intense heat and intense cold produce fractures in various substances. In the most extreme cold weather it is not uncommon especially if the cold has come on suddenly, to find trees that are split from the ground to the top by the action of frost. Freezing expands the water in the cells of the wood, and so suddenly in this case that the trees burst as would a pitcher or mug in which water was confined.

DISTRICT AND LOCAL TOPICS

—Mr. W. L. Allen, who is with his servants in Rowanville, recuperating is steadily improving, but has not yet decided when he will return to Peterborough.

—Mr. Henry Rudolph, representing "The Isle of Champagne" opera company, was in town yesterday in the interests of his company, which appears at the opera house here on Monday night next.

—Two boys found drunk on Saturday were discharged with a warning.
—Two young men were fined \$5 each at Police Court yesterday for being drunk and disorderly. Two others were discharged.

OBITUARY

Death of Mr. John Hickey an old Resident

One of Peterborough's oldest residents, Mr. John Hickey, of Elm street, passed away yesterday after a long life of 80 years. The deceased was a native of Ireland, born in the city of Limerick, and came to this country, settling in Peterborough, in 1847. He has lived here ever since and was well known to a great many of the citizens of the town. Old age brought on paralysis, which was the cause of his death. He has worked for a long time in town as a laborer and was much respected by all who knew him. He leaves a family of grown-up sons and daughters.

The funeral takes place at nine o'clock to-morrow morning from the family residence, No. 71 Elm street, to the Roman Catholic cemetery for interment.

Leave your orders for marmalade oranges at the Spot Cash Grocery to-day.

THE FORESTERS

High Court of Canadian Order of Foresters

The High Court of the Canadian Order of Foresters will meet here next week, commencing on Tuesday, 22nd. About four hundred delegates will be present. The high court will be in session for at least three days. Mr. H. Gunmer, of Guelph, is the High Chief Ranger.

The sessions will be held in the Court House. During the week an entertainment, at which Miss Jessie Alexander and Mr. Geo. E. Fax will take part, will be held.

Leave your orders for marmalade oranges at the Spot Cash Grocery to-day.

Sgt. Major Rundle has just received word from the Department of Militia that a claim which he entered for a "Veterans of '66" medal will be productive of the desired result. The Sgt. Major served in the spring of '63 on the New Brunswick frontier, being the military secretary of Sir Charles Hastings Doyle, who was in charge of a brigade composed of a battery of artillery, a corps of engineers and the 17th Regiment of Halifax. The brigade took up quarters at St. Andrews, on the St. Croix river, and guarded that portion of the Dominion from invasion of the Fenians of Maine. The Sgt. Major would be pleased to hear from any other veterans who served under the same commander.

Leave your orders for marmalade oranges at the Spot Cash Grocery to-day.

Look Here!
Just received from Sea Salmon, Halibut, Smelts, Lake Superior Trout and White Fish. Best brands Baltimore Oysters. J. B. Oke.

Delightful Feasts
McQuay, Baple & Co., are selling the most delicious pastry in town. Opposite Adam Hall's.

Men and medicines are judged by what they do. The great cures by Hood's Sarsaparilla give it a good name everywhere.

THE JEWISH PEOPLE

An Interesting Lecture on the Jew in the Charlotte-St Church

Mr. B. Rautenburg, a Jewish Traveller, Converted by Messrs. Crossley and Hunter Describes His People

Mr. B. Rautenburg, a converted Jew, delivered a lecture before a large audience in the Charlotte street church last night on the Jews. The speaker had an interesting subject for there is no people on the earth to-day which causes so much wonder in the minds of Christians as the Jews. Their strange and checkered history is so different from that of any other nation and their characteristics are so peculiar that they are an unfailing source of interest. Mr. Rautenburg being of Jewish race himself understands them thoroughly and being a fluent and clever speaker his lecture was found very interesting by the audience. Seeing matters through Jewish eyes causes him to take an optimistic view of his people. His race is strong within him and he can see the earth only as it affects the Jew. He is a man of learning and advances some peculiar doctrines regarding the faith of his people and Christianity. In opening his address Mr. Rautenburg traced the history of the Jewish people from the time of Christ. He showed how as the ages went on they were persecuted and scattered by the nations of Europe. They were taxed in Germany and expelled seven times from France.

In every land they are prohibited from holding land and sending their children to schools and universities. This is why they follow trade instead of agriculture, and many of them have taken to the jewellery business as this way is the only means to prevent the confiscation of their goods. In England, France, Russia, they have been expelled. It is the Christian nations alone that do this. They are free among the Mohammedans. In Christian nations they are either enslaved or banished. The world has choked them. The tribe of the weary has wandered long and become scattered throughout the whole world. They have been hunted by all as if they were infamy of mankind, and yet a people ineffaceable they remain, and are distinct from all other peoples on the world to-day.

Their ancient enemies have disappeared, yet the Jews are as strong as ever in political unity. The Jewish tribe is the miracle of men. Their vigor, mental and physical, is marvellous. They must have been endowed with this by God. It is in their blood. Their birth-rate is greater and their death-rate much less than among the Gentiles. The speaker quoted figures to prove this. Unlike all other races they have not degenerated either mentally or physically in the centuries. This vitality is their chief characteristic. Though hated by all, they have exerted a greater influence in the world than all other nations combined. Christianity sprang from Judaism; it brought out the elemental principle of monotheism or one God. Secondly, they gave the great prophets. From them came the great Christ. It was God's given all the great teachers of the New Testament. Matthew, Mark, Luke, John, Peter, Paul, and all the others came from the despised Jew.

Their influence has also been great on learning. In the world to-day they have risen to great positions. It was God's given all the great teachers of the New Testament. Matthew, Mark, Luke, John, Peter, Paul, and all the others came from the despised Jew.

Their influence has also been great on learning. In the world to-day they have risen to great positions. It was God's given all the great teachers of the New Testament. Matthew, Mark, Luke, John, Peter, Paul, and all the others came from the despised Jew.

Their influence has also been great on learning. In the world to-day they have risen to great positions. It was God's given all the great teachers of the New Testament. Matthew, Mark, Luke, John, Peter, Paul, and all the others came from the despised Jew.

When the Jews again regain possession of their own land they will grow until they inhabit the earth. They shall bring all the Gentiles into touch with them and make them children of Abraham. God has kept Palestine for his people—for those whom He is keeping for it. God means the words of the Bible regarding the Jews literally. People should not spiritualize the words of the Bible. God means them just as they read. This is proved because everything in the past has been the fulfillment literally of his words.

The speaker dealt with the social condition of the Jew to-day. Before they came to their own again there shall be a great shattering of nations. Great calamities are coming. The Jews are streaming back to Palestine. He urged the listeners to help in evangelizing his people. He thought all the churches should send missions to the Jews. The wonderful transformation which Christianity is working in the world to-day ensures the salvation of the Jew and the uniqueness of the Jew ensures the ultimate triumph of Christianity.

—Mr. Bernie Rautenburg, the speaker's nine year old son, sang several selections. He has a voice of wonderful power and sweetness. Little Lola Ostrom delighted the audience by her splendid reciting. The numbers were given as follows:
Solo, Master Rautenburg.
Recitation, Miss Lola Ostrom.
Instrumental, Mr. Percy Owens.
Solo, Master Rautenburg.
Recitation, Miss Lola Ostrom.
Solo, Master Rautenburg.

DIED IN LONDON

FRANK HOLMAN, OLD THEATRICAL MANAGER, WELL KNOWN IN TORONTO, DEAD.

(Special to the Times.)

London, Ont., Feb. 14.—Frank Holman, the last of the well known Holman brothers died at his home on Saturday morning, aged 76. Mr. Holman was for fifty-seven years a resident of London. With his brothers he started the Holman Opera Company, and was for at time connected with them in their Opera house here. When his brothers went to Toronto Mr. Holman left the theatrical business. A widow and six children survive him.

Morning Times

PETERBOROUGH, FEBRUARY, 16, 1898

Dr. Ford has a big stream to swim in East Peterborough.

A candidate who resorts to open intimidation shows to the public that his case is desperate.

Both Mr. Garvin and Mr. Stratton are hard fighters but their campaign methods are widely different.

Mr. Stratton's reputation has been somewhat up till it has no longer any connection with the man.

Great will be the fall of the Tory party in West Peterborough if Mr. Stratton wins the election.

As long as the roads (or it may be only the dollars) last in Galway Stratton's fame will never die.

Reformers think that the Conservative battle cry on election night will be that kind of crying that is accomplished by tears.

Stratton's the man for Galway. O great and mighty Stratton! What come he has achieved! His name is mighty throughout the earth.

The hope deferred for twelve long years doth not seem to have the heart of the Conservative party sick. The machine is running well this election.

"Honorable" Stratton has been beaten over and over again in the Conserva-

tive committee rooms within a month. Doubtless he will be easy on election day.

'Twas ever thus. Andree, having started for the North Pole with one balloon and failed to return, another explorer is preparing to go in search for him with a dozen balloons.

Clifford Sifton has only to grow no wiser, and in a few years if sharpers continue active, he will have enough material at hand to make a residence out of gold bricks.—Toronto Telegram.

The Examiner—taken as an authority by many of the Liberals in Peterborough—says that it is not so easy to stuff this ballot boxes as to pack meetings. A rather suggestive statement.

J. R. Stratton should have Galway made into a separate electoral riding with himself as permanent member. It is the only place where he could lay any claim to the right of being returned unopposed.

The Ontario Palladium is responsible for the following: "The advantages of advertising are clearly proved in the case of an Ohio man who advertised in a newspaper for a 'harmonicon' and was presented by his wife on the following night with twins."

The Chatham Planet suggests that the Ontario Cabinet Ministers have the authority of the Bible for the method of their appointments. For the good book says, "He that provideth not for his own, and especially for those of his own house, has denied the faith, and is worse than an infidel."

The growing spirit of independence in the political parties is something to rejoice over. It bodes ill to the corruptionist in high places and to those in authority who, if they could, would govern the country in the interest of corporations or monopolists. There can't be too much independence in the political parties. It does much to keep politics sweet.

Since June 23, 1896, the Premier's condition appears to be not unlike that described by St. Paul when he says, "For, what I would that I do not; but what I hate, that I do." And Sir Charles Tupper appears to be in much the same position, but the one is hampered by "circumstances" and the other by his followers.

The evils that men do live after them; the good is oft interred with their bones. The Conservatives are looking with spy-glasses to find some good done by Stratton. If they can find any they will bury a little of it with his remains on the first of March. But Mr. Stratton thinks they are trying to enter his good while he is yet very much alive.

The Times is an independent paper and hopes that no one will accuse it of being partisan because it quotes the words of Ontario's greatest Liberal. Even the Tories may be enlightened by reading the following words of Sir Oliver Mowat as reported in the Globe of Dec. 20, 1886: "The occasion is one in which Conservatives and Reformers should unite in order that there may be here in Ontario a Government independent of the Government at Ottawa."

The Decline and Fall of J. R. Stratton is being written in advance by some Conservative party leaders. A few chapters are done every Saturday night. It is a purely imaginative work copied after the style of Edward Bellamy's Looking Backward. Whether the last chapters will ever be written is a matter of uncertainty as the whole basis of the story depends upon an event yet to take place. Some of these writers, it may be remembered, were not remarkably successful in the prophetic role at by-gone elections.

DOURO

Council Meeting.—The council met at a call from the reeve. Members all present. The minutes of the previous meeting were read and confirmed. The Auditor's statement for 1897 was presented, showing a balance in the hands of the treasurer on the 31st of December, 1897, of \$144.74, and the amount of assets over liabilities of \$613.25. The report was confirmed and the clerk was ordered to get 200 copies printed for distribution amongst the ratepayers, and have the abstract advertised. Also that the auditors be paid the sum of \$9.00 each for their services.

On motion of Mr. Maloney and Mr. Condon, the collector was instructed to receive the taxes charged against Thomas Flynn, less the statute labor tax.

The time for the collection of the balance of the taxes of 1897 was further extended to March 21 next.

Michael Maloney was appointed a commissioner to put up the fences at both ends of the road through the swamp between lots 5 and 6 in the 7th concession, also to post up notices at both ends of said road stating that the road is unfit for public travel.

Applications Received.—from Timothy Sullivan, re the road in front of a 1-2 of lot 18, con. 5. Referred to the Council of ward No. 1. From James Maher asking to have the road through the 7th concession between lots 5 and 6 opened up. Laid over for consideration. From Albert Carpenter, re the keeping of Mrs. Dunning, an indigent person. Laid over for investigation.

Council adjourned to March 21st, then to meet at 10 o'clock, a.m.

Leave your orders for marmalade oranges at the Spot Cash Grocery today.

VALENTINE'S DAY LORE

VARIOUS QUAIN, ODD, OLD CUS-TOMS AND TRADITIONS.

St. Valentine's day is so called for the martyr Valentine, who was beheaded by the Romans on the 14th of February. The word "valentine" as we use it—has two meanings. One, a sweetheart or choice made on St. Valentine's day; the other, a written or printed message of an amatory or satirical nature, sent on his day—generally anonymously. A notion that has prevailed from the earliest time is that on this day birds begin to mate. Shakespeare mentions this, as does Chaucer in his Parliament of Fowls.

St. Valentine has been generally accepted as the patron saint of lovers, and concerning no other day (except perhaps the eve of All Saints) there are so many pretty and quaint customs and traditions. On that day the air is "cloyed with sweetness" and Cupid's arrows and bleeding hearts are everywhere.

One odd, old custom of this day was the placing of names of maids in a box by the bachelors and vice versa by the maids. Each then drew out a name, and the one drawn was to be her or his valentine for a year. Tradition saith, that the men sometimes stuck faster to the valentine than the maids.

Another quaint and old custom in rural districts was for a young man and woman to be betrothed on the first Sunday in Lent, the promise being annulled if the young man failed to give the young woman a present or entertainment before mid-Lent.

Another practice quite popular in the South in ante-bellum days was for the aspiring swain to arise at dawn and stand under the window of the object of his affection, so that he would be the first one her eyes would fall upon in the morning. Then she, of course, was to take him for her valentine for a year. These limited engagements frequently ended in life partnerships.

What happened in the event of several aspirants for the favor of the same young woman standing under one window "deponent saith not."

One wonders whether our nineteenth century gallants would curtail their morning nap for a glance or a smile.

THE WOMAN OF TASTE

WHAT SHE LIKES AND WHAT SHE DOESN'T LIKE.

"Madame Qui Vive" rises in the Westminster Gazette, to notice the "woman of taste" does not hang everything she possesses on her neck-chain or chutaine to jingle like the purveyor of muffins and crumpets, because it is "smart" to sport some bibelots there.

She will not wear collars as high as a fence, as if afraid of draughts or bullets.

She does not wear an animals head on her furs, cutting it about like a hunter with his trophy—she did not kill that last rabbit; we are not deceived.

She does not wear six half-hoop diamond rings, all nearly of the same pattern, nor heavy bracelets, nor thick, massive gold in any form.

She prefers a scrap of real lace to a cascade of imitation.

She does not buy an evening cloak met with in many shops that has a border of cheap, white coque feathers. It's name I know not, but it much resembles a hen in anger.

She knows when and where not to wear her coat and skirt.

Her skirts rustle discreetly, and do not herald her approach.

She knows the value and charm of simplicity; that defects of figure may be concealed by cleverness of construction as well as by overloading with ornament.

She regards her hat in the light of a component part of her whole costume, as well as in that of a special framework for her face.

She is never photographed in the pose of a tragedy queen.

She listens to all fashion says, and selects its applications to herself.

She goes to the mirror more for candid friendship than flattery.

She knows her limitations; what she can and cannot wear, however much it may be "smart."

THE MOTHER OF GLADSTONE

SHE WAS "RONNIE MISS ROBERTSON BEFORE HER MARRIAGE."

Gladstone's mother was a Highland lassie before she married Sir John Gladstone, the Liverpool merchant prince.

There are still some old people left who recall those long-ago summers in the beginning of the century, when "Ronnie Miss Robertson" as she was called by young and old, was the belle of Dingwall. By these she is remembered as a young lady of winsome manners, high accomplishments, gentle disposition, and passionately devoted to her husband's work.

When she became a wife she did not forget her native town, and as often as possible made visits to the old home, along with her young family residing on those occasions with a relative, Mrs. Chisholm, of Bridge House.

Berlin's Numerous Divorces. It is a fact relatively little known that Berlin, in the matter of divorces, beats all the other capitals of Europe and is surpassed only by some of the States of America. The exact figures are: In Berlin, 32 divorces to each 10,000 marriages; in Utah, 98; Montana, 75; Wyoming, 70; Colorado, 67; Nevada, 62; Oregon, 45; Washington, 40; California, 45; Idaho, 40; Illinois, 33; In Europe, however, Berlin exceeds all other large cities, Hamburg being the next with 27. Paris shows 21 per 10,000. For the whole of France the figures are now 8.5 against 3.1 up to 1884, adoption of the Noguez law of divorce. Switzerland shows 29.9; Denmark, 17.1; Saxony, 15.7; or the Swiss Confederation, 14.4. The lowest figures in Prussia are shown by Westphalia with 3.7; Hanover, 3.2; Mecklenburg shows 3.7; Baden, 3.3; Hungary, 3.1.—Chicago Record.

Fit to Stick! Sticking Piles. Symptoms.—Moisture intense itching and stinging; most at night; worse by scratching. If allowed to continue tumors form, which often bleed and become very sore. Surgery's Ointment stops the itching and bleeding, heals ulceration, and in most cases removes the tumors. All druggists, or by mail, for 50 cents. Dr. Swaine & Son, Philadelphia. Lyman Bros & Co., Montreal, wholesale agents.

Donna forget to order your marmalade oranges at the Spot Cash grocery.

ALASKAN BLIZZARDS

FOUR DAYS OF STORM—A SCORE OF PERSONS PERISH ON THE COLD PACIFIC COAST.

Juneau, Alaska, Feb. 8, via Seattle, Wn., Feb. 15.—During the last four days a terrible blizzard has been raging along the coast, from the head of the Lynn Canal to Fort Wrangel. Accounts differ as to the number of the blizzard's victims, varying from 17 to 27. There is no means at present of getting at the facts.

TREES

Our stock is as good as the best.

Having an unusually large stock of trees, vines, bushes and plants, both fruit and ornamental, of our own growing, we are compelled to extend our trade, which has hitherto been chiefly confined to the Niagara district. Having no agents we have no fancy prices to protect, and to offer at very low rates to be in touch with the times.

Price list free on application. Dealers and Jobbers orders packed with care and de-patched cheaper than elsewhere. Sock guaranteed free from San Jose Sale. Let us price your wants. We guarantee satisfaction. All Canadian grown stock.

Town Treasurer's Sale of Lands for Taxes

1897

1897

TOWN OF PETERBOROUGH.

BY VIRTUE OF A WARRANT, under the hand of the Mayor and seal of the Corporation of the Town of Peterborough, and to me directed, bearing date the Eleventh day of December, in the year of our Lord One Thousand Eight Hundred and Ninety Seven, I am commanded under authority of the Consolidated Assessment Act of 1892 and amendments thereof, to levy on the lands hereinafter mentioned and described, for the Arrears of Taxes due thereon with the costs as hereinafter specified, as directed by the said Act. These are therefore to give notice that unless the said Arrears and Costs are sooner paid, I will pursuant to the said Act, proceed to sell by Public Auction at the Town Council Chamber in the Town of Peterborough on Thursday the Twenty Fourth day of March in the year of our Lord, One Thousand Eight Hundred and Ninety Eight, at the hour of Ten O'clock in the forenoon, so much of the said lands as is sufficient to discharge the Taxes and all lawful charges incurred in and about the sale and the collection of the Taxes:

ALL THE UNDERMENTIONED LOTS ARE PATENT E.

THE TRUST FACE.

Here is a Composite Picture of It—Study It.

Observe the Trust Face, says The New York Journal. Before you is a composite picture of seven men who are not only among the richest in America, but who control the price of seven of the necessities of civilized life. The names of these men and the commodities they control are:

HENRY O. HAVEMEYER..... Sugar
JOHN D. ROCKEFELLER..... Oil
PHILIP D. ARMOUR..... Beef
J. PIERPONT MORGAN..... Coal
ANDREW CARNEGIE..... Steel
JOHN ARBUCKLE..... Coffee
CHARLES R. FLINT..... Rubber

When you look at this composite picture you see the face of the most successful man who could exist, according to the standard of rich men.

THE TRUST FACE.

The basis of the photograph is Henry O. Havemeyer, the "Sugar King." He is chosen because he has the most typical face of the group.

The richest man in the composite picture is John D. Rockefeller, but he does not have a great effect on it. His features lack strength, although they have a curious sharpness. He is tall, thin, round shouldered, wears a mustache only, and has a dull and careworn look. It has been said that he looks more like a country clergyman than a millionaire. The reason of his success is hard to gather from his face. The most reasonable answer seems to be that there is genius behind it.

Mr. Rockefeller is by many believed to be the richest man in the world. His fortune has been conservatively estimated at \$200,000,000. Of that only a small part, perhaps a fourth, consists of stock in the Standard Oil Company, but as he is the leading spirit of that organization, his power of influencing capital is almost unlimited.

Philip D. Armour of Chicago has the strongest and most attractive face of the lot. He supplies beef to about three-quarters of the people in the United States and to a large part of those of Europe. Fifty or sixty thousand people receive direct support from his meat packing establishment alone. J. Pierpont Morgan, generally recognized as the ablest financier on Wall street, has found time among his multifarious occupations to organize a combination which profitably controls the supply of anthracite coal from Pennsylvania.

Andrew Carnegie, of Pittsburgh, controls the prices of steel rails through out the world.

To John Arbuckle, of the Coffee Trust, the composite picture is indebted for flowing whiskers. Charles R. Flint, of the Rubber Trust, is remarkable for very fierce, black side whiskers.

A PLACE FOR URNS.

A Classic Temple For the Ashes of the Dead.

Cremation evidently has not overlooked the love of the beautiful in man in its endeavor to provide for the disposal of the dead. The new Odd fellows' columbarium at San Francisco is a demonstration of this fact, as the picture and description from The Call of that city, shows. The Call says: "The structure was original and unique in design and cost about \$15,000. The ground plan of the columbarium shows a circular building, carrying the outer dome intersected at the four cardinal points by rectangular wings. Between these four wings are four quadrants formed by outer walls, concentric with the inner wall, but running up only as high as two stories inside of the main circular wall is a series of eight piers, carrying with them two galleries, or arcades on their outer periphery, and peeling on the inner circumference a spacious rotunda, clear from the floor to the lantern dome. In this way the building becomes divided into well-defined portions—central rotunda, main galleries, wings and quadrants."

Standing on the mosaic floor under the mellowing light of the great stained glass window in the dome overhead, no one will be conscious of the vast number of niches in the galleries and wings around him to be at some time stored with the ashes of thousands of the dead. This impression is much enhanced by the use of heroic materials. On the gallery parapets stationary urns are set, forming a part of the architectural scheme of the rotunda. These are of alabaster and bronze, while the mortuary tablets below are of white Italian marble. The main stairway is of granite and bronze and the entire floor of colored marble mosaic.

The niches are of cement, varying in size, and ranging along the brick wall, one above another, in not more than five rows. The niches are framed in light bronze with doors in front, left open or covered with marble slabs to suit the taste of the purchaser. It will

COLUMBARIUM FOR THE ASHES OF THE DEAD.

be possible to buy groups of niches of any number required and have them all covered with one comprehensive tablet, on which may be engraved any device or inscription the owner chooses. There will be great variety in the size and position of niche space. Space has been reserved on the exterior of the building, as the front pilasters, in the vestibule, and in the columns of the rotunda. These spaces will be disposed of at higher rates, according to their location and prominence.

The whole exterior of the building is finished in artificial stone of the lightest color possible. The design is Italian renaissance in character, and similar in feeling and motive to the crematorium.

Bismarck and Gladstone

Gladstone's malady is almost exactly like that from which Bismarck has suffered for so long, facial neuralgia and deep mental depression being the chief symptoms in both cases. The English statesman, however, is hardly likely to give the same explanation of his pains as was recently propounded by the grimly humorous Teuton. One day when the latter was obliged to sit for hours with his fingers pressed hard against his cheeks for the sake of getting a little relief, he is said to have remarked: "This is only just in my life I have sinned most with my mouth—eating, drinking and talking." Gladstone has done rather more talking than Bismarck, but of the three sinful uses to which mouths can be put, the eating and drinking might be expected to make more trouble for old age, and in these respects the Englishman's memories are not varied as the German's, if there is any truth in the stories of the latter's student days. It is very confusing, if one adopts the reap-and-sow theory, to see the same consequences following habits so dissimilar. Bismarck by the way, declares that his "depression" is due simply to the burden of years. "Wait till you are eighty-three," he exclaimed to a friend, "and see how you feel, especially if you have spent nearly half a century in struggle and anxieties."—New York Tribune.

Penalties of Being a Bachelor

The ancient Romans were severe with their bachelors, who, were made to pay heavy fines, and, worse than that, Camillus, after the siege of Veii, is recorded to have compelled them to marry the widows of the soldiers who had fallen in war. In the time of Augustus married men were preferred for public office. The Romans who had three children were exempted from personal taxes, and the bachelors had to pay them. Plato condemned single men to a fine, and at Sparta they were driven at certain times to the Temple of Hercules by the women, who castigated them in true military style. In the French settlements of Canada women were sent over after the men, and the single men, that they might be forced to marry, were subjected to a heavy tax and to restrictions on their business and their movements generally.

What are You Reading?

No young person can afford to read haphazard whatever comes to hand any more than they can afford to eat and drink anything chance may throw in their way. Some plan should be adopted and closely followed. To read nothing but stories is to ruin the power of the mind and spoil all appetite for more healthful and valuable reading. Quality should be more considered than quantity. If one wishes to improve in mind and character, close attention should be given to the selection of the books to be read. Life is too short and time too precious to waste in worthless-ness. A book which is not positively good and helpful is inevitably harmful and wasteful of time and energy. It would be well to have an evening in every chapter when the members shall in turn tell what they have read recently and recommend what they have found of value.

The Symbol of the Cross

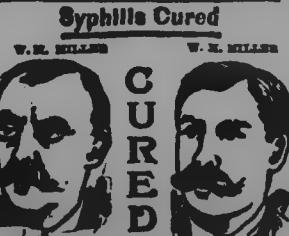

How strange a thing it is that the instrument of most painful and shameful death should become the cherished emblem of purest faith and most devout worship! Early in the Christian centuries this sign of the cross was chiseled on the tombstones of the martyrs and made prominent in the decorations of church buildings and articles used in religious service. The lamb, the dove, the fish, the shepherd's crook and many other devices illustrative of Scriptural truth and having reference to Jesus were early introduced. All have yielded to the sign of the cross, and it remains as the one significant emblem of the Christian faith.

NERVOUS, DESPONDENT, WEAK, DISEASED MEN.

Cures Guaranteed or No Pay

YOUNG or MIDDLE-AGED MEN—You may have been the victim of Self Abuse when young. Later Excesses or exposure to blood disease may have complicated the work. You feel the symptoms stealing over you. You dread the future results. You know you are a man mentally and physically weak. Why not be cured in time and avoid the sad experience of other victims of these diseases. DR. KENNEDY & KERRAN'S TREATMENT WILL CURE YOU AFTER ALL ELSE FAILS.

Emissions, Varicocele and Syphilis Cured

Before Treatment After Treatment
"At the age of 31 I commenced to run my hands. Later on as 'ONCE OF THE NIGHT' I contracted a serious blood disease. I was weak and nervous, despondent, pimpled, swollen eyes, bone pains, sleep, hair loss, nose bleeding and mental distress in every respect. I was in the last stages when I procured a pamphlet from Dr. Kennedy & Kerran. I was cured in a few weeks by their treatment. I would now advise all diseased men to procure of Medical Friends. They are publishable letters. M. H. HARRIS."

How to Clean Jewels.
Put a teaspoonful of household ammonia into a basin of warm water, into which some toilet soap has been lathered. Put in all the jewelry and allow it to remain a few minutes, turning it over with the hands occasionally. Then clean each piece separately with a soft tooth-brush, forcing it back into the water after the brushing. Rinse all well, shake out and put into a soft cloth and dry gently. When quite dry, take a piece of flannel or old stockinet and rub or polish each piece with it. If eyes or preared teeth are scratched, immediately wash with a lovely polish and a little of the chalk can be removed by using any soft haired brush which is perfectly dry.

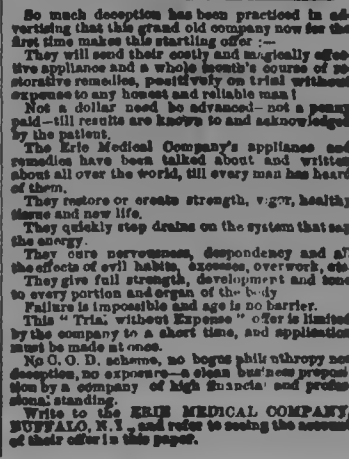

Managing a Husband
I Don't nag! No matter what goes wrong, don't scold, don't fuss. Men hate to be scolded. Men haven't the patience or ideas about martyrdom and all that sort of thing that women have. They are not such good dissemblers. They "peit out" what they think on the minute and forget it. It is like a volcano. It is a volcano that was said and make a mountain of enormous grievance out of nothing. Manage your husband all you please. Men like to be managed, but they don't like to think they are being managed. It takes two to make a quarrel. Silence is golden.—Housewife.

ties of gooseberries, mostly English.

Mr. S. Spillert, Superintendent of the State Agricultural Experiment Station at Pearl, has been growing the American gooseberry station for some years. He speaks highly of the Pearl. He says, "Take it all around as a medium sized berry, the pearl is hard to beat. More vigorous and with better foliage than the American, it bears fruit more generally planted. It yields this season five quarts to the bushing all around. The Champion, a peer to the Pearl in vigor and foliage, is ahead of it apparently in productiveness and size. The berry is a little larger than the Pearl." Mr. Spillert, Mountain gooseberry, so the originator informs me. It is certainly unlike any other gooseberry I have seen in habits of growth and appearance and shape of berry. In quality, I do not think that it is quite like the Pearl, more than by spraying with liver of sulphur, most of the English varieties may be grown successfully, but, in my opinion, our future berry for general cultivation will be among those between the so-called English and American varieties, the English.

In all the world to-day—in all the history of the world—no doctor nor institution has treated and restored so many men as has the famed **ERIM MEDICAL CO. of Buffalo, N. Y.**

This is due to the fact that the company controls some inventions and discoveries which have no equal in the whole realm of medical sciences.

Morning Times

PETERBOROUGH, FEBRUARY 16 1898

A People Who Cannot Make Fire

The Papuans of the Malay coast of New Guinea are still in the most primitive state. They are wholly unacquainted with metals and make their weapons of stone, bones and wood. They do not know how to start a fire, though fire is used among them. When a Russian asked them how they made a fire they regarded it as very amusing, and answered that when a person's fire went out he got some of a neighbor, and if all the fires in the village should go out they would get it from the next village. Their fathers and grandfathers had told them that they remembered a time when they had heard from their ancestors that there was a time when fire was not known and everything was eaten raw. The natives of the southern coast of New Guinea, having no iron, shave themselves with a piece of glass. Formerly they shaved with flint, which they could sharpen quite well and used with considerable dexterity.

Washing Silk

In washing silk there are four things to avoid—rubbing, wringing, soap and heat. Have the water lukewarm. Make a lather with a little dissolved soap if very dirty; if not, use bran water. Don't allow soap in a lump to come in contact with silk. Take hold of one end of the article and "swish" round and round till clean. Rinse in cold water to which has been added vinegar, a dessertspoonful to a quart. Place between dry cloths and squeeze, preferably through a machine. Shake well, to get rid of superfluous moisture, and iron at once through tissue paper with a warm iron.

You Talk About Pain

Rheumatic and Scleratic pains, I think I suffer more than any one on earth for three months and could not get any relief until I used "NEW LIFE" medicine. Then I did enjoy the height of felicity, and am now healthy and well. A. SMITH, Toronto, Gas Works.

THE FEMINE OBSERVER

Mock jewels will flash on the spring millinery.

The spring neckties are gay and ever before.

The new ribbons are delightfully gay and artistic.

Eton packets have apparently lost none of their popular favor.

It isn't always the showiest purse that contains the most money.

To make a man happy encourage him in the belief that he can cook.

Is there anything more ugly than a fur box that has outlived its season of usefulness?

Death crushes the memory of faults, but an earthly separation but emphasizes them.

A woman whose complexion and hair will permit her to appear in public without a veil is to be envied.

It takes a lot of genuine mortal courage to pay for "dead horses" when there are many live needs at one's very elbow.

The bad of last winter now puts on patronizing airs with the debutante of this winter.

The husband and wife, who enjoy card playing find cribbage a very delightful game for two.

The question of money matters can take the bloom off of friendship more quickly than anything else.

Leather hats studded with gold nails and clasped with a gold padlock are the latest mode for women who like ultra novelties.

Muffs are getting so fanciful in design that it is hard to tell exactly what they are if you come upon one suddenly that is not in use.

Don't judge a woman's age by her teeth, as, unlike a horse, the older she is the fewer she is likely to possess—if they are her very own.

Something other than the big hat nuisance will have to be the next advance against women theatre-goers, as this abomination has certainly abated.

It is a noticeable fact that many of the young women who are attired in the latest mode have adopted the high style coiffure even when wearing a hat.

What a world of expression there is in the glance one woman throws over her shoulder at another and better-gowned one!

A well-known physician is authority for the statement that American women do not know the meaning of the word "repose."

What is the attraction of a display of photographs has for the average individual who doesn't know one face in the whole collection?

"When the sun is in the West, lazy people work the best," is not an adage to be applied to the many laborers whose employment demands all night attention.

When you see a husband and wife who are genuinely chummy, you realize that companionship rather than sentiment is the corner stone of matrimonial happiness.

When she skips an article on "How to be beautiful" a woman is either thoroughly engrossed in her grandchildren or thinks she has occasion for any hints the article may contain.

Many women who brag about their intuitive powers would do well to be guided by the very opposite of what their intuition tells them if they wanted to strike any where near right.

Though impeccable gentility is better than affluent vulgarity, even the highest-bred individual, if harassed for the wherewithal to meet financial obligations, would be willing to trade a little blue blood for some ready cash.

Dyspepsia Degrades

its victims. It puts them in the power of the weakest organ of the body and makes them its slaves. They must eat to suit it, drink to suit it, and live a life of self-denial.

AYER'S PILLS

have cured many bad cases of dyspepsia—they will cure you, if you are suffering from that disease. Mrs. H. B. Anderson, 15 Williams Street, Grand Rapids, Mich., writes:

"Ayer's Pills cured me of dyspepsia from which I had suffered for three years. They beat every other medicine."

AYER'S PILLS Cure Dyspepsia

MORE MEN THAN WOMEN

IN EGYPT ALONE THIS STATE OF AFFAIRS EXISTS.

Egypt is shown by the latest census, says a London Morning Post correspondent, to enjoy the singular pre-eminence of being the one country in the world where men are in a majority over women. The male sex in the dominions of the Khedive exceeds the female by 100,000. This numerical predominance of the male is very evenly distributed over both Upper and Lower Egypt. It is only in the sparsely-peopled and newly-recovered Province of Dongola that the women are more numerous than the men. Another interesting fact is that the proportion of Egyptian women knowing how to read and write is little more than one-half per cent.

How to Cure All Skin Diseases. Simply apply "Swayne's Ointment." No internal medicine required. Cures leather, eczema, itch, all eruptions on the face, hands, arms, &c., leaving the skin clear, white and healthy. Its great healing and curative powers are possessed by no other remedy. Ask your druggist for Swayne's Ointment. Lyman, Ross & Co., Montreal, wholesale agents. Avoid substitutes.

FLOWERS OF ROYALTY

QUEEN VICTORIA'S FONDNESS FOR LILIES OF THE VALLEY.

The members of the British royal family confess to a great love for flowers of all kinds. The Queen has a special weakness for lilies of the valley and violets, and cares to have them about her rooms. Her intimate friends, knowing her favorite blossoms, send her these in profusion upon her birthday, at Christmas and New Year. Violets, the pet flowers of the late Emperor Frederick, of Germany, has become quite sacred in the eyes of his widow, and she has often been deeply touched when, paying her annual visits to England, mere strangers have offered violets "in remembrance of her beloved husband."

Proclamation!

Electoral District of the East Riding of the County of Peterborough, to Wit:

PUBLIC NOTICE IS HEREBY GIVEN to the Electors of the Electoral District of the East Riding of the County of Peterborough, that in obedience to Her Majesty's Writ to me directed, and bearing date the Second day of the month of February, 1898, I require the presence of the said Electors, at the TOWN HALL, in the VILLAGE OF NORWOOD, on the

22nd day of the Month of Feb.

1898, at One o'clock p.m., for the purpose of electing a person to represent them in the Legislative Assembly of this Province; and that in case a poll be demanded and allowed in the manner by law prescribed, such poll will be opened on the

FIRST DAY OF THE MONTH OF MARCH

In the year 1898, in each of the Townships, Wards or Polling Subdivisions in which a polling place is to be opened and kept according to law, of which due notice will be given on the Day of Nomination. Of all which every person is hereby required to take notice and to govern himself accordingly.

Given under my hand at Peterborough, this third day of the month of February, in the year 1898.

BERNARD MORROW,

RETURNING OFFICER

STAMMERS' HOME AND SCHOOL

Conducted on a new and scientific method for the cure of Stammering by its founder, W. H. Bates, over forty years a man of honor. Write for particulars 397, College Street, Toronto

SKATING BOOTS..

Jack Frost has been quite active of late, and as a result we find a demand for our Skating and Hockey Boots. Get ready boys for the season by leaving your measure early for CAREY'S Hand-Made Skating Boots

CAREY THE SHOE ARCHITECT..

356 WATER STREET

South of the Bank of Montreal.

Another Warning...

Another Financial Institution in Toronto closed its doors, and many hard-earned dollars are gone without much hope of a return. Income paying bonds are a live issue in Peterborough, and at present reduced values are a doubly the safest and most profitable investment. A man or woman can put their money into a safe investment, and get a good return. We can give you such investments for any amount from \$10 up. This is a matter worthy of your serious consideration and prompt action. Call on us to-day.

T. Hurley & Co., NEAR POST OFFICE.
Open 8 a.m. to 9 p.m.

LIBERAL CONSERVATIVE ..RALLY..

MR. WHITNEY

Leader of the Liberal Conservative Party in Ontario, will address a Mass Meeting of the Electors at the Opera House, Peterborough, on

FRIDAY EVE., FEB. 18th

The Meeting will also be addressed by the Liberal Conservative candidate, Mr. Garvin, and other speakers.

W. SALLSBURY,

Secretary, W. P. L. C. A.

T. E. BRADBURN,

President, W. P. L. C. A.

Railway Travel.

COMMENCING 1ST FEBRUARY, 1898 THE PACIFIC EXPRESS TRAINS OF THE CANADIAN PACIFIC RY. FROM TORONTO TO

**MANITOBA
THE CANADIAN NORTH-WEST
THE KOOTENAY
THE PACIFIC COAST
AND KLONDIKE**

Will be run via Smith's Falls instead of via Orlin as at heretofore.
Trains leave week days from
PETERBOROUGH 2.48 P. M.
Canadian Pacific tickets reading via Grand Trunk Ry. to North Bay will be good on Canadian Pacific trains via Smith's Falls. Passengers holding other tickets to the North-West are requested to call on any Canadian Pacific Railway Agent, or write to the undersigned. Passengers residing on the line of the Grand Trunk Ry. where there is no Canadian Pacific Agent should purchase a ticket to nearest Canadian Pacific station, to write to nearest agent or undersigned.
Trains leave Toronto 12.30 p.m. week days.
O. E. McPHERSON, Asst. Genl. Pass. Agent,
TORONTO.

Intercolonial Railway OF CANADA.

The direct route between the west and all points on the Lower St. Lawrence and Bas de Chaleur, Province of Quebec, also for New Brunswick, Nova Scotia, Prince Edward and Cape Breton Islands, Newfoundland and St. Pierre.

Express trains leave Montreal and Halifax daily—Sunday excepted and run through without change between these points.

The through express train cars of the Intercolonial Railway are brilliantly lighted by electricity and heated by steam from the locomotive, thus greatly increasing the comfort and safety of travelers.

The popular summer sea bathing and fishing resorts of Canada are all along the Intercolonial, or are reached by that route.

Canadian-European Mail and Passenger Service.

Passengers for Great Britain or the Continent, leaving Montreal Sunday morning will join outward mail steamer at Rimouski the same evening.

The attention of shippers is directed to the superior facilities offered by this route for the transport of flour and general merchandise intended for the eastern provinces, Newfoundland and the West Indies, also for shipments of grain and produce intended for the European markets, either by way of St. John or Halifax.

Tickets may be obtained and all information about the route, freight and passenger rates, on application to

E. KING,
Ticket Agent,
Sparks St., Ottawa.
I. W. ROBINSON,
Eastern Freight and Pass. Agt.
21st May, 1897.

COCOA

—Coldest to-day.

—To-day is market day.

Dinna forget to order your marmalade oranges at the Spot Cash grocery.

—The Market Committee of the council meets to-morrow evening.

—The committee rooms of both candidates were well attended last night.

Dinna forget to order your marmalade oranges at the Spot Cash grocery.

—The curling rinks of skips Edwards and Wells went to Toronto Tuesday night, and will play in the tankard finals there to-day.

Leave your orders for marmalade oranges at the Spot Cash Grocery to-day.

—The place of the O.T. opera House for the comic opera, "The Girl of Chambray," opens at Ormonde & Walsh's drug store to-day. Seats should be secured early.

—Mr. Duncan Clark will give an address on South African missions at the George street church to-night.

—Professor Hutton, of Toront University, lectures under the auspices of the Fortnightly Club at the Y.M.C.A. building to-morrow night. It will be a treat. There should be a good attendance. Admission free.

—Mrs. J. H. Ames, while walking on George street near the Y.M.C.A. building, tripped on the dangerous incline at the corner of Murray and received a severe shock. She had to be driven home. The attention of the authorities was called to this dangerous spot by The Times a couple of weeks ago.

SENATOR COX'S VALENTINE

He Has Made a Good Bargain With the Government

It is stated on good Montreal authority that Hon. George A. Cox has been able to strike a good bargain with the Canadian Government and one that will bring a good round sum into the coffers of the Bank of Commerce. The Yukon deal is remembered as the Senator made a big bid for a part of the Government account, but that Lord Strathcona, who is president of the Bank of Montreal, had too big a pull upon Sir Wilfrid and the attempt failed. Bankers here to-day declare, however, that although they are ignorant of the details, they learn that the Government have made a deal with the Bank of Commerce in some way regarding the handling of the gold output of the Yukon. It is generally supposed that the big institution in question has been appointed the Government's financial agents in the Yukon and that the agency will be established at Dawson City in the near future. It is also stated that the Bank of Montreal, not to be behind in the race, will have a branch in the Northern Eldorado before many months.

OBITUARY

Death of Mrs. James Noble Yesterday Morning

Yesterday morning Armina M. Gardiner, relict of the late James Noble, died at her residence, Water street, after an illness of some duration. For over a year she has been afflicted with heart and lung troubles and for the past two months has sensibly declined, the death occurring yesterday.

Mrs. Noble has been a resident of Peterborough for over 35 years. She came here from Kingston with her husband, the late James Noble, when he took up residence here. She was a daughter of the late James Gardiner of Hope township. One daughter, Miss Irene Noble, who is a teacher in the North Ward school, survives her.

The funeral will take place at 2.30 o'clock to-morrow afternoon from the family residence, No. 384 1/2 Water street, to the Little Lake cemetery for interment.

CAMPAIGN NOTES

Settling on the Election Contest in the East and West Ridings

The Registration Board held a sitting Monday evening to consider appeals against the names placed on the new voters' list. Mr. R. R. Hall appeared in Mr. Stratton's interests, and Mr. A. P. Pousette looked after Mr. Garvin's side. A number of appeals were entered by both parties, but four names placed on by Mr. Stratton's friends were struck off. The chief trouble was over the names of eight or nine Italian supporters of Mr. Stratton, under the guiding care of Mr. Frank Anthony. They had no naturalization by both parties, and can produce this before the next session they will not be allowed to vote. The next session will be held next Monday evening.

The Ashburnham voters have got into line and are taking a good interest in the candidates. Both sides have committee rooms—the Liberals in Mr. J. C. Sullivan's old store and the Conservatives in Moore's block, Elizabeth street. The Liberals opened their rooms Monday evening, when addresses were made by Messrs. F. D. Kerr and Donald Connell, and the officers elected. The Conservative committee were appointed to protect Mr. Blizard's interests. The supporters of Dr. Ford assembled in good numbers last night to prepare for the campaign. Addresses were given by a number of the prominent workers of the party. Officers were also elected, and committees appointed to supervise the organization work.

Both the candidates in the West riding are in the back country this week. Mr. Garvin going there Monday and Mr. Stratton yesterday. They will make it warm up there till Friday night, and then they will come home back to watch one another for the north county is alleged to be morally a little weak at election times.

The Conservatives are making preparations for the grand Whitney powwow on Friday night. A very large number of guests will be invited. They will speak in the interests of the Liberal candidate for West Peterborough. The gallery will be reserved for ladies.

Leave your orders for marmalade oranges at the Spot Cash Grocery to-day.

is held by wire fences and the people are kept out and forced to pay more for it than they can earn from it.

There are many kinds of land. First their is the valuable house-producing land. These are the city sites worth from \$5,000,000 to \$50,000,000 per acre. If the buildings were burned down the cities would be ruined. Is this the best use of the land? Because the land around it is taken up and held for speculation. No matter how long or how hard a man works, he could never earn an acre of this by his labor. He was crowded out of the city and he was forced up above his means. The man who owns the land gets all the benefit from it. The worker gets none.

As a result of the crowding and speculating there is a change going on which is turning men into tenants. It is the same in the United States and even here. U. S. census figures show that in St. Louis from 91 to 97 per cent. of the people are tenants. In the whole of St. Louis 80 per cent., in Boston 82 per cent. In Philadelphia, the city of homes, 77 per cent. of the population are tenants. In the United States even are being turned into tenants with a few over-lords over them, whom they will have to pay a tax for being allowed to live. In Baltimore only one out of ten who die leave any property behind them. One-third of the people there own no property.

In Massachusetts, one-fifth of the depositors in banks own only one-fifth of the deposits. Statistics do not go to show this for they are not fully published. These are only a few of the facts to show the growing poverty of the mass of the people. The poor are growing poorer and the rich richer.

Power of production has been enormously increased but wages, either in money or the things that can be bought for money, have not. Relatively men are becoming worse off. Another point is that the statistics show that people need more to live. Man's wants are increasing and his increasing desires are not satisfied the man is relatively worse off.

The relation between these conditions and Henry George's theory was next shown. The whole commercial fabric depends on the condition of the laborer. Thomas Jefferson says that wherever there is uncultivated land and unemployed poor the natural laws of the property have been violated. Macaulay said that as long as there was open land the laboring population of America would be more at ease than the poor in England. But the uncultivated land never the present industrial condition of New England. The public lands are gone and though there are vacant lands marked on the map they are practically inaccessible.

The final point of the cause of all the trouble is that the land is monopolized. There is really plenty of room for humanity in the world, and in any part of the world, but the price is put on its future value and not its present value and man is crowded out. The price is more valuable than other lands and will always command it. There is right; it is land value. The value comes to the land itself. If the value is left to individuals they manage to fix an artificial value on it and hold it to the injury of the community. They buy land and they hold it. If we remedy it. By taking from the holder the value of the land he holds. If he pays the value to the community he gets his right but can not hold it for speculation simply. Henry George said that that kind of property that he could not be taxed. If he makes it by his hands it is his. He should not be taxed for it. If he builds anything he does a good thing for the community and should not have to pay for doing it. The community has no right to take from him any part of what he earns.

But no man made the land. It is God's, and if some men get the best parts of it it is all right as long as they are willing to pay for it. This value is not the creation of the owner. It is the true value of the land itself. Now, as a question of justice, is it right to tax men for the product of labor as long as the community can be supported by the value of the land? The man's labor should not be taxed. It is the gift of God to the earth. The great argument is that the land exists for all and is given for the support of all, and should be used for the support of the community, by realizing the taxes from it. Abolish all other taxes and levy alone on what belongs to the community. That is levy taxes on the community. That is levy taxes on the land alone.

The speaker next dealt briefly with the objections raised against the theory, and dispelled the arguments which seem to be opposed to the single tax. As to the negative side of the question the speaker quoted from the greatest social and political economists to show that the land is the true source of income and if people monopolized it they should pay the tax.

The speaker described cases where the single tax theory has been applied to some extent as in New Zealand, New South Wales, towns in British Columbia and other places and how good the results have consequently followed. In keeping the theory in the hands of the public use the great theory has been realized. He closed by an eloquent eulogy of the noble character of Henry George.

Mr. Burman returned the thanks of the audience. Mr. Post for his powerful address and the final tribute to the fame of Henry George.

CENTRAL CHARITY BOARD

Accounts Presented and Ordered to be Paid

The Central Charity Board met Monday night, Messrs. R. Innes, chairman, McEain, Bamford, Cobb, Miller and Aldridge were present.

Steamship Horror

TWO HUNDRED UNITED STATES' SAILORS KILLED

U. S. Warship, Maine, Blows Up and a Terrible Loss of Life Results—Great Excitement Prevails—Full Details

(Special to the Times.)
Washington, Feb. 16.—The Secretary of the Navy received the following telegram from Captain Sigbee, of the battleship Maine which blew up in the harbor of Havana last night.
"Maine blown up in Havana harbor, at 9.40 and destroyed. Many wounded, and doubtless more killed and drowned. Wounded and others on board Spanish man-of-war and Ward Line steamer. Send lighthouse tenders from Key West for crew and few pieces of equipment. Still above water."
"Public opinion should be suspended till further report. All officers believed to be saved. J. J. Jenkins and Merritt not yet accounted for. Many Spanish officers, including representatives of General Blanco, now with me, and expressed sympathy. Signed, Sigbee."

The secretary of the Navy received another despatch from Key West at the same time with the above, but its contents were not made public.

The orders for the lighthouse tenders were at once sent to Key West.

Merry from Havana

Havana, Feb. 16.—The wildest consternation prevails in Havana. The wharves are crowded with thousands of people. It is believed the explosion occurred in a small powder magazine.

At a quarter of eleven o'clock last night what remained of the Maine was still burning.

OVER 100 KILLED

Captain Sigbee and the other officers have been saved.

It is estimated that over one hundred of the crew were killed, but it is impossible as yet to give exact details.

Admiral Manterola has ordered that boats of all kinds should go to the assistance of the Maine and her wounded.

Havana firemen are giving aid, tending carefully to the wounded as they are brought on shore.

It is a terrible sight.

General Solano and the other Generals have been ordered by Captain General Blanco to take steps to help the Maine's crew in every way possible.

ALL WERE IN BED.

The report that the Associated Press has been near the Maine in one of the boats of the cruiser Alfonso XII, and seen others of the wounded, who corroborate the statement of the first interviewed, that they were already asleep when the explosion occurred.

Captain Sigbee says the explosion occurred in the bow of the vessel. Orders were given to the other officers to save themselves as best they could. The latter, who were literally thrown from their bunks in their night clothing, gave the necessary orders with great self-possession and bravery.

THE CAUSE.

The first theory was that there had been a preliminary explosion in the Santa Barbara magazine of powder.

Admiral Manterola believes that the first explosion was of a grenade shell that was hurled over the navy yard.

OVER 200 MISSING.

The report that Captain Sigbee was wounded is inaccurate, Captain Sigbee, with other officers, went in the City of Washington. Two officers and more than two hundred of the crew are missing. Some of the crew, who were able to support themselves by swimming, were saved by the boats.

Suspicion of the Spanish

London, Feb. 16.—The Globe this afternoon says, "It is impossible to refrain from the suspicion that the explosion may have been caused by foul means. Although anchored, the Maine would have steam up in one of her boilers for the dynamo and auxiliary machinery."

"If an infernal machine had been hidden in the coal thrown into the furnaces obviously there would be an explosion of the boiler, and, as a result of a magazine. That this terrible event should have occurred in the harbor of Havana renders a solution of the mystery of international importance."

Continuing, the Globe says: "The last serious disaster of this nature occurring in peace time was in 1781 when H.M.S. Petrel blew up in the straits of Magellan. The verdict of the court was that it was caused by the formation of coal gas, another suggestion being that a substance called erotine, a siccative stored in the paint room, was responsible. Upon this occasion there were two distinct explosions, and 143 out of the crew of 160 perished."

"In the following year an explosion on board H.M.S. Triumph killed three men. In this case the disaster was traced to the use of the erotine siccative."

The headlines of the afternoon newspapers have all hint that the disaster was due to treachery, either Cuban or Spanish, and the papers refer to the excitement and resentment at the Maine's despatch to Havana. The newspapers also published long descriptions of the Maine and her officers.

The help of the English

New York, Feb. 16.—Capt. George Sumner, acting commandant of the Brooklyn Navy Yard, in the absence of Admiral Bance, made this startling statement of the Maine's disaster, putting aside all consideration of the possibility of an accident: "It is impossible for the blowing up of the Maine to have been due to accident. The magazines are closed at sundown, and the passageways and ammunition elevators are guarded at all times by men who would shoot on sight any man or men caught tampering with them."

"It would be impossible for any person to get at the keys after they were once in the possession of the captain."

"Another thing that makes me believe that the explosion was not accidental is that the Maine's principal magazines are nearer the middle of the ship than the bows, and if there had been an explosion there many officers would have been killed. The fact that officers escaped almost unscathed convinces me that the explosives must have been placed under the bows."

The familiarity of Lieut. Purcell, of the receiving ship Vermont, makes important the following statement by him:

"I know the make-up of the Maine by heart, and I am sure that the conclusion that the cruiser struck some hidden and—if the case be one of accident—forgotten mine or torpedo."

"It was absolutely impossible for the Maine to have been blown up by her own magazine. If she were, the officers were guilty of the grossest kind of negligence and infraction of the rules of the Navy Department."

De Lamoignon's Opinion

New York, Feb. 16.—Senator De Lamoignon said: "It is terrible. I pray God the news be not exaggerated. You may be sure of one thing, however, no Spaniard did this."

"Like myself, all Spaniards of importance entertain friendly feelings toward this country. There will be no war; there can be no war between America and Spain."

"This appalling disaster forces me to a declaration that I love America as I do no other country than my own."

At Sea and to the Rescue

Key West, Fla., Feb. 16.—The light-house tender Mangrove sailed for Havana at three o'clock this morning, having on board several doctors.

The steamer Fern has also sailed for Havana, and the torpedo boat Ericsson left at midnight with despatches from the fleet.

Over 400 Missing

New York, Feb. 16.—Of the crew of 450 men and officers, only 33 are known to have been saved.

Mine at Trime

Washington, Feb. 16.—The news of the disaster created a profound impression on the Capitol. Senators and members of the House, as a rule, expressed their opinion in the admonition not to be blasphemous, but the House looked very mysterious and doubtful.

A rule Senator expressed the opinion that the department would, and should make a thorough investigation, and added that for the present it would be unnecessary for Congress to take the matter up.

The latest telegram from Captain Sigbee says 23 men and two officers were lost.

to Arrive

Madrid, Feb. 16.—The Captain-General of Cuba, Marshall Blanco, has

cabled the authorities here, and has sent a similar message to Washington, saying that the disaster of the Maine was indisputably due to accident.

Total Loss 233 Lives

Washington, Feb. 16.—Secretary Long received the following detailed despatch from Captain Sigbee, commander of the Maine: "Advise sending wrecking vessel at once. Mine submerged except debris. Mostly work for divers not Jenkins and Merritt still missing; little hope of their safety. Those known to be saved are: Officers 24, uninjured; crew 18, wounded now on board Ward Line steamer, in city hospital, and at hotel, 50, so far as known. All others went down on board or near the Maine. Total loss or missing, 253. With general exceptions, no officer or man has more than part of a suit of clothing, and that is wet with harbor water."

"Damage was in compartments of crew."

"Am preparing to telegraph list of wounded and saved. Will send all wounded men to hospital at Havana."

DIRECT LINE TO SUDBURY

THE CANADIAN PACIFIC WANTS TORONTO'S SUPPORT IN THE PROJECT.

(Special to the Times.)
Toronto, Feb. 16.—The Board of Trade has received from Sir William Van Horne a reply to its complaints about Toronto being side-tracked so far as transcontinental traffic is concerned. He says that the Canadian Pacific directors fully sympathize with the views of the Council of the Toronto Board of Trade as represented in their resolution of February 7, concerning a better connection between the main line of the Canadian Pacific Railway and Toronto and Western Ontario, but points out that the company is not responsible for the present state of affairs.

Sir William goes on to explain that the Northern and Pacific Railway was built by a disinterested United States railway manager, who acted as arbitrator. The arrangement came to an end on February 1, since which the Canadian Pacific Railway has been handling its traffic by way of Smith's Falls.

Sir William goes on to point out that a great handicap that is to Ontario business, and says: "The time now seems to have come when the direct Sudbury-Toronto line must be built, and we trust that in the understanding we may have the warm support of the Board of Trade of Toronto and of every organization and business man in Ontario."

He explains why the Canadian Pacific could not accept the Grand Trunk Railway's offer of right of trackage at this usual rate, and adds that the position can only be overcome by the ownership by the Canadian Pacific Railway of a line to Toronto.

Sir William explains that at present the Canadian Pacific Railway has to carry Toronto traffic 70 miles farther than Montreal traffic, and gets considerably less for doing it. He concludes: "The having of this upon the interests of Toronto and of all Western Ontario is too obvious to require further remarks."

The statement coming from New York that the Warship Maine has been arranged with the Grand Trunk Railway for landing its freight and passenger business in Buffalo by way of the St. Thomas line has been confirmed by the authorities here. It is understood that the Grand Trunk will get a handsome rental for the privilege.

GOLD AND GOSPEL

KINGSTON CLERGYMAN OFF TO KLONDIKE TO WORK A CLAIM AND PREACH TO MINERS.

(Special to the Times.)
Kingston, Feb. 16.—On Friday, Rev. David Gardner, of this city, leaves for Chicago to join a party for the Klondike. He goes as a self-supporting missionary evangelist. He will take a claim and work it week days and preach on Sunday.

He earnestly believes in his divine call to this work. His family will remain here. Mr. Gardner spent ten or twelve years as a minister of the Methodist Episcopal church in northern New York, resigning to enter upon the new work.

"Large scores broke out on my body, both on limbs, and also on my hands, so that I could not do any work, and my hair came out. My trouble was called eczema. I began taking Hood's Sarsaparilla. When I had taken several bottles, the sores and itching ceased, and I was cured." Mrs. J. G. Brown, Brantford, Ont.

HOOD'S PILLS are the only pills to take with Hood's Sarsaparilla. Cure all liver ills.

A BANK IN THE YUKON

A Branch to be Opened at Dawson City

BANK OF COMMERCE

Is the One Which Will Take the Gold

The Ottawa Government and the Bank of Commerce Make an Arrangement by Which the Latter Will Open a Branch at Dawson City and Transact All Business

Special to the Times.

Ottawa, Feb. 16.—The Dominion Government has closed an arrangement with the Canadian Bank of Commerce for establishing a bank at Dawson City, in Yukon. Mr. B. E. Walker, general manager of the bank, Mr. J. A. Lamb, Q. C., and Senator Cox represented the bank in putting the arrangement through.

The Dawson bank will not only be a great convenience to the miners, but will aid the Government in collecting the ten per cent royalty.

Gold will be accepted at the bank, and drafts given to miners on any bank in Canada for the amount of gold received, except ten per cent. royalty, which will be deducted and handed over to the Government. Drafts will also be given on banks in San Francisco, Chicago and New York. Miners will not be charged any commission or expense in obtaining their drafts. Gold will be weighed at the bank and drafts given for that amount.

The gold will be kept in vaults and conveyed out of the country by a military escort. Miners can walk away with their drafts in their pockets. The convenience which the arrangement will afford miners will be a great inducement to them to pay the royalty.

An Order-in-Council ratifying this agreement between the bank and the Government is expected to be approved to-day by Lord Aberdeen. It has passed the Cabinet.

A NEW YACHTSMAN

H. MONTAGUE ALLAN WANTS THE SEAWANAKA CUP—QUEBEC PATRONS IN SESSION.

(Special to the Times.)
Montreal, Feb. 16.—H. Montague Allan, the well-known Montreal millionaire, is to build a twenty-footer as a Seawanaka Cup defender, and will offer the commandership to Mr. Aemilius Jarvis, of Toronto, commander of the Royal Canadian Yacht Club.

DANGER TO CATTLE.

The Patrons of Industry of the Province of Quebec met in annual convention to-day in this city and elected the following officers: T. A. King, president; E. Lamonde, vice-president; G. A. Dault, secretary. The most important business was the passing of a resolution which was ordered to be sent to the Government, calling upon them to take steps to stamp out tuberculosis among cattle which threatens to do much damage in the province.

HIS LIFE CRUSHED OUT

FEARFULLY FATAL ACCIDENT AT LITTLE YORK—YARDSMAN KILLED.

(Special to the Times.)
Toronto, Feb. 16.—John Symons, a Grand Trunk Railway yardman at East Toronto, was killed while on duty last night. Symons' activity had been impaired with rheumatism for some time. The yards last night were full of snow, and in "braking" a train he missed his footing and fell across the tracks. One truck passed over his abdomen and the snow stopped it, jacked up his body. The car had to be backed up before the unfortunate man could be got out.

He was carried to the station, but died in a few minutes. Symons was a man of 35 and highly respected in the village. He leaves a wife and one child. There will be no inquest.

MANN GETS A BOAT

YUKON RAILWAY CONTRACTOR RELIEVED HIS DILEMMA—KLONDIKE TRADE GROWING.

(Special to the Times.)
Vancouver, Feb. 16.—D. D. Mann, the Stikine Railway contractor, has at last succeeded in chartering a steamer to take supplies and men north. This mail steamer John, running from Vancouver to Navimo, has been taken off the route and hired by Mr. Mann, and the tug Mystery will carry mail and passengers between here and Navimo.

The Klondike trade is growing heavier.

DARK AND THIRSTY

MARKHAM WATERWORKS AND ELECTRIC LIGHT PLANT BURNED.

Markham, Feb. 16.—The waterworks and electric light plant of the town were almost completely destroyed last night by fire. The total loss was about \$5,000. The electric light plant is owned by W. J. Fletcher, of Alliston, and has no insurance on it. The waterworks are owned by the town, which is insured for \$2,000. Mr. Truman, the engineer, and his son escaped in their night clothes.

Morning Times

PETERBOROUGH, FEBRUARY 17, 1898

MR. LONGLEY'S OPINION.

"It is impossible for any body of men to be in power for a continuous period without getting lax in their ideas of public duty."

"This is the innate tendency of mankind."

"Besides, long term of office induces the members of governments to get the notion that they not only have a divine right to rule, but that instead of being the trustees and servants they are actually the masters, and favours are to come from them."

"This is subversive to the whole theory of popular government, and it is in the interests of the people to have it clearly understood that governments are not heaven-appointed rulers, but mere instruments of power; subject to the will and control of the electorate."—Attorney-General, Longley (Liberal), of the Nova Scotia government.

Stratton's the man for gall-way.

Dr. Ford has taken to the stump in his effort to overtake Blizard.

"Testimony" in a French court seems to mean a stump speech to the jury.

A lot of people in this riding think it is just about time that Jimmy Stratton came in out of the reign.

The Hardy-Ross governing syndicate.

would like a deed in fee simple of this province for all time to come.

Stratton's the man for Gallway. The Examiner has said so. It follows that Mr. Garvin must be satisfied with what is left of the riding.

Mr. Stratton is back north this week. He is said to have gone back to assist in the paving of the colonization roads. They form part of his route to Parliament.

The power of a smile is great at election times but the candidate who can wreath the faces of his voters with the alcoholic smile is using a powerful means of assistance.

It is to be expected that some of the northern sections of this riding will be blessed between now and March 1st with an unusually heavy reign of Grit prosperity.

It is needless to say that public sentiment in Galway and throughout is overwhelmingly in favor of higher grants for the colonization roads—to be disbursed by the commission.

Peterborough's workmen and hotel-keepers, and all friends of fair play and liberty of speech should resent any attempt to intimidate citizens from using their right of free speech.

There are communities in the Western States where the pension disbursements constitute the principal supply of money. They enable the farmer to support the country merchant, and local public sentiment is overwhelmingly in favor of pensioning more people at higher rates.

The first three lines of the now famous poem by the Minister of Education read thus:

Canada wants men—not walking effigies.

Who smirk and smile with art polite and sport.

The borrowed feature of their richer friends.

It renounces our conscience to use any of the words of the great philosopher for an unholy purpose, but we cannot help from marveling how well they apply to the "Honorable" Stratton.

KEENE

The members of the Line Juice Club met in their hall on Monday night. At precisely 7 o'clock President Deckerkey sounded the gavel and declared the meeting opened for the transaction of business. After storing about a ten-cent plug of tobacco in his cheek he slowly rose to his feet, forgetting in his excitement to remove his wig, and from his head, and addressed the members as follows: "Brethren and Gentlemen, for I consider we are all gentlemen, and don't you forget it! It affords me unbounded pleasure to stand before such an intelligent staff of members to give expression to my profound feelings of gratitude for the great honor which you have conferred on me by electing me president of this club. By your kind assistance I feel assured that I will and can give you general satisfaction. We must exercise brotherly love, and we will prosper—and don't you forget it!" (At this juncture of his address he was compelled to sit, and mistaking Lightfoot Cronka's cap for a spittoon, he dropped about a quart of tobacco juice into it. Lightfoot snatched his cap and gave it a shake, sending its contents into the eyes of Tink Soucie. He, in his mad career, went kicking around the room and knocked three teeth out of Bismark Miller's poodle dog. After peace was again restored Deckerkey continued his address as follows: "I am very sorry that this fun took place, but I wish to inform you that I am boss of this show—and don't you forget it! I intend from this time forward to impose a heavy fine on any member who in any way violates my rules or acts derogatory to my will. I trust the utmost harmony will exist in our meetings in the future. I have been solving in my mind for the past few days the best scheme by which we can have pleasant and profitable meetings, and have arrived at this conclusion that we have a debate every second meeting. It will help you, boys; it will develop your mental faculties and enable you to mount the platform with blizzard or any other man, and express your views on the piquant question of any other question. I therefore select Positive Leggett, and Duke Henwick as leaders of the debate. The subject for next meeting: 'Whether is a vicious dog or a runaway horse the greatest public nuisance.' Positive Leggett to defend the horse and Duke Henwick the dog. Now, Brethren, I consider we have had a good meeting and we will now close by singing 'He's a Jolly Good Fellow'—and don't you forget it!" (Just as the last note was sung President Deckerkey emptied the contents of his mouth in Foney Moore's cat pocket, and bolted out of the door, shouting "Yow! Owl Sucker fish!")

ICE YACHT TROPHY

KINGSTON BOATS INVITED TO RACE ANNUALLY FOR A HANDSOME SHIELD.

(Special to the Times.)

Kingston, Feb. 16.—Commodore Sandford C. Calve and Vice-Commodore Francis H. MacNee, of the Kingston Ice Yacht Club, have presented the club with a permanent trophy, to be known as the Calvin-MacNee trophy. It consists of a large silver shield, a full-rigged ice yacht under way, occupying a central and prominent position.

The shield is put up for competition each season, three races to be sailed therefor, open to all yachts of the fleet, the winning yacht in each race to count five points, the second three points and the third one point.

America's greatest medicine is Hood's Sarsaparilla, which cures when all other preparations fail to do any good whatever.

LETTERS TO THE EDITOR

(The Times holds this column open to the free discussion of public affairs. It is understood, however, that these letters are not the opinions of the paper, and that we are in no way responsible for anything herein contained.)

Lumors Denied

To the Editor of The Times: Sir,—Will you kindly give me space in your valuable paper as I would like to make an explanation to the public and also to vindicate myself in connection with the driving of the mare "Blackwing" at the races in Landsdowne Park, Ottawa, 1st week. In the first place I did not drive the mare in the 2:22 class, but another driver was put on, and it appears in the Montreal Gazette and Toronto Mail-Enterprise. With any kind of a driver she could have won, and as the public has been misled, and has certainly not been told the difference by the owner, I, with the reputation of being an honest horseman, must not let such reports go uncontradicted.

In connection with my being pulled off, that is a privilege owners have, and it is enforced at nearly every race meeting.

I do not wish to enter into detail, but I can positively prove by some of the best drivers in Canada that I did not pull the mare, but, on the other hand, I have the credit of the same man and of some of the best sports that were in Ottawa of making a tight fight to win. At present I will say no more except this—that I felt the owner to prove that one dollar was given to me to lose the race, but that, on the other hand, I would have gotten good money from cutlers if I could have won.

Yours, etc.,

Peterborough, Feb. 14.

A NATIONAL LIGHTHOUSE

ASIATIC TREE, THE LEAVES OF WHICH ARE PHOSPHORESCENT

Amongst the world's curiously formed trees the Asiatic star tree is not conspicuous, but among natural freaks in the tree class it stands alone. Its properties are entirely peculiar to itself. Its history is clouded, its attributes unlike anything seen in other trees.

Enormously tall, a man of ordinary height is dwarfed into nothingness beside its trunk. But from the ground up to a distance of about forty feet, it puts forth at that place a hundred tangled limbs. From the latter there shoot out great clusters of long pointed leaves, which, branching themselves together, exude a kind of phosphorescent light at night, giving a strange appearance to the big tree. Travellers on the desert, describing this tree at night, frequently mistake the giant-leaved thing for the illuminated window of a house or some lonely tower. The light is not brilliant; it is subdued but voluminous, and lasts until day-break.

All Crooked.

Miss Debate—Why do they talk so much about the immortality of the bicyclist?

Mr. Catchy—Because there are so few upright riders, I presume.

Very Doubtful Comment.

"My wife," said the man who wanted to put his private life in print, "thinks more of a little idiotic, sausage-shaped dog we've got than she does of me."

"And I'll venture to say," said the man with a talent for saying smart things, "that it isn't much of a dog at that."—Indianapolis Journal.

No Common.

"No, we don't permit our names to go in the directory, you know."

"And why not?"

"So deuced common, don't you know. Why, last year my name was sandwiched in between a garbage can and a city councilman. It's a fact, 'pon honour."—Cleveland Plain Dealer.

Vain Regrets.

Mr. Cawker—You and I were born too soon, old man.

Mr. Cumso—What makes you say that?

Mr. Cawker—What a pudding a horseless carriage would have been when we were courting?—Judge.

A Starter.

"The warmest day that I can remember," said the old war reminiscer, "was one in August, 1856. On that day it was so all fired hot that, going out of the room for a minute, when I returned my father was smoking."—Philadelphia North American.

Something Nice and Warm.

Hobbie—Ethel, mamma has just promised me something nice and warm. Give me half your candy and you can have it.

Ethel—Here's the candy. Now, what is it?

Hobbie (munching)—A spanking.—Life.

The Hateful Thing.

She—No, I won't sit out on the piazza with you unless you promise not to try to kiss me.

He—Well, promise, if you insist; but remember, Miss Mollie, that I am a man who never breaks a promise.—Cincinnati Enquirer.

That Was All.

"You two attorneys look like brothers," said the client to the partners in a law firm.

"But we are not," replied one.

"No," added the other. "We are only brothers in law."

Pretty Fly.

"I want a suit I can fly round in," said the woman who had just come in.

"Here's something gassy," said the pale tradesman, who was not above being funny when he was in no danger of being found out.—Detroit Journal.

A Star in Disguise.
Mrs. Myron (visiting boarding-house lady)—My dear, you look positively distressed. Are you in trouble?
Mrs. Brown—Oh, the awfulest thing has happened! Perhaps you remember Mr. Morrissey who used to board here for sixteen dollars a week.
Mrs. Myron—Yes. You said he was such a comfort to you. He didn't have but two or three teeth left, if I remember correctly. At least anything. Didn't cost any more to keep than a kitten.
Mrs. Brown—That's the identical party. Oh, he's a rascal! He came about the day before yesterday and I let him have board at \$8 a week, and now I find he's got a new set of false teeth and eats like a horse.—Twinkles.

Prosperity Eluded Him.—"I thought you said you saw prosperous times ahead." "Well, I thought I did, but the hellish I had my eye on wouldn't have me."—Chicago Post.

TREES

Our stock is as good as the best.

Having an unusually large stock of trees, vines, bushes and plants, both fruit and ornamental, of our own growing, we are enabled to extend our trade, which has hitherto been chiefly confined to the Niagara district. Having no agents we have no fancy prices to protect, and offer at very low rates to be in touch with the times.

Price list free on application.
Dealers and Jobbers orders packed with care and despatched cheaper than elsewhere.
Stock guaranteed free from San Jose State. Let us price your wants. We guarantee satisfaction. All Canadian grown stock.

THROUGH TROPIC FORESTS

THE REMARKABLE JOURNEY OF A PIRATE WHO ESCAPED FROM THE SPAHIS.

Frank R. Stockton, in his sketches of "The Buccaneers of Our Coast," writes of Bartholomew Portuguez in St. Nicholas. After telling of his escape from the Spaniards, Mr. Stockton, says:

He had found in the marsh an old gourd, which he had filled with fresh water, and he had nothing but the raw shellfish which he found upon the rocks. But after a diet of roots, shellfish must have been a very agreeable change, and they gave him all the strength and vigor he needed. Very often he found streams and inlets which he was obliged to ford, and as he could see that they were always filled with alligators, the passage of them was not very pleasant. His method of getting across one of these narrow streams was to hurl rocks into the water until he had frightened away the alligators immediately in front of him and then he would dash in and hurry across.

At other times great forests stretched down to the very coast, and through these he was obliged to make his way, although he could hear the roars and screams of wild beasts all about him. But he was bound for Golpo Triste and was not to be stopped on his way by anything alive.

But at last he came to something, not alive, which seemed to be an obstacle which would certainly get the better of him. This was a wide river flowing through the inland country into the sea. He made his way up the shore of this river for a considerable distance, but it grew but little narrower, and he could see no chance of getting across. He could not swim, and if he had been able to swim he would probably have been eaten up by alligators soon after he left the shore. But he would not give up; he had done so much that he was ready to do more if he could only find out what to do.

Now a piece of very good fortune happened to him, although to an ordinary traveler it might have been considered a matter of no importance whatever. On the edge of the shore, where it had floated down from some region higher up the river, Bartholomew perceived an old board in which were some long and heavy rusty nails. Greatly encouraged by this discovery, Bartholomew carefully knocked all the nails out of the board, and then, finding a large flat stone, he rubbed down each one of them until he had formed it into the shape of a rude knife blade, which he made as sharp as he could. Then with these tools he undertook the construction of a raft. With the nails which he had sharpened he cut down a number of small trees, and when he had enough of these slender trunks he bound them together with the reeds and others which he found on the river bank.

Thus after infinite labor and trial he constructed a raft which would bear him on the surface of the water. When he had launched this, he gave upon it, gathering up his legs so as to keep them out of reach of the alligators, and with a long pole pushed himself off from shore. Sometimes paddling and sometimes pushing his pole against the bottom, he at last got across the river and took up his journey upon dry land.

ABOUT UMBRELLAS

HOW TO BUY THEM AND HOW TO KEEP THEM.

In buying an umbrella you must take it on faith, for the most experienced shopper cannot tell how it will wear. Silk of a smooth taffeta, is a good purchase and light to carry. Gloria makes a heavier umbrella, but it outwears any silk make. No matter what the material may be, however, never keep it strapped, except when it is carried. Keeping it tightly rolled up destroys half of its durable qualities.

When wet, dry an umbrella by placing it with the handle down so as to prevent rusting the framework, as happens when the water runs off the other end and collects at the top.

When nearly dry, do not open the umbrella or it will stretch out of shape while drying. Wipe off the handle when ready to put away, using a piece of chamois if there is any silver about it. Sometimes a blue or green umbrella spots when slightly wet; in such a case open it and set out in the first hard rain, the spots disappearing when it is thoroughly dampened.

To furl an umbrella properly grasp it firmly at the lower end of the ribs with the right hand, holding them perfectly straight and even, and do not allow them to twist while you shake out the folds; next wrap them evenly around the stick with the left hand and finally fasten the strap over a smooth, firmly rolled umbrella.

If either black silk or gloria becomes spotted with mud, etc., clean with a bit of old silk dipped in warm water and ammonia. If colored silk needs cleaning, do it with a rag of the same color and naphtha, remembering that the latter is very explosive. If grease gets on the silk, remove with magnesia, rubbing it in, and allowing it to remain for twenty-four hours. Naphtha also removes grease, but this liquid cannot be purchased everywhere and magnesia can.

There is nothing so good to clean with as powdered borax, because of its healing power with the hands. Ammonia and some soaps roughen the hands, so that you will do without cleaning often, rather than use it, but it is not so with borax. It softens the water and helps the hands instead of injuring them. Every housekeeper should know about cleaning willow chairs, and all such, with borax, for it makes them look like new. You make a good soapuds, then put in plenty of borax. Use a clean scrub brush and rinse in cold water; then place in the sun to dry. It will clean them quickly, and they will look like new. You can keep your kitchen table as white as snow—marvels of purity—by using this means. It is splendid for marble top wash stands or dressers. The biscuit board and kitchen table are usually a cook's or a housekeeper's pride, and they want them immaculate—and this will make them so. Cane seated chairs and rocking chairs, when dirty, can be washed in the same way, with hot water and soapuds, with a handful of borax added to the water. This whitens them, and there is nothing that can take the place of borax for such purposes. Dry the chairs in the open air. Cupboards and pantry shelves should be washed with it; this prevents all kinds of insects from infesting them, as well as whitening them. —Indiana Farmer.

THE LADIES AND THE LION

WHAT THE PRETTY HOOSIER GIRL SAID TO HAWKINS.

Here, from the critic, is an account of what Anthony Hope went through at an Indianapolis tea in his honor:

One woman said: "I am very happy to meet you. I've heard a great deal about you and your books, but I've never read any of them." "You have not lost anything, madam," said he. "I'm very happy to meet you," said a bright girl, "but I'm sorry you don't like women." How do you know I do not like women?" "Oh, because I saw it in the paper this morning." "The article was not signed, was it?" asked Mr. Hawkins. "I am very glad of the opportunity to meet you this afternoon, Mr. Hawkins," said a married lady, "because I have an engagement and cannot go to hear you to-night. I've read your stories." "Then I will not spoil any good impression you may have formed of the stories." "Oh, I wanted to have the impression strengthened," and after she walked away she said to her friend, "I wonder if that last speech of mine was complimentary?" "You are not half as old-looking as I thought you would be," said another. "I thought that you had white hair." "I am sorry to disappoint you, madam," said he. "What stories are you going to read to-night, Mr. Hope?" The author told the questioner of "The Prisoner of Zenda" and "The Dolly Dialogues." "I wish you were going to read something else, for those are the only stories I have read of yours," said she.

Neatness in Dress

These are days when neatness in dress goes under the name of smartness, and the smartly gowned woman owes her success to the fact that she makes everything secure and tidy before she leaves her room, invariably making a final scrutiny of her attire as she stands fully dressed before her mirror. She who boasts that it never takes her a minute to dress may be fully assured that there will be abundant shortcomings in her raiment to bear witness to the truth of her statement. The bonnet and dress covered with dust collected during yesterday's walk, the veil badly adjusted, books that seem to have a mortal antipathy for their corresponding eyes, luckless hairpins hanging like the sword of Damocles by a single hair—these are some of the sins of omission or commission that tell us she devotes insufficient time to her toilet. Believe us, you may possess the most expensive of gowns, bonnets, boots and gloves, yet if they are improperly cared for and carelessly worn your next little neighbor, with her "made over" dress and her last year's bonnet, will put you to shame in the matter of personal appearance. There is a gentility about her which brings her the most pleasing attentions and men and women alike pay her homage because she is so neat and trim. She is a firm believer in that last look in the mirror.

The Modern Agnostic

We look at our churches with their congregations growing in numbers and dwindling in faith, says H. G. Chapman in the Atlantic, and we ask ourselves: In all these buildings, cheap or costly, what real prayers rise, and of these that rise do any get above his roof? What God hears them and has there ever been an answered prayer? We look at the face of the dead and repeat a burial service. If after the manner of men I have fought with beasts at Ephesus, what advantage it me if the dead rise not? And as we say the words we ask ourselves, "Do the dead rise?" And if any one is found who believes these things he knows that there is another at his elbow who believes them not a whit or an atom, and these two can hit on no universe that shall satisfy both, nor can one be poet to the other.

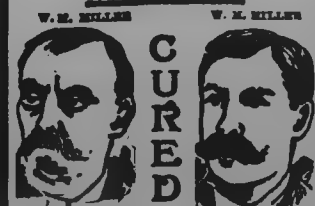

NERVOUS, DESPONDENT, WEAK, DISEASED MEN.

Cures Guaranteed or No Pay

YOUNG or MIDDLE-AGED MEN—You may have been the victim of Self Abuse when young. Later Excesses or a passion for blood diseases may have completed the work. You feel the symptoms steadily grow you. You dread the future realize it. You know not what a man morally and sexually. Why not be cured in time and avoid the sad experience of others? Dr. Kennedy & Kergan. CURE NEW METHOD. TREATMENT WILL CURE YOU AFTER ALL ELSE FAILS.

Emissions, Varicocele and Syphilis Cured

V. E. KENNEDY V. E. KERGAN

Before Treatment After Treatment
"At the age of 31 commenced to run down. Later on at 35 ONE OF THE RIBS I contracted serious blood disease. I felt weak and nervous, despondent, pimples, swollen eyes, bone pains, nose, hair loose, sore tongue and throat, dizziness in the brain, vertigo, etc. I was in the last stages when a friend recommended Dr. Kennedy & Kergan. A dozen other doctors had failed in curing me. In a few weeks by their new method of treatment I was cured. I was a diseased man to become of Medical Faculty. They are reliable honest men. M. H. HARRIS."

Morning Times

PETERBOROUGH, FEBRUARY 17 1898

A BARBARIC GAME

THE FAVORITE PASTIME OF THE
COSSACKS IN RUSSIA.

Queerest of all contests is the favorite pastime of the Cossacks of Russia. These gentlemen, nomadic and care free—save for the terror that haunts every one in the dread black land of the Czar—are given to originality in their sports. The primitive game shown in the picture is a test of strength, which drives the semi-barbaric denizens of the great Russian desert to frenzies of joyous excitement. Fine horses and cattle are wagered in a most reckless manner when a pair of stout legged Asiatics are braided sole to sole, in a mighty deadlock of muscle. The difficulty of the feat is not so much the general strength required as it is the uncertain position in the air which the playful Cossacks assume. Seated in a rudely-made swing, these brown giants are jerked backward and forward by their efforts, and in the end one of them drops exhausted from his suspended seat. Then there is an exchange of valuable and the spectators depart after much controversy. When this unique game lags, in excitement the contestants are urged on with wild shouts and appeals to their courage. This is a signal for shik kicking, into which piece of merriment the contestants enter with brutal zest. The result is sometimes a broken leg, and, in any event, bruised and bleeding legs and ankles.

You Talk About Pain

Rheumatic and Solative pains. I think I suffered more than any one on earth for three months and could not get any relief until I used "NEW LIFE" medicine. Then I did enjoy the height of felicity, and am now healthy and well. A. SMITH, Toronto Gas Works

THE FEMININE OBSERVER

Rosy cheeks are the fashion.

Nearly all the evening gowns are resplendent with spangles.

As the days grow longer the gown apparently follows suit.

How anyone can really admire the very small sleeves is a wonder.

Cynicism is bad enough in a man, but it is a positive crime in a woman.

A popular restaurateur says that men call for more sweets than women.

Gray is the correct tone for bridesmaids frocks at all the swell weddings.

The more whipped cream there is in the hot chocolate the greater the demand for it.

The dance season is in full bloom.

No woman can look young & pretty if her mind is ill at ease.

Wear jewels to match the color of your eyes if you have them money to indulge in such a caprice.

The hardest thing in the world to realize is that the friends we thought the most dependable are the least so.

A woman who shrieks from the thought of microbes in the water will sink her pretty lips into the mouthpiece of a telephone regardless of who used it before her.

The woman who can afford to wear real jewels is never suspected of wearing paste, even though she may be loaded down with the artificial rather than the genuine article.

FASHION JOTTINGS

REQUIREMENTS OF THE HOUSE
HOLD, THE WARDROBE AND THE
SOCIAL CIRCLE.

Lacquered furniture in white, pink or green is fashionable and is used by the best decorators, and shapes in which it appears being light and delicate. Articles of this description should never be placed in the same room with furniture of the dark heavy, severe order, however, as the two styles are entirely out of harmony. They may be used in conjunction with furniture of light weight and cheerful color or with bamboo and rattan pieces. Lacquered furniture is particularly appropriate for the bedroom of a young girl and combines most charmingly with flowered or delft chintz or delicate tints of china silk.

When one receives a box or parcel containing a gift, if the giver or any other person is present at the time, it is not to open the parcel at once. If it contains bonbons or fruit, this should be offered to the company. Veils are out of place for ceremonious occasions and are worn only for the street, being omitted even for formal calls. A young girl should not wear a veil at all unless she really requires it as a protection for the complexion. The hair is worn high upon the head, the coil of puffs being placed upon the crown, so that it may receive the long pins which secure the hat or bonnet in place. The sides are bouffant, the locks being waved all over the head, and a few short curls are allowed to fall upon the forehead.

The little four leaved clover charms are, universally seen in lockets, medallions, brooches and pendants to bracelets. The clover is a genuine one, pressed, dried, and placed under crystal.

WHAT LIBERALS THINK

THEY WILL HAVE TWENTY MAJORITY—CONSERVATIVES IN DAN-
GER.

Toronto, Feb. 16.—Hon. E. J. Davis returned to-day from Guelph, where he conducted a joint meeting last night. "If the Government's chances keep on improving like they have been during the last week," said Mr. Davis, "we will carry the country by a between 20 and 25 majority."

"I don't wish to boast, for the Government is not given to boasting, but,

Get More
and You
Get Less

Why is it every sarsaparilla which tries to sell itself, ranges itself against Ayer's as the standard? Why is it that all have to offer extra inducements—bigger bottles, fancy wrappers, cheaper price—anything, everything, but the one inducement of quality?

Ayer's
Sarsaparilla

has never been equaled by any cheap imitation of it, and quality tells, just as blood tells.

It is the Standard.

"I have sold Ayer's Sarsaparilla for more than twenty-five years, and have never heard anything but words of praise from my customers; not a single complaint has ever reached me. A preparation must possess great merit to maintain such a reputation. I believe your sarsaparilla to be the best blood purifier that has ever been introduced to the general public. I often hear other manufacturers say that this is 'as good as Ayer's,' but no one ever yet heard it said that Ayer's was 'as good' as any other kind. They always set Ayer's up as the standard of excellence."—S. F. Boyce, Duluth, Minn.

judging from the signs which can be depended on, we will carry the three Yorks. We will carry North Ontario, for Chapple is stronger than ever there. We will carry South Ontario without a doubt. The Conservatives concede West Durham.

"We will carry Muskoka, for Dr. Bridgehand is very strong. We will but Miss Campbell, for his election last year was due to the three-cornered nature of the fight. We will elect Davidson in Center Simcoe even if Train the Patron stays in the field. If he withdraws we will elect Davidson by hundreds.

"We will carry the three Wellingtons, North Bruce, West Lambton, for sure, and perhaps East Lambton. North Peel will elect John Brown over Magwood. North Lanark will be won."

Mr. Davis said that he noticed that the Mail had stated that five of the seven Cabinet Ministers were in danger of defeat. Mr. Davis pointed out that every Conservative who had attained any prominence, with the exception, perhaps, of Colonel Matheson, was more liable to be defeated than elected, and even South Lanark was in danger.

Mr. Davis knows the province pretty thoroughly, but declined to speak on some of the ridings of which he had not a very thorough knowledge. He said, however, that from advice the campaign was going just as favorably as the Government could wish.

Cossack Girls Not Named

When a girl is born in Corea she is not even dignified by a name. Several names are written on slips of paper and placed in an urn before some favorite deity, and when it is necessary her godfather selects one without seeing it and she is known by it until she reaches womanhood among the members of her own family. Strangers designate her as the wife, mother, sister or daughter of such a man. This is not merely the result of custom. The laws are strict in this matter and hold a woman of little more consequence than a domestic animal. In the higher class of society the girls are separated from the boys of the family at the age of 7 years. They occupy the apartments of women and are forbidden to communicate with anyone outside.

Proclamation!

Electoral District of the East Riding
of the County of Peterborough,
to Wit:

PUBLIC NOTICE IS HEREBY GIVEN to the Electors of the Electoral District of the East Riding of the County of Peterborough, that in obedience to Her Majesty's Writ to me directed, and bearing date the Second day of the month of February, 1898, I require the presence of the said Electors, at the TOWN HALL, in the VILLAGE OF NORWOOD, on the

22nd Day of the Month of Feb.

1898, at One o'clock p.m., for the purpose of electing a person to represent them in the Legislative Assembly of this Province; and that in case a poll be demanded and allowed in the manner by law prescribed, such poll will be opened on the

FIRST DAY OF THE MONTH
OF MARCH

In the year 1898, in each of the Townships, Wards or Polling Subdivisions in which a polling place is to be opened and kept according to law, of which due notice will be given on the Day of Nomination. Of all which every person is hereby required to take notice and to govern himself accordingly.

Given under my hand at Peterborough, this third day of the month of February, in the year 1898.

Intercolonial Railway
OF CANADA.

The direct route between the west and all points on the Lower St. Lawrence and Baie des Chaleurs, Province of Quebec, also for New Brunswick, Nova Scotia, Prince Edward and Cape Breton Islands, Newfoundland and St. Pierre.

Express trains leave Montreal and Halifax daily—Sunday excepted—and run through without change between these points.

The through express train cars of the Intercolonial Railway are brilliantly lighted by electricity and heated by steam from the locomotive, thus greatly increasing the comfort and safety of travelers.

The popular summer sea bathing and fishing resorts of Canada are all along the Intercolonial, or are reached by that route.

Canadian-European Mail and Passenger Route.

Passengers for Great Britain or the Continent, leaving Montreal Sunday morning will join outward mail steamers at Rimouski the same evening. The attention of shippers is directed to the superior facilities offered by this route for the transport of flour and general merchandise intended for the eastern provinces, Newfoundland and the West Indies, also for shipments of grain and produce intended for the European markets either by way of St. John or Halifax.

Tickets may be obtained and all information about the route, also freight and passenger rates, on application to

E. KING,
Ticket Agent,
Sparks St., Ottawa.

J. W. ROBINSON,
Eastern Freight and Pass. Agt.

CHRISTIAN SYMPATHY AND KINDNESS

Has been the influence of saving many men and women from all the perils which could befall them in the winter months. The Rev. Mr. Allen, of the Christian Church, has been preaching this message in the city.

Dr. Allen's Kidney "Buds" are a remedy founded on Christian sympathy and kindness. It is simply a permanent cure from all forms of kidney complaint.

Dr. Allen's Kidney "Buds" have the greatest of all virtues, they are a permanent cure from all forms of kidney complaint.

When you take Dr. Allen's Kidney "Buds" it simply means a permanent cure from all forms of kidney complaint.

BETTER THAN MINING

Is to Run a Steamboat to the Klondike

AN IMMENSE TRADE

Is Being Done From Vancouver to the North

The Spring Rush to the Gold Fields Has commenced and More From all the World are Going up

(Special to the Times.)

Vancouver, Feb. 17.—The Mingchow, a big steamer, has been brought from China to be put on for the Klondike traffic.

Steamship men are making big money all down the coast, from Vancouver to San Francisco. It is declared that the Islander for one trip alone will make \$30,000 profit at least.

BIG BOAT LOAD.

The Islander sailed last night and could not take all the freight and passengers that offered. It had over 500 passengers bound for Klondike via Wrangell, Juneau, Skagway, Dyea, So.

Cramped was the vessel with freight that the upper decks were stacked up with sleighs and dog crates.

FOR THE RAILWAY

The steamer Joan, chartered by the Seikan River Railway contractors, also left for Wrangell, carrying 124 men and 250 cargo in over the Canadian Pacific Railway last night from Eastern States, Ontario and Quebec.

HUNDREDS OF THEM.

There are in Vancouver today hundreds of miners from all parts of the world, England, Australia and the United States, waiting to go north.

Over 250 came in over the Canadian Pacific Railway last night from Eastern States, Ontario and Quebec.

EDMONTON ROUTE

THE ONLY ONE BY WHICH CANADA CAN BENEFIT—TRADE ONLY WILL HELP THIS COUNTRY.

Mr. Frank Oliver, M. P., of Edmonton, addressed the members of the Toronto Board of Trade this afternoon in the advantages to Canada of the Edmonton route to the Yukon country.

Mr. Oliver's contention is that while the Pacific route at present before Parliament may be all right from the point of view of the development of the Yukon country, it will be a good many years before it will be a good route for the trade of the Yukon country.

In elaborating this point, Mr. Oliver said:

"It makes no difference to you how much gold is taken out of the Yukon. It is the trade you want. It is the trade of the Yukon country, from the Canadian point of view. Your only hope of expansion, said Mr. Oliver, depends upon the expansion of the agricultural interests of the Northwest. You wish to sell manufactures to the Yukon miners. By any route from the coast, neither of these purposes can be served.

FROM TORONTO

SEVERAL MORE OUTRITS BOUGHT—TORONTONIANS STAY TO DAY.

The majority of gold-seekers who have made Toronto their outfitting and starting point for the Klondike have gone in by the Albatross Landing. There are now in Edmonton and camped on the trail between there and Albatross Landing 219 men awaiting the breaking up of the ice, and there are 289 on their way over the snow to the Eldorado.

Yesterday M. P. McDonald, of Brigidon, near Sarnia, the agent of a small party, came to Toronto for his equipment. The clothing was purchased from Oak Hall. McDonald returned to Sarnia to-day, and will leave with his party via Chicago for Seattle next week. They will take the Dyea-Chilkoot route direct to Dawson city.

SPAIN IS CAUTIOUS

FULL AND DETAILED ORDERS GIVEN FOR THE WARSHIP VISITING THE STATES.

(Special to the Times.)

Madrid, Feb. 17.—Premier Sagasta has had an important conference with the Minister of Marine on the subject of the visit of the first-class ironclad cruiser Viscaya to the United States.

It is said at the Ministry of Marine that a long telegram in cipher has been sent to the Spanish Charge d'Affaires at Washington, Señor du River, directing him to give instructions of a precise character to the commander of the Viscaya so soon as that vessel reaches the United States coast, "so that he may be prepared to avoid all complications." It is possible that the Charge d'Affaires will personally go to New York to deliver the instructions referred to.

DR. FORD SPEAKS AT KEENE

The Questions of the Day Treated With Marked Ability

Mr. Sherry, of Newwood, Makes a Capital Speech The Town Hall Crowded to the Doors—Blasting speeches

On Wednesday evening a well-attended meeting was held in the town hall at Keene in the interests of the Conservative candidate, Dr. Ford. Notwithstanding the intense cold and bad roads the hall, which, by the way, would do credit to a much more pretentious town than Keene, was crowded, indeed, uncomfortably so, many persons having to stand the entire evening.

Dr. Shaw was unanimously voted to the chair, and in his short but pointed address, the Government received an unmerciful scolding. Mismanagement, extravagance, nepotism, waste of colonialization money and abuse of the license system, comprised a few of the charges preferred by the doctor. In the opinion of the speaker it was most decidedly time for a change. These abuses had already existed too long, and the electors only awaited the 1st of March to show their disapproval by ousting the present administration and handing the reins to Mr. Whitney.

Mr. Sherry was then called upon and was received with applause. He claimed that never in the history of this land was there a time when more cause existed for the electors using his franchise conscientiously, and he felt sure that where the matter made one of conscience his friend, Dr. Ford, would head the polls on March 1st. Mr. Sherry had represented the riding for 20 years, and it was time for a change. His reasons for demanding a change were both political and personal. Mr. Sherry four years ago solicited their support on the plea that it would be the last time he would seek re-election.

Notwithstanding this, he was elected for 20 years, and it was time for a change. His reasons for demanding a change were both political and personal. Mr. Sherry four years ago solicited their support on the plea that it would be the last time he would seek re-election.

Notwithstanding this, he was elected for 20 years, and it was time for a change. His reasons for demanding a change were both political and personal. Mr. Sherry four years ago solicited their support on the plea that it would be the last time he would seek re-election.

PETERBOROUGH, FEBRUARY, 18 1898

AN EXAMINATION PAPER.

A subscriber sends the Hamilton Spectator the following suggestions for examination in English literature:
English Literature—1898

MEN WANTED.

Primary examiners—Molly Maguire M.A., Tammany Machine, B.A.
Canada wants heroic men—men who shall dare

To struggle in the solid ranks of truth;
To clutch the monster error by the throat.

Herl has oppression from her lotter meat, break down

Her walls and let the world with passions

Of universal rapture usher freedom in.

—Dr. Ross.

1. Under what circumstances of time and place was this poem supposed to have been stolen?

2. What is a plagiarist? Distinguish him and the ordinary thief.

3. Canada wants heroic men. What quality of heroism is exposed when you steal the product of a dead man's brain?

4. Distinguish "struggling truth" and wallowing in the slime of falsehood.

5. Give another title for this poem and the man who wrote it?

6. Show in what respect and to what extent the "author" of this beautiful poem reveals his own character to us.

7. Compare and contrast lines 1, 2,

and 3 of the above with Dr. Howland's "parallel" lines.

The age wants heroes—heroes who shall dare.
To struggle in the solid ranks of truth;
To clutch the monster error by the throat.

8. Give reasons why the youth of Ontario should memorize Dr. Ross' lovely poem.

Note—Values, 11 marks each, 12 1-2 per cent added for lying.

Is it time for a change?

Is it time for a change—in West Peterborough?

There will be found no surplus of voters on March 1st.

West Peterborough is deserving of having a statesman to represent it—not a politician.

No wonder he is "the people's darling Jimmy." He is said to know how to "squeeze" the people.

The stream of natural gas which was struck back of Armour's hill is as nothing to the flow of gas developed by some of the stumbers in this riding.

In Great Britain, one of the best governed countries in the world Liberal and Conservative governments are placed in power almost alternately.

West Peterborough wants its electors represented in the next legislature. J. R. Stratton and his interests have been represented there long enough.

Frank Anthony is one man who can deliver the goods he contracts for. He holds them in his hands. The registration board however had a slight doubt as to the quality of the "goods".

Eight years ago J. R. Stratton was held up as coming minister. Four years ago he was also promised the next vacancy by Mr. Ross. This year he got a recommendation from the same gentleman, but it was surprisingly weak. They have taken his measure up there too.

What has become of Stratton's popularity of four years ago? It can not be found around this riding. We do not believe that it is transferred to the Toronto Cabinet either for the cost of white-wash that Mr. Ross gave him at his meeting here was most disappointingly thin compared with that of four years ago.

Those friends of Mr. Stratton who refer to his coming out twelve years ago and then tell what a bright future was before him touch the poor man on a sore spot. It was then thought that he might become important. But he has been a disappointment. Nobody expects as much of him now as they did then. They have seen that it is not in him.

There must be no truth in Mr. Garvin's direct charge that after the last election Mr. Stratton revealed the list in which sixty electors of Peterborough had voted. There must be no truth in it for Jimmy Stratton has said "It's all rot." This conclusive statement from our great politician ought to convince the most doubtful elector.

Although an independent paper we have Liberal leanings and a decided fondness for Liberal opinion. Here is a piece of it: "For the province to have a Provincial Government in close party alliance with the present Government at Ottawa is for the province to give up their right or claim which may be in opposition to any policy adopted for party purposes or otherwise by the Dominion Government."—Sir Oliver Mowat's letter to his constituents, Globe, June 2, 1890.

SEALED TENDERS addressed to the undersigned and marked "Tender for Honors Bay Wharf" will be received at this office until Thursday, 10th March next, 1898, for the construction of a wharf approach on Honors Bay, Manitoulin Island, Algoma County, Ontario, according to plan and a specification to be seen at the office of H. A. Gray, Esq., in charge of harbor works, Ontario Confederation Life Building, Toronto, and the Postmaster of Honors, Manitoulin Island, Algoma County, Ont., and at the Department of Public Works, Ottawa.

Tenders will not be considered unless made on the form supplied and signed with the actual signatures of the tenderers.
An accepted bank cheque, payable to the order of the Minister of Public Works for eight hundred dollars (\$800.00) must accompany each tender. The cheques will be forfeited if the party declines the contract or fails to complete the work contracted for, and will be returned in case of non-acceptance of tender.

The Department does not bind itself to accept the lowest or any tender.

By order,
E. F. E. ROY,
Secretary.

Department of Public Works,
Ottawa, Feb 11th, 1898.
Newspapers inserting this advertisement without authority from the Department will not be paid for it.

It is economy to profit by the experience of others. Thousands have been cured by Hood's Sarsaparilla, why not you.

TIME FOR A CHANGE

Continued from page 1.

"The license system has been used to some extent for party purposes, if not with the Government's consent, still by those whom the Government should have controlled.

"The Liberals have been so long in power that it is a question for the people of Ontario to decide whether they have not grown somewhat to masterful, somewhat too arrogant, somewhat too conservative; in fact, too much in love with themselves, and with what they have done." To those we would add the fear of alliance with the Ottawa government, and above all the general feeling that the other party should have a chance.

The best means of judging the whole province is by local opinion. Although side issues of a local nature may influence the result the general feeling will be found to prevail.

What a change has come over West Peterborough in three months! If the revulsion of feeling in favor of Mr. Garvin continues at the present rate for the next ten days, and is accelerated as is expected by the Whitney meeting to-night, Mr. Garvin will be elected.

Where will the change take place? A great deal of change has taken place in Mr. Stratton's popularity (now unpopularity) within four years. J. W. Garvin is to-day the most popular man in this town, if not in the riding. As to the change in voting it will take place in Peterborough town, in Ennismore, where Mr. Garvin will get a good majority, in Harvey, in South Monaghan and in Lakefield, besides a big reduction of Mr. Stratton's majorities in Smith and Galway. The registration law has given Mr. Garvin an advantage. There were 802 votes not polled last election which will cut a lot of ice this time. All these together with the influence brought about by the feeling that the province will turn will have the effect of electing Mr. Garvin.

Mr. Stratton's methods are in disrepute. He is known as a trickster politician. He is believed to have used his control over the licenses and the road money for party purposes. He has the reputation of being an office hog. He is more feared than loved, and supported chiefly by men with axes for the grindstone. This is what is thought of him by a great many people in this riding who are not Tories. It is not elegant or complimentary but we believe it is true. It is the general opinion that Mr. Stratton will be ought to be defeated.

THE FEMININE OBSERVER

The new spring hats are masses of color and bloom.

A man never flatters the woman for whom he really cares.

We must pay for our glimpses of happiness in this world.

Pleasure is the pie-maker most people try their best to keep up with.

The new feminine figure demands a dress skirt only three yards wide.

The Castellane veil is the latest thing and of a robbingly lace, creamy white in hue.

We are all aware that riches have wings, but it is very seldom we see them flying our way.

There is no use weeping over yesterday's grievances if you wish to enjoy to-day's blessings.

The only sure way to accomplish anything satisfactorily is to attend to every detail personally.

It generally follows that when we make a few dollars our relatives hear that we have made thousands.

It is the hardest lesson to learn, but one of great benefit, that the average person only like you for what they can get out of you.

It is not very encouraging for a woman to have her intended husband treat the idea that she can cook as a huge practical joke. He will find that the subject of her culinary accomplishments is no laughing matter, once he is married to her.

The man who desires himself impervious to cold and goes tramping about without an overcoat these days will be needing under a gray bed next summer "if he don't watch out."

If a woman keeps her temper when she is playing cards it is a pretty good sign either that she is winning or that she will be able to put up cheerfully with all sorts of trials and hardships.

If women would only endeavor to discover the weak points in their personal appearance and then make every effort to hide them there would be many better looking females roaming about.

A Novel Waist

One of the most novel waists in delicate green and white silk was worn at a fashionable function recently. The foundation was of light green and there were double-ruche ruffles of white and green striped silk passing diagonally from the left shoulder to the right and the blouse fulness was held in at the waist by a dark green satin belt. Outlining the corsage was a fluffy trimming composed of crumpled folds of silk fashioned after the manner of overlapping lettuce leaves. Large nozzles of green satin ribbon formed a puffing about the top of the short sleeves. The effect was unique.

The southern entrance of the Red Sea is commanded by the fortress of Aden and the fort on the little island of Perim, in the Strait of Bab-el-Mandeb; the guns of the latter completely covering the narrow channel, and the fortress dominating the entrance to the sea.

Prosperity Eluded Him.—"I thought you said you saw prosperous times ahead." "Well, I thought I did, but the horses I had my eye on wouldn't have me."—Chicago Post.

Counsel—What is your age, madam? Witness—I only know from what I've been told, and you just told me that heavenly evidence was not valid in court. —Fliegende Blaetter.

Town Treasurer's Sale of Lands for Taxes

1897

1897

TOWN OF PETERBOROUGH. BY VIRTUE OF A WARRANT, under the hand and seal of the Mayor and Council of the Corporation of the Town of Peterborough, and to me directed, bearing date the Eleventh day of December, in the year of Our Lord One Thousand Eight Hundred and Ninety Seven, I am commanded under authority of the Consolidated Assessment Act of 1892 and amendments thereof, to levy on the lands hereinafter mentioned and described, for the Arrears of Taxes due thereon with the costs as hereinafter specified, as directed by the said Act. These are therefore to give notice that unless the said Arrears and Costs are sooner paid, I will pursuant to the said Act, proceed to sell by Public Auction at the Town Council Chamber in the Town of Peterborough on Thursday the Twenty Fourth day of March in the year of Our Lord, One Thousand Eight Hundred and Ninety Eight, at the hour of Ten O'clock in the forenoon, so much of the said lands as is sufficient to discharge the Taxes and all lawful charges incurred in and about the sale and the collection of the Taxes:

Adorning Times
PETERBOROUGH, FEBRUARY 18 1898

DUTY ON LUMBER
THE COLUMBIA DEMANDS A TARIFF EQUAL TO THAT OF THE UNITED STATES.

(Special to the Times.)
Vancouver, B. C., Feb. 16.—For a long time the lumbermen of British Columbia have been protesting against the United States duty on their lumber and shingles, while Canada imposes no duty on the United States product.

The Council of the Board of Trade has now passed a resolution that until the lumber products of Canada be put free into the United States, exactly the same duties as are imposed by the States on Canadian lumber and shingles, be imposed on all grades and all kinds of lumber except cabinet woods entering Canada from the United States.

RUBIES ON THE FRASER
A BRICKLAYER IN BRITISH COLUMBIA STUMBLES ON A MINE OF RUBIES.

Vancouver, Feb. 17.—A big sensation was caused in town yesterday over the fact that J. Bally, a bricklayer, while excavating for a building, blundered on a ruby mine.
The gems are pronounced by experts to be genuine, fair-sized stones, and perfect in quality. The place where the find was made was on a high tertiary level of the Fraser River, above New Westminster.

You Talk About Pain
Rheumatic and Sciatic pain. I think I suffered more than any one on earth for three months and could not get any relief until I used "NEW LIFE" medicine. Then I did enjoy the height of felicity, and am now healthy and well. A. SMITH, Toronto Gas Works.

KEEPING ONE'S HEALTH
IMPORTANT TOPIC HANDLED IN AN INTERESTING WAY.

Dr. Seneca Egbert, Professor of Hygiene, Medical-Chirurgical College, delivered on Friday afternoon at the Assembly of Natural Sciences the last of his course on hygiene and sanitation, the subject being the superlatively important one of "School and Personal Hygiene." School hygiene, affecting as it does nearly the whole of the coming generation, was taken up first. The arrangement of furniture is of the greatest importance. The windows must be at the backs of the pupils, and a blackboard in no case set between two windows. Eye strain must not be tolerated. All of us have suffered from bad lights at times, if only from our stupidity, but too often it's a case of can't help it.

IN THE MATTER OF EXERCISE.
As for exercise, though can't be said of it and for it, though, of course, as in everything else, each one must have enough sense to consider his or her own strength. Indoor exercising with dumbbells, Indian clubs and the like was not highly recommended, as it has a tendency towards becoming altogether unwholesome. Besides, it only secures like imitation exercise, whereas the fresh, crisp breeze to breathe once one's glowing, the bicycle has its innings, too; was, in fact, called the king of sports, or something to that effect. But, of all, the feminine portion of our population has managed to go far enough to consider itself as to enjoy this delightful exercise, which, we are assured, is next to flying. And while we're taking this sort of exercise you know the thinking part of our brain is resting. So do give the portion that governs the motor centres a chance.

CLOTHING.
As for our clothes, "though the apparel of man," they were not made for fun or, and, in fact, we were reminded that there is room for improvement. For the last half century has seen many improvements. "Even feminine garments are becoming comfortable, and there's more reason in our fashions." It was even admitted that men's clothing is at times ridiculous, and those of us who high for the old-fashioned styles didn't like the "at times part of it."

NEXT BATHING.
We bade for two purposes, first to get clean, and, second, to keep up the circulation; that is, first to read out books, and second to bring it to the surface. And it may be whispered that any who have never taken a Turkish bath have yet to feel what it is to be clean. Whether or no bathing acts as a tonic all depends, and so cold baths, while wonderfully helpful if they agree with one, may be fatal if they do not. So, again, the degree of chill all depends, and under no circumstances should one be too hasty. Anything from 60 to 70 degrees is termed cold. As for time, another most important detail, most cases the morning will be found best. Folk, though, who suffer from insomnia often find a sponge bath on retiring the best thing, cold or warm, as agrees best with them. This takes the blood from the brain, as every one knows. These things each must solve for himself. Seashore bathing is too often overdone; bathers linger so long that the reaction not only comes but goes, and so depresses the whole system. Swimmers, too, forget that it will take quite as much strength to swim back as it did to swim out. And, of course, everybody knows that they must not bathe near meal time. Bathing soon after means that the skin and muscles will get the blood supply that the stomach needs, and leave the food indigested, which may lead to nausea and cramps. Dr. Egbert said he once treated a man who was suffering from this cause—reflex action, of course—though the man was shrieking with cramps in his legs. We must also be sure to thoroughly rub and dry ourselves after bathing.

HEREDITY.
As for the heredity of diseases, we merely inherit very strong tendencies. Tuberculosis, say, is said to be hereditary. Of course, a child born of a mother thus afflicted is more susceptible.

A Common Cold

and common carelessness can make a combination strong enough to defy all the healing skill of the physician. Common carelessness lets the cold root and grow. Common carelessness says, between paroxysms of coughing, "It will be all right in a day or two," and the common end is confirmed lung trouble, perhaps consumption. The common-sense treatment of a common cold is a prompt dose of Ayer's Cherry Pectoral. It is the most efficient and reliable cure for colds and coughs, and is constantly prescribed by physicians.

S. HAYNES, M. D., Saratoga, N. Y., says:—"I have used Ayer's Cherry Pectoral in my practice since 1883, and have always found it reliable for the cure of colds, coughs, and all lung diseases."

Ayer's Cherry Pectoral

Free advice on any disease from our eminent physician. Address: Medical Department, J. C. AYER CO., Lowell, Mass.

able, but if the child were immediately vaccinated, the child would have injected its mother the chances are that it would go free. So, let us remember it's the inheritance of the predisposition to rather than the disease itself.

MARRYING.
You will surely be interested to know that some children have diseases, smallpox even, before they are born. And, please remember, not to marry your cousin. If you're a girl do not marry before 20; or, if a man, not before 24 or 25, because your bones aren't even matured till then. And nervous persons should not marry at all—which is next door to dooming the whole population! For who hasn't nerves?

POLITICAL COINCIDENCES
BROTHERS WHO REPRESENT OPPOSING FORCES IN PARLIAMENT

Should Lord Edmund Fitzmaurice win the Orkney election there will arise the curious coincidence of three successive Secretaries of State for War having brothers of opposite political views sitting in Parliament during their tenure of office, says the Westminster Gazette. In Lord Salisbury's second Ministry Mr. Edward Stanhope was War Minister from 1887 to 1892, during which period the Hon. Philip Stanhope sat as Liberal member for Weymouth. In the Liberal Ministry which reigned from 1892 to 1895 Sir Henry Campbell-Bannerman had as a family foil his elder brother, Mr. J. A. Campbell, the Conservative representative of Glasgow and Aberdeen Universities; and now, if Lord E. Fitzmaurice becomes the Liberal member for Orkney he will serve as a political bulwark to his brother, the Marquis of Lansdowne.

Proclamation!
Electoral District of the East Riding of the County of Peterborough, to Wit:

PUBLIC NOTICE IS HEREBY GIVEN to the Electors of the Electoral District of the East Riding of the County of Peterborough, that in obedience to Her Majesty's Writ to me directed, and bearing date the Second day of the month of February, 1898, I require the presence of the said Electors, at the TOWN HALL, in the VILLAGE OF NORWOOD, on the

22nd Day of the Month of Feb.

1898, at One o'clock p.m., for the purpose of electing a person to represent them in the Legislative Assembly of this Province; and that in case a poll be demanded and allowed in the manner by law prescribed, such poll will be opened on the

FIRST DAY OF THE MONTH OF MARCH

In the year 1898, in each of the Townships, Wards or Polling Subdivisions in which a polling place is to be opened and kept according to law, of which due notice will be given on the Day of Nomination. Of all which every person is hereby required to take notice and to govern himself accordingly.

Given under my hand at Peterborough, this third day of the month of February, in the year 1898.

POND'S EXTRACT

WILL CURE
PILES

"I have long known its value in bleeding piles. It is the prince of remedies in all forms of hemorrhoids."—Dr. A. M. COLLINS, Chomson, Mo.

OATARRH

"Have been a constant sufferer for years from severe colds in head and throat. Tried most every known remedy. Pond's Extract relieved me wonderfully, and has effected almost a radical cure."—FREDERIC E. FINCK, New York City.

SORE EYES

"It acts like magic in ophthalmia. I like it so much for sore eyes."—Rev. M. JAMESON.

LAMENESS

"I strongly recommend Pond's Extract for lameness, and use it constantly."—MICHAEL GONOVAN, N. Y. Avenue C, N. Y.

SORENESS

"Had a large swelling on my ankle, which had been to the bone. Pond's Extract relieved me wonderfully, and has effected almost a radical cure."—MINNIE V. VINTAGE, Leesville, Fla.

DR. SSS

"Pond's Extract has been used with marked benefit by our inmates in many cases of bruise, and has thereby proved very beneficial."—LITTLE ADVICE OF THE POOL, New York City.

OPRINS

"I have been prescribing Pond's Extract, and find it a valuable remedy in many cases of sprain, and has thereby proved very beneficial."—W. P. BURBANK, M.D.

BURNS

"Had my left hand severely burned and lost the use of it completely. Received relief by use of Pond's Extract in ten days."—Mrs. A. SHERMAN, New York City.

HEMORRHOIDS

"Am supplied with hemorrhoids from long use of the bowels. Pond's Extract relieved me wonderfully, and has effected almost a radical cure."—GEORGE W. WARNER, Scranton, Pa.

INFLAMMATIONS

"I have used Pond's Extract in a case of long standing internal inflammation, and obtained relief within a few hours."—JAMES E. READE, Philadelphia.

and should be always kept on hand for emergencies.

"Long experience has taught my family to regard Pond's Extract as one of the most valuable remedies in the household."—ANDREW D. WHITE, President Cornell University.

MAYOR'S OFFICE.

Mr. Davis will be at the Town Offices, from 9 to 10 o'clock, each morning to meet those having business to transact.

A. L. DAVIS,
Mayor

Morning Times

PETERBOROUGH, FEBRUARY 18, 1898

TOWN AND COUNTY NEWS.

The Mail of Life
McQuay, Baple & Co's bread is pronounced to be first-class. Only 10c. for a large loaf.

Wanted
An experienced general servant wanted. Apply at once at 520 Water Street.

Belmont's Pastry
McQuay, Baple & Co., are selling the delicious pastries in town opposite Adam Hall's.

Horses Wanted
Mr. W. J. Pearson, the well known and popular horse buyer of Montreal, will be at the Royal Hotel, Port Hope, on Monday Feb. 21st, and at White's Hotel, Peterborough, on Tuesday, and Friday, Feb. 22nd and 25th, for the purpose of buying a car load of good sound horses of every description. Parties having horses to dispose of will consult their own interests by awaiting the arrival of Mr. Pearson, who is prepared to give the highest prices for first-class animals.—d-1-w.

Piles! Piles! Itching Piles
Symptoms: Moisture, intense itching and stinging; most at night; worse by scratching. If allowed to continue, the hemorrhoids will become inflamed and become very sore. Swenson's Ointment stops the itching and bleeding, heals the tumors, and in most cases removes the tumors. In all cases, or by mail, for 50 cents. Dr. Swenson & Son, Philadelphia, Lyman & Co., Montreal, wholesale agents.

The Annual Meeting of the Canadian Press Association will be held in Ottawa, March 10-11. Among the important matters to be considered will be the postage question, in-library legislation and the visit of British Journalists to Canada. Frank A. Munsey, who has been without doubt the most successful modern publisher, will deliver an address on the "Elements of Success in Newspaper Publishing." It is hoped that one or two of the following representatives of the British Institute of Journalism will be present: Lord Glenesk (London Morning Post), Sir Hugh G. Rail, M.P., J. M. MacLean, M.P., and Sir Edward Russell. The dinner will take place as usual, when a number of important speeches will be made.

DISTRICT AND LOCAL TOPICS

Reporter's Phone, 164 B.

—A fancy dress carnival is to be held at Keene's to-night.

—Col. Matheson, Mr. Whitney's right bower, addressed a good meet in Port Hope last night.

—A carnival will be held in the rink at Norwood to-night. Some good races are expected to take place.

—All the canoe factories in town are rushed with work. The Klondike boom has struck Peterborough to this extent at least.

—Roy Wylie, son of Mr. B. M. Wylie, Stewart St., Ashburnham, had his leg broken above the ankle by falling while skating on a pond yesterday.

PERSONAL AND SOCIAL

—Mr. Chas. H. Fenton, who has been visiting relatives in England, has returned home.

—Miss Lizzie Stewart, Monaghan, Ireland, is visiting her aunt, Mrs. James Macbeth, Otonabee.

—Mr. John McCarthy, of Ottawa, is visiting his parents, Mr. and Mrs. J. McCarthy, Lake St., on his way through to British Columbia.

—Mr. Albert Price, son of Mr. S. R. Price of Otonabee, has left Regina, where he was stationed with the Mounted Police, to join Major Welch's force in the Yukon district.

—Mr. Chas. Dawson, who has for the past five years been Works Superintendent for the Central Bridge Works, will leave town shortly to take a position with the Dominion Bridge Co., Montreal.

POLICE COURT NEWS

Business Transacted by Magistrate Tumbler.
Oliver Twist, a young man, was sentenced to one month in jail as a vagrant. He did not ask for more.

Robert Dolan, charged with larceny of some money from the till off the Southern Hotel, pleaded guilty at police court yesterday and was sentenced by Magistrate Dumble to serve six months in the Central prison.

WEDDING BELLS

Marriage of Mr. Robert Martin and Miss Martha Baber.

A pretty wedding took place at the residence of Mr. Wm. Baber, Louis St., Wednesday evening, when his daughter, Miss Martha O. Baber, was united in marriage to Mr. Robert Martin, Rev. D. O. Croxley performing the ceremony in the presence of a few friends of the parties. Miss Maud Baber was bridesmaid, while the groom was assisted by Mr. Gilbert Borden.

The bride was prettily attired in a lawn dress trimmed with blue silk and ribbon. The bridesmaid wore a becoming dress of blue trimmed with silk lace.

After the ceremony a sumptuous wedding supper was served. Both the young people are well known and popular in town.

MEETS NEXT WEEK

The Epworth League Convention—Academy of Epworth.

Citizens of Peterborough are reminded of the convention of Epworth Leagues of the Bay of Quinte Conference which meets here in the George Street Methodist church on Wednesday and Thursday of next week, Feb. 23rd and 24th.

It is expected that there will be in attendance at least 200 delegates from all parts of the conference.

An excellent program embracing papers on all parts of the work will be presented.

The Rine Bros., Hamilton, the celebrated singing evangelists, will sing at all the sessions of the convention. Miss Myrtle Hendren, Lakefield, has also consented to sing.

DAUGHTERS OF ENGLAND

Lady Lansdowne Lodge Reception Last Night.

Lady Lansdowne Lodge Daughters of England held an "At Home" in the Sons of England hall last night. It was a most successful affair. The rooms were crowded with the friends of the Lodge and all enjoyed themselves immensely. The refreshments served by the ladies in first-class style were an important feature in the evening's entertainment. A very interesting program was run off, all the numbers being highly appreciated by the audience. Mr. M. Waram acted as chairman in a very efficient manner, and at the close returned the thanks of the ladies to the talent kindly assisting in the program. The numbers were as follows:—

Instrumental, Mrs. M. Waram.
Address, Obscurum.
Song, Mr. Jackson.
Recitation, Miss Thornbyke.
Reading, Miss Booth.
Song, Mr. Gordon.
Instrumental, Miss E. Dawson.
Solo, Mr. Hodgson.
Refreshments.
Song, Mr. Gordon.
Recitation, Miss Booth.
Instrumental, Miss Hylman.
Recitation, Miss McCrea.
Recitation, Little Miss Jackson.
Solo, Mr. Hodgson.

Just received fresh Sea Salmon, Halibut, Smelts, Lake Superior Trout and White Fish. Best brands Baltimore Oysters. J. B. Oke.

FIFTY MINERS PERISH

FEARFUL EXPLOSION OF FIRE DAMP IN A PRUSSIAN COLLIERY

(Special to the Times.)
Bochum, Prussia, Feb. 17.—By a terrible explosion of fire-damp in a colliery 50 miners have been killed. Thirty-seven bodies have been recovered.

All Wines and Fruits
Our Figs, Nuts, Dates, Grapes, Lemons and Oranges are all new stock, and we can give you best value in all that we carry. J. B. Oke.

PROF. HUTTON'S LECTURE

The Roman, the Greek, the Englishman and the Frenchman

An interesting lecture on the Four Races Delivered at the Y. M. C. A. Last Night—Some Marked Peculiarities Described

Professor Hutton, of Toronto University, gave an interesting lecture at the Y. M. C. A. lecture room last night, taking as his subject "The Greek, the Roman, the Frenchman and the Englishman." The lecturer was brought here under the auspices of the Fortnightly Club, who are to be commended for their progressiveness in being the means of giving the public a highly intellectual treat. Rev. Mr. Symonds occupied the chair, and introduced the speaker to the large audience present.

(Professor Hutton began his lecture by describing in general terms the curious and interesting analogy existing between the character of the Roman and the Englishman on one hand, and that between the Greek and the Frenchman on the other. Considering first the Roman, by study of his history, it will be found that he was narrow-minded and intensely practical. He was fond of happiness and wealth, these two being to his mind synonymous with happiness and good luck. He was, too, above all things, economical. He carried this trait of character into all his actions, even into his religion so far as to forbid costly sacrifices being made to the gods, or heavy collections being taken up for them, a point in which he differed from almost every other people. The Roman was also very conservative, clinging always to old ideas and customs. He carried this conservatism so far as to make it a practice to adopt his new ideas to old methods, instead of his old ideas to his new knowledge. The Roman was, comparatively speaking, an unintellectual people. They seemed rather governed by a wise instinct than by brilliant intellect. They went by old customs and traditions, and gave reverence to outward and material things, especially in the forms and ceremonies of the religion they practiced. Their modes and customs bound them together in a common feeling and thus saved them from the anarchy which has ruined so many nations. If in their outward forms they were hypocrites, they were unconscious ones. It was their law to do these things and if things were legal they were never immoral to these people. In private life they practiced self-discipline and were very austere. They lived a healthy domestic life, and their political and practical virtues, they differed widely from their relatives, the Greeks.

The general features of the Roman character are suggested by a study of the solid Englishman or the canny Scot. In both will be found an equally practical nature. They are indifferent to logic in the abstract, but close and studious observers of matters of fact. The Englishman, like the Roman, is clannish and thrifty. He believes in acts and deeds and life, and distrusts thought, language, or above all things, eloquently expressed. All language to him must express practical, tangible facts. He has a contempt, the same as the Roman, for mere literature. The Roman authors, though great as writers, prided themselves far more on being men of affairs. This is true of Cicero, Pliny, Virgil and all the others. The Englishman does not relish verbose picturesque writing. How many of their most rugged and most rugged practical poets that appeal most to his countrymen! This characteristic is shown also by the popularity of Rudyard Kipling, who is much read because he sticks close to life, and writes words of action and facts.

In sport the town people are alike. Both are somewhat coarse. The Roman forefathers in England enjoyed nothing so much as a cock-fight, and even yet a prize-fight. A similar analogy exists between the Greek of the true Athenian type and the Frenchman. They are naturally glad to observe the abstract details, and even studied the resources of words to bring their details home to the reader. The ancient Greeks were alike to the French, in their fondness for high-flown language. They paid more attention to form than fact. In their writings the point of consideration with them was not the matter to write but the manner of writing it.

A striking mental resemblance also existed between the Greek and the French. In both the intellect is developed at the expense of the moral nature. They are also fond of show and display, of using gestures and signs, and of being before the public eye. They are lively and fond of amusement. Both are subtle, witty, quick and clever.

In closing, the eminent lecturer gave an interesting comparison of the English and French today. The English is superior in their solid stability of character, in practical virtues, in thrift and economy and in satisfaction with settled conditions. They are, above all, a matter-of-fact people. The French excel in mental, but not moral development in the arts and sciences, in style in all things, and in such small matters as wit and manner of dressing.

The nature of the two are strikingly different. The English are distant; the French are genial. This difference has a great effect on their colonies. French colonies came closer to their mother land and always love her. English colonies more widely but she is liked. If a foreign country were left to draw to either she would turn France, for by the genial and candid nature of her people she is always open to foreign people.

A vote of thanks moved by Mr. D. W. Tumbler and seconded by Mr. R. M. Tumbler was presented to the speaker of the evening, both gentlemen expressing their high appreciation of the rich intellectual treat.

Biliousness

is caused by torpid liver, which prevents digestion and permits food to ferment and putrify in the stomach. Then follow dizziness, headache,

Hood's Pills

(Insomnia, nervousness, and, if not relieved, bilious fever or blood poisoning. Hood's Pills stimulate the stomach, rouse the liver, cure headache, dizziness, constipation, etc. 25 cents. Sold by all druggists. The only Pills to take with Hood's Sarsaparilla.

A GRAND SUCCESS!

Continued from page one.

the erection of Parliament buildings and other public buildings, and compare it with last year, when we did not spend \$20,000 even in repairs on any buildings or any public work. They take the gross expenditure, and then tell us that they are reducing the expenditure. That is not a test. The test is to take the ordinary expenditure, the items of civil government, administration of justice, education and so on. Now, if we take that ordinary expenditure, it has been steadily increasing. As long ago as 1880 the Globe said it was time for a halt. That direct taxation must follow, but still it went on increasing, and in 1886 that ordinary expenditure was a little less than \$2,000,000, and is now up to \$2,880,000. Ten years later, in 1896, that ordinary expenditure item increased to \$3,000,000—\$178,000 increase in ten years of that ordinary expenditure, which, once commenced, is very hard to cut down. And then this last year, you would suppose that in view of an election they would try to cut it down, but it increased still further to \$3,343,000—an increase of \$343,000, so that in the eleven years the ordinary expenditure of the government increased by \$1,800,000. The expenditure increased \$300,000 more than the receipts. Last year, in view of the election, they made a desperate attempt to make ends meet. They collected from Crown Lands all the arrears possible. They had this timber sale, and got \$190,000 of bonus, and \$200,000 from Crown Lands and timber receipts were \$700,000 more than they were in 1896—\$700,000 more than they themselves estimated in the spring of 1897. They got this \$190,000 really capital, as a bonus on the August timber sale, and they collected \$200,000 of bonus on timber dues. They cannot do it again this year. They are collected. It was a desperate attempt to make ends meet, and even then taking the bonus on timber sales of \$150,000 from the receipts they failed to equal the expenditure by some \$100,000. The result of this expenditure was a deficit of \$100,000. In 1894 the receipts of this province failed to equal the expenditure by \$105,000. In 1895 they also failed to equal the expenditure. In 1896 they failed to equal the expenditure by \$100,000. In these three years this province went behind \$300,000, and I will show you where it came from. At the beginning of 1894 we had a million dollars in cash in the bank, the balance of a great timber sale. At the end of 1896 there were only \$226,000; \$774,000 had gone to pay deficits. In 1894 we had \$1,000,000 in invested in drainage debentures. In 1896, \$330,000; \$111,000 of the principal of the drainage debentures had gone to pay deficits. In 1894 they borrowed on debentures, which they called annuities, \$150,000. This makes a balance to a cent of a million, two hundred thousand dollars of deficit for these three years and they admit it.

In 1875 there were 173 boys in the Penitentiary reformitory, costing the province \$21,000, which was \$123 per head. Twenty years later, in 1895, there were in the reformitory 159 boys. They cost the province \$36,500, or \$245 per head—\$15,500 more than the 173 boys cost in 1875. That is a sample of the way in which the expenditure increased. Mr. Ross, in his speech the other night, said we are a half-cent party and not responsible for this cost. We did not move against it. Take our position in the house. We cannot move that the expenses be cut down \$5,000 or \$10,000. It is against the rules of the House for men to move that this or that salary be struck out, and that is how it is possible for us to reduce it. At the reformitory the superintendent gets \$1,800 a year and \$600 for table allowance. We moved to reduce him to \$1,200 and his table allowance. There was an assistant superintendent, who we found really did the work. We found that his salary was \$1,000 a year, and it was not fair to move against him. We moved against fifty thousand dollars during the last session. On the Grand Trunk, for instance, the manager, Mr. Hayes, when he took the position of general manager, was not told that he must dismiss so and so, and thus make both ends meet; but he was given power to reduce the expenses wherever he saw it possible. That is the way it should be done, and that is the command of the people of the province. Mr. Ross says we only moved to reduce one-half of one per cent of the expenditure, and that we must be equally responsible for the rest. We objected very strongly against the increased expenditure; but cannot get at it at all.

We do not believe in direct taxation. We believe that no good will come from it to the affairs of the province. Another answer to all the statements that we have a surplus and no debt. Both of these statements are untrue, as this province has a debt over all assets of four million dollars, and they have no surplus available. They owe to the Dominion one hundred thousand dollars interest on it. You will not see it in the public accounts. The way it is paid the Dominion stops the amount from the interest we are entitled to receive from it. It is not an old debt. It is a debt mainly incurred within the last ten years. We owe it for railway certificates one million, two hundred thousand dollars, and for annuities one million nine hundred thousand dollars and over, making a total of these items of three million one hundred thousand dollars. To the Dominion we owe two million dollars, and we have also collected in school funds the sum of seventy thousand dollars, and the only asset we have to pay these debts is six hundred and five thousand dollars in the bank at the end of last year and three hundred and fifty-five thousand dollars invested in drainage debentures—a total of nine hundred and sixty thousand dollars. Taking that from the debt, it leaves four million, two hundred thousand dollars.

Now, gentlemen, that is all I propose to say about finances. I want to say a word about school books.

You pay from one-third to one-half more than you should for your books. I want to prove it to you. This speaker produced a copy of the Toronto Globe, and opened out its pages before the audience. When they print a book they print a sheet like this; then it is folded and cut, two of these pages make sixty-four books exactly the size of the first part of the First Reader, for which you pay ten cents. The Globe sells on the streets of Toronto one cent, and the Mail and Empire does the same, and they leave something for the boy. Now, allow a quarter of a cent a copy for better paper, and any publisher will tell you that is a liberal allowance. Allow half a cent for binding, and that makes the cost two cents. Suppose we add another cent, and so it is three cents. Then allow two cents for the book seller who sells it, and that is five cents. They get for that book ten cents, and they leave a good deal for the boy. (Laughter and applause.) There are 100,000 children in this province, according to the report of the Minister of Education, using that book. They pay \$10,000 a year for it, or \$5,000 more than they should. There are extra profits of \$5,000,000 for the last ten years to the publisher, or \$5,000,000 that the people of this province have contributed to on this book. Now, I will show you an Irish reader. Mr. Ross said in the House that we wanted to introduce an Irish reader. No man on our side of the House ever said so, and yet, after all, they dare not say a word in our presence. We find that less than three weeks ago Mr. Ross said the same thing in Rowmville. He said we wanted to introduce these Irish books. We never said so. The reason is that they are out of date. They were originally very good. We bring them up to show the mechanical cost of a book, and what books could be produced for. This book contains 240 pages. It is the First Book, and is four times the size of our First Book. It is better printed, has better paper than our First Reader, and it sells for five pence, or ten cents. In proportion our First Reader should sell for four cents—(applause)—and every book that you buy for your children costs something like that. The Sixth Reader in Ireland is the same size as our High School Reader, and sells at one and fourpence. Because of our strong fight last year our High School Reader was brought down to fifty cents, and even now, they sell this book for fifty cents, what in Ireland you buy for 33 cents. The publishers have made five thousand a year in the last ten years on the extra profit that Mr. Ross has given them on this book alone. There are two allowed for the High School. There is no necessity for it. One would be sufficient. I suppose they are too good a thing for any one man, so they gave it to three. (Laughter.) Last spring I proposed to investigate this matter before the Public Accounts Committee, and was going to call ten or twelve witnesses. I called Mr. Robertson, of St. Catharines, one of the authors. I believe Mr. Ross told him before not to give me any information, but he said he would ask him that they get fifteen per cent royalty, and the retail price. I asked him, "Did you make \$1,500 last year," but he declined to answer. I took a vote and every Reformer voted that he need not answer, because it was interfering with the book of a private gentleman. (Great laughter.) These men have been getting fifteen hundred a year for the last eleven years on the royalty alone, or \$16,500 for what was not worth \$2,500 to get. They simply complied it. I have done what I would not do, and I have got out of the city to get a dozen men to get us as good a work, and be glad to do it for \$1,000. Do you suppose these publishers do not consider the royalty they are paying to these authors? This is a sample of what it costs a year for school books. It is a sample of what Mr. Ross imposes upon you. (Applause.)

I want to refer to a Reform campaign pamphlet—they are very hard to get hold of. (Laughter.) Here they say that from 1873 to 1897 they collected out of a revenue of \$1,000,000, mark you—the page is 189—more than the expenditure, making the addition to the surplus out of revenue five millions, one hundred and ninety-seven thousand dollars. That cannot be true, because they have expended eighty-six millions, six hundred thousand, and have only received eighty-three million, four hundred thousand. They have spent three million, four hundred thousand more than they have received. That is from McDonald's cash surplus. Therefore, it is utterly impossible that they could have saved out of revenue five millions for surplus. I never heard Mr. Harcourt make that statement. No reasonable business man would make such a statement. The whole statement is fictitious. It is a lie. (Applause.) It is meant to make the people believe that they can save five million out of their revenue over their expenditure. (Applause.)

I wish to speak a word to the young men now coming for the first time to vote. You have in your candidate a man whom you all respect for his sterling qualities. (Great applause.) We have in our leader, Mr. Whitney, a man, who for his honesty of purpose, for his attention to duty, for the eloquence with which he has arraigned this Government, has won the hearts of the people of Ontario. (Great applause.) And I ask you, young men, which side will you be on? Are these men fulfilling the views of the Government when they do not make both ends meet; when their expenditure is half a million dollars over their estimates of receipts? They are not trying to govern. There is a hopeless policy of drift. They are destroying our educational system, which is a process of "cream." They are governing for their friends. There is a coercion placed over our teachers, our hotel keepers, the colonization road and timber agents, and upon whomsoever they may. They are not governing in the interests of the people. They are governing solely for themselves and their party. (Loud applause.) And I ask you, as citizens of this fair province, which side will you be on? For now you make a choice for your whole life, and I appeal to you. I have no doubt you are united as one man. We find it so throughout the province. This is our great opportunity to do our duty for the great Conservative party in the name of the old chiefs, when we all love so well. It is our opportunity to do our duty to the province; it is a time to lay aside any

special ill-will to our candidate. It is time to unite for the party, and glorious will be the result; and not only to the young men, not only to the Conservatives, but to the Reformers, I appeal. There is many a Reformer who is not looking for office, not seeking any career, but anxious only to do what is right; and I ask these men in this Government, a pure Government! Does it correspond with the Reform Government of years ago? Is it a Government in the interests of the people? I ask you to consider this matter, and if on its merits you feel you can be with us, to reform this fair province of this great Dominion, I ask you for help; and I appeal to you as honest men. If you think well of this vote for my friend, Mr. Garvin. (Long and continued applause.)

MR. WHITNEY.

The clever and popular leader of the opposition took the platform amid prolonged, and enthusiastic applause. He expressed his pleasure at the kind welcome extended him by the immense audience gathered together to hear the questions of the day discussed, and alluded to Mr. Stratton as a personal friend—a very decent gentleman indeed. As to Mr. Stratton's charge of lack of opposition on the part of his (Mr. Whitney's) party to government measures now objected to by the opposition, he declared that should they vote against every bill introduced by the parliament of Ontario, the legislature would have to be in session day and night for all time. (Laughter.) He might say at this juncture, however, for the information of Mr. Stratton, that during the eighteen years the Reform party were in Opposition at Ottawa the amount of expenditure voted against by them did not amount to one-half of that voted against by the opposition at Toronto. (Prolonged cheering.)

Continuing the speaker went on to eulogize Mr. Garvin for his outspoken independence of opinion in the matter of the James Bay Railway. He appreciated that the Liberal-Conservative candidate for West Peterborough was an independent gentleman and not a hide-bound partisan. (Cheers.) He commended him for his independence. (Renewed cheering.) Proceeding, Mr. Whitney said: "Mr. Stratton, in alluding to those benefits not enjoyed by Ontario twenty-five years ago, and since instituted by the Liberal administration, forgot to state that twenty-five years ago we had neither debt nor deficit, but were the proud possessors of between three and four millions of dollars in hard cash. (Here, cheer, and applause.) Neither did he tell you that the Government did not adopt their present timber policy until compelled to do so by the force of public opinion, and the attitude of the opposition. Turning to the ballot system adopted by the Dominion Government, he asserted that those ballot papers, in contradistinction to those of Ontario, bear no designating mark whatever. And Mr. Stratton did not explain why, if the Ontario system is so correct, the Reform Government of the Dominion, in power some two years now, had not adopted it. (Laughter.) The eloquent and convincing speaker next turned to the financial issue, and opined "that until the finances of Ontario are placed upon a stable footing, it will be utterly impossible to discuss the reforms the people of Ontario are crying out for, and which they will get in the near future." (Prolonged cheering.) Continuing, Mr. Whitney claimed that the expenditure of the Province must be kept within the income. The moment one departs from this rule financial disaster is sure to follow. At the last session of Parliament Mr. Harcourt said, "the people of Ontario had no sympathy with the vice of parsimony. On what meat are these Carver fed that they have got so gross?" (Prolonged laughter.) "Where the Government's boasted surplus?" then derided the speaker. How is it, if they had a surplus, that last year \$3,000 interest was paid into the bank to run the blunder twine industry at the Central Prison? (Here, cheer, and applause.)

had been stated in the House that during the years '94, '95 and '96 the expenditure exceeded the receipts by \$400,000 per annum, and Mr. Stratton and his colleagues did not deny it, because they did not dare to do so. (Cheers.) As far as 1897 is concerned, under all the exceptionally fortunate circumstances, the large amount of arrears in the Crown Lands collected, a large amount of many estates in Ontario received, the advancement of half a year a subsidy from Ottawa, there was still a deficit of \$10,000 or \$12,000 for the year; and for 1898 the statement of their original and supplementary estimates, show that estimated receipts of \$1,000 less than the estimated expenditure, and these statements are true. If they can be contradicted we will recede from our position. What will you do with such men as these? (Voices—"Turn them out.") The Ontario Government sell capital stock and timber lands, and should they have any cash left after defraying their expenses, they invite you to look at the surplus they have in hand. (Prolonged laughter.) What has become of the \$3,810,000 surplus left by the late Sir John A. Macdonald's administration? Mr. Ross told some people the other day with greatunction—and with that wonderful solemnity visible on his face when he wishes to turn a short corner—he said he had an extremely economical and careful government. Look at the Province of Quebec. There are two languages there, and in Ontario only one, and in the Province of Quebec every document has to be printed in two languages, while in Ontario they have to be printed in only one, thus inferring that it is necessary that the expenditure of Quebec should be double that of Ontario. That is another of the methods they are using to keep themselves above water in the present contest.

Continuing, Mr. Whitney said, "we were told by the Globe eighteen years ago, and I hold the extract in my hand that a halt must be called at once in the amount of annual expenditure, that he limit has been reached, and steps must be taken to stave off direct taxation, and how much more necessary must it be to call a halt now, when we have four or five years such excessive deficits. (Cheers.) They did not deny the existence of these deficits and were entitled to your judgment and verdict, and we have it now on the financial point, the judgment of the country will and must be against the Government of the Province of Ontario. One illustration is to what these people call the surplus. It is a homey illustration, but it portrays the situation of the government in their collection of the surplus. When a farmer finds his farm worth so much money, and he finds that at

FEARS AT NEW YORK

PRECAUTIONS TAKEN TO GUARD A SPANISH WARSHIP FROM HARM.

(Special to the Times.)

New York, Feb. 18.—Lieut. Sharp, U. S. A., and an ensign, accompanied by a dark, well-dressed stranger, evidently a Spaniard, called at police headquarters, last night and Lieut. Sharp presented a letter from Assistant Secretary of the Navy Roosevelt, showing his attachment to the navy, and said he had a request to make of the police.

He said he had been sent by the admiral in command of the Brooklyn Navy Yard to ask for police protection for the visiting Spanish cruiser, the Vizcaya. He asked that the police patrol be detailed specially to watch the vessel and that policemen be stationed on shore at the points nearest the visitor, and from which any ill-disposed person might embark.

The Navy Yard will furnish two tugs, with a guard of marines on each, to cruise constantly about the Vizcaya during her stay in port. It is thought that a number of marines will also do land duty in the same location. In consequence of this request every policeman is on duty.

False Representations

An Ontario Lady Compels a Merchant to Pay for Damages

A lady writing from an Ontario town says: "A month ago I visited one of our town stores and asked for three packages of Diamond Dye Navy Blue for dyeing wool goods. The merchant informed me that he was out of Navy Blue in the Diamond Dye, and talked me into buying a dye of another make, at the same time guaranteeing them to do as good work as I could from the Diamond. A lady friend was with me at the time and heard the whole conversation. I took the strange dye home, used them according to directions, and was sadly disappointed with the results. The color was anything but a Navy; in truth, my materials were spoiled. I at once took the goods to the merchant and told him his dye were frauds. He offered to give me more of the same dye or my money back. I refused both offers, and after I had threatened law proceedings he thought it best to pay for the materials spoiled. This merchant will never again have the chance to sell me any more dye. I shall go where I can get the Diamond Dye at any time they are wanted. I have had my last lesson with poor dyes."

Things Worth Knowing

To fill a smelling Bottle.—Take a small quantity each of salts of tartar and sal-ammoniac, about two ounces, pour the ammoniac equal mix it in with the salts of tartar; when this is done, add sufficient oil of lavender to scent the whole, and a drop or two of musk, this will make quite a large quantity of salts, and should be bottled in a strong stoppered glass bottle. When any required to fill a smelling bottle, put some of the preparation in the bottle, and pour in a small amount of spirits of hartshorn, though water would answer to the purpose. The above ingredients can be purchased very cheaply from any chemist, and will be found most fragrant and lasting.

PAINE'S CELYRY COMPOUND PROVES A WONDROUS BLESSING

Miss Parr Says: "After the First Loss I Felt New Hope and New Life Coming"

Nervous Prostration, Mental Depression, and Excruciating Sufferings are Banished

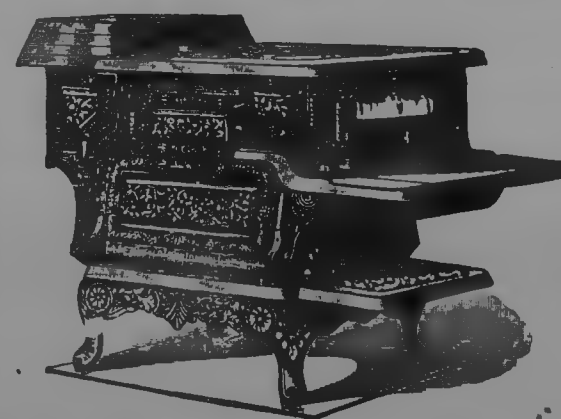

PAINE'S CELYRY COMPOUND THE GREAT LIFE BUILDER AND VITALIZER

Wells & Richardson Co., Dear Sirs,—For several years I have had weak nerves, and was gradually running down, and last March I was prostrated with nervous debility. My sufferings were excruciating in the extreme; I really thought there never was another who suffered quite as much with mental depression and weak nerves. This lasted about three months, and I was taking doctors' medicine continually, but was getting worse instead of better.

One day, while feeling quite discouraged and wondering if I was ever to get out of my dreadful state, dear friend said to me, "I wish you would try Paine's Celery Compound." As I had intended to try it I acted upon her advice and started using it the very same day, and from the first time I felt new hope and new life coming. I continued using it, and am still taking it, once in a while, always asking God's blessing on each bottle. I am very much improved and cannot say too much in favor of the medicine, and would recommend it to all suffering from nervous prostration and mental depression.

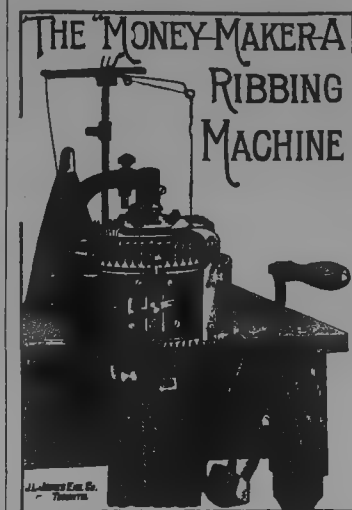

Yours faithfully,
L. E. FARR, Crystal City, Man.

Morning Times

PETERBOROUGH, FEBRUARY 19 1898

The Handkerchief

"This is the way we iron our clothes so early Tuesday morning!" So said the children in one of the mimicking games handed down from one generation to another. The ironing of handkerchiefs calls for no special knowledge, but a clever laundress knows one or two things of which she makes a specialty. Here is one of them:

If you wash one of the buds or older buds gently using her handkerchief, perchance to flick away a particle of imperceptible dust from her face, you may note, if your eye is sensitive to color, first, that the scrap of lawn and lace is very becoming to a fair face; second, that the aforesaid handkerchief isn't white at all. It would be so becoming if it were, and this is what mademoiselle knows as well as you do. The color is not derived from being "spotted with strawberries," as was the case in that fatal handkerchief which Othello had from his mother. It is deliberately tinted during the laundrying.

The laundress who is eager to please has taken pains to "pink" (if there be such a verb) the handkerchief just as she "blues" some linens and cotton. She that might turn yellow by untinted applications of soap and water, so she has imparted a rosy tinge to the powder.

The laundress has a little cake of carmine paint, one of the water color retouches such as are sold in the "up boxes of paints intended for 'Adrian's' use. She colors the water thoroughly, for the handkerchief will not take up the full depth of rosinness to which the preparatory bath is stained. Of course the handkerchief does not look really pink, but it is "off the white" and very pretty, especially when held to a fair young face.—Exchange.

You Talk About Pain

Rheumatic and Sciatic pains. I think I suffered more than any one on earth for three months and could not rest any relief until I used "NEW LIFE" medicine. Then I did enjoy the height of felicity, and am now healthy and well. A. SMITH, Toronto Gas Works.

KISSING IN ATLANTA

MISS GLEN REPLIES VIGOROUSLY TO MRS. KINGSBERRY'S LETTER.

Atlanta's fair maidens are much aggrieved that they should be singled out from all the world to receive a lecture on the evils of kissing, and Miss Ida Urquhart Glenn, daughter of former Mayor John T. Glenn and a cousin of former Secretary of the Interior Hoke Smith, has replied in vigorous language to Mrs. Joseph Kingsberry's recent letter.

"Really it is too bad that we Atlanta girls should be made to appear so ridiculous before the world by Mrs. Kingsberry," says the lady. "We have been wearing the brand of Cain ever since the publication of the letter."

"Mrs. Kingsberry has made the public believe that kissing is a regular occurrence at all social functions. I suppose now people think that at every one of our cotillions the special favor accorded each man is to kiss the girl of his choice. It is all nonsense. I never saw but one girl kissed at a party in Atlanta. I had been dancing and, having stopped at remote window I peeped through just in time to see the dreadful act. But that girl was from the West."

MISS IDA URQUHART GLENN

"I wonder who told Mrs. Kingsberry that here was so much kissing going on in Atlanta? Any up-to-date girl would be sure to conceal the particulars of any such transaction. But if the men are as persistent about kissing as Mrs. Kingsberry has made the public believe, then I think a training school should be opened in our city where girls may be taught to punch anything which may come in their way in human shape. Either that training or a hat pin is a good defense for the kissable girl. Once in Atlanta, when a prominent but fresh young man did attempt to kiss a pretty girl she stuck her hat pin into his neck. He had to go about for a week afterwards with his throat muffled up in a handkerchief."

"Seriously, I think it is too late to lecture girls about kissing after they are out in society. If a girl is taught from childhood about this awful sin of kissing she won't need hat pins, training schools for muscles and such things for her protection against bold young men. If she is dignified and has her porcupine quills up, even the most base man will hesitate about running up against them. But kissing girls the world over will find opportunities for

its victims. It puts them in the power of the weakest organ of the body and makes them its slaves. They must eat to suit it, drink to suit it, and live a lenten life of self-denial.

AYER'S PILLS

have cured many bad cases of dyspepsia—they will cure you, if you are suffering from that disease.

Mrs. H. B. Anderson, 15 Williams Street, Grand Rapids, Mich., writes:

"Ayer's Pills cured me of dyspepsia from which I had suffered for three years. They beat every other medicine."

AYER'S PILLS Cure Dyspepsia

indulging in their favorite pastime, and it is utterly useless for their mothers to preach or keep a weather eye upon them. They elude it every time.

"I don't know why it is, but people here always think Southern girls are faster than those of the North. I do not believe it. The Southern girl is freer and more open in what she does. The Northern girl is more guarded, but deeper."

"That Atlanta girls have beauty, style and winning ways is indisputable. It is hardly to be wondered at that they are sometimes annoyed by men who wish to kiss them. Such rosebud lips are a temptation."

A Novelty in Advertising
The morning's mail brought to a certain woman not long ago an impressive looking envelope deeply bordered with black. Although monogrammed and sealed in amariest fashion, the woman recognized neither symbol. With much curiosity, and thanks to the black border, some little trepidation, the woman opened the letter. It was from her chirographist, or, to speak more strictly, it concerned him who had been her chirographist. In a few well-chosen words he said so far as possible sought to soften the blow, the mislaid announced his death, and added that the business would, however, be carried on at the same old stand. It was the latest and altogether the most original development in advertising enterprise.

THE BIG RATE WAR

Probable Effect of the Cut on the Two Roads

C. P. R. HELPS CANADA

By Advertising Vancouver, Victoria and Other Towns

While the Grand Trunk Advertises the American Cities—Report that the steamship companies will boycott the C. P. R.—Continental Railway News

(Special to the Times.)
Montreal, Feb. 19.—The action of the Canadian Pacific Railway, in making such a big reduction in transcontinental passenger rates as came out yesterday was not a surprise to the United States competitors of the Canadian road. They were perfectly aware that the C.P.R. was about to make a slump, and it was purely a question of how big a drop it would be.

It so happened that the passenger agents of the Western and Eastern lines had gathered in New York yesterday, so that all the interests hit by the Canadian Pacific Railway cuts were on hand to consider the matter.

W. E. Davis, general passenger agent of the Grand Trunk Railway, is among those present, and will take part in the deliberations on behalf of his road.

The Grand Trunk is comparatively slightly interested in the matter, as its line only runs to Chicago, and in case of loss, should there be any after-effects of the rate war, that line will be the least worried on that score.

Speaking of the action of the Canadian Pacific Railway, Mr. T. G. Shagnessy, vice-president, remarked:

"We regret to have to take such action, but the course was forced on us by the lines in the United States, and we are compelled to do something to protect our own interests. In the meantime our friends need not worry about the financial results."

The Grand Trunk management had nothing to say in reference to the matter to-day. The action of the Canadian Pacific is not looked upon as being aimed at them, but at the lines west of Chicago. As all the Western business by the road formerly went via North Bay, the new traffic which has sprung up to the Pacific coast going by way of Chicago, has really made business for them, and whatever may be the result the Grand Trunk stands to make something out of the business.

It is thought in railway circles that nothing will be decided in New York to-day, but there is every probability that next week the United States lines will be quoting the same rates as the Canadian Pacific, and the Grand Trunk, being an ally, will be doing the same thing.

BOYCOTTING THE C. P. R.
Montreal, Que., Feb. 19.—A special dispatch from New York states that the New York steamship lines have decided to cancel all arrangements with the Canadian Pacific Ry., refusing to accept either prepaid tickets or tickets sold by them on the other side—that is, to Europe.

The Western lines also notified the Canadian Pacific Railway that their action had abrogated all immigrant contracts. That means that the lines in question will now refuse to do business with the Canadian Pacific Railway.

AGAINST CANADA
The difference in the policies of the two great Canadian railroads in the matter of advertising for Klondike trade is causing considerable talk. Both the Canadian Pacific and the Grand Trunk have issued a large amount of literature on this subject. But it is noticeable that while the Canadian Pacific has a stick in the ground for the manner in which it has advertised Vancouver, Victoria and other Canadian points, the Grand Trunk seems to have ignored Canadian interests in its zeal for advertising for Klondike business.

"Via Chicago, St. Paul, Seattle and the Dyes route." As a matter of fact, the Grand Trunk seems almost to have gone out of its way especially to advertise Seattle in preference to Vancouver.

The Canadian Pacific, on the contrary, has done everything it could to call attention to the advantages of Vancouver and other Canadian cities as outfitting points. In this connection it might be stated that the Canadian Pacific can take passengers quite as cheaply to Seattle as it can to Victoria or Vancouver, yet through the advertising of the Canadian Pacific thousands who would have gone to Seattle or other United States points have gone to Victoria or Vancouver.

The Grand Trunk people, of course, say that they have not given Canada the worst of it, but point out that as they are bound to co-operate with the Northern Pacific and Great Northern, they have been obliged to mention Seattle, as that is the terminal of both roads. They declare, however, that Klondike going by their lines have in most cases fitted out at Montreal.

A RUSH FOR TICKETS.
In anticipation that a material cut was likely to be made in the railway rates to Vancouver, many people have been delaying the purchase of their tickets. Yesterday's announcement that the Canadian Pacific rate was to

be cut down to \$30, has, therefore, resulted in quite a brisk demand for tickets this morning. The ticket office clerks being kept busy.

In anticipation of the rush the Canadian Pacific will put on a special tourist car every day, instead of once a week, as they have been doing.

CREDITORS MEET

THE MIDLAND TRUST COMPANY'S AFFAIRS INVESTIGATED AT PORT HOPE.

(Special to the Times.)
Port Hope, Ont., Feb. 19.—A large number of creditors of the Midland Trust Company are in town to attend a meeting called for two o'clock this afternoon by the committee appointed at last Saturday's meeting.

The contents of W. T. R. Preston and a few of the depositors that the claim of the heirs of the late Thomas Paterson's estate, amounting to \$61,000, cannot rank as against the estate of Midland Trust Company, has created a feeling of keenest interest. It is to take steps to determine the validity of this claim that to-day's meeting has been called. The promoters hope to have a majority of the vote present, and will have a petition circulated for signature demanding that the assignee shall call a meeting of the creditors at an early date.

THE ASSIGNEE'S VIEW.
Mr. Craig, the assignee, says the books of the estate are open for inspection, and that an inspection of the entry of the \$61,000 item will prove conclusively that the contention of the kickers is groundless. The estate of the late Thomas Paterson was placed in the hands of the late Stanley Paterson and his brother John Paterson in trust. Part of this was invested in mortgages and the balance deposited with the Midland Trust Company, which was a partnership concern. The estate is therefore legally entitled to rank on the same basis as all the depositors.

Aside from this feature, many of the creditors are not satisfied to wait the pleasure of the assignee for the first dividend. Some \$19,000 in bank of Toronto stock, and over \$50,000 in good notes, they claim, can be immediately realized upon, enabling the payment of a dividend at once.

THEY ARE IN A HURRY.
They want to force the hand of the assignee. It is the belief, however, that the majority of the creditors are satisfied to leave the management of the estate in Mr. Craig's hands, and that once the validity of the \$61,000 claim is settled beyond question, the few who are striving to stir up a feeling against the present assignee will find themselves alone in the movement.

LIQUOR IN YUKON

THE GOVERNMENT PUTS ON A TAX RAISING IT TO \$2 A GALLON.

(Special to the Times.)
Ottawa, Feb. 19.—An order-in-council has been passed providing that permits to sell intoxicating liquor and intoxicants in Yukon shall be increased from the rate of 25 cents per gallon to the rate of \$2 per gallon, under proof.

An order has also been passed providing that a prospect for coal in Dominion lands a fee of \$10 will have to be paid.

WHY DID HE QUIT?

A WELL KNOWN KINGSTONIAN RESIGNS LEADING POSITIONS.

(Special to the Times.)
Kingston, Ont., Feb. 19.—Dr. R. V. Rogers, Q.C., has resigned from office in the St. Andrew's Brotherhood of St. James, Kingston, from the Dominion Council and from the International committee. A. P. Tippet, of Montreal, has been appointed his successor.

Dr. Whig, in making the announcement, says: "There must be some very strong reason for the discontinuance of so useful and consecrated a service as was Mr. Rogers."

IMPURE BLOOD IN SPRING.

This is the almost universal experience. Diminished perspiration during winter, rich foods and close confinement indoors are some of the causes. A good Spring Medicine like Hood's Sarsaparilla is absolutely necessary to purify the blood and put the system in a healthy condition at this season.

HOOD'S PILLS are the best family cathartic and liver tonic. Gentle, reliable, sure.

110 DEAD IN A MINE

FEARFUL RESULTS OF THE COLLIERY EXPLOSION AT BOCHUM, PRUSSIA.

(Special to the Times.)
Bochum, Feb. 18.—Up to the present time 110 bodies have been taken from the ruins of the colliery.

To enter the Spanish Ship
New York, Feb. 19.—Col. Sinclair, in command at Fort Wadsworth, said this morning that on instructions from the commander of the United States army he had sent 100 men to man the guns at the fortifications at Sandy Hook.

Orders were given at Guardmount to keep everyone off the Government reservation until further notice.

To Spanish Vessels
Washington, Feb. 19.—The Government has decided that the request of the Spanish authorities to join our people in the Maine investigation will be respectfully declined.

The greater includes the less. Hood's Sarsaparilla cures scrofula and may be depended upon to cure boils and pimples.

A VIGOROUS POLICY

Chamberlain Would Oppose French Aggression

VICTORIA DREADS WAR

She Will Never Sign a Declaration of War

French Government May Have to Declare War Against Britain to Save the Country From Revolution—Gladstone's End Approaching

(Special to the Times.)
London, Feb. 19.—The press continues its warning that the situation in West Africa, between France and Great Britain, is growing more critical. It is impossible to abandon the British flag without loss of honor, it is said.

According to the Daily Chronicle, France and Germany are casting covetous eyes upon Liberia, and are contemplating its annexation.

CHAMBERLAIN'S VIGOROUS POLICY.
It is widely accepted that Mr. Joseph Chamberlain, the Secretary of State for the Colonies, is endeavoring to put back into the hands of the Marquis of Salisbury's dealings with France. Mr. Chamberlain persisting in viewing the matter purely from the point of view of the Colonial Office, and urging above all things the maintenance of Great Britain's interests as a colonizing power.

THE QUEEN OPPOSES WAR.
Sir Thomas Wemyss Reid, editor of the Spoken, is responsible for the statement that Mr. Chamberlain would have pushed his pro-British policy in Africa to the risk of war, and the Marquis of Salisbury's attitude in opposing it, therefore, lends some countenance to the gossip that the Queen has informed the Marquis of Salisbury that she will never again sign a declaration of war.

WILL FRANCE MAKE WAR?

STEAD THINKS THE PARIS GOVERNMENT WILL HAVE TO FIGHT BRITAIN TO PREVENT REVOLUTION.

London, Feb. 19.—All the afternoon newspapers to-day comment upon the gravity of the West African situation. Business on the Stock Exchange was flat, and consols were a 4-4 point lower.

A striking article in the Westminster Gazette by William T. Stead says: "The news from the Niger is a serious one because of the news from France. The net effect of the news from Paris to-day is that France is once more in full revolution. The third republic, although nominally still in situ no longer exists. The long-expected upset has arrived at last, and has arrived, almost to the day, exactly after the revolution of 1848."

"The coup d'état of Gen. Boulanger differs from the coup d'état of Napoleon III only in the degree of brutality of its accessories. When the chief of the French general staff, the native center of the gray matter of the brain which directs, controls and governs the whole armed force of France, enters into a court of law to proclaim a verdict to his liking, the chiefs who are at the head of the army, and who organize national defense, are ready to leave the ink to others; there is no longer any republican government in France."

GLADSTONE'S DEATH NEAR.
It is said that Mr. Gladstone is coming home to die. An eye witness who saw his departure from the Riviera and his arrival at Oulins, reports a striking change in the old statesman's appearance. Arrangements had been made at Oulins to carry his chair from the train to the hotel, but Mr. Gladstone was determined to walk the distance, 30 yards, and was carefully assisted down the steps, enveloped in coats and rugs. Heavily leaning on the arms of two gentlemen, he slowly tottered to the hotel.

A LOAN BY BRITAIN

ANOTHER REPORT IN LONDON THAT CHINA WILL BORROW BRITISH GOLD.

London, Feb. 19.—The Saturday Review confirms the report that the Chinese loan will, after all, be made by Great Britain, and says: "We are informed that the preliminary contract has actually been signed. The delay in the fulfillment is caused by the Chinamen's joy in calving over a bargain."

The Foreign Office does not confirm the statement of the Saturday Review.

BONUS DEAL FAILS

KINGSTON GIVES UP ALL HOPE OF SECURING THE ABBOTT ROLLING MILLS.

(Special to the Times.)
Kingston, Feb. 19.—At a special meeting of the City Council, held last evening, the by-law granting a bonus to the Messrs. Abbott Bros. to locate their iron works here, was rescinded. The firm will receive back its deposit of \$1,000 with interest.

PETERBOROUGH, FEBRUARY 21, 1898

DIRECT CHARGES.

A remarkable feature about the present campaign in West Peterborough is the directness and openness with which a number of serious charges have been publicly laid against Mr. J. R. Stratton by his opponent. Some of these indictments are too serious to be passed over with a shrug of the shoulders. The people are interested in the conduct of the representative of the riding, and he is under obligation, in seeking re-election, to render an account of the trust placed in his hands. Mr. Stratton can not afford to ignore the opinion of the electors as to his honesty and uprightness. Peterborough wants a representative man with an unblemished political reputation. Charges have been made by Mr. Garvin, which, unless disproved, are sufficient to blot any man's public character. The two most serious of these charges were publicly made in the Opera House before large audiences. The first, and we have drawn Mr. Stratton's attention to it before, is that after the last election Mr. Stratton revealed the side on which sixty electors of Peterborough had voted. The second, made at the Whitney meeting, is that the colonization road fund is used in the northern part of the riding as a direct and unblinking system of bribery, and that Conservatives who have been offered large sums of money to expend on these roads on the

condition that they would support the Government candidate.

In calling attention to this matter we are not charging that they are true. But we do say this, that they are worthy of serious treatment by Mr. Stratton, and the electors demand that Mr. Stratton should force Mr. Garvin to produce his proof. If Mr. Stratton does not force his opponent to do this, it must be taken that he is willing to have the charges standing as true. If Mr. Stratton asks Mr. Garvin to prove his statements and Mr. Garvin can not or will not do so, then Mr. Stratton's character has been cleared of an ugly stain. But he can hardly expect conscientious voters to support him with these charges of malpractice still hanging over him.

A SATISFACTORY REPORT.

British America Assurance Co. shows The sixty-fourth annual report of that well-known institution to be in a most flourishing and satisfactory condition. This company is one of the oldest and most substantial assurance companies doing business in Canada today, and it takes a high position among the big monetary institutions on this continent. In the annual report, which is presented to our readers in another column, the great increase of business transacted in the past year is shown, as well as the present standing of the company. The company is a thoroughly Canadian one, and it is a matter of gratification to the people of this country to know that such a solid and practically successful business concern is managed entirely by Canadians.

Not the least source of the success of the British America Assurance company is to be found in the personal business ability of its officers and managers. Hon. Geo. A. Cox, who was again elected President, is known as one of the shrewdest and perhaps the most successful financiers in Canada today. The Vice-President, Mr. J. J. Kenny, and the other gentlemen on the board of directors are well known as practical business men of the highest ability. The personal of the Board of Managers is a guarantee of upright and successful business methods.

Three cheers and a tiger (especially the tiger) for Stratton.

There are other roads to parliament than colonization roads.

Signor Stratton and Frank Anthony! Hurrah for victory!

After this election the Italians will sing, "Turn me loose, Mr. Anthony."

Peterborough electors should place no political boss over their heads.

Frank Anthony is the Liberator of the Italians. He will set them free after they have voted.

Over 7,000 partisan officials holding Ontario by the throat. It is time for a change.—Brockville Times.

Fame is fleeting. Yesterday it was the author of "Quo Vadis." To-day it is the gifted composer of "The Wabash."

A vote for Stratton means a vote for Hardy; a vote for Garvin is a vote for Whitney and a new government.

Ross Stratton and the tiger have returned from the north. Everything is now supposed to be lovely up there in the political line.

It is not true that Ross Croker will be brought to Peterborough. The machine has been oiled and is running well under the management of its present boss.

The tramp at Bath, Me., who stole a tub of axle grease, put it in small boxes and sold it for corn salve to the barflies among the rest two boxes to the man from whom he stole the axle grease, was evidently designed by nature for a politician.

Mr. Garvin thinks that just as big a bon-fire will burn at Kilmosena Cross on the night of March 1st as blazed there four years ago. And it won't be fire-water either. And a good deal hotter time will be on hand in this good old town.

The Reform papers and stumpers make great capital out of the change lately made in the price of school-books. They point out with pride that Mr. Ross has lowered the cost of the Third Reader from 35c. to 30c. What a great change! In his own words, "We thank thee, Jew, for these small mercies."

"So long as we have the party system we must have two parties, and to keep them both in a healthy and effective state they ought to take turns in office."

"If one is for ever to monopolize power and patronage, irresponsibility and corruption are pretty sure to set in."—Toronto Weekly Sun (Patron).

Among the many self-seekers who are giving their time and energies to further the party interests in the present campaign are a few in every place, who, without any desire or prospect of personal gain, are working with equal zeal for the return of the party candidates. These men sincerely believe that by so doing they can

best promote the interests of their community and of the province. It is in this minority that is to be found the saving salt of the parties. Acting in the strife from pure motives they are naturally averse to all trickery and bribery to secure a victory. And while their will does not always pre-empt a selfish and unscrupulous of their will, they yet have a check on the associates.—Kingston Times.

BRITISH AMERICA ASSURANCE COY

SIXTY-FOURTH ANNUAL MEETING

The annual meeting of the shareholders of the British America Assurance Company was held in the company's offices, Nos. 18, 20 and 22 Front street east, Toronto, on Friday, the 18th February.

The President, Hon. George A. Cox, occupied the chair.

Mr. P. H. Sims was appointed to act as Secretary, and read the following report, which, on motion, was adopted:—

ANNUAL REPORT.

In presenting the sixty-fourth annual financial statement of the company, the directors have pleasure in calling attention to the following results of the year's business:—

The balance of income over expenditure, as shown by the revenue account, is \$100,832.74.

There has been a net appreciation in the market values of securities of \$14,173.93.

The reserve fund has been increased from \$528,838.84 to \$591,361.51, after providing \$52,500 for two half-yearly dividends at the rate of seven per cent. per annum.

The estimated liability on current policies is \$511,982.80, an amount more than ample, according to the company's past experience, to run off all existing risks; and, after providing for this, there is a net surplus over capital and all liabilities of \$79,381.65.

In all departments a decrease is shown in loss ratio, as compared with those of the previous year.

The directors express their appreciation of the efficient services of the officers, special agents and representatives of the company during the past year.

All of which is respectfully submitted.

Summary of financial statement:—
Total cash income \$1,470,339.40
Total expenditure, including appropriation for losses under adjustment 1,369,506.66

Balance 100,832.74
Dividends declared 52,500.00

Total Assets \$1,510,827.88
Total Liabilities 169,463.37

Surplus to policy-holders \$1,341,361.51
The following gentlemen were elected to serve as directors for the ensuing year: Hon. Geo. A. Cox, J. J. Kenny, Hon. S. C. Wood, S. F. McKinnon, Thomas Long, John Hoakin, Q.C., L.L.D., H. M. Pellatt, R. Jaffray, A. Myers.

At a meeting held subsequently, Hon. Geo. A. Cox was elected President, and Mr. J. J. Kenny, Vice-President.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for North Bay wharf," will be received at this office until Monday, the 21st day of February next, inclusive, for the construction of a wharf at North Bay, Nipissing District, Ontario, according to a plan and specification to be seen at the office of the Town Clerk, North Bay, and at H. A. Gray, engineer in charge harbor and river works, Ontario Confederation Life Building, Toronto, and at the Department of Public Works, Ottawa.

Tenders will not be considered unless made on the form supplied and signed with the actual signatures of the tenderers.

An accepted bank cheque, payable to the order of the Minister of Public Works, for one thousand five hundred dollars (\$1,500.00), must accompany each tender. This cheque will be forfeited if the tenderer declines the contract or fails to complete the work contracted for, and will be returned in case of non-acceptance of tender.

The Department does not bind itself to accept the lowest or any tender.

By order,
E. F. E. ROY, Secretary.

Department of Public Works,
Ottawa, 31st January, 1898.

Newspapers inserting this advertisement without authority from the Department will not be paid for it.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Honora Bay Wharf," will be received at this office until Thursday, 19th March next, 1898, for the construction of a wharf with approach, on Honora Bay, Manitoulin Island, Algoma County, Ontario, according to a plan and specification to be seen at the office of H. A. Gray, Esq., Eng. in charge harbor works, Ontario Confederation Life Building, Toronto, and the Postmaster of Honora, Manitoulin Island, Algoma County, Ont., and at the Department of Public Works, Ottawa.

Tenders will not be considered unless made on the form supplied and signed with the actual signatures of the tenderers.

An accepted bank cheque, payable to the order of the Minister of Public Works, for eight hundred dollars (\$800.00), must accompany each tender. The cheque will be forfeited if the party declines the contract or fails to complete the work contracted for, and will be returned in case of non-acceptance of tender.

The Department does not bind itself to accept the lowest or any tender.

By order,
E. F. E. ROY, Secretary.

Department of Public Works,
Ottawa, Feb. 11th, 1898.

Newspapers inserting this advertisement without authority from the Department will not be paid for it.

THE CAMPAIGN

Some Notes of Interest on the Political Field

The Mail reports Mr. Whitney's meeting here on Friday evening as the greatest reception he has met on his tour. Peterborough is always to the front.

The Whitney meeting of Friday night was perhaps the largest assembly of people that ever gathered into the Opera House here.

Mr. Bleazard and Mr. Clute, Q. C., of Toronto, will address the electors of Otonabee at Keene to-night. As Mr. Clute is an interesting speaker the meeting will be reported in The Times.

Dr. Ford will address the electors of Ashburnham and vicinity next Friday evening. He will be assisted by other speakers.

Mr. Welsh, of Amherst, will hardly go up for nomination in the East riding to-morrow. One of Dr. Ford's supporters, speaking about the matter Saturday night, expressed the opinion that Mr. Welsh is in the field to be bought off.

Mr. Toker, who formerly was editor of the Review here, and is well-known in town, spoke at Mr. Garvin's committee rooms Saturday night. He considers the prospects of the Conservatives as very good for carrying the province.

The candidates will be formally nominated to-morrow.

Although the two candidates of this riding were in the country Saturday night, Mr. Garvin speaking at Kraserville and Mr. Stratton at Swamp Lake school-house, Galway, meetings were held at both committee rooms. Addresses were given by influential men of both parties, and each speaker was sanguine of the election of his candidate. It is evident that the election will be a close one. A great deal of hard work will be done this week.

For Old Stockings

Cut off the feet of an old pair of stockings just above the heel, sew over the raw edge with wool or coarse silk in button-hole stitch, and when firmly finished off pull the lower half of the leg inside the other till both edges are together. It will then present the appearance of a long stockinette cuff, which can be used for the wrists, or, better still, drawn over the ankles as a "putt" to loose edges will fit closely round the calf of the leg, and the appearance is very neat. For children's use an elastic to go under the sole of the foot may be fastened to the lower edge, and a knitted ruff of wool sewn or crocheted on to the bottom will give the garter a natty appearance. When woollen vests with long sleeves cannot be afforded for winter wear the old stocking-leg with a little knitted ruff round the narrower end will make very comfortable clothing for cold arms from the wrist to shoulder.

SCORING A HOG.

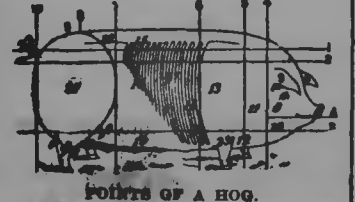

H. A. Jones, Sec'y International O. I. C. Record Association, Shows How With Figures and Explanation.

In the course of pure bred stock breeding comes many a new idea, which may be beneficial to the breeder. It is advocated to-day by many that "there is more in feed than breed," and this same old adage will ever be handed down from generation to generation, without doubt, by those who do not, by nature and education, understand the principles of stock breeding. In dealing with this subject, I shall not endeavor to go over the entire subject, but concentrate upon the one branch of the industry and deal only with the hog. There is presented here an outline of a hog, and I will endeavor to show before closing these papers, that the black pig is not only the best feeder, but also the best breeder. I realize full well there are many choice grade hogs in this country, that for the black will bring just as many dollars as the pure bred. This we all admit, but the facts go to prove the finest grade is valued only for pork, and the finest pure bred is valued least for pork. The grade, then, is never worth more than for pork, or its products, while the pure bred, no one can tell the value of as a breeder.

In the outset, I desire to say these papers will not be written in the interest of any particular breed of hogs, nor any "breed" respect shown to any breed or breeder. This is a free country, and we all have our likes and dislikes, not only in grade hogs, but in pure bred as well. I propose also to show wherein we can improve our hogs and the condition of our breeders by adhering more closely to the principles underlying the breeding of pure breeds.

During the past half century much has been done to bring about desirable results in pure bred swine. Some prefer black, others red, spotted or white. While some prefer the large high others prefer the smaller or medium size. When the desired results are asked for, all agree that the hog that will make the greatest number of pounds of pork for the food consumed, in a period of six or seven months, and have sufficient flesh to carry the carcass, is the most profitable for the general markets and the average farmer.

This may be true to a certain extent.

FIGURES OF A HOG.

The following Roman figures denote the points to be scored on a hog: A, head; B, ears; C, neck; D, back; E, side; F, belly; G, hindquarters; H, tail; I, feet; J, legs; K, skin; L, color; M, shape; N, size; O, weight; P, age; Q, sex; R, breed; S, grade; T, value; U, price; V, profit; W, loss; X, gain; Y, total; Z, average.

and I believe it is, but it is not conclusive. To illustrate: There are two brothers who have an equal amount of this world's goods—bills of equal value and improvement—and they make a break for existence. One is a careful, painstaking, practical conservative man and devotes his energy to study his business, investigates the causes of other's success, and applies his findings to profit in his own business. He breeds pure bred stock of all kinds, commencing with only a pair or trio, and in the course of time every year or two makes an addition to his herd, by exchange, or otherwise, of a good sire. He avoids promiscuous breeding and breeds for a purpose solely of owning the most profitable kind of stock he is able to get. His line at the end of the year a value he cannot count, while his dollars may be counted as many as his brother's.

The brother is a careful, easy-going, industrious, hard-working man, very conservative, and a little doubtful that he will not get as many dollars in immediate benefits as he is called upon to pay, and he pursues the policy, "let brother keep his money and I'll reap the profit." He pursues that course and finds his investment worth no more in ten years than when he commenced, and is then forced to realize there are ever changing conditions beyond his control, and that he must wake up and hustle or he will soon be a back number. While his brother sows and reaps abundance, he simply sows and reaps his losses, year by year. His hogs and flocks were the same each year, and he could see no very marked improvement. He had no outside calls, at good prices, for cows from his dairy, sows or sheep from his pen, simply for the reason he grows only ordinary common stock.

Now, is this not a waste of one's capabilities? If not, what is it? Do you desire to know what is the difference? Investigate. Procure some good dams, any of the pure breeds, and a good sire, all of the highest standard of excellence which your purse will allow you to get, and from some reliable breeder, who is not afraid to open his stock book and show you the record of the breeding of any particular animal, and who is not afraid to show you his choice breeding stock upon a written guarantee that the animal possesses a certain number of desirable points, and is of the breeding certified by the secretary of the Record Association, shown by certificate of record, and of which there can be no doubt, and that satisfaction is then guaranteed to you by every member of the association, under what your animal received his record number.

Now come the points. What are they and how ascertained? Whatever breed of cattle, sheep or swine you desire to purchase, ask the breeder to send you the by-laws and rules of the association in which his animals are recorded, and then study out for yourself what the quality of the stock is which the breeder has to offer, and does offer you. Then require the breeder to certify the animal's record (or possession) a certain number of points, and to be registered as such, and guarantee to you, and you will have no cause to regret the purchase. It is a veritable picture: "Put up the bars, that the hogs can't get out." The various Record Associations offer you the bars. Will you use them for your benefit? Then, in case you are not satisfied, your remedy is to appeal to the association where the animal is registered, after the breeder has failed to rectify any dissatisfaction he may cause.

In the foregoing, you have the funda-

PLUCKING THE INNOCENT.

One Ephraim Who Was "Done" by the Farmers.

"No," said the soap fakir to a group of people that had gathered around him, "there is no use talking to me about the innocence of the countryman. He may buy a gold brick occasionally or such a blank check and lose his farm, but, as a rule, he can take care of himself just as well as the best of us and generally a little better. If I know as much as some farmers I wouldn't be in this business, and you can gamble on that."

"Why, say, do you know what happened to me the last time I was down in the country? I got a package, that's what I done. I got my mitts out in front of the hotel in a little town about thirty miles out east of here and began to do a few tricks to draw a crowd."

"After I'd made an eye disappear and pulled a few knots up on a for them, I says: 'Now, gentlemen, I'm going to show you a trick that nobody else on earth has ever attempted. You see my hat here? Well, we'll imagine for the time being to a flower pot. Out of that hat I'm going to make a bush grow up, and when I've done that I'll make every leaf on it turn into a \$5 note.'

"What? Did I do it? Of course I did! But, say, do you know what came of it? Blamed if they didn't arrest me and fine me \$15 for raising bills, which the justice of the peace said was contrary to the statutes made and provided."

"Well, I sort of had a hankerin' to know whether they done it in good faith or just because they thought I was easy pickin', and what do you think I found out? Why, the people of that town hadn't paid any taxes for eight years. They'd actually been runnin' things by pluckin' just such innocent fellows as me."

"Now, gentlemen, there's a \$1 bill in one of these little packages. Who will give me 10 cents for the first choice?"

—Cleveland Plain Dealer.

A CARICATURE.

"I hear that Jenkins, the politician, was found in his flat in a starving condition."

"Poor fellow! He must have been honest."

A NEAT EVASION.

"Yes, Miss Agnes, those are the customs officers waiting for us."

"And is it true that returning tourists are only allowed \$100 worth of baggage?"

"It is too true. The law is imperative. How much baggage have you, Miss Agnes?"

"Fully \$175 worth."

"And I have \$25."

"Must I pay?"

"There is—there is but one way to avoid it. Miss Agnes, dear Miss Agnes, let us share our lives and—our baggage! Be my wife!"

"Why, Mr. Littleheart, how you have startled me!"

"See, they are looking this way! Quick, your answer!"

"Here they come! Yes or no?"

"Yes, but—"

"Yes, Mr. Inspector, it is just a hundred apiece."—Cleveland Plain Dealer.

Ambiguous.

The following rather ambiguous advertisement appeared in the "Person" column of a western newspaper a short time ago:

"Wanted—Information regarding the whereabouts of Ebenezer Jones, who is supposed to have died in this city last year."

A still more ambiguous personal appeared in a Chicago paper a year or two ago. It was as follows:

"If this should meet the eye of Lewis J. Smith and he will send his present address to his old home he will hear something to his advantage. His wife is dead."

Proclamation!

Electoral District of the East Riding of the County of Peterborough, to Wit:

PUBLIC NOTICE IS HEREBY GIVEN to the Electors of the Electoral District of the East Riding of the County of Peterborough, that in obedience to Her Majesty's Writ to me directed, and bearing date the second day of the month of February, 1906, I require the presence of the said Electors, at the TOWN HALL, in the VILLAGE OF NORWOOD, on the

22nd Day of the Month of Feb.

1906, at One o'clock p.m., for the purpose of electing a person to represent them in the Legislative Assembly of this Province; and that in case a poll be demanded and allowed in the manner by law prescribed, such poll will be opened on the

FIRST DAY OF THE MONTH OF MARCH

In the year 1896, in each of the Townships, Wards or Polling Subdivisions in which a polling place is to be opened and kept according to law, of which due notice will be given on the Day of Nomination. Of all which every person is hereby required to take notice and to govern himself accordingly. Given under my hand at Peterborough, this third day of the month of February, in the year 1906.

BERNARD MORROW.

RETURNING OFFICER.

Wanted
An experienced general servant wanted. Apply at once at 525 Water Street.

Look Here!
Just received from Sea Salmon, Halibut, Smelt, Lake Superior Trout and White Fish. Best brands Baltimore Oysters. J. B. Oke.

Piles! Piles! Itching Piles
Symptoms—Moisture, itching, burning, smarting, most at night; worse by scratching. If allowed to continue, tumors form, which often bleed and become very sore. Swaine's Ointment stops the itching and bleeding, heals the tumors, and in most cases removes the tumors. All druggists, or by mail, for 50 cents. Dr. Swaine & Co., Philadelphia, Lyman & Co., Montreal, wholesale agents.

The Best of Life
McQuay, Baple & Co's bread is pronounced to be first-class. Only 10c for a large loaf.

Send us a Glove
A very common mistake is to mend a kid glove with silk. It is far better to use thread, which does not cut the kid in the same way that silk does. A piece of kid should be placed under the tear and secured with a few stitches of a bit of silk, or ribbon, or other right color may be used instead, if you have no old kid glove handy. It is always useful to save the best part of the old pair of gloves for mending the new. Many people use court plaster for mending the kid. Black kid gloves that have worn white at the seams may be restored with a little liquid gum and ink. For suede gloves ink alone may be used.

DISTRICT AND LOCAL TOPICS

Reporter's Phone, 164 B.

Elections a week from to-morrow.
The committee of the whole council meets to-night.
The "Isle of Champagne" comic opera company will be at the Opera House to-night.

The formal nomination of candidates will take place at the Court House at noon to-morrow.

The members of the O.M.B.A. attended the funeral of the late Joseph Stortz in a body yesterday.

The Girls' Guild of All Saints' church will hold a social in the Sunday school to-morrow night.

Mr. Wm. Dineen, of Havelock, has opened a new hotel there under the name of the International.

To-morrow is Shrove Tuesday and the next day, Ash Wednesday, will be the first day of the Lenten season.

Rev. J. G. Potter gave an interesting and instructive address at the men's meeting at the Y.M.C.A. yesterday afternoon.

At the rink Saturday night after their victory some of the Electricians wanted to sing "There'll be a hot time in the old town to-night," but the manager interfered on the ground that there was great danger of its melting the ice.

A joint meeting of the local courts of Foresters was held Saturday evening to make final arrangements for the reception of the delegates who will attend the big convention starting to-morrow. The visitors will be sure of a good reception.

Rev. Father P. Murphy, of the Paulist congregation, New York city, preached at vespers in St. Peter's cathedral last evening. Father Murphy is an old Peterborough boy, and his many friends in town, as it is not many years since he was a student here. A large congregation listened to his eloquent address.

In commenting on the match which the tuijors played in Lindsay last week the Post says: "Kenan made the star play of the evening. During a lively tussle in front of the Peterborough goal the puck became fast in the skate of a Peterborough player, and was thought to be lost. Kenan saw his chance, and hustled the Peterborough man through the goal before dislodging the whereabouts of the rubber."

An Increase of Water

The conductors, trainmen and yard masters of the O. P. R. were recently made happy by getting an increase in their wages from the management. Their old agreement expired on the first of February, and a few days before that the men waited on Mr. C. W. Spencer, the general superintendent of the O. P. R., and made their request for an increase in the pay they were receiving. Several were occupied in going over the schedule with them, with the result that the deputation went away perfectly satisfied with the outcome. Last year the men asked for an increase, but the company was unable to accede to this request. This year, however, they were made happy with a substantial increase all round.

The Isle of Champagne

A good attendance should be present at the Opera House to-night to hear the sparkling, high-class, comic opera, "The Isle of Champagne." An operatic treat does not come very often within the reach of the citizens of Peterborough, and on this occasion all lovers of music and comedy should take advantage of the opportunity to see one of the best companies that have ever visited Canada. Mr. Richard Colman and Miss Katherine Germaine are both stars in their profession, and are supported by a company of sixty artists. The costumes, scenery and general effects are said to be of the first rank. The event will be the treat of the season.

A Kind Note

To people living along the route of the Trent Valley canal the following assurance will give great satisfaction. It is a letter from the Minister of Railways and Canals to Mr. W. H. Biggar, of Belleville:

Ottawa, Feb. 12, '98.
Dear Mr. Biggar:
I think we are making a very substantial increase this year, as you will observe when the estimates come down. In connection with the Trent Valley Canal work. We are doubling the amount which was last year appropriated for this purpose.

Yours faithfully,
ANDREW G. BLAIR.
W. H. Biggar, Belleville, Ont.

Northern Missions

Geo. Buskin, of the Algoma and North-West Colportage mission, is making his annual visit to Peterborough on its behalf. The past year's work has been the largest yet accomplished in any of the years of its operation, both in the district and outside it, and a valuable supply is on hand for the work of the 15th year of its existence. Mr. Buskin hopes for a good support from those interested in mission work.

A New Branch

The Ontario Bank has opened a branch for the transaction of business in the town of Alliston, Ont. Mr. Jas. Morris, who was on the staff of the Ontario Bank here some years ago, has been appointed manager. Mr. Morris was very popular in town, and his friends will be glad to learn of his promotion.

Back from Europe

Mr. Dickson Galt, European buyer for the firm of Richard Hall & Son, returned from his European business trip Friday. Mr. Galt has a large purchase in the chief cities of England and France, and also in New York. His firm will carry a large and select stock of spring goods.

The Ladies' Auxiliary

An special meeting of the Auxiliary of the Y.M.C.A. will be held in the building to-morrow at 3 p.m. Mrs. J. O. Brown will read an excellent report of the Brantford convention. All ladies interested are invited.

W. C. F. F.

The regular meeting of the W.C.T.U. will be held to-day at 3:30 p.m. at Mrs. Paton's, Brock street. All are cordially welcome.

AN ELECTRIC SHOCK

Administered to the Printers' Hockey Combination

The Great of the Season—The Electric Works' Hockey Team Defeat the Printers by Four Goals to Three—The Most Amazing Game Seen This Winter

The rink was not crowded with spectators to see the Printers vs. Electric Works hockey match Saturday evening, but there was no vacant space in the building for the enthusiasm of those present filled up the void, and it is said that it even raised the roof several inches. There were only a few sports and a few lady hockey enthusiasts present, but these enjoyed the richest treat of the winter—and every one of them will be sore for a week from laughing at what they saw. Walter Phelan refereed the game, and when he could stop laughing he blew the whistle to let the players know that an off-side had been made, and to call them back from the fray—a matter of considerable difficulty. In fact, "Scuddy" laughed so much that his friends thought he had the shakes and wanted to put him to bed. Mr. Herb. Snowden acted as time-keeper, but, in his interest, forgot to look at his watch at all. He afterwards claimed that the watch had stopped the first time Hal Burnham fell down, and that it would not go any more. The stars of the game were Glover and McWilliams for the Printers, while the whole Electric team played good hockey. The first two named played the whole game for their side. The others were just there to fill up, though Hubbs and Bradburn saved their flags more than once. Glover was supposed to play point, but he scored two of the goals. He would get the puck and carry it down the rink, going in and out among the electricians in the shape of a "V." The foremost electricians claim that he must have tied the puck to his stick before he started each time, but Rolie denies this. McWilliams played the same style of game and shot in and out among his opponents like a mackerel. All of the electric works forwards played a good game, and it would be unfair to particularize. The match started like a whirlwind and kept up its speed for about six minutes. Several of the Printers were panting so hard that they broke the windows, and some of them even swooned on the ice. They indignantly denied that they were tired, but said that they believed "it was time for a change." While things were in this condition the Electric forwards saw their chance and scored two goals.

This roused the ire of Glover, so he came down and scored a goal. McWilliams did it again just to show that nobody could get ahead of him. The score was now two all, and the puck was fiercely rushed from end to end. The ice was ploughed up in deep grooves by the men falling on their knees and sliding along. Deep holes were dug in several places in the ice where the players struck it with their heads. It was amusing to see the look of painful surprise with which the electricians would rise after they had run into Rolie Glover. Hal Burnham found the rink too small for him at his position of point, and so would start tearing down the rink, and all the Printers but Glover would hurriedly climb up the sides of the rink to get out of his road. But just as Hal got near the goal he would decide to fall down, just to test the comparative hardness of the ice and his own skull, and, truly, "great was the fall thereof." Alf Terrill tried various positions on the team, but, wherever he stood, his skates would begin to wiggle on the approach of the puck and Alf would fall down. He spent about three-fourths of his time trying to recover his balance. Some of the spectators expressed the belief that Alf "threw" the game, but he characterizes this as a base falsehood. George Heaps, of erstwhile lacrosse fame, had a chronic tired feeling.

As the game progressed the Electricians scored again. This destroyed the balance, so Glover tumbled for the Printers making the score three all. After some time the men from the works took another. The type-setters were just going to score twice in succession and win the game when the referee told the time-keeper to call "time," as he would not be responsible if the players kept on too long and injured their health. So the Printers could not score their two goals, and thus the Electricians won the great match by a score of four to three. The teams were as follows:
Electricians—Miller, goal; Burnham, point; Manning, cover-point; Wilgar, Jeffries, Crowley and Grady, forwards.
Printers—Hubbs, goal; Bradburn, point; Glover, cover-point; McWilliams, Terrill, Heaps and Whitford, forwards.
After the match the Electricians were hailed a champion team in the Lake and hockey team, but it is not known whether it will be accepted or treated with the silent contempt that winners of such great events know how to assume.

PETERBOROUGH, FEBRUARY, 22 1898

MR. GARVIN'S ILLUSTRATION

It is claimed by many of the Reformers here that Mr. Garvin is not known and should therefore not be elected. But in fairness to that gentleman it may be stated that his vigorous fight here and his pointed arguments have received more notice throughout the province than Mr. Stratton has gained in his twelve years in the legislature. The Stratford Herald has the following to say on his argument as to the cost of school books: "The London News, which is an independent paper and treats political subjects fairly as a rule, discusses the cost of school books which our Stratford contemporary, the Beacon, which appears to have dispensed entirely with all show of argument in the present campaign. The Beacon, without attempting any proof, characterized as 'silly' the comparison made by J. V. Garvin, the Conservative candidate at Peterborough, who produced at a meeting recently a novel, the retail price of which, he said, was ten cents, and compared it with a fourth reader that sells for 40 cents, and claimed it was of equally as good workmanship, paper and binding. The Beacon claimed to believe the comparison very silly, for the reason that many novels have no commercial value at all, while school books are saleable goods at all times. Any one possessing the smallest portion of

common sense would imagine this to be sufficient reason why the school book should be as cheap as the novel."

THAT SURPLUS—TWO VIEWS

"A Surplus, He, He! You're a lobbyist, old man.
To believe for an instant such trash,
I'll gamble my whiskers, my shirt and my pants
Some guy has been feeding you trash."

"Are you sure that you're sure that this surplus exists?
By what proof are you sure that you're sure?
Are you sure that you have proof that you're sure you are sure—
Old Cove, are you not on a skewer?"

Said the man from the West: "You worry my spine!
You have nothing but Whitney and wheels!
Your logic is painful—a Surplus! O come!
At your denseness my intellect reels."

"If there isn't a Surplus, you better-nosed freak,
How comes it this Surplus is shown in the book that I quote—which its figures can't lie!
Your tires, friend, need to be blown—London News."

A SATISFACTORY REPORT.

The sixty-fourth annual report of British America Assurance Co. shows that well-known institution to be in a most flourishing and satisfactory condition. This company is one of the oldest and most substantial assurance companies doing business in Canada to-day, and it takes a high position among the big monetary institutions on this continent. In the annual report, which is presented to our readers in another column, the great increase of business transacted in the past year is shown, as well as the present standing of the company. The company is a thoroughly Canadian one, and it is a matter of gratification to the people of this country to know that such a solid and practically successful business concern is managed entirely by Canadians.

Not the least source of the success of the British America Assurance company is to be found in the personal business ability of its officers and managers. Hon. Geo. A. Cox, who was again elected President, is known as one of the shrewdest and perhaps the most successful financiers in Canada to-day. The Vice-President, Mr. J. J. Kenny, and the other gentlemen on the board of directors are well known as practical business men of the highest ability. The personal of the Board of Managers is a guarantee of upright and successful business methods.

Is it time for a change?

A vote for Garvin is a vote for Whitney, a vote for Stratton is a vote for Hardy and Ross.

The German Emperor's valuation of a missionary runs all the way from \$5,000,000 in China to 9 in Armenia.

Why did not the Hardy government appoint a commission to bring in a report that the surplus is there all right.

Mr. Whitney compared favorably with any of the members of the Ontario Government who have been heard in Peterborough.

The Examiner thinks the Whitney meeting was all Stratton's way. It evidently went there with its impressions made beforehand.

"We will whack Whitney." What a rousing battle-cry the Globe has sprung this campaign. The poor old Globe must be suffering from senile decay.

Young Mr. Leiter says wheat is bound to go higher, but he does not know how much higher. One would think he would be ashamed to confess such ignorance.

Judging by the wonderful statements being made all over the province by the many speakers chuck full of ignorance there is a lot of work in store for the business colleges.

More than 1,000 persons sailed from Seattle yesterday in order to be on the spot when the government's Klondike relief expedition reaches its destination—Detroit Tribune.

Every practical printer knows that the Ontario school books could be produced and sold at figures far less than is now charged for them, even allowing each maker and dealer a good thing.

The Conservative party in Ontario has, no doubt, turned some sharp corners within the last eight years. At present, however, it seems to have marked out a pretty fair and straight line for itself.

Talking about generalities, if any man can make more general statements than J. R. Stratton he has yet to be produced, and if anybody can use so many words without saying anything he should come forward as his true vocation is on the stump.

Every intelligent man should take an interest in political dictates. As to

hide-bound partyism it will probably be found right or altogether wrong. So long as men are honest, it is of very little consequence whether they call themselves Tories.

BRITISH AMERICA ASSURANCE COY

SIXTY-FOURTH ANNUAL MEETING

The annual meeting of the shareholders of the British America Assurance Company was held in the company's offices, Nos. 18, 20 and 22 Front street east, Toronto, on Friday, the 18th February.

The President, Hon. George A. Cox, occupied the chair.

Mr. P. H. Sims was appointed to act as Secretary, and read the following report, which, on motion, was adopted:—

ANNUAL REPORT.

In presenting the sixty-fourth annual financial statement of the company, the directors have pleasure in calling attention to the following results of the year's business:—

The balance of income over expenditure, as shown by the revenue account, is \$100,832.74.

There has been a net appreciation in the market value of securities of \$14,147.93.

The reserve fund has been increased from \$528,838.1 to \$591,361.51, after providing \$52,500 for two half-yearly dividends at the rate of seven per cent. per annum.

The estimated liability on current policies is \$511,982.85, an amount more than ample, according to the company's past experience, to run off all existing risks; and, after providing for this, there is a net surplus over capital and all liabilities of \$79,381.65.

In all departments a decrease is shown in loss ratio, as compared with those of the previous year.

The directors express their appreciation of the efficient services of the officers, special agents and representatives of the company during the past year.

All of which is respectfully submitted.

Summary of financial statement:—
Total cash income \$1,470,339.40
Total expenditure, including appropriation for losses under adjustment 1,369,506.66

Balance 100,832.74
Dividends declared 52,500.00

Total Assets \$1,510,827.88
Total Liabilities 169,463.37

Surplus to policy-holders \$1,341,361.51
The following gentlemen were elected to serve as directors for the ensuing year: Hon. Geo. A. Cox, J. J. Kenny, Hon. S. C. Wood, S. F. McKinnon, Thomas Long, John Hoskin, Q. C., L. L. D., H. M. Pellatt, R. Jaffray, A. Myers.

At a meeting held subsequently, Hon. Geo. A. Cox was elected President, and Mr. J. J. Kenny, Vice-President.

MY PAINS ARE BANISHED

I Heard of Paine's Celery Compound, Used it, and it Worked Wonders

These Statements are made by Mr. R. McMullen, Camden N. S.

Proof That the Marvellous Compound Cures When all Other Medicines Fail to Give Results

Give it a Trial, Sufferer, it Will Surely meet your case

Wells & Richardson Co.,
Dear Sirs:—For over four years I have been in poor health, and received treatment from two doctors besides using seven kinds of patent medicines. I also sent to New York and got a month's treatment of a special medicine, but no good results came from it. I was run down, suffered terribly, could not rest at night, and every morning had a severe pain in my back, dizziness in my head, and vomited bitter green matter, and had no appetite. I heard of Paine's Celery Compound and decided to give it a trial, and am happy to report that it worked wonders. The pains are all gone, I rest well at night, my appetite is good, and my health is now splendid. Paine's Celery Compound has worked miracles for me. I recommend it to all sick people as the best medicine.

Yours truly,
Robert McMullen, Camden, N.S.

The Great Salt Lake
The Great Salt Lake of Utah, the Galilee of the vanishing Mormon, is 70 miles long and 50 miles wide in its widest part, with a maximum depth of 40 feet, though much of its area does not exceed from 12 to 20. Fifty years ago, when the Mormon first fared thither, it was much deeper, exceeding 100 feet in places, and its average being much greater than present measurements show. The local savant conjectures that it was gradually turning into a body of fresh water. The theory is supported by an examination of the waters of numberless springs which used to pour pure brine into the lake, the outflow of many of them being now quite fresh, as if they had exhausted the underground deposits of salt, of which there were formerly the solvent and carrying vehicle. Still, of the lake in general, it may be safely asserted that its salt will long outlast that of the doctrine which its pioneer apostle promulgated along its shores, and though it occasionally shows a particularly low water mark it is not going to dry up altogether for a long time to come.—New York Tribune.

TREES

Our stock is as good as the best.

Having an unusually large stock of trees, vines, bushes and plants, both fruit and ornamental, of our own growing, we are compelled to extend our trade, which has hitherto been chiefly confined to the Niagara district. Having no agents we have no fancy prices to protect, and to offer at very low rates to be in touch with the times.

Price list free on application.

MILK-BORN DISEASES.

Important Reasons for Cleanly Care in Every Dairy.

The British Medical Journal has recently published a report on this subject that contains much matter for serious consideration. Statistics are published that prove infected milk to have been the cause of 35 outbreaks of disease affecting 2940 individuals, and causing the death of no less than 367.

Besides tuberculosis, which infects the milk while in the cow's udder, scarlet fever and diphtheria have been traced to the gentle cow. Outbreaks of scarlet fever have occurred in families using the milk of cows which were affected with a mild skin eruption on the udder and teats; diphtheria, where milk from healthy cows was mixed with that from a case of garget on inflammation of the udder. Instances are given of infection with these diseases when all the circumstances seem to exclude any other source of contagion than the milk.

Then comes typhoid fever, no less than 45 outbreaks of which are traced to milk which had become infected in one of several ways. Sometimes the water used to wash the pails, etc. (or to dilute the milk) had been contaminated by sewage. Sometimes the cows had been drinking impure water, and occasionally the connection between the milk and the disease could not be traced, although evidently present. Cases of illness in the families of dairymen were the cause of several outbreaks of disease, and this discloses a source of danger overlooked in ordinary dairy inspection.

The ghastly array of facts forms a serious indictment against an indispensable article of food and makes an irrefragable argument in favor of frequent dairy inspection. If milk-producers would observe the following simple rules there would be very little disease conveyed by milk.

1. Use only the milk of healthy cows, and make sure of this by the tuberculin test, if possible.
2. Do not use milk of cows with any unsatisfactory condition of the udder, such as eruptions, swellings, etc.
3. Use only pure water in connection with the dairy.
4. Keep milk only in sanitary surroundings (clean milk room apart from dwelling room).
5. In case of doubt, boil the milk.

The Dutch Healed Cattle.

Mr. Orson D. Munn, one of the editors of The Scientific American, is justly proud of the handsome herd of Dutch Healed cattle which are much admired

A DUTCH HEALED HEIFER.

by the horns of the stock who visit his place. The Dutch Healed cattle, bred by the New Jersey State Fair, out of thirteen head exhibited seven took first prizes and two were awarded second. At the live stock exhibition held in Madison Square Garden in 1893 thirteen prizes were awarded for the herd and separate animals composing it. A herd of sixteen Dutch Healed cattle, it will be remembered by breeders, was awarded the highest per cent. of prizes obtained by any cattle exhibit at the World's Fair, when there were probably more cattle of various breeds gathered together than ever before.

"The Dutch Healed or blanket breed of cows," said Mr. Munn, "are natives of Holland and are a distinct family from the Holsteins, with which many confound them. Comparatively few have as yet been imported into this country, although the breed antedates the seventeenth century. In Holland they are valued and controlled by the nobility, in color they are very black, with a continuous pure white belt around the body, which makes a strikingly beautiful contrast. Their form is usually very fine and their constitutions most hardy, enabling them to stand sudden changes in climate and to thrive on any variety of fodder. As milk producers they are excellent."

What Makes the Profitable Cow?

We are often asked, how much milk must a cow give, or how much should a cow test, in order to be profitable? says Horard's Dairyman. We reply to these questions, by saying that neither quantity nor quality is a sufficient basis for answering. The recent tests of cows at the New England Fair, Portland, Me., affords a conspicuous illustration of this fact, as also of the other fact, that one-day tests may be greatly misleading. At that fair, one cow, Addie Akeley, an A. J. C. Jersey, gave 40.3 pounds of milk; another cow, Eunice, a "Maine State" Jersey, gave 23.7 pounds. Which is the better cow? The probabilities are that the former made much the best show in the ring, and would "score" several points more than her competitor, because of her carrying a much larger udder. This would be especially the case with the average observer, or any one who is not a truly experienced expert, and more especially with any one who should attempt to form a judgment by the "scale of points," recommended by the Jersey Cattle Club, for judging Jerseys, where "points" are given to a "fore udder, full in form, but not fleshy"; 11 points to a "white udder, full in form and well up behind"; 10 points to "teats rather large, white heart and squarely placed"; and 3 points to "milk veins prominent." Here are 30 points out of a possible 100, given to the milk udder and its appendages, and it is not unreasonable to suppose that the cow giving 40 pounds of milk in 24 hours would score much higher than the cow giving 30 pounds or less, and hence be pronounced the better cow.

When, however, the milk of these cows was tested, it appeared that the greater quantity had only 4 per cent. fat in it, while the lower quantity carried 5.1 per cent. Two many men would hastily conclude that the higher testing cow was decidedly the better of the two, and in fact she did yield a trifle more fat, but scarcely more than enough to compensate for what she lost in the value of her skim milk. In truth, so far as the one-day experiment could show, these two cows were nearly equal in the money value of their product. That there was no more left for the owner, a decision based upon either quantity or quality of the milk, would have been decidedly misleading. Only when both are considered can a reliable judgment be reached.

The Capital (editorial) - Our reader is known. A Yarn - Oh, well, nobody will be

ONLY ONE WORLD.

Our Earth the Only Pebble on the Universe's Beach?

Popular Astronomy and The Hartford Courant have come to the conclusion, says The Troy Times, that there is only one earth, and, such being the case, it is a very desirable place of residence. A idea prevails in the common mind that our world is only one of countless similar bodies; that space is filled with a host of systems not unlike our own, and that it is possible other globes are inhabited and quite as habitable, if not more so, than the one in which we dwell. Popular Astronomy says: "Although our solar system is only one among thousands of systems now known to exist in every part of the heavens, among all these other systems there is not yet disclosed a single one which closely resembles our own."

This is not a positive assertion that ours is the only world in which human beings live and move and have their being, but it leads up to the belief, and this is sustained by much argument dealing with astronomical technicalities, which may be omitted here. It seems to be convincing to The Courant, for that paper takes up the discussion, and, after considering some other points, sums up the case as follows:

"Not only is our earth unique in its favorable position in our system, but our system, as far as is known, is unique in the universe of systems. We rarely think of how narrow a margin we live. A little more heat or a little more cold, and we die. Our existence depends on keeping changes of temperature within a range of about 1 per cent. of what we know as possible extremes. If the moon were very much larger the tidal wave would carry the entire ocean twice a day over the surface of the earth. If the earth were much smaller we would lose our atmosphere; if it were much larger we could not stand upright more than five minutes nor would we be able to mount a hill except by painful crawling. If the year were twice as long as it is it is doubtful if we could raise food enough in the summer to carry us through the winter or if we could survive the accumulated cold. In every way our earth lies just at the meeting point of two kinds of death which 'on this bank and shore of time' we must fight with either hand. It makes no difference whether we have fitted ourselves to the earth through a long series of evolution or whether it was fitted to us; as far as we know it is the only inhabitable spot in the universe, and the chances are almost infinite that no other is so favorably located. Let us make the most we can of it."

Toes, Claws, Fingers.

The elephant, a slow-moving animal in the ordinary course, has as already observed five toes. The rhinoceros, a much faster beast, as hunters have often learned to their confusion, has but three. Now the sheep we find two digits only, while in the horse, peevish in the matter of pace, the number falls to a single digit. The nail of the higher mammal may have given place to a horny hoof; no matter, the finger remains for purposes, at any rate, of comparison, a finger all the same. Be it added that many extinct hoofed creatures are endowed with the full five digits, and not a few existing deer show distinct traces of two obsolete shorter "fingers." From this I gather—though the theory may, not quite unreasonably, be dismissed as far-fetched—that these weaker grass-eaters have gradually dropped their digits as the struggle grew in severity and the necessity for swiftness of limb increased.

Nor, I am free to confess, did the apparent truth of this appeal to me in deep and I came to compare the foot of the swift ostrich with that of the stately stork. It was as I expected, the feet of the stork had dropped two of the four fingers pointed to meet birds, having but two. The almost equally swift emu and cassowary had dropped one, being possessed of three apiece. This, then, seems to me a fair rule; the fewer the digits the swifter the beast. And the rule bears the stamp of the exception necessary to prove it, inasmuch as the sluggish hippopotamus has one less than the hare. Perhaps, then, this notion of mine will apply only to the hoofed beasts. Whether the elephant might in time have dropped one or two of his digits, and at the same time diet himself, to acquire greater pace, is an open question, and one which since the arrival on the scene of man and his rifle, is likely to go unanswered. These last have been powerful factors in putting a term to the development of many an interesting zoological problem.

Good Words.

EMISSIONS

Varicose, Syphilis, Weakness and Diseased Men Cured.

20 Years in N.Y. 40 Years Experience

200,000 CURED.

Thousands of young men are made nervous, weak, and ill by the use of such medicines as house remedies or private prescriptions, or by the use of such remedies as Dr. Kennedy & Kergan's. I read this paper and have seen many reports of remarkable cures made by Dr. Kennedy & Kergan. I decided to test with them. I have used their medicine for many years, and have cured many cases of varicose veins, hemorrhoids, and other diseases. I have gained twenty-five pounds and am strong mentally, physically and sexually. It is a wonderful treatment. Blood Disease—with the worst symptoms: Ulcers in the mouth or on the skin; boils, eruptions, hair falling out, bone pains, eyes red, stomach troubles, cold throat, etc., positively cured forever. You dare not marry until cured. Cures guaranteed or no pay. We cure Syphilis, Nervous Debility, Varicose, Falling Testicles, Stricture, Gleet, Unnatural Discharges, Weak Parts, Bladder and Kidney Diseases. Examination Free. Write for Free Book for Home Treatment. Everything confidential. Nothing sent C. O. D. If unable to call, write for Question Book for Home Treatment. Everything confidential. Nothing sent C. O. D.

NO CURE NO PAY

Proclamation!

Electoral District of the East Biding of the County of Peterborough, to Wit:

PUBLIC NOTICE IS HEREBY GIVEN to the Electors of the Electoral District of the East Biding of the County of Peterborough, that in obedience to Her Majesty's Writ to me directed, and bearing date the Second day of the month of February, 1906, I require the presence of the said Electors, at the TOWN HALL, in the VILLAGE OF NORWOOD, on the

22nd Day of the Month of Feb.

1906, at One o'clock p.m., for the purpose of electing a person to represent them in the Legislative Assembly of this Province; and that in case a poll be demanded and allowed in the manner by law prescribed, such poll will be opened on the

FIRST DAY OF THE MONTH OF MARCH

In the year 1906, in each of the Townships, Wards or Polling Subdivisions in which a polling place is to be opened and kept according to law, of which due notice will be given on the Day of Nomination. Of all which every person is hereby required to take notice and to govern himself accordingly. Given under my hand at Peterborough, this 21st day of the month of February, in the year 1906.

BERNARD MORROW.

RETURNING OFFICER.

READ WHAT PHYSICIANS SAY OF

POND'S EXTRACT

PHILADELPHIA, Pa.,
Dec. 29, 1894.
I have used "Pond's Extract" for many years and always insist upon my patients getting "Pond's," not the ordinary Extract, which is often a very poor article. W. K. BROWN, M. D.

PHILADELPHIA, Pa.,
Jan. 9, 1895.
I use Pond's Extract a great deal in my practice. I think it very valuable in all venous enlargements. J. L. BRADFORD, M. D.

SANTA BARBARA, CAL.,
Nov. 27, 1894.
I have been using Pond's Extract in my practice for twenty years. I frequently have the experience you mention of druggists insisting they can put up as good as yours. I don't believe it. I use Pond's Extract a great deal as an antiseptic in combination with glycerine and carbolic acid. I think it far superior to any antiseptic known. F. G. FLOURNOY, M. D.

COLUMBIA, PA.,
Jan. 18, 1895.
I have been a constant user of Pond's Extract since 1855, and do not expect to discontinue it while I live. S. ARMOR, M. D.

CHELSEA, MASS.,
Nov. 8, 1894.
I have made diseases of the skin a specialty for thirty years, and am free to say I know of no remedy that has given me such perfect satisfaction as Pond's Extract in cases for which it is recommended. G. W. BABCOCK, M. D.

ASTORIA, N.Y.,
Dec. 13, 1894.
I know Pond's Extract to be a valuable remedy, and shall continue its use whenever the opportunity offers. Geo. H. CALKINS, M. D.

NEWARK, N. J.,
Dec. 13, 1894.
I am pleased with the purity and strength of Pond's Extract. L. DUYVEL, M. D.

POND'S EXTRACT is used by the leading physicians and principal hospitals of America and Europe.
9,000 ORDERS FROM PHYSICIANS WITHIN ONE MONTH DURING LAST AUTUMN.

POND'S EXTRACT is undrugged for Cuts, Burns, Bruises, Colds, Catarrh, Piles, Inflammations, Hemorrhages and all Pain.
Send for Pamphlet (free).

MAYOR'S OFFICE.
Mr. Davis will be at the Town Offices, from 9 to 10 o'clock, each morning to meet those having business to transact.
A. L. DAVIS, Mayor

Morning Times

PETERBOROUGH, FEBRUARY 22, 1898

TOWN AND COUNTY NEWS.

Wanted.
An experienced general servant wanted. Apply at once at 520 Water Street.

Delightful Pastry.
McQuay, Bapiste & Co., are selling the most delightful pastry in town. Opposite Adam Hall's.

Ladies Auxiliary.
The Ladies' Auxiliary of the Young Men's Christian Association will meet in the Bible class room at the building this afternoon at 3 o'clock. Mr. J. O. Brown, who was a delegate to the provincial convention in Brantford will give a report of the session of the Auxiliary. All members of the Auxiliary are urgently requested to attend as well as any others who are interested in the work.

Piles! Piles! Itching Piles.
Symptoms—Moisture, intense itching and stinging; most at night; worse by scratching. If allowed to continue, causes hemorrhoids, which often bleed and become very sore. Swayne's Ointment stops the itching and swelling, heals ulcers, and in most cases removes the tumor. All druggists, or by mail, for 50 cents. Dr. Swayne & Son, Philadelphia. Lyman, Swan & Co., Montreal, wholesale agents.

The Health of a Foal.
McQuay, Bapiste & Co.'s breed is pronounced to be first-class. Only 10c. for a large foal.

How to Cure All Skin Diseases.
Simply apply "Swayne's Ointment." No internal medicine required. Cures better, eczema, itch, all eruptions on the face, hands, nose, etc., leaving the skin clear, white and healthy. Its great healing and curative powers are possessed by no other remedy. Ask your druggist for Swayne's Ointment. Lyman, Swan & Co., Montreal, wholesale agents. Avoid substitutes.

DISTRICT AND LOCAL TOPICS

Reporter's Phone, 164 B.

—The Foresters will hold a concert and hop in honor of the visiting delegates to-night.

—The snow storm of yesterday delayed some of the trains considerably. The G.T.R. train due at noon was an hour late.

—Mr. Joseph Jones, of the Wm. Hamilton Mfg. Co., left yesterday on a trip to the Crow's Nest Pass in the interest of his company.

—The formal nomination of the candidates for the Legislature will take place at noon to-day at the Court House. There will be no speeches.

—Addresses of welcome will be read to the visiting Foresters at the Court House this afternoon on behalf of the town by Mayor Davis and on behalf of the local courts by Mr. F. J. Jamieson.

—Mr. John Bertram, M. P. for Centre Toronto, will speak on behalf of Mr. Blezard at the nomination proceedings at Norwood to-day. Dr. Sproule, M.P., and Dr. Ford will uphold the Conservative cause.

—There is to be a big oratorical fight at the East Durham nomination at Millbrook to-day. Nicholas Flood Davis, the eloquent commoner from the Northwest, will speak for Mr. Fallis the Conservative, while Hon. D. O. Fraser will lend his assistance to the Liberal candidate, Mr. Grandy.

SPECIAL SERVICES

Special Service at St. John's and St. Luke's During Lent

Wednesday evenings at St. John's church. General subject, "Epochs and Distinctive Features of Early Church History."

1. Ash Wednesday, Feb. 23.—"The Growing Church. St. Ignatius and St. Ambrose." Rev. Dr. Langtry, St. Luke's, Toronto.

2. March 2.—"The Persecuted Church. St. Polycarp and Justin Martyr." Rev. F. H. Hartley, Toronto.

3. March 9.—"The Conquering Church. Constantine and the Nicene Age." Rev. W. E. Cooper, Campbellford.

4. March 16.—"The Truth Maintaining Church. St. Athanasius." Rev. Canon Sprague, M. A., Cobourg.

5. March 23.—"The Worshipping Church. The Religious Orders." Rev. C. B. Kendrick, M. A., St. Mark's, Port Hope.

6. March 30.—"The Teaching Church. St. Augustine and the Doctors." Rev. Prof. Cayley, M. A., Trinity College, Toronto.

7. April 6.—"The Contemplative Church. St. Chrysostom and the East." Rev. G. Warren, B. A., Lakefield.

Service 8 p.m. Address 8.30.

St. Luke's.
A series of lectures will be given in the school house on the Wednesday of Lent to which the public is cordially invited.

March 2.—The religious teaching of Tennyson and Browning, by Rev. H. Symonds.

March 9.—Macbeth, by Sheriff Hall.

March 16.—Good Citizenship, by Rev. I. McCaig.

March 23.—The Temple, by Mr. D. Spence.

March 30.—Charles Kingsley, by Rev. H. Symonds.

On the Friday evenings during Lent all 8 o'clock courses of short lectures on "The Life, Labours and Character of St. Paul," will be given by Rev. H. Symonds, to which the public is cordially invited.

Feb. 25.—St. Paul before his Conversion.

March 4.—St. Paul's Conversion.

March 11.—St. Paul's Preaching about Law and Gospel.

March 18.—St. Paul as a Missionary.

April 1.—St. Paul's Doctrine of the Church.

April 8.—St. Paul's Doctrine of Sacrifice.

Mark St. Church Notes.
On Sunday morning the pastor chose as his text Genesis 5: 24; "Enoch walked with God and he was not, for God took him." "Walking with God" was the theme. Mr. Moore presented it in a helpful manner to those present.

The E. L. will meet on Monday evening, as usual. The topic will be presented by Miss Edna Armstrong. Come, help and be helped.

The usual Wednesday evening prayer meeting will be withdrawn to enable all to attend the E. L. convention in George street church.

Mr. Patten will conduct the Friday evening cottage prayer meeting at the home of Mr. J. Armstrong on Brown street.

The trustees of the church will meet at the parsonage on Saturday evening, March 5, at 7.30 to consider some very important matters.

All young and old, will find a welcome at the Sunday school at 2.30 every Sunday.

The subject of the evening sermon was "Procrastination." The text was Acts 24: 25. "As he reasoned of righteousness, temperance and judgment to come, Felix trembled and answered: 'Go thy way for this time; when I have a convenient season I will call for thee.'" The dangers of delay were faithfully pointed out.

Next Sunday Rev. J. E. Moore will exchange pulpits, and educational sermons will be preached at Mark St. church.

Officers Elected.
At the annual meeting of the Peterborough Cheese Board, held in the council chamber yesterday, the following officers were elected for the present year:
Pres.—J. M. Drummond.
Vice-Pres.—Geo. Stewart.
Sec.—John Riddell.
Treas.—Samuel Edwards.
Mr. Kerr was re-elected as instructor for the factories.

The Public Library.
The 10 wing new books have been placed on the shelves of the public library: The Tragedy of the Korosko, Conan Doyle; Modern France, Leffon; Son of Inez, Wood; Geo. Malcolm; Saurat; A Daughter of Strife, Purdie; A Handful of Exotic Gordon; Maurice Owen Roberts; Living Prophets, Phillips; When the World was Younger, Braddon; Daniel, 2nd copy, Blackmore.

ST. LUKE'S ENTERTAINMENT

Entertainment held last night in St. Luke's Sunday School.

A large audience assembled last night to hear the concert given in St. Luke's Sunday School room. The entertainment was furnished entirely by local talent, and it is a fact worth mentioning that some of Peterborough's popular entertainers can present as enjoyable and interesting a program as many professional companies. All the pieces rendered last night were greatly enjoyed by the audience. Rev. H. Symonds presided as chairman. The numbers were as follows:

Instrumental Duet—Misses Hurley.
Solo—Mrs. R. Brown.
Recitation—Mr. J. J. Turner, Jr.
Recitation—Master Holden Blackwell.
Solo—Mrs. J. G. Spence.
Instrumental Solo—Miss Hurley.
Recitation—Master H. Blackwell.
Solo—Mrs. R. Brown.
Recitation—Miss Byrke.
Solo—Mrs. J. G. Spence.
Good-night Drill—Ten little girls.
Several selections from the graphophone were also listened to with interest.
A vote of thanks moved by Mr. R. B. Rogers, seconded by Mr. Lewis Rye, was presented to the ladies and gentlemen kindly contributing to the program.

THE ISLE OF CHAMPAGNE

A First Class Presentation of the Comte Op

The attendance at the Opera House last night to hear the comic opera, "The Isle of Champagne," was very good, but no better than the company deserved. The production of the piece was carried out in first-class style, every detail showing good management on the part of the executive, Richard Golden, as the king of the island, completely caught the hearts of his audience by his inimitable and sparkling humor. Miss Germaine also played her part well, though suffering somewhat from a cold. Her costumes were gorgeous. Some clever specialties were introduced, and it was to be noted that the opera owed its chief charm. The company is a large one, and although its strength lies in the two stars, the other members give them a good support.

A CHANGE OF RATES

New Rate of Fare—Goes in Force on the C. P. E. Line

Instructions has been received at all the main stations on the C. P. E. line and its branches of a cut in the rates now in force. The change is to be applied at once. Travellers should make note of this and take advantage as it is not known how long the situation will remain as it is. Complications have arisen in the railway business within the last couple of weeks and the agents have been expecting notice of changes. The change of rate applies to all points connected with Peterborough on either side. Full particulars can be had from Mr. T. E. Boidy the general uptown agent of the great Canadian line.

Mr. Blezard at Home.

Mr. Thomas Blezard, the Liberal candidate for the Legislature in the East riding, held a most successful meeting at the town hall, Keene, last night. Addresses were delivered by Mr. Blezard and Mr. R. G. Clute, Q. C. of Toronto. Mr. Blezard was well received and made a good address, touching on all the leading issues of the campaign. Mr. Clute delivered an eloquent address and dealt fully with all the matters now being agitated before the public, making a good appeal for support of the Hardy Government. His address was listened to with deep interest. Mr. Blezard is meeting with good success in his campaign and is confident that his party will carry him to victory.

Fresh marmalade oranges; cheap.
J. R. Oke.

Wife of Knowledge.

Drooping flowers will flourish wonderfully if the tips of the stems are trimmed off and the ends are then held in hot water for a minute or so. The newest designs in table linen woven by loyal Irish weavers show the rose, shamrock and thistle intertwined in a handsome border. In the centre of the tablecloth or serviette is a bust of Queen Victoria framed in a wreath of English roses, and the words "Queen Victoria's Diamond Jubilee, 1837-1897."

Stains of rust may be removed from fine linen and similar fabrics without injury to the materials. The article must be first well soaped, as if they were to be used for the ordinary use. An iron is heated, and the water laid on it and a little oxalic acid is rubbed on with the finger. The heat and the moisture hasten the effect of the acid, and when this has disappeared the rinsing and washing may be continued.

Protestants in Fashion.
In Spain, during the seventeenth century, the wearing of spectacles by both sexes was a mark of social eminence. Although they were not necessary, many kept them on while attending public functions—such as theatres, concerts, and bull fights—so that the owners demand respect from those of the lower order with whom they might be compelled to come in contact. The size of the spectacles was a matter of important consideration; just as carriages and man-servants are nowadays. As people's fortunes increased, so did the dimensions of their spectacles. The Countess d'Aulnay assumed that some of the spectacles she has seen worn by the grandees were as large as her head.

No Gripe

When you take Hood's Pills. The big, old-fashioned, sugar-coated pills, which tear you all to pieces, are not in it with Hood's. Easy to take.

Hood's Pills
and easy to operate, is true of Hood's Pills, which are up to date in every respect. Safe, certain and sure. All druggists, or C. O. Hood & Co., Lowell, Mass. The only Pills to take with Hood's Sarsaparilla.

PETERBOROUGH, FEBRUARY 23, 1898

INDEPENDENT CANDIDATES.

Principles, not patronage, are what the independent candidates are fighting for to-day. They do not desire election in order to provide relatives and political friends with office, or to tax the people for the benefit of corporations or political schemes. They desire to press the observance of these principles of economy which have been hardened than themselves and largely overlooked. They demand the wiping out of needless offices now maintained for empty show and the reward of political supporters; the reduction of the cost of government and the independence of Parliament. They are opposed to the buying of railroads or other enterprises with the people's money, and the increase of our Provincial debt. They view legislation from the standpoint of the man who pays the money rather than from that of the man who is after it. Where no independent candidates are in the field, any other candidates by whatever party name they may be called, who accept these principles, are men to whom the independent electors should give their votes.

Isn't it time for a change in West Peterborough?

Mr. Garvin does not think it is a case of "everything goes" with him and his stumpers, but he says it is a case of Stratton goes.

Stratton gives the word—the officials do the rest.

The first of March can not come a bit too soon for Mr. Stratton. Every day that passes makes Mr. Garvin known to more people.

What a pity Mr. Stratton can not get enough colonization road money to go all around the riding. He might then be surer of this election.

Those who heard the quiet, incisive sentences of Mr. Hardy must have felt that in every syllable there was reflected the fact that the family, from its head to its youngest member, tending to the kindergarten, have all been the subjects of constant consideration on the part of those who have controlled the destinies of the province so long.—Ottawa Free Press.

How gushing!

ADVENTURE WITH A TIGER

AN INDIAN SHIKARI HAS A HAIR-BREADTH ESCAPE FROM DEATH.

I knew an old shikari who had fought many a battle with the royal Bengal tiger, and had many a hair-breadth escape from the latter's jaws. One fine afternoon having nothing better to do, he went out fishing with half a dozen of his friends. This is not going to be a fish story, but a real live tiger story, the fishy part coming in only incidentally. They chose a small river, some couple of hundred yards in width. One bank of the river was flat and open, but the other was rough and undulating and scrubby—in fact, it was adjacent to a jungle. The fishers sat in a row about ten paces apart on the former bank, each had a loaded gun by his side as a precaution against unwelcome intruders. Now, our friend heard a snarl, and turning around, beheld his rod scudding along the surface of the water like a racing yacht. Such a catch was worth a little exertion, so he plunged into the water and struck out for the rod. He came up with it almost at the other side of the river, but at that instant a terrific roar was heard, a tiger leapt on the swimmer from the neighboring bank, and was off with him before his startled companion could raise a finger on his behalf.

The shikari was a little stunned by the tiger's onslaught; he recovered consciousness, however, in a few minutes when he found himself lying on the tiger's back, and in full sail towards the hearts of the jungle. Fortunately, he was not seriously hurt, as the tiger had gripped him by the arm just above the elbow. There he lay quite helpless, what was he to do? Any movement on his part might have made his condition far worse; so he shut his eyes as if he were dead. Soon, however, the tiger arrived at his den, which was no more than a hollow scooped in the sand at the foot of a large tree. There the tiger deposited him and covered him over loosely with some sand. Luckily for him, his face was uppermost when he fell, otherwise he would have had no other alternative between death by suffocation and death from the tiger if he had dared to move. As it was, he could manage to breathe gently, and even to have an additional glimpse under his eyelids. After this operation of partial burial the tiger ran ahead a few yards, but returned as if he had some misgivings in his mind. Seeing, however, all safe, he bounded forth, but again returned to look anxiously at the tiger. He kept up this method of self-persuasion for a few minutes, till, feeling quite certain about the matter, he finally went away on his mission. After waiting a few minutes to see that the tiger had really gone, our shikari sprang up and climbed the tree just over his head and hid himself among the leaves. He had not long to wait for the denouement, for the tiger soon returned, accompanied by a tigress and a couple of cubs (like a generous and exemplary husband and father, the tiger evidently morning to eat on the sly). They came along with many a joyful cat-like gambol in anticipation of the great feast, and found the den—empty! Such a lamentation over the lost dinner then arose as never heard before in the whole animal kingdom. In fact, the tigers persisted so long in their piteous cries that our shikari began to have some doubts as to the righteousness of defrauding the poor creatures of their hard-earned wages; but he was prevented from offering himself to them in a moment of misruled magnanimity by the thought of his own wife and child, a whole claim upon him was obviously higher. At any rate he stuck in the tree all night, as it was too risky to venture out in the ensuing darkness; then next morning, when the coast was clear, he fled home to tell me these uncontroverted facts.—Cornhill Magazine.

How to Boil Potatoes

Browned potato is a good dish. Take two cupsful of finely mashed potato, mix with one tablespoonful of run butter and an egg, season all with salt and a little white pepper. Roll the mixture into balls, then flatten into cakes about half an inch thick. Dredge thickly with flour and brown on a griddle with just sufficient clarified beef dripping to keep them from sticking. For roast meat have the homely vegetable either roasted under the meat or fried whole in deep fat, after it is partly boiled.

For potato fritters make slices of a large parboiled potato half an inch thick. Season with pepper and salt, dip into butter, fry in deep fat, drain very dry, scatter over dried salt and grated cheese and serve.

Creamed potato is especially good with boiled fish. Melt one ounce of butter in a stewpan, add half an ounce of flour and stir till the butter is dissolved, taking care that it does not brown. Then add half a pint of new milk, stir till it boils, season with white pepper and salt, add half a pound of thick sliced cold boiled potato and let the pan stand at the side of the fire till the potato is thoroughly heated. Scatter chopped parsley over and serve.

Scalloped potato is another good dish. Take slices of boiled potato and some good thick brown gravy. Grease a pie dish, line it with browned breadcrumbs, set on these a layer of potato, cover with the gravy and so on until the dish is full. Scatter browned breadcrumbs over the top and bake as usual.

IT IS A BIG SCHEME

Continued from page one.

interest on its bonds that the municipality will be called upon. However, if it had to pay \$7,500 a year interest for twenty years it would pay a large sum.

There are many points worthy of consideration in this matter. In the first place it is not yet decided what kind of an agreement can be arranged between the municipality and the Grand Trunk. The town should see that it is of such a nature that our interests would be secured in case of the project failing. Again, special legislation would have to be secured from the Legislature to allow the town to assume this debt, and it is an important fact that the Legislature of Ontario is opposed to passing municipal legislation favoring what can be in any way constructed as purely speculative enterprises.

Another point to consider is whether or not the Municipal Act would not make the incurring of this new debt illegal, for it would be practically a debt. The Act provides that no municipality can raise a debt of more than ten per cent. of its total assessment. Now the debt to assume this debt would amount to \$200,000, and to add \$150,000 to this would make a total of \$350,000, whereas the total assessment of the town is but \$4,300,000.

The idea of an electric road to these points is no new idea, and it has been even felt that it would be of great advantage to Peterborough. Especially is this the case since the railway companies discontinued the cheap market tickets, a privilege which greatly benefited our merchants. The building of these lines would more than restore the trade which has fallen off since the railway's abolition of the market rate.

LAKEFIELD NEWS

Topics of General Interest From the Flourishing Village

Election matters are very quiet in the village, there being apparently less than the usual interest taken. Both sides confidently claim a majority of about twenty-five for their man.

The canal contractors have made great progress with their work this winter and in spite of petitions we are apparently going to have a high level bridge. The stone for the approaches has been heaped up very rapidly and it is said that a magnificent view of the surrounding country may be had from the summit. Reliable guides will be furnished on application to the local branch of the Alpine Club.

The second fancy dress carnival was held at the rink on the 18th inst., but the attendance was rather small. The usual contingent from Peterborough was conspicuous by its absence.

On Saturday morning last a close game of hockey was played between the first team of the "Grove" school and a team of juniors from Upper Canada College. The visitors showed better combination but were weak on defence, and a good game resulted in favor of the "Grove" boys by 12 to 11. The Toronto boys arrived on Friday evening and were hospitably entertained by Mr. and Mrs. Mackenzie at the Grove.

Steady progress is being made at the Dickson's new saw-mill, but there is a great complaint that the labor employed is greatly drawn from Peterborough and Fenelon Falls. Our local men are well skilled in this kind of work and in view of the concessions made to the company by the village they should have had the first chance. A large number of the special model "Klondike" canoes have been shipped to Victoria during the past few days from the Strickland Canoe Factory, and all hands are busy completing more.

WAR UPON PLUMED HATS

THE AUDUBON SOCIETY SETS OUT TO SAVE BIRDS' LIVES.

It is an interesting war that is being carried on this winter between the Pennsylvania Audubon Society and the millinery styles. Sometimes it seems that the styles have gained the advantage, temporarily, at least; but the society confidently declares that it is holding its own, and will come out the winner in the end. A great deal of gray-feathered millinery is being worn, it is not more than at any period for half a dozen years. The Audubon people have hopes that from the present season will date the rapid decline of the business which carries with it a wholesale destruction of wild bird life.

"I believe that the milliners themselves would be not unwilling parties to the change," said Wilmer Stone, president of the Audubon Society, in discussing the subject yesterday. "For instance, the snow-birds, which are so common in Florida, have been almost exterminated, and the ruthless hunters have transferred their operations to Mexico. The delicate little terns are all gone from the New Jersey coast, since men in the employ of New York firms made a raid on them in 1893. That year was a notable one. Almost any bird—robin, woodpecker, green heron or blue jay—it made no difference what, went into the composition of the feminine hat. These local insectivorous species and the songsters are now exempt from the persecution of the professional millinery hunters."

The Audubon Society is preparing to give the women of Philadelphia an object lesson in proper millinery this spring at the Hotel Stratford. It will consist of an exhibition of hats and trimmings, with wild birds and their plumage buried. Several of the leading milliners will furnish contributions and invitations to come and see will be scattered broadcast to the fashionable public.

Mr. Stone will give a course of five lectures on the birds of Philadelphia. According to the statements of the milliners' pheasants are more used on hats than any other birds this season. Some of them are ringed pheasants, hunted as game, but a large proportion from India, are killed only for the plumage. Parrots are in immense demand, and most of them come from Central and South America. Owls, sea gulls, birds of paradise, terns and humming birds are very fashionable, and aigrettes, taken from the little herons, hold their own at the top notch of estimation.

able public. Mr. Stone will give a course of five lectures on the birds of Philadelphia.

According to the statements of the milliners' pheasants are more used on hats than any other birds this season. Some of them are ringed pheasants, hunted as game, but a large proportion from India, are killed only for the plumage. Parrots are in immense demand, and most of them come from Central and South America. Owls, sea gulls, birds of paradise, terns and humming birds are very fashionable, and aigrettes, taken from the little herons, hold their own at the top notch of estimation.

The greater proportion of bird ornaments used in this country comes through the European market. Some idea of the enormous proportion of the business can be gained from a statement of the quantity of bird skins sold recently by a single firm of London feather brokers, at auction. The figures are: Parrot skins, 125,000; humming birds, 81,800; birds of paradise, 19,000; creepers and tanagers, 67,000; jays, 54,000; pigeons, 3,100; owls, 1,300; kingfishers, 900; impenyan pheasants, 300; trojans, 600; magpies, 500; hawks, 500; cocks of the rock and of the jungle, 500; others unnamed, 16,000. The aigrettes feathers at this sale alone comprised 218 lots, ranging from 205 ounces each down to 1. The greatest number of the aigrettes sold at this auction brought more than \$5 an ounce; many sold at \$7.50 and upward, while the highest price paid for one ounce was \$25. This price did not break the record, however, for recently at another sale a choice South American variety of aigrettes brought \$30 an ounce.

SOME OLD-TIME DON'T'S

RULES FOR THE GUIDANCE OF CHILDREN 200 YEARS AGO.

The Strand in a recent article, reprinted several pages from a little book published almost two centuries ago and entitled "The School for Manners, or Rules for Children's Behavior at Church at Home, at Table, in Company, in Discourse, at School, Abroad and among Boys." This last by the way suggests that the "rules" were destined more especially for the guidance of little girls. The brochure was printed by Tho. Cockrill, at the Three Legs and Bible against Grocers-Hall in the Poultry. The few extracts which we reprint says Truth, seem to indicate that the little folks in 17th were subjected to about the same kind of don'ting that prevails nowadays; there are one or two of the rules, however, which no nineteenth century mother would ever find it necessary to include in her list.

In coughing or sneezing make as little noise as possible.

If you cannot avoid yawning, shut thy mouth with thine hand or handkerchief before it, turning thy face aside. When thou blowest thy nose, let thy handkerchief be used, and make not a noise in so doing.

Gnaw not thy nails, pick them not, nor bite them with thy teeth. Spit not in the room, but in a corner, and rub it out with thy foot, or rather go out and do it abroad.

Lean not upon the chair of a superior, standing behind him. Spit not upon the fire, nor sit too wide with thy knees at it.

Sit not with thy legs crossed, but keep them firm and settled, and thy feet even.

Turn not thy back to any, but place thyself conveniently.

Bite not thy bread, but break it, but not with slovenly fingers, nor with the same wherewith thou takest up thy meat.

Do not eat meat in the sawyer. Take not salt with a greasy knife.

Spit not, cough not, nor blow thy nose at table if it may be avoided; but if there be necessity do it aside, and without much noise.

Lean not thy elbow on the table, or on the back of thy chair.

Stuff not thy mouth so as to fill thy cheeks, be content with smaller mouthfuls.

Blow not thy meat, but with patience wait till it be cool.

Sup not broth at the table, but eat it with a spoon.

Feed thyself with thy two fingers, and the thumb of the left hand.

Speak not at the table; if thy superiors be discoursing, meddle not with the matter.

If you want anything from the servants, call to them softly.

Grease not thy fingers or napkin, more than necessity requires.

Eat not too much, but moderately. Eat not so slowly as to make others wait for thee.

Stare not in the face of any one, especially thy superior, at the table.

Phil May, Cartoonist and Photographer

Phil May was asked why it is that one occasionally finds some of his original drawings on sale, and he replied characteristically: "That I don't know; they must be sketches which I have given to friends and have been sold by them. Terrible thought, isn't it? But that is the only explanation it reminds me of the Liberal politician I once heard of."

"What was that?" asked the interviewer, on the alert for a good story.

"Oh, it was the same sort of thing—only more so. It seems this man was an ardent Liberal—no, there is no political bias in this story! He got into correspondence with Mr. Gladstone, who gave him some of his works with his autograph on the fly leaf. Nothing remarkable about that! No, but what was the sequel? That man went and sold those autograph books and on the proceeds of the sale he went down into the country to vote against the Gladstonian candidate. Cynical part of proceeding, wasn't it?"—Bookman.

Kissing discussed

The people of Atlanta are enraptured the dull season by a hot debate on the subject of kissing. A leading society lady wrote a communication to a newspaper protesting against promiscuous public osculation. That set the ball a-rolling. When to kiss, how to kiss, and whom to kiss are now the exciting topics in Atlanta society. Of course, there is a difference of opinion, and some very warm remarks have been called out in the discussion, but the debate may now be closed with the remark of a well-known society belle, who said: "I certainly believe in discreet kissing. I do not, of course, mean that a girl should give the liberty of her lips to every man who happens along, nor should she select public places for such a performance, but osculation indulged in at the proper time and place and with a trustworthy partner is one of the sweeteners of life and prolongers of youth." Here's to the "sweetener of life" and the "prolonger of youth."—Syracuse Post.

SWEET PEAS.

A host of dainty, wing-like flowers,
A bowl of Dresden china,
Begun to-day some lovely hours
With potency far finer
Than all the roses, wondrous fair,
Which languish in their glory
In stately vase of pattern rare,
Breathing the summer's story.

A swarm of pink-hued butterflies,
You seem to pulse and hover
On your frail wings, and try to rise,
Seeking the wind, your lover.
Sweet peas! My fancy and my heart
You charm with your faint fragrance
It challenges Dame Nature's art
To match you, lovely vagrants.

HANGED THAT HE MIGHT LIVE.

Peculiar Surgical Operation Performed
in a California Hospital.

A very delicate and extremely rare surgical operation has been performed successfully at the French hospital in this city upon C. Hoffman, a young German farmer. It is not only his life has been saved, but he is on the speedy way to the recovery of health. Hoffman was employed on a farm near Knight's Ferry. During the latter part of July he fell backward off a wagon, striking the hard ground with the back of his head, and fractured the third cervical vertebra, an injury which in nearly every case proved fatal. An examination by the physicians in the country disclosed the seriousness of the injury, and they gave it as their opinion that not one in a thousand ever could survive it. The fracture prevented the moving of the injured man's head in any direction. The slightest attempt to move the head caused violent vomiting, brought on fainting spells and impeded respiration. The patient was given very little nourishment with a spoon, and had to be kept constantly in one position. His frame wasted away, and yet he lingered, suffering great agony.

On Aug. 11 he was brought to the French hospital in this city, where the physicians decided upon an operation as the only possible means of saving the life of the patient. In the presence of the hospital house staff and a number of consulting physicians the operation was performed Aug. 15. An incision was made in the neck, exposing the vertebrae, which showed the injury to the third process, the arch of which was fractured, as was a portion of the second vertebra, thus removing the obstacle to the unobstructed motion of the head. The wound was closed and an extension apparatus applied.

The patient rests on an inclined plane. The weight of the body acts as a counter extension to the weight applied to the extension apparatus which is attached to the head, and the patient is virtually suspended by the neck until he shall be restored to health. The wound has been dressed four times since the operation was performed, and the patient is doing well. At the last dressing Dr. Oscar J. Mayer, the operating surgeon, was very sanguine that his patient would soon be restored to perfect health.—San Francisco Chronicle.

A Dart That Didn't Stick.
No better and at the same time no more courteous rebuke could well be imagined than the one administered by Beaumarchais, the author of the famous "Marriage of Figaro." He was the son of a Parisian watchmaker, but had gained fame, rank and wealth through his own talents and exertions. A conceited and envious young nobleman once undertook to wound the pride of Beaumarchais by an allusion to his humble origin.

In the presence of a large company of people who had a regard for the talented young author, this young man handed him his watch, saying:

"Examine it, sir, it does not keep time well. You can doubtless ascertain the cause."

Such was his rude haste that his hand left the watch before that of the surprised Beaumarchais had grasped it, and it fell to the ground.

"Pardon, monsieur," said the author, with grave courtesy, stooping to pick up the watch and hand it to its owner:

"You see my father was right when he declared that I was too awkward to be a watchmaker."

Brought in "Pa's Prayers."

Once upon a time sickness came to the family of the pious old pastor of a country church. It was winter, and the pastor was in financial straits. A number of his flock decided to meet at his house and offer prayers for the speedy recovery of the sick one and for material blessings upon the pastor's family. One of the deacons was offering a fervent prayer for blessings upon the pastor's household there was a loud knock at the door. When the door was opened a stout farmer boy was seen wrapped up comfortably.

"What do you want, boy?" asked one of the elders.

"I've brought pa's prayers," replied the boy.

"Brought pa's prayers? What do you mean?"

"Yes, brought his prayers, an' they're cut in the wagon. Just help me an' we'll get 'em in."

Investigation disclosed the fact that "pa's prayers" consisted of potatoes, flour, bacon, cornmeal, turnips, apples, warm clothing and a lot of jokes for the sick ones. The prayer meeting adjourned in short order.—Omaha World-Herald.

Bought on Pat.
Two Irish soldiers stationed in the West Indies were accustomed to laze daily in a little bay which was generally supposed to be free from sharks. Though on good terms with each other, they were not what might be called fast friends.

One day, as they were swimming about one hundred yards from the shore, Pat observed Mick suddenly making for the land as hard as he could, without saying a word. Wondering what was the matter, Pat struck out vigorously after him, and landed at his companion's heels.

"Is there anything wrong with you?" inquired Pat, feelingly.

"Nothin'—nothin' at all," replied the other.

"Then what did ye make such a sudden retreat for, an' lave me?" continued Pat.

"Belad," answered Mick, coolly, "I noticed the fin av a big shark about twenty feet ahead, an' I thought while he was playin' wid you it would give us time to reach the shore!"

It is not to be wondered at that Pat declined to bathe with Mick any more.

A Boat Built of Cement.
Stiffened cement has been used successfully in the construction of a boat by an Italian named Gabbelli. The frame is of steel bars, a third of an inch in diameter, over which is spread a wire netting. On this the cement is laid, and the outer surface is polished. The boat is heavier than one built of wood would be, but it is cheaper and slips better through the water. Experiments have proved its strength.

Hummer's Brain.
Bismarck's brain, according to the estimate from external measurements made by Herr Ammon, an anthropologist, and the sculptor who made the Iron Chancellor's bust, probably weighed 1397 grammes, in which case it is the heaviest on record. Cuvier's brain weighed 1830 grammes, Byron's 1874, Kant's 1650, and Schiller's 1590. The average weight of the brain of an intelligent European is 1380 grammes.

ONLY ONE WORLD.

Our Earth the Only Pebble on the
Universe's Beach?

Popular Astronomy and The Hartford Courant have come to the conclusion, says The Troy Times, that there is only one earth, and such being the case it is a very desirable place of residence. An idea prevails in the common mind that our world is only one of countless similar bodies; that space is filled with solar systems not unlike our own, and that it is possible other globes are inhabited and quite as habitable, if not more so, than the one in which we dwell. Popular Astronomy says: "Although our solar system is only one among thousands of systems now known to exist in every part of the heavens, among all these other systems there is not yet disclosed a single one which closely resembles our own."

This is not a positive assertion that ours is the only world in which human beings live and move and have their being, but it leads up to the belief, and this is sustained by much argument dealing with astronomical calculations, which may be omitted here. It seems to be convincing to The Courant, for that paper takes up the discussion, and, after considering some other points, sums up the case as follows:

"Not only is our earth unique in its favorable position in our system, but our system, as far as is known, is unique in the universe of systems. We rarely think of how narrow a margin we live. A little more heat or a little more cold, and we die. Our existence depends on keeping changes of temperature within a range of about 1 per cent. of what we know as possible extremes. If the moon were very much larger the tidal wave would carry the entire ocean twice a day over the surface of the earth. If the earth were much smaller we would lose our atmosphere; if it were much larger we could not stand upright more than five minutes or we would be able to mount a hill except by painful crawling. If the year were twice as long as it is it is doubtful if we could rise food enough in the summer to carry us through the winter or if we could survive the accumulated cold. In every way our earth lies just at the meeting point of two kinds of death which 'in this bank and shoal of time' we must fight with either hand. It makes no difference whether we are fitted ourselves to the earth, or whether a long series of evolution or whether it was fitted to us; as far as we know it is the only inhabitable spot in the universe, and the chances are almost infinite that no other is so favorably located. Let us make the most we can of it."

Toes, Claws, Fingers.

The elephant, a slow-moving animal in the ordinary course, has already observed five toes. The rhinoceros, a much faster beast, as hunters have often learned to their confusion, has but three. Now in the sheep we find two digits only, while in the horse, peacocks in the matter of pace, the number falls to a single digit. The nail of the higher mammal may have given place to a horny hoof; no matter, at the finger remains, for purposes, at any rate, of comparison, a finger all the same. Be it added that many extinct hoofed creatures are endowed with the full five digits, and not a few existing deer show distinct traces of two obsolete shorter "fingers." Even this I gather—though the theory may not quite unreasonably be dismissed as far-fetched—that these weaker grass-eaters have gradually dropped their digits as the struggle grew in severity and the necessity for swiftness of limb increased.

Nor, I am free to confess, did the apparent truth of this appeal to me in force until I came to compare the foot of the swift ostrich with that of the stately stork. It was as I expected, the foot of the stork had dropped two of the four fingers permitted to most birds, having but two. The almost equally swift emu and cassowary had dropped one, being possessed of three apiece. This, then, seems to me a fair rule: the fewer the digits the swifter the beast. And the rule bears the stamp of the exception necessary to prove it, inasmuch as the sluggish hippopotamus has one less than the hare! Perhaps, then, this notion of mine will apply only to the hoofed beasts. Whether the elephant might in time have dropped one or two of his digits, and at the same time dieted himself, to acquire greater pace, is an open question, and one which since the revival on the scene of man and his rifle, is likely to go unanswered. These last have been powerful factors in putting a term to the development of many an interesting zoological problem.—Good Words.

EMISSIONS

Varicose, Syphilis, Weakness
and Diseased Men Cured.

20 Years in Mass. 40 Years Experience

250,000 CURED.

Thousands of young men are made nervous wrecks, and for years are made pleasure or home driven by evil habits in youth, later excess, or private diseases. W. L. Kennedy and Kegan, O. says: "I read this paper and have seen many reports of remarkable cures made by Dr. Kennedy and Kegan. I decided to treat with them. Indiscretion was the cause of my trouble. I was weak and nervous; no ambition; back weak; pimples on the face; thin and haggard; eyes sunken and cheeks hollow; dreams and drains at night; dizzy; poor; varicose and weak parts; irritable; sinking spells; spoke before the eyes; lack of confidence; no energy; and many other complaints. I had tried fourteen doctors, bought four electric belts took scores of bottles of patent medicines—all failed. I tried the New Method Treatment of Dr. Kennedy and Kegan, and it cured me. I am strong and healthy. I have gained twenty-six pounds and am strong mentally, physically and sexually. It is a wonderful treatment."

Blood Diseases—with the worst symptoms: Ulcers in the mouth or on the tongue; blotches, eruptions, hair falling out, nose pains, eyes red, stomach troubles, sore throat, etc., positively cured forever. You dare not marry until cured. Cures guaranteed or no pay.

We cure Syphilis, Nervous Debility, Varicose, Pimples, Rash, Stricture, Gleet, Urinary Discharges, Weak Parts, Bladder and Kidney Diseases.

Consultation Free. Send for Question Blank for Home Treatment. Everything confidential. Nothing sent C. O. D.

READ WHAT PHYSICIANS SAY OF

POND'S EXTRACT

PHILADELPHIA, Dec. 29, 1894.
I have used "Pond's Extract" for many years and always insist upon my patients getting "Pond's," not the ordinary Extract, which is often a very poor article. W. K. BROWN, M. D.

PHILADELPHIA, Jan. 9, 1895.
I use Pond's Extract a great deal in my practice. I think it very valuable in all venous enlargements. J. L. BRADFORD, M. D.

SANTA BARBARA, CAL., Nov. 27, 1894.
I have been using Pond's Extract in my practice for twenty years. I frequently have the experience you mention of druggists insisting they can put up as good as yours. I don't believe it. I use Pond's Extract a great deal as an antiseptic in combination with glycerine and carbolic acid. I think it far superior to any antiseptic known. F. G. FLOUNOV, M. D.

COLUMBIA, PA., Jan. 18, 1895.
I have been a constant user of Pond's Extract since 1852, and do not expect to discontinue it while I live. S. ARMOR, M. D.

CHELSEA, MASS., Nov. 8, 1894.
I have made diseases of the skin a specialty for thirty years, and am free to say I know of no remedy that has given me such perfect satisfaction as Pond's Extract in cases for which it is recommended. G. W. BABCOCK, M. D.

ASTHMA'S INSTITUTE, Buffalo, N. Y., Dec. 8, 1894.
I know Pond's Extract to be a valuable remedy, and shall continue its use whenever the opportunity offers. GEO. H. CALKINS, M. D.

NEWARK, N. J., Dec. 13, 1894.
I am pleased with the purity and strength of Pond's Extract. J. L. DUYVE, M. D.

POND'S EXTRACT is used by the leading physicians and principal hospitals of America and Europe.

Wanted
An experienced general servant wanted. Apply at once at 520 Water Street.

A Pious Social
A Pious Social and "At Home" was held by the Girls' Guild of All Saints' church in the Sunday School room yesterday evening. There was a large attendance and everybody seemed to enjoy themselves immensely. It was a celebration of the old-time feast of Shrove Tuesday. During the evening an informal program of vocal and instrumental music, recitations and dialogues was carried out. Games and other amusements were also provided to increase the enjoyment.

How to Cure All Skin Diseases
Simply apply "Swaine's Ointment." The internal medicine required. Cures scurf, eczema, itch, all eruptions on the face, hands, arms, etc., leaving the skin clear, white and healthy. Its great healing and curative powers are possessed by no other remedy. Ask your druggist for Swaine's Ointment. Lyman, Sons & Co., Montreal, wholesale agents. Avoid substitutes.

BEAVERS MADE THE FENS

THE CHARACTER OF PART OF ENGLAND ALTERED BY ANIMALS

Professor Woodward, of the British Museum, has been lecturing on the Fen district folks upon the formation of that part of the country, says the Westminster Gazette. He considers that the beaver was the great factor in fixing the character of the eastern counties. The borders of the fens were once covered with forest, and the beaver was one of the most plentiful animals in the district. By means of its dams the local streams were diverted from their proper channels, and the water flowed over the country at random. Ultimately these valleys produced by moors, forming what are now the fen lands.

DISTRICT AND LOCAL TOPICS

Reporter's Phone, 164 B.

—Mr. Garvin will address a meeting at Young's Point to-night.
—Pills vs. Putty hokey match at the rink to-morrow night between seven and eight.

—The Peterborough Colts and the Norwood High School will play a hockey match at the rink to-night.

—Mr. John Hayes has been awarded the contract for the stone-work of the abutment piers of the new bridge at Lakefield.

—Rev. Dr. Potts, General Secretary of Education, will deliver an address at the session of the Epworth League convention in the George street church to-night.

—A pleasant "at home" was held by the Ladies' Aid Society of St. Peter's cathedral in the Catholic Association rooms last evening. Games, music and refreshments were the features. There was a good attendance.

—Mr. Gilbert Pakenham, employed as line man of the Electric Light & Power Co., met with a serious accident yesterday afternoon. He was adjusting a transformer on the roof of Mr. E. H. D. Hall's residence when he fell to the ground and sustained serious injuries to one of his limbs that amputation will be necessary.

THE VISITING FORESTERS

Celebration in Honor of the Delegates of the Convention

Their hearty reception in town. Address of Welcome Read at the Court House—Complimentary Concert in the Opera House in the Evening

The nineteenth annual convention of the Canadian Order of Foresters commenced yesterday afternoon in the Court House. Delegates are present from all parts of Canada, even Manitoba and the North-West being represented. The number of visitors gives the streets an unusually active appearance, men wearing the Foresters' badge being met everywhere. The delegates have been presented with the freedom of the town, and all our citizens hope that the visitors will enjoy themselves well while here, and that they will carry away some kind remembrance of Peterborough. They are a fine and intelligent looking body of men, good specimens of Canadian manhood, and are all jolly good fellows as well.

The High Court officers were driven around town yesterday morning and shown the public buildings, manufacturing, and other points of interest. They all expressed themselves as favorably impressed with the evidence of Peterborough's progress. At the afternoon session the visitors were formally received and presented with three addresses of welcome, one on behalf of the local courts, signed by J. Hardwick, O.R. for Court Peterborough; R. Morrison, O.R. for Court Little John; John Smith, C.R. Court Forest Queen; and T. Drew, C.R. for Court Langton. The address presented by the town council was read by Mayor Davis, while Messrs. J. H. Burnham, P. Campbell, W. H. Manson and H. S. MacDonald were a delegation to present the address from the Board of Trade. H. Gunmer, High Chief Ranger, replied in fitting terms, thanking all for their kind reception.

The complimentary concert tendered to the visiting delegates in the Opera House in the evening was a grand success. The seating capacity of the hall was taxed to the utmost. The program was an excellent one. Mr. Fox and Miss Alexander were well known artists, and are always sure of a good reception in Peterborough. Mr. Fox kept the audience laughing by his comic rendition of his pieces. Miss Alexander was loudly applauded, her description of Jubilee Day in London being enthusiastically received. Her imitation of the Scotch accent is perfect. (Miss Alexander's solo was sweetly sung. Dr. Stanley's address was delivered in true witty style. It seemed all too short. Mr. Jas. Kennedy, M. P., acted as chairman. The program was as follows:

Address—Bro. H. Gunmer, H.C.R.
Recitation—"Will ye no let me aff"—Jessie Alexander.
Comic Song—"Naething at a"—Geo. E. Fox.
Recitation—"Henry V's Address to his Soldiers"—Jessie Alexander.
Song—"Down the Burn, Davis"—Miss Hendren.
Comic Song—"Hold your head up like a man"—Geo. E. Fox.
Monumental "Dust"—Morning, Noon and Night—The Misses Hurley.
Address—Bro. U. M. Stanley, M.D.
Comic Song—"Christopher Columbus"—Geo. E. Fox.
Recitation—"The Good Little Girl; The Bad Little Girl"—Jessie Alexander.
Solo—"The Fall of the Daughter of Islington"—Miss Hendren.
Comic Song—"Curious Cures"—Geo. E. Fox.
Recitation—Selected—Jessie Alexander.

Accompanist—Bro. J. Crane.
After the concert a pleasant hop was indulged in and many of those present spent a while tripping the fantastic. Mr. W. McCallum served refreshments in first-class style. The Misses Hurley supplied the music. The dance brought a most enjoyable evening to a close.

Piles! Piles! Itching Piles
Symptoms—Moisture intense itching and stinging; most at night; worse by scratching. If allowed to continue tumors form, which often bleed and ulcerate and become very sore. Swaine's Ointment stops the itching and bleeding, heals ulceration, and in most cases removes the tumors. All druggists, or by mail, for 50 cents. Dr. Swaine & Co., Philadelphia, Lyman, Sons & Co., Montreal, wholesale agents.

The St. Mark's
McQuay, Baple & Co's bread is pronounced to be first-class. Only 10c. for a large loaf.
Fresh and cheap
Fresh marmalade oranges; cheap. J. B. Oke.

Hood's Pills set easily, promptly and effectively. 25 cents.

OFFICIAL NOMINATIONS

Candidates Formally Nominated for East and West Peterborough

At noon yesterday at the Court House Sheriff Hall received the nominations of candidates for the provincial legislature for the riding of West Peterborough. About one hundred electors were present, to watch the proceedings. Only the two named were presented. Neither of the candidates made a speech, each contenting himself with thanking his mover and seconder, and expressing his hope of being elected.

Mr. Jas. R. Stratton, of the town of Peterborough, being nominated, was seconded by Mr. Peter Hamilton, seconded by Mr. Augustus J. Gough.

Mr. John W. Garvin, of the town of Peterborough, insurance manager, nominated by Mr. H. C. Winch, seconded by Mr. John Lynch, and Mr. Garvin appointed Mr. John Gilchrist, commercial traveller, as his agent, and Mr. Stratton appointed Mr. G. M. Roger, barrister.

EAST PETERBOROUGH

Great interest was taken in the nominations in the East riding. The hall at Norwood was crowded, and great enthusiasm was manifested. The nominations were:

Dr. Ford, nominated by F. Birdall, seconded by D. J. Young.
T. Bleazard, nominated by H. G. Buck, seconded by John Brown.

John Welsh, nominated by Walter Scott, seconded by Laurence Longman. It is understood that Mr. Welsh will retire and the fight will be left to Dr. Ford and Mr. Bleazard.

EPWORTH LEAGUE CONVENTION

Open in the George Street Church Today—Many Delegates

This morning the annual convention of the Bay of Quinte conference of the Epworth League will begin in the George street church. The sessions will continue to-day and to-morrow, and many interesting topics will be discussed. Over one hundred delegates are expected to be present. This morning at nine o'clock a meeting of the executive will be held. The afternoon session will be devoted to the Christian Endeavor department. It will begin at two o'clock with a praise service, to be followed by a Bible reading by Rev. D. S. Houck, of Bridgeport, after which there will be a prayer service. Addresses and the reading of papers on various interesting subjects by some of the delegates will complete the afternoon session. In the evening the session will be devoted to the literary department, the services beginning at 7.30. Mayor Davis will welcome the delegates. Music will be supplied by Miss Hendren and the Rines brothers. Rev. Dr. Carman, General Superintendent, will deliver an address and the church no doubt will be filled at this session.

THE BIGGEST MEETING YET

The gathering to hear Mr. Garvin at Bridgeport to-day

Mr. Garvin is conducting a vigorous and successful campaign in the country this week and is meeting with good receptions. He addressed the electors of Bridgeport and Smith in Bridgeport north Monday night, and, despite the blizzard which raged, the gathering was the largest that ever assembled in the hall in that village, over two hundred electors being present to hear the Conservative candidate.

Mr. Garvin was in good voice and made a long and exhaustive address, which was listened to most attentively by the large audience. Mr. Garvin's points were well received and it was evident that he made a deep impression on his hearers. Interesting addresses were also given by Mr. R. M. Dennistoun and Mr. John Gilchrist, all the campaign issues being fully presented to the electors. The meeting closed with cheers for the Queen and Mr. Garvin. The candidate is highly gratified with the results of the different meetings he has held.

Mr. Albert Scott acted as chairman at the Bridgeport meeting and predicted the return of Mr. Garvin.

A SAD DEATH

Death in Toronto of Mrs. Price, nee Miss Al

Yesterday morning Mrs. W. J. Price, daughter of Mr. J. J. Turner, passed away at the Western hospital, Toronto, after an illness of some weeks' duration.

The deceased was the only daughter of Mr. J. J. Turner. She was well known in Peterborough as it was here she spent her girlhood, leaving town after her marriage to Mr. Price a couple of years ago. She was only twenty years old, and her death is sorely felt by the family.

The remains were brought to town last night for interment.

THE EVENING SESSION

Epworth League Convention at the
George Street Church

Address of Welcome by the Town—An Elo-
quent Address by Rev. Dr. Potts—An Inter-
esting and Instructive Evening at the Geo.
St. Church.

The George street church was crowd-
ed last night by Epworth Leaguers
and their friends to listen to the pro-
gram of the evening session. Over one
hundred and fifty delegates were pre-
sent from all parts of the Quinte dis-
trict to take part in the proceedings.
Rev. D. O. Crossley presided and in
opening said a few words in praise of
the work carried on by the Epworth
League societies. An address of wel-
come to the delegates was then read by
Mr. S. R. Armstrong, town clerk, he
taking the place of Mayor Davis who
was prevented by illness from being pre-
sent. Rev. A. T. Dykeman, Honorary
President, delivered a short address
welcoming the delegates on behalf of
the local societies of the young people.
He expressed his appreciation of the
work done by these societies in influen-
cing for good the characters of the
young people who are to be the
young men and women of the country,
and in saving souls for Christ.

Rev. P. M. Campbell, of Campbell-
ford returned the thanks of the dele-
gates for the kind reception accorded
them in this "city of towers and
towers and tall chimneys, and parks
and homes." He told of the high re-
putation Peterborough enjoyed through-
out the province, and reciprocated the
hearty greeting accorded the delegates.
After a duet by the Rines Bros.
Mr. Fred McDiarmid read a paper on
"The Bearing of Mental Culture on Spi-
ritual Growth and the Converse." He
thought that mental culture and spiri-
tual development did not necessarily
exist together, but that they were in
many ways intimately connected, and
that a combination of the two was the
true source of national and individual
success. His paper showed deep thought
and scholarly touch and finish.

Miss Hamilton sang a solo in good
voice, after which Rev. Dr. Potts
delivered the evening address, the ad-
dress for the league, taking as his
subject "The Epworth League for
Christ and the Church." He rejoiced
with the delegates and the people of
Peterborough in the success of the con-
vention, and then taking up his title
he said that by the church he meant
the Methodist church. He described
Methodism as a child of Providence.
The hand of Providence could be seen
in its origin under John Wesley and
could be traced right up to the present
day. It was inflexible in its principles,
but flexible in its methods, and he
believed that the Epworth League
was one of the greatest religious move-
ments of the nineteenth century. He
described the Epworth League as
the Christian Endeavor societies should
unite together in the kindest feelings.
He thought they should go hand in
hand in winning this North American
continent for Christ and the church.
The elders and ministers of the church
should take pride in the young soci-
eties and extend full sympathy to them,
in return for the sympathy and re-
spect extended to the church by the
Epworth Leaguers.

He thought that great advantages
should result from the social advan-
tages of the members. Intellectual ad-
vantages of greater and literary ad-
vantages should result from the work of the
society. The Epworth League and
Christian Endeavor societies should be
united and out for Christ and church.
He thought that the young people feared
that they could not give themselves
to God, but the Gospel teaches that
God will give the supreme love and in-
spiration necessary to follow him sin-
cerely.

The Epworth League should be for
Christ alone, and the true way to gain
this and to consecrate their hearts to
God, and pray that the love of God
would fill their spirit. The speaker
believed in constant prayer to make
men nobler and better. "More things
are wrought by the prayer than by the
world's efforts." Lord Alfred Ten-
nyson said that he believed there never
was a truly earnest worshipful prayer
sent up to heaven that was not an-
swered by God. The bond of Christ-
ian fellowship is not an ecclesiastical one;
it should extend to all classes and to
all men, and the spiritual feeling should unite
them without regard to methods.

The testimonies of Christianity as
expressed at the meetings were a means
of bringing all the people together in
the bond of Christ's fellowship. No
matter what the feeling was that
first inspired them for good, the spir-
it of love of Christ was a bond which
would unite them in Christian fellow-
ship.

In the Epworth League there was
definite work for the members to do.
The speaker gave the names of John
Wanamaker, D. L. Moody and many
other prominent church workers to
show the good results of their efforts
due greatly to the methods they had
pioneered.

Dr. Potts paid an eloquent tribute
to the late Frances Willard, "the un-
crowned queen" who had sacrificed
herself for the elevation of the world.
He believed that it would not be long
before the efforts of the great leaders
would bear fruit, and that this North
American continent would be a tempo-
rary one, and his statement that
there was no place in the world where
the prohibition idea could be proved
wrong, brought forth the hearty applause of his
audience.

Methodist church. They should belong
to her for life, for better or worse, and
they would find it all "better." They
should love her as their mother and al-
ways cherish feelings of regard and ad-
miration for her.
Interesting programs have been pro-
vided for to-day's sessions. Election of
officers will take place this afternoon.
The convention will close to-night.

NO LONGER A COLONY

CANADA NOW JUNIOR PARTNER
IN THE FIRM OF JOHN HULL &
CO., SAYS PRINCIPAL GRANT.

(Special to the Times.)

cipal Grant, at a dinner of Queen's Uni-
versity Engineering Society, last
night, responded to the toast, "The
Dominion," and spoke of its develop-
ment since Confederation.
The preferential duties for Britain
and the stand of Britain in upholding
the Canadian view on the Behring Sea
question, were steps equal in every
way to Confederation. Closer rela-
tions with Britain should be the desire
of every British subject.
He rejoiced that Canada was no
longer a colony, but a junior partner
in the firm of John Hull & Co.

MGR. CLEARY SINKING

HE MAY, HOWEVER, LIVE FOR
SEVERAL DAYS—THE POPE SEND
HIS BENEDICTIONS.

(Special to the Times.)
KINGSTON, Feb. 23.—
Archbishop Cleary passed a very
bad night and is in a very weak con-
dition. His physician says with him
much of the time. He suffered great-
ly from nausea.
He is gradually sinking, but may
live several days yet. He suffers from
no particular disease, but his constitu-
tion is breaking up. He is quite con-
scious.
The Archbishop of Toronto, while
here administered to him the last sac-
raments of the Church. The Pope
has cabled his benediction.

COMING TO CANADA

A RUSSIAN VICE-ADMIRAL WANTS
TO LEARN SOMETHING FROM US

(Special to the Times.)
St. Petersburg, Feb. 23.—Vice-
Admiral Mikorow left St. Petersburg
to-day for England on his way to Can-
ada, where he proposes to pass some
time on board ice-breaking boats, in
order to gather in the latest
"wrinkles" for use in the Czar's froze-
r-harbors.
He will probably cross to Prince Ed-
ward Island on the Stanley, which
piles in winter between Pictou and
Summerside, and also make a trip be-
hind on the St. Bruce, owned by Mr.
H. G. Reid, of Montreal. These two
steamers are the most efficient ice-
crushers in Canada.

CARRY WILL RECOVER

HE HAS A WOUND LIKE THAT
WHICH KILLED GARFIELD BUT
IT WILL NOT PROVE FATAL.

(Special to the Times.)
Kingston, Ont., Feb. 23.—William
Carry, the convict recently shot by a
guard while trying to secure liberty,
will recover. The wound is healing
nicely, his strength keeps up, and he
eats well. The bullet is in the back
part of the abdomen. The wound made
is almost identical to that from which
President Garfield died.

A FOOL IN CONGRESS

WANTS TO KNOW IF THE BRIDGES
AT NIAGARA FALLS OBSTRUCT
NAVIGATION AND ARE LEGAL.

(Special to the Times.)
Washington, Feb. 23.—Representa-
tive Bennett of New York has in-
troduced a joint resolution, directing
the Secretary of War to report to
Congress on the obstructions, if any, to
navigation on Niagara River on New
York side, and whether the interna-
tional bridge over that river is a law-
ful structure and legally maintained,
and whether it is an obstruction to
navigation.

BUY CUBA AT ANY PRICE
WHATSOEVER.

Madrid, Feb. 22.—As the question of
the purchase of Cuba is again being
pushed in Washington, it may be of
use to state, on the highest authority,
that Spain will never, no matter
what Government is in power, con-
sider any such suggestion, or any
compromise, in Cuba, beyond the broad
measure of autonomy drafted by this
Liberal Government. This is an ab-
solute irrevocable decision. People
who suggest anything else are only
wasting time and arousing unfounded
hopes.

A NERVOUS WOMAN

"I was completely run down and had
a bad cough due to bronchitis. I was
very nervous, but since taking Hood's
Sarsaparilla I have more appetite and
feel a great deal better. I have also
used Hood's Pills and find them very
excellent." Mrs. M. Garland, 675 Crawford
street, Toronto, Ont.

HOOD'S PILLS ARE EASY TO TAKE,

easy to operate. Cure indigestion,
headache.

If you want anything from the ser-
vants call to them softly.
Grease not thy fingers or napkin,
more than necessity requires.
Eat not too much, but moderately.
Eat not so slow as to make others
wait for thee.
Stare not in the face of any one,
especially thy superior, at the table.

AROUSING SUSPICION

New York Papers Promoting
The War Feeling

BLAME THE SPANIARDS

Not the Government but Suspect the
Fanatics

New York Journals Trying to Figure Out
That Spanish Fanaticism is Blowing up the Maine
Warship—A Story About Two Explosions

New York, Feb. 23.—A despatch to
the World from Havana says: The
situation in Havana is more grave
than it was a week ago. Although
the officers of the naval board of in-
quiry preserve an impenetrable re-
serve, it is learned that some of the
best naval experts now believe that
the explosion was the result of treach-
ery.

They do not believe that Spanish of-
ficials were part of the conspiracy.
From evidence now in their possession
they believe the Spanish Government,
General Blanco and all his military
subordinates were guiltless alike of
the knowledge of or participating in
the crime. It is believed to have been
set off by a fanatic.

STATUES LEAVING HAVANA.

Consul General Lee has formally
advised "Americans" not necessarily
detained here to leave for home at
once. Many families will sell the
Olivette to-morrow. This is an indi-
cation that those on the ground real-
ize the possibility of trouble arising
suddenly, and their inability to pro-
tect women and children if an out-
break occurs.

TWO EXPLOSIONS

ANOTHER PAPER TRYING TO FIG-
URE OUT THAT IT WAS NOT AN
ACCIDENT.

New York, Feb. 23.—A despatch to
the Herald from Havana says: The
further inquiry into the causes
that led to the Maine disaster proceeds,
the more remote appear the chances
that any evidence will be discovered
to show that the disaster was due to
accident.

These divers who penetrated into the
forward part of the wreck found that
the whole forward end of the ship,
from a point just aft of the forward
turret, had been twisted fifteen or
twenty degrees to starboard. That
part of the vessel was a wilderness of
debris and curved and twisted plates.
The sharp, jagged edges of some of
the plates added danger to the diffi-
culties of the divers, getting life lines
into a tangle and fraying the cords.
In one instance they almost cut
through a rubber tube which supplied
a diver with air.

100 BODIES FOUND.

One important discovery made was
the position of the bodies in the
wreck, one hundred of which were
floating about the torn compartments.
A full score of these were examined
by my informant. All of these bodies
were in hammocks, and all had the
arms curved upward. They looked as
if they had been startled by some
sudden shock of danger, and were in
the act of reaching up

PETERBOROUGH, FEBRUARY 24, 1898

COLONIZATION ROADS

Mr. Stratton in proving the purity of his colonization road systems put up the convincing defense that Mr. Garvin makes different statements in different parts of the riding, as to his own policy in regard to the matter, thus showing that he has no policy at all. Like the comparative publicity of the two candidates, which Mr. Stratton always assumes to be an injury to the Conservative cause, Mr. Garvin might retort that it is better to have no policy in the matter than to have a notoriously bad one, that is, bad for the tax-payers, the roads the poor Terry voter in the north and perhaps it may turn out to be a very bad one for Mr. Stratton himself in this election.

But Mr. Garvin has a policy, the same policy as Mr. Whitney will carry out if the province gives him the call next Tuesday. Their idea is simply to give the money into the hands of the municipal treasurer, each municipality to get its proper share, and the money to be spent under the supervision of the local authorities elected by the people, and not, as is now done, by a commissioner appointed by the Government. In this way it is hoped that the roads will be constructed with a view to permanence and utility for public service and not, as is now done, with a view to giving object lessons in corruption, in which it is illustrated how voters will sacrifice their principles for the benefits of their pockets, or, what is more excusable, to be allowed a means of supporting their families.

JUBILEE YEAR RECORD

Jubilee year, 1897, was a record breaker in many ways. Among the many it was a most successful year for the Independent Order of Foresters, whose annual statement we publish in another column. Any year which does not show a substantial growth in the membership and in the Reserve Fund would be regarded by the members of the I. O. F. as a year wasted. 1897 has been a banner year for the order, no less than 37,457 applications for admission having been received, the total membership for Canada, the United States and Great Britain standing at the end of the year at the large figures of 124,685, with a total insurance of \$154,510,000. The amount of the business done by the Order in 1897 in comparison with that of a couple of reliable insurance companies shows the high favor the I. O. F. is receiving. It is a great institution and is growing year by year wherever the English tongue is spoken. Everybody should read the report of the Supreme Chief Ranger, as it gives, in an interesting manner, information valuable to all.

"The people's Jimmy" would be suitable if the people were J. R. Stratton.

We don't know that a change just now would do West Peterborough any particular harm.

Make no mistake about this. Stratton does not stand for Peterborough at all. He stands for Stratton.

Mr. Garvin may have won a gold medal for political economy, but there was no M.P.P. stamped on it.

If Mr. Garvin has to do as much apologizing as the Examiner says, he will look more apologetic than ever.

A Klondiker can now get from Montreal to the Pacific coast for \$30. When at the Pacific coast he can get stuck there.

J. R. Stratton is posing as a champion of a certain class. What a joke! The Great Stratton will see that they are not hurt.

A change is sometimes a good thing. We think that a change just now would do even our friend Jim Stratton good.

All reformers do not think that Mr. Garvin is a "nobody from nowhere," but a great many of them think he is a nobody from Simcoe.

Mr. Garvin made a good move in getting the Opera House here for the last two nights before election, but it is only a short step toward that victory of his.

Never in West Peterborough were there stronger evidences of the triumphant success of the Government candidate, Mr. Stratton. — Examiner. Mr. Examiner, "Buster and brag don't count."

Brantford has a voter who went to register the other day. He was asked if he was of age. He replied that he was 104 years old. It may be explained that he was asked his age merely by way of joke.

The Examiner got up a little fake about Mr. Hardy's religion, and used it to make a bid for the support of the Roman Catholic voters. It was about the silliest little piece of business that has come up in this election. Everybody is on to it.

The Examiner says that brag does not count and then follows it up in the very next paragraph with the modest little statement that "Mr. Hardy and his Government are practically represented now in West Peterborough — for the success of Mr. Stratton is certain."

The Countess Marie De La Conception De La Contessy Clark De Gobel y Fernandez has succeeded in getting a divorce from Juan O. Gobel y Fernandez. All this happened in Fargo, N.D., and the Dakota divorce courts are entitled to a month's vacation, for this was no ordinary job.

The Examiner is trying to kick up a stir just now for the Hardy Government by representing Mr. Hardy as the strong champion of equal religious rights. It's all right but there is no occasion to get excited. There is no right requiring the little chaplainship of Mr. Stratton on the Examiner in the least.

It is silly to tell the people that the prospects for the return of Mr. Stratton, the Government candidate in West Peterborough, were never so bright. The people can judge for themselves. A look at the Examiner of the last two evenings will show that Mr. Stratton's election is, well, not assured.

Personal sympathy for a candidate should not count for much in an election, especially in a parliamentary election. You may think a lot of a candidate but just stop to consider whether the candidate cares for you and the riding and the province or whether he cares for himself and his own position in party and in public sight. Judge by what you conceive to be the best interests of the province.

I. O. F.

ANNUAL STATEMENT

THE GREAT WORK DONE

1897 A Record Breaker

To the Executive Council:
Brethren—Twelve months ago we were congratulating each other and the officers and members of the Order upon the phenomenal achievements of the I. O. F. during the year 1896; and it was generally conceded that we had abundant reasons for such congratulations, for the record was in every respect in advance of that of any of the past years, however successful some of these years have been. With so marked a success standing to the credit of the I. O. F. for 1896 the officers and members generally would have been entitled to congratulate themselves that they made the record of 1897 only the equal of 1896. But that would not have been in accord with the I. O. F. idea. The spirit of jubilee abroad in the world in 1897, due to the benign reign of one of the wisest and best sovereigns that ever graced a throne, seems to have been upon every loyal Independent Forester, and right manfully have the rank and file of the Order, together with the officers of every degree, backed up the efforts of the Executive Council to extend the beneficent work of the Independent Order of Foresters, and the result is that if we take a retrospective view of the year just closed we shall find 1897 to have been a veritable jubilee year for the I. O. F., and the work accomplished surpasses the expectations of even the most sanguine, and of which we may all feel justly proud, thus demonstrating anew that "nothing is impossible for the I. O. F."

Beginning first with the membership results it will be gratifying for you to learn that during the year 1897 no less than 37,457 persons made application to the I. O. F. for membership or for increased benefits, and that these applications involved no less than \$4,900,000 of insurance. In the exercise of that wise discretion, to which the Order is so greatly indebted for its favorable death-rate, the Supreme Physician accepted only 33,523 of the applicants, for \$39,521,500, and rejected 3,929. Of those whose applications were accepted 30,137, representing \$35,224,500 of insurance, were new members. Adding these to the 102,838 on the roll at the beginning of the year, and deducting 632 losses by death and 7,653 by lapses, the membership was increased on the 31st of December, 1897, to 124,685, carrying \$154,510,000 of insurance, being a net gain during 1897 of 21,847 members, and of \$25,819,000 in the amount of insurance carried. The increase in the new membership during 1897, as compared with 1896 was 4,013 or 24.92 per cent; the increase in the new insurance taken during 1897 was \$6,360,500, or 22.05 per cent. It will, therefore, be seen that the percentage of gain during the year 1897, in respect of the membership and of the insurance taken, has been of an exceptionally satisfactory character. In this connection it may not be amiss to add the gratifying statement that the average age of the membership, which stood at 35.49 on the 31st of December, 1896, was reduced to 35.40 on the 31st of December, 1897, thus proving that the I. O. F. is younger today than it was a year ago. The death-rate continues most satisfactory for the year only 5.56 per thousand. These figures may be strictly justified by claims from the distant jurisdictions which have not yet had time to reach the head office. The following tabulated statement of the membership and insurance will show at a glance the result of our year's work:

| TABLE NO. 1. | | |
|---------------------------------|---------|--------------|
| Location. | Members | Insurance. |
| Canada | 10,107 | \$10,965,000 |
| United States | 19,180 | 23,262,000 |
| Great Britain and Ireland | 4,800 | 997,500 |
| Totals | 30,137 | \$35,224,500 |
| Increases | 4,013 | 6,360,500 |

| The Total Membership | | |
|---------------------------------|---------|---------------|
| Location. | Members | Insurance. |
| Canada | 87,660 | \$68,750,000 |
| United States | 83,265 | 81,130,000 |
| Great Britain and Ireland | 3,760 | 4,300,000 |
| Totals | 124,685 | \$154,510,000 |
| Increases | 21,847 | 25,819,000 |

The number of new Courts instituted during the year 1897 was 498, or an average of over 30 per month. The results of the year's operations in the financial department are equally gratifying. On the 31st of December, 1896, the surplus funds of the Order amounted to \$2,915,443.98; on the 31st of December, 1897, the figures were \$2,558,842.78; thus the increase for the year was \$343,519.40, being at the rate of 23.95 per cent. The mortuary premiums collected during the year 1897 amounted to nearly a million and a half of dollars, the exact figures being \$1,462,277.71. This was \$351,475.92 more than was received from the same source during 1896. The mortuary benefits paid during 1897 amounted to \$617,847.95; the total and permanent disability benefits to \$48,500, and the old age benefits to \$2,000. The aggregate of these payments was \$668,347.95, as against \$713,507.70 paid during 1896, the increase being \$11,640.19. While these figures standing by themselves are exceedingly gratifying, they are rendered even more so when we turn to the account for management expenses of the insurance department of the Order and find that it was only \$171,219.85 for 1897, as compared with \$164,251.35 for 1896, the rate of increase being only 4.24 per cent, while the increase in the benefits paid amounted to 21.28 per cent. The payments of the above-mentioned benefits absorbed 59.02 per cent of the gross mortuary premium receipts, while \$73,111.89 of the premium receipts (being 5 per cent) were devoted to the payment of management expenses, the balance of the expenses being derived from general fund revenue and the profits on supplies sold. The amount expended in management expenses, which of course includes the care of the old business, to each new member secured in the mortuary department was only

\$6.68, as against \$6.61 in 1896. It will thus be seen that while in several important particulars the ratio of income and new business secured show satisfactory increases there is an equally gratifying reduction in the ratio of the cost at which the operations of the order are being carried on.

The following table No. 2 will show the sources of the premium receipts for 1897 and the purposes to which they have been applied:—

| TABLE NO. 2. | | |
|---------------------------------|-------------------|----------------------|
| The Premiums Received. | | |
| Location. | Mortuary Sick and | Department. Funeral. |
| Canada | \$607,353.66 | \$114,878.62 |
| United States | 742,017.56 | 39,635.21 |
| Great Britain and Ireland | 52,866.49 | 267.23 |
| Totals | \$1,402,237.71 | \$154,881.06 |

| The Benefits Paid. | | |
|---------------------------------|-------------------|----------------------|
| Location. | Mortuary Sick and | Department. Funeral. |
| Canada | \$473,918.31 | \$98,227.62 |
| United States | 375,094.15 | 30,710.43 |
| Great Britain and Ireland | 14,135.49 | 139.60 |
| Totals | \$863,147.95 | \$129,077.65 |

| Premiums Appropriated Towards Paying Management Expenses. | | |
|---|-------------------|----------------------|
| Location. | Mortuary Sick and | Department. Funeral. |
| Canada | \$393,367.65 | \$5,743.92 |
| United States | 37,160.92 | 1,991.76 |
| Great Britain and Ireland | 2,543.32 | 13.38 |
| Totals | \$773,111.89 | \$7,749.06 |

| Balance of the Premiums After Paying Benefits and Appropriation Towards Management Expenses. | | |
|--|-------------------|----------------------|
| Location. | Mortuary Sick and | Department. Funeral. |
| Canada | \$160,067.70 | \$10,907.08 |
| United States | \$23,822.49 | 1,332.02 |
| Great Britain and Ireland | 36,087.68 | 111.25 |
| Totals | \$219,977.87 | \$12,350.35 |

Deduct premium-receipts, investigation of claim and other special charges

Net balance of premiums carried to surplus

The Sick and Funeral Benefit Department has shared in the general prosperity of the year. The enrollees in the department during 1897 numbered 5,647, and the membership at the end of the year was 28,819, of which number 20,145 were residents of Canada. The premiums received in this department during 1897 amounted to \$154,881.06, as against \$137,678.63 in 1896. Sick benefits were paid during 1897 to the amount of \$121,880.10, and in addition \$7,827.06, was paid for funeral benefits paid \$129,077.65, or \$20,848.50 more than was paid during 1896. Of the premiums collected in this department during the year no less a proportion than 80.29 per cent was returned to the members in the form of benefits paid to them, while only 5 per cent was used for management expenses.

The enormous volume of the work accomplished by the I. O. F. during 1897 can be shown only by comparison with the work done by the great insurance corporations of Canada. As I am not yet in possession of the official figures of these companies for 1897, I cannot present at this time, a full comparative table; but if the comparison be made with the figures for 1897 of two of the companies which have already published their annual statements, we shall get some conception of the vastness of the work accomplished by the I. O. F. during the year just past.

| TABLE NO. 2. | | |
|---|-------------------------|---------------|
| Business Done in 1897 by the I. O. F. and Two Old-Line Companies. | | |
| Name of Company. | Number of new Insurers. | Amount Taken. |
| Temperance and General | 1,803 | \$2,052,100 |
| North American Life | 1,621 | 3,555,042 |
| Totals | 4,424 | 5,607,142 |

It will thus be seen that the I. O. F. secured practically seven-fold more members than did these two old-line companies, and the new insurance taken from the I. O. F. during the year amounts to nearly thirty millions of dollars more than was taken from its two boastful rivals.

The following table will show you the assets and liabilities of the I. O. F. on the 31st December, 1897:—

| ASSETS. | |
|--|----------------|
| December 31, 1897. | |
| Deposit with Dominion Insurance Department of Canada | 100,000.00 |
| Deposit, Great Britain and Ireland | 97,333.33 |
| Deposit, United States (4 per cent bonds) | 56,758.36 |
| Loan to the Province of New Brunswick | 20,000.00 |
| Real Estate and 1st Mortgages on real estate | 1,611,749.00 |
| Temple Building | 233,082.93 |
| Deposit Receipts | 540.79 |
| Debitures | 138,426.41 |
| Cash on deposit in banks | 228,940.79 |
| Interest due and accrued | 38,088.45 |
| Capitalization tax due | 6,846.50 |
| Amount due for supplies | 44,808.93 |
| Office furniture (after deducting tax per cent) | 12,011.08 |
| Totals | \$2,899,424.99 |

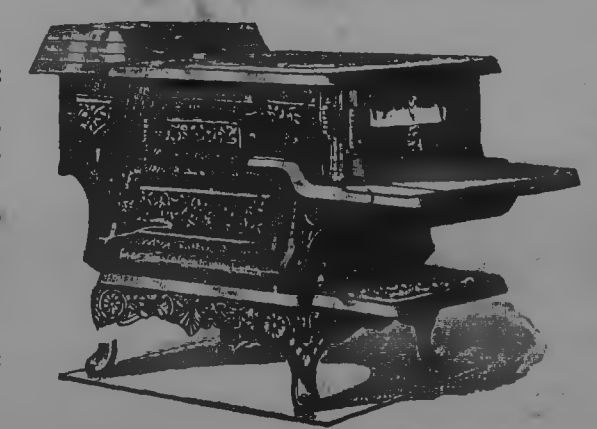

| LIABILITIES. | |
|---|----------------|
| Sundry accounts | 1,825.42 |
| Mortuary claims unpaid | 30,242.94 |
| Total and permanent claims unpaid | 2,000.00 |
| Present value old age annuities | 12,137.88 |
| Sick and funeral claims unpaid | 2,119.99 |
| Balance of assets | \$2,899,424.99 |

*Of the \$30,242.94 of Mortuary Claims standing unpaid, \$14,899.61 were paid during the month of January, 1898. Fraternally submitted in L. B. and O.

OBONYATEKHA, Supreme Chief Ranger.

Sap not broth at the table, but eat it with a spoon.
Feed thyself with thy two fingers, and the thumb of the left hand.
Speak not at the table; if thy superiors be discouraging, meddle not with the matter.

A VALUABLE TABLE.

One Which Will Enable the Dairyman to Make Balanced Rations.

Hoar's Dairyman, which was asked by a subscriber for a table showing the chemical analysis of the various kinds of grain rations for milk cows, replies as follows:

In order to formulate a ration one needs in addition to the chemical analysis, a table of what are called digestion co-efficients. These co-efficients are the percentages of digestible matter in the totals found by the chemists. For instance, corn contains 10.5 per cent. of crude protein, but only 60 per cent. of this is digestible, or there is 6.3 pounds of digestible protein in 100 pounds of corn. Instead, therefore, of giving the inquirer the analysis called for, we give a table, showing the total organic matter and the digestible nutrients in the articles mentioned, and in most other common feeding stuffs. The figures are taken mostly from Wolf's Dairy Calendar, a most valuable book for any dairyman. The figures given are percentages, or number of pounds of each element in 100 pounds of the feed, but bear in mind that the digestible nutrients are included in the organic matter. Opposite corn silage and corn fodder two sets of figures are given. The large numbers represent the average of several Wisconsin analyses, and with apply generally to well cared and well matured crops of corn, of the medium and small varieties. The smaller numbers represent the averages for all varieties and should be used for immature corn and the larger dent varieties. Table showing the average amount of organic matter and contained digestible nutrients in the more common American feeding stuffs.

| | Organic Matter. | Digestible Protein. | Digestible Carbohydrates. | Digestible Fat. |
|--------------------------|-----------------|---------------------|---------------------------|-----------------|
| Clover silage..... | 25.4 | 1.0 | 13.8 | 1.0 |
| Corn silage..... | 24.2 | 0.7 | 14.4 | 1.2 |
| Corn fodder..... | 19.5 | 0.8 | 11.6 | 0.7 |
| Corn stover..... | 56.5 | 2.0 | 33.4 | 0.6 |
| Alfalfa hay..... | 84.2 | 7.6 | 37.8 | 1.3 |
| Blue grass hay..... | 80.2 | 6.8 | 38.4 | 1.6 |
| Marsh hay..... | 80.0 | 8.5 | 44.7 | 1.7 |

How Much Fat Is Needed.

This is an ever recurring subject, and from the fact that the average dairyman has an idea that the results of a Babcock test result in a substance the same as when we churn, when the fact is the test gives a sample of butter fat oil, free of every substance but oil, and butter has fully 12 to 15 per cent. of water and salt in it. This is what the dairy professor at Cornell says: "The amount of fat required to make a pound of butter depends upon the amount of water, curd, etc., contained in the butter, and also upon the amount of fat lost during the process of manufacture. In determining a constant for estimating the yield of butter from the amount of fat secreted by the cow, the latter element was ignored, because it was considered that the cow should not be charged with lack of skill in the butter making, or losses due to imperfect machinery. The usual estimate is to compute butter as having 85 per cent. fat and the balance as foreign substance, or to add one-sixth to the butter fat readings of the test. In factory work it will be found that this factor is slightly too large because of the losses of fat already alluded to. The addition of one-sixth to the fat is equivalent to an "over-run" of 16 2-3 per cent., or a yield of 116 2-3 pounds of butter from 100 pounds of fat. Factories that are well managed should show an over run of 13 or 15 per cent. Occasionally, with very careful management, and where the butter is made to carry all the water possible, 16 2-3 per cent. may be reached or even exceeded. If a less per cent. is reported, there is some unnecessary loss of fat in some part of the manufacture."—Practical Farmer.

Advantages of Feeding Straw.

It is quite customary for farmers to feed their horses all the timothy hay they will stuff down themselves; and then if grain is not added, their coats will be staring and their bowels constipated. When younger than now and when I knew less, I ruined more than one horse by founder by stuffing him with hay all winter and not working much. Horses will do well and their coats will be glossy if fed on straw and two quarts of oats night and morning. If they are to work hard, more grain can be added. If anyone will take the trouble to figure out the cost of wintering by each of the two methods, he will learn that where the farmer has straw, straw and oats feeding is the cheaper by as much as 50 per cent.—Galen Will on, in Country Gentleman.

ONLY ONE WORLD.

1. Our Earth the Only Pebble on the Universe's Beach?

Popular Astronomy and The Hartford Courant have come to the conclusion, says The Troy Times, that there is only one earth, and, such being the case, it is a very desirable place of residence. An idea prevails in the common mind that our world is only one of countless similar bodies; that space is filled with solar systems not unlike our own, and that it is possible other globes are inhabited and quite as habitable, if not more so, than the one in which we dwell. Popular Astronomy says: "Although our solar system is only one among thousands of systems now known to exist in every part of the heavens, among all these other systems there is not yet disclosed a single one which closely resembles our own."

This is not a positive assertion that ours is the only world in which human beings live and move and have their being, but it leads up to the belief, and this is sustained by much argument dealing with astronomical technicalities, which may be omitted here. It seems to be convincing to The Courant, for that paper takes up the discussion, and, after considering some other points, sums up the case as follows: "Not only is our earth unique in its favorable position in our system, but our system, as far as is known, is unique in the universe of systems. We rarely think of how narrow a margin we live. A little more heat or a little more cold, and we die. Our existence depends on keeping changes of temperature within a range of about 1 per cent. of what we know as possible extremes. If the moon were very much larger the tidal wave would carry the entire ocean twice a day over the surface of the earth. If the earth were much smaller we would lose our atmosphere; if it were much larger we could not stand upright more than five minutes or would be able to mount a hill except by painful crawling. If the year were twice as long as it is it is doubtful if we could raise food enough in the summer to carry us through the winter or if we could survive the accumulated cold. In every way our earth lies just at the meeting point of two kinds of death which "in this bleak and short of time" we must fight with either hand. It makes no difference whether we have fitted ourselves to the earth through a long series of evolution or whether it was fitted to us; as far as we know it is the only habitable spot in the universe, and the chances are almost infinite that no other is so favorably located. Let us make the most we can of it."

Toes, Claws, Fingers.

The elephant, a slow-moving animal in the ordinary course, has as already observed five toes. The rhinoceros, a much faster beast, as hunters have often learned to their confusion, has but three. Now in the sheep we find two digits only, while in the horse, perches in the matter of pace, the number falls to a single digit. The nail of the higher mammal may have given place to a horny hoof; no matter, the finger remains, for purposes, at any rate, of comparison, a finger all the same. Be it added that many extinct hooved creatures are endowed with the full five digits, and not a few existing deer show distinct traces of two obsolete shorter "fingers." From this I gather—though the theory may not quite unreasonably, be dismissed as far-fetched—that these weaker grass-eaters have gradually dropped their digits as the struggle grew in severity and the necessity for swiftness of limb increased. Nor, I am free to confess, did the apparent truth of this appeal to me in force until I came to compare the foot of the swift ostrich with that of the stately stork. It was as I expected, the feet of the stork had dropped two of the four fingers permitted to most birds, having but two. The almost equally swift emu and cassowary had dropped one, being possessed of three apiece. This, then, seems to me a fair rule: the fewer the digits the swifter the beast. And the rule bears the stamp of the exception necessary to prove it, inasmuch as the sluggish hippopotamus has one less than the hare! Perhaps, then, this notion of mine will apply only to the hooved beasts. Whether the elephant might in time have dropped one or two of his digits, and at the same time died himself, to acquire greater pace, in an open question, and one which since the arrival on the scene of man and his rifle, is likely to go unanswered. These last have been powerful factors in putting a term to the development of many an interesting zoological problem.—Good Words.

Free Trial To Any Honest Man

The Foremost Medical Company in the World in the Cure of Weak Men Makes this Offer.

HEALTH AND ENERGY ASSURED. HAPPY MARRIAGE, GOOD TEMPER, LONG LIFE.

In all the world to-day—in all the history of the world—no doctor nor medicine has treated and restored so many men to the normal state as the FOREMOST MEDICAL COMPANY.

This is the fact that the company controls some inventions and discoveries which have no equal in the whole realm of medical science.

So much deception has been practiced in advertising that this great old company now for the first time makes this startling offer:— They will send their costly and magnificently effective medicine, positively on trial without expense to any honest and reliable man. Yes a dollar need be advanced—not a penny more—all results are known to and acknowledged by the nation.

The Foremost Medical Company's appliances and remedies have been talked about and written about all over the world, and every man has heard of them.

They restore or create strength, vigor, healthy nerves and good life. They quickly stop drains on the system that sap the energy.

They cure impotency, dependency and all the defects of the body. They give full strength, development and tone to every portion and part of the body.

Failure is impossible and age is no barrier. This "Trial without Expense" offer is limited by the company to a short time, and application must be made at once.

No C. & D. scheme, no bogus patent, no deception, no exposure—a clean business proposition by a company of high financial and professional standing.

Write to the FOREMOST MEDICAL COMPANY, BUFFALO, N. Y., and refer to seeing the account of their offer in this paper.

Make not a noise with thy tongue, mouth, lips or breath, either in eating or drinking.

CURIOUS INDIAN RELICS

CONTENTS OF A NAVAJO VILLAGE TRANSFERRED TO WANA-MAKERS.

Right in the heart of Wana-makers' big store in Philadelphia has been deposited an Indian village, fitted up with all the appliances and comforts of a modern home, known to the red men of our Western plains. Gathered in the store is a remarkable collection of Indian implements and wares such as have rarely been spread before the eyes of the Eastern palaces. Presiding over the wares is Captain O. W. Riggs, the noted Indian scout, explorer and collector, who has travelled over every section of the West and Southwest, both as a scout and in his work of gathering his present rare collection, which embraces a greater variety of objects illustrative of the life, character and customs of the red men of the Western plains than has ever before been exhibited in the East.

The wares are on the second floor of the store and take up enough room to accommodate a whole Indian village. It is exceedingly odd to come into contact with such a Wild West display in the midst of a big modern mercantile establishment, which, as the visitor steps within the wares, he is struck by the contrast between the heart of civilization and the haunts of the red men of the plains.

The surroundings are suggestive of a typical Navajo village. The collection of wares and articles representing every product of the arts of war and peace, and groups of Indians are alone waiting to make the scene entirely realistic. The visitor instinctively listens for the war-whoop as the implements of war and the "dances" are noted, or looks to see groups of braves and gringos to illustrate the processes of Indian manufacture the results of which are so liberally displayed.

Captain Riggs, who is personally in charge of the wares, spent seven years in making the collection which is now shown at Wana-makers', and has spent fifteen years, all told, among the tribes of the Southwest in gathering curios and Indian exhibits. His

Rheumatic People

Do not want waste words. It stills the worst pain as once. I have seen "NEW LIFE" with positive cures of all forms of Rheumatism, Gout, Lumbago, Neuralgia, Sciatica, etc. It has never failed. It has been said by many that a bottle of "New Life" is worth a man's weight in gold. Send for free pamphlet on "New Life Cures".

W. E. DOBSON,
Liberty-street,
at North street, Toronto

collection of pre-historic relics are the most valuable ever made by any explorer, and are to be found in the leading museums of the world. It is the captain's intention to return to the Southwest in a few weeks.

The collection is largely composed of the wares of the wonderful Navajo tribe, that industrious branch of the Apache family which has given greater promise of racial development than any of the tribes on the Southwestern border. Other tribes are also liberally represented in the collection. The Navajos now have a Government reservation of nearly 1000 square miles in New Mexico and Arizona. The members of the tribe have been weavers for centuries, and from the products of their crude looms have earned the reputation of producing the most durable specimens of the weaver's art that has ever been made by any people in the world.

GREAT AND LITTLE ITEMS

THE CHURCHES THAT OBSERVE LENT AND ITS WHYFORE.

The morning of Ash-Wednesday (the 23d) concludes Shrove-tide and ushers in Lent. This is an annual fast of forty days, beginning with Ash-Wednesday and continuing until Easter. It has been observed from very early times in the Christian Church in commemoration of Christ's forty days' fast as a season of special penitence and preparation for the Easter feast. The Lenten fast is now observed as obligatory by the Orthodox Greek and other Oriental Churches, by the Roman Catholic, Anglican and Lutheran Churches and by many members of other churches as a profitable observance. It has varied in length at different periods and in different parts of the Church, and has begun earlier or later according as Sunday only, or Saturday also, were exempt from fasting. In the Western Church it begins on Ash-Wednesday, forty-six days before Easter. The intervening Sundays called Sundays in Lent (not of) are not counted part of Lent, because Sunday is always a feast day; therefore, the fast really only lasts forty days. Ash Wednesday is said to have been so called on account of the treading of Judas Iscariot. It is also connected with the custom in the Roman Catholic Church of sprinkling ashes that day on the heads of penitents, the ashes used being those of the palms blessed the year before.

In Mediaeval times the name Lent was given to other periods of fasting. For instance, forty days between Martinmas, Nov. 11, and Christmas eve was called St. Martin's Lent, and another Lent preceded St. John Baptist's day June 24. In distinction to these, the period now celebrated, mentioned above, was called Great or Clean Lent, the last name suggesting the preceding confession and absolution of Shrove Tuesday.

How to Cure All Skin Diseases.
Simply apply "Bryson's Ointment." No internal medicines required. Cures eczema, scabies, itch, all eruptions on the face, hands, neck, etc., leaving the skin clear, white and healthy. Its great healing and curative powers are recognized by no other remedy. Ask your druggist for Bryson's Ointment. Lyman, Ross & Co., Montreal, wholesale agents. Avoid substitutes.

The Power of Eggs.
Good feeders have long known that certain kinds of food would greatly improve the quality of their eggs. The feeding of roots improves the quality of mutton; and improves the quality of pork. Introducing duck farmers have found that the feeding of celery improves the flavor of their birds, and chickens are fed to fattening turkeys to produce a game flavor. Green cut bone is fed to chickens for the same reason and to increase the size of the fowls and to increase and improve the flavor of their eggs. General experiment and practical experience have proven beyond any question of doubt that the liberal feeding of green cut bone will double the egg yield from a given number of hens. Green bone is the cheapest egg food on the market to-day, and in many places can be had for the mere asking. In those places where it has acquired a commercial value it can be bought for 25 to 30 cents per 100 pounds. This is much cheaper than wheat, which is the best of the cereal egg-producing foods. Green cut bone has such a potent force in increasing egg production that it will be found especially helpful in winter, producing large quantities of eggs when they are of greatest value.

La Grippe Cured

This modern malady has become dreaded not more for its direct fatality than for the weakness of body and mind it leaves behind it. Prolonged debility, permanent prostration, melancholy, and suicide follow La Grippe. For this disease there is no remedy superior to Ayer's Cherry Pectoral.

"The best remedy for La Grippe that I know of is Ayer's Cherry Pectoral."

REV. JOHN K. CHASE,
South Hampton, N. H.

"My wife and five children were taken down with La Grippe, while the disease was so widely prevalent. I doctored them with Ayer's Cherry Pectoral, and before using quite two bottles my family was restored to health. I know of several obstinate cases of the same complaint which were also cured by this remedy."

J. FARMYER,
Pawlet, Minn.

"I was cured of La Grippe by the use of Ayer's Cherry Pectoral."

C. S. THOMPSON,
Pub. "Signal," West Farmington, O.

Ayer's Cherry Pectoral

Write to our doctor. We pay him to advise you free. J. Q. Ayer & Co., Lowell, Mass.

A Star in Disguise.
Mrs. Myron (visiting boarding-house lady)—My dear, you look positively distressed. Are you in trouble?
Mrs. Brown—Oh, the awfulest thing has happened! Perhaps you remember Mr. Myron's wife who used to board here sixteen dollars a week.
Mrs. Myron—Yes. You said he was such a comfort to you. He didn't have but two or three teeth left. If I remember correctly, ate hardly any thing. Didn't cost any more to keep than a kitten.
Mrs. Brown—That's the identical party. Oh, he's a swell! He came back the day before yesterday and he has his own set of teeth. He's got a new set of teeth and eats like a horse.

Observations on the Keweenaw.
Mr. Gladstone has just recently that the Keweenaw has produced only two great novelties—Mr. Walter Scott and George Eliot. We accept the decision of the great man on the subject, and concede that would have edged in Thackeray, but it doesn't matter. Mr. Walter Scott and George Eliot are so clearly demonstrated that we can have no great dispute with the Keweenaw. It is a great deal more than two. Thackeray would have come in for honorable mention, and so would Dickens and Charlotte Brontë, but restricting himself to only two we do not see how he could have omitted either Scott or Eliot. Dickens treated life as a caricature, a gentle caricature, but a caricature nevertheless. He was a great and entertaining writer, but as a novelist he was not equal to either of the two named by Mr. Gladstone. Thackeray treated life from a different standpoint. He was more severe on the follies of mankind, but he also exaggerated human characteristics. Mr. Gladstone's judgment is wonderfully good and we shall not be surprised to see it become the judgment of the next century—John S. Rogers.

Studying the Moth.
It has long been a riddle to the entomologist to find out how moths, especially those of the larger varieties, escape from the tough cocoon which encloses them during the grub stage. Professor Oswald Reutter, a member of the London Entomological Society, has been studying the cocoon method of the moths, and in doing his studies opened up the cocoons spun by the insects, and put the imago into artificial silk bags with an opening at the end. When the time arrived for the imago to apply his solvent, the liquid exuded into little glass tubes inward. Careful analysis was made of this, and it was found to be a pure solution of caustic potash. This discovery is a new one in entomology. Caustic potash will destroy the human skin, and it is at least passing curious that it should be distilled in an insect's mouth.

SWEET PEAS.
A host of dainty, wing-like flowers. A bowl of breasted china. Beguile to-day some lonely hours with potentia for the summer. Then all the roses, wondrous fair, which languish in their glory in the sunny bosom of the garden. Breathing the summer's story.

A swarm of plumed butterflies. You seem to pulse and hover on your trail ahead, and try to rise, seeking the wind, your lover. Sweet peas! My fancy and my heart are charmed with your faint fragrance. It challenges Dame Nature's art. To match you, lovely vagrant.

HANGED THAT HE MIGHT LIVE.

A very delicate and extremely rare surgical operation has been performed successfully at the Finch hospital in this city upon O. Hoffman, a young German farmer. It is not only his life has been saved, but he is on the way to the recovery of health. Hoffman was employed on a farm near Knight's Ferry. During the latter part of July he fell backwards off a wagon, striking the hard ground with the back of his head, and fractured the third cervical vertebra, an injury which in nearly every case proves fatal. An examination by the physicians in this city decided the seriousness of the injury, and they gave it as their opinion that not more than a thousand ever could survive it. Hoffman recovered the moving of the injured man's head in any direction. The slightest attempt to move the head caused violent vomiting, brought on fainting spells and speedy respiration. The patient was given very little nourishment with a spoon, and had to be kept constantly in one position. His frame wasted away, and yet he lingered, suffering great pain.

On Aug. 11 he was brought to the French hospital in this city, where the physicians decided upon an operation as the only possible means of saving the life of the patient. In the presence of the hospital house staff and a number of consulting physicians the operation was performed Aug. 15. An incision was made in the neck, exposing the vertebra, which showed the injury to the third process, the arch of which was removed, as was a portion of the second vertebra, thus removing the obstacle to the unrestricted motion of the head. The wound was closed and an extension apparatus applied.

The patient rests on an inclined plane. The weight of the body acts as a counter extension to the weight applied to the extension apparatus which is attached to the head, and the patient is virtually suspended by the neck until he shall be restored to health. The wound has been dressed four times since the operation was performed, and the patient is doing very well. He is drinking Dr. Cassell's Malted Food, and is very much improved. Hoffman's case is a very rare one, and his recovery will be a great credit to the French hospital.

A Dart That Didn't Bet.
No better and at the same time no more courteous rebuke could well be imagined than that once administered by Beaumarchais, the author of the famous "Marriage of Figaro." He was the son of a Parisian watchmaker, but had gained fame, rank and wealth through his own talents and exertions. A conceited and anxious young nobleman once undertook to wound the pride of Beaumarchais by an allusion to his humble origin.

In the presence of a large company of people who had a regard for the talented young author, this young man handed him his watch, saying: "Examine it, as it does not keep time well. You can doubtless ascertain the cause."

Such was his rude haste that his hand fell from the watch before that of the surprised Beaumarchais had grasped it, and it fell to the ground.

"Paroiss, monsieur," said the author, with grave courtesy, stooping to pick up the watch, and handed it to his opponent. "You see my father was right when he declared that I was too awkward to be a watchmaker."

Brought in "Pa's Prayers."
Once upon a time sickness came to the family of the poorly paid pastor of a country church. It was winter, and the pastor was in financial straits. A number of his flock decided to meet at his house and offer prayers for the speedy recovery of the sick ones and for material blessings upon the pastor's family. While one of the deacons was offering a fervent prayer for blessings upon the pastor's household there was a loud knock at the door. When the door was opened a stout farmer boy was seen wrapped up in a blanket.

"What do you want, boy?" asked one of the elders.

"I've brought pa's prayers," replied the boy.

"Brought pa's prayers? What do you mean?"

"Yes, brought his prayers, an' they're out in the wagon. Just help me an' we'll get 'em in."

Investigation disclosed the fact that "pa's prayers" consisted of potatoes, flour, bacon, cornmeal, turnips, apples, and a lot of other things. The boy was the sick ones. The prayer meeting adjourned in short order.—Omaha World-Herald.

Boys on Pat.
Two Irish soldiers stationed in the West Indies were accustomed to bathe daily in a little bay which was generally supposed to be free from sharks. Though on good terms with each other, they were not what might be called fast friends.

One day, as they were swimming about one hundred yards from the shore, Pat observed Mick suddenly making for the land as hard as he could, without saying a word. Wondering what was the matter, Pat struck out vigorously after him, and landed at his companion's heels.

"Is there anything wrong with you?" inquired Pat, teasingly.

"Nothin'—nothin' at all," replied the other.

"Then what did ye make such a sudden retreat for, an' leave me?" continued Pat.

"Beard," answered Mick, coolly. "I spied the fin at a big shark about twenty feet ahead, an' I thought while he was playin' wid you it would give me time to reach the shore."

It is not to be wondered at that Pat declined to bathe with Mick any more.

A Boat Built of Cement.
Stiffened cement has been used successfully in the construction of a boat by an Italian named Gabellini. The frame is of steel bars, a third of an inch in diameter, over which is spread a wire netting. On this the cement is laid, and the outer surface is polished. The boat is heavier than one built of wood would be, but it is cheaper and slips better through the water. Experiments have proved its strength.

Bismarck's Brain.
Bismarck's brain, according to the electric tests from external measurements made by Herr Ammon, an anthropologist, and the sculptor who made the Iron Chancellor's bust, probably weighs 1807 grammes, in which case it is the heaviest on record. Currier's brain weighed 1510 grammes. Byron's 1807, Kant's 1650, and Schiller's 1580. The average weight of the brain of an intelligent European is 1550 grammes.

TREES

Our stock is as good as the best.

Having an unusually large stock of trees, vines, bushes and plants, both fruit and ornamental, of our own growing, we are compelled to extend our trade, which has hitherto been chiefly confined to the Niagara district. Having no agents we have no fancy prices to protect, and so offer at very low rates to be in touch with the times.

Price list free on application.

Dealers and jobbers orders packed with care and despatched cheaper than elsewhere.

READ WHAT PHYSICIANS SAY OF POND'S EXTRACT

PHILADELPHIA,
Dec. 29, 1894.
I have used "Pond's Extract"
for many years and always in-
sist upon my patients getting
"Pond's," not the ordinary Ex-
tract, which is often a very poor
article. W. K. BROWN, M. D.

PHILADELPHIA,
Jan. 9, 1895.
I use Pond's Extract a great
deal in my practice. I think it
very valuable in all venous en-
largements.
J. L. BRADFORD, M. D.

SANTA BARBARA, CAL.,
Nov. 27, 1894.
I have been using Pond's Ex-
tract in my practice for twenty
years. I frequently have the ex-
perience you mention of drug-
gists insisting they can put up
as good as yours. I don't be-
lieve it. I use Pond's Extract a
great deal as an antiseptic in
combination with glycerine and
carbolic acid. I think it far su-
perior to any antiseptic known.
F. G. FLOURNOY, M. D.

COLUMBIA, PA.,
Jan. 18, 1895.
I have been a constant user of
Pond's Extract since 1853, and
do not expect to discontinue it
while I live. S. ARMOR, M. D.

CHELSEA, MASS.,
Nov. 8, 1894.
I have made diseases of the
skin a specialty for thirty years,
and am free to say I know of no
remedy that has given me such
perfect satisfaction as Pond's
Extract in cases for which it is
recommended.
G. W. BABCOCK, M. D.

ASTORIA, N.Y., Dec. 8, 1894.
I know Pond's Extract to be
a valuable remedy, and shall
continue its use whenever the
opportunity offers.
Geo. H. CALKINS, M. D.

NEWARK, N. J.,
Dec. 13, 1894.
I am pleased with the purity
and strength of Pond's Extract.
J. L. DUNN, M. D.

POND'S EXTRACT is used
by the leading physicians and
principal hospitals of America
and Europe.

**SEND ORDERS FROM PHYSICIANS
WITHIN ONE MONTH DURING
LAST AUTUMN.**

MAYOR'S OFFICE.
Mr. Davis will be at the Town
Offices, from 9 to 10 o'clock, each
morning to meet those having busi-
ness to transact.
A. L. DAVIS,
Mayor

Morn'g Times

PETERBOROUGH, FEBRUARY 24 1898

TOWN AND COUNTY NEWS.

Wanted
An experienced general servant
wanted. Apply at once at 526 Water
street.

Reliable Man Wanted
Good smart reliable man wanted to
canvass the town in the interest of
the Morning and Weekly Times.
Must have good connections. Good
salary to the right man. Apply at the
Times Office.

The Staff of Life
McQuay, Baple & Co's bread is pro-
duced to be first-class. Only 10c.
for a large loaf.

Invited to Remain
The Rev. J. E. Moore, Ph. B. has
been unanimously invited by the of-
ficial Board of the Mark street Metho-
dist church, to return to the pastorate
for another conference year. The
congregation and membership having
greatly increased under his instruc-
tions.

Delightful Pastry
McQuay, Baple & Co., are selling the
most delightful pastry in town. Op-
posite Adam Hall's.

Mountain Trout
Fresh mountain trout just arrived;
10 cents per pound. J. B. Oke.

Pills! Pills! Sticking Pills
Symptoms—Mucous intestine itching
and stinging; most at night; worse
by scratching. If allowed to continue
tumors form, which often bleed and
ulcerate and become very sore. Sur-
geon's treatment stops the itching and
bleeding, heals ulceration, and in most
cases removes the tumors. All drug-
gists or by mail, for 50 cents. Dr.
Wayne & Son, Philadelphia. Lyman
Burr & Co., Montreal, wholesale
agents.

Fresh and Cheap
Fresh marmalade oranges; cheap.
J. B. Oke.

DISTRICT AND LOCAL TOPICS

Reporter's Phone, 164 B.

Quaker Oats—"Spot Cash."
—Immense bargains in shoes at 405
George street Saturday.
—Choice oranges and lemons at lower
prices than elsewhere—"Spot Cash."
—The druggists and hardware men
will play hockey at the rink to-night.
—Marmalade oranges—"Spot Cash."
—An entertainment is to be held in
St. Andrew's church to-morrow night.
—Washington Navel Oranges—"Spot
Cash."
—R. J. Kidd has bought Mr. Ames'
boot and shoe stock at 55c on the dollar.
There will be great bargains on
Saturday.
—The Secretary of the Y. M. C. A. has
extended an invitation to the delegates
to the Epworth League convention to
visit the building and make use of the
privileges.
—Mr. Ames bought his goods for cash.
Kidd bought his stock of shoes at 55c
on the dollar and will give you them
at 50c below cost on Saturday, 405
George street.
—The Peterborough curlers were the
only ones that went to Lindsay Tues-
day to compete for the Dryden Cup.
They were defeated by a score of 42
to 33. Fear of those Lindsay curlers
is abroad through the land.
—Mr. Gilbert Packerham, who had
the misfortune to severely injure his
leg by falling through the roof of Mr.
E. H. D. Hall's had the limb ampu-
tated at the Nicholl's Hospital yester-
day. He stood the painful operation
well.
—A mass meeting of children will be
held in connection with the Epworth
League convention to-morrow at
4.30. An address will be given by Rev.
S. T. Bartlett, Madoc. The children
will meet in the basement of the church
a few minutes before 4.30.

PERSONAL AND SOCIAL

Mr. Garnet Hughes, of Lindsay was in
town yesterday.
Rev. Dr. Carman, of Toronto, who
was to address the Epworth League
convention last night was unable to
attend on account of the serious ill-
ness of his wife.
Dr. E. A. Spilsbury, formerly of To-
ronto, specialist in diseases of the
throat, nose and ear is in town and pre-
pared to treat cases. Consultation at
No. 273 Hunter street, between the
hours of 9 and 12.

AN IMPORTANT DECISION

**Liquor Cases Involving a Legal Point Before
Magistrate Dumbie**
Yesterday morning at the police court
James E. Spellman, the bartender at
the Bodega, was charged with having
supplied Wm. C. Simmons, a person ap-
parently under the age of 21 years, with
liquor, contrary to the License Act.
Mr. Haverson, of Toronto, solicitor
for the License Holders Association,
appeared for Spellman, and pleaded that
the licensee Joseph Armstrong, had
been convicted on the 21st inst., of the
same offence and that Spellman there-
fore could not be convicted inasmuch
as the conviction of the actual offend-
er was a bar to the conviction of the
licensee.
Mr. Edwards, town solicitor, appeared
for the prosecution. The magistrate
gave effect to Mr. Haverson's conten-
tion and dismissed the charge.
George Graham of the Oriental Hotel,
was then charged with having sup-
plied liquor to one Edwin Heron, an
infant, on the 9th inst. Heron, a
youth in the neighborhood of six feet
testified that in company with his
brother and another young man, both
older and bigger than himself, he called
at the Oriental bar and got two glasses
of liquor. Mr. Haverson had the
young man and his friends stand out
on the floor and appear as they had
in the bar-room. Heron stated he
used a razor regularly, and had fre-
quently been taken for over 21 years
of age. The father gave the boy's age
as 19, and also corroborated the boy's
statement as to his appearance, being
that of a young man of over 21 years.
The magistrate thought the young
man's appearance was such as justified
the sale, and dismissed the charge.
As a result of Spellman's case the
conviction of Moore the bartender of the
Little Windsor Hotel, and that of
the conviction of the bartender of the
Croft House, are illegal, and were this
afternoon recalled by the police mag-
istrate. Moore was also as a conse-
quence liberated from the charge of per-
jury preferred against him.

Lecture at St. John's
Rev. Dr. Langtry, one of the most
prominent Church of England clergy
in Toronto, delivered the opening Lec-
ture at St. John's last evening.
The general subject of the
course was "Epochs and distinctive
features of early Church history." The
feature Dr. Langtry dealt with was
the growth of the Church, the epoch
being that following the sacred his-
tory contained in the New Testament.
The lecturer also described the saintly
life and tragic death of St. Ignatius,
Bishop of Antioch, 115 A.D.

Quaker Oats—"Spot Cash."
Hockey Watch
The Peterborough Colts and a team
from the Norwood High School played
a hockey match at the rink last night.
The teams were well balanced, and
the play was very even, the scoring being
a tie at the end of the game, with
five goals to the credit of each side.
Mr. Ernie Watson acted as referee.
The Colts team was: Goal, Cochran;
point, Eddie Graham; cover, Harold
Harold Armstrong; forwards, H. Mc-
Bain, Stanley Brad, Parker, Cro-
sley and Roy Armstrong.
—Washington Navel Oranges—"Spot
Cash."

Hawthorn's Entertainment
Hawthorn's Entertainment No. 66 I.O.O.F.
met Tuesday evening, when a candi-
date was present for the second de-
gree. All visiting patriachs were
made welcome. Several of the visit-
ing Foresters who are also members
of the I.O.O.F. were present for the
evening, and were received with frat-
ernal greetings.

Lost
Lost, last night between 254 Stewart
street and the Charlotte street rink,
via G.T.R. station, a gold watch chain.
Suitable reward for return to Peter-
borough and Co.

Much in Little

Is especially true of Hood's Pills, for no medi-
cine ever contained so great curative power in
so small space. They "hold" the medicine

Hood's Pills

chest, always ready, al-
ways efficient, always ab-
solutely; prevent a cold
or fever, cure all liver ill-
ness, headache, indigestion, constipation, etc. etc.
The only Pills to take with Hood's Sarsaparilla.

FORESTERS' CONVENTION

Bro. R. Elliott, of Ingersoll, Elected
High Chief Ranger

Brantford chosen for the next Convention—
Election of High Court Officers—A Gift to
the Children's Aid—Other Business Trans-
acted

The second day of meeting of the
Canadian High Court of Foresters was
opened by the usual reading of the
minutes. Bro. H. Gummer, H. C. R.,
was in the chair. Reports of Finance,
Good and Welfare, and Credential
Committees were received and adopted.
Nominations for the office of
High Chief Ranger were then called
for, and the nominations of Bro. R.
Elliott, Ingersoll; and Bro. C. E. Brit-
ton, Gananoque, were received. For
High Vice-Chief Ranger, Bro. J. R.
Allan, Toronto; James Young, Au-
burn; R. Dowling, Harrison. For
High Registrar, Bro. D. R. Kennedy,
Montreal; O. J. Sheppard, Ganano-
que. — H. Meredith, Toronto. For
the members of the Executive Com-
mittee the following nominations were
made: Bro. Thos. White, Brantford,
was re-elected by acclamation as High
Secretary; Bro. John Neelands, Wing-
ham, High Treasurer, by acclamation.
Bro. Dr. U. M. Stanley, Brantford,
was the unanimous choice of the High
Court as Chairman of the Medical
Board, this being the twentieth occa-
sion on which the Brethren have man-
ifested their confidence in the worthy
Doctor. Bro. R. C. Young, Ridgeway,
was likewise re-elected by acclamation
as an associate member of the Medical
Board.
For High Chaplain, Rev. G. G. Mc-
Robbie, Spilthorne, received the unani-
mous vote.
For High Auditor, Bro. Thomas Gib-
son, Toronto, was re-elected by acclamation.

BRANTFORD CHOSEN.
After a spirited contest in which
some 14 places were nominated as the
next place for the holding of the
High Court meeting, the struggle finally
narrowed down between Toronto,
London and Brantford, Brantford se-
curing the coveted meeting in the end
by a substantial majority. The sup-
plementary report from the Finance
committee was received and adopted.
The business of the meeting progressed
with great harmony, there being
great gratification and jubilation over
the unprecedentedly successful year
which has just passed, being the most
successful one in its history of the
order as such rapid and satisfactory
progress has been made.

Much other business of an impor-
tant nature was transacted, and there
were several meetings from the Courts
of the Order in St. John N.B. as well
as a telegram of congratulation from
Brookville, Ont.; and a presence of
thanks from the Mayor of Ridgeway,
expressing his gratification that that
city had been selected as the next
place of meeting, and assuring the dele-
gates that a cordial welcome awaited
them.

ELECTION OF OFFICERS.
The ballots for the election were
duly distributed, and the
elections were proceeded with the cre-
dential committee reporting 414 votes
present. The results of the elections
are as follows:

High Chief Ranger.—Bro. R. El-
liott, Ingersoll, was the choice of the
convention.
High Vice-Chief Ranger.—Bro. J. R.
Allan, Toronto, was elected.
High Registrar.—Bro. D. R. Kennedy,
Montreal, received the majority of the
votes.
First member of the Executive Com-
mittee.—The retiring H.C.R. Bro. R.
Gummer, was elected on the first bal-
lot.
Second member of Executive.—F. J.
Jameson, Peterborough.
Third member of Executive.—H. D.
Henderson, White Church.
Fourth member of Executive.—Geo.
Faulkner, Ottawa.
Fifth member of Executive.—H.
Briggs, Brantford.

A GENEROUS GIFT.
The report of the Finance Commit-
tee was presented and adopted. They
voted the sum of \$25 to the Children's
Aid Society of Peterborough.

The High Court adjourned to meet
this morning at 9 a.m. The delegates
expressed their delight at the treat-
ment they have received in the town
of Peterborough.

Quaker Oats—"Spot Cash."

From Waukegan, Wis.
The eighth annual ball of Iron Moun-
tains Union, No. 191, is announced to
take place on Easter Monday, April
11th, in the Opera House. An energetic
committee has the affair in hand
and it promises to eclipse all pre-
vious efforts in this direction.

Spot Cash Grocery Company, 352
George street, succeeding Alex. Elliott's
grocery business. Dinna forget.

Acknowledgment
Mr. George Buskin, representing the
Algoma and Northwest Coastportage Mis-
sion, wishes to gratefully acknowledge
the receipt of \$28.40, contributed in Pe-
terborough to the mission.

Marmalade oranges—"Spot Cash."
The farmers of the East riding are
not likely to go back on their old
friend Tom.

WALTON'S RHEUMATIC PILLS
TO THE PUBLIC:
Having been a sufferer from Rheumatism for two and a half years, being so bad that I could not attend to my business, and having tried all remedies known to me with out any relief, I began using Walton's Rheumatic Pills which entirely cured me, and I have had no return of the disease since. I can recommend them to any other sufferer as the best remedy on the market.
D. C. WALTON, Toronto Junction.

YOUR CLOCK

Are you satisfied with the way your Clock is keeping time?
Ten chances to one you're not.
Perhaps the cold weather has affected the movements, as it very often does—or it is clogged with dust and needs cleaning and oiling.
If it is out of order or needs repairing the best thing to do is to bring it to

Schneider THE JEWELER

POPE'S TEMPORAL POWER

Temporal Sovereignty of the Pontiff Virtually Renounced
An Important Statement by the Official Vatican Organ With Regard to the Temporal Power of the Supreme Pontiff

(Special to the Times.)
Rome, Feb. 24.—At the time of the appearance in the Civiltà Cattolica of the sensational article to the effect that the Pope favoured the overthrow of the Italian monarchy and the establishment in its stead of a Republic or rather of a federation of Italian Republics, as the most propitious to a restoration of the temporal power of the Holy See, which it declared to be an absolute and inseparable condition to the existence of the Papacy, was called that these utterances did not in any way reflect the views of the Holy Father, but merely those of the intransigent party of the Roman Curia, whose acknowledged organ the Civiltà Cattolica is.

A CARDINAL'S ADDRESS.
The despatch received confirmation a few days afterward through the remarkable address of Cardinal Capecepolo to his clergy at Capua, the cardinal being the most intimate friend and confidant of the Pope, and imbued with the same views. The speech, while insisting upon the Holy Father's patriotism, and devotion to Italy as a unity, was full of conciliation towards the Government, and left it distinctly to be inferred that the Pope did not insist on the restoration of the temporal sovereignty of the Holy See.

OFFICIAL STATEMENT.
This latter inference has now been corroborated in a most striking fashion by the Pontiff's own official organ, the Osservatore Romano, which declares "the only object of temporal sovereignty is to render the Pope temporal in earthly powers. If the Pope is to exercise his independence, temporal sovereignty would not be necessary to him."

This is, to all intents and purposes, a renunciation by the Holy Father of the claims which have been put forth by the Holy See ever since 1870, and it is the most important announcement that has ever yet been made from the Vatican during the last three decades.

THE POPE'S HEALTH.
From an Italian point of view, it is sincerely to be regretted that it should not have been done long ago, for the present Pontiff is so far advanced in years that death may come to him at any moment in his sleep through the weakness of the action of his heart. The majority of the Sacred College is entirely at variance with him in connection with his sentiments toward the Italian Government, and endorse the views expressed by the Civiltà Cattolica.

YUKON PROMOTERS HELD
WESTERN AGENTS OF THE SNOW AND ICE TRANSPORTATION COMPANY IN GAOL.

(Special to the Times.)
Seattle, Wash., Feb. 24.—The arrest of the Western managers of the Snow and Ice Transportation Company, of Chicago, has created a sensation here. From the number of complaints it appears that many tickets guaranteeing transportation to Dawson have been sold. Joseph LaDue's name, it is charged, has been used unsparingly in the matter of the operations of the concern, and the noted Klondiker told the chief of police that he never had any connection with the company. E. J. Robertson, general manager, was arrested in Portland last night. J. Robertson Smiley, local manager, who was put in gaol last night, asserts that he will be able to establish his innocence of any crime in connection with the company's affairs. The company has a contract to transport of the Government relief supplies to Dawson.

THE DANGERS OF SPRING
Which arises from impurities in the blood and depleted condition of this vital fluid may be entirely averted by Hood's Sarsaparilla. This great medicine cures all spring humors, blemishes, eruptions and sores, and by enriching and vitalizing the blood, it overcomes that tired feeling and gives vitality and vigor.

HOOD'S PILLS cure naseness, sick headache, biliousness and all liver ills. Price 25 cents.

Blondie Lecture
Mr. W. T. Cookley, a talented lecturer, has just been secured by the Y. M. C. A. to lecture under their auspices in Association hall on Monday evening, March 7th. Mr. Cookley is a civil engineer recently returned from the Klondike and a few days ago appeared before the Dominion Cabinet and gave evidence regarding the proposed new railway. He will, besides giving the lecture on Monday evening, address a mass meeting for men only in the Association hall on Sunday, March 6, at 4:15 p.m. His lecture is illustrated by a number of genuine copyrighted views thrown on canvas by a powerful stereopticon. Everybody should hear him.

Mock Parliament
The meeting of the Y. M. C. A. debating club will this evening take Parliamentary form. The members will all represent different constituencies. The subject for discussion will be the "Yukon Railway Deal." Mr. A. C. McCullum, Dawson City, will lead the Government and Mr. Fred Rye the Opposition side of the House. The second session to be held on Friday, March 4th, will be open to the public.

MANITOBA SCHOOLS

A SETTLEMENT OF THE QUESTION HAS BEEN REACHED.
(Special to the Times.)
Ottawa, Feb. 24.—Mr. Rochon, inspector of Catholic schools of Manitoba, to-night confirmed the report that a tentative settlement of the school question has been reached. This is understood to be the result of a conference recently concluded here between Archbishop Langevin and other members of the Hierarchy, Prof. Bryce, of the Advisory Board, and Inspector Rochon. The concessions which have been granted to the Roman Catholics will not be incorporated as amendments to the School Act of the province, and thus Mr. Greenway hopes to evade the charge of having received from the position he assumed. They will, however, be carried out in the actual working of the school system.

Mr. Greenway has come down thus far that he will allow Roman Catholic text books accepted by his Grace to be used in the French schools of the province. Upon this understanding, Monsignor Langevin, under the direct influence at Ottawa of Sir Wilfrid "sunny ways," has, according to Mr. Rochon, agreed to withdraw his propaganda against the Manitoba public school system.

BOUGHT SIMPSON'S
THE DEAL FOR THE PURCHASE OF THE BIG STORE FINALLY COMPLETED.

Toronto, Feb. 2.—It was stated to-day that the negotiations for the sale of the Robert Simpson Co.'s business to a company headed by Mr. H. H. Fudger, were consummated last night, and that this morning orders were given for the new stock-taking.

Mr. Fudger, who is very wealthy, supplies the greater part of the capital, and associates with himself two or three of the heads of departments in the store, giving them an interest in the business. Mr. Fudger has been president of the Goldsmiths' Stock Company, in which his interest is about \$100,000, and of this, it is said, he has disposed as well as of his fancy goods wholesale house, in order that he may devote his whole time to the Simpson business.

NEW STEAMER CYMRIC
LARGEST CARGO CARRIER IN THE WORLD ACTS WELL ON THE ATLANTIC.

Special to the Times.
New York, Feb. 24.—The new White Star freight and passenger steamship Cymric, the largest cargo-carrier in the world, has arrived here on her maiden trip from Liverpool. She met rough weather all the way across, and she was forced to run at about three-quarters speed. Her time was 11 days, two hours and 49 minutes, and her average hourly speed 11.53 knots. Her commander, Capt. Henry St. George Lindsey, formerly of the Adriatic, says the Cymric is the steadiest ship he has ever been aboard. He put a glass filled almost to the brim with water on one of the saloon tables when the ship sailed from Liverpool, and not a drop was spilled on the stormy passage.

SCURVY IN DAWSON
ABOUT THIRTY CASES OF THE DISEASE HAVE DEVELOPED AMONG THE MINERS.

(Special to the Times.)
Dawson, N.W.T., Jan. 18, via Victoria, B.C., Feb. 24.—Scurvy has developed among the miners to such an extent that there are now seventeen cases in the public hospital. It is estimated that there are from twelve to fifteen cases in private cabins, swelling the whole number to thirty. Preventative measures are now being taken to prevent the spread of the malady.

PUGS GO TO TRIAL
THE LAW GETS AFTER A PRIZE-FIGHTING CONCERN IN BIRMINGHAM.

Birmingham, Eng., Feb. 24.—The local magistrates have committed for trial, on the charge of prize fighting, the managers of the Olympic Club and the principals and seconds of the Elms Simpson boxing match of Jan. 28, which resulted in a victory for Simpson in the fourteenth of the twenty rounds of the match.

BROKE THE RECORD
C.P.R. TAKES FREIGHT FROM VANCOUVER TO NEW YORK IN SEVEN DAYS.

(Special to the Times.)
Montreal, Feb. 24.—The C.P.R. has broken the world's record for a transcontinental freight run. On February 11 a large quantity of milk was landed at Vancouver by the steamship Empress of China, and on the 18th it was landed in New York, the trip occupying seven days. There were four carloads, valued at \$200,000 each.

SPANISH WAR TALK
TELEGRAPH WIRES FILLED WITH IT AT THE EXPENSE OF GOOD NEWS.

(Special to the Times.)
The Associated Press sent out the following to Canadian newspapers last night: "Regular press wires carrying nothing but Spanish war talk. Our regular Canadian wire to New York is down in a week south of Albany. This accounts for the light report to-night."

ENGAGEMENT OF A NOBLE

Duke of Manchester Will Marry Miss Goelet of New York

(Special to the Times.)
London, Feb. 24.—The Duke of Manchester has announced his intention of visiting New York early this spring. He will also visit Newport in the summer, not returning here until late in September. His intimate friends confidentially express the belief that before the summer is over he will have married Miss Miss Goelet.

Miss Goelet is one of the largest in New York, and is principally real estate. Conservative estimates have placed its value at \$25,000,000, and in addition to this, when the late Ogden Goelet died in England last August, he left personal property amounting to \$5,000,000. The estate pays over \$500,000 a year in New York city.

There are only two heirs to this vast property, which will be greatly increased when they come into its possession. Miss Miss Goelet is now nineteen years old, and her brother a year younger. By the terms of Mr. Goelet's will \$10,000,000 was set apart for the maintenance of the widow and her two children. The remainder is to be held in trust and allowed to accumulate until the children are twenty-five years of age, when the entire sum is to be turned over to them. It is estimated that when that time arrives they will divide about \$40,000,000.

Miss Goelet is a fair-haired, delicate girl, the greater part of whose life has been spent abroad. Her name has also been coupled with that of the Duke of Roxburgh, one of the most ancient of the Scottish border families.

IN WEST AFRICA
MARQUIS OF SALISBURY SAYS THE PROCEEDINGS OF A FRIENDLY NATURE.

London, Feb. 24.—The Marquis of Salisbury, replying to-day to a deputation from the Chambers of Commerce regarding the French Customs traffic in West Africa, assured the deputation that the negotiations proceeding were of a perfectly friendly nature, adding that he did not see any reason why they should not be ended amicably.

FRENCH LINER OVERDUE
LA CHAMPAGNE HAS NOT YET BEEN HEARD OF AT NEW YORK

New York, Feb. 24.—Up to midnight no news had been received about the French liner La Champagne, which was due here on Sunday morning from Havre.

SIXTEEN DROWNED
TWO BRITISH GOVERNMENT CUTTERS CAPSIZED IN A NORTH SEA GALE.

London, Feb. 24.—Two Government cutters have been capsized in a gale off Wells, Norfolk, drowning 16 persons.

German Demands on China
London, Feb. 24.—The Pekin correspondent of The Times says:—"An Imperial decree having replaced the Taotai of Yen-Chau, dismissed on Germany's demand for the murder of missionaries, by the Taotai who was dismissed at Germany's instance in 1895 for the outrage on Bishop Anser, Germany now demands the immediate cancelling of the appointment. China will be compelled to accede in order to avoid giving Germany a pretext for the permanent occupation of Kiao-Chow."

SANDSTORM AT SEA
PECULIAR EXPERIENCE REPORTED BY THE OVERDUE STEAMER ROSLYN CASTLE.

(Special to the Times.)
Plymouth, England, Feb. 24.—The steamer Roslyn Castle, from Table Bay, arrived here to-day, two days overdue. She reports that on February 14th she encountered what seemed to be a fog, but which proved to be a sandstorm. The air was permeated with red sand, and for 90 miles the sun and stars were invisible. Observations were impossible until the ship reached Madeira, and for the entire distance the vessel worked her way by dead reckoning.

AN ENTIRE ACT ENCORED
INTERESTING INCIDENT IN A THEATRE AT NANTES.

The Pall Mall Gazette says: An event took place the other day at the Grand Theatre at Nantes, which, as far as we can discover, is without parallel in theatrical annals. A performance of "La Poupée" was announced, and the crowd was so great that the audience was not seated when the curtain rose. The first act consequently was played amid much disturbance, and when the second commenced it was hailed with noisy protests and calls for the manager. On that gentleman making his appearance he was ordered to start the opera again. After a hasty consultation with the company this request was good-humoredly complied with, and the whole of the first act was repeated.

Spring humors, boils, pimples, eruptions, sores, may be completely cured by purifying the blood with Hood's Sarsaparilla.

PETERBOROUGH, FEBRUARY 25, 1898

FROM HOUSE TO HOUSE!

Perhaps Mr. Garvin was still following the steer in Ennismore last Sunday. Or perhaps he was out fishing. Maybe he wanted to see a man. It might even be that he went up to see if the Sabbath is properly observed there, so that he will know how to act with regard to Mr. Hardy's Sabbath Observance Act when he goes to Parliament. The latter supposition is rather doubtful, however, but because there is any doubt of Mr. Garvin's being at Toronto to vote on the bill, but simply because it is a question whether there will be a Mr. Hardy or any other Reformers there to bring in that bill. It is possible that Mr. Garvin was working up evidence to use in framing a Sabbath Observance Act to introduce himself. We have heard of Mr. Hardy driving around Toronto on Sunday to hunt up a quorum of members. Perhaps Mr. Garvin thought he would not be blamed for following such a precedent. Perhaps he wanted to see if he could hunt up a quorum of voters for himself. It is just possible that Mr. Garvin was not at Ennismore at all Sunday, even though the Examiner says so. Or if he was, perhaps he simply went up to call on some friends. He may have been tired of staying in town on Sundays, and thought it was time for a change. The landscape scenery of Ennismore is very beautiful, and as Mr. Garvin is a busy man he may have leisure

to enjoy it only on Sundays, and that would be no sin. He may think he has as much right to go to Ennismore as any other man.

It is plainly stated that he was going from house to house with Mr. Michael Murray. Terrible! Send for a policeman! What right had Mr. Murray to go from house to house? Now if they had gone from barn to barn, or from hen-houses to hen-houses would it not look more suspicious. But the fact is plainly stated that last Sunday Mr. Garvin was going from house to house with Mr. Michael Murray, of Ennismore. We wonder that the turbulent waters of the historic Mud Lake did not rise in anger and indignation and swallow him in their unfathomable depths on his return, or that that bad bridge did not give way in horror when he was passing over it on his way back and let him sink unknelt and unsung in the depths of the water for having gone "from house to house in company with Mr. Michael Murray." What a splendid tableau scene would make for a Reform meeting. Grand Tableau—"Going from house to house!"

INDEPENDENT OPINION

In another column we publish a lengthy communication of great interest to electors of West Peterborough, in which various reasons are set forth why J. R. Stratton should be again returned as our representative in the Legislature. Without either endorsing or opposing this position taken by the writer we may say that it gives us pleasure to publish his letter, as we are always ready to give expression to honest opinion in public matters, as it is only by a fair presentation and consideration of both sides of an argument that the electors are placed in a position to decide how to vote to secure the best interests of the province. The Times has always endeavored to be honest and impartial in its discussion of public questions, and is not bound to support any party or candidate in any way whatever. We therefore publish this communication favorable to Mr. Stratton just as we would publish anything detrimental to his cause, provided that he believed it in the interest of the riding and the province to do so. The correspondent is fair in his arguments, offensive to nobody, but his points are so well taken that he makes out a good case for Mr. Stratton. The article is written in an interesting style, and is worthy of careful perusal.

Talking about majorities, who said 1601!

If defeated, Jimmy Stratton will leave town to take up his residence in Galway.

The Tory poetry machine is engaged on a new song, "The Blow Almost Killed Stratton."

If Mr. Garvin wins it will be necessary to take the roof off the Opera House to make room for his head.

If there is a hot time in town next Tuesday night there will also be a cold time, but its area will be more limited than that of the other.

As mock parliaments are much in evidence this winter, the defeated candidate of the riding need not be inconstolable. He may comfort himself at the Y.M.C.A.

Mr. Garvin going from house to house is not as bad as the failure some voters have of going from polling-place to polling-place and voting for their candidate at each.

Whether or not there was a surplus at the beginning of the campaign is a question, but you may rest assured that if there was it must have a well-earned head after all the notoriety it has received.

Canadian Liberals are becoming like unto a herd of "elephants mad with pride." It is too much to expect even a patriotic Liberal to yearn for the defeat of his party in Ontario in order that his leaders in Ottawa may not be carried away with the notion that they own such portions of Canada that they have not already given away. At the same time the keen, far-sighted Liberal who sizes up the whole situation will understand that a fight for the party in Ontario would solemnize the managers of the party and keep them from wrecking the ship on the rocks of a belief that they are the owners and not the servants of Canada.—Toronto Telegram.

Acknowledgments
The Board of Managers of the Children's Aid Society wish to express publicly their grateful thanks to the Methodist Epworth League of Selwyn, for a handsome quilt presented on their behalf to the Children's Shelter by their president, Miss Emma Graham. The society also wish to express their indebtedness to the Women's Auxiliary of All Saints' church, to Mrs. G. Fowler, Mrs. Roy, Mrs. Best and Mrs. Graham for clothing kindly furnished the children.

Piles! Piles! Itching Piles

Symptoms—Moisture intense itching and stinging; most at night; worse by scratching. If allowed to continue tumors form, which often bleed and excrete and become very sore. Swyer's Ointment stops the itching and bleeding, heals ulceration, and in most cases removes the tumors. All druggists, or by mail, for 50 cents. Dr. Swyer & Son, Philadelphia, Lyman Stone & Co., Montreal, wholesale agents.

AN ELECTOR'S OPINION

He Presents Strong and Conclusive Reasons Why Mr. Stratton Should Receive the Hearty Support of the Electors of West Peterborough

As an elector of the town and West Riding of Peterborough, I have a very deep interest in its welfare, and am naturally anxious that that welfare should be served by the best possible representative we can get in the Ontario Legislature. I believe that we cannot do better in any sense than retain the services of the present representative Mr. Stratton, and would therefore beg to submit reasons why he should receive at this time the hearty support of the electors of West Peterborough.

Now that the official nomination is over the electors of West Peterborough are called upon, on Tuesday next, March 1st, to select a candidate to represent them in the Ontario Legislature for another parliamentary term; they will be called upon to decide between Mr. Stratton and Mr. Garvin, a decision which, for reasons I may be permitted to urge, should not be any matter of difficulty to the intelligent electors of West Peterborough. The measure of the usefulness of a representative should not, when an opportunity of judgment on such a basis exists, be decided upon promise so much as performance, and if this standard is adopted, there is not even room for complaint as to Mr. Garvin. I have no quarrel with Mr. Garvin personally, but as a candidate I submit that, compared to Mr. Stratton he has not the slightest claims upon the support of the electors of West Peterborough.

The electors of West Peterborough have known Mr. Stratton from boyhood. As both newspaper publisher and proprietor of a thriving business, and as representative for the past twelve years he has been kept in close touch with the people all his adult life, and the entire body of the people know that, irrespectively of party or creed, race or other considerations, Mr. Stratton, in his private, public and business life has dealt out over-handed justice, as far as was consistent with the interests of the public.

In his relations to the general body of the electorate, Mr. Stratton has taken a course which shows that he properly considered himself the representative of all classes and all parties, opponents as well as supporters. Certainly no Conservative has reason to distrust Mr. Stratton, and he has treated him as a generalist, as party animosities would reasonably permit, and even in this regard the lines were not drawn by any means closely, and the Liberals will acknowledge that Mr. Stratton has put up a remarkably strong fight in the present contest against an unscrupulous opposition, and has deserved the hearty united and enthusiastic support he is receiving, which I believe is a certain augury of victory.

In no part of the riding has he spared his time, his energy, and the ability of his pen in his efforts to give substantial advantages that accrue to a constituency from possessing a live, ABLE REPRESENTATIVE.

It is well known that his services have been freely, and not unsuccessfully, given wherever there was a demand for them, whether in the interests of some religious, agricultural or industrial affairs of the riding, or in enlisting Government co-operation at Toronto or Ottawa for the benefit of the riding.

Mr. Stratton with a fair-minded and business-like attitude has pursued a course that can be commended on more sentimental grounds, affecting the harmony of our people and the peace of the community which have no inconsiderable influence upon its material welfare. When creed crises were being raised and the religious prejudices of the people, The Examiner and Mr. Stratton used their best efforts to show the unreasonable and injurious character of these inexcusable, party tactics, and events have justified his attitude, for, instead of a fair-minded election, the attempts to disseminate religious rancour in the community, and to deprive the religious minority of their status of equality as citizens, and to deprive them of the educational rights guaranteed by the constitution, were arrested, the tide of hostile attack stemmed, and peace and harmony restored to the community.

Mr. Stratton, I also submit has claims to support, on the grounds of what he has done, which is to be regarded as a fair indication of the course he is able to give the riding in the future. When every member of the Opposition in the local Legislature, with a single exception, endeavored to saddle upon the County of Peterborough, one half of the cost of maintenance of the Bobcaygeon bridges and tried also to relieve THE COUNTY.

of Victoria from any responsibility in connection with the maintenance of the Pigeon Creek bridge Mr. Stratton successfully opposed the scheme. At that time it required, as the County Council of Peterborough well knew, the exercise of the most strenuous efforts to protect the rights of the people of this county, and Mr. Stratton, with the aid of Mr. Eshward, proved himself equal to the occasion and brought about the result that the bridge in question is maintained in the interest of Peterborough, without any thanks of the Opposition which seemed to show a determined intent to saddle Peterborough with the cost of maintenance. Mr. Stratton succeeded in enlisting the interest of Hon. Mr. Mowat and Hon. Mr. Hardy and had it not been for his persistence in putting the case and claims of the county, by way of the Pigeon Creek bridge, even in winter, he travelled on account of the insecurity of the ice. The merchants of Peterborough appreciate the importance of this bridge, and the large trade it brings to town, which but for the bridge, would find its way to Lindsay.

The merchants and other business men of Peterborough can testify that the people of South Harvey are now seen week by week in town.

ENLIVENING BUSINESS
with their trade, whereas their visits were few and far between before the exertion of Mr. Stratton, the representative of West Peterborough, resulted in the construction of better and shorter roads to enable the farmers to get to their market town more quickly and easily.

The people of Smith, Ennismore, Galway and Cavendish know what benefit it is and has been to them to have in Mr. Stratton a representative who has looked, and will continue to look after the interests of these districts. The people in the northern part of the county, where are found the "Weak" and "Poor" Schools, know that through the exertions of their representative the Government has been given the most generous treatment which has enabled them to maintain schools, and to blame for the improvement of a road, which their own lack of means, did not permit themselves to do.

Is not a representative entitled to credit who has been largely instrumental in facilitating the bringing to the town the trade of a large section of one of the best farming districts in the riding. Through his persistent efforts Mr. Stratton has contributed to shortening the distance between the part of South Monaghan referred to and Peterborough, from an average of fifteen to eight miles, and he is also to blame for the improvement of a road through North Monaghan to enable a portion of South Monaghan to more easily reach the town.

The advantages which have been obtained are substantial and important—how important neither town or county can appreciate fully unless deprived of them, and their value would be more thoroughly appreciated. They are to be attributed to two circumstances—to a representative who is

EVER ON THE LOOK-OUT, and considers no effort too great to serve the interests of the people he represents, and to his supporting a government that acts on the principle of expending the public revenues for the benefit of the people. It is a matter of common knowledge that the government has returned in this way to the people of the province the very large sum of nearly four millions of dollars, and of this the share of Peterborough county has been for the past 25 years up to January 1st, 1898, the large sum of \$800,969.47. I have been placed in possession of the following figures representing the money paid by the government to Peterborough county to relieve the municipalities from direct taxation.

| | |
|--|---------------------|
| For purposes of Education | \$301,000.00 |
| Public Libraries | 12,900.00 |
| Agricultural Societies | 38,900.00 |
| Farmers' Institutes | 425.00 |
| Nicholls Hospital | 13,000.00 |
| Protestant Home | 4,500.00 |
| St. Joseph's Hospital | 5,400.00 |
| House of Providence | 3,550.00 |
| Support of patients in Asylums | 124,668.52 |
| For Administration Justice to county of Peterborough | 46,750.00 |
| For Colonization roads, county of Peterborough | 124,000.00 |
| Public improvements—dams, locks, piers, booms, slide, river, etc. | 67,000.00 |
| Aid to Railways | 70,000.00 |
| Support of prisoners from the county in Central Prison | 12,440.00 |
| Support of inmates from the county, Reformatory for boys | 13,327.03 |
| Support of pupils from the county in the Blind, Deaf and Dumb Institutes | 18,000.00 |
| Municipal Loan Fund | 49,208.36 |
| Grand Total | \$800,969.47 |

And deducting the sum of \$42,000 received from licensees from the county, leaves as the net return of money to the people of Peterborough the large sum of \$758,969.47.

Besides important improvements of the northern waterways have been made such as those of Union Creek, Burnt River, Swampy Lake, Squaw River, and other places for the benefit of the districts affected. Since the construction of the Massasauga dam for the re-creation of water in Peterborough and those depending upon the water supply for power, how what an important advantage that represents and the dam saved the double purpose of affording more regular power and the development of the resources of the district. In regard to the foregoing figures it may be remarked that the aid to Peterborough charitable institutions—the Nicholls Hospital, the St. Joseph's Hospital, the House of Providence and the Protestant Home, which have received in round figures \$30,000 since Mr. Stratton became representative of West Peterborough, receive a grant according to inmates, thirty cents per day for each patient or inmate. The grants to the Public and Separate Schools in the town and county and Collegiate Institutes are based upon attendance, and Peterborough received about \$4,000 from the Government last year alone. All the other services mentioned represent so much LESSENING OF DIRECT TAXATION or a deprivation of the benefits enjoyed. Under the Municipal Loan Fund distribution the following sums were received to assist in making permanent improvements of various kinds: Peterborough... \$1,376.23; Ashburnham... 2,523.62; Riverdale... 6,253.68; Barleigh... 1,360.00; Belmont and Methuen... 3,260.64; Douro... 5,489.50; Dunsmuir... 4,185.50; Ennismore... 2,288.91; Galway and Cavendish... 1,075.92; Harvey... 1,392.31; North Monaghan... 1,513.34; Ottonabee... 10,251.73; Otonabee... 6,577.54.

It is to be noted that South Monaghan, though in another county municipality, received a pro rata share of grants of provincial moneys.

Mr. Stratton is not undeserving of consideration at the hands of the town. When the Carbon Company was in difficulties, Mr. Stratton became interested in its success, and was a loser by the practical interest he took in the concern. Mr. Stratton also became identified with the Peterborough Lock Works. When the Peterborough Cane Company, after the fire in Ashburnham was being established in Peterborough, Mr. Stratton became financially interested in it also, and it is pertinent to inquire what more liberal contributor to matters affecting the public interest can be found in Peterborough. He has shown his faith in the town and the principle that one of the most beneficial and effective means to advance the interests of a town is to give the greatest possible amount of employment to labour. He is also himself a large employer of labour, and apart from his personal efforts he is always willing to use his representative capacity and influence for the capacity and influence for the industrial welfare of the town. When the Liberal party, with which he is in sympathy, came into power, and the tariff was being rearranged, he practically showed his inclination to

ADVANCE THE INTERESTS of local manufacturers in a manner well known to those interested, and in all ways he has always stood for the advancement of the town and its material interests. In view of these considerations, so far as influence with either of the Governments at Toronto or Ottawa (for there is no shadow of doubt that the present Provincial Government will be handsomely sustained in the present election contest) the contrast is marked between the two candidates.

In view of the certainty of the return of the Hardy Government to power it stands to reason that the town will be placed in the position of greatest advantage by being represented by a supporter of that Government. Aside from this aspect Peterborough has interests that must be regarded from a Dominion standpoint, and in view of how closely certain material interests of the town are affected by amicable relations with the Dominion Government, it is wise and possible to have a representative Peterborough citizen who has the confidence of the people, so that when the claims of Peterborough are to be placed before the Government they will be advanced by the maximum of weight, for governments are only human and will naturally be more easily advised and more effectively by a friend in sympathy with them than by an opponent. There are many important interests that will have to be looked after from Peterborough's point of view, and a party victory is as nothing in comparison with the prosperity of the town of Peterborough. We have a great and good town and we should be public spirited enough to view of matters that so intimately and extensively concern its advancement and substantial progress. Mr. Stratton has made good use of his opportunities and has reached a position in his political career where his representations on behalf of his constituents are given the greatest respect by the Liberal leaders at both

OTTAWA AND TORONTO. Of this fact deputations from town to the provincial Capital can bear testimony without uncertainty—that, with the present and future government of Ontario, whatever he says is regarded with respect, for the government has confidence in his good judgment and respect for his persistent efforts on behalf of his constituents.

I do not claim, nor do I believe, that Mr. Stratton thinks himself perfect, but I do believe that he has made few mistakes during his representative career of twelve years, or we should have something specific urged at this time against his record.

I believe that the thinking classes of the citizens, if they will take the trouble to consider what I have presented here, will be convinced that what I have done, that in the matter of a representative, as in the matter of a Government, it is wise to let well enough alone, and not only that, but that it is wise to make certain that we make no mistake. This town and this riding have much at stake at this present contest, and as a citizen with substantial interests in the town and county, I feel that I shall best subserve those interests by standing by and supporting a representative, who has stood by and supported the cause of the town and riding with success, and who has supported a Government whose minor faults are infinitely outweighed by the splendid administration it has given our great province, which affords ample warrant that its future course will represent as capable exercise of Government administration as the province has enjoyed the past twenty-six years.

Yours truly,
AN ELECTOR.

"Well," said the old gentleman, "now that you've told me how much you love your daughter, may I give you a little information as to how you expect to support her?"
"Oh," replied Almy, "I don't see that I would have to do so, as she's all wedding arranged for, and that you would do the rest."

And so he did, though the doctors announced that, while the young man's injuries were very grave, they were not necessarily fatal.—Cleveland Leader.

A Man of Standing.

Her Husband—Why, that's quite plain. When the new picture is done they hang that on the wall and throw the old one away.—Tit-Bits.

A Case of Comfort.
"My father can lick your father."
"How do you know?"
"Cause I seen your mother do it!"
"With your mother can't lick my mother, anyhow."—Life.

ONLY ONE WORLD.

Our Earth the Only Pebble on the Universe's Beach?

Popular Astronomy and The Hartford Courant have come to the conclusion, says The Troy Times, that there is only one earth, and, such being the case, it is a very desirable place of residence. An idea prevails in the common mind that our world is only one of countless similar bodies; that space is filled with solar systems not unlike our own, and that it is possible other globes are inhabited and quite as habitable, if not more so, than the one in which we dwell. Popular Astronomy says: "Although our solar system is only one among thousands of systems now known to exist in every part of the heavens, among all those other systems there is not yet disclosed a single one which closely resembles our own."

This is not a positive assertion that ours is the only world in which human beings live and move and have their being, but it leads up to the belief, and this is maintained by much argument dealing with astronomical technicalities, which may be omitted here. It seems to be convincing to The Courant, for that paper takes up the discussion, and, after considering some of the points, sums up the case as follows:
"Not only is our earth unique in its favorable position in our system, but our system, as far as is known, is unique in the universe of systems. We rarely think on how narrow a margin we live. A little more heat or a little more cold, and we die. Our existence depends on keeping changes of temperature within a range of about 1 per cent. of what we know as possible extremes. If the moon were very much larger the tidal wave would carry the entire ocean twice a day over the surface of the earth. If the earth were a little hotter, we would lose our atmosphere; if it were much larger we could not stand upright more than five minutes; nor would we be able to mount a hill except by painful crawling. If the year were twice as long as it is, it is doubtful if we could raise food enough in the summer to carry us through the winter or if we could survive the accumulated cold. In every way our earth lies just at the meeting point of two kinds of death which 'on this bank and shoal of time' we must fight with either hand. It makes no difference whether we have fixed ourselves to the earth through a long series of evolution or whether it was fitted to us; as far as we know it is the only inhabitable spot in the universe, and the chances are almost infinite that no other is so favorably located. Let us make the most we can of it."

Toes, Claws, Fingers.

The elephant, a slow-moving animal in the ordinary course, has an already observed five toes. The rhinoceros, a much faster beast, has but three. Now in the sheep we find two digits only, while in the horse, peering in the mane of mane, the number falls to a single digit. The tail of the higher mammal may have given place to a horny hoof; no matter, the finger remains, for purposes, at any rate, of comparison, a finger all the same. But I expected that many extinct hooved creatures are endowed with the full five digits, and not a few existing deer show distinct traces of two obsolete shorter "fingers." From this I gather—though the rhinoceros may not quite unreasonably be dismissed as a far-fetched—that these weaker grass-eaters have gradually dropped their digits as the struggle grew in severity and the necessity for swiftness of hand increased.

Nor, I am free to confess, did the apparent truth of this appeal to me in force until I came to compare the foot of the swift earth with that of the stately steer. It was then that I expected the fleet bird of the desert had dropped two of the four fingers permitted to most birds, having but two. The almost equally swift camel and ostrich had dropped one, being possessed of three apices. This, then, seems to me a fair rule: the fewer the digits the swifter the beast. And the rule bears the stamp of the exception necessary to grow that, inasmuch as the sluggish hippopotamus has one less than the hare. Perhaps, then, this notion of mine will apply only to the hoofed beasts. Whether the elephant might in time have dropped one or two of his digits, and at the same time died of hunger, to acquire greater pace, is an open question, and one which since the arrival on the scene of man and his ride, is likely to have been decided. These last have been powerful factors in putting a term to the development of many an interesting zoological problem.—Good Words.

The languor so common at this season is due to impoverished blood. Hood's Sarsaparilla cures it by enriching the blood.

WHEN PLANNING GIFTS.

Make One of These Very Handy and Satisfactory Needle Cushions.

When in haste to do a little mending or other sewing, did you ever look in vain for a needle in the cushion which you supposed contained a full supply? Closer examination reveals the fact that the interior of the cushion is full of them, but you do not care at such a time to press them up into sight, and you feel like saying as I have done many times, why do people make such thick cushions? Whether the needles are run in horizontally just through the surface, or stuck in upright, they won't disappear, and woe to the fingers that give the cushion too quick pressure. A cushion especially for needles is one of the conveniences of a well equipped sewing table, and greatly to be preferred to a needle book for use when one is sewing. If the needles are always stuck into it whenever not in use, instead of running them into the edge of the table cloth or the front of your waist or leaving them wherever it is hardest to drop them many less needles would disappear only to be found in some one's foot, and many finer pricks would be prevented. I recall two people who if they were to spend a morning at my sewing table unknown to me, would surely betray the fact of their presence there by the numbers of needles they would scatter about the floor. It is not so much the value of the needles, although this is almost equal to the weight in gold if it be the only one of its kind, as is often the case in some scantily furnished work-baskets, which I have seen. But a needle lost is like an unseen foe—you never know when it may appear, and it should always be diligently sought as soon as it disappears.

After the annoyance of using all sorts of "Charity Fair" cushions and gifts which kind meaning friends thought would suit me, I determined to try what my own fingers could fashion. Although it was nearly bedtime and the mending basket was not yet emptied, I knew the value of the inspiration of that moment. I quickly found a thin past-board box, about three inches long, two inches wide and a little less than an inch high, one of the kind in which the box slips into the cover from the ends. I cut the top out of the cover and put it on the bottom, then set the box into this, thus having three thicknesses of board at the bottom and two at the sides. Pieces of an old emery-stocking were cut the exact size of the box and laid into the inside until well stuffed. From a piece of silk plush large enough to cover the box and sides, squares were cut out from the corners, the plush was then fitted on with a few over stitches at the corners, and another piece was fitted to the bottom of the box and caught along the sides. A ribbon of the same shade and just the right width, happened to be in my mending basket; this was drawn round the edge and finished at one end with a bow. In less than half an hour my thought was complete and my ideal needle cushion was ready for use. The smallest needle will not sink more than two-thirds of its depth, as the card board is an effectual barrier, yet it is not hard enough to dull the points. The woolen stuffing prevents the needles from rusting and can never become rancid like meal. The cushion is light yet solid enough to keep on its base, is of uniform thickness, and has been in every way satisfactory.—American Kitchen Magazine.

Sweeping With Air

One of the greatest aids to the modern housekeeper is the pneumatic sweeper. This surprising new invention, which nobody seems to claim the honor of having discovered, and which is, therefore, open to all manufacturers, relegates the broom to the garret and takes the place of the mechanical carpet sweeper, which a few years ago was thought to be perfection.

All that is necessary to fit the pneumatic sweeper to any hotel or private house is a pipe connection for compressed air. The new sweeper consists simply of a long nozzle attached to the end of a rubber hose. The nozzle is about the same size as a broom handle.

One end of this pipe is inserted into the rubber hose, and the other carries a brass arrangement about foot in width across the face. Here there is a narrow slit running from side to side, and not more than 1.32 of an inch in width.

Through this narrow aperture the compressed air is forced at the rate of seventy-five cubic feet a minute. The housemaid using the pneumatic sweeper passes it back and forth over the surface of the carpet.—New York Herald.

Around the House.

To remove fruit and vegetable stains from white cotton and linen, wash in weak chloride and then in clear water, or hold the stained portion, dampened, over sulphur fumes and then rinse in clear water.

The best housekeeper is apt to encounter stains somewhere. For all sorts the following recipe is said to be without a peer: Put a piece of white amber the size of a walnut, a piece of potash as big as a hazelnut, and two lemons cut in slices into two quarts of clean spring water. Let it stand twenty-four hours; then dampen the spot with it and wet the place with fresh water directly afterward.

Novelties in the China Shop.

Patty cups set on silver standards are among the expensive trifles one may buy for Christmas gifts. The cups are of delicate china and fasten firmly into the silver standholders.

Pretty Dresden toast racks replace the plain silver ones in many up-to-date shops. They are much more decorative than the old-fashioned metal ones, and are much more easily kept clean.

Powdered sugar boxes of fine china are pretty and inexpensive. The broad, perforated top screws on firmly, and there is a graceful handle to make easy the act of sweetening the morning buckwheat cakes.

SOAP BUBBLES.

Their Color and Their Wonderful Thinness Determined.

The extreme thinness of the bubble is indeed wonderful. It is estimated that the film in some places is only one three-millionths of an inch in thickness. Probably few of us can conceive of such thinness. Let us express it in another way. The Old and New Testament contain some three million letters. Now one three-millionth is such a part of an inch as the first letter of the Bible is a part of the sum of all its letters. The bubble, however, is not of equal thickness at all points, and it is for this reason that it has the various colors. For instance, wherever the film is orange-red it measures about three one-millionths of an inch; where it is blue, eighty one-millionths of an inch; and at a point where lemon-yellow is prominent, about twenty one-millionths of an inch. Perhaps you wonder why the colors change from one part of the soap bubble to another. This is because the film of the soap-bubble evaporates and grows thinner, but unequally so at different portions. A greenish blue with a pale rose-red spot near it indicates an extreme thinness, and at such a point the film is ready to give way at the least jar.

You will be glad to know the source of the beautiful colors. Everyone is delighted with them, even if not interested by the explanation of their origin. We may say that they come from the light. Light gives color to all objects, but not exactly as it does to the soap-bubble. White light from the sun can be broken into the seven colors which we have seen in the rainbow. In that instance the raindrops separate it into its parts. A glass prism will do the same, as you may prove by looking through a glass pendant from a hanging lamp. When the light reaches the surface of the soap-bubble a part is reflected from it, and we see images on the surface as if it were a curved mirror. Another portion of the light, however, enters the film and is separated so that a part of the seven colors are thrown into the bubble, and we can see them at various portions of the opposite surface. Another part of the light, after being broken by the film, is reflected by its inner surface back to our eyes, so that we see colors at the point where the light enters.—Jacob F. Butcher, in St. Nicholas.

Electricity Made at Home.

It has been discovered that if a steel knife and a silver fork are inserted in a large orange an electric current will be generated. If the end of the fork and the end of the knife sticking from the orange are connected with an electric measuring instrument, quite a perceptible current will be seen to pass. The same kind of a battery can be made by substituting a cucumber in place of the orange, in fact, any acid fruit can be used.

In order to make a voltaic pile it is only necessary to procure ten or more pieces of zinc about one inch square, the same number of pieces of copper, and a like number of pieces of paper. The paper should be thoroughly soaked in vinegar.

First, take a piece of zinc; on it place a piece of vinegar-soaked paper, then put on a piece of copper, then a piece of paper, and so on until all the pieces of zinc, copper and paper are used up. It is important that a piece of zinc should be on one end and a piece of copper on the other. After the pile is completed, again soak the whole slightly in vinegar, then clean it off on the outside.

If the forefinger of one hand is held against one end and the forefinger of the other hand is held on the other end of the pile, quite a perceptible current will be felt. If several persons clasp hands and the persons on each end of the line touch the voltaic pile, the current will flow through the bodies of all those in position.

Free Trial To Any Honest Man

The Foremost Medical Company in the World in the Cure of Weak Men Makes this Offer.

HEALTH AND ENERGY ASSURED.
HAPPY MARRIAGE, GOOD TEMPER, LONG LIFE.

In all the world to-day—in all the history of the world—no doctor nor institution has treated and cured so many men as the famed KEEFE MEDICAL CO. of Buffalo, N. Y.

This is due to the fact that the company controls such invigorating and powerful medicines as are equal in the whole realm of medical science.

So much deception has been practiced in advertising that this grand old company now for the first time makes this startling offer:— They will send their costly and magically effective medicine and a whole month's dose of restorative remedies, positively on trial without expense to any honest and reliable man! Not a dollar need be advanced—not a penny paid—till results are known to and acknowledged by the patient.

The Keefe Medical Company's appliances and remedies have been talked about and written about all over the world, till every man has heard of them.

They restore or create strength, vigor, healthy nerve and new life.

They quickly stop drains on the system that sap the energy.

They cure nervousness, despondency and all the effects of evil habits, excesses, overwork, etc.

They give full strength, development and tone to every portion and organ of the body.

Failure is impossible and age is no barrier.

This "Trial without Expense" offer is limited by the company to a short time, and application must be made at once.

No O. O. D. scheme, no bogus philanthropy nor deception, no exposure—a clean business proposition by a company of high financial and professional standing.

Write to the KEEFE MEDICAL COMPANY, BUFFALO, N. Y., and refer to seeing the record of their offer in this paper.

Make not a noise with thy tongue, mouth, lips or breath, either in eating or drinking.

Morning Times

PETERBOROUGH, FEBRUARY 25, 1898.

KEENE NEWS

A special meeting of the Lime Juice club was held in their hall on Saturday night last for the purpose of discussing the advisability of having a change in the government on March 1st. After calling the meeting to order President Decackey placed a pall of water in front of him and directed himself of his coat, and addressed the members as follows: "My dear beloved brethren, it is needless for me to intimate to you that we have assembled together to-night to discuss very important business, namely, the prudence of defeating the Hardy government. I can and do boldly declare that it is time for a change and don't you forget it. The present government has held the reins in their hands for a term of 26 years, if my memory don't deceive me, and surely no sensible right thinking person, be he Tory or Grit, will dispute that it is time for a change. I do not respect nor will I support any government that is too big and I consider the present Hardy government is entitled to that title, for undoubtedly they deal in pork and sometimes sell it when it is diseased, and don't you forget it. It behooves us as a club to use our influence in the right direction and endeavor to elect a representative who will put his foot on all corrupt practices, and by strict measures so elevate the reputation of our fair province that no politician can raise their voice in either condemning representatives or the laws of our government."

Decackey now became very excited and eloquent and took the liberty of asking Shat Taylor to go over to Mr. Lumsden's for a pall of water. Shat very pointedly told him that he just thought he had a great deal of gall to ask him to carry water. Decackey made a bound over his desk and lit on Light-foot Cronk's foot, crushing two of his toes to a jelly.

Light-foot jumped up and gave Decackey a Fitzsimmons on the ear, which sent him across the room and as he struck the wall he bounded back and fell on Positive Legget. Positive in his anger struck Bruin Spiets, who was rather enjoying the fun, but lo and behold the scales now turned and he now for revenge deluged Laughing Ashburn and Sandy Paterson. Decackey now perched himself on top of a bench and continued his lecture in a very laudable tone.

"Brethren pay particular attention to what I now say. I now wish to ask all the members of this club who will pledge themselves to vote for Dr. Ford on March 1st to rise to their feet. All stood up but Bruin Spiets. He was at once fined \$10.00. The meeting was then closed by singing the national anthem."

Rheumatic People

Do not want waste words. If ailing they want curing or cure. I here say "NEW LIFE" will positively cure you of all forms of Rheumatism, Sciatica, Lumbago, Neuralgia or Gout. "It has been said by users that a bottle of "New Life" is worth a man's weight in gold." Send for free pamphlet on "New Life Cure."

at Jarvis street, Toronto

TOWNSHIP OF DUMMER

Regular Meeting of the Dummer Township Council

Dummer Council met in the Town and Agricultural Hall, Warsaw, on Saturday, Feb. 19th, 1898. All members present. Minutes of last Council read and signed.

Auditors' report was presented by A. F. Choate, auditor.

Moved by Jno. Darling and Jno. Williamson that the auditors' report be now checked by Council and that the Clerk be authorized to have 150 copies printed in pamphlet form for distribution, and that orders be drawn on Treasurer for \$4 each in favor of A. F. Choate and William Fitzpatrick, as auditors.—Carried.

Moved by Jno. Darling, seconded by Jno. Williamson, that a refund of statute labor tax, \$4.16, be refunded to Duncan Anderson, per David Kelly, the same having been paid in both taxes and road-work.—Carried.

Moved by N. Payne, seconded by Wm. Miles, that an order be drawn on Treasurer for \$2.50 for fifty loads of gravel in favor of Duncan Anderson; also refund of statute labor tax of \$1 in favor of Alex. Hattie, per Jno. Miles collector, the same having been taken on a pathmaster's certificate and allowed on taxes.—Carried.

Moved by Nathan Payne, seconded by Jno. Williamson, that Mrs. George Matthews' taxes and interest amounting to \$1.71 be abated, and that collector be instructed to abate same, also Treasurer.—Carried.

Moved by Nathan Payne, seconded by Jno. Darling, that the Council alter the boundaries of school-section Nos. 9 and 11, Dummer, taking from school-section No. 9 the South-East quarter of Lot 20, Con. 8, Dummer, and adding same to school-section No. 11, and that the Clerk be authorized to attach the corporate seal to give same the force of a by-law.—Carried.

Moved by Jno. Darling, seconded by Jno. Williamson, that the Council abate to Thos. McDonald \$2, and 8 cents interest, for two days' statute as charged on collector's roll, same having been done on another road-beat, on certificate.—Carried.

A deputation waited on the Council, composed of E. Hawthorne, Walter Jno. Kidd and Robt. W. Payne, in the interest of the Agricultural Society as to the advisability of enlarging or building a new town hall, Warsaw, as the hall is at present too small for public meetings. Moved by William Miles, seconded by John Williamson, that Nathan Payne be a committee appointed in behalf of corporation to meet the Agricultural committee as to the erection of same, and report at next council meeting as to proposed actual cost.—Carried.

Moved by Jno. Williamson, seconded by Nathan Payne, that the account of Brown Bros. Toronto, for \$3.40 for new Treasurer's cash book be received, and that an order be drawn on Treasurer for same.—Carried.

Application from G. Kepler, editor of Norwood Register, as to printing council minutes, left in the hands of Jno. Williamson, with power to act.

Having received written legal advice respecting the passing of the local option by-law as authorized by this council for reeve to get before the final passing thereof and whereas the proper publication of by-law is in compliance with Chapter 42, Section 293, Clause 1 of the Consolidated Municipal Act of 1892, moved by Jno. Darling, seconded by Jno. Williamson, that the third reading of said by-law be dispensed with, and any part of by-law already passed be rescinded.—Carried.

Moved by Jno. Darling, seconded by William Miles, that the standing order passed June 12, 1897, in favor of Henry Argue for \$10 yearly as charity, payable quarterly, be increased \$6 more yearly, making it \$16 yearly, to be paid in quarterly installments, at \$4 each, the first quarter to start April 1st, and to be paid July 1, 1898, and that the original motion be rescinded.—Carried.

Petition received re extension of Trent Valley Canal from the Mayor of Orillia, the same to be extended from where at present furnished by Talbot River to Lake Simcoe and Couchiching, via Orillia, moved by Jno. Darling, seconded by Nathan Payne, that the reeve and clerk be authorized to sign same, and attach corporate seal and return same to clerk of Orillia.—Carried.

Communication for Sick Children, Toronto, left over until next meeting of Council.

Moved by Jno. Darling, seconded by Jno. Williamson, that road-division No. 21 be divided, and that the new division be 21A, the division to be between Lots 3 and 4, Con. 12, Dummer.—Carried.

Moved by Nathan Payne, seconded by Jno. Darling, that we appropriate \$80 to each road division, and that the following road commissioners be appointed: Road division No. 1, Wm. Miles; No. 2, Nathan Payne; No. 3, Jno. Williamson; No. 4, Jno. Darling; No. 5, Henry A. Moore. And that by-law be drawn up covering the same.—Carried.

BY-LAW NO. 633, to appoint Road Commissioners, and make road appropriation for A.D. 1898, underwent its several readings, was sealed and signed.

Moved by Jno. Williamson, seconded by Nathan Payne, that the new form of road list, as revised by the clerk, be adopted, and that same be used in township.—Carried.

Council adjourned to meet again on Saturday, May 25th, Court of Revision on Assessment Roll of A.D. 1898, and general business.

Hair
Hints

It is much easier to keep the hair when you have it than it is to restore it when it's lost. If your hair is "coming out" it needs instant attention. The use of AYER'S HAIR VIGOR will promptly stop the hair from falling, and stimulate it to new growth.

"Some years ago my hair began to fall out and I became quite bald. I was advised to try

Ayer's
Hair
Vigor

and had used it but a short time when my hair ceased to fall out and a new and vigorous growth made its appearance. My hair is now abundant and glossy.

THOS. DUNN,
Rockville, Wis.

By Jno. Darling, that the following be appointed township officers, viz: tax-assessors—Edward Barlow, Arthur Edwards, Lazarus Dunford, Sam. Dwyer, Thomas Dalton, Jno. Patterson, John Jenkins, Charles Nicholl, Wm. H. Howson, Sam. Adams, John Dewyer, Alex. Calder, Albert Jettson, Rich. Patterson, Frank Parker, Hamilton Humphrey, Robert Small, Alex. John, Thos. G. Foster, John Burgess, David Harrie, Robert McConnell, Robert Kidd, Jr., A.W.D. Payne, Ian. McMillan, James Gardner, Edward Martin, Stinson Humblin, John Cooper, Michael Barr, Wm. Fitzpatrick, Wm. W. Clydesdale, James Gardner, Wm. Andrew, Jr., Jno. McKillop, Michael Hannon, Henry Mustard, Geo. McFee, Josiah Payne, Thomas Wilson, Elgin Snider, Pat. Fitzpatrick, Joseph Cooper, Rich. Deen, Paul Payne, John Deen, John Newham, Henry Dewart, Wm. Clydesdale, Wm. Henry Dewart, Samuel Clydesdale, Rich. Taylor, Hugh Foster, Russaw, Wm. Gratten, Eli. T. Hubble, Charles Ruessaw, John A. Rorabeck, Samuel Wall, Nathan A. Payne, Frank McLaughlin, Geo. Payne, Jr., Joseph Payne, James Jenkins, Thos. Cuthbertson, Wm. J. Grant, Frank Jory, Rich. Crowe, Alex. Darling, Hugh Foster, Sr., George Carveth, Robt. Brown, Wm. B. McCracken, Jno. Matthews, Jos. Moore, Albert Dunford, Thos. H. Crowe, Frank Crowe, Sr., Wm. Miles, Thos. Chuff, John A. Robt. James Miles, Jno. Brown, Jr., Jno. Nison, Wm. Rut-Grant, James Robt. Robert Summers, Wm. Jno. Moore, Wm. Armstrong, Alex. Calder, Thomas Crowe, Joseph Doughty, Robt. Cannon, Frank Harding and Henry Hughes.

Fence Viewers—Jno. Tucker, Walter Vets, Jno. Kidd, George Peters, Mick. Barr, Alb. D. Payne, Robt. McConnell, Geo. Kirk, Sr., Sam. Adams, Henry Edwards, Jos. Edwards, Robt. Bullock, Frank Crowe, Rich. Darling, and James Little.

Pound-keepers—E. Crow, David Kelly, Geo. Goudreau, Robt. Gardner, Sr., John Burgess, Jno. Clements, Wm. Carveth and James Baptie. And that By-Law No. 632 be drawn up covering same.—Carried.

BY-LAW NO. 632, appointing path-masters, fence viewers and pound-keepers in Township of Dummer for 1898, underwent its several readings, was sealed and signed.

Moved by Jno. Williamson, seconded by Nathan Payne, that the new form of road list, as revised by the clerk, be adopted, and that same be used in township.—Carried.

Council adjourned to meet again on Saturday, May 25th, Court of Revision on Assessment Roll of A.D. 1898, and general business.

How to Cure All Skin Diseases.

Simply apply "Swany's Ointment." It is guaranteed to cure. Cures itching, eczema, itch, all eruptions on the face, hands, arms, &c., leaving the skin clear, white and healthy. Its great healing and curative powers are possessed by no other remedy. Ask your druggist for Swany's Ointment. It cures all skin diseases. Avoid substitutes.

WEAK MEN YOUNG
OR OLD

Suffering from DRAINS, LOSSES, WEAK BACK, IMPOTENCY, VARICOCELE, etc., I say to you as man to man, as physician to patient. DRUGS NEVER cure. Why not use nature's own simple remedy

ELECTRICITY?

With my ELECTRIC BELT and SUPPORTING USPENSORY I cured 5,000 last year. Book, "THREE CLASSES OF MEN" explaining all, sent sealed free upon request. Or, if you live near by drop in and consult me free of charge.

Intercolonial Railway
OF CANADA.

The direct route between the west and all points on the Lower St. Lawrence and Baie des Chaleurs, Province of Quebec, also for New Brunswick, Nova Scotia, Prince Edward and Cape Breton Islands, Newfoundland and St. Pierre.

Express trains leave Montreal and Halifax daily—Sunday excepted—and run through without change between these points.

The through express train cars of the Intercolonial Railway are brilliantly lighted by electricity and heated by steam from the locomotive, thus greatly increasing the comfort and safety of travelers.

The popular summer sea bathing and fishing resorts of Canada are all along the Intercolonial, or are reached by that route.

Passengers for Great Britain or the Continent, leaving Montreal Sunday morning will join outward mail steamers at Rimouski the same evening.

The attention of shippers is directed to the superior facilities offered by this route for the transport of flour and general merchandise intended for the eastern provinces, Newfoundland and the West Indies, also for shipments of grain and produce intended for the European markets, either by way of St. John or Halifax.

Tickets may be obtained and all information about the route, also freight and passenger rates, on application to
R. KING,
Station Agent,
Sparks St., Ottawa.

READ WHAT PHYSICIANS SAY OF

POND'S EXTRACT

PHILADELPHIA, Dec. 29, 1894. I have used "Pond's Extract" for many years and always insist upon my patients getting "Pond's," not the ordinary Extract, which is often a very poor article. W. K. BROWN, M. D.

PHILADELPHIA, Jan. 9, 1895. I use Pond's Extract a great deal in my practice. I think it very valuable in all venous enlargements. J. L. BRADFORD, M. D.

SANTA BARBARA, CAL., Nov. 27, 1894.

I have been using Pond's Extract in my practice for twenty years. I frequently have the experience you mention of druggists insisting they can put up as good as yours. I don't believe it. I use Pond's Extract a great deal as an antiseptic in combination with glycerine and carbolic acid. I think it far superior to any antiseptic known. F. G. FLOURNOY, M. D.

COLUMBIA, PA., Jan. 18, 1895. I have been a constant user of Pond's Extract since 1859, and do not expect to discontinue it while I live. S. ARMOR, M. D.

CHELSEA, MASS., Nov. 8, 1894.

I have made diseases of the skin a specialty for thirty years, and am free to say I know of no remedy that has given me such perfect satisfaction as Pond's Extract in cases for which it is recommended. G. W. BARCOCK, M. D.

ASTHENICS' INSTITUTE, Buffalo, N.Y., Dec. 8, 1894. I know Pond's Extract to be a valuable remedy, and shall continue its use whenever the opportunity offers. GEO. H. CALKINS, M. D.

NEWARK, N. J., Dec. 13, 1894.

I am pleased with the purity and strength of Pond's Extract. J. L. DUVRE, M. D.

POND'S EXTRACT is used by the leading physicians and principal hospitals of America and Europe.

1,000 ORDERS FROM PHYSICIANS WITHIN ONE MONTH DURING LAST AUTUMN.

POND'S EXTRACT is unrivaled for Cuts, Burns, Bruises, Cold, Catarrh, Piles, Inflammation, Hemorrhages and all Pains.

Send for Pamphlet (free). POND'S EXTRACT CO., 76 Fifth Ave., New York.

MAYOR'S OFFICE.

Mr. Davis will be at the Town Offices, from 9 to 10 o'clock, each morning to meet those having business to transact. A. L. DAVIS, Mayor.

Fresh and cheap. Fresh marmalade oranges; cheap. J. B. Oke.

Washington Navel Oranges—"Spot Cash."

HOCKEY EXTRAORDINARY

Pills vs. Puffy Hockey Match at the rink last night.

A fast and exciting game of hockey was played at the rink last night between the druggists and the hardware clerks. The hardware men may be hard men, but they don't act fast as pills and so they were left behind last night. At the close of the game the druggists carried the goalposts of their opponents at their belts, having won the victory by a score of five goals to three.

The match was brilliant throughout, some most marvellous plays being made on both sides. After the match the druggists offered to fix the hardware men up with patent medicines, but the hardware men declined, alleging that they had been drugged already. The druggists think they can put anything to sleep that ever stood upon ice, but the hardware men are willing to try them again, provided they are allowed to use iron hockey sticks. Every pill-pounder had his pockets filled with sticking plaster last night, but it was not necessary to use any of it.

Washington Navel Oranges—"Spot Cash."

DISTRICT AND LOCAL TOPICS

Reporter's Phone, 164 B.

Town council meets to-night. Quaker Oats—"Spot Cash."

See the Times' Bookstore windows for bargains. Marmalade oranges—"Spot Cash."

Best quality letter size writing tablet, only 20 cents.—Times' Bookstore. Marmalade oranges—"Spot Cash."

Dr. Ford will address a big meeting in the Ashburnham town hall this evening.

Buy your Stationery and School supplies at the Times' Bookstore, the cheapest place in town.

The Neil Burton Entertainment Company will present a program at St. Andrew's church to-night.

The Printers and a team from the Wm. Hamilton Mfg. Works will play a hockey match at the rink to-morrow night.

The anniversary of the Charlotte street Sunday school will be celebrated by a concert in the church next Monday evening.

Mr. Garvin addressed a meeting of the electors at Benford school last night. He will be at Buckhorn this evening.

Ice races are to be held on the Ontario and Durham exhibition track at Whitby on Thursday and Friday, March 3rd and 4th. First day purses—227 race, \$100; 250 race, \$100. Second day—free-for-all, \$100; 235 race, \$100; fast named race, \$100.

Mr. Jas. McCarrel, of Cavan, who was killed by a horse over a week ago, died from the injuries he sustained at the residence of his father in Emily, yesterday. He was 41 years of age and leaves a wife and family.

Both the Foresters and Epworth League conventions have closed, and most of the delegates have left for their homes. The streets have presented a busy appearance this week owing to the presence of about three hundred strangers. All the visitors speak well of their treatment while here, and wish Peterborough all prosperity.

PERSONAL AND SOCIAL

Councillor W. L. Allen is back to town.

Mr. A. W. Lockhart, formerly clerk for Mr. J. M. Armstrong, has accepted a position with Messrs. E. F. Mason & Co., and will commence his duties to-morrow. No doubt the good wishes of his many friends will follow him.

Mr. J. H. Brandon, of Fenelon Falls, is in town on business. Mr. Brandon reports East Victoria safe for Carnegie with a large majority and a strong probability of Mr. Sam Fox, the Conservative candidate, carrying West Victoria as well.

THE CONVENTION CLOSED

Final Sitting of the High Court of the Canadian Order of Foresters.

Yesterday was the last day of the convention of the High Court of the C. O. F., and in the evening the Court adjourned to meet next year in the city of Brantford. The only important business of the morning session yesterday was the report of the Committee on Appeals. It dealt with a rather peculiar matter. Madawaska and Fraserville, both in New Brunswick, are eighteen miles apart and each have a Court of Foresters. Two men from Madawaska joined the Fraserville Court and the brethren of Madawaska thought they had no right to join an outside court. They appealed to the executive committee, which threw out the complaint and similar action was taken by the High Court yesterday.

In the afternoon the newly-elected officers for 1898 were installed with due and formal ceremonies. The list is as follows: High Chief Ranger—R. Elliott, Ingersoll, Ont.

Past High Chief Ranger—H. Gummer, Guelph, Ont.

High Vice Chief Ranger—J. R. Allen, Toronto, Ont.

High Secretary—Thos. White, Brantford, Ont.

High Treasurer—John Neelands, Wingham, Ont.

Chairman Medical Board—Dr. U. M. Stanley, Brantford, Ont.

Associate Medical Board—Dr. R. C. Young, Ridgeway, Ont.

Medical Referee—Dr. E. C. Campeau, Montreal, Que.

Auditor—Thomas W. Gibson, Bureau of Mines, Toronto, Ont.

High Registrar—D. R. Kennedy, Montreal, Que.

High Chaplain—Rev. G. G. McRobbie, Shelburne, Ont.

Executive committee—H. D. Henderson, Whitechurch, Ont.; F. J. Jamieson, Peterborough, Ont.; H. Gummer, P. H. C. R., Guelph; George Faulkner, Guelph; H. Brown, Montreal.

This was the last formal business of the session. The Foresters separate after a most successful session. The reports for the year as received from the different officers were all of a highly encouraging nature and the members are assured of a brilliant future for their energetic Canadian society. They leave town delighted with their visit, a great many of them having expressed their pleasure at the cordial welcome extended them and their high appreciation of their treatment at the hands of Peterborough's citizens. Peterborough is fortunate in having been selected as the place of convention for great good must result to the town in having been visited by so many representatives men from all parts of Canada. Too much credit cannot be given to the local courts and their officers for the pains and time spent in arranging the convention and for the successful manner in which they carried it out.

Spot Cash Grocery Company, 352 George street, succeeding Alex. Elliott's grocery business. Dinna forget.

Delightful Pastry. McQuay, Baptie & Co. are selling the most delightful pastry in town. Opposite Adam Hall's.

Quaker Oats—"Spot Cash."

The Hall of Bread. McQuay, Baptie & Co's bread is pronounced to be first-class. Only 10c. for a large loaf.

Quaker Oats—"Spot Cash."

Liver Ills

Liver biliousness, dyspepsia, headache, constipation, sour stomach, indigestion are positively cured by Hood's Pills. They do their work easily and thoroughly.

Hood's Pills

Best after dinner pills. 10 cents. All druggists. Prepared by C. I. Hood & Co., Lowell, Mass. The only pill to take with Hood's Sarsaparilla.

EPWORTH LEAGUE CONVENTION

Last Day of the Bay of Quinte Conference.

Yesterday was the last day of the annual convention of the Bay of Quinte conference of the Epworth League. A full attendance of delegates was present at the George street church and great interest was manifested in all the proceedings. The different papers and addresses were all of a highly interesting and instructive character and all who attended must feel greatly benefited by the meeting. The evening session was especially well attended, the church being crowded. The addresses by Rev. Mr. Watch, of Brighton, Mr. M. B. Jamieson, of Belleville, Mr. E. Deroche, of Deseronto, and Rev. Mr. Kenny, of Grafton, were especially interesting. The paper read in the morning by Miss Humbley, of Manilla, on Missionary Information contained a number of practical helps. The convention has been a most successful gathering. The full report of yesterday's program is as follows: Forenoon (Missionary Department Session).

9:30—Prayer service, Messrs. Rines, Hamilton.

Scripture lesson, Rev. W. G. Clark, B. A., Peterborough.

Prayer service. "The Benefits of Giving to the Giver" Rev. C. R. Clare, Greenwood.

Musical. "How to Secure Missionary Information" Miss Maude Hamby, Manilla.

Election of Nominating Committee. Musical, duet, Messrs. Rhines, Hamilton.

"The Missionary Committee at work" Rev. W. S. Boyce, South Bay.

Musical. Missionary Campaign Work, F. C. Stephenson, M. D., Toronto.

Afternoon (Junior Department Session).

Praise service, Messrs. Rines, Hamilton.

Scripture lesson, Rev. J. E. Moore, Peterborough.

Prayer service. Treasurer's report followed by discussion.

Report of Nominating Committee and election of officers.

Musical. "Qualifications, duties and opportunities of a Junior League Superintendent" Miss E. M. Werry, Tyrone.

"What shall we teach in the Junior League?" Miss L. W. Brookling, Cobourg.

A second ballot for officers if necessary, may be taken here.

Musical, solo, Miss M. Hendren, Lakefield.

"The necessity and value of Junior League work" Mrs. Jordan, Fenelon Falls.

"How to teach the Juniors to testify without making a false profession" Miss Minnie B. Lloyd, Belleville.

Address to Junior Leagues, Rev. S. T. Bartlett, Madoc.

Musical, duet, Messrs. Rhines, Hamilton.

Model Junior League.

A third ballot for officers, if necessary, may be taken here.

Evening (Social Department Session).

7:30—Praise service, Union Choir.

Scripture lesson, Rev. D. O. Crossley, Peterborough.

Prayer service. Report of scrutineers upon election of officers.

Report of Committee on Resolutions. Introduction of officers elect.

Musical and collection. "The Epworth League as a means of educating the social emotions" Rev. C. W. Watch, Brighton.

"Social Mission of Christianity" M. B. Jamieson, Belleville.

Musical, Messrs. J. H. and Bert Rines, Hamilton.

"Social life in the League—how to promote it" Rev. W. J. Joliffe, B. C. Lakefield.

Musical, solo, Miss M. Hendren, Lakefield.

"Committee work in Social Department" Rev. H. B. Kenny, Grafton.

Vice-President of Social Department. Musical. Benediction.

A SUDDEN DEATH

Unexpected Death of Miss Beattie West Yesterday Morning.

Yesterday morning Miss Beattie West died at the residence of her father, Mr. Robert West, George street, in a very sudden manner. Although suffering from rheumatism of the heart, the young lady had been ill only a few days, and no serious results were anticipated.

She was twenty-six years old. She was a member of St. Paul's church, and taught a class in the Sunday school. She was employed in the factory store of Mr. J. W. Butcher.

Her many friends will feel her death with deep regret.

The funeral will take place this afternoon at 1:30 from the family residence, 698 George street, to the Keene cemetery.

A DUMMER WEDDING

Marriage of Miss Emma Houston and Mr. Wm. B. Barrett.

On Wednesday evening a very interesting event took place at the residence of William J. Houston, Esq., of South Dummer.

The occasion was the marriage of his eldest daughter, Emma E. Houston, to William D. Barrett, youngest son of Samuel Barrett, Esq., of Salem, Ontario.

The ceremony was performed by Rev. D. N. McCamus of Port Perry, uncle of the bride, assisted by Rev. J. A. McCamus of Norwood, and Rev. F. W. White, R.A., of South Dummer.

A large number of friends were present. Many beautiful presents were offered in evidence of high esteem and good wishes.

Choice oranges and lemons at lower prices than elsewhere.—Spot Cash.

Morning Times

PETERBOROUGH, FEBRUARY, 28, 1908

PARTY ORGANS

Our local Liberal contemporary of last evening has an article in which it refers to "the morning organ of Mr. Garvin," by which designation, judging from the nature of the article, it refers to the Times. The Times is not an organ of Mr. Garvin or the Conservative party, having no connection with either in any way whatever. It is an independent sheet, standing aloof from both Grit and Tory, but maintaining its right to criticize the acts or words of public men of either party or of the papers which support them in all their dealings.

If we have made comments during this campaign unfavorable to Mr. Stratton, it was not with the purpose of helping his opponent, but simply because Mr. Stratton, in appearing before the public for re-election, invites open examination and criticism of his record and methods in politics, and we would be failing in our duty if we did not present to our readers our opinion on these public matters. We are not supporting Mr. Garvin. If we did not give that gentleman as much notice in these columns as we did to Mr. Stratton, it is because the latter has a twelve years record behind him while his opponent is, as yet, untried, and therefore, having done nothing in a representative capacity, is less prominent than the late member. Did he occupy the position Mr. Stratton does today he would receive our criticism just as freely as that gentleman. We are not interested in having Mr. Garvin elected, and we therefore do not support him, but, like everyone else, we are interested in the member who has represented the riding in the Legislature and asks the people to again put their confidence in him.

We indulge in none of the fulsome praise of the candidates such as the party papers of the town are guilty of, knowing how much respect it is regarded by the people.

We do not try to "laugh off" Mr. Garvin's conduct. We leave to that gentleman the defence of his own actions, believing that he is quite capable of protecting himself against the Examiner, or if not the Review will do it for him. Our article on the matter was not a defence of Mr. Garvin, and was never intended for such. The "would-be humorous" article of ours was simply a comment on the would-be sensational one in the defender of Liberalism.

Stratton's "Farthest North," A Tale of the Colonization Roads, is a political comedy of the modern realistic style. Its plot and intrigue it is far superior to Masson's work.

The Conservatives have the Opera House to-night. Who will have it Tuesday night?

Mr. Stratton is going to see that politics are kept pure in this riding. Isn't that a joke.

The blow almost killed Stratton when the names of his pet Italians were struck off the registration lists.

Mr. Hazard has been acting campaigning in the East riding this week and feels confident of being elected with a good majority.

Whether or not Mr. Garvin canvassed in Ennismore last Sunday almost everyone will admit that he is a political snail in comparison with his opponent.

Perhaps Mr. Garvin has got so used to electioneering that he does it in his sleep. He may have been taking his Sunday nap out through Ennismore last Sunday.

Capt. Sigsbee's bicycle has been recovered from the Maine. Let the board of inquiry drop all other matters till it finds out how the wheel stood the shock of explosion and what make it was.

Certain defeat has had a frightful effect upon the Grit newspapers. Even the Toronto Globe has degenerated into a scurrilous slangwhanger. Hamilton Spectator. How is that for language?

A walking delegate in New York wants to organize a regiment of volunteers to fight the Don. He announces: "I am ready to lead them to Cuba myself." Of course. All the volunteers are willing to be captains and generals.

Of Mr. Stratton, when Mr. Garvin charged him with revealing the way the electors voted and with using the road money as a bribe, it might be said that "seeing, he saw not, and hearing, he heard not, neither understood he these things."

An Austrian engineer has discovered that sea water can be made drinkable by being forced by immense pressure through a tree trunk. This discovery will prove of inestimable value to shipwrecked sailors floating in small boats.

Dragged From a Condition of Physical Wretchedness and Misery

PAINE'S CELERY COMPOUND WAS THE DELIVERER

Mr. Barrard Says:
"Surely the Medicine Which Has Done so Much for me will Prove a Blessing to Others"

Most Desperate Cases of Rheumatism are Overcome by Nature's cure, Paine's Celery Compound

The Only Remedy for Pain Racked and Stiffened Limbs

Wells & Richardson Co.,
Dear Sirs:—Just a year ago I was attacked by inflammatory rheumatism in its most acute form, which totally incapacitated me from pursuing my trade—that of a tailor—or in fact from doing work even of the very lightest kind, as every nerve in my body was affected. I was in this distressing condition for more than seven months, when I commenced to use Paine's Celery Compound. I soon began to realize the beneficial effects of the medicine; but my case was an obstinate one, and required the persistent use of the Compound for some months before I was able to move about. I am thankful to say I am so far recovered that I have commenced work again; and I am very hopeful that by continuing the use of the Compound a little longer I shall, please God, be restored to my wonted health and strength again. Surely the medicine that has done so much for me will prove an equal blessing to others similarly affected; and to such I say: "Give Paine's Celery Compound a trial." For what your medicine has done for me you have my most grateful thanks.

Yours truly,
JOHN BARRARD, Barrie, Ont.

THE FEMINE OBSERVER

Joy never kills but worry does.

Adversity is the trial of principle.

Common sense is, as a rule, most uncommon.

Promptness is a jewel very few women apparently consider fashionable.

It is said that the dreams you have after daylight will surely come true.

Nearly every woman has at some time in her life been really stage-struck.

No woman can be considered beautiful whose hair is not perfectly clean.

FINANCE COMMITTEE

Councillor Denne presented the report of the Finance Committee as follows:

To the Mayor and Council of the Town of Peterborough:

Gentlemen,—Your Finance Committee beg leave to report and recommend as follows:

1. That the settlement with North Monaghan, by which the town paid to the township \$62.50 in full for costs in respect to the sewer dispute, and the town received from the township \$62.50 for its costs in the recent motion, be confirmed.

2. That the payment of an account of Kingan & Allen for \$4.65 be confirmed.

3. That as this town has hospitals no action be taken on the application of the trustees of the Hospital for Sick Children, Toronto, for a grant.

4. That all moneys received in consultation of the sewer frontage be paid over to the town trust commissioners for investment, along with that portion of the sinking fund annually collected.

5. That a grant of \$25 be given to the Poultry and Pet Stock Association toward the expenses of the exhibition recently held by the Association.

6. That John Cousins be paid 50c; John Drummond, 50c; and Richard Wilkinson 3.25 for culling sewer pipes, and that these amounts be charged to the Ontario Sewer Pipe Company.

7. That the following accounts be paid:

T. H. G. DENNE,
Chairman.

The report was adopted.

COMMITTEE OF THE WHOLE.

Councillor Denne presented the following report:

To the Mayor and Council of the Town of Peterborough:

Gentlemen,—Your committee of the whole council beg leave to report and recommend as follows:

1. That the Street and Bridge Committee be authorized to purchase a roller or plow for cutting the ice on the sidewalks, the cost not to exceed \$50.

2. That broken stone be purchased from JJ. Gibson and others to the quantity of about four or five cords and that it be paid for at the rate which broken stone costs the town, and that the treasurer pay for them on the certificate of the street inspector.

3. That Thos. Farrington, Collector's bailiff, be given a special grant of \$20.

4. That a grant of \$50 be made to the local courts of the Canadian Order of Foresters towards the expense of entertaining the Eight court.

5. That the action of the committees in authorizing a cheque for \$62.50, the amount received from North Monaghan for town solicitor for costs in Peterborough v. Monaghan be confirmed.

All of which is respectfully submitted.

T. H. G. DENNE,
Chairman.

The report was adopted with exception of clause 2.

FIRE, WATER AND LIGHT

Councillor White presented the following report:

To the Mayor and Council of the Town of Peterborough:

Gentlemen,—Your Fire, Water and Light Committee beg leave to report and recommend as follows:

1. That the \$400 rental charged the Peterborough Light & Power Co. for having power be struck off the books from January 1st, 1908, provided the

company reduces the price of the street electric lights to \$40 each all round from the same date.

2. That a sufficient supply of oats be purchased for the fire stable.

3. That this committee be authorized to purchase sleighs for drawing the hooks and ladders for the fire department.

4. That the following supplies be purchased for the fire department—100 feet of hose, two ladder poles, one dozen hose keys, a long wrench for hydrants, one controlling nozzle and one pair of horse blankets.

All of which is respectfully submitted.

J. M. WHITE,
Chairman.

The report was adopted with exception of clause 3, which was struck out.

Clause one was referred back to the whole council.

STREET SUPPLIES

Councillor Dawson moved, seconded by Councillor McWilliams, that the Street and Bridge Committee advertise for tenders for the streets.

The motion carried.

THE UNDERWRITERS

Councillor Hamilton wanted to have a deputation appointed to treat with the Underwriters Association with the object of getting the town placed in class A.

Councillor Denne thought the same deputation should also urge the Ontario Government to deed over the water front to the town.

It was decided on a motion that the Mayor and Councillor J. M. White be a deputation to wait on the Underwriters Association.

PAYMENTS FOR SEWER PIPES

It was decided on a motion of Councillor Best to pay the Ontario Sewer Pipe Co. \$800 on account of pipes delivered.

The council then adjourned.

THE BREWERS SIDE

A DEPUTATION AT OTTAWA DISCUSSING THE PLEBISCITE WITH THE DOMINION GOVERNMENT.

(Special to the Times.)

Ottawa, Feb. 25.—Messrs. O'Keefe, of the O'Keefe Brewing Company; Davies, of the Dominion Brewing Company; Toronto; Davies, of Lechins, Montreal; Hooper, of the Dow Brewing Company; Lubatt, of Prescott, and McCarthy, of Prescott, are here to-day, and had an interview with the Government in regard to the plebiscite bill. They talked the matter over with some of the Ministers.

It is understood that they want that the whole question of prohibition be put squarely before the people, and not merely the question as to whether the voter is in favor of prohibition or not. There is the question of compensation, for instance.

HIS TICKET RAN OUT

AND HE SHOT HIMSELF—DESPONDENCY DROVE HIM TO SUICIDE.

(Special to the Times.)

Sherbrooke, Que., Feb. 25.—H. Sndergren, a Swede, committed suicide yesterday by shooting himself through the head at Lake Megantic.

The deed was committed in the Queen's hotel office, just before dinner.

He was bound to St. John from Chicago, and had in his possession a ticket for Stockholm.

His wife had expired, and he had to pay his fare from here to Megantic, which took nearly all his money.

On his person was found a letter to his wife, telling of misfortune.

First First Itching Pills

Symptoms: Moisture intense itching and stinging; most at night; worse by scratching. It allowed to continue tumors form, which often bleed and ulcerate and become very sore. Swaine's Ointment stops the itching and bleeding, heals ulceration, and in most cases removes the tumors. All druggists, or by mail for 50 cents. Dr. Swaine & Co., Philadelphia. Lyman Sons & Co., Montreal, wholesale agents.

HOPE FOR ADAM YET

It was Mark Twain, if I remember rightly, who pointed out the ingratitude and inconsistency of the human race in neglecting during all these years, to put up a memorial to Adam, to whom, under Providence, the whole race practically owes its existence.

erecting monuments to so many worthies of later date, whose services to humanity are comparatively insignificant.

We are getting on in that direction, however. King Alfred is to have a commemoration, and I take for granted, a statue. Hengist and Horsa will no doubt have their turn next. There is hope for Adam yet. Everything comes to him who can wait.—London Truth.

Well Done Home Work

Diamond Dyes are Home Helpers

The tidy, methodical and economical mother, who is or daughter, when she has home work to do, always aims to do it well.

Whatever the hands find to do—whether it be sweeping, baking, sewing, darning, embroidering or fancy work—there is a delight and satisfaction in having things done well; it is only well done work that pays.

The women and girls who are model home workers are always successful.

home dyes. Why? Because they use Diamond Dyes that are simple and easy to dye with, and that always assure perfect and pleasing results in brilliant and rich colors that never fade in sun or washing.

Diamond Dyes are home helpers and money savers. Wherever they are used, women and children are well and neatly dressed at very small cost.

The money saved by Diamond Dyes in some homes is as considerable in a year that new carpets, furniture and furnishings can be bought to adorn one or more rooms.

To secure success and well done work, Diamond Dyes are a necessity. Do not allow your dealer to sell you some other make of dye. Ask for Diamond Dyes; refuse all imitations and worthless makes.

Send to Wells & Richardson Co., Montreal, P.Q., for valuable book of directions and sample card of colors of the Diamond Dyes. Post free to any address.

A SUCCESSFUL EVANGELIST

Rev. W. A. Dunnett, a Man Whose Good Work is Widely Known.

He Relates Events in His Career of General Interest—For Years He Suffered from Heart Trouble, and Frequently from Collapse—On One Occasion Five Doctors Were in Attendance—He is Now Freed from His Old Enemy, and Enjoys the Blessings of Good Health.

REV. W. A. DUNNETT.

From the Smith's Falls Record.

Throughout Canada, from the western boundary of Ontario to the Atlantic Ocean, there is no name more widely known in temperance and evangelism work than that of the Rev. W. A. Dunnett.

Mr. Dunnett has been the Grand Vice-Councillor of Ontario and Quebec in the Royal Templars, and so popular is he among the members of that order that in Montreal there is a Royal Templars council named "Dunnett Council" in his honor.

For more than ten years Mr. Dunnett has been going from place to place pursuing his good work, sometimes assisting resident ministers, sometimes conducting a series of gospel temperance meetings for the good of his fellowmen.

While in Smith's Falls a few months ago in connection with his work he dropped into the Record office for a little visit with the editor. During the conversation The Record ventured to remark that his duties entailed an enormous amount of hard work. But it was not always so, he said, and then he gave the writer the following little personal history, with permission to make it public.

He said that for the past twelve years he had been greatly troubled with a pain in the region of his heart, from which he was unable to get any relief. At times it was a dull, heavy pain, at others sharp and severe. Oftentimes it rendered him unfit for his engagements, and at all times it made it difficult to move. His troubles were always visible to the public and frequently when conducting service he would give out and the doctors had to be called in to attend him. This occurred to him in the Yonge street church, Toronto; the Baptist church, Woodstock, N. B.; the Methodist church, Carleton Place, Ont. On another occasion while preaching to an audience of 2,500 people in the Franklin street Congregational church, at Manchester, N. H., five doctors had arrived and were in attendance before he regained consciousness. In all these cities and towns the newspapers freely mentioned his affliction at the time. Mr. Dunnett said he had consulted many physicians, though he said, to be entirely fair, he had never been any great length of time under treatment by any one doctor because of his itinerant mode of life. In the early part of the summer of 1896, while in Brockville assisting the pastor of the Wall street Methodist church in evangelistic services, he was speaking of his trouble to a friend, who urged him to try Dr. Williams' Pink Pills, and next day presented him with a dozen boxes. "I took the pills," said Mr. Dunnett, "and I declare to you I am a well man to-day. I used to worry a great deal over the pain about my heart, but that is all done now, and I feel like a new man." All this the reverend gentleman told in a simple conversational way, and when it was suggested that he let it be known, he rather demurred, because, as he put it, "I am almost afraid to say I am cured, and yet there is no man enjoying better health to-day than I do."

At that time, at Mr. Dunnett's request his statement was only published locally, but now writing under the date of Jan. 21st from Fitchburg, Mass., where he has been conducting a very successful series of evangelistic meetings, he says—"I had held back from writing in regard to my health, not because I had forgotten, but because it seemed too good to be true. But the old time pain had gone. I cannot say whether it will ever return, but I can certainly say it has not troubled me for months, and I am in better health than I have been for years. I have gained in flesh, hence in weight. I would prefer not to say anything about my appetite; like the poor, it is ever with me. Yes, I attribute my good health to Dr. Williams' Pink Pills, and you give my consent to use the fact."

FAD OF ENGLISH WOMEN

Amateur photography is now the fad of English women, and each gentlewoman has her favorite subjects. The Princess of Wales prefers portraits, and nearly every member of her family have been her sitters. She has photographed her grandchildren in their pony cart; her daughter, the Princess Maud, in a railway car; her husband on his yacht Britannia; her daughter and son-in-law, Prince and Princess Charles of Denmark. The Duchess of Fife and the Princess Victoria also prefer portraiture, and their relatives and friends have been willing subjects. Little Lady Alexandra Duff and her baby sister in the daintiest picture outfit of the (Princess of Wales), which is saying much, as the future Queen of England is probably the most photographed woman in the world. Marine views have received much attention from her Royal Highness, Princess Henry of Battenberg. Mrs. Joseph Chamberlain stands at the head of the landscapists, and many of her negatives are said to be exceptionally fine. The Countess de Castellane, born Anna Gould, is an expert landscapist & sketcher. Favorite subjects of the beautiful Lady Randolph Churchill are sailors' boats.

CASE OF 'TRILBY MADNESS'

THE STRANGE HALUCINATION OF A YOUNG HUNGARIAN GIRL.

The London Daily Telegraph gives an account of the strange mishap which befell a young Hungarian girl from attending a dramatic production of "Trilby." The facts are as follows: Risa Farkas is a girl of sixteen, who has always enjoyed the bust of good health. Her parents lately allowed her to visit an establishment in which young ladies are taught dressmaking for their own private use and benefit. On the way to the school Risa made the acquaintance of a young medical student, who accompanied her home twice every day. Once he induced her to pay a visit to the theatre to see "

READ WHAT PHYSICIANS SAY OF

POND'S EXTRACT

PHILADELPHIA, Dec. 29, 1894.
I have used "Pond's Extract" for many years and always insist upon my patients getting "Pond's," not the ordinary Extract, which is often a very poor article. W. K. BROWN, M. D.

PHILADELPHIA, Jan. 9, 1895.
I use Pond's Extract a great deal in my practice. I think it very valuable in all venous enlargements. J. L. BRADFORD, M. D.

SANTA BARBARA, CAL., Nov. 27, 1894.
I have been using Pond's Extract in my practice for twenty years. I frequently have the experience you mention of druggists insisting they can put up as good as yours. I don't believe it. I use Pond's Extract a great deal as an antiseptic in combination with glycerine and carbolic acid. I think it far superior to any antiseptic known. F. G. FLOURNOY, M. D.

COLUMBIA, PA., Jan. 18, 1895.
I have been a constant user of Pond's Extract since 1852, and do not expect to discontinue it while I live. S. ARMOR, M. D.

CHELSEA, MASS., Nov. 8, 1894.
I have made diseases of the skin a specialty for thirty years, and am free to say I know of no remedy that has given me such perfect satisfaction as Pond's Extract in cases for which it is recommended. G. W. BABCOCK, M. D.

ASTHETICS' INSTITUTE, Buffalo, N.Y., Dec. 8, 1894.
I know Pond's Extract to be a valuable remedy, and shall continue its use whenever the opportunity offers. GEO. H. CALKINS, M. D.

NEWARK, N. J., Dec. 13, 1894.
I am pleased with the purity and strength of Pond's Extract. J. L. DURYEE, M. D.

POND'S EXTRACT is used by the leading physicians and principal hospitals of America and Europe.

9,000 ORDERS FROM PHYSICIANS WITHIN ONE MONTH DURING LAST AUTUMN.

Fresh mountain trout just arrived; 10 cents per pound. J. B. Oke.

—R. J. Kidd has bought Mr. Ames' boot and shoe stock at 50c. on the dollar. There will be great bargains on Saturday.

Delightful Pastry.
McQuay, Baple & Co., are selling the most delightful pastry in town. Opposite Adam Hall's.

Fresh and Cheap.
Fresh mountain trout; cheap. J. B. Oke.

Reliable Man Wanted.
Good smart, reliable man wanted to canvass the town in the interest of the Morning and Weekly Times. Must have good connection. Good salary to the right man. Apply at the Times Office.

CLEARING SALE

For spot cash during the next 30 days at 50c. on the dollar. In order to facilitate the progress of proposed alterations and improvements in our premises we have decided to clear out the whole of our present large and well assorted stock of Boots & Shoes, Rubbers, etc., at cost and under for the next thirty days. Sale commences to-day. Everything must go and within the stated time, 30 days. J. T. Atkinson, 364 Geo. Street.

DISTRICT AND LOCAL TOPICS

Reporter's Phone, 164 B.

—See the Times' Bookstore windows for bargains.

—There will be an interesting game of basketball at the Y.M.C.A. to-night. The public are welcome.

—Best quality letter size writing tablet, only 20 cents.—Times' Bookstore.

—The Printers and the Wm. Hamilton Mfg. Works will play hockey at the rink to-night at seven o'clock.

—Mr. Geo. Taylor, M. P., Conservative whip in the House of Commons, will address a meeting at Norwood to-night in the interest of Dr. Ford.

—The Peterborough Presbytery will hold its regular quarterly meeting in the hall of the First Presbyterian church, Port Hope, on Tuesday next.

—Mr. R. M. Dennistoun and Mr. Barton Earle addressed a meeting at Mount Pleasant, East Durham, Thursday night in the interest of Mr. W. A. Fallis, the Conservative candidate.

—Last evening the Park street Baptist church Sunday school held their anniversary festival. A good program of vocal and instrumental music was supplied, chiefly by the scholars.

—The McAllister Milling Co.'s mill at Lakefield, is now illuminated with electric light from a dynamo of their own. The Co. have purchased an alternating dynamo of 1-2 Kilowatt from the Royal Electric Co. of Montreal. The machine will run 35 sixteen candle power electric lights, and the full number is on. The Co. are doing a big business, the mill running night and day, and cash hardly supply the demand for their flour.

PERSONAL AND SOCIAL

—The Misses Essie and Amy Hutchinson, of Cavan, are visiting friends in Peterborough.

—Miss Annie Frost, of Tweed, who was visiting Mrs. Campbell, Water St., has returned home.

BURTON-THOMPSON CONCERT

Neil Burton Entertainment Company at St. Andrew's Church.

A good audience was present at St. Andrew's church last night to hear the entertainment furnished by Mr. Neil Burton and Miss Mary Thompson.

Both were well pleased with the entertainment. Both are clever artists. Miss Thompson's posing in Greek costume was much admired. Mr. Burton's characters were all natural and witty. The numbers were as follows:

Reading—Flying Jim's Last Leap—Miss Thompson.

Character Sketch—The Irish Courtship—Neil Burton.

Reading—The Obstructive Hoop in the Pit—Miss Thompson.

An amusing description of putting up arranging stovepipes frequently arranged—Neil Burton.

Reading—The Widow's Choice—Miss Thompson.

Impersonation—(a) Bill Adams was in. (b) The Battle of Waterloo—Neil Burton.

The Gipsy Flower Girl—Miss Thompson.

Character Sketch—(a) Jean Stewart, in costume, (b) Encounter with Douglas, (c) McTavish—Neil Burton.

Thirty statueque posings in Greek costume—Miss Thompson.

Brother Brown's Famous Lecture on Apples—Neil Burton.

Description of a woman arranging and combing hair, and at the same time singing "Coming Through the Rye"—Neil Burton.

Artistic Display.

The beautiful decorations which adorned the Ashburnham town hall last night for the Ford meeting were furnished and arranged by Mr. J. J. Turner & Son. The Turner firm are the champion decorators of this district, and always give something original and attractive.

DUPONT, M. P., DYING

DR. FORD IN ASHBURNHAM

Splendid Meeting in the Town Hall of the Village Last Night

The Candidate Gets a Good Reception and Makes a Splendid Address.—Mr. Stone Makes a Good Speech for Mr. Blezard—Addresses by Messrs. Kennedy and Moore

Dr. Ford held a meeting in the Ashburnham town hall last night and a routing one was the result. There was large attendance, for the most part Conservative, and they were very enthusiastic in the reception of the candidate. Dr. Ford made a clever and telling speech and received generous applause all through his address. Mr. Stone was present on behalf of Mr. Blezard and his defence of the Liberal Government was a convincing argument. Though he was received with eloquent disapproval by the rather boisterous audience he was nothing daunted and brought out his fact in an argumentative style that served most efficiently to protect the cause of Mr. Blezard. He was frequently invited to sit down on the ground that he was making mis-statements, but he thought he knew better than a noisy mob and continued telling them facts that they had no desire to hear.

Mr. John McWilliams acted as chairman, and there were present with him on the platform Dr. Ford, Mr. James Kennedy, Mr. W. H. Moore and others. Mr. Moore was the first speaker. In opening he paid a high compliment to the candidate. He was a man of large experience and high standing with all parties and classes. No man could say anything of Dr. Ford, but what was to his credit and Mr. Moore claimed that many Reformers were supporting him in this election. The speaker then got down to politics and proceeded to show that the Ontario ballot was not a secret one. It was not the same ballots as the English one, as we claimed. The ballot had the number stamped upon the back of the counterfoil attached to it, whereas in our ballot the number is printed upon the front of the counterfoil, this making it open to observation and identification after which it can be traced by interested Government supporters and used for iniquitous purposes. He charged the Ontario Government with inconsistency in many matters such as in passing a bill to prevent the appointment of junior judges in counties of under 80,000 people, and a year after repealing it to give a position to Mr. Hardy's brother as junior judge of Brant, and also in advocating that the Dominion and Provincial Governments should not be in sympathy whereas they now supported such a position. He claimed that true of their action as to lumber frauds, the Lord's Day Act and other matters. He went on and accused the Government of corruption in handling the colonization road money, and read the names of ten over-seers who were employed to superintend the building of nine miles of road in Chando. He closed by a comparison of Dr. Ford and Mr. Blezard and predicted the election of the former.

Mr. Stone, the next speaker, was received with a shout, and he spoke for some time, interrupted while speaking. He felt confident that Thomas Blezard would be again elected to give them four more years of honest government. He denied Mr. Moore's statements as to ten over-seers on nine miles of road, and he charged the charges of inconsistency. Mr. Blezard never touched a cent of road money. It came directly from the Government by check to the foremen on the roads. He claimed that it was their duty to support a government which had not spent a dollar corruptly in 25 years. Nothing could be proved against them, and he defied any man to show just where they had mispent any money. He denied that the Government's was a pro-American policy. They had sold only 250 miles of line to Americans. The rest had been bought from private individuals. He denounced as an outrage the policy some would pursue of confiscating the property of these people. It would be unjust and illegal, and would be followed by endless suits. Mr. Stone put up a strong defence of the Government's school and school-book policy and their financial management. He closed by soliciting their support for Mr. Blezard.

Dr. Ford was loudly applauded on rising. He thanked them for their kind reception and proceeded to tell a few stories. Then he delighted his audience by following up his friend Stone and demolishing his garments. To out a long story short the doctor made a capital speech. He attacked the Government vigorously on its policy in regard to school and school-books, timber, mining, or rather not encouraging mining, and other matters. He dealt with the financial question fully and left the province in a bad state and the Government in a worse one. He said that the Government had put up a strong defence of the Government's school and school-book policy and their financial management. He closed by soliciting their support for Mr. Blezard.

Common Apples, 60c to 75c.
Choice Apples, \$1.00 to \$1.25.
Onions, per bag, 75c to 90c.
Wood Hard, \$3 to \$3.75.
Wood Soft, \$2 to \$3.

TORONTO.

THE STREET MARKET

Toronto, Feb. 25.—Receipts of grain were large to-day, about 9,000 bushels were delivered; 1,000 bushels of wheat at 95c to 98 1-2c; 20c white; 92 to 94 for red, and 88 to 87 1-2c for good; 200 bushels of rye, at 51c; 4,000 bushels of barley, at 38 to 43c; 3,000 bushels of oats, at 36 to 37 1-2c, and 800 bushels of peas, at 38 to 60c. On the hay market 28 loads of hay were offered, at \$8 to \$9.50, and four loads of straw at \$7. Dressed hogs sold at \$6.25 to \$6.35.

PRODUCE.

Eggs—Market is not heavily stocked with any line, but receipts of fresh are more liberal. Limes are quoted at 15 to 16 1-2c new laid at 18 to 19c, and held fresh at 15 to 16c.

Potatoes—Market rather quiet, and values are unaltered. On track here car lots are quoted at around 58 to 60c per bag; and on the street, in farmers' loads, at 65 to 70c per bag.
Beans—Dull, but prices unchanged, with choice hand-picked beans at 80 to 90c; and common at 49 to 60c per bushel.
Dried Apples—The demand is limited. Dealers quote new stock at about 3 to 4 1-2c, delivered here, and small lots sell here at 4 1-2 to 4 3-4c, and evaporated at 9 to 9 1-2c, for new.

BUSINESS IN MONTREAL.

Montreal, Feb. 25.—The local grain market continues firm, with a fair amount of business doing. Ontario wheat is in good demand, and sales have been made along the line at equal to 90 to 93c. Oats are quoted for export here on the basis of about 34 to 34 1-2c, and 36 to 38 1-2c for May, while peas, May delivery, are quoted at 68 1-2c. The flour market is firm with fair demand. There is still some difference of opinion as to prices among the leading dealers. The Lake of the Woods Milling Company claims that more than \$530 for Manitoba spring patents at \$4.90 for Manitoba strong "bakers" cannot be obtained, while other dealers claim to sell the former at \$5.25 to \$5.35, and the latter at \$4.90 to \$5. For the other lines we quote:—"Manitoba bakers", \$4.00 to \$4.85; winter patents, \$4.75 to \$5; 90 per cent, patents, \$4.35 to \$4.75; straight rollers, \$4.30 to \$4.65, do, bogs, \$2.20 to \$2.30. Rolled oats, bugs, \$3.75, and in wood, \$3.85. There continues to be a good demand for feed, and the market is active, with prices fairly maintained. We quote:—Ontario bran, \$14, shorts, \$16 and ton in bulk, Manitoba bran, \$15, and shorts \$15 to \$16.50 per ton, including bugs. A fair jobbing trade is reported in meal, and the market is firm at \$3.90 per barrel for rolled oats, and at \$1.90 per bag. There is no change in the demand. The demand is fair and supply is ample to fill all requirements. We quote:—No. 1, at \$10.50 and No. 2, at \$8 to \$8.50 per ton, in car lots. There is no improvement in the cheese market. On the whole, demand from the other side is lame. The improvement noted in the butter market some time ago is still maintained, and the tone of the market is fairly firm. Sales of finest creamery have been made on the basis of 18 1-2 to 19c, and there is a fair trade doing in daily rolls around 18 1-2 to 19c, and dairy, in tubs, at 17c. The light receipts of dressed hogs have had the effect of causing a noted firmness in prices, but no advance. Light weights have sold as high as \$6.75, in small lots, and a purchase of a large quantity was reported to-day at \$6.55 for Western; heavy weights range from \$6.25 to \$6.40, according to size of lot and quality. Provisions continue unchanged, Canadian pork being steady at \$16.50 to \$17 per barrel; Canadian lard, in pails, 8 to 8 1-4c per lb; compound, refined, 5 to 5 1-4c per lb; bacon, 10 to 12 1-2c; and hams, 12 to 13c. Eggs, receipts small; prices firm. We quote:—Strictly new laid, 19 to 20c; Montreal, 15c; Western, 12 1-2 to 14c; and cold storage, 11 1-2 to 13c per dozen. The poultry market was quiet and without any change. Fresh turkeys sold at 10c; chickens, 8 to 8 1-2c; ducks, 8 1-2 to 9c; geese, 7c per lb. The bean market rules quiet at 75 to 80c for primes, and 85 to 90c for choice hand-picked, per bushel. Business in honey is of a small jobbing character; white clover, 12 1-2c, dark clover, 10c, 10 to 10 1-2c; and dark, 7 to 8c.

Canada's Greatest Medicine

Is Hood's Sarsaparilla

GREATEST, Because Hood's Sarsaparilla is the medicine to which the bulk of the people naturally turn when overtaken by sickness, caused by impure blood, scrofula, dyspepsia, etc., or when recovering from debilitating blood-poisoning diseases like diphtheria, scarlet fever, etc.

GREATEST, Because of the vast number of testimonials which come from every city and hamlet in the land, telling of marvelous cures and overflowing with gratitude.

GREATEST, Because it eradicates every vestige of scrofula, cures the worst cases of hip disease, subdues the itching and burning of eczema, heals all sores, boils and eruptions, and every ailment due to impure blood.

GREATEST, Because it conquers dyspepsia by toning and strengthening the stomach, cures rheumatism by neutralizing the acid in the blood, overcomes catarrh by removing the scrofula taints that cause it.

GREATEST, Because unequalled by any other medicine for supplying the nerves with pure, rich, nourishing blood, and thus curing nervousness, neuralgia and nervous prostration.

GREATEST, Because of economy and strength, Hood's Sarsaparilla being the only medicine of which it can truly be said, "100 doses one dollar."

GREATEST, Because it is prepared in the largest Laboratory on earth—a building which contains more than three acres of floor space.

GREATEST, Because it is peculiar in combination, proportion and process and possesses curative properties unknown to any other medicine.

GREATEST, Because Hood's Sarsaparilla actually purifies and enriches the blood, tones the stomach, creates an appetite, energizes, vitalizes and strengthens the whole system.

GREATEST, Because it is the result of scientific knowledge, careful study and wise experiment in adapting Nature's own remedies to the needs of the human system.

GREATEST, Because it holds the first place in thousands of households as the medicine which, having accomplished so many marvelous cures of serious diseases, may be depended upon to overcome lesser ills.

GREATEST, Because of the greatest cures, greatest merit, greatest sales, greatest hold upon the confidence of the people as an honest medicine, while other preparations fail to do any good.

"For a number of years past I have been afflicted with acute rheumatism in my left side and all the way down my limb into my foot. I live five blocks from my work and I had to stop and rest several times in going and coming. I

Could Get No Relief

from my trouble and was on the point of giving up my job when I happened to hear of Hood's Sarsaparilla. I purchased a bottle of this medicine and a vial of Hood's Pills and began taking them. Before I had half finished them I was relieved and by the time I had taken all of this medicine I was cured. I never lose an opportunity to praise Hood's Sarsaparilla, for my cure meant a great deal to me as I have a family and must always be at my post." WILLIAM HARRITT, Brantford, Ontario.

POND'S EXTRACT

WILL CURE
PILES

"I have long known its value in bleeding piles. It is the prince of remedies in all forms."
—DR. A. M. COLLINS, Gaiters, Mo.

CATARRH
"Have been a constant sufferer for years from severe colds in head and throat. Tried most every known remedy. Pond's Extract relieved me wonderfully, and has effected almost a radical cure."
—FREDERIC E. FINCH, New York City.

SORE EYES
"It acts like magic in ophthalmia. I like it so much for sore eyes."
—REV. M. JAMESON.

LAMENESS
"I strongly recommend Pond's Extract for lameness, and use it constantly."
—MICHAEL DOONAN, N. Y. Athletic Club.

SORENESS
"Had a large swelling sore on my ankle, which had eaten to the bone. For nine months I doctored to no purpose. Tried a bottle of Pond's Extract, and was cured immediately."
—MINNIE V. NATTA, Lockport, N. Y.

BRUISES
"Pond's Extract has been used with marked benefit by our inmates in many cases of bruising, and has effected almost a radical cure."
—LITTLE SISTERS OF THE POOR, New York City.

SPRAINS
"I have been prescribing Pond's Extract, and find it a valuable remedy in strains and affections of like character."
—W. P. BURDICK, M.D.

BURNS
"Had my left hand severely burned and lost the use of it completely. Secured relief by use of Pond's Extract in twelve hours."
—MRS. A. SHERMAN, New York City.

HEMORRHOIDS
"Am troubled with hemorrhages from lungs, and find Pond's Extract the only remedy that will control them."
—GEORGE W. WARNER, Scranton, Pa.

INFLAMMATIONS
"I have used Pond's Extract in a case of long standing internal inflammation, and obtained relief within a few hours."
—JAMES E. READE, Philadelphia.

and should be always kept on hand for emergencies.

"Long experience has taught my family to regard Pond's Extract as one of the absolute necessities of householding."
—ANDREW D. WHITE, President Cornell University.

THE ASPLEY ARGUS.

A New Contemporary From the Northern Part of the Country.

We are in receipt of a new exchange from the Aspley Argus, a bright little sheet from the thriving northern village. It is a four page weekly paper devoted chiefly to local issues. It upholds a vigorous foreign policy however and believes in carrying the war into Cuba. It takes an active interest in the political contest in East Peterborough and no doubt will have a weighty effect on the result.

The Staff of Life.
McQuay, Baple & Co's bread is pronounced to be first-class. Only 10c for a large loaf.

DISTRICT AND LOCAL TOPICS

Reporter's Phone, 164 B.

—There was an unusually large market Saturday morning.

—The printers defeated the Wm. Hamilton Mfg. Co. team in an interesting game of hockey Saturday evening.

The milliners are preparing for the spring season and are laying in some very attractive goods for the openings.

—The regular meeting of the W. C. T. U. will be held to-day at 3.30 at Mrs. Eaton's, Brock street. All are welcome.

—Rev. Archdeacon Casey delivered an eloquent charity lecture in aid of the St. Vincent de Paul society at St. Peter's last evening.

—As you are probably not aware of the fact it may be interesting to you to know that the election will take place to-morrow.

—Mr. J. E. Belcher, C. E., has been appointed first Vice-President of the Ontario Architects Association, and also a member of the council.

—There was a good attendance of men at the services at the Y. M. C. A. yesterday at 4.15. Rev. J. J. Roe, of Bowmanville addressed the meeting.

—There was no police court Saturday morning and no cases are to come up to-day. There will in all probability be a big batch to-morrow and Wednesday.

—Rev. J. J. Roe, of Bowmanville, a former pastor of the church occupied the pulpit at the Charlotte street Methodist church yesterday and preached the Sunday school anniversary sermon.

—Yesterday evening Rev. W. L. Armstrong, of All Saints church preached the first of a Sunday evening series of Lenten sermons, taking as his subject "What the church has and has not—The Holy Spirit."

—Rev. J. E. Moore, of the Mark street church preached special services at Norwood yesterday. He will conduct evangelistic services there this week. Rev. Mr. McCamus, of Norwood, filled the pulpit at St. Mark's.

—The entertainment in connection with the anniversary of the Sunday school of the Charlotte street church will be held to-night. Miss Ethel Webb, Miss Hendren, and the Banjo and Mandolin club will take part in the program.

FEBRUARY WEDDINGS

Celebration of the McAniff-Torpey Nuptial on Thursday Last.

A quiet wedding took place in St. Peter's Cathedral on Tuesday morning, when Mr. Redmond McAniff and Miss Nellie Torpey, both of town, were united in wedlock. The ceremony was performed by Rev. Father O'Sullivan of the Cathedral.

The bride who was neatly attired in a pretty travelling suit, was assisted by Miss H. Butler. The groom was ably supported by his cousin, Mr. J. T. O'Connell.

At the conclusion of the ceremony the wedding party repaired to the residence of the bride's uncle, where a sumptuous repast was partaken of by all present.

Many valuable presents were received by the bride, evincing the high esteem in which she is held by her many friends.

Mr. and Mrs. McAniff left on the 8.10 G.T.R. for Toronto and places west. We extend them our hearty congratulations.

Nuptials of Mr. George Frost and Miss Letitia McAniff.

Mr. George Frost of Otonabee, and Miss Letitia McAniff of North Monaghan, were married at the Mark street Methodist parsonage on the evening of Feb. 23rd, Rev. J. E. Moore, Ph. B., officiating.

The bride, who was handsomely attired, was assisted by Miss Annie M. Findley of Peterborough, and Mr. Ralph Frost, brother of the bridegroom, acted as best man.

The newly wedded pair will take up their residence in Ashburnham.

Nuptials of Miss Lillian Sellegem and Mr. Isaac Roseboro.

A very pretty wedding took place on Thursday evening at the residence of the bride's parents, Mr. and Mrs. John Sellegem, George street, when their only daughter, Miss Lillian, was united in marriage to Mr. Isaac Roseboro of town.

The ceremony was performed by Rev. S. J. Shorey, of the George street Methodist church, and the bride was assisted by Miss Roseboro, sister of the groom.

The groomsmen was Mr. James Sellegem, brother of the bride.

A large number of the friends of the young couple were present and partook of a sumptuous wedding dinner, which was served during the evening. A great number of beautiful gifts were received.

Delroit Carriers.

A curling match of special interest will be played at the rink to-day. Two rink of Delroit's sports will compete with a couple of local rinks and a close contest may be looked for. The local rink have not been selected, but the best will be picked to show the Americans how curling is played in Canada. The visitors will arrive in town on the noon train.

—Mr. Ames bought his goods for cash. Kidd bought his stock of shoes at 50c on the dollar, and will give you them away below cost on Saturday, 405 George street.

Criticizing the Sermon.

"Here is something which I would like to see adopted by our local preachers," said a churchgoer the other day. "It would fit the vacant pews. In a newspaper I received recently from Melbourne, Australia, it says that Rev. Dr. Berran, pastor of the Richmond street Congregational Church, had introduced a startling innovation in his church services. After pronouncing the benediction he invites any one who pleases to come up on the rostrum and criticize the sermon just delivered by him. He then descends and takes his seat among the congregation to await developments. Only one or two venturesome hearers have so far responded, but it is expected that others will gain courage and air their views in the course of time. During the last few Sundays the church had been crowded to the doors."—Detroit Journal.

Spring

Is the season for new life in nature, new vigor in our physical systems. As the fresh sap carries life into the trees, so our blood should give us renewed strength and vigor. In its impure state it cannot do this, and the aid of Hood's Sarsaparilla is imperatively needed.

It will purify, vitalize and enrich the blood, and with this solid, correct foundation, it will build up good health, create a good appetite, tone your stomach and digestive organs, strengthen your nerves and overcome or prevent that tired feeling.

This has been the experience of thousands. It will be yours if you take

Hood's Sarsaparilla The Best Spring Medicine and Blood Purifier. Sold by all druggists. \$1.

Hood's Pills cure Liver Ills; easy to take, easy to operate. 25c.

They are sold by all druggists and chemists.

Sold by Druggists everywhere.

Modern Times

PETERBOROUGH, MARCH 1, 1897.

THE CANADIAN PACIFIC'S GAL-LANT FIGHT

The Canadian Pacific Railway is at present engaged in a terrific struggle against the United States railways. The war is not really between railways alone, but between the two countries and the Canadian Pacific is really fighting for the rights of Canada. On a great issue such as this, the United States railways, realizing that the stake is a big one, do not hesitate to call in the powerful aid of their legislature. From their point of view, they are fully justified in taking this course. If, by legislation, in addition to their own resources, the Western road can secure to the merchants, the farmers and the mechanics of their own country, the immense advantages of having the trade of the Yukon country in their own hands, the railways and the legislative bodies combined, will be commended by United Statesers. It will show to the commercial and the industrial world of the States that their great railway corporations, and their representatives in Congress are fully alive to their country's interests, and are prepared to leave nothing undone, which can be done, to gain every possible advantage over competitors.

The more this view of the case is insisted upon, that the issue is a national one, and not a mere squabble between competing companies for a temporary advantage, the more clearly will it be seen that it is our duty to fight the United States railways with their own weapons. That is to say, if Congress is to be called in to aid the Western roads, then there should be no hesitation in calling upon the Canadian Parliament to meet legislation with counter legislation. There are ways in which this can be done. Rather than at supine by, while laws are being passed hostile to the interests of Canadians and Canadian interests, let Parliament lose no time in passing laws which shall secure to Canadians beyond all peradventure whatever advantage or benefit is to be derived from the trade of the Yukon country. Supplies not be allowed into that country at all, from the United States, which can be equally well supplied in Canada. In short, no advantage must be allowed on the other side, against which we can, either by legislative or other means, protect ourselves, and if need be, go them one better.

THE IMPERIAL LIFE ASSURANCE COMPANY

Elsewhere will be found a report of the annual general meeting of the Imperial Life Assurance Company of Canada, which took place at the head office of that institution on Wednesday, Feb. 23. The report shows that the affairs of the Company have been wisely managed, and that the success of the Imperial is now an assured fact. The amount of new business secured (\$1,185,725) "exceeded the most sanguine expectations of the directors," as the report puts it, and is indeed an indication of marvellous success.

In the Midland district the Imperial will always be popular from the fact that its promoters are well-known to our people, and also because it affords the safest possible investment at the lowest possible rates. When

the Company is officered by such men as Sir Oliver Mowat, Hon. Geo. A. Cox, J. W. Flavelle, F. G. Cox and Sir Mackenzie Bowell, it is a certainty that its affairs will be of marvellous success.

In the Midland District the Imperial will always be popular, not only because its manager is an old resident of this place, but because its promoters are also well-known to the people, and also because it affords the safest possible investment at the lowest possible rates.

The Company is represented in the district by Mr. George W. Morrow, who will be glad to afford all possible information to those seeking assurance in this popular Company.

THE BATTLE TO-DAY

The campaign is ended and the opposing forces have closed in on each other in the final rush on the ballot boxes. In many ways the campaign has been a remarkable one. The Liberal party has been in power in Ontario longer than any other party in any country in the history of the world, with two exceptions. It remains to be seen whether or not they will longer control the destinies of this fair province. Should they again be returned to power, it will be remarkable for three never was a fiercer attack made by the Opposition or were the Conservative forces ever under better control or more enthusiastic. A few hours more will end it all.

It is the duty of every elector to go to the poll and record his vote for the party whose principles are, in his mind, the best for the country. Let not fear of a numbered ballot prevent any one from giving effect to his convictions. This country, happily, a free country, especially in the matter of the exercise of the franchise, and a man will not be doing his duty either to himself or to the state who will not vote according to his convictions.

This is Chuesday—March 1st

What Ontario now needs is a rest.

Stratton, Daig and Victory—these three—but the graces of these is Victory.

Sir Wilfrid knows that if he loses his "right arm," he'll be no good on the stump.

There will be a hot time in the old town to-night—no matter which side wins.

Parlo is the name of the Liberal candidate in East Kent. The name is so close to Pedro that the bets are about even.

"Stand for Stratton" is only surpassed by the statement that "Garvin's gait is going him to gain ground in Galway."

If Hon. A. S. Hardy's majority will only disappear as completely as John Sanfield's surplus, the Tories will complain no more.

The Examiner treats the electors to "Stand for Stratton." The Conservative candidate is satisfied to have them do so if they will only fall for him.

There is no telling how Sir Wilfrid Laurier would feel about it, but the country as a whole can be depended on to endure the calamity of Hon. Clifford Sifton's resignation with becoming fortitude.

"Mr. Whitney and Col. Matheson say the province is four millions in debt. I believe the province is in debt, and that there has been somewhat of an effort to hide it. Mr. Whitney says the expenditure exceeds the receipts. It does."—Mr. Malory, Patron-Liberal.

The wondrous genius of the profound thinker and picturesque writer who originated the Club's battle cry, "WE WILL WHACK WHITNEY," is eclipsed by the Orangeville Banner man in his whoop of—
DYNES, DEGENCY AND DUFFERIN
vs.
BARR, BUDGE AND BOODLE.

DECEPTION AND FRAUD SOON UNMASKED

Worthless and Imitation Dyes Never Used a Second Time by the Ladies

Imitations of notes of our best banks are often made and circulated, causing loss to individuals and worry to the banks. Diamond Dyes, those sterling productions for easy dyeing, are imitated in style of package by those who would make large profits from a fraction of cost. Some ladies have been deceived by these poor, weak dyes, and have had good materials and garments ruined. These deceived ladies are never caught twice; they ever afterward use the reliable Diamond Dyes, and always get the results they look for.

If your dealer happens to be out of the color of the Diamond Dyes that you seek for, do not allow him to sell some other make of dye. Write to Wells & Richardson Co., Montreal, giving color you want—stating whether you want to dye wool, silk or cotton or mixed goods—and the dyes will be mailed to your address. All colors of Diamond Dyes sold at ten cents per package.

The Imperial Life Assurance Co. of Canada

The annual general meeting of this Company was held at its head office in Toronto, Ontario, on Wednesday, Feb. 23, 1897.

Those present were: Hon. Sir O. Mowat, (President), J. W. Flavelle, (Vice-President), Sir Mackenzie Bowell, J. H. Plummer, Hon. George A. Cox, H. N. Baird, J. J. Kenny, A. E. Ames, S. G. Bently, R. K. Connell, E. R. Wood, C. G. Baines, Dr. J. L. Davidson, E. T. Malone, F. G. Cox and others.

The President, Hon. Sir O. Mowat, took the chair, and the Secretary of the Company, Mr. T. Bradshaw, acted as Secretary of the meeting.

The annual report and financial statement were submitted as follows:—
The Directors have pleasure in reporting to the members the result of the first three months' operations of the Company. The Dominion Insurance Act requires that life insurance companies transacting business in this country to furnish a statement of their affairs as at the 31st December in each year, so that the report now presented is only for a part of a year.

(1) BALANCE SHEET.

Your Directors have had the Balance Sheet audited and prepared in the same form as that required by the Government for the annual report of the Superintendent of Insurance, and it will be observed that there are no assets included which are not strictly of the character allowed by the Insurance Department. There is, however, an important difference between the statement and the requirements of the Government, viz., that, for the reasons hereafter noted, the Directors, in the interest of the policy-holders, have insured the Company's existing policies' annuities at a 3 1/2 per cent. interest rate, instead of the less onerous rate of 4 1/2 per cent.

(2) ORGANIZATION.

In order to provide for the necessarily heavy expenses of organization, and for the apparent loss which a life insurance company must show in the first few months of the Company's existence, your Directors issued the capital stock at a premium of 25 per cent., amounting on \$250,000 of capital paid-up, to \$62,500. The wisdom of this procedure will, your Directors feel assured, be evident to all interested. From the strong financial statement now presented, a statement which they think is perhaps without a parallel.

The Company has been fortunate in securing the services, as District Managers and Agents, of men well and favorably known in their respective communities, and as a result is now strongly represented in the Provinces of Nova Scotia, New Brunswick, Prince Edward Island, Ontario, Manitoba, British Columbia and the Northwest Territories, and satisfactory arrangements are nearly complete for the representation of the Company in the Province of Quebec.

(3) NEW BUSINESS.

The number of applications received and acted upon was as follows:
370 accepted, and policies issued, amounting to—
\$1,185,725
34 declined and postponed, representing—
98,500
Total, 404 \$1,284,225

The amount of business transacted exceeded the most sanguine expectations of the Directors, and will compare most favorably with that of the old established and most progressive life insurance institutions in Canada, in the same period of time, and largely exceeds the business secured during the whole of 1896 by some of the Canadian, British and United States companies in Canada.

Further of the business is attested by the relatively high average amount of the policies issued. The average amount of the policies of all Canadian companies, at the close of 1896, was \$1582; and of the Canadian companies, \$1980, and \$1944 respectively, whereas the average of the policies of your Company is \$3295, or double the amount of the average policy of the combined Canadian companies.

(4) INCOME.

The Annuity and Assurance Premiums amounted to—\$35,969 75
Interest and Profit on Investments—10,987 34
Making a total of—\$46,957 09

In examining the Government reports, it cannot be found that any Canadian Life Insurance Company, in its first statement, some of which cover the complete twelve months' business, showed such a substantial income as that reported above.

If to the amount of cash received for assurance premiums (excluding annuity considerations), \$32,399.95, there be added the premiums outstanding at the end of the year, \$6,764.40, and the sum of \$39,164.35, the amount of deferred premiums, we have a total premium revenue, as the result of three months' business, of \$45,933.75.

Financial Statements for the Three Months Ending 31st December, 1897.

| RECEIPTS. | |
|--|----------------|
| To Capital Stock and Premiums | \$312,500 00 |
| To Interest and Profit on Investments | 10,987 34 |
| To Annuity Premiums | \$35,969 75 |
| To Less Re-insurance Premiums | 2,000 00 |
| | \$355,447 17 |
| BALANCE SHEET | |
| LIABILITIES. | |
| To Capital subscribed | \$1,000,000 00 |
| To Capital paid up | \$250,000 00 |
| To Reserve on policies and annuities | \$30,000 00 |
| To additional reserve for immediate payment of death claims and for expenses | 1,987 00 |
| To net surplus | 47,531 80 |
| | \$1,330,517 80 |
| ASSETS. | |
| By stocks, bonds and debentures | \$285,954 14 |
| By first mortgages on real estate | 20,000 00 |
| By cash in Canadian Bank of Commerce and at Head Office | 9,536 78 |
| Net Ledger assets | 330,892 92 |
| By Office Furniture | 515 80 |
| By advertising, medical fees, postage, funeral, etc., etc. | 1,987 00 |
| By taxes, license, etc. | 680 00 |
| Balance in Ledger Assets | \$335,547 17 |

(5) DISBURSEMENTS.

In the accounts for this year all preliminary expenses connected with the establishment and organization of the Company appear, and our members will be pleased to see that these have been fully provided for and wholly wiped out without impairing the capital of the Company.

Notwithstanding the well-known fact, confirmed by the Government reports on insurance, that the first year's business of a life insurance company owing to the large initial expense for printing, advertising, books, stationery, traveling, legal and other expenses is comparatively costly, it is gratifying to be able to state that the business already placed on the books of the Company has been secured at a lower rate of expense than the rate of expense on new business of most of the old established companies.

(6) ASSETS.

The total funds of the Company amount to \$335,547.17, of which \$310,954.14 is invested in Government securities, stocks and first-class debentures and mortgages, yielding a remunerative rate of interest. The balance is represented by cash in bank and at head office, outstanding and deferred premiums, etc. The amount of outstanding premiums is but 15 per cent. of the entire premium revenue, and represents policies issued in the latter part of December, and sent to the agents late to collect the premiums and remit for them before the close of the year.

(7) LIABILITIES TO POLICY-HOLDERS.

The Insurance Act requires all life insurance companies to compute the reserve on their policies according to the Institute of Actuaries Table of Mortality, with interest at not more than 4 1/2 per cent. The reserve on the Imperial's policies have been calculated, and are held on the same table of mortality, but with interest at 3 1/2 per cent., and those on its life annuity contracts on the basis of the latest mortality experience of Government Actuaries in Great Britain, with interest at the same rate. In addition to this stringent valuation, the Company has made additions to these reserves, (1) to cover the immediate payment of death claims, and (2) for suspended or deferred mortality. It is believed that no other company in Canada has adopted as the basis for the valuation of the whole of its business such a high standard as 3 1/2 per cent., nor is it known that any other company here has made provision in its reserves for the important items of the immediate payment of death claims, and for suspended or deferred mortality. The adoption of these important principles has been determined upon, with a view to making the policy-holders' security as strong as it is possible to make it.

(8) CONCLUSION.

The paid-up capital of the Company, amounting to \$250,000, the amount held by the Company for reserves under its policies, viz., \$38,420, and its substantial surplus, \$47,821.99, form a strong guarantee to policy-holders. When to these is added the uncollected capital remaining of the one million dollars subscribed, held by prominent and wealthy Shareholders throughout the Dominion, it will be seen that the Company offers the amplest possible security to its assured.

The Directors believe that the important principles and rules which have been adopted in the conduct of the business, namely, careful selection of risks; vigilance and skill on the part of the medical examiners and the chief medical referee; the safe and remunerative investment of funds; the employment of active, intelligent and honorable agents, whose efforts are aided and supported by capable management at the head office; the holding, as assets, securities of an unquestionable character; and the maintenance of the reserves on a conservative basis, must build up the Company on a sound and permanent foundation.

No doubt a measure of the success of the Company is due to the simple and straightforward policy contract issued by it. Objectionable and technical clauses found in many life insurance contracts have been omitted, and the policy adopted is perhaps one of the simplest life insurance contracts issued by any company.

A complete audit of the books, documents, securities and statements of the Company has been made by gentlemen of extensive experience and ability, and their report is appended to the financial statements.

The Company's District Managers and Agents deserve special commendation for the satisfactory business they have secured in the short time that they have been with the Company, and you are to be congratulated upon the evident enthusiasm with which they have entered upon the business of the year 1898.

THOS. BRADSHAW, Secretary.
O. MOWAT, President.

ties held at the Head Office of the Company, and the evidences of the Dominion Government Deposit, and the cash and bank balances, and find the same to be correct and in accordance with the above statements.

JOHN MACKAY,
E. J. HENDERSON,
Auditors.

The President, Hon. Sir O. Mowat, in moving the adoption of the report, said:

I beg to move the adoption of the Directors' Report. It sets forth all the information which you probably need or desire, but I may make a remark or two of a general kind in submitting the motion.

The great advantages of life insurance as a means of securing a provision for a man's family after his death are immensely more appreciated in Canada nowadays than they were half a century ago, when I took out my first policy. It was for a small amount on my own life in an English company, at the solicitation of a personal friend who had been appointed the company's agent here. Life policies are also now recognized as valuable, and are now frequently taken for other purposes also, such as the security of creditors and the like. The appreciation of the value of life insurance has been growing gradually in Canada, and the present extent of such appreciation is illustrated by the enormous amount annually paid in life insurance premiums in Canada, namely, upwards of ten millions of dollars (\$10,000,000), divided amongst Canadian, British and United States companies. The amount ascertained to be insured by residents of Canada under policies in force at the end of 1896 was about three hundred and twenty-seven millions of dollars (\$327,800,499). The projectors of the Imperial thought, in view of the great amount of business done and to be done in the future, that there was room for another Canadian company. The principal insurance companies doing business in Canada were and are strong companies, and safe for their policy holders, and it was determined that the new company should present to its policy holders security, not only equal to the security afforded by other companies, but, if possible, superior security.

This the Imperial does by means of the provisions set forth in the Directors' Report. The report shows the strength of the company, the sound principles on which it has proceeded, and the energy, economy and general prudence with which its business has been done. The success of the company is now an assured fact.

Mr. J. W. Flavelle, Vice-President, seconded the motion, which was carried unanimously.

Sir Mackenzie Bowell, in moving a resolution of thanks to the Company's representatives, for their efficient services, said that no better evidence could be afforded of the efficiency and zeal of the Company's field staff than the large volume of business which the report shows was secured in the short time during which the Company has been represented. I know personally some of the representatives of "The Imperial," and can unhesitatingly say that they are men highly respected in their communities, and who will do their utmost to preserve the substantial record which "The Imperial" has already attained. Their duties are arduous, but their hands will be materially strengthened by the Head Office management.

The success of a life insurance company depends, in no small manner, upon its representatives, inasmuch as they reflect very largely the policy of the Head Office throughout the whole country. It is encouraging to know that wherever "The Imperial" has been established, it has been well received, and it may be considered to-day as one of our most progressive and substantial Canadian life insurance companies.

In seconding the motion, the Hon. George A. Cox said: It affords me pleasure to second the resolution moved by Sir Mackenzie Bowell. In entering upon its career the Company was fortunate in placing its capital stock at a substantial premium, and without actual loss in the hands of a wealthy and influential people throughout the Dominion; it is fortunate in having its Directorate composed of gentlemen who command the confidence and respect of their fellow-citizens; fortunate in having capable management at the Head Office. All these things are essential to the success of a Life Assurance Company, but no company can succeed without an intelligent, honest, energetic staff of agents constantly explaining the advantages and enforcing the claims of the Company. That the Company has already secured a number of first-class representatives is witnessed by the success that has thus far attended their efforts. The field men should not only have the cordial thanks of the Shareholders and Directors, but should have every possible encouragement and assistance from the Head Office staff. I am sure they may always rely upon this to the fullest extent. In this connection I may refer to the advantage it will be to the field staff, as well as to the Company, in all other respects, to have secured the services as Actuary of Mr. Thomas Bradshaw, so well qualified in every respect for that position, and who has the honor to attach to his name the degree of F.I.A., i.e., Fellow of the Institute of Actuaries of Great Britain. I think here are only two or three gentlemen in Canada who have attained that distinguished honor by examination.

Members, C. C. Baines and E. R. Wood, having been appointed Scrutinizers, reported the following gentlemen elected as Directors for the ensuing year:

Hon. Sir O. Mowat, Joseph W. Flavelle, Hon. Sir Mackenzie Bowell, Hon. J. D. Edgar, Hon. William Henry, Hon. S. O. Wood, J. J. Kenny, J. H. Plummer, A. E. Ames, Hugh N. Baird, F. R. Eccles, M.D., A. E. Kemp, William MacKenzie, W. Y. Soper, F. G. Cox. At a subsequent meeting of the Board Hon. Sir O. Mowat was re-elected President, and Messrs. J. W. Flavelle and A. E. Ames, First and Second Vice-Presidents respectively.

Ayer's Asthma Cure

better known as Ayer's Cherry Pectoral, has made a record for its remarkable cures of asthma. Cases that have been considered beyond hope or help have been cured by this remedy. We give two examples of such cures out of the many on record:—

"My mother has been a great sufferer from asthma for the past ten years, and her recovery is almost without a parallel. On account of her advanced age—over seventy—we had but little hopes of ever seeing her well again; but we are sincerely grateful to inform you that she has been entirely cured by the use of Ayer's Cherry Pectoral."

INGLIS BANKS, Tar Brook, N.S.

"I was a sufferer for a long time from asthma, vainly endeavoring to procure relief in the use of ordinary remedies. At length I was induced to try a bottle of Ayer's Cherry Pectoral. The first bottle afforded me so much benefit that I continued the use of the remedy until entirely cured."

JOSEPH KLONZ, Charlotte, N.C.

WHEN PLANNING GIFTS.

Make One of These Very Handy and Satisfactory Needle Cushions.

When in haste to do a little mending or other sewing, did you ever look in vain for a needle in the cushion which you supposed contained a full supply? Closer examination reveals the fact that the interior of the cushion is full of them, but you do not care at such a time to press them up late light, and you feel like saying as I have done many times, why do people make such thick cushions? Whether the needles are run in horizontally just through the surface, or stuck in upright, they soon disappear, and woe to the fingers that give the cushion too quick pressure. A cushion especially for needles is one of the conveniences of a well equipped sewing table, and greatly to be preferred to a needle book for use when one is sewing. If the needles are always stuck into it whenever not in use, instead of running them into the edge of the table cloth or the front of your waist or leaving them wherever it is handy to drop them many less needles would disappear only to be found in some one's foot, and many finger pricks would be prevented. I recall two people who if they were to spend a morning at my sewing table unknown to me, would surely betray the fact of their presence there by the numbers of needles they would scatter about the floor. It is not so much the value of the needle, although this is almost equal to its weight in gold if it be the only one of its kind, as is often the case in some scantily furnished work-baskets, which I have seen. But a needle lost is like an unseen foe—you never know when it may appear, and it should always be diligently sought as soon as it disappears.

After the annoyance of using all sorts of "charity fair" cushions and gifts which kind meaning friends thought would suit me, I determined to try what my own fingers could fashion. Although it was nearly bedtime and the mending basket was not yet emptied, I knew the value of the limitation of that moment. I quickly found a thin, flat, hard box, about three inches long, two inches wide and a little less than an inch high, one of the kind in which the box slips into the cover from the ends. I cut the top out of the cover and put it on the bottom, then set the box into this, thus having the thick edge of the cover board at the bottom and two at the sides. Pieces of an old merino stocking were cut the exact size of the box and laid into the inside until well stuffed. From a piece of silk plush large enough to cover the box and sides, squares were cut out from the corners, the plush was then fitted on with a few over stitches at the corners and another piece was fitted to the bottom of the box and caught along the sides. A ribbon of the same shade and just the right width, happened to be in my mending basket; this was drawn round the edges and finished at one end with a bow. In less than half an hour my thought was complete and my ideal needle cushion was ready for use. The smallest needle will not sink more than two-thirds of its depth, as the card board is an effectual barrier, yet it is not hard enough to do the points. The woolen stuffing prevents the needles from rusting and can never become rancid like meal. The cushion is light yet solid enough to keep on its base, is of uniform thickness, and has been in every way satisfactory.—American Kitchen Magazine

Reaping With Air.

One of the greatest aids to the modern housekeeper is the pneumatic sweeper. This surprising new invention, which nobody seems to claim the honor of having discovered, and which is, therefore, open to all manufacturers, relegates the broom to the garret and takes the place of the mechanical carpet sweeper, which a few years ago was thought to be perfection.

All that is necessary to fit the pneumatic sweeper to any hotel or private house is a pipe connection for compressed air. The new sweeper consists simply of a long nozzle attached to the end of a rubber hose. The nozzle is about the same size as a broom handle.

One end of this pipe is inserted into the rubber hose, and the other carries a brass arrangement about a foot in width across the face. Here there is a narrow slit running from side to side, and not more than 1/32 of an inch in width.

Through this narrow aperture the compressed air is forced at the rate of seventy-five cubic feet a minute. The housemaid using the pneumatic sweeper passes it back and forth over the surface of the carpet.—New York Herald.

Around the House.

To remove fruit and vegetable stains from white cotton and linen, wash in weak chloride and then in clear water, or hold the stained portion, dampened, over sulphur fumes and then rinse in clear water.

The best housekeeper is apt to encounter stains somewhere. For all sorts of the following recipe is said to be without a peer: Put a piece of white amber the size of a walnut, a piece of potash as big as a hazelnut, and two lemons cut in slices into two quarts of clean spring water. Let it stand twenty-four hours; then dampen the spot with it and wet the place with fresh water directly afterward.

Novelties in the China Shop.

Patty cups set on silver standards are among the expensive trifles one may buy for Christmas gifts. The cups are of delicate china and fasten firmly into the silver standholders.

Kitchen. Dishes, toast racks replace the plain silver ones in many up-to-date shops. They are much more decorative than the old-fashioned silver ones, and are much more easily kept clean.

Decorated sugar boxes of the china are lovely and inexpensive. The bread, powdered the covers are firmly, and there is a graceful handle to make easy the act of unscrewing the morning breakfast cabinet.

ONLY ONE WORLD.

Our Earth the Only Habitable on the Universe's Beach?

Popular Astronomy and The Hartford Courant have come to the conclusion, says The Troy Times, that there is only one earth, and, such being the case, is a very desirable place of residence. An idea prevails in the common mind that our world is only one of countless similar bodies; that space is filled with solar systems not unlike our own, and that it is possible other globes are inhabited and quite as habitable, if not more so, than the one in which we dwell. Popular Astronomy says: "Although our solar system is only one among thousands of systems now known to exist in every part of the heavens, among all these other systems there is not yet disclosed a single one which closely resembles our own."

"This is not a positive assertion that ours is the only world in which human beings live and move and have their being, but it leads up to the belief and this is sustained by much argument dealing with astronomical technicalities, which may be omitted here. It seems to be convincing to The Courant, for that paper takes up the discussion, and, after considering some other points, sums up the case as follows:

"Not only is our earth unique in its favorable position in our system, but our system, as far as is known, is unique in the universe of systems. We rarely think on how narrow a margin we live. A little more heat or a little more cold, and we die. Our existence depends on keeping changes of temperature within a range of about 1 per cent. of what we know as possible extremes. If the moon were very much larger the tidal wave would carry the entire ocean twice a day over the surface of the earth. If the earth were much smaller we would lose our atmosphere; if it were much larger we could not stand upright more than five minutes nor would we be able to mount a hill except by painful crawling. If the year were twice as long as it is it is doubtful if we could raise food enough in the summer to carry us through the winter or if we could survive the accumulated cold. In every way our earth lies just at the meeting point of two kinds of death which in this bank and shoal of time we must fight with either hand. It makes no difference whether we have fitted ourselves to the earth through a long series of evolution or whether it was fitted to us; as far as we know it is the only habitable spot in the universe, and the chances are almost infinite that no other is so favorably located. Let us make the most we can of it."

Toes, Claws, Fingers.

The elephant, a slow-moving animal in the ordinary course, has as already observed five toes. The rhinoceros, a much faster beast, as hunters have often testified to their confusion, has but three. Now in the sheep we find two digits only, while in the horse, peering in the matter of pace, the number falls to a single digit. The nail of the higher mammal may have given place to a horny hoof; no matter, the finger remains, for purposes, at any rate, of comparison, a finger all the same. Be it added that many extinct booted creatures are endowed with the full five digits, and not a few existing deer show distinct traces of two obsolete shorter "fingers." From this I gather—though the theory may not quite unreasonably be dismissed as far-fetched—that these weaker grass-eaters have gradually dropped their digits as the struggle grew in severity and the necessity for swiftness of limb increased.

Nor, I am free to confess, did the apparent truth of this appeal to me in fact until I came to compare the foot of the swift ostrich with that of the stately stork. It was as I expected, the feet of the stork had dropped two of the four fingers permitted to most birds, having but two. The almost equally swift emu and cassowary had dropped one, being possessed of three spurs. This, then, seems to me a fair rule; the fewer the digits the swifter the beast. And the rhinoceros, the stamp of the exception necessary to prove it, inasmuch as the sluggish hippopotamus has one less than the hare! Perhaps, then, this notion of mine will apply only to the hoofed beasts. Whether the elephant might in time have dropped one or two of his digits, and at the same time directed himself, to acquire greater pace, is an open question, and one which since the arrival on the scene of man and his rifle, is likely to go unanswered. These last have been powerful factors in putting a term to the development of many an interesting zoological problem.—Good Words.

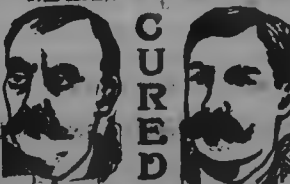

NERVOUS, DESPONDENT, WEAK, DISEASED MEN.

Cure Guaranteed or No Pay

YOUNG or MIDDLE-AGED MEN—You may have been the victim of SALT AKE, when you were a child, or of LATER KIDNEY or a blood disease may have completed the work. You feel the symptoms stealing over you. You dread the future. You know you are not a man mentally and sexually. Why not be cured in time and avoid the experience of others? The cure of these diseases. Our NEW METHOD WILL CURE YOU AFTER ALL ELSE FAILS.

Emissions, Varicocele and Syphilis Cured

W. E. HILLMAN W. E. HILLMAN

Before Treatment After Treatment

"At the age of 31 I commenced to feel my health failing. I was weak and nervous, despondent, appetite, general strength, pale, sleep, hair loose, sore tongue and mouth, drains in urine, varicocele—I was a wreck. I was the best of men. My friend recommended Dr. Kennedy & Kegan. A dozen other doctors had failed in curing me. Dr. Kennedy & Kegan cured me in a few weeks by their New Method Treatment. I would warn similar diseased men to beware of Medical Fakes. They are palatable, honest and skillful physicians."

TO THE INDEPENDENT ELECTORS

East Peterborough

Gentlemen,—At the earnest solicitation of a large number of Electors from all parts of the Riding, I have consented to be a candidate for your suffrages at the approaching General Elections for the Province of Ontario. The very limited time at my disposal will prevent me calling upon, or even addressing all who have the privilege and responsibility of voting on the first of March next, but being a native of Peterborough, and having spent over thirty years of my professional life in the East Riding of the County, closely identified with its Agricultural, Municipal, Educational and Political interests, I feel that I require no introduction to you, and need make no apology for appearing before you as an aspirant for legislative honors.

They Face the Masters

For over twenty-six years the government of this Province has been in the hands of one political party, and judging the leaders of that party by their acts, it would appear that their chief aim has been, by the lavish distribution of patronage, by centralization of power, by the reckless expenditure of the people's money, and by venal legislation, to so entrench themselves in office, as to constitute themselves the masters of the people, instead of being their servants. During all these years there has been no proper and independent audit of the public accounts. An attempt at investigation has been made annually in the Committee of Public Accounts, but this is a party tribunal, having upon it always a majority of government supporters, and everything is decided there by a strictly party vote.

There Should be an Audit

During their tenure of office these men admit having received over four millions of dollars more than they have expended, and the Treasurer's latest statement shows that the money is not in his hands. Is it not time that there should be a thorough audit of the accounts of the Province, such as you demand at every election and municipal councilors and the directors of your agricultural societies?

Superior Representation

I would also call your attention to the fact that \$100,000 might have been saved to the Province, in occasional allowances and mileage alone, had not an unnecessary and uncalculated increase been made in the number of representatives in the Local Legislature. The number of members fixed by the act of Confederation was eighty-two; the present number is ninety-four, twelve more than in the first Legislature.

There is No Surplus

For years, your ears have been tickled by the tale of a wonderful surplus, but the truth is now out. There is no surplus. It is wholly a mythical affair. Not only has the Cash Surplus of \$3,000,000 which was received by these gentlemen from the former administration been dissipated, but the Province, on their own admission is now deeply involved in debt. An independent audit of the public accounts, such as would certainly follow a change of administration, would render this fact as clear as noonday. In this matter the government of the day has grossly deceived the people, and hence the lack of confidence which is being manifested throughout the Province.

Educational Mismanagement

A great deal of dissatisfaction has arisen on account of the management, or rather mismanagement of our educational interests. The relegating of our public schools, the only schools that ninety-five per cent. of our children ever attend, to an inferior position in our educational system; the unnecessarily high price of school books, owing to the creation of monopolies and the payment of royalties, and the increase in the number and cost of examinations are subjects calling for the earnest attention and investigation of every elector. In this connection let me call your attention to the very serious fact that the government, although there is no increase in the attendance at the Normal Schools, and although there are already whole regiments of unemployed teachers, educated largely at the expense of the Province, proposes to erect a third Normal School at London, and has placed a sum in the estimates for that purpose.

Investigation Needed Here
The policy of the Government on the timber and saw-log questions; the enormous amount of money that has been expended for the purpose of carrying out the waste land policy in which the money for colonization roads has been expended are also matters which require the most rigid investigation. I do not object to the amount of money spent on colonization roads, but to the system by which the bosses and overseers receive so large a share of the grants and so small a share is spent on labor. An immediate change is necessary in order that these abuses may be corrected and an era of good, pure, honest government be ushered in.

What I Can Consistently Promise
I can assure the electors that if they honor me with their confidence, I will do all in my power not only by my vote, but by my voice also, to bring about this very desirable change.
I am, gentlemen,
Your obedient servant,
S. P. FORD

Norwood, February 14th, 1898.

A Public Benefactor.
Mr. Smithkins (drawing up his will)—To the Peterborough home for incurables I leave and bequeath the sum of \$10,000; to the Peterborough orphan asylum, \$40,000; to the Peterborough Baptist Church, \$50,000; to a town library in the town of Peterborough, \$10,000; to the—
Mrs. Smithkins—Goodness me! Are you crazy? You ain't worth ten cents, and you know it.
Mr. Smithkins—Oh, shut up, and leave alone! I'm going to take this will round to the president of the National Bank and have him witness it. I've got to overdraw my account there for \$27 next week.—Judge.

Alaskan Consolation.
"I don't think I shall go to the Klondike, after all," said the man who has had the gold fever.
"But you were very enthusiastic a short time ago."
"Yes, but I got to thinking it over. I don't see any object in camping out on the Arctic circle, and trying to cheer yourself up by thinking that if you escape freezing to death you'll be rich enough when you get home to buy all the ice you want every summer."—Washington Star.

His Conclusion.
"No, sir," said the rural voter, "I wouldn't trust that politician under no circumstances."
"Why not?"
"He's heard about how ye orter be ware of a two-faced man?"
"Yes."
"Well, after seeing all the different pictures of him in the newspapers, I've come to the conclusion that he's a seven-faced man at the lowest calculation."—Washington Star.

Are You a Farmer?
Good feeders have long known that certain kinds of food would greatly improve the flesh of animals for human consumption. The feeding of roots improves the quality of mutton; artichokes improve the quality of pork. Enterprising stock farmers have found that the feeding of celery improves the flavor of their birds, and chestnuts are fed, to fatten turkeys to produce a game flavor. Green cut bone is fed to chickens for the same reason and to increase the size of the fowls and to increase and improve the flavor of their eggs. Careful experiment and practical experience have proven beyond any question of doubt that the liberal feeding of green cut bone will double the egg yield from a given number of hens. Green bone is cheaper and in larger quantities than any other food. It can be fed to chickens for the mere cost of the bone, and it can be fed to fowls and chickens for the cost of the bone and the cost of the feed. This is much cheaper than wheat, which is the best of the cereal egg-producing foods. Green cut bone has such a potent force in increasing egg production that it will be found especially helpful in winter, producing large quantities of eggs when they are of greatest value.

SWEET PEAS.

A host of dainty, wing-like flowers,
A bowl of Dresden china,
Bergs to-day some lonely hours
With potency far finer
Than all the roses, wondrous fair,
Which languish in their glory
In stately vase of pattern rare,
Breathing the summer's story.

A swarm of pink-bellied butterflies,
You seem to pulse and hover
On your frail stems, and try to rise,
Seeking the wind, your lover.
Sweet peas! My fancy and my heart
You charm with your faint fragrance
It challenges Dame Nature's art
To match you, lovely vagrant.

HANGED THAT HE MIGHT LIVE.

Peculiar Surgical Operation Performed
in a California Hospital.

A very delicate and extremely rare surgical operation has been performed successfully at the French hospital in this city upon C. Hoffman, a young German farmer. By it not only his life has been saved, but he is on the speedy way to the recovery of health. Hoffman was employed on a farm near Knight's Ferry. During the latter part of July he fell backward off a wagon, striking the hard ground with the back of his head, and fractured the third cervical vertebra, an injury which in nearly every case proved fatal. An examination by the physicians in the country disclosed the seriousness of the injury, and they gave it as their opinion that not one in a thousand ever could survive it. The fracture prevented the moving of the injured man's head in any direction. The slightest attempt to move the head caused violent vomiting, brought on fainting spells and impeded respiration. The patient was given very little nourishment with a spoon, and had to be kept constantly in one position. His frame wasted away and yet he lingered, suffering great agony.

On August 11 he was brought to the French hospital in this city, where the physician, a doctor of medicine, was the only possible means of saving the life of the patient. In the presence of the hospital house staff and a number of consulting physicians the operation was performed August 15. A Jackson was made in the neck, exposing the vertebrae, which showed the injury to the third process, the arch of which was removed, as was a portion of the second vertebra, thus removing the obstacle to the unrestricted motion of the head. The wound was closed and an extension apparatus applied.

The patient rests on an inclined plane. The weight of the body acts as a counter extension to the weight applied to the extension apparatus which is attached to the head, and the rest of the body is suspended by the neck until he shall be restored to health. The wound has been dressed four times since the operation was performed, and the patient is doing well. At the last dressing Dr. Oscar J. Mayer, the operating surgeon, was very sanguine that his patient would soon be restored to perfect health.—San Francisco Chronicle.

A Dart That Didn't Stick.

No better and at the same time no more courteous rebuke could well be imagined than that once administered by Beaumarchais, the author of the famous "Marriage of Figaro." He was the son of a Parisian watchmaker, but had gained fame, rank and wealth through his own talents and exertions. A conceited and envious young nobleman once undertook to wound the pride of Beaumarchais by an allusion to his humble origin.

In the presence of a large company of people who had a regard for the talented young author, this young man handed him a watch, saying:

"Examine it, sir; it does not keep time well. You can doubtless ascertain the cause."

Such was his rude haste that his hand left the watch before that of the surprised Beaumarchais had grasped it, and it fell to the ground.

"Pardon, monsieur," said the author, with grave courtesy, stooping to pick up the watch and hand it to its owner: "You see my father was right when he declared that I was too awkward to be a watchmaker."

Brought in "Pa's Prayers."

Once upon a time sickness came to the family of the poor old pastor of a country church. It was winter, and the pastor was in financial straits. A number of his flock decided to meet at his house and offer prayers for the speedy recovery of the sick one and for material blessings upon the pastor's family. While one of the devotees was offering a fervent prayer for blessings upon the pastor's household there was a loud knock at the door. When the door was opened a stout farmer boy was seen wrapped up comfortably.

"What do you want, boy?" asked one of the elders.

"I've brought pa's prayers," replied the boy.

"Brought pa's prayers? What do you mean?"

"Yes, brought his prayers, an' they're out in the wagon. Just help me an' we'll get 'em in."

The investigation disclosed the fact that "pa's prayers" consisted of potatoes, flour, bacon, cornmeal, turnips, apples, warm clothing and a lot of jokes for the sick one. The prayers were then returned in short order.—Omaha World-Herald.

Rough on Pat.

Two Irish goliards stationed in the West Indies were accustomed to bathe daily in a little bay which was generally supposed to be free from sharks. Though on good terms with each other, they were not what might be called fast friends.

One day, as they were swimming about one hundred yards from the shore, they observed Mick and only making for the land as hard as he could, without saying a word. Wondering what was the matter, Pat struck out vigorously after him, and landed at his companion's heels.

"Is there anything wrong with you?" inquired Pat, feelingly.

"Nothin'—nothin' at all," replied the other.

"Then what did ye make such a sudden retreat for, an' leave me?" continued Pat.

"Bened," answered Mick, coolly, "I spied the sea an' a shark on't, an' I thought while he was playin' with you it would give me time to reach the shore!"

It is not to be wondered at that Pat declined to bathe with Mick any more.

Rheumatic People

Do not waste waste words. It is not to be wondered at that Pat declined to bathe with Mick any more.

W. R. DOBSON,

11 Jarvis Street, Toronto.

HEALTH IN MARCH, APRIL, MAY!

Use the Only Spring Remedy in the World That Has Stood Every
Test of Time

PAINE'S CELERY COMPOUND MAKES ONE WELL

In March, April, and May use Paine's Celery Compound.

And only Paine's Celery Compound is the only spring remedy that the best physicians recommend.

Clergymen of all denominations speak of this wonderful medicine with enthusiasm.

Paine's Celery Compound has a record of life-saving work that has never been equaled.

Paine's Celery Compound cures disease. It makes people well. It has saved the lives of thousands of sufferers.

It purifies the blood and enriches the nerves.

Every condition of winter life has been detrimental to health. There has been a steady decline in nervous vigor. Now that spring comes the body is ready to cast off unhealthy tissues if it is only given a chance.

This opportunity comes when the excretory organs, kidneys, skin and bowels are made to work actively and the nerves are able to furnish sufficient energy to the digestive organs.

No remedy in the world accomplishes these results like Paine's Celery Compound. It nourishes, regulates and invigorates the entire nervous system from the brain to the minutest nerve filament.

It causes an increased appetite and tones up the stomach to deal with the increased food. Its nourishing action is immediately manifest in a clearing up of the muddy, unhealthy skin, an increase in weight and more refreshing sleep.

First discovered after laborious scientific research by the ablest physician America has produced, Prof. Edward E. Phelps, M.D., LL.D., of Dartmouth College, it is prescribed and publicly endorsed by the best practitioner in every city of America.

It has been so enthusiastically recommended by grateful men and women in every walk of life that it is to-day in every sense the most popular remedy the world ever knew.

It has proven itself the greatest of all spring remedies.

In Montreal, Toronto, Hamilton, London, Quebec, Halifax, St. John.

Winnipeg and other cities, the leading druggists have found that the demand for Paine's Celery Compound surpasses that of all other remedies together.

Paine's Celery Compound, taken during the early spring days, has even more than its usual remarkable efficacy in making people well. It rapidly drives out neuralgia, sleeplessness, dyspepsia and rheumatism from the system. It removes that lassitude, or "tired feeling," which betokens weakened nerves and poor blood.

Women working in close offices; saleswomen tired out and nervous from long hours' standing on their feet and waiting on impatient, irritable customers; overworked, worried and disheartened men and women everywhere will be astonished to find how much happier life becomes when their nerves have been strengthened and their blood purified by means of this great remedy.

No other remedy has the hearty approval of a like body of educated men and women and professional men, nor has there ever been a remedy

that was welcomed in so many intelligent, prudent houses where care is taken to get only the best in so vital a matter. In such families all over the country Paine's Celery Compound is the first, last and only remedy used.

Prof. Phelps had studied the nerves in health and disease, when well nourished, and when under-nourished, in men and women and children years before he looked for the remedy. Paine's Celery Compound is the outcome of his entire professional life.

It is the one remedy that the world could not lose to-day at any price. Paine's Celery Compound induces the body to take on solid flesh.

Physicians recognize Paine's Celery Compound as the one scientific spring remedy, and it is universally prescribed by them wherever there is restoring of health and strength to the worn-out system.

Paine's Celery Compound is the best great need of a vigorous and prompt spring remedy because it is more than a mere spring remedy. It brings about a healthy appetite, complete digestion, regular action of the bowels

and the other excretory organs whenever taken, whether in summer or in winter; but as the greatest of spring remedies it has extraordinary opportunities for inducing the body to throw off morbid humors that poison it and cause rheumatism, neuralgia, heart trouble and a general low state of the health, as in spring the system is more pliable, and chronic diseases, so securely lodged in the system that they are with difficulty ousted, become more tractable.

Thousands of men and women have found from personal experience that Paine's Celery Compound makes people well, and keeps all from sickness who take it in the spring.

Many a father and mother have noted in the health of their children from taking Paine's Celery Compound in the spring. It is the one scientifically accurate remedy fitted by its composition to thoroughly purify the blood and dispel that exhausted feeling and get rid of skin diseases, headaches and fits of depression with which children as grown people, are afflicted.

You may know a man doesn't mean half the complimentary things he says to you—but you like to hear him say them just the same, that is if you are anything like nine out of every ten of the average women we all know.

Balzac says a man should find all women in his wife. "My husband, however, would be quite willing to have half a dozen or so of certain types left out of the composite."

It is perfect nonsense to argue on the subject of love affairs from a personal standpoint, as every individual has ideas on that subject that can never be understood by the outsider doing a lot of speculating as to the reason of the very palpable attraction.

Church going is bound to have its good effect, even though the attendant does not every minute keep her mind on the sermon.

PROCLAMATION

Electoral District of the East Riding of Peterborough, to Wit:

Public Notice is hereby given to the Electors of East Peterborough, that on Tuesday, February 22nd, 1898, Thomas Blezard and S. P. Ford, were nominated as Candidates to represent the Electoral District of Peterborough in the Legislative Assembly of the Province of Ontario, and a poll having been demanded in the manner by law prescribed, such poll will be opened on the

1st DAY OF THE MONTH OF MARCH

In the Year of Our Lord, 1898,

In each of the Wards and Sub-divisions in which a poll will be opened, and kept according to law, and the electors are hereby notified that such polls will be opened and kept at the following places, that is to say:

1. Ashburnham, Town Hall, Ashburnham.
2. Ashburnham, John Kelly's Store, North Elizabeth Street.
3. Ashphodel, Town Hall, Westwood.
4. Ashphodel, Patrick Dineen's house, 16 1/2.
5. Ashphodel, George Patterson's house, Lot 15 Con. 8.
6. Ashphodel, Andrew Orr's house, 5 1/2.
7. Belmont and Methuen, School House, Old Havelock.
8. Belmont and Methuen, Town Hall, Belmont.
9. Belmont and Methuen, Mount Zion School House.
10. Belmont and Methuen, Bay Point School House.
11. Belmont and Methuen, Oak Lake School House.
12. Havelock, School Hall, Havelock.
13. Havelock, Post Office, Havelock.
14. Havelock, Anstruther, Stones School House.
15. Havelock, George Patterson's house, 20 1/2.
16. Havelock, John Tappin's house, 10-2.
17. Havelock, Town Hall, Havelock.
18. Havelock, School House, Sec. 3.
19. Havelock, No. 2 School House, 9th Line.
20. Havelock, Collingwood Post Office.
21. Otonabee, Village Post Office.
22. Otonabee, School House, Sec. 3.
23. Otonabee, Town Hall, Keene.
24. Otonabee, Wm. Givins' house, 22-10.
25. Otonabee, Union Hall, Mathers Corners.
26. Otonabee, Union Hall, Brewster.

And I further proclaim as the place where, and the time when, I, as such Returning Officer, shall sum up the number of votes given to the said candidates to be the Registry Office in the Town of Peterborough in this County at eleven o'clock, forenoon, of Monday, the 7th day of March, 1898.

Given under my hand at Peterborough this 22nd Day of February, 1898.

B. MORROW,
Returning Officer.

She Planned It.

"Well," said the old gentleman, "now that you've told me how much you love my daughter, suppose you go ahead and give me a little information as to how you expect to support her."

"Oh," replied Alice, "I don't mean that I'll have to do so. I've got a plan. I'll get married, and then I'll be able to support her."

"And so he'd, though the doctor announced that, while the young man's injuries were very severe, they were not necessarily fatal."—Cleveland Leader.

A Man of Standing.

Pleasant Dwyer—When I think how good I used to be, it makes me sick. Everett West—On the dead, was you ever any good?

I was so good at one time that I not only bought booze on credit, but I bought her so often that de barkeeper had a rubber stamp to put me name same down with."—Indianapolis Journal.

Consubstantial Tactics.

"The Hobbs knows a thing or two," said the old man.

"Well, he told me to-day that when he gets through wearing a straw hat he always loses it somewhere down town."

"What's that for?"

"So his wife can't make him wear it next year."—Detroit Free Press.

Had to Have Fresh Ones.

Scene, German art gallery. Pleasant Woman (noticing an artist copying one of the old masters)—Why do they paint this picture twice?

After a pause—Why, that's quite plain. When the new picture is done they hang that on the wall and throw the old one away."—Tid-Bits.

A Comfort.

"My father can lick your father." "How do you know?"

"Cause I seen your mother do it." "Well, your mother can't lick my mother, can't you?"—Life.

Reasonable Names for Pick-ups for Fall and Winter Work.

Lack of ventilation often causes dampness in the house.

If bees are to be moved it should be done before cold weather.

Try a broken butcher knife with a blade two inches long for prying up sumpers.

First I went—You see, I say to I. He replied: And you (to a clerk) said: "Now get me a pair of shoes." "Oh, all right, sir," said the clerk, "but I can't find any more like that."

First Goose—What's the difference between a Christmas turkey and a Christmas girl?

Second Goose—I dunno.

First Goose—Why, one is dressed to kill, and the other is killed to dress.

First I went—You see, I say to I. He replied: And you (to a clerk) said: "Now get me a pair of shoes." "Oh, all right, sir," said the clerk, "but I can't find any more like that."

POND'S EXTRACT

WILL CURE
PILES

"I have long known its value in bleeding piles. It is the prince of remedies in all hemorrhoids."—Dr. A. M. COLLINS, Cameron, Mo.

CATARH

"Have been a constant sufferer for years from severe colds in head and throat. Tried most every known remedy. Pond's Extract relieved me wonderfully, and has effected almost a radical cure."—FREDERICK E. FINCK, New York City.

SORE EYES

"It acts like magic in ophthalmia. I like it so much for sore eyes."—Rev. M. JAMESON.

LAMENESS

"I strongly recommend Pond's Extract for lameness, and use it constantly."—MICHAEL DONOVAN, N. Y. Athletic Club.

SORENESS

"Had a large eating sore on my ankle, which had eaten to the bone. For nine months I doctored to no purpose. Tried a bottle of Pond's Extract, and was cured immediately."—MINNIE V. NATTA, Lockport, N. Y.

BRUISES

"Pond's Extract has been used with marked benefit by our inmates in many cases of bruises, and has always proved very beneficial."—LITTLE SISTERS OF THE POOR, New York City.

SPRAINS

"I have been prescribing Pond's Extract, and find it a valuable remedy in strains and affections of like character."—W. P. BURDICK, M.D.

BURNS

"Had my left hand severely burned and lost the use of it completely. Secured relief by use of Pond's Extract in twelve hours."—Mrs. A. SHERMAN, New York City.

HEMORRHOIDS

"Am troubled with hemorrhoids from lungs, and find Pond's Extract the only remedy that will control them."—GEORGE W. WARNER, Scranton, Pa.

INFLAMMATIONS

"I have used Pond's Extract in a case of long standing internal inflammation, and obtained relief within a few hours."—JAMES E. READE, Philadelphia.

and should be always kept on hand for emergencies.

"Long experience has taught my family to regard Pond's Extract as one of the absolute necessities of householding."—ANDREW D. WHITE, President Cornell University.

MAYOR'S OFFICE.

Mr. Davis will be at the Town Offices, from 9 to 10 o'clock, each morning to meet those having business to transact.

A. L. DAVIS,
Mayor

Morning Times

PETERBOROUGH, MARCH 1, 1898

TOWN AND COUNTY NEWS.

Election Returns. Full and complete returns will appear in to-morrow's issue of the paper. We have arranged with the telegraphic companies for reports up to the hour of going to press.

Wanted. An experienced general servant wanted. Apply at once at 820 Water Street.

A Dry Spell. The Liquor License Act called for all bars to be closed at eleven o'clock last night and remain closed until six o'clock Wednesday morning.

Lost. Lost in Peterborough Saturday evening—a Checked Red and Black Horse Blanket, lined. Finder will please leave same at Snowden's Hotel, or with the undersigned.

THOS. FLOOD, Ennismore.

Salable Man Wanted. Good smart reliable man wanted to canvass the town in the interest of the Morning and Weekly Times. Must have good connection. Good salary to the right man. Apply at the Times Office.

Election Score Cards. Election Score Cards only 5c each for sale at the Times Bookstore. A convenient card for complete election returns all over the province. Get one and be ready when the great contest closes to-night.

—Mr. Ames bought his goods for cash. Kidd bought his stock of shoes at 55c on the dollar, and will give you them away below cost on Saturday, 405 George Street.

Colts vs. Cobourg High School. A hockey match between the Peterborough Colts and the Cobourg High School is announced for to-morrow evening. The event should attract a large attendance as the Cobourg team has the reputation of being a swift one. Pack faced at eight o'clock sharp.

Mountain Trout. Fresh mountain trout just arrived; 10 cents per pound. J. B. Oke.

—R. J. Kidd has bought Mr. Ames' boot and shoe stock at 55c on the dollar. There will be great bargains on Saturday.

DISTRICT AND LOCAL TOPICS

Reporter's Phone, 161 B.

—Dr. Ford held a successful meeting at Norwood on Saturday evening.

—Mr. Walter Davidson is down from Cagoule Hall, Toronto, on a visit.

—Mr. Court King, of Trinity University, came down from Toronto on a visit.

—No matter what the result may be, there'll be a hot time in the old town to-night.

—Mrs. Richard Clegg, of Ingersoll, is the guest of her sister-in-law, Mrs. J. B. Pentland.

—The Morning Times delivered to any part of Peterborough or Ashburnham for 25c a month.

—Miss Mabel Mason has returned home after a few weeks visit in Toronto and Port Perry.

—Mr. Garvin addressed a meeting at the town hall, Ennismore, last night. It was a corker.

—Mr. Garvin's meeting at Lakefield on Saturday night was a large one and most enthusiastic.

—If you see it in the other local papers the chances are it is not so. Always read the Times for the truth.

—The Times to-morrow morning will contain complete and accurate election returns. Be sure and get a copy.

—Mr. R. Kerr, formerly of the Canadian General Electric Co., is in town on a visit. He is accompanied by his wife.

—The management of the Norwood skating rink announced the last carnival of the season for the evening of Friday, March 4th.

—Miss Ada McRae is home from Whitby Ladies' College for a few days. Miss McRae is accompanied by her friend, Miss Ruby Loomis.

—There was a final rally at the different committee rooms last night. Mr. Garvin's supporters had the Opera House, and the hall was crowded to the doors.

—Rev. Father Fitzpatrick, of Young's Point, was in town yesterday. He delivered a most interesting address in the Catholic Association rooms last night.

—Mrs. Chadwick, of New York, mother of Rev. Father Chadwick, chaplain of the ill-fated battleship Maine, is on a visit to her daughter, Sister Geraldine, of St. Joseph's Hospital.

—Mr. J. McVicar, of Sarnia, who is visiting at the residence of Mr. A. P. Pousette, Q.C., rendered a couple of organ selections at St. John's church Sunday evening. He proved himself a clever organist.

The following tangled up notice is posted up in the Postoffice: "Lost a fine gentleman's cuff and pearl button; also a tan gentleman's stitched on the back kid glove. Please leave with the wicket young lady."

—The Bob. Independent says the government dredge is being prepared for an early resumption of work on the canal improvements at that village. It is expected that the work will be completed soon after the opening of navigation.

—Mr. Hugh Davidson, formerly of Smith township, but for some years past engaged in farming in the Souris district, was here last week and purchased thorough-bred Durham bulls from Mr. Wm. Hall, of Cambridge district, and Mr. W. J. Williamson, butcher, of this town. They were shipped to-day.

—The Review is generally fair, if not truthful, in its political notes. It states in last night's edition that Mr. Biezard's meeting in Ashburnham was "poorly" attended. The attendance was certainly large—in fact, the meeting was the most representative held in the village during the campaign.

—On Sunday, Mr. Patrick Galvin, one of the oldest and most respected and venerable residents of Ennismore, passed away in the 92nd year of his age. Mr. Galvin and the nineteenth century came to the world together, and Mr. Galvin has been a prominent figure in the local progress that has marked the past 92 years. He passed away full of years and honor.

—At Auburn Saturday evening, while a Deane farmer was driving along the road, his team collided with Mr. Mann's wood sleigh, and utterly demolished the front part of it. One of Mr. Mann's horses was knocked down and sustained a severe injury having three of his ribs broken. Jas. Ellis, a young lad who was driving with Mr. Mann, was knocked under the horses' feet and trampled on.

—"P. B. Publico," in last night's Examiner, by his utterances stamps himself practically as an "educated man." Crude translations of Latin authors have no effect on cordwood—much less on the independent elector.

—At St. Peter's cathedral Sunday His Lordship Bishop O'Connor made a reference to the death of Archbishop Cleary, of Kingston, and spoke of his great ability and his services to the church in Canada. Prayers were asked for the repose of his soul. His Lordship Bishop O'Connor, Ven. Archdeacon Casey, Monsignor Laurent, of Lindsay, Father McGuire, Hastings, and Father Joe Sullivan have left to attend the funeral.

To the Ladies.

Mr. R. H. Kells attended the great sale of dry goods and clothing of the stock of the Army and Navy store in Toronto, which is in liquidation, last week, and purchased a large quantity of black crepons. These goods are perfectly new and were purchased at a very low price. Mr. Kells is ever alert in securing bargains for his many customers, and these goods are now on sale in his store, and are genuine bargains.

A Business Change.

Mr. Geo. F. Ward has purchased the hardware business of R. H. Fortye & Co., and takes possession to-day. Mr. Ward has been a resident of Peterborough for twenty-five years and of late years has been in charge of the Bank of Montreal property. The Times wishes him every success in his venture.

The Head of Life.

McQuay, Baple & Co's bread is pronounced to be first-class. Only 10c. for a large loaf.

Easy to Take Easy to Operate

Hood's Pills

said: "You never know you have taken a pill until it is all over." See C. I. Hood & Co., Proprietors, Lowell, Mass.

The only pills to take with Hood's Cathartics.

CAMPAIGN SONG

The following "ditty" reached The Times sanctum at an early hour this morning. We give it a place in our columns with apologies to our readers:

(Tune—Hot Time.)

Come along, get you ready for to wear your brim new gown.

For there is going to be an election in this good old town.

When Garvin, the old war-horse, is sure to win the day.

And J. R. Stratton kept at home the last of March they say.

When you hear that the poll-line does begin.

Get right in line and put a plumper in.

And when you vote for Garvin You'll want to shout and sing— There'll be a hot time in the old town to-night!

Chorus—

When you hear them bell's go ding, a-ding, a-ding.

All join hands and sweetly you must sing.

On the first of March, when Garvin does get in.

There'll be a hot time in the old town to-night!

There'll be J. R. Stratton at you for your vote to help him in.

But you'll not be so foolish as to commit such a sin.

Tho' they say he's lots of trouble we won't accept a red—

But will carry Garvin to victory, and J. R. to bed.

Please, of please, let Stratton take a fall.

Vote for Garvin, he'll serve you best of all.

He must be our man or we'll have no man at all—

Then there'll be a hot time in the old town to-night!

Chorus—

All the ruggies at the Humber are much to be desired.

For when Whitney is put in power 'twill be a pretty sight.

Hardy's Government is tottering, for 'tis rotten to the core.

Discontent no more will reign supreme when he's hurled from power.

Cheer, boys cheer, when Hardy takes a fall.

Vote for Garvin, he'll serve you best of all.

He'll be our man or we'll have no man at all—

And there'll be a hot time in the old town to-night!

Chorus—

—R.S.W.

Delightful Pastry
McQuay, Baple & Co. are selling the most delightful pastry in town. Opposite Adams Hall's.

WALTON'S RHEUMATIC PILLS

Toronto Junction, Jan. 23, 1897.

Last fall I was working as a carpenter on the roof of a building, and was taken with rheumatism in my legs so bad that I could not stand. I used various remedies without relief until I was recommended to use Walton's Rheumatic Pills. I have had three boxes, taking only two and a half and am entirely cured, and have had no return of the disease. Been working at my trade ever since.

YOUR CLOCK

Are you satisfied with the way your Clock is keeping time?
Ten chances to one you're not.
Perhaps the cold weather has affected the movements, as it very often does—or it is clogged with dust and needs cleaning and oiling.
If it is out of order or needs repairing the best thing to do is to bring it to

CHRISTIAN SYMPATHY AND KNOWLEDGE

Has been the influence of having more men and women than all other churches could possibly do in ten centuries preaching the Gospel, and saving souls.

Dr. Allin's Kidney "Buds" are a remedy founded on Christian Science, and are a permanent cure for all forms of kidney complaint.

When you take Dr. Allin's Kidney "Buds" it simply means a permanent cure from all forms of kidney complaint. Dr. Allin's Kidney "Buds" has the prestige of Christian Science behind it, which is more than any other medicine can claim. It is a remedy which has been purchased for the purpose of giving relief to suffering humanity.

Dr. Allin's Kidney "Buds" are an honest remedy sold at a reasonable price.

THE GOVERNMENT HAS A CLOSE CALL

And May Find Itself in the Minority When the Returns Are All In

MR. STRATTON IS ELECTED BY A LARGE MAJORITY

East Peterboro Still in Doubt With Chances in Favor of Dr. Ford—Two Cabinet Ministers Among the Strong—Intense Excitement and Great Enthusiasm.

The result of the election yesterday was a surprise to nearly everyone. No one thought for a moment that Stratton would carry West Peterborough, for instance, by more than a few hundred of a majority, at the outside, and judging from the enthusiasm displayed at the public meetings by the Conservatives and their perfect organization, it was thought that his large majority of four years ago would be turned into a minority. The town was expected to give Garvin at least 300, instead of which it gave Stratton 207. This was the greatest surprise of all, and can only be accounted for by the fact that the Conservatives had no boodles, while their opponents are credited with having "barrels" of it. Be that as it may, the fact remains that the men who attended the Conservative committees and were loudest in their talk against the Liberal party were out working for the Liberal candidate yesterday morning. Their sudden flop, it is claimed by the Conservatives, was due to boodles. It was the common talk of the street yesterday that money was being freely paid for votes. Of course the Liberals deny this soft impeachment, and claim that if money was used it was not known to Mr. Stratton or his agents.

After the result became known, large crowds gathered at the committee rooms of the candidates. Of course Mr. Stratton was the hero of the hour. A procession was formed and the member-elect was driven to the Opera House escorted by a couple of bands of music and thousands of citizens. At the Opera House the usual congratulatory speeches were made, which were interspersed with the reading of despatches from outside places as they were received.

THE FIGURES

Below are given the figures as received up to midnight.

TOWN OF PETERBOROUGH.

EAST PETERBOROUGH.

Or. account of the great extent of

territory in East Peterborough, it was impossible to obtain the figures. Ashburnham gave Ford a majority of 47, to the lead about 90 votes. The back country is expected to give Blizard from 75 to 100, so that the result is extremely doubtful.

OUTSIDE PLACES.

Toronto West—Far, as last heard, Crawford, Con., 602 maj.
York West—Woodbridge gives St. John, Con., 42 maj.

As far as heard from: Libs. 30, Cons. 29.
Kent West—Pardo, Lib., elected.
Perth North—J. Brown, Lib., elected.
Muskoka—Bridgland, Lib., 75 ahead so far as heard.
Brant North—Burt, Lib., elected.
Victoria West—Fox, Con., elected.
Huron North—Bowman, Lib., elected.
Haiton—Barber, Lib., elected.
York West—Result doubtful. Now claimed by both.
Peel—Smith, Lib., elected.
Renfrew North—White, Con., ahead so far.
Hastings—Harr, Con., elected by over 400 maj.
Haldimand—Holmes, Lib., elected.
Cons. gain Hamilton, East and West.
Essex North—McKee, Lib., maj. 221, with one place to hear from.
Huron Centre—Malcolm, Lib., elected, with about 400 maj.
York West—St. John, Con., elected by 200 maj.
York North—Davis, Lib., elected.
Forty-four constituencies heard from. Out of these Cons. carried 26, Liberals carried 18, Cons. gain 13, Libs. gain 1.
Middlesex West—Ross, Lib., elected, maj. 150.
Huron East—Hyslop, Lib., 270 maj. with 10 polls to hear from.
Randwell—Little, Con., elected, maj. about 200.
Middlesex East—Later returns indicate election of McWilliams, Lib.
Wellington West—Tucker, Patron, elected, 183 maj.
Nipissing—Lamar, Con., returned by 133.
Lambton East—H. J. Pettipiece, Lib., elected.
Wellington East—Craig, Lib., elected.
Levin—Beatty, Con., elected by a large maj.
York South—Maj. for Hardy now 130, with place to hear from, which will increase it.
Huron South—Eilber, Con., elected, maj. about 100.
Renfrew North—White, Con., elected by a good majority.
Victoria East—Carnegie, Con., maj. 250.
Greenville—Joynt, Con., elected by 290 maj.
Huron West—Garrow, Lib., elected.
Perth South—Monteith, Con., maj. 24.
Standing now is: Libs. 45, Cons. 45, Patrons 1, four places to hear from.
Standing so far: Libs. 43, Cons. 47, Algoma West—Connec, Lib., ahead with Rainy River, White Fish and St. Lawrence to hear from, which will increase Cons.'s maj. to 250.
Huron West—Beck, Con., elected by 1 maj. Full returns in.
Kent East—Ferguson, Lib., 500 maj.
York West—Still in doubt. Latest returns give Hill, Lib., maj. 40.
Wellington East—Craig, Lib., has 33 maj. so far, with 4 polls to hear from.
Norfolk North—Later, Carpenter, Lib., elected by probably good maj.
Simcoe East—Claimed by both parties.
Ontario North—Hoyle, Con., elected by 90 maj.
Norfolk South—Charlton, Lib., 43 maj., 1 place to hear from.
Norfolk North—Carpenter, Lib., 241 maj., 2 places to hear from.
Algoma West—Chidwell, Con., probably elected by over 300, 2 places to hear from.
Norfolk South—Charlton, Lib., probably elected.
Ontario North—Likely go Hoyle, Con.
Elgin West—Later returns give election to McNish, Lib., by about 100 maj.
Huron West—Beck, Con., 18 ahead, 1 place to hear from.
Addington—Reid, Con., re-elected by 340 maj.
Russell will be a bye-election.
Durham West—Maj. for Reid, Con., 118.
Toronto Telegram gives the following: Libs. 48, Cons. 47, Patrons 1.
Ontario South—Caldwell, Con., elected by about 100 maj.
Lanark South—Matheson, Con., elected, tal maj. 805.

THE CRIMINAL DEAD

HIS PULL DID NOT SAVE HIM FROM PRISON AND HE SUICIDED

Quebec, March 1.—Melephant, who was on Saturday sentenced to five years in the penitentiary for fraud against the Provincial Government, died this morning in the jail here from the effects of a dose of morphine. He was one of the most noted celebrated criminals known in Quebec. He was a court house stenographer, and became implicated in the frauds by which Elias Mailloz secured \$70,000 of provincial money. He fled to the States, but returned a few months ago. He believed that he had a "pull" with the Liberal Government, but he was mistaken.

BLACK CROOKERS FREE

MONTREAL POLICE HUNGLED THE CASE AND HAVE TO DROP THE PROSECUTION.

Montreal, March 1.—The members of the Black Crook Burlesque Company will be permitted to leave to-day for Troy, N.Y., on their personal recognizances of \$100 each. The defence has brought up a knotty legal point by claiming that they should have been arrested under a criminal statute instead of a city by-law. It will take some time to settle this. The police evidently fear they cannot make out a case.

VICTORIA'S TRADE

HIG INCREASE IN THE OUTPUT OF GOODS OWING TO KLONDIKE TRADE.

Victoria, B. C., March 1.—The influence of the Klondike outfitting

WHEN PLANNING GIFTS.

Make One of These Very Handy and Satisfactory Needle Cushions.

When in haste to do a little mending or other sewing, did you ever look in vain for a needle in the cushion which you supposed contained a full supply? Closer examination reveals the fact that the interior of the cushion is full of them, but you do not care at such a time to press them up late sight, and you feel like saying as I have done many times, why do people make such thick cushions? When the needles are run in horizontally just through the surface, or stuck in upright, they soon disappear, and woe to the fingers that give the cushion too quick pressure. A cushion especially for needles is one of the conveniences of a well equipped sewing table, and greatly to be preferred to a needle book for use when one is sewing. If the needles are always stuck into it whenever not in use, instead of running them into the edge of the table cloth or the front of your waist or leaving them wherever it is hardest to drop them many less needles would disappear only to be found in some one's foot, and many finger pricks would be prevented. I recall two people who if they were to spend a morning at my sewing table unknown to me, would surely betray the fact of their presence there by the numbers of needles they would scatter about the floor. It is not so much the value of the needle, although this is almost equal to its weight in gold if it be the only one of its kind, as is often the case in some scantily furnished work-baskets, which I have seen. But a needle lost is like an unseen foe—you never know when it may appear, and it should always be diligently sought as soon as it disappears.

After the annoyance of using all sorts of "Charity Fair" cushions and gifts which kind meaning friends thought would suit me, I determined to try what my own fingers could fashion. Although it was nearly bedtime and the mending basket was not yet emptied, I knew the value of the inspiration of that moment. I quickly found a thin paste-board box, about three inches long, two inches wide and a little less than an inch high, one of the kind in which the box slips into the cover from the ends. I cut the top out of the cover and put it on the bottom, then set the box into this thus having three thicknesses of cardboard at the bottom and two at the sides. Pieces of an old merino stocking were cut the exact size of the box and laid into the inside until well stuffed. From a piece of silk plush large enough to cover the box and sides, squares were cut out from the corners, the plush was then fitted on with a few over stitches at the corners, and another piece was fitted to the bottom of the box and caught along the sides. A ribbon of the same shade and just the right width, happened to be in my mending basket; this was drawn round the edge and finished at one end with a bow. In less than half an hour my thought was complete and my ideal needle cushion was ready for use. The smallest needle will not sink more than two-thirds of its depth, as the cardboard is an effectual barrier, yet it is not hard enough to dull the points. The woolen stuffing prevents the needles from rusting and can never become rancid like meal. The cushion in light yet solid enough to keep on its base, is of uniform thickness, and has been in every way satisfactory.—American Kitchen Magazine.

Swelling With Air

One of the greatest aids to the modern housekeeper is the pneumatic sweeper. This surprising new invention, which nobody seems to claim the honor of having discovered, and which is, therefore, open to all manufacturers, relegates the broom to the garret and takes the place of the mechanical carpet sweeper, which a few years ago was thought to be perfection.

All that is necessary to fit the pneumatic sweeper to any hotel or private house is a pipe connection for compressed air. The new sweeper consists simply of a long nozzle attached to the end of a rubber hose. The nozzle is about the same size as a broom handle.

One end of this pipe is inserted into the rubber hose, and the other carries a brass arrangement about a foot in width across the face. Here there is a narrow slit running from side to side, and not more than 1.32 of an inch in width.

Through this narrow aperture the compressed air is forced at the rate of seventy-five cubic feet a minute. The housewife using the pneumatic sweeper passes it back and forth over the surface of the carpet.—New York Herald.

Around the House.

To remove fruit and vegetable stains from white cotton and linen, wash in weak chloride and then in clear water, or hold the stained portion, dampened, over sulphur fumes and then rinse in clear water.

The best housekeeper is apt to encounter stains somewhere. For all sorts of the following recipe is said to be without a peer: Put a piece of white amber the size of a walnut, a piece of potash as big as a hazelnut, and two lemons cut in slices into two quarts of clean spring water. Let it stand twenty-four hours; then dampen the spot with it and wet the place with fresh water directly afterward.

Novelties in the China Shop.

Pretty cups set on silver standards are among the expensive trifles one may buy for Christmas gifts. The cups are of delicate china and fasten firmly into the silver standholders.

Pretty Dresden foot racks replace the plain silver ones in many up-to-date shops. They are much more decorative than the old-fashioned metal ones, and are much more easily kept clean.

Handsome sugar boxes of sea china are highly decorative. The boxes, decorated in various designs, and china is a graceful handle to make the act of carrying the sweetest refreshment easier.

SOAP BUBBLES.

Their Color and Their Wonderful Thinness Determined.

The extreme thinness of the bubble is indeed wonderful. It is estimated that the film in some places is only one three-millionths of an inch in thickness. Probably few of us can conceive of such thinness. Let us express it in another way. The Old and New Testament contain some three million letters. Now one three-millionth is such a part of an inch as the first letter of the Bible is a part of the sum of all its letters. The bubble, however, is not of equal thickness at all points, and it is for this reason that it has the various colors. For instance, wherever the film is orange-red it measures about three one-millionths of an inch; where it is blue, eighty one-millionths of an inch; and at a point where lemon-yellow is prominent, about twenty one-millionths of an inch. Perhaps you wonder why the colors change from one part of the soap bubble to another. This is because the film of the soap-bubble evaporates and grows thinner, but unequally so at different portions. A greenish blue with a pale rose-red spot near it indicates an extreme thinness, and at such a point the film is ready to give way at the least jar.

You will be glad to know the source of the beautiful colors. Everyone is delighted with them, even if not interested by the explanation of their origin. We may say that they come from the light. Light gives color to all objects, but not exactly as it does to the soap-bubble. White light from the sun can be broken into the seven colors which we have seen in the rainbow. In that instance the raindrops separate it into its parts. A glass prism will do the same, as you may prove by looking through a glass prism from a hanging lamp. When the light reaches the surface of the soap-bubble a part is reflected from it, and we see images on its surface as if it were a curved mirror. Another portion of the light, however, enters the film and is separated so that a part of the seven colors are thrown into the bubble, and we can see them at various portions of the opposite surface. Another part of the light, after being broken by the film, is reflected by its inner surface back to our eyes, so that we see colors at the point where the light enters.—Jacob F. Butcher, in St. Nicholas.

Electricity Made at Home.

It has been discovered that if a steel knife and a silver fork are inserted in a large orange an electric current will be generated. If the end of the fork and the end of the knife sticking from the orange are connected with an electric measuring instrument, quite a perceptible current will be seen to pass. The same kind of a battery can be made by substituting a cucumber in place of the orange, in fact, any acid fruit can be used.

In order to make a voltaic pile it is only necessary to procure ten or more pieces of zinc about one inch square, the same number of pieces of copper, and a like number of pieces of paper. The paper should be thoroughly soaked in vinegar.

First, take a piece of zinc; on it place a piece of vinegar-soaked paper, then put on a piece of copper, then a piece of paper, then another zinc and then paper, and so on until all the pieces of zinc, copper and paper are used up. It is important that a piece of zinc should be on one end and a piece of copper on the other. After the pile is completed, again soak the whole slightly in vinegar, then clean it off on the outside. If the forefinger of one hand is held against one end and the forefinger of the other hand is held on the other end of the pile, quite a perceptible current will be felt. If several persons clasp hands and the persons on each end of the line touch the voltaic pile, the current will flow through the bodies of all those in position.

Nerv. Cur.

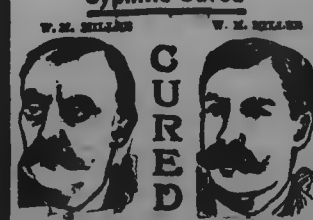

First Lawyer—You are a shyster! His opponent—And you are a black-guard! The Court—Now, gentlemen, let us get at the disputed point in the case.—Philadelphia North American.

NERVOUS, DESPONDENT, WEAK, DISEASED MEN.

Cures Guaranteed or No Pay

YOUNG or MIDDLE-AGED MEN—You may have been the victim of Self Abuse when young, later Excesses or other causes to blood diseases may have complicated the work. You feel the symptoms steadily grow you. You dread the future results. You know you are not a man mentally and physically. Why not be cured in time and avoid the experience of other wretches of these diseases. OUR NEW METHOD OF TREATMENT WILL CURE YOU AFTER ALL ELSE FAILS.

Emissions, Varicocele and Syphilis Cured

Before Treatment After Treatment
"At the age of 31 I commenced to ruin myself. I was weak and nervous. I contracted a serious blood disease. I suffered from phlegm, swollen eyes, bone pains, blood, hair loss, sore tongue and mouth, dizziness in urine, varicocele—I was a wreck. I was in the last stages when a friend recommended Dr. Kennedy & Kergan. A dozen other doctors had failed to cure me. Dr. Kennedy & Kergan cured me in a few weeks by their New Method Treatment. I would warn afflicted men to beware of Medical Friends. They are pitiable honest and skillful physicians."
W. M. KELLER.

Morning Times

PETERBOROUGH, MARCH 2, 1898

DANGER TO THE REPUBLIC

A FRENCH WARNING THAT A DREADFUL CAESARISM IS ABOUT TO BE DEVELOPED IN THE UNITED STATES.

(Special to the Times.)

Paris, March 1.—The French newspapers generally do full justice to the attitude of the United States, in view of the loss of the battleship Maine, although they contend that the "Jingo" newspapers have dangerous influence.

The Temps is inclined to be pessimistic, refers to the "Warlike spirit of the Americans and the pride of the Spaniards, who, if an indemnity is demanded in case the disaster proves to be the result of a crime, might refuse point blank, haughtily indignant at the thought that anyone could suppose them guilty," and continues:

"Cuba is a royal monster, which tempt a people intoxicated by their strength, and convinced that Monroeism is the alpha and omega of international law. But is still to be hoped that the conservative forces are so powerful that they will at the last moment stop the people and the Government on the threshold of an adventure which would be not only big with the gravest consequences from an international point of view, but which might induce at home a sort of revolution and the development of most dreadful Caesarism—that evil which gnaws the vitals of every democracy."

Fits! Fits! Itching Fits
Symptoms—Moisture intense itching and stinging; most at night; worse by scratching. If allowed to continue tumors form, which often bleed and ulcerate and become very sore. Swamy's Ointment stops the itching and bleeding, heals ulceration, and in most cases removes the tumors. All druggists, or by mail, for 50 cents. Dr. Swamy & Son, Philadelphia, Lyman Stone & Co., Montreal, wholesale agents.

Delightful Pastry
McQuay, Baple & Co., are selling the most delightful pastry in town. Opposite Adam Hall's.

Rheumatic People
Do not want waste words. If ailing they want curing at once. I here say "NEW LIFE" will positively cure you of all forms of Rheumatism, Sciatica, Lumbago, Neuralgia or Gout. "It has never failed." It has been said by scores that a bottle of "New Life" is worth a man's weight in gold. Send for free pamphlet on "New Life Cure" W. E. DOBSON, Laboratory, 21 Jarvis Street, Toronto.

Fight Together

(Special to the Times.)

NEW YORK, March 1.—The Tribune's Havana correspondent says. Officials of the Government are praying for a relief from a strain which they cannot endure much longer. It is not encouraging when officials of high rank in the army who deplore the Maine catastrophe as deeply and as sincerely as do the "American" people, beg to demand that if the United States intends to make the disaster a cause for going to war, it shall do so quickly.

These expressions do not represent the settled convictions of those by whom they are uttered. They are the utterances of men over-burdened with anxiety and uncertainty. In their calmer moments these officers would be the first to accept the mediation of the United States as the best means for helping Spain out of her desperate situation in Cuba. Under the present strain they do not accept it.

They complain that the thorough and comprehensive investigation which the naval court of inquiry is making is too slow, and they profess to believe that, instead of impartial investigation to learn the facts, the court is seeking to make out a case of foul play. These are representatives of the military arm of the Government, who do not believe anything of the kind; they only talk to relieve their over-burdened minds.

If the clouds which the Maine disaster has thrown over the relations of Spain and the United States were cleared away, the international complications would not be lessened. The loss of the "American" warship and its crew had nothing to do with the series of minor military successes which the insurgents are gaining in all parts of the island. That is due to the demoralization of the Spanish troops. Gomez keeps almost within range of the railroad and the telegraph in Santa Clara province. He could not do so if Spain were able to carry on an effective campaign.

ROASTS FOR SPAIN

BRITISH PAPERS CONDEMN HER
TREATMENT OF CUBA AND SYM-
PATHIZE WITH THE UNITED
STATES VIEW—PRAISE FOR
McKINLEY.

London, March 1.—The Daily News, commenting editorially this morning on the relations between the United States and Spain says:

"Spain can expect no support, moral or otherwise from England, against the United States. She has ruined Cuba as she has ruined the rest of every other colony, by the grossest corruption, cruelty and maladministration; and she must be left to settle the account for it with those whom it may concern without any aid or sympathy on our part."

The Standard, in an editorial on the same topic, highly praises President McKinley's "statesmanlike moderation," and recognizes that it would be only human nature that proof of the Maine's having been blown up from the outside should engender a dangerous war feeling in America.

Sir Edward James Reed, the eminent naval expert, writes to the Times this morning expressing the opinion that the Maine could be refitted for a tithe of her cost.

REBELS ITS ALLIES

THE UNITED STATES AND CUBANS
TO FIGHT A BIGHT TOGETHER—
SOME GUFF FROM A FILIBUSTER-
ER TO A YELLOW JOURNAL.

New York, March 1.—The following telegram from Tampa, Fla., is in the World: "On the day that the white squadron opens fire on Havana, Maximo Gomez will begin an attack by land. We will keep on fighting until Havana surrenders, or nothing is left of it but a heap of ruins."

These words were used to-day to the correspondent by Emilio Nunez, of New York, who commanded the filibustering expedition, which has been landed in Cuba from the steamer Dauntless.

Stomach
Trouble

Stomach trouble is the common name applied to a derangement of the system which is keenly felt but vaguely understood. It may mean inability to retain food or to digest it. It may mean nausea, pain after eating, fullness, inordinate craving for food, or entire lack of appetite. Whatever it means, there's trouble, and it's with the stomach. If you have stomach trouble, you will be interested in this letter from a man who had it and was cured by

Ayer's
Sarsaparilla

"For nine years I suffered from stomach trouble. I tried the aid of the best doctors of Philadelphia and Pittsburgh, and spent large sums of money, all in vain. One day while waiting a train in Bellairs, O., I picked up a paper with a notice of Ayer's Sarsaparilla. I got one bottle to try it. It did me so much good that I purchased five more bottles. I took four of them and gained in flesh, my appetite improved, and now I can eat anything. My stomach is all right, thanks to the use of Ayer's Sarsaparilla."—CALVIN M. STEVENS, Uniontown, Pa.

Captain "Dynamite" Jack O'Brien returned to Tampa yesterday with Col. Nunez. They will leave for New York to-night.

In the heart of the Cuban quarter of Tampa, where his countrymen have hidden him from United States authorities, the correspondent found Colonel Nunez to-day.

The Colonel's face is sunburned. His neatly trimmed side whiskers have been lost in a long, straggling black beard.

"I am just back from Cuba," he said. "Cubi, which is now almost free." Our little steamer carried two allotments of arms and ammunition. We made one landing in Oriente, where we left a large quantity of rifles and dynamite for Calixto Garcia's command. "Then we put about and steamed along the entire length of Cuban coast to Pinar del Rio, where we placed the remainder of our cargo in the hands of General Diaz, who commands our forces in that part of the island."

NEED OF AMMUNITION

A YELLOW JOURNAL SAYS THE
SECRETARY OF WAR IS TAKING
PRECAUTIONS.

New York, March 1.—This telegram from New Haven Conn., is printed in the World: The Winchester Repeating Arms Co. have received a telegram from the Secretary of War, asking for the capacity of the cartridge plant in case of a hurry order.

The company replied that at present they could turn out four million cartridges a day, and by working night and day eight million.

One of the Government officials paid a visit to the plant Friday, returning to Washington Saturday afternoon. The company has some large orders on hand for the Government, and early last week the hands employed in the gun department were called on for night work. Every hand expects to be called upon for night work during the coming week.

For the shaving stick.
Shaving sets are to be all the vogue. A stylish shaving set suitable for wear at the rink consists of a hat, box and buff. The hat is made of deep violet velvet, and fits closely to the head, something like a peasant girl's cap. It is edged with a narrow band of maroon. In the direct front two white birds are caught. They look as if they had just alighted upon the fur wearer's hair. The box is made of fifty loops of black elastic, edged with pipings of violet satin, and nestled among the soft folds are the heads of thirty little animals. Sometimes these animals are mice, sometimes wonderfully brilliant eyes, made of diamonds, pearls, or they have gleaming yellow eyes of topaz. The buff is a most elaborate affair. It is made of deep violet velvet, finished at each side with a gorgeous fringe of violet satin in a shade or two lighter than the buff. For the trimming maroon tails are added in curious shapes, with the ends of two or three tails dangling below the buff.

A Hint to the Middle-Aged.
If women would but realize it, no one but very young women should wear a broad-brimmed hat; the shading of the features with such a broad brim helps to accentuate every line and wrinkle.

Intercolonial Railway
OF CANADA.

The direct route between the west
and all points on the Lower St.
Lawrence and Baie des Chaleurs,
Province of Quebec, also for New
Brunswick, Nova Scotia, Prince Ed-
ward and Cape Breton Islands,
Newfoundland and St. Pierre.

Express trains leave Montreal and
Halifax daily—Sundays excepted—and
run through without change between
these points.

The through express train cars of
the Intercolonial Railway are brilli-
antly lighted by electricity and
heated by steam from the locomotive,
thus greatly increasing the comfort
and safety of travelers.

The popular summer sea bathing and
fishing resorts of Canada are all
along the Intercolonial, or are reached
by that route.

Canadian-European Mail and Passenger
Route.

Passengers for Great Britain or the
Continent, leaving Montreal Sunday
morning will join outward mail steamers
at Rimouski the same evening.

The attention of shippers is directed
to the superior facilities offered by
this route for the transport of flour
and general merchandise intended for
the eastern provinces, Newfoundland
and the West Indies, also for ship-
ments of grain and produce intended
for the European markets, either by
way of St. John or Halifax.

Freights may be obtained and all in-
formation about the route, also freight
and passenger rates, on application to

A Very Close Shave

HARDY SAYS THE GOVERNMENT WILL STICK

A Majority of Three or Four to Work With—Marter Declared to be Defeated in North Toronto—Mr. Blezard Re-Elected.

The latest election returns give the Government a majority of three or four over the Opposition and the doubtful. Up to the hour of going to press, the figures stood as follows:

Liberal, 48.
Conservative, 41.
Patron, 1.
Independent, 1.
Vacant, 1.
Doubtful, 2.

The doubtful ridings are West Huron, claimed by both parties, and one Ottawa.

The following returns were received yesterday:

West Huron—Election still in doubt. Both parties claim it. Trouble owing to dispute over count in polling place No. 2, Goderich township.

Ottawa, Ont., March 2.—The Citizen this morning gives Powell's election by 3 over O'Keefe. The Liberals claim O'Keefe's election by 18. It will not be accurately known until Sheriff Sweetland makes his declaration on Friday.

Muskoka.—Mr. Bridgland (Lib.) elected by 41 majority. Final returns.

The following are the figures for the TOWN OF PETERBOROUGH.

THE WAR TALK STILL ON

Jingoes Want to Stop Inquiry and Commence Operations

The Mine Theory Once More—British Statesmen Sound as to Possible European Interference—Europe Won't Middle With the Business

(Special to the Times.)

New York, March 2.—Despite the fact that reporters at Havana cannot get near the Maine, and that all divers and officials are compelled to see only the sensational journals here, the press continues to print luridly-embellished tales, calculated to promote war feeling. Manifestly, these stories can have no reliable sources, yet the papers do not hesitate to palm them off on readers only too ready to be fed with such stuff.

THE MINE THEORY AGAIN.

The Herald has such a tale to-day that is unusually yellow. Strip it of its verbiage and elaborate sentences, it is to the effect that the keel of the Maine has been found in two pieces separated at their ends by about three feet. This, it is alleged, proves conclusively that the Maine was blown up by a mine, for an inside explosion, it is added, could not have broken the keel in two.

WAKING A CAUSE FOR WAR.

The story proceeds: "Feeling among 'American' naval officers in Havana is that beyond the recovery of the dead remaining in the wreck, all useful work in connection with the Maine wreck has been done."

In view of the eagerness of Congressmen and Senators generally to find an excuse for war on Spain the following additional sentence is significant:

"Letters have been sent from here to Representatives and Senators in Washington, warning them against voting for appropriations for raising the Maine, saying that the work would not only cost millions, but would not add anything to the information regarding the nature of the explosion."

This would indicate an attempt to stop further investigation, which would explode this story.

SPAIN'S DEMANDS FOR THE TRUTH.

That Spain will not allow the report of the United States board of inquiry to do any faking may be judged from this article in the Madrid Correspondent: "Supposing the American committee considers the Maine disaster criminal, we shall have to hear the opinion of the Spanish commission. In case of a failure to agree, it will be necessary to nominate a mixed commission."

"We remain firm in the belief that the explosion was due to exterior causes, and in case of a doubtful verdict, we feel sure President McKinley would not wage war against Spain in the face of a European verdict to the contrary, and that of the sensible portion of the American people."

FEELING IN LONDON.

The World has a London cable, which says: "The suggestion in certain New York dispatches that in event of war between the United States and Spain, the latter may receive active co-operation from some unnamed European power is treated with entire incredulity in political circles in London."

The correspondent says he talked with several leading British politicians, and represents Sir Charles Dilke as saying:

"I cannot believe that war is likely to take place. No European power has any direct interest in helping Spain."

Thomas Gibson Bowles, M. P., said: "I should think it most unlikely that any European power would interpose to help Spain or otherwise. I don't see what power is to do so, or why any power should do so. There is no European interest touched by this Cuban business that would tempt any country to meddle with it."

A CUBAN "VICTORY."

The press alleges that the report of a Spanish victory in the recent battle of Holguin were false; that it was a disastrous defeat, followed by a retreat on the part of the Spanish forces. This information comes through Cuban sources, and is a cause for a great amount of rejoicing in Cuban circles. The Cuban story is that their loss was less than 1,000, while the Spaniards lost 1,000.

COURAGE TO KILL A KING

MAN PERSUADED THAT HE WOULD WIN GLORY IF HE ASSASSINATED GEORGE.

(Special to the Times.)

Athens, March 2.—Giorgi, the man charged with complicity to assassinate the King has made a confession. He declares that he acted at the instigation of Kardits, the latter representing that to kill the King would be an act of great courage which would glorify them both. Giorgi's courage cooled out at the last moment, and he was unable to hit the horses, upon which everything depended.

BRITAIN'S ARMY

HOUSE OF COMMONS ADOPTS A NEW SCHEME WITHOUT A DIVISION.

Special to the Times.

London, March 1.—The House of Commons, without a division, has adopted the army estimates covering the increase asked for by the Government.

WAS WASTING AWAY

"I could not eat, sleep, walk or sit down for any length of time. I was always in pain and was wasting away. I grew very weak and had a bad cough. I tried many different remedies, but did not get relief. Since taking Hood's Serravallo's, however, I am able to attend to my business." Minnie Jacques, Oshawa, Ont.

HOOD'S PILLS cure all liver ills. Mailed for 25c by C. I. Hood & Co., Lowell, Mass.

TWO RAILWAY SMASHES

Toronto Train wrecked at Burlington

DRIVER AND FIREMAN KILLED

At Smith's Falls in a Terrible Collision

(Special to the Times.)

Hamilton, March 1.—About noon today there was a serious accident on the Grand Trunk railway near Burlington Junction. The trouble was caused by a misplaced switch. The train for Toronto left Hamilton shortly before one o'clock. When near Burlington it crashed into a special freight train, which was standing on the siding waiting for the express to pass. There was great excitement when the crash came, the passengers being overturned in their seats. The engine of the express was badly smashed, and the engineer, Thomas Hutcheson and fireman James Clark, were fatally injured and otherwise injured. The wreck caught fire, and rails were used to quench the flames. Several cars of the freight train were wrecked. Conductor George Stoddard was badly bruised, and baggage-man Burns severely injured with flying trunks and baggage. The locomotive mounted three cars before it toppled over. The injured men were all brought to the City Hospital. Among those on the train were O. A. Howland, ex-M.P.P., G. W. Yates, Globe; Rev. Dr. Milligan, of Toronto; Rev. E. B. Laney, and Anthony Kewinsdale, of London.

The passengers on the train were badly shaken, but escaped uninjured. They were saved by Engineer Hutchison, who pluckily stuck to his post and reversed the locomotive when he saw that an accident was imminent. The engine and fireman were imprisoned in that they were extricated. The fireman and engineer were terribly scared, and it is doubtful if they will live. The engine and baggage car of the express train mounted the freight train and were badly damaged. The cars on the freight train were smashed to splinters and most of the cars were derailed. Hon. A. S. Hardy was on the express train. He was terribly excited and walked up and down the platform.

Smith's Falls, Ont., March 1.—A terrible collision with loss of life occurred on the C. P. R. three miles east of here between 3 and 4 o'clock this morning. As near as can be learned it occurred in this way: A freight train was coming west, followed by an engine running light, which in turn was followed at the usual distance by another freight train. A number of cars broke loose from the front train and after some little delay were picked up by the light engine, and before warning could be given the rear train came round a curve in the road and crashed at full speed into the light engine and runaway cars, which then took fire, several being totally consumed.

Driver Chas. Sims and Fireman Wm. Wilson both of Carleton Place, and both on the rear train, were killed. An auxiliary train from Smith's Falls with C.P.R. Surgeon McCallum was soon on the spot. Driver Sims died before its arrival, but his body was so caught in the wreck that he could not be got out. Fireman Wilson was taken to Smith's Falls, but was so badly injured that he died a few minutes before his arrival there. An inquest will be held at once. Superintendent Leonard happened to be at Smith's Falls and visited the wreck on the auxiliary train. The 3.45 train for Montreal proceeded by way of Ottawa. The local for Montreal was delayed three or four hours while the line was being cleared of the wreck.

America's greatest medicine is Hood's Serravallo's, which cures when all other preparations fail to do any good whatever.

PETERBOROUGH, MARCH 3, 1898

THE AMERICAN-SPANISH SITUATION

The real leaders of opinion in the United States are preserving an admirable calm in the face of the clamor for war which arises in irresponsible quarters. No one doubts that, if cause for war unhappily comes out of either the blowing up of the Maine or of the vexing Cuban situation generally, the American authorities will be ready for the emergency. The active preparations which we are told are proceeding at Washington and elsewhere, show a proper determination to face the inevitable; but there exists fortunately in high quarters no boyish delusion about the true character of war. It is not without its effect at this moment that it was an American General who said that "War is hell," which pictures it quite a different thing from a holiday excursion.

Should war come between Spain and the United States, both belligerents will experience some difficulty in getting at the other. Cuba and Porto Rico can hardly fail to be the first battle fields; but, after that, the contest must become largely a naval conflict. Invasion of the territory of one power by the armies of the other, is a practical impossibility unless collapse should come. Then neither navy is powerful, nor well equipped to operate far away from home. When Spain shall have lost Cuba—if that occurs—she will not be in a position to maintain a navy on this side of the Atlantic for any length of time, while the United States has not a single coaling station on the Eastern

side of the sea. Consequently the war must be largely a series of naval raids until one or the other navy be disabled. It is always fortunate for a people, however, when the jingoes are not in power, and the world will not despair of a peaceful solution of the difficulty until the war drum is actually heard.

What office do you want?
Hill, Hamilton.
Colquhoun and Carscallen conquered.

There was much C. sickness in the ambitious city.

Mr. Gervin is wondering how it all occurred.

The Morning Times office is always open to you.

Whitney won Waterloo—in fact, 12 Waterloo the same day.

Dryden's attempt to keep everything into the family killed him.

There is more than one prophet with-out honor in his own country just now.

The Globe's "Swing of Victory" is taken for Hurdy with a rope around his neck.

Stratton is no saint, as everybody knows, nor is he a preacher, but he may be a minister some day.

The ward healer, the wire puller, the self-seeker, and the professional patriot will now obsequiate until further orders.

No one will be sorry it is over. These constant elections have a flogging effect on business and agricultural circles.

The United States ship may have been blown up or it might just have exploded on its own hook, but the Maine trouble appears to have been the discipline.

Ex-Minister J. M. Gibson, recognized by Grits and Tories as the great family provider, threatens to retire into private life. There will now be less desire to claim relationship to him.

"Would two dollars have any influence on you?" said the young lady to the waiter in the course of the play at the Grand last night. "Well," was the reply, "two dollars made me a Grit last year."—A World joke. This is rough on Conservatives; it means that they are venal.

The Times heartily congratulates Hon. Thomas Bland on the result in East Peterborough. There was no bribery in this riding. I Tom Bland, had his return by the purchase of one solitary vote, he would, we believe, stay out of Parliament rather than violate the law. Would the country had more such men!

Yes, Reviewer, dear, you are something of a liar, we admit, but you cannot hold a candle to your neighbor on George street in that particular. When political matters are under discussion it is a sin to tell the truth. This great family journal has this field all to itself. We ask the public to note the fact that this G. F. J. is always right.

Part of the bad feeling between France and Britain over West African is due to the prospective policy by which the latter power is practically ruining British merchants settled in the French colonies. When they went there they were under no disability; now the discrimination against them is of the most extreme and most unfair sort. In the last resort Britain can discriminate against French merchants, while allowing those of all other nationalities to trade in the colonies on the same terms as she does. Great Britain has never imposed a retaliatory duty for more than half a century, but if she should begin to do so now, some other nations would be seriously injured.

MORTALITY IN JANUARY

CONSUMPTION CAUSES VERY MANY DEATHS.

(Special to the Times.)
Toronto, March 2.—The monthly report issued by the Provincial Board of Health showing the deaths from contagious diseases in the province for the month of January show that the total deaths returned from the several contagious diseases for a population of 1,530,825 were 238, as follows: Scarletina 16, diptheria 51, measles 4, whooping cough 8, typhoid 13, tuberculosis 138.

The returns for cities, with a population of 482,575, were: Scarletina 4, diptheria 15, measles 2, whooping cough 3, typhoid 5, tuberculosis 62. The returns for towns and villages reporting, with a population of 343,572, were: Scarletina 6, diptheria 7, measles 0, whooping cough 0, typhoid 3, tuberculosis 27.

The returns for townships reporting, with a population of 700,578, were: Scarletina 9, diptheria 29, measles 2, whooping cough 5, tuberculosis 57.

1873 Men for Kidnappers

This is as good as a small goldmine to the purchaser. 406 George street.

U.S. AFRAID OF THE CPR

Fifty Million Dollars Taken From the Republic

STEVE ELKINS' STATEMENT

Wants to Bring Canada to the Feet of the United States

The C. P. R.'s Military Value—Steve's Little Fiction—An Alleged Bonus Injures the U. S. Navy—The Proposed Remedy—Canada's Good Position

(Special to the Times.)

WASHINGTON, March 2.—During the consideration of the Alaska Right of Way Bill, Senator "Steve" Elkins, of West Virginia, discussed Canadian Pacific matters in relation to section 13, the bonding section of the pending bill.

Mr. Elkins cited some interesting statistics concerning the Canadian Pacific Railroad. The road extends from Halifax to Vancouver, with connections, 7,125 miles, nearly 2,000 miles of which are in the United States. It forms the greatest military, commercial and political highway in the world. It could, with its sea connections, transport 50,000 troops from England to Canada in ten days. For its ship line, now being built to run between Southampton and Halifax, it will receive a subsidy of \$750,000 from England and Canada; for its steamship line from Vancouver to the Orient it receives \$300,000, and from Vancouver to Australia a subsidy of \$250,000. The Pacific mail, for carrying more mail, receives from the United States only \$14,820.

The Canadian Pacific forms the land connection of a commercial and military highway that spans the globe. The Canadian Pacific receives \$1,300,000 per annum in aid of its support. Since its establishment, it had received from Great Britain in subsidies, gifts and concessions \$215,000,000, an equivalent of \$10,000,000 a year. By aid of these immense concessions, it is enabled to take trade from America, to build roads, and does it openly and defiantly.

Mr. Elkins cited the fact that in 1891 the "American" railroads gave the Canadian Pacific a bonus of \$500,000 to keep out of American territory. Subsequently the Canadian Pacific refused to take this sum, and had since been waging a war upon our railroads. It was now actually carrying passengers from New York to Vancouver, a distance of 4,000 miles for \$38. He said that the Canadian Pacific was permitted to proceed on these lines it would shortly monopolize the through business from the Atlantic seaboard to the Pacific, and all the business to and from the Orient, leaving to American roads only local business, and making only one transcontinental line on the continent.

Mr. Elkins said that the amount of business taken from American roads annually by the Canadian Pacific aggregated nearly \$50,000,000. This sum should be saved to the United States, he said, "to give employment to our own people, and as trustees of the Republic, we should see that it is saved."
"We pay \$300,000,000 per annum, or \$1,000,000 for every working day in the year," Mr. Elkins said, "to foreign ships to haul what we sell and buy, our exports and imports, England getting 60 per cent. of this vast sum. Ninety per cent. of this should be saved to Americans. We once had 92 per cent. of our foreign trade carried in American ships, and now have only about 12 per cent. To make this humiliation more moral and emphatic, England and Canada seem determined to make the Canadian Pacific Railway the only transcontinental line, and to monopolize the carrying by rail of all large articles of our transcontinental line commerce, and all of our trade, to and from the Orient."

THE PROPOSED REMEDY.
As a remedy for the existing evils, Mr. Elkins said that he would first abolish the bonding privileges and consular seals at Vancouver. The effect of this would be to divert trade from the Orient to San Francisco.

Secondly, he would compel obedience to interstate commerce statutes by all lines connecting with the Canadian Pacific.

Thirdly, he would enforce section 22 of the present tariff law, which reads: "No tariff shall be levied on goods imported from any foreign country, except as provided in this act." He read opinions of ex-President Cleveland, ex-President Harrison, the late Secretary Windom, ex-Secretary Charles Foster, and former Attorney-General Miller, in support of his position. He said that both the tariff and the party question, and could not in any way be constructed as such.

Referring to section 22 of the tariff law, Senator Elkins says: Section 22 of the present tariff law affords a complete remedy to the existing evils, but it is almost impossible to enforce it. He read opinions of ex-President Cleveland, ex-President Harrison, the late Secretary Windom, ex-Secretary Charles Foster, and former Attorney-General Miller, in support of his position. He said that both the tariff and the party question, and could not in any way be constructed as such.

HERE IS AGE FOR YOU

REMARKABLE COLLECTION OF STONE IMPLEMENTS FROM AFRICA.

Over 100,000 Years Old—Found in a Spot Which May Have Been the Garden of Eden—Great Scientists and Archaeologists Puzzled.

Forty centuries ago look down upon you! cried Napoleon, as he marshalled his soldiers to battle under the shadow of the Pyramids. The Pyramids were not built yesterday, but in the light of recent archaeological discoveries they must be regarded as very recent works of man.

Visitors at the British Museum may examine a collection of stone implements in a remarkably perfect state of preservation, to which the most expert archaeologists of to-day ascribe an age of not less than from one hundred thousand to two hundred thousand years. It is the most recent acquisition to the museum, and is a portion of a collection made last year in the deserts of Somaliland by Mr. H. W. Sexton-Karr, a well-known English archaeologist and big game hunter. He was the first explorer, in 1895, of the Mount St. Elias range, in North America. More recently he has confined his explorations and hunting expeditions to Southwestern Asia and Eastern Africa, and has uncovered a large and very valuable collection of prehistoric remains. Three years ago he made a thorough study of the prehistoric collections in England, notably that of Sir John Evans of the Royal Society, and with that event gave a great deal of time to prehistoric research.

On account of the rich finds in the upper Nile Valley by Professor Flinders Petrie, the eminent Egyptologist, Mr. Sexton-Karr was led to believe that diligent exploration in the regions farther to the south and east would be productive of great additions to the scientific knowledge of prehistoric man. Accordingly, early last year he started in to make a general survey of the Eastern African deserts. At first he was rewarded by the discovery of a large number of stray flints in the vicinity of Thebes, and from the conditions and localities in which they were found the explorer felt certain that they had no historic connection with the comparatively modern temples and pyramids of Egypt. Encouraged by this success, he pressed further into the desert, in the hope of finding authentic traces of the lost flint mines, which he believed had existed in that region.

He directed his journeyings into the land of the Bedouins, and by constant intercourse with the nomads, endeavored to learn from them the whereabouts of any remains of topographical conditions which gave promise of satisfying his quest. After hundreds of miles of fruitless wanderings over waterless and trackless country, he would be rewarded now and again by some little discovery, often of indifferent value in itself, but sufficient to keep alive the hope that he was on the right track. Finally, late in November of last year, in the hidden cliff plateaus of the Wady Sheik, accompanied by his caravan of Bedouins and camels, the intrepid scientist came upon a series of prehistoric flint mines of vast extent, stretching for twenty miles or more across the desert, and here, unmistakable evidences of abandoned mines of great antiquity were found. Each of the mines was characterized by its own special type of implements, which experts have since agreed are of the greatest possible interest and were previously unknown to science.

Scattered all over the region were found stone axes, wedges, spear heads, rings, disks, sickle shaped knives and hundreds of stone tools, resembling a policeman's baton, with which the other articles were probably shaped. Many of these evidently lay as the workmen had last left them when they went home to dinner, thousands of years before the present time. The implements were arranged in a fine state of preservation. On the long, low hills of Central Somaliland great numbers of the stone tools were discovered, once buried deep for concealment, but now each raised on a little pyramid of solidified gravel. They appear not to have been subjected to river action, as the mountains in the valley of the Nile and its branches. Many of the best of the specimens Mr. Sexton-Karr loaded on to his pack camels, and after thoroughly securing the country for a great distance returned to the shore of the Red Sea and sailed with his treasures for England. Although a diligent search had been made for fossil human remains, which might assist in establishing with a greater degree of certainty the antiquity of the discoveries, few were found in close proximity to the ancient mines. Yet Mr. Sexton-Karr believes he has been victorious in the paleolithic city yet discovered.

In London the newly found relics of the Stone Age were exhibited before the Royal Society, and the archaeologists agreed that the implements date from a period not far removed from the very infancy of man's development of the mechanical arts. Furthermore, they show a universal similarity in the oldest implements yet discovered in all parts of the world, implying an intercourse between Europe, Asia and Africa for purposes of trade in flint spear and arrow heads, if not a unity of race over the greater part of the inhabited world at that early time. Analogous remains, but hardly of such undoubted antiquity, have been found further north in Africa, and in South Africa, India, the valley of the Euphrates, Central Italy and the valley of the Manzanares, in Spain. Mr. Sexton-Karr has ingeniously suggested that Central Somaliland may, indeed, be the site of the Garden of Eden. He claims that he found four rivers which might be identified with those of the first chapters of the book of Genesis, and other landmarks which, he contends, not without seriousness, encourage him in the belief that he may have really found the birthplace of our first parents. The aridity of the Somali deserts to-day gives no suggestion of the fertility and luxuriance of Eden, and even the enthusiastic archaeologists of the Royal Society are inclined to think that Eden must have been located in a more favored region of the earth, even with due allowance for many possible changes in climatic and topography. It is time that has elapsed since the fall.

Sir John Evans, one of the collectors of the paleolithic discoveries of Mr. Sexton-Karr in Egypt and Somaliland has been busy in bringing over the long interval between paleolithic man in Britain and in India and have added another link to the chain of evidence by which the original cradle of the human family may eventually be identified. They certainly tend to prove an identity of race between the inhabitants of Asia, Africa and Europe.

Mother—Tommy, if you are not good I'll send you to bed without your supper.

FRUIT EXPERIMENTS IN ONTARIO.

Result of the First Year's Work in Testing Varieties.

Already the work of the experiment stations of Ontario is making itself known and appreciated. The first annual report, which has just been published by the Ontario Department of Agriculture, has sixty-four pages of valuable reading matter and numerous tables showing the results of the first year's work in testing varieties. As the secretary says in his letter of transmittal, it would be impossible to have results so extended ready for publication this first year were it not that practical fruit growers of long and careful experience in their various lines have been selected as the experimenters. These men are able to draw lessons from the knowledge gained from years of careful work with that variety of fruit which is the specialty of each. In this way the reports from these gentlemen become most valuable to the country.

Apples.—Mr. W. H. Dempsey, Superintendent of the Bay of Quinte station, speaks well of the Winter 3A Lawrence, Pawawakee and Ontario apples.

He says the Pawawakee is a large apple and more productive than the King and as good in quality. Of the Ontario he says, "It is one of the most profitable apples we have. My own Ontario apples sold equal to Spys in Montreal." Of the Alexander he says, "This variety is coming more into favor every year as one of the best selling fall apples;" of the Red Astrachan, "It is not desirable to grow here." To the Ben Davis he gives twenty-three marks of value out of a possible forty, and adds that its chief value consists in its long keeping qualities.

Grapes.—Mr. M. Pettit, Superintendent of the Wentworth grape station, gives an interesting table showing the actual production and the various prices per pound which he received for certain varieties in 1894. Thus the Agawam, which was harvested October 22nd, yielded 17 1/2 lbs. of grapes to the vine, of which all but a half pound were first grade; the average selling price was three cents a pound, giving a total income of about fifty cents per vine. The Concord yielded nineteen lbs. per vine and so sold at two cents a pound, or about thirty-eight cents per vine. The Catawba yielded 16 1/2 lbs. and sold at five cents a pound, giving a total of about eighty cents per vine. About thirty varieties of grapes are fully described.

The secretary, in his notes on varieties, speaks favorably of the Victoria grape. He says, "The Victoria, one of the numerous seedlings raised by Mr. B. Miner, of London, N. Y., was this year a favorite white grape with me, and I am inclined to think that it will yet take a foremost place among white grapes. The bunches are well shaped; the skin has a fine waxen lustre and heavy bloom, and the berries are of good size and fair quality. The vine is very productive. By some this grape is called a white Concord."

Peaches.—In his notes on peaches, Mr. W. Hillborn, Superintendent of the South-Western station, says, "Alexander, Amosden's June and Early Canada are all practically identical. The four most profitable varieties to grow in this locality have been Alexander, Bernard's Early, Tyhurst Seedling and Hill's [Chili]. The two latter are perhaps the most hardy in fruit buds and give a good crop nearly every season. They are probably the best to plant in sections not well adapted to peach culture. Among new varieties the Fitzgerald is perhaps the most promising. It is of the Early Crawford type and apparently an improvement on that old favorite. The fruit buds are hardy and the young trees will begin bearing the second year after planting. The fruit is large; skin, bright yellow suffused with red; flesh, deep yellow, of best quality; stone, not as large as that of the Crawford. Its season of ripening is with or just after the Early Crawford. Boyle's Early is another quite new sort in this locality that is very promising. It is the first yellow flesh peach to ripen with me."

Strawberries.—Mr. E. B. Stevenson, strawberry specialist, describes forty-two varieties, placing the Greenville at the head for productiveness and among the best for quality. It is a large crimson berry originating in Ohio. The Haverland is also ranks very high for productiveness. The Timbrell does not ripen evenly, and the Parker Earle rusts and cannot endure the drought. The Woolverton, he says, is well worth growing.

Gooseberries.—Mr. A. Morton, of Brampton, reports upon twenty-six varieties of gooseberries, mostly English.

Mr. S. Spillet, Superintendent of the Simcoe gooseberry station, reports upon ten varieties. He speaks highly of the Pearl. He says, "Take it all around as a medium sized berry, the pearl is hard to beat. More vigorous and with better foliage than the Downing, it is bound to be generally planted. It yielded this year five quarts to the bushel all around. The Champion, a peer to the Pearl in vigor and foliage, is ahead of it apparently in productiveness and size. The berry is a cross of Downing upon a wild Rocky Mountain gooseberry, so the originator informs me. It is certainly unlike any other gooseberry I have seen in habit of growth and appearance and shape of berry. In quality, I do not think the fruit equal to the Pearl. I may say that by spraying with liver of sulphur, most of the English varieties may be grown successfully, but, in my opinion, our future berry for general cultivation will be along the line of a cross between the so-called American varieties and the English."

Spraying for Fungi and Insects.

That Paris green and kerosene emulsion still remain the leading insecticides, and that Bordeaux mixture is the best remedy for plant diseases, is the experience of the New York station at Geneva. The knapsack sprayer is generally useful, though extensive growers need a machine of greater capacity. The suction pump should always enter the tank at the top, and the pump should be made of brass or be brass lined. Hand pumps should allow the weight of the body to be used on the handle while at work. Vermorel nozzles give a better spray than the disk machines. For spraying potatoes and tomatoes a nozzle is needed which can be lowered between the rows, and directed so as to force the spray up through the vines. The agitator is needed to keep the poisons in solution. The best forms work up and down in an upward tank, like a dash in the old churn. Where the pump piston has a packing this should be often renewed. For killing cabbage worms and insects, no liquid has been found equal to dry powder green applied with a hand sprayer. Powder greens are useful for applying dry powdered poisons, pyrethrum, tobacco dust and sulphur. Bamboo extensions should be used in spraying large trees.

We never would make more butter calves than we needed for our own herd. It will be a day.

SOAP BUBBLES.

Their Color and Their Wonderful Thinness Determined.

The extreme thinness of the bubble is indeed wonderful. It is estimated that the film in some places is only one three-millionths of an inch in thickness. Probably few of us can conceive of such thinness. Let us express it in another way. The Old and New Testament contain some three million letters. Now one three-millionth is such a part of an inch as the first letter of the Bible is a part of the sum of all its letters. The bubble, however, is not of equal thickness at all points, and it is for this reason that it has the various colors. For instance, wherever the film is orange-red it measures about three one-millionths of an inch; where it is blue, about one-millionths of an inch; and at a point where lemon-yellow is prominent, about twenty one-millionths of an inch. Perhaps you wonder why the colors change from one part of the soap bubble to another. This is because the film of the soap-bubble evaporates and grows thinner, but unequally so at different portions. A greenish blue with a pale rose-red spot near it indicates an extreme thinness, and at such a point the film is ready to give way at the least jar.

You will be glad to know the source of the beautiful colors. Everyone is delighted with them, even if not interested by the explanation of their origin. We may say that they come from the light. Light gives color to all objects, but not exactly as it does to the soap-bubble. White light from the sun can be broken into the seven colors which we have seen in the rainbow. In that instance the raindrops separate it into its parts. A glass prism will do the same, as you may prove by looking through a glass pendant from a hanging lamp. When the light reaches the surface of the soap-bubble a part is reflected from it and we see images on its surface as if it were a curved mirror. Another portion of the light, however, enters the film and is separated so that a part of the seven colors are thrown into the bubble, and we can see them at various portions of the opposite surface. Another part of the light, after being broken by the film, is reflected by its inner surface back to our eyes, so that we see colors at the point where the light enters.—Jacob F. Butcher, Jr. St. Nicholas.

Electricity Made at Home.
It has been discovered that if a steel knife and a silver fork are inserted in a large orange an electric current will be generated. If the end of the fork and the end of the knife sticking from the orange are connected with an electric measuring instrument, quite a perceptible current will be seen to pass. The same kind of a battery can be made by substituting a cucumber in place of the orange, in fact, any acid fruit can be used.

In order to make a voltaic pile it is only necessary to procure ten or more pieces of zinc about one inch square, the same number of pieces of copper, and a like number of pieces of paper. The paper should be thoroughly soaked in vinegar.

First, take a piece of zinc; on it place a piece of vinegar-soaked paper, then put on a piece of copper, then a piece of paper, then another zinc, and then paper, and so on until all the pieces of zinc, copper and paper are used up. It is important that a piece of zinc should be on one end and a piece of copper on the other. After the pile is completed, again soak the whole slightly in vinegar, then clean it off on the outside. If the forefinger of one hand is held against one end and the forefinger of the other hand is held on the other end of the pile, quite a perceptible current will be felt. If several persons clasp hands and the persons on each end of the line touch the voltaic pile, the current will flow through the bodies of all those in position.

Nemo, Cor.

First Lawyer—You are a shyster!

His opponent—And you are a black-guard!

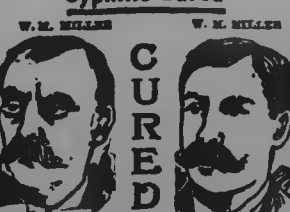

The Court—Now, gentlemen, let us get at the disputed points in the case.—Philadelphia North American.

NERVOUS, DESPONDENT, WEAK, DISEASED MEN.

Cures Guaranteed or No Pay

YOUNG or MIDDLE-AGED MEN.—You may have been the victim of Self Abuse when young. Later Excesses or a passion to blood disease may have completed the work. You feel the symptoms stealing over you. You dread the future, then you know you are not a man mentally and sexually. Why not be cured in time and avoid the sad experience of others of these diseases. Our NEW METHOD TREATMENT WILL CURE YOU AFTER ALL ELSE FAILS.

Emissions, Varicocele and Syphilis Cured

Before Treatment After Treatment
"At the age of 31 I commenced to ruin my health. I contracted a serious blood disease—SYPHILIS. I was weak and nervous, dependent, timid, shrunken eyes, bone pains, ulcers, hair loose, sore tongue and mouth, dizziness in urine, varicocele—I was a wreck. I was in the last stages when a friend recommended Dr. Kennedy & Kergan. A dozen other doctors had failed in curing me. Dr. Kennedy & Kergan cured me in a few weeks by their New Method Treatment. I would warn similar diseased men to beware of Medical Pretence. They are palatable, honest and skillful physicians."
W. M. MILLER.

CONSULTATION FREE.
We treat and cure Varicocele, Syphilis, Emissions, Gleet, Stricture, Nervous Debility, Urinary Disorders, and all the diseases of the Male and Female Systems.

BURNED TO DEATH.
EMPLOYEE OF A COBBOURG LIVERY PERISHES—TRAGEDY IN ALABAMA.

(Special to the Times.)
Cobourg, March 2.—In a fire in Dr. Moore's livery stable this morning, Wm. Dorris, an employee, was fatally burned.

Five children perish.
Birmingham, Ala., March 3.—Julie and Joanne Bonner, near Livingston, went to prayer meeting, leaving five children, from two to nine years, at home alone. For safe-keeping, as they thought, they locked the children in, and left a blazing log fire to keep them warm. The house caught fire, and the children were charred corpses before help arrived.

Bad blaze at Watford.
Watford, Ont., March 2.—A fire destroyed the buildings known as the Allen Block, early this morning. The building was owned by J. E. York, and was insured for \$8000 on buildings and \$7000 on contents.

Among the occupants of the building who have lost considerably are Dr. McGuire, dentist; Mr. Cowdry, private banker; S. L. Squire, dry goods; and Miss Salisbury, dress making.

A Boy Perishes.
LAKE MEGANTIC, March 2.—Five-year-old son of Louis Lachance was burned to a crisp at 2:30 this morning by a fire which burned his home. His mother and four children barely escaped with their lives and were unable to save him. Lachance was out of town.

DISTRICT AND LOCAL TOPICS

Reporter's Phone. 164 B.

A special Lenten lecture on "The Persecuted Church—St. Polycarp and Justin Martyr" was delivered at St. John's church last evening by Rev. T. H. Hartley, of Toronto.

A hotel bus driver was fined five dollars and costs at Police Court yesterday for furious driving. Magistrate Dumble expressed a hope that the punishment he had inflicted would serve to warn other drivers.

The Committee of Management of the Peterborough Protestant Home gratefully acknowledge the following donations for the months of January and February: Ladies' Auxiliary of Y.M.C.A.; Mrs. McGill, papers and provisions; Times office, reading matter; Charlotte-st. Junior Y.P.S.C.E. cake; Mr. F. Mason, books and papers; Mr. A. Dawson, vegetables.

At a meeting of the Peterborough Presbyterian church, held in the First Presbyterian church, Port Hope, on Tuesday, Rev. E. F. Torrance, D.D., vanguard of Moderator for the ensuing half year. The call from the Baltimore and Cold Springs congregations to Rev. R. F. Hunter, M.A., licentiate, was ordered to be forwarded. The induction was fixed for Tuesday, April 19th. The services of Rev. Mr. Duncan of Coburne, was reported, and it was decided to supply his pulpit till May 15th. Rev. D. Sutherland, M.A., of Warkworth sent in his resignation after a pastorate of a quarter of a century, in order to commence work in the North-West. Several members having spoken highly of Mr. Sutherland and his labors the resignation was respectfully accepted. The next meeting of the Presbytery was fixed for Monday, July 4th at St. Andrew's church, Cambridge.

PERSONAL AND SOCIAL

On Tuesday last, at Centerville, Mrs. Geo. L. Fair presented her husband with a son.

Mr. J. R. Stratton, M.P.P., attended a meeting of the Dominion Building and Loan Association in Toronto yesterday.

Mrs. Bell, relict of the late Rev. Alex. Bell, of St. Andrew's church, died yesterday morning in Toronto, after an illness lasting some considerable time.

Miss Lillie E. Davidson has just concluded her three months' visit to her home in Edinburgh, returning to St. Thomas North Dakota, yesterday morning.

PETERBOROUGH CANOES

The Season's Output of our Local Leading Factory Sold for Klondike Service.

Contracts recently made with the leading canoe builders of the Province have practically placed the canoe trade of the Peterborough district in the hands of the North-West Trading Company of Canada, a New York and Edmonton corporation recently organized and extensively engaged in the Klondike trading and transportation business, with large warehouses at Edmonton, Prince Albert, Vancouver and other Pacific coast points. This company, through its Peterborough agents Frank Weir & Co., have already placed orders with the leading canoe firms here for upward of 400 canoes, the larger proportion of which have already been sold for delivery at Edmonton, Prince Albert, Dyea and other Western points.

The Peterborough and Canadian Canoe Companies have been entrusted with the lion's share of this extensive order, their larger freight canoes being specially designed for Yukon service; and both factories are veritable hives of industry, running at their fullest capacity night and day to meet the requirements of this Klondike boom. The smaller factories are likewise feeling the full effects of the boom, although to a lesser degree, and orders already on their books promise to tax the capacity of both factories for some months to come.

The total output of the various canoe building companies here and at Lakeside is now estimated at not less than 75 canoes weekly, of which from 30 to 40 are being turned out by the Peterborough Canoe Company, owing to recent additions to its plant and ground space, decided upon by the management, in anticipation of an increased demand for its celebrated manufactures during the present season.

The official endorsement of the Peterborough canoe as the "best boat for general use in the Yukon district" forms a prominent feature of the Klondike official guide, recently compiled by Mr. Wm. Ogilvie, under instructions from the Department of the Interior. The canoe designed for the Department, and built by the Peterborough company for the Yukon exploration expedition of 1887, and later ones seem to have effectively proved their superiority over any and all kinds of river craft yet designed for service in shallow and rapid streams, and orders recently placed by both the Dominion and United States Governments, the Ogilvie company and other Canadian and American trading and mining concerns through the North-West Trading Company, attest their continued and ever increasing popularity.

We congratulate Mr. Rogers and Mr. Lyle on having secured for the Peterborough factories so emphatic an endorsement of their manufactures as appears in Mr. Ogilvie's report, and the substantial order recently placed with them for the Western firm.

A Good Salesman

Can get big profits; but a kid has to take just what he can get, that is the reason Kidd, the booter, is to sell the shoes he bought at 55c on the dollar so low. But don't forget the place, 405 George street.

Piles! Piles! Itching Piles

Symptoms—Moisture intense itching and stinging; most at night; worse by scratching. If allowed to continue tumors form, which often bleed and ulcerate and become very sore. Swore's Ointment stops the itching and bleeding, heals ulceration, and in most cases removes the tumors. All druggists, or by mail, for 50 cents. Dr. Swore & Son, Philadelphia. Lyman Ross & Co., Montreal, wholesale agents.

LAST NIGHT'S HOCKEY MATCH

Cobourg and Peterborough Play a Good Game—The Colts Win by 5 Goals

There was a very large attendance at the Charlotte-st. rink last evening to witness the hockey match between the Peterborough Colts and Cobourg Collegiate Institute. A splendidly contested game resulted in a win for the home team by 5 goals to 3. The Cobourgs started well, scoring two goals before the Colts had opened their account. The next three goals were credited to Peterborough. Cobourg scored the sixth, thus equalizing matters. In the second half the visitors added one more, and the Colts responded by increasing their score from three to five. The next goal fell to Cobourg, and the eleventh and twelfth to Peterborough, who were declared winners, on before stated. Mr. E. Wasson officiated as referee, and the goal umpires were Messrs. H. King and F. D. Kerr. The Cobourgs were represented as follows: Cover-point, H. P. Field; centre-forwards, D. McCallum, F. Fowler; wings, C. W. Tomeroy, T. Hobart; goal, J. Woods. Peterborough Colts: goal, McDonald; point, Ed. Graham; cover-point, W. Armstrong; forwards, F. Bradburn, S. Bradd, P. Crossley, H. McBain.

Visitors in Town

Amongst visitors in town are the following:
At the Hotel National:
J. D. McMillan, Belleville.
L. M. Westington, Plinyville.
C. W. McMaster, Corberry, Man.

M. Ogilvie, Ottawa.
H. Small, Toronto.
W. Cates, Brockville.
C. Farley, Toronto.
J. D. Purdy, St. John, N.B.
H. Dodge, Montreal.
F. M. Fuit, Montreal.
R. Johnson, Montreal.
D. D. Wilkinson, London.

HOW THEY VIEW IT

OPINIONS FROM AFTERNOON PAPERS OF OTHER CITIES ON THE RESULT OF THE ELECTION.

The following are a few press opinions as to the Ontario elections:

Hamilton Times.
"All things have an end," says the proverb, and the Liberal Government of Ontario came very near to the end of the tether yesterday. There are one or two constituencies still in doubt. Change of government is expected and there by recounts, contests and bye-elections but the Hardy Government has a narrow margin in its favor, and it is not in accordance with political history that that margin should be so small. Mr. Hardy will not find it easy to carry on business with such a numerically powerful Opposition against him. The Government will be kept upon its very best behaviour. Party spirit will have to be strict, but what Mr. Hardy will only be able to accomplish by the exercise of the greatest care. Mr. Whitney cannot do all. Small as it is, the majority is on the right side. The Ontario Government is and will remain, Liberal in view of the critical situation throughout the province at large. The defeat of the Liberal candidates in West Hamilton, East Hamilton and North Westworth is a mere incident, regrettable, but explainable.

Hamilton World.
The Hardy Government, while it has barely escaped defeat, has not secured a majority sufficient to enable it to retain office. The cause for this is the loss of a number of constituencies through Liberal dissensions, due to the disappointment of office-seekers, a widespread feeling that there should be a change in Ontario, as well as in the Dominion, a sentiment which party ought to bask in with 28 years of power, and the loss of prestige caused by the withdrawal of Sir Oliver Mowat. The Herald considers that Premier Hardy must either hand over the reins to Mr. Whitney or appeal to the people again, but by means of protests and bye-elections he can obtain a working majority.

Ottawa Citizen.
It is a black eye to the Dominion Government. Sir Wilfrid and his Ministers have been themselves co-partners with Mr. Hardy and his Ministers, and therefore, all are affected by the result. It was the loving partnership, but the terms of the contract had to be carried out. Hardy helped Laurier in 1896; Laurier had to help Hardy in 1898. It was a loving partnership for both sides. The people will not tolerate the opinion of both Governments for such a purpose. The result in Ontario may be regarded by the Dominion Government as a "Notice of Intention."

Western White.
The Ontario Government has come out safely. It has a working majority of five or six, to say nothing of the Independents. This is none too large, but once before, under Sir Oliver's regime, there was a similar experience. As the succeeding sessions advanced, the majority grew until it was as large as any Government could desire. There is always a difficulty in rating members of Independent temperament. They are claimed by both parties some times, and will be classified as supporters of both until, in the divisions on leading questions in the House, they have a chance of classifying themselves.

In another editorial the White remarks: "It was an election of surprises." Gibbon and Dryden, it thinks, will not constitute parties that will approximate the Patronage has been tried in the balance and found wanting.

Constipation

Causes fully half the sickness in the world. It retains the digested food too long in the bowels and produces biliousness, torpid liver, indigestion, bad taste, coated tongue, sick headache, insomnia, etc. Hood's Pills cure constipation and all its results, easily and thoroughly. See All druggists. Prepared by C. I. Hood & Co., Lowell, Mass. The only Pills to take with Hood's Balm.

PETERBOROUGH, MARCH 4, 1898

THE POLITICAL SITUATION

The election excitement is gradually subsiding, and the more serious politicians are beginning to calmly take stock of the situation. The position is an embarrassing one, for the political mathematicians are at variance as to which party has emerged from the contest victorious. The Toronto Mail and Empire, Mr. Whitney's champion, claims that the Government are in a minority of four, whilst the organ of Mr. Hardy, the Globe, asserts that the Opposition have been defeated by five. Where doctors differ, who shall decide? There will be no satisfactory solution of the question until Parliament meets and a vote of confidence in the Government has been submitted for the decision of the House. We confess that in our opinion it would have been more satisfactory and more to the advantage of the Province if the voice of the electorate had been clear and unmistakable. It is urged by the Opposition that the unquestioned reduction of Mr. Whitney's majority is tantamount to a notice to quit. This contention is of course mere sophistry. If there is only a majority of one for the Government, it would be incorrect to state that Ontario has lost all confidence in Mr. Hardy. The Province's faith may have been shaken, but it has not been altogether removed.

Provided that the threatened protests are persevered in and that the results do not materially affect the balance of parties, it is likely that there will be a political deadlock, followed by another appeal to the country. The Government supporters are sanguine that their majority will increase as time goes on. These hopes are scarcely founded on a substantial basis, for, according to the rule of three and the experience of the past week, a few bye-elections would give Mr. Hardy an Irish promotion and wipe out altogether his now considerably diminished majority. If all the electoral divisions had given forth the same uncertain sound as did the two Peterboroughs, we could now be looking forward to a period of political rest and quiet, and a resumption of those business affairs which are inevitably disturbed during a general election.

THE CANADIAN PACIFIC RAILWAY

The world's greatest railroad is doing well. Canadians are vitally interested in a railway which is so closely connected with their own material prosperity, and will therefore hail with satisfaction the Company's seventeenth annual report, which will be presented

ed to the shareholders on April 6th next, and which has just been published. This report is highly encouraging, dealing as it does with the record of the past year's satisfactory business and also with the bright prospects of the immediate future. The great railway corporation is about to undertake the laying of a double track between Montreal and Toronto—an undertaking rendered absolutely necessary by the gratifying and rapid increase of the traffic between these two points. Then again we learn that in order to meet the requirements of the Yukon trade two large steamers have been acquired; whilst the company have also entered into a contract for eleven steamboats, costing \$350,000, for the lakes and rivers in Southern British Columbia and the Yukon country. Nor is this all. A line is to be constructed from Robson to Boundary Creek district. The road will be 100 miles long, and will be an extension of the Crow's Nest Pass Railway westward, and will make the C.P.R. far and away the most advantageous of the transcontinental systems. The Crow's Nest Railway will probably be completed to Kootenay Lake before the end of next August, and, reaching that lake, a temporary connection will be made with Nelson by means of a train ferry, whereby a through train service may be established, pending the completion of the railway along the shore of the lake for 60 miles to Nelson. The company appear to have a good thing in the Crow's Nest Pass coal mines, which are stated to be very extensive. The aggregate thickness of the beds in the immediate vicinity of the railway exceeds 125 feet. The coal is of admirable quality, and makes excellent coke. All these facts are highly encouraging.

We heartily congratulate Canadians and the C.P.R. shareholders upon this evidence of increasing prosperity. Good management on the part of officials and a commendable enterprise on the part of the directors have done much. The outlook is indeed bright.

Do the Yanks make business?

Never, pray say unless you know.

Spain's military glory is an item of the past.

Pork is cheap in Mr. St. John's old constituency.

We know how 'twould be when we could see how 'twas.

Uneasy lies the head that prophesies at election times.

The clerk of the weather is in a melting mood—so is Hardy's majority.

Peterborough is getting cleaner. Magistrate Dumble removed a black spot yesterday.

There are a few swell heads in town just now. Will the election hats won as to be large enough?

It is claimed that Hardy has been sentenced to four years' hard labor. Will he do the time?

A war between the United States and Spain would be on a par with a tiger and kitten fight.

Several defeated candidates attribute their ill-fortune to money. Was there too much of the stuff or too little?

There will not be much Patronage in the new Parliament. Mr. Tucker of Wellington is the last rose of summer left blooming alone.

Says Whitney to Hardy: "Oh, I don't know—you're not so warm." Hardy to Whitney: "I have barely received cold justice."

On election day the weather was beautifully fine. Towards evening, though, it became a trifle wet in the neighborhood of the saloons.

An original ode is expected shortly from the Hon. G. W. Ross. The Minister of Education is in better "odor" just now. Oh, dear! Worms and worms. Anyhow, the Grits say he won't steal any more poetry for a while.

"You tickle my ear and I'll tickle yours." The Hamilton Spectator and the Toronto Mail are indulging in this edifying amusement. Both papers are satisfied that each had a big share in the glorious triumph—yet to be consummated.

A month ago the Hamilton Times, that Grittiest of Grit papers, told Mr. Jay Hem Gibson to get a goat on. On Tuesday the Colonel's movement was rapid. He did not retreat, but, to use military parlance, he speedily executed a strategic deployment to the rear.

For fully three weeks, and right up to the eve of the polling, a well-known Government organ in one of the cities was cocksure that the two candidates they had taken under their wing would be returned by handsome majorities. So they were returned—sent back home. We are now told that the defeat of a member of the Cabinet and his colleagues is "a mere incident, regrettable but explainable."

BOTH SIDES CONFIDENT

Continued from page one.

bers and ex-members began to increase in size. Dr. Willoughby, Mr. Robert Birmingham and Mr. J. H. Carnegie, the young member for East Victoria, came along, and later, during the day, Messrs. Miscampbell, St. John, Foy and Lyne appeared, and a meeting was held.

The Ontario Government held a meeting again yesterday morning, and the situation was discussed. During the session Mr. James Lister, M. P., and Mr. Alex. Smith, organizer, were in attendance. All the members of the Government were at the meeting, except Mr. Hardy.

The Government has been assured that Mr. Evanurel will give a very active support to Mr. Hardy. In fact, he will take charge of the canvass in Russell, if there is a fight there.

A telegram was received by the Government yesterday from Mr. W. R. Beatty, of Parry Sound, stating that he would have over 1,000 majority. He expresses great regret at the defeat of Messrs. Dryden and Gibson, and states quite definitely that he will support the Government.

This was not to be wondered at, for when Mr. Beatty had a Liberal opponent against him, he appealed to the Government, and the Liberal candidate was withdrawn.

The Government, it is believed, makes no count on Tucker, the Patron. It is known now that before last session he asked to have his seat moved over to the Conservative quarters, and to have his name enrolled with that party. This was found to be impossible.

With Beatty, says the Toronto Evening Star, the Government has certainly 48 of the 93 seats already voted. There was no change in the election returns yesterday.

A despatch from Nipissing at 12.30 said: All polls heard from now gives J. Loughrin, Liberal, majority of 38.

Thus the score now stands:

Liberals, 48.

Conservatives, 43.

Patron 1.

Independent 1.

Vacant 1.

But as Mr. Beatty will vote Liberal and Mr. Tucker Conservative, the result is:

Liberal 49.

Conservative 44.

Vacant 1.

NEWS IN BRIEF

LOCAL AND TELEGRAPHIC CHATTER CULLED AND CONDENSED FOR BUSY READERS OF THE TIMES.

(Special to the Times.)

John W. Baker of Hamilton, was committed for trial yesterday on a charge of perjury. Baker swore that his son was 14 years of age when he was younger.

C. M. Foley, the defaulting Paris lawyer was committed for trial on seven accounts.

Spain has purchased three Chilean warships.

Senor Camposelles has been elected President of Brazil.

The bondholders of the first division of the Manitoba and Northwest Railway have asked the courts to order the trustees to sell property held in their mortgage security.

At the residence of Mr. W. J. McMaster, Spadina ave., Toronto, yesterday Mr. G. H. G. Russell, architect, of Winnipeg was united in marriage to Miss Agnes Campbell.

Speaker Betts of the Northwest Legislature will go to Ottawa and eastern cities to press the claims of the Prince Albert route.

Raising Ducks.

In raising ducks, says Farm and Home, set the eggs under heat; when hatched remove to a box lined with paper and kept in a warm place with all the sunshine possible. When two days old put in a board pen during day time. Feed bread soaked in water and pressed dry. Do not give them water to swim in until three weeks old. Dust with Persian insect powder once a week; when four weeks old feed on corn bread soaked in sweet milk; young ducks soon get fine and mixed with their feed are healthy. After four weeks old they will thrive on almost any diet and will grow with few water to swim in than is generally supposed. Always keep water or drinking as pure and clean as possible, changing often and putting gravel in the dish where water is kept. Ducks in my experience have been more profitable than chickens.

Prosperity Eluded Him.—"I thought you said you saw prosperity times ahead." Well, I thought I did, but the heires I had my eye on wouldn't have me."—Chicago Post.

Connel.—What is your age, madam? Witness.—I only know from what I've been told, and you just told me that bewray evidence was not valid in court. —Vancouver Blast.

RUINED BY TORPEDOES

They Have Wrecked Many a Gallant Vessel

WORK OF DESTRUCTION

Cunning and Terrible Manipulation of Death's Claim Agents

over and Range of Different Explosives—Some Remarkable Facts and Incidents Connected With the Naval Explosions

Washington, D. C., March 3.—Without the torpedo naval warfare to-day would be a decidedly tame affair, compared to what it really is. It is the torpedo before which the colossal monarch has reason to tremble. Like many other wonders of inventive genius, its construction and manipulations are the products of modern necessities and modern mind. Properly handled in sufficient quantities the torpedo and the submarine mine might destroy all the navies of the earth in the twinkling of an eye. The power and force of these explosives have been known in a vague way for 300 years, but never properly appreciated until within the last 30 years.

The torpedo was made the subject of unsuccessful experiment during the revolutionary war, but was made a formidable factor of the civil struggle, the South first using them in defending her harbors in 1862. In the following three years 33 war vessels—battleships, ironclads and frigates—were destroyed by the torpedo. The torpedo is a may be roughly divided into three classes: 1. Those which are stationary, being moored in a harbor or along a coast, for defensive purposes. 2. Those which are used for attack, travel several hundred yards and are controlled by electric wires from a station on land. 3. Those which are both propelled and steered by self-contained mechanism.

Sunken mines may be fired either automatically, when a vessel coming into harbor strikes a submerged receptacle, an hored, but trying to float, or by the voluntary act of an operator on shore who is keeping watch and who manipulates an electric current running through the wires that are connected with the device. The explosive material, when fired automatically, may be discharged in a variety of ways. Years ago a favorite plan was to equip the torpedo with a percussion cap, like that used on an old-fashioned musket, but bigger. A projecting lever, struck by the passing vessel, would fire the cap. An easily crushed protuberance, containing sulphuric acid, potassium chlorate and sugar, has been similarly employed. Electricity has also been tried in two or three ways. A battery on shore would supply current through proper wires, but contact between

THE TORPEDO AND THE VESSEL is required either to break the circuit or to close it. In the one case a spark is produced, which ignites a primer. In the other a bit of slender platinum wire, buried in the explosive, is heated red-hot. Torpedoes are now looked upon as of equal value with land batteries in harbor defense, and in time of war, when an attack is anticipated, there may be more stationary torpedoes hidden under water than there are available guns at any critical point. It is important, of course, that a careful list of these submerged devices be kept, so that when the period of danger has passed they may be removed.

For effective action, however, it is desirable to carry the charge as high up in the water as possible, and to reject the buoyancy of the torpedo to the strength of river and tidal currents, so that the latter will not depress it too far. At the same time, it will not do to have the torpedo or its connections show above the surface at alk water.

General Henry I. Abbot, of the United States Engineer corps, who was long in charge of the Willets Point torpedo station, on Long Island Sound, says:

"The increase in intensity of explosive action, secured by good elevation in the water, is also important, for efforts are being made to give increased strength to the hulls of war vessels by employing iron in the form known as the double cellular bottom, thus reducing the destructive range of the torpedo and exacting the employment of more powerful charges. In England experiments upon the Oberon, a vessel of this type, show that the horizontal

DESTRUCTIVE RANGE OF GUN COTTON, in charges even as large as 500 pounds, is restricted to a few feet. This charge was fired on the bottom in 48 feet of water at horizontal distances of 100, 80, 60, 50 and 30 feet, and finally vertically under her side. Although she was much shaken and injured by some of these shots, only the last burst through the double bottom and sunk the vessel. At the engineers' school at Willets Point a long series of trials was conducted to determine the effective range of different charges of various explosives sunk at different depths below the surface. By this careful measurement of several hundred explosives the matter has been successfully brought within the scope of mathematical analysis."

General Abbot elaborated two general styles of submarine mine. One, designed for shallow water, has the case lie on the bottom of the harbor or channel. The other, intended for deep water, is of the buoyant type. The explosive used in these is dynamite. Wires from a shore station admit a current of electricity, and a "circuit closer," actuated by the vessel when it touches the torpedo, regulates the current. A change in the volume of electricity ignites a fuse, which is embedded in the dynamite. The electric fuse is superior to percussion caps and triggers, because when a torpedo has been stored for a long time the igniting mechanism may be tested to see if it is in working order. An electric current, too

X, THEN BRAIN RAYS.

PROF. CROOKES' WONDERFUL THEORY OF THOUGHT TRANSFERENCE.

The Great Scientist's Latest Speculation and the Vast Amount of Attention They Are Receiving - Something on the Line of Logic and Argument.

Prof. Crookes' new application of the wave theory is attracting a vast amount of attention in certain quarters, says the London correspondent of The New York Sun. The concept of brain waves which he puts forward is a bold one, but he justifies it with one of the most fascinating, if fanciful, arguments ever advanced in the cold, unimaginative name of science. The suggestion is, in brief, that thoughts, intelligence, may be transmitted from one sensitive being to another, without regard to distance of intervening matter, by means of inconceivably minute and rapid ether waves. The strain which Prof. Crookes puts upon ignorance of human credulity by the mere statement of such a proposition is severe enough, but it is mitigated somewhat by the gentle process which precedes his stunning announcement. He begs us to free our minds from all preconceived assumptions and prejudices which, he rightly declares, are greater obstacles to the growth of knowledge than mere ignorance. He tells us in many words that we do not know as much about nature and the universe as we think we do.

He illustrates and emphasizes this humbling suggestion by means of a couple of parables. Imagine, he says, a tiny being of the microscopic size of Smallett's "Atom"—so small that the molecular forces, of which we in ordinary life make no account, such as surface tension, capillary attraction, the cohesion of liquids, etc., would be so conspicuous that it could hardly believe in the existence of, for instance, the law of gravitation. Prof. Crookes puts his imaginary homunculus on a cabbage leaf and asks the question: What would be the illiputian philosopher's conception of the shape of the world, the laws of nature and the scheme of the universe? The moths dancing in the sunshine would be to him "cumbersome objects like portmanteaus flying through the air." He would be terrified by the thinnest insects. Motions and sounds unknown to us would be commonplace to him. The knowledge available to him in the physical world would be perhaps as vast as that which we possess and as genuine as far as it went.

The Professor goes on to suppose that his tiny student, endowed with all the mental capacity of man, collects his information into a great scheme of the universe from the point of view of a cabbage leaf. Then he proceeds to contrast the result with the product of a similar investigation made by another imaginary organism as vast in its proportions as the cabbage leaf philosopher was small. Having dwelt on the interesting contrast with a most ingenious play of fancy, the Professor proceeds to ask the inevitable question: If such changes in our elementary ideas would come to pass from a mere difference in size, may not all our so-called knowledge be limited by our accidental environment?

Having thus cleared the way for his invasion from the domain of physics into the region usually regarded as that of metaphysics, Prof. Crookes discloses his wave-law theory. It is an extension of the well-known natural law under which sounds is conveyed by vibrations of the atmosphere and light by the vibrations of the thinner ether. He presents an interesting calculation of the number or rapidity of these vibrations. Starting first with one pendulum beat or vibration a second and increasing to two, then to four, then to eight, and on in geometrical progression, he carries the calculation on to the sixty-third step, where the number of vibrations a second are expressed by a number containing nineteen figures. At the fifth step, where the vibrations are thirty-two a second, we enter the region where sound begins for the average human ear. With the fifteenth step is reached a point at which the average human ear sound ends. From the sixteenth to the thirtieth step, is attained a region of a highly attenuated medium with far more rapid vibrations revealing themselves as electrical rays.

Higher up the scale from the thirtieth to the forty-fifth step, is a realm which is at present unexplored, but in which Prof. Crookes thinks may lie the explanation of much now wholly mysterious. Still rising in the scale with vibrations of prodigious rapidity comes the region of light and beyond that lies another unknown region, as to which Mr. Crookes hazards the conjecture that "it is not unlikely that the X rays of Prof. Roentgen could be found to lie between the fifty-fifth and the sixty-first step."

Of the operations performed within two of these regions little is known, and ascending still higher in the scale, "it does not require much stretch of the scientific imagination to conceive that at the sixty-second or sixty-third step the trammels from which rays at the sixty-first step were struggling to free themselves have ceased to influence, etc., and that these rays pierce the densest medium with no diminution of intensity, and pass unreflected and unreflected along their straight path with the velocity of light." Soaring still higher on the wings of "scientific imagination," he assumes orders of vibrations will minister, waves of ether ceasing to have the properties of those known to us and overcoming all obstacles caused by distances or intervening matter.

Dropping the stricter processes of logic, Prof. Crookes then suggests, in a more tentative way: May not these rays enable intelligence to be transmitted from one sensitive being to another? May not their radius of action be practically limitless? "It is inconceivable that intense thought concentrated toward a sensitive being with whom the thinker is in close sympathy may induce a telephonic chain, along which brain waves can go straight to their goal without loss of energy due to distance?"

No man of science has contributed anything to recent discussion of scientific subjects which will appeal more pleasantly and more entertainingly to the popular imagination than the paper which I have briefly described. Prof. Crookes occupies so distinguished a position in the scientific world that he is entitled to serious consideration even when he indulges in flights of fancy such as this discussion is in some sense, of its conclusions. His logic is strong, apparently, even to the point where he assigns the still mysterious X rays to their place in nature's scheme, to say that they lie on the borderland between the realm of science and the realm of metaphysics is to say that they lie on the borderland between the realm of science and the realm of metaphysics.

BIRTH ANNOUNCEMENTS.

Some of the Various Ways in Which Newspapers Print Them.

Of all the things that appear in the regular and ordinary "make-up" of a newspaper, birth notices are perhaps the most amusing. They find their way into both metropolitan and country newspapers. The latter especially seem to like them. The cross-street correspondent seems such a creature of the moment that he has his birth notices in the file of his notes. Some papers have particular columns or spaces devoted to birth, marriage and obituary news. Others record the same events under the titles "Cradle," "Altar" and "Tomb," while a third class use three words in the headline, "Yells," "Bells" and "Knells."

The following are a few notices clipped at random from papers all over the United States and Canada, says The Chicago Times-Herald. Some are to the point, while others convey more information than is necessary.

McDonald—May 28, 1896, a daughter to Daniel and Emma L.

Albert Drinkie is a papa.

A little girl baby began its residence with Mr. and Mrs. E. B. Waitely Wednesday of last week.

A little son-beam came to brighten the home of Attorney J. C. Russell and wife on Thursday afternoon of last week.

What caused Charlie Pruden to smile? Oh, it's a boy.

Tom Arnold reports a lovely little Bryanite at his house since Monday night. The little man is rather weaselly.

Another new blacksmith came to Waco. For particulars see Albert Kidd.

A little city treasurer made its appearance at the home of Mr. and Mrs. John Washburn last Saturday.

On Thursday eve of last week a little girl was left at the home of Mr. and Mrs. Cannon. As it was good looking they concluded to keep it until it was 18.

H. C. Sackett was all smiles on Saturday, and his friends found that good news were none too good for them.

A girl arrived at his house that day. Father doing as well as could be expected under the circumstances.

Born, in Lansing, on Sunday last, Dec. 6, to Mr. and Mrs. George Robinson, twins—a boy and a girl. We are very glad to see that George has been converted to the theory of the double standard. We would like to suggest as names for these two precious youngsters Sylvester and Goldie.

There will be another stocking to hang up at the home of Mr. and Mrs. George White in the southwest corner this Christmas. It's a boy, and from the report we judge he is a dandy.

Born, to Mr. and Mrs. Ed. Cox, Sunday night, twin girls. Dr. Dillon was in attendance, and says all are doing nicely. Ed, however, had to be watched closely by his friends for a day or two, but is out of danger now and is perfectly harmless.

Mr. and Mrs. Frank Reynolds have welcomed to their home a daughter, born Dec. 8.

N. H. Tracy now wears a 9 by 14 smile on his face, all on account of the arrival of a new dishwasher at his house the 16th ult.

Dr. Frank Kinley, the Leroy dentist, formerly of this city, takes his happiness in double doses. He is the father of twins.

Mr. and Mrs. Jacob Dryfus of 34 Washington avenue have already received their Christmas gift. It is a plump, dimpled little girl.

A young voter arrived at the home of Mr. and Mrs. E. Harding have presented this town with the first McKinley baby. He was born Dec. 6, and will be known as Owen McKinley Harding.

A new toll-gate keeper arrived at Mr. Haddock's Thursday night. His name is Wm. Bryan.

W. H. Weland is happy. He hasn't stopped smiling since he was informed yesterday that he had attained the dignity of being grandpa. Mr. and Mrs. Charles Moore being the parents of a 10 1/2-pound baby girl.

J. W. Rogers is entertaining a very young gentleman, who took up a permanent residence with him on last Thursday.

A little gentleman arrived at G. Ericson's last week, apparently quite determined to make that his future home. All concerned are doing well.

Mr. and Mrs. Fred E. Harding have presented this town with the first McKinley baby. He was born Dec. 6, and will be known as Owen McKinley Harding.

A new toll-gate keeper arrived at Mr. Haddock's Thursday night. His name is Wm. Bryan.

W. H. Weland is happy. He hasn't stopped smiling since he was informed yesterday that he had attained the dignity of being grandpa. Mr. and Mrs. Charles Moore being the parents of a 10 1/2-pound baby girl.

J. W. Rogers is entertaining a very young gentleman, who took up a permanent residence with him on last Thursday.

A little gentleman arrived at G. Ericson's last week, apparently quite determined to make that his future home. All concerned are doing well.

Mr. and Mrs. Fred E. Harding have presented this town with the first McKinley baby. He was born Dec. 6, and will be known as Owen McKinley Harding.

A new toll-gate keeper arrived at Mr. Haddock's Thursday night. His name is Wm. Bryan.

W. H. Weland is happy. He hasn't stopped smiling since he was informed yesterday that he had attained the dignity of being grandpa. Mr. and Mrs. Charles Moore being the parents of a 10 1/2-pound baby girl.

Mr. and Mrs. Fred E. Harding have presented this town with the first McKinley baby. He was born Dec. 6, and will be known as Owen McKinley Harding.

A new toll-gate keeper arrived at Mr. Haddock's Thursday night. His name is Wm. Bryan.

W. H. Weland is happy. He hasn't stopped smiling since he was informed yesterday that he had attained the dignity of being grandpa. Mr. and Mrs. Charles Moore being the parents of a 10 1/2-pound baby girl.

J. W. Rogers is entertaining a very young gentleman, who took up a permanent residence with him on last Thursday.

A little gentleman arrived at G. Ericson's last week, apparently quite determined to make that his future home. All concerned are doing well.

Morning Times

PETERBOROUGH, MARCH 4, 1888

LAWYER FOLEY COMMITTED

THE ALLEGED SWINDLER OF PARIS, ONT., WILL HAVE TO ANSWER FOR SOME \$50,000—BAIL REFUSED.

(Special to the Times.)
Paris, Ont., March 3.—O. M. Foley, the lawyer arrested two weeks ago on charges of fraud, he having appropriated to his own use over \$50,000 of his clients' money, was brought up for hearing before Police Magistrate Powell in the town hall here yesterday afternoon. E. M. Orr, of Hamilton, conducted the prosecution, and George Wells, of Simcoe, appeared for the defense. Foley pleaded not guilty to all the charges. The evidence showed that Foley had had the entire confidence of his clients, many of whom had handed over their money to be invested in various ways, only getting Foley's receipt for the amount, and in many cases even this was not obtained. Began mortgages and receiving money to pay off mortgages, which were never discharged, had evidently been his chief means of swindling, witness after witness telling the same story of paying money to Foley either to lift a mortgage or to take on investment, and which can now be traced no farther than Foley's pocket. Bail was refused and he was committed to stand his trial at the Spring Assizes.

FIRE ON A WARSHIP

THE BRITISH CRUISER AUSTRALIA HAS A NARROW ESCAPE TO-DAY.

(Special to the Times.)
PORTSMOUTH, March 2.—The British first-class armored cruiser Australia, 12 guns, 5,600 tons, had a narrow escape to-day. Two seamen were playing with a fuse in the shell room when they set fire to some stores. The flames were extinguished by the prompt flooding of the apartment.

Rheumatic People

Do not want waste words. If all else fails, try "NEW LIFE." I have seen it positively cure you of all forms of Rheumatism, Sciatica, Lumbago, Neuralgia or Gout. "It has never failed." It has been sold by agents that a bottle of "New Life" is worth a man's weight in gold. Send for free pamphlet on "New Life Cure."

RUINED BY TORPEDOES

Continued from page two.

feasible to heat the "bridge" in the fuse, may be sent through it with perfect safety and delicate instruments will reveal its passage. Some torpedoes are intended to be launched in pairs, a long rope connecting them, and to drift down against the object of attack. This plan contemplates the rope getting APOUL OF THE SHIP'S ANCHOR CABLE.

In which case the torpedoes swing around and come alongside. The torpedoes are provided with vaned wheels, which are actuated by the tide. By the revolutions thus set up a screw is turned, and thereby a trigger inside are released. A pin, being driven against a guncap, fires the charge. This sort of torpedo can be thrown overboard from a rowboat, which has first reached a convenient position on the upstream side of the ship to be attacked.

The two classes of torpedoes which are propelled and steered by interior mechanism resemble each other in general appearance and proportions. They are cigar-shaped, several feet long, 15 or 20 inches in diameter, and are elaborate pieces of machinery. They are equipped with screw propellers astern, and carry from 200 to 500 pounds of some high explosive (usually gun cotton) in a compartment in front. This is exploded when a torpedo strikes a vessel's side. Those which are intended to be controlled from shore are connected therewith by a slender wire cable, from 1,200 to 3,000 feet long, and coiled up in a receptacle or wound on a reel in the torpedo itself. It is paid out so easily as scarcely to retard the progress of the device through the water.

Often a tiny float in adjusted a few feet above the torpedo, and shows on the surface of the water for the guidance of the operator on shore. A short, heavy pendulum automatically controls a rudder, which insures a horizontal motion and corrects any tendency to dive or come up to the surface. But the torpedo is steered from side to side by magnets, which are under the influence of an electric current, controlled by the operator. The propeller is generally rotated by an electric motor and a storage battery inside of this complicated engine of war. A speed of 20 miles or more an hour is attained. Among the best-known torpedoes of this class are the Sims-Edison, Nordenfelt, Patrick, Brennan and Victoria.

The automobile or "fish" torpedo takes care of itself after it is once launched. This is the kind of projectile which is

CARRIED ON THE TORPEDO BOATS

an naval vessel. When fired it is ejected from a special tube, called a launching tube. The best-known torpedoes of this type bear the name of Whitehead and Howell. One is English and the other American. The Whitehead is propelled by compressed air stored in the torpedo. The Howell carries a big fly wheel, which is set in rotation at a tremendous velocity, just before the launch, by connection with an engine outside. Both of these torpedoes have automatic steering devices, and both carry explosive charges of wet gun cotton, which are fired by a small primer of dry gun cotton contained in a water-tight receptacle. Automobile torpedoes often have a speed at starting of 35 knots.

In addition to the primer of dry gun cotton in the nose of the torpedo there is also one of fulminate of mercury, which is fired by a pin or other mechanism. This feature of the torpedo, generally called the fuse, is often an elaborate contrivance. A variety of such devices have been invented. They should be so constructed that they cannot fire the charge by accident nor prematurely, and yet shall not fail at the critical moment. The launching tube in the Whitehead system opens under water, and is therefore guarded with a sluice door, which excludes the sea. The torpedo is thrust in from the rear, a door is behind it, and then water is admitted so as to force the torpedo out without deflecting it from the proper course. In the Howell system a small charge of common powder is used to expel the torpedo, and the tube opens above sea level.

Automobile torpedoes are usually launched from small, fast boats. These craft and torpedo-boats destroyers develop higher speed than other vessels, from 30 to 35 knots being considered the regulation gait nowadays. No parallel, however, to the destruction of the Maine exists in history. Whether the international circumstances be considered, or the kind of warship, or whether the destruction was wrought from within or without. Explosion scenes, described by those who were eyewitnesses to them, bear on the whole a great deal of similarity. They are very much in this respect like the fall of the trap door at an execution.

The Union gunboat, Commodore Jones, 542 tons and six guns, which was blown up in the James River, in 1864, furnished perhaps the most fearful spectacle of the power of the torpedo. Lieutenant Commodore

Ayer's Asthma Cure

Better known as Ayer's Cherry Pectoral, has made a record for its remarkable cures of asthma. Cases that have been considered beyond hope or help have been cured by this remedy. We give two examples of such cures out of the many on record:

"My mother has been a great sufferer from asthma for the past ten years, and her recovery is almost without a parallel. On account of her advanced age—over seventy—we had but little hopes of ever seeing her well again; but we are sincerely grateful to inform you that she has been entirely cured by the use of Ayer's Cherry Pectoral."

"I was a sufferer for a long time from asthma, vainly endeavoring to procure relief in the use of ordinary remedies. At length I was induced to try a bottle of Ayer's Cherry Pectoral. The first bottle afforded me so much benefit that I continued the use of the remedy until entirely cured."

JOSEPH KLONZ, Charlotte, N. C.

Ayer's Cherry Pectoral

Best medical advice free. All diseases. Address Medical Dept., J. C. AYER CO., Lowell, Mass.

Barnes has given this account of the explosion: "Suddenly, and without any apparent cause, she appeared to be lifted bodily. Her wheels rapidly

REVOLVING IN MIDAIR.

Persons declared they could see the green edge of the banks beneath her keel. Then through her shot to a great height an immense fountain of foaming water, followed by a dense column of ship sank in three minutes, but the bow compartments kept the fore part of the ship afloat for an hour, the situation being in this respect the reverse of the Maine.

When the Brazilian ironclad Rio Janeiro was destroyed by a torpedo in 1866 she suddenly rose up, surrounded by a column of foaming water, broke in two and at once went to the bottom.

Nations now have accepted the torpedo as legitimate in warfare, but the "coal mine" by which some of the Union ships were sunk, and which has been placed in the same category as individual assassinations. The coal mine is a package of 10 pounds of powder done up to look like a lump of coal, and either placed in the bunkers or in the supply of coal which a ship is taking on board. By means of this the Union transport Greyhound was

DESTROYED IN THE CIVIL WAR

and Admiral Farragut and General Butler narrowly escaped death.

One of the latest instances of American heroism occurred when the Union monitor Tecumseh was blown up by torpedoes in the Bay of Mobile. So rapid was the sinking of the vessel that 70 of the crew perished. Captain Craven and his pilot were in the pilot house. There was not an instant to spare if they wanted to escape, but the Captain, with fine chivalry, the story of which will never die, drew back, and with a courteous wave of the hand, said: "After you, sir." The pilot climbed the ladder to light and safety, and the Captain turned down with his ship, Captain Craven had not observed the orders of Admiral Farragut to keep in the channel, which was believed to be free from torpedoes.

Behind him was the Brooklyn, which immediately preceded the flagship Hartford. The Captain of the Brooklyn hastened his speed, fearful of a like fate, which made Farragut impatient, and he signalled his famous order:

"Damn the torpedoes! Go ahead!"

Still the Brooklyn was not inclined to go ahead, and Farragut turned to his signal officer and asked:

"Can you signal 'For God's sake!'"

"Yes, sir," was the reply.

"Then signal to the Brooklyn 'For God's sake get out of our way and anchor!'"

At the present time the torpedo is no longer incidental to naval warfare. It can consistently be classed as the higher card, played with the submarine mine, played in this high-staked game of life and death.

Railway Travel.

CANADIAN PACIFIC RY.

HAVE REDUCED First Class Passenger Rates

to nearly all Local Points in

Ontario and to Montreal, Que.
FROM 50% TO 80%

PACIFIC COAST RATES

From all Canadian Pacific Railway Stations in Ontario the following rates will apply via Smith's Falls, one way:

| To | 1st Class | 2nd Class |
|-----------------|-----------|-----------|
| Vancouver, B.C. | \$40 | \$30 |
| Victoria, B.C. | \$40 | \$30 |
| Seattle, Wash. | \$45 | \$35 |
| Tacoma, Wash. | \$45 | \$35 |
| Portland, Ore. | \$45 | \$35 |

Full particulars from any Canadian Pacific Ry. Agent, or C. E. McPherson, A. G. P. A., Toronto.

Intercolonial Railway OF CANADA.

The direct point between the west and all points on the Lower St. Lawrence and Baie des Chaleurs, Province of Quebec; also for New Brunswick, Nova Scotia, Prince Edward and Cape Breton Islands, Newfoundland and St. Pierre.

Express trains leave Montreal and Halifax daily, Sundays excepted, and run through without change between these points.

The through express train cars of the Intercolonial Railway are brilliantly lighted by electricity and heated by steam from the locomotive, thus greatly increasing the comfort and safety of travellers.

Comfortable and elegant buffet, sleeping and day cars are run on all through express trains.

The popular summer sea bathing and fishing resorts of Canada are along the Intercolonial and are reached by this route.

Canadian-European Mail and Passenger Service.

Passengers for Great Britain and the Continent can leave Montreal Tuesday morning and join outward Mail Steamers at St. John on Wednesday, or they can leave Montreal on Wednesday morning and join outward Mail Steamers at Halifax on Thursday.

The attention of shippers is directed to the superior facilities offered by this route for the transport of flour and general merchandise intended for the Eastern Provinces, Newfoundland and the West Indies, also for shipments of grain and produce intended for the European market, either by way of Halifax or St. John.

Tickets may be obtained and all information about the route, also freight and passenger rates, on application to

A. H. HARRIS,
General Traffic Manager,
Board of Trade Building,
Montreal.

D. POTTINGER, General Manager,
Railway Office, Montreal, N. B., 21st May, 1897.

Town Treasurer's Sale of Lands for Taxes

1897

1897

BY VIRTUE OF A WARRANT, under the hand of the Mayor and seal of the Corporation of the Town of Peterborough, and to me directed, bearing date the Eleventh day of December, in the year of our Lord One Thousand Eight Hundred and Ninety Seven, I am commanded under authority of the Consolidated Assessment Act of 1893 and amendments thereof, to levy on the lands hereinafter mentioned and described, for the Arrears of Taxes due thereon with the costs as hereinafter specified, as directed by the said Acts. These are therefore to give notice that unless the said Arrears and Costs are sooner paid, I will pursuant to the said Acts, proceed to sell by Public Auction at the Town Council Chamber in the Town of Peterborough on Thursday the Twenty Fourth day of March in the year of our Lord One Thousand Eight Hundred and Ninety Eight, at the hour of Ten O'clock in the forenoon, so much of the said lands as is sufficient to discharge the Taxes and all lawful charges incurred in and about the sale and the collection of the Taxes.

ALL THE UNDERMENTIONED LOTS ARE PATENT D.

MAYOR'S OFFICE.
Mr. Davis will be at the Town Offices, from 9 to 10 o'clock, each morning to meet those having business to transact.

A. L. DAVIS,
Mayor

Morning Times

PETERBOROUGH, MARCH 4, 1898

TOWN AND COUNTY NEWS.

Wanted.
An experienced general servant required. Apply at once at 526 Water Street.

Mountain Trout.
Fresh mountain trout just arrived; 10 cents per pound. J. B. Oke.

New Election.
A large majority is now waiting for the 15 wards to get a drink of CALCUTT'S BOOK BEER.

Reliable Man Wanted.
Good smart reliable man wanted to canvass the town in the interest of the Morning and Weekly Times. Must have good connection. Good salary to the right man. Apply at the Times Office.

The Electric Railway.
The Council meets this evening to consider the proposed electric railway deal. A petition has been circulated, and largely signed by the ratepayers, asking the Council to submit the proposal of Mr. Starr to a vote of the people, and let them decide it.

A Good Salesman.
Can get big profits; but a kid has to take just what he can get, that is the reason Kidd, the booter, is to sell the shoes he bought at 50c on the dollar so low. But don't forget the place, 406 George Street.

The Railway War.
The C.P.R. is in earnest. Yesterday afternoon the local officials were notified that the rate from Peterborough to Toronto had been cut. Passengers can now travel from town to the Queen City for \$1.25—return, \$2.10. It is anticipated that the Grand Trunk will make similar reductions to-day. The rate war thus goes merrily on "pro bono publico."

Piles! Piles! Itching Piles.
Symptoms—Molasses intense itching and stinging; most at night; worse by scratching. If allowed to continue tumors form, which often bleed and cause and become very sore. Swayne's Ointment stops the itching and bleeding, heals the tumors, and in most cases removes the tumors. All drug stores, or by mail, for 50 cents. Dr. Swayne & Son, Philadelphia. Lyman Swayne & Co., Montreal, wholesale.

A BLACK SPOT REMOVED

Magistrate Dumble Sentences "Loo Atkinson" for a Long Term

Says Such Women are a Curse to the Town—She had Deliberately Gone to Work to keep a Vice Place to Destroy Girls

Yesterday morning there was a large attendance at the Police Court to hear the trial of Mrs. Louise Howell, better known as Loo Atkinson or Loo Craig, for keeping a disorderly house at 65 McDonald-st. The evidence against the prisoner was furnished by Frank Forbes, who was subsequently charged with stealing money, and another young fellow, both of whom swore that they went to Mrs. Howell's after midnight Wednesday, and paid the woman money for an immoral purpose. For the defence, Mrs. Green said she saw a visitor at the house on Wednesday, and was asked to stay the night as it was too late to go home. Early in the morning two men kicked up a row at the door, and demanded admission, but Mrs. Howell said they could not come in at that hour of the morning. They persisted and broke open the door and also smashed some glass. Mrs. Howell fired a revolver to try to scare them, and threatened to send for the police. Witness, who was pretty nearly untroubled, ready to go to bed, spoke to the boys and tried to get them to go away, but they said they didn't care if all the police in Peterborough came up. There was another woman in the house besides herself. The magistrate told Mrs. Howell the evidence against her was practically unquestioned, and there was no doubt in his mind that the two men went to her house as to a house of prostitution and paid into her own hands money for an immoral purpose. He was not oblivious to the fact that she had had a very doubtful name for years. For a woman of her position and birth and respectability early in life to deliberately go to work to keep a vice place to destroy girls was a very grave offense. Such a woman was a curse to the town, and he should take advantage of the opportunity to send her out of Peterborough, because he thought she was a black spot in it. The judgment of the court was that she should be kept at the reformatory for one year and eleven months. It is rumored that Mrs. Howell will appeal the case.

THE POULTRY ASSOCIATION

Elect Officers for the ensuing Year and Transact Other Business

Mr. T. D. Cockburn presided at the annual meeting of the Peterborough Poultry Association held in the Council Chamber. There was a capital attendance of members, including Mr. Wm. Collins, the secretary treasurer. The yearly report stated that the exhibition of poultry and pet stock in January was successful from every point of view other than that of the finances. It was explained that the heavy prize list involved an expenditure in excess of receipts. Mr. Collins said a big effort would be made to secure the Ontario Poultry Show for 1900. The following officers were elected for the ensuing year: President, H. C. Winch. 1st Vice-President, W. C. Rightmeyer. 2nd Vice-President, John Robinson. Secretary-treasurer, Wm. Collins. Directors, Jas. Baptie, W. Head, H. Lush, John A. Davidson, T. H. Goldie, J. E. Cullen, Smith Milburn, Gerald Hayward. Auditors, Geo. E. Elliott and Robt. Cockburn.

Wedding at Bowser's Corners. Stanah & Co. The wedding of Mr. Charles McCall, of Emily, and Miss Ada Isabella Mitchell, daughter of Mr. Robert Mitchell, of Downer's Corners, Otonabee, were celebrated at the residence of the bride's father. There were about one hundred guests present to witness the ceremony, which was performed by the Rev. E. Moore, Ph. B., pastor of the Mark street Methodist church. The bride-maid was Miss Hattie McCall, sister of the bridegroom, and Mr. H. G. Mitchell, the bride's brother, was best man. Miss Girvin, a little lady of Stelm, was a charming maid of honor and presented the bride with a lovely bouquet of cut flowers. The bride and her attendants were charmingly attired. The presents were numerous and costly, and were suggestive of the esteem in which she and her family are held. After the ceremony, the party sat down to an appetizing spread. Mr. and Mrs. McCall will reside in Emily.

The Bishop of Peterboro. It is a matter of common talk amongst Romanists that the Bishop of Peterborough stands a good chance of succeeding to the Archbishopric of Kingston, vacant owing to the death of Archbishop Cleary. Bishop O'Connor ranks amongst the cleverest and most popular dignitaries in the province, and it is generally conceded that he would prove a fitting occupant of the archiepiscopal chair. Rumor is also busy in associating the name of Bishop Dowling, of Hamilton, with the vacant seat.

Marital. Mr. F. W. Ashe, manager of the Union Bank, Norwood, was married at Haverhill, Mass., on the 19th ult., to Miss Belle Haven Greens. The happy event took place at the residence of the bride's sister, Mrs. Arthur Whitney Palmer, 20 Summer-st. Mr. and Mrs. Ashe announce that they will be "at home" on Monday evening, at 20 Summer-st., Haverhill, Mass. We extend to them our most hearty congratulations.

How to Cure All Skin Diseases. Simply apply "Swayne's Ointment." No internal medicine required. Cures better, eczema, itch, all eruptions on the face, hands, nose, etc., leaving the skin clear, white and healthy. Its great healing and curative powers are possessed by no other remedy. Ask your druggist for Swayne's Ointment. Lyman, Swayne & Co., Montreal, wholesale agents. Avoid substitutes.

1573 Men for Klondike. Wages are now good and so are the men's shoes that Kidd is selling at the following prices: Were \$3.00, now \$2.00. Were \$2.50, now \$1.75. Were \$2.00, now \$1.50. Were \$1.10, now 85c. This is as good as a small goldmine to the purchaser. 406 George Street.

Fresh and Cheap. Fresh marmalade oranges; cheap. J. B. Oke.

DISTRICT AND LOCAL TOPICS

Reporter's Phone, 164 B.

—The railroads are more than busy handling freight.

—Her Majesty's hotel had a tramp lodger last night.

—Orilla owns its own electric light plant and its forty-seven arc lamps running all night last year cost the town \$29 each, a total of \$1,363.

—The assessors are on their rounds again, and, as usual, real and personal property and income will shrink in value, almost out of sight, dogs in number also.

—The advent of March was particularly mild—free from the slightest movement of wind, and very moderate in temperature—spring like weather which would trouble the most chronic grumbler to enter a complaint. If the month dies hard, as the old saying goes, there will be a few mourners.

PERSONAL AND SOCIAL

Mr. J. W. Brightman, of Peterborough, was in Lindsay yesterday.

Miss Neelands, who has been visiting with Miss Kempf, has returned to Lindsay.

Miss F. W. Parsons, of Port Perry, is visiting with Miss Thomas, Ridgeway street.

Miss Ruby Patterson, who has been visiting at Toronto and Hamilton, has returned to town.

Miss Ada McBain, accompanied by Miss Loomis, returned to Whitby Ladies College yesterday.

Mr. G. A. Strickland, of the Klondike Transportation Co., has been in town transacting business on behalf of his company.

Mr. J. Fred Davidson, of Smith, is off to Prince Albert, N.W.T., in a fortnight. He proposes to commence ranching when he gets there.

The many friends of Mr. Fred Haskell, who has laid up for all winter with rheumatism, will be glad to know that he is almost entirely recovered, and hopes soon to take his old place as conductor between here and Lakefield.

We understand that Mr. Will Connal starts for British Columbia next week, when he proceeds for Vancouver to take up a responsible post with the Great Northern Railway Co. He will leave behind him many friends who wish him every success.

Ellen Sheehan, wife of Mr. Wm. Sheehan, Sr., died at River Road, Douro near Fingert, on Wednesday. The funeral procession leaves the estate residence at nine o'clock this morning for St. Peter's Cathedral, and thence to the Roman Catholic cemetery.

Mr. Stratton's magnificent motor of 1,000 over his opponent, in West Peterborough, was a pleasing proof of that gentleman's popularity in the riding. Lindsay friends forwarded several congratulatory messages this morning.—Lindsay Post.

Mr. Morley Ogilvie, son of Mr. Wm. Ogilvie (author of the Official Guide to the Klondike), has been inspecting some Klondike equipments in town. Mr. Ogilvie, who was in the McGill Science Class with Messrs. Thomas Ferguson and W. Connal, intends returning to the Land of Gold.

The defeat of your Uncle Thomas Blears is always announced at an early hour on election night. A few minutes later an amended return again puts the roof of victory over the head of the farmer's champion, and East Peterborough resumes its old place as Uncle Tom's cabin.—Toronto Telegram.

Mr. J. H. Carnegie, of Cobocok, the successful candidate in East Victoria, and his opponent, Mr. John Austin, of Kilmount, met at the Simpson house yesterday and dined together. They discussed the incidents of the campaign in a very friendly manner, and parted with a hearty hand-shake.—Lindsay Post.

Visitors in Town. Among the visitors in town yesterday were the following:

At the Crowden House: E. C. Barnum, Montreal. J. B. McRae, Galt. T. B. Chaille, Guelph. Geo. B. Hilliard, Lakefield. J. R. Griffin, Lakefield. Armand Chaput, Montreal. Wm. E. McNeil, Toronto. M. Wright, Hamilton. Frank S. Hall Deseronto. Robt. F. Britton, Toronto. At the Hotel National: John Braum, Toronto. T. H. Hassard, Millbrook. M. E. Sannis, Cobourg. E. A. Peck town. John Shaughnessy, Otonabee. Chas. Christie, Toronto. Frank W. New York. J. A. McIntosh, Boston. F. A. Boyle, Boston. At the Oriental Hotel: E. Kent, Toronto. A. Levy, Hamilton. R. Philip, Havelock. J. P. Conklin, Toronto. Mrs. D. Clarke, Trenton. J. W. Lawrence, Toronto. F. Werrington, Toronto. W. Herb. Robinson, Toronto. J. S. Bowbanks, Toronto. W. R. Marlett, Portage La Prairie. S. J. Bland, Toronto. W. H. Maxwell, Toronto.

Swindlers Abroad. The other day a fellow called at the residence of Mr. W. H. Robertson, and said that he was sent by Mr. R. for a watch that needed repairing. Mrs. Robertson happened to be out of town (a fact which the scamp may have known), and the servant at the house asked the fellow to wait until she telephoned Mr. R. While the girl was at the phone the rascal slipped. The public should be on their guard.

The Concocted Will. Mr. G. H. Boughton, the Concocted Milling Co. have sold their mill in Ashburnham to Mr. O. B. McAllister, of Peterborough. Messrs. P. M. Clark and S. Munro, the live members of the company, are off to the Klondike with the Peterborough party, hence the sale. It will be remembered that some time ago Mr. McAllister bought the Lakefield flour mill.

The Staff of Life. McQuay, Baple & Co's bread is pronounced to be the first-class. Only 10c. for a loaf.

Biliousness

is caused by torpid liver, which prevents digestion and permits food to ferment and putrify in the stomach. Then follow dizziness, headache, insomnia, nervousness, and, if not relieved, bilious fever or blood poisoning. Hood's Pills stimulate the stomach, rouse the liver, cure headache, dizziness, constipation, etc. 25 cents. Sold by all druggists. The only Pills to take with Hood's Sarsaparilla.

Mr. J. R. Stratton Returns Thanks.

Mr. J. R. Stratton has just issued his address of thanks to the electors of West Peterborough. He congratulates his friends and supporters upon Tuesday's magnificent victory; and on his own part, and also on behalf of the Hardy Administration (which, he says, has again been undoubtedly sustained in the contest just closed), he heartily extends thanks to all who have in any way, great or small, contributed to this result in this riding. He acknowledges the support of a large number of broad-minded, independent Conservatives, and repeats what he has often said before, and what he has always tried to live up to—that he will strive to show that in his representative capacity he considers himself the representative, not only of those who supported him, but of every elector in West Peterborough irrespective of politics.

A Successful Appeal. Before Judge Weller yesterday, Mr. Joseph Armstrong (of the Rodage), who was fined \$50 and costs by Police Magistrate Dumble for selling liquor to a person apparently under 21 years of age, appealed against his conviction. Mr. Armstrong of the License Holders' Association appeared in support of the appeal, whilst Mr. Edwards, town solicitor, was for the prosecution. The case was practically reheard, all the witnesses who gave evidence at the Police Court being again called. Simmons was examined. His father said he would be twenty years old next month and the license inspector and Constable Adams admitted that the young man was not "apparently under twenty." His Honor allowed this appeal, thus squashing the conviction.

A Road to the North

Mr. P. W. C. Shewen, of Aspley, was in town yesterday and favored the Times with a call. Mr. Shewen, like all his fellow citizens in the north, is anxious for railway connection with Peterborough, and assures us that the people would render the project every assistance in their power. While on this subject we might add that should Mr. Starr build the road to Lakefield, as proposed inducements might be of fered to continue the line to Young's Point and Burleigh, and then to Aspley. The people in Burleigh will give the right of way and supply, free of charge, all the ties and poles necessary for the building of the road. It might be operated as an electric road in summer and a steam road in winter. We commend this subject to the Board of Trade and Mr. Starr.

The Minden & Muskoka Railway

A meeting of the Provisional Directors appointed by statute in the charter of the railway was held in the village of Minden on Wednesday last when the business of organizing the company and appointing officers resulted as follows: President, Chas. D. Curry, Esq., M.D. Vice-President, Wm. Bartle, Esq. Secretary, John H. Delamere, Esq. Treasurer, Wm. McLaughlin, Esq. Arrangements were made for a deputation to proceed to Ottawa early in March to interview the Dominion Government regarding a bonus for the road which if granted active work on the construction of the line will be immediately proceeded with.—Minden Echo.

Defective Postage Stamps. We noticed a decided defect in the new issue of postage stamps, the lack of some mark that would serve for at once distinguishing the top from the bottom. One is repeatedly putting the new stamp on upside down and as loyal subjects of Her Majesty, it hurts one's feelings to be found guilty of standing Her Majesty on her head. When another issue is required it would be a good idea to reduce the size of the ear rings and make the top distinct in design from the bottom, perhaps by substituting figures for the maple leaves in the lower corner.
